"UFO" REPORT - INVERNESS-SHIRE - 25 JUL 96

1. The attached "UFO" report was received via Inverness Police. It is an unusual sighting in that the three witnesses are all policemen and the duration of the sighting spans some 40 minutes.

2. As we have already discussed, the MOD's remit in respect of "UFO" reports is to determine whether the sighting represents something of air defence interest; namely, is there evidence of a breach of the UK ADR?

3. I should be grateful for your comments on the attached. Were there any unusual radar returns which tie in with the report?
