Extending the State of Emergency is about ensuring that we can legally make the changes our health experts need to keep us safe.

This does not change how long our current lockdown will last, or increase the restrictions we face.

Can you please give some information in regard to what easing restrictions will be like in the coming weeks, and what this means to Victorians, we are all in the dark Dan. I have never been one to be afraid of the dark but you have made me really scared... #auspol #DanielAndrews

Your tweet has me wondering. Do you not have have any parents, relative or friends you love and care about who live with disability or chronic illness?

As a person who is actively engaged in the life and care of vulnerable loved one I can't imagine think as you do. So sad.
