(5:18:31 AM) leondavidson@jabber.org/jabber.org: chillin just got back from work

(5:19:20 AM) yohoho@jabber.ccc.de: yeah I posted five bulletins earlier

(5:19:30 AM) yohoho@jabber.ccc.de: live on IRC auctioning them off for donations for freeanons

(5:19:40 AM) yohoho@jabber.ccc.de: two of them have to do with anonymous and lulzsec

(5:19:46 AM) yohoho@jabber.ccc.de: are pretty interesting.

(5:19:56 AM) yohoho@jabber.ccc.de: was also done for bradley manning

(5:21:35 AM) leondavidson@jabber.org/jabber.org: link me

(5:21:43 AM) leondavidson@jabber.org/jabber.org: I want to see what they said about lulzsec

(5:22:01 AM) yohoho@jabber.ccc.de: the 2nd and 3rd are most related to lulzsec

(5:22:12 AM) yohoho@jabber.ccc.de: it's nothing groundbreaking

(5:22:20 AM) yohoho@jabber.ccc.de: just pretty much confirms they are aware of our activities

(5:22:21 AM) yohoho@jabber.ccc.de: and monitor irc

(5:22:31 AM) leondavidson@jabber.org/jabber.org: yeah

(5:22:35 AM) leondavidson@jabber.org/jabber.org: thats a given at this point

(5:22:50 AM) yohoho@jabber.ccc.de: yep but it is interesting reading it from their point of view

(5:22:58 AM) yohoho@jabber.ccc.de: the 2nd one is secifically about 'doxing'

(5:24:27 AM) **yohoho@jabber.ccc.de:** I am still having trouble copying these mails.  
(5:24:29 AM) **yohoho@jabber.ccc.de:** In fact, it got worse.  
(5:24:34 AM) **yohoho@jabber.ccc.de:** Sysadmin somewhat locked down boxes.  
(5:25:33 AM) **leondavidson@jabber.org/jabber.org:** wtf  
(5:25:35 AM) **leondavidson@jabber.org/jabber.org:** what do you mean  
(5:25:45 AM) **leondavidson@jabber.org/jabber.org:** locked down as in, secured them or completely shut them down  
(5:26:11 AM) **yohoho@jabber.ccc.de:** well there are about 8-10 servers total  
(5:26:13 AM) **yohoho@jabber.ccc.de:** mail is on core.  
(5:26:17 AM) **leondavidson@jabber.org/jabber.org:** I miss lulzsec I'm not going to front  
(5:26:23 AM) **leondavidson@jabber.org/jabber.org:** did so much owning in a small amount of time  
(5:26:24 AM) **yohoho@jabber.ccc.de:** now ssh to core is blocked off to public facing internet  
(5:26:38 AM) **yohoho@jabber.ccc.de:** but we were able to ssh in to one of the other boxes through autobot user  
(5:26:47 AM) **yohoho@jabber.ccc.de:** and then from there, ssh to www.s, and then ssh to core.  
(5:26:50 AM) **leondavidson@jabber.org/jabber.org:** were you able to get some of the mails or is it completely dead?  
(5:26:55 AM) **yohoho@jabber.ccc.de:** now they blocked off ssh'n to www from our first bounce  
(5:27:00 AM) **yohoho@jabber.ccc.de:** we did get ~10 spools  
(5:27:06 AM) **yohoho@jabber.ccc.de:** and  
(5:27:09 AM) **yohoho@jabber.ccc.de:** we still have root on all of them  
(5:27:15 AM) **yohoho@jabber.ccc.de:** it's just trickier  
(5:27:37 AM) **yohoho@jabber.ccc.de:** since we can't ssh straight, we're using a reverse shell from www  
(5:27:41 AM) **yohoho@jabber.ccc.de:** and then from there, ssh'n to core  
(5:28:05 AM) **yohoho@jabber.ccc.de:** but since it is not a truly interactive tty, we cannot run scp  
(5:28:16 AM) **yohoho@jabber.ccc.de:** because it depends on us confirming host identity and entering password  
(5:28:38 AM) **yohoho@jabber.ccc.de:** me and alex worked hard to get a JSP based webshell on core that they will likely never discover, and we have suid shells all over that box  
(5:28:41 AM) **leondavidson@jabber.org/jabber.org:** yeah  
(5:28:53 AM) **yohoho@jabber.ccc.de:** but that shell is really shitty handling multiple arguments  
(5:28:54 AM) **leondavidson@jabber.org/jabber.org:** good shit  
(5:28:57 AM) **yohoho@jabber.ccc.de:** I just want to copy everything in mass at this point, no tar, no nothing  
(5:29:06 AM) **yohoho@jabber.ccc.de:** No one's been on the system for a good 8 hours, I doubt they will in the morning either.  
(5:29:17 AM) **yohoho@jabber.ccc.de:** They are very consistently on the box during business hours in texas.  
(5:29:21 AM) **leondavidson@jabber.org/jabber.org:** do this homey  
(5:29:48 AM) **leondavidson@jabber.org/jabber.org:** set up a symlink on the web server to the spool directory or do a hardlink and give it o+r and use wget from a hacked box and screen it  
(5:29:59 AM) **leondavidson@jabber.org/jabber.org:** disable apache logging temporarily  
(5:30:07 AM) **yohoho@jabber.ccc.de:** no symlinks  
(5:30:09 AM) **yohoho@jabber.ccc.de:** it's not apache

(5:30:11 AM) **yohoho@jabber.ccc.de:** it's jetty  
(5:30:13 AM) **leondavidson@jabber.org/jabber.org:** ah  
(5:30:14 AM) **yohoho@jabber.ccc.de:** some straight garbage  
(5:30:16 AM) **leondavidson@jabber.org/jabber.org:** gay  
(5:30:21 AM) **yohoho@jabber.ccc.de:** that's why were forced to use jsp  
(5:30:25 AM) **yohoho@jabber.ccc.de:** and also, no directory listings  
(5:30:40 AM) **yohoho@jabber.ccc.de:** theoretically I can adjust the xml config file for jetty and enable directory listings, but I don't think it supports symlinks  
(5:30:47 AM) **yohoho@jabber.ccc.de:** also, they may notice restarts  
(5:30:51 AM) **leondavidson@jabber.org/jabber.org:** mhm  
(5:31:00 AM) **yohoho@jabber.ccc.de:** fuckin java  
(5:31:23 AM) **leondavidson@jabber.org/jabber.org:** gayness  
(5:31:36 AM) **leondavidson@jabber.org/jabber.org:** feds been doing a lot of raids my nigga  
(5:31:44 AM) **leondavidson@jabber.org/jabber.org:** that anonpanda kid from cabincrew got raided  
(5:31:49 AM) **leondavidson@jabber.org/jabber.org:** in the norway raids this weekend  
(5:31:56 AM) **yohoho@jabber.ccc.de:** yeah I heard about that  
(5:32:00 AM) **yohoho@jabber.ccc.de:** some kids in norway too right?  
(5:32:06 AM) **yohoho@jabber.ccc.de:** hrm. they were blabbing hard  
(5:32:22 AM) **yohoho@jabber.ccc.de:** also  
(5:32:33 AM) **yohoho@jabber.ccc.de:** apparently anonanda was text messaging katanon after he was raided  
(5:32:38 AM) **yohoho@jabber.ccc.de:** saying that he was raided, freaked out, etc  
(5:32:40 AM) **yohoho@jabber.ccc.de:** kind of weird.  
(5:32:57 AM) **yohoho@jabber.ccc.de:** I love ya but I wouldn't give you my cellphone <3  
(5:33:08 AM) **leondavidson@jabber.org/jabber.org:** yeah he either wants her attention or he really did get rocked  
(5:33:14 AM) **leondavidson@jabber.org/jabber.org:** yeah its all about opsec nigga  
(5:33:40 AM) **yohoho@jabber.ccc.de:** is he US? cause usually that'd be in the news  
(5:33:48 AM) **leondavidson@jabber.org/jabber.org:** I think hes in norway  
(5:33:57 AM) **leondavidson@jabber.org/jabber.org:** hence hes one of the 5 norwegians raided  
(5:34:14 AM) **yohoho@jabber.ccc.de:** ah  
(5:34:20 AM) **yohoho@jabber.ccc.de:** hmm I wish we had some proper root backdoors  
(5:34:31 AM) **yohoho@jabber.ccc.de:** I was thinking of writing some custom su and sudo backdoors to capture shit  
(5:34:39 AM) **yohoho@jabber.ccc.de:** and I want to get a stable, private bindshell running  
(5:34:52 AM) **yohoho@jabber.ccc.de:** used to have this killer perl based bindshell that was a billion times better than all this cheapass < > shit  
(5:34:56 AM) **leondavidson@jabber.org/jabber.org:** I'm old school-I prefer backdooring sshd also those revolusec kids custom write LKM backdoors  
(5:35:00 AM) **yohoho@jabber.ccc.de:** lost it. private cdc warez. not public gone for good =(  
(5:35:03 AM) **leondavidson@jabber.org/jabber.org:** H's boy I forgot his name  
(5:35:28 AM) **yohoho@jabber.ccc.de:** yeah some of them are skilled, others, not so  
(5:35:45 AM) **yohoho@jabber.ccc.de:** meowsef's aight and learning but really if you're not better than me, than you can't help me  
(5:35:57 AM) **leondavidson@jabber.org/jabber.org:** yeah

(5:36:16 AM) **yohoho@jabber.ccc.de:** i'd like to pick h and nim's brain more  
(5:36:25 AM) **yohoho@jabber.ccc.de:** but have not been able to spot them online  
(5:36:41 AM) **yohoho@jabber.ccc.de:** wicked's been very communiative and helpful with the overall goals but not really giving any hands on help  
(5:37:21 AM) **yohoho@jabber.ccc.de:** I wish I knew more about iptables, so I can clandestinely open this box up. a bit better  
(5:37:43 AM) **yohoho@jabber.ccc.de:** if we had a bindshell that hid it's process and could open on a port that was accessible form the outside world, that be best  
(5:37:48 AM) **yohoho@jabber.ccc.de:** no www logs, no ssh logins  
(5:38:03 AM) **yohoho@jabber.ccc.de:** if I was sysadmin now and saw what I already saw, i'd pull the box offline  
(5:38:40 AM) **leondavidson@jabber.org/jabber.org:** [http://vladz.devzero.fr/exploits/Xorg-CVE-2011-4029\\_inotify.c.txt](http://vladz.devzero.fr/exploits/Xorg-CVE-2011-4029_inotify.c.txt) win for debians  
(5:39:12 AM) **yohoho@jabber.ccc.de:** oh, shit  
(5:39:19 AM) **yohoho@jabber.ccc.de:** I need to revisit some old boxen  
(5:39:27 AM) **leondavidson@jabber.org/jabber.org:** jea  
(5:39:51 AM) **leondavidson@jabber.org/jabber.org:** this is good ironically I found a vuln+coded a Oday local root for xorg a couple of years ago  
(5:39:58 AM) **leondavidson@jabber.org/jabber.org:** tats how I ended u rooting trough ns1.id  
(5:40:00 AM) **yohoho@jabber.ccc.de:** "Trying to stop a Xorg process  
"  
(5:40:02 AM) **yohoho@jabber.ccc.de:** hrm.  
(5:40:05 AM) **yohoho@jabber.ccc.de:** sounds pretty verbose  
(5:40:35 AM) **leondavidson@jabber.org/jabber.org:** fucking tired  
(5:40:43 AM) **leondavidson@jabber.org/jabber.org:** anything interesting in those spools?  
(5:40:58 AM) **yohoho@jabber.ccc.de:** well I'm only reading one account  
(5:41:07 AM) **yohoho@jabber.ccc.de:** mostly development back and forth discussions with other programmers  
(5:41:30 AM) **yohoho@jabber.ccc.de:** I did skim a few others and it's all pretty interesting global political scandal type shit  
(5:41:38 AM) **yohoho@jabber.ccc.de:** I really want to hit the CEO who wrote all these books  
(5:41:44 AM) **yohoho@jabber.ccc.de:** and a few bosses.  
(5:41:53 AM) **yohoho@jabber.ccc.de:** the NY spools are pretty interesting too  
(5:42:07 AM) **yohoho@jabber.ccc.de:** I skimmed one last night and pulled about 30 "for official use only" docs including the ones published earlier  
(5:42:20 AM) **leondavidson@jabber.org/jabber.org:** throw them somewhere nigg I want to start reading and pickign the good shit  
(5:42:29 AM) **yohoho@jabber.ccc.de:** some of those are already available for private viewing, actually.  
(5:42:36 AM) **yohoho@jabber.ccc.de:** just like 3-4, not the most interesting ones either  
(5:42:39 AM) **leondavidson@jabber.org/jabber.org:** jEA  
(5:42:58 AM) **yohoho@jabber.ccc.de:** there's about 4 california spools too  
(5:43:03 AM) **yohoho@jabber.ccc.de:** maybe 9 total NY ones  
(5:43:11 AM) **yohoho@jabber.ccc.de:** i'm guessing ~3-4 GB for ca/ny combined  
(5:43:33 AM) **yohoho@jabber.ccc.de:** unfortunately we lost the specialforces mail spools on our leetnet .onion that went down

(5:43:42 AM) **yohoho@jabber.ccc.de:** q had a local copy that he actually gave to presstorm of all people

(5:44:23 AM) **leondavidson@jabber.org/jabber.org:** well presstorm's jamie left me like 80 ranting messages

(5:44:32 AM) **leondavidson@jabber.org/jabber.org:** bitch is crazy

(5:44:51 AM) **yohoho@jabber.ccc.de:** more than crazy

(5:45:05 AM) **yohoho@jabber.ccc.de:** most of the shit they were posting in the end was right-wing as fuck

(5:45:10 AM) **leondavidson@jabber.org/jabber.org:** eah

(5:45:36 AM) **yohoho@jabber.ccc.de:** I told q well before it came out she was undercover that she was sketch as fuck

(5:46:01 AM) **yohoho@jabber.ccc.de:** but we gave them specialforces spools well before any of us knew how wack they were

(5:46:04 AM) **yohoho@jabber.ccc.de:** I still don't like NASDAQ

(5:46:17 AM) **leondavidson@jabber.org/jabber.org:** I miss q. hope hes ok with all his life drama

(5:46:39 AM) **yohoho@jabber.ccc.de:** yeah when was the last yall heard form him?

(5:46:48 AM) **leondavidson@jabber.org/jabber.org:** couple of weeks

(5:47:36 AM) **yohoho@jabber.ccc.de:** too bad he lost copy of specialforces mail

(5:47:39 AM) **yohoho@jabber.ccc.de:** it was golden

(5:48:55 AM) **yohoho@jabber.ccc.de:** yeah see I saw both of them going nuts for the past week

(5:49:29 AM) **leondavidson@jabber.org/jabber.org:** he thought he was the man for releasin specialforces. douchbag. cant wait for you to release hacklog to prove you hit it first

(5:49:31 AM) **yohoho@jabber.ccc.de:** I already started writing that part of the story but have primarily been focusing on writing teh text for the intro and stratfor sections first so that way other people can work on it while I finish the other sections

(5:49:44 AM) **yohoho@jabber.ccc.de:** hold on

(5:50:10 AM) **leondavidson@jabber.org/jabber.org:** kk

(6:00:32 AM) **yohoho@jabber.ccc.de:** addresses, credit cards, passwords  
(1:00:09 AM) **leondavidson@jabber.org/jabber.org:** yo

(12:00:17 AM) **yohoho@jabber.ccc.de:** you should strategize with e regardin the cards too  
(12:00:22 AM) **yohoho@jabber.ccc.de:** yeah they are aware of something  
(12:00:36 AM) **leondavidson@jabber.org/5565efd31a063086:** no good. my prediction about the ccs might be correct  
(12:00:37 AM) **yohoho@jabber.ccc.de:** but we still got it on lock

(12:03:00 AM) leondavidson@jabber.org/5565efd31a063086: just pass pubkey from hacked box for auth if needed  
(12:03:22 AM) yohoho@jabber.ccc.de: well we can copy it from source to a box, but then where to from there?  
(12:03:25 AM) yohoho@jabber.ccc.de: cant go directly to our hidden onion

(4:30:35 AM) leondavidson@jabber.org/ed814da0ae9d00a1: ?  
(4:31:06 AM) yohoho@jabber.ccc.de: thinking about building mysql on this  
(4:31:17 AM) yohoho@jabber.ccc.de: or whether we can move data from here to the .onion and analyze from there

(4:31:28 AM) **yohoho@jabber.ccc.de:** clearspace  
(4:31:50 AM) **yohoho@jabber.ccc.de:** it's mostly file attachments stored in mysql  
(4:31:58 AM) **yohoho@jabber.ccc.de:** and I could export all that shit  
(4:32:08 AM) **yohoho@jabber.ccc.de:** I remember seeing intelligence documents, internal reports  
(4:32:15 AM) **yohoho@jabber.ccc.de:** including NYPD SHIELD reports  
(4:32:18 AM) **leondavidson@jabber.org/ed814da0ae9d00a1:** do it brother  
(4:32:24 AM) **leondavidson@jabber.org/ed814da0ae9d00a1:** I give you my sword  
(4:32:55 AM) **yohoho@jabber.ccc.de:** hmm not sure it's safe to transfer directly to our current server..  
(4:33:17 AM) **leondavidson@jabber.org/ed814da0ae9d00a1:** well  
(4:33:19 AM) **leondavidson@jabber.org/ed814da0ae9d00a1:** true  
(4:33:33 AM) **leondavidson@jabber.org/ed814da0ae9d00a1:** want a tip from uncle bu?  
(4:33:36 AM) **yohoho@jabber.ccc.de:** or we can build apache and mysql on this box  
(4:33:46 AM) **leondavidson@jabber.org/ed814da0ae9d00a1:** heres my ideas  
(4:34:15 AM) **leondavidson@jabber.org/ed814da0ae9d00a1:** 1) whenever you need a throwaway vps for under 5 bucks use buildyourvps.com to card a vps on the spt. it will die in a few hours. but by then your job is done. it is destroyed. no logs. no evidence  
(4:34:27 AM) **yohoho@jabber.ccc.de:** hmm cpio's on this box  
(4:34:36 AM) **leondavidson@jabber.org/ed814da0ae9d00a1:** 2) you install mysql client/server on my server and import the data like a champ  
(4:34:45 AM) **leondavidson@jabber.org/ed814da0ae9d00a1:** YA FEEL ME  
(4:41:38 AM) **yohoho@jabber.ccc.de:** nohup cpio -ivd <./mails.tar > ~/cpio.out &  
(4:41:41 AM) **yohoho@jabber.ccc.de:** ok it's running  
(4:41:49 AM) **yohoho@jabber.ccc.de:** hopefully it wont run into that 2GB problem  
(4:41:59 AM) **yohoho@jabber.ccc.de:** i'll skim the spools as they become available  
(4:42:02 AM) **leondavidson@jabber.org/ed814da0ae9d00a1:** yup  
(4:42:12 AM) **yohoho@jabber.ccc.de:** if memory served, each spool was ~1-3GB compressed  
(4:42:18 AM) **yohoho@jabber.ccc.de:** for the ones I copied manually  
(4:43:47 AM) **yohoho@jabber.ccc.de:** I'm not sure if this is going to retain folder structure  
(4:43:56 AM) **yohoho@jabber.ccc.de:** INBOX, Sent, etc  
(4:44:06 AM) **leondavidson@jabber.org/ed814da0ae9d00a1:** when I untar'd those first 2 gigs  
(4:44:11 AM) **leondavidson@jabber.org/ed814da0ae9d00a1:** it didn't retain folder structure anyway  
(4:44:13 AM) **leondavidson@jabber.org/ed814da0ae9d00a1:** it was like  
(4:44:14 AM) **leondavidson@jabber.org/ed814da0ae9d00a1:** folder  
(4:44:15 AM) **leondavidson@jabber.org/ed814da0ae9d00a1:** store  
(4:44:20 AM) **leondavidson@jabber.org/ed814da0ae9d00a1:** 0 2 3 4 5 6 7 2 53453 534w65 46  
(4:44:24 AM) **yohoho@jabber.ccc.de:** yeah it's all msg  
(4:44:28 AM) **leondavidson@jabber.org/ed814da0ae9d00a1:** inside those were separate msg files  
(4:44:42 AM) **yohoho@jabber.ccc.de:** this is how it is stored on the server itself  
(4:44:52 AM) **yohoho@jabber.ccc.de:** how zimbra stores it  
(4:44:57 AM) **yohoho@jabber.ccc.de:** theres also a mysql component  
(4:46:24 AM) **yohoho@jabber.ccc.de:** which we have  
(4:46:40 AM) **yohoho@jabber.ccc.de:** but it drives some zimbra features like whether messages were read or not, etc

(4:46:46 AM) **yohoho@jabber.ccc.de:** these are the actual emails  
(4:47:02 AM) **yohoho@jabber.ccc.de:** but it's still just gonna be one big pile of emails for each user  
(4:48:06 AM) **yohoho@jabber.ccc.de:** vpn# cpio: Damaged tar archive: Invalid argument  
(4:48:10 AM) **yohoho@jabber.ccc.de:** Hrmmmmm  
(4:48:19 AM) **yohoho@jabber.ccc.de:** fuck  
(4:48:53 AM) **leondavidson@jabber.org/ed814da0ae9d00a1:** theres other alternatives relax  
(4:48:56 AM) **leondavidson@jabber.org/ed814da0ae9d00a1:** files are stil there  
(4:49:01 AM) **leondavidson@jabber.org/ed814da0ae9d00a1:** how far did it get/  
(4:49:04 AM) **leondavidson@jabber.org/ed814da0ae9d00a1:** 2 gigs again?  
(4:49:41 AM) **yohoho@jabber.ccc.de:** it got 420 and 442  
(4:49:48 AM) **yohoho@jabber.ccc.de:** maybe not all of 442  
(4:49:55 AM) **leondavidson@jabber.org/ed814da0ae9d00a1:** yup thats what I saw with regular tar  
(4:50:55 AM) **leondavidson@jabber.org/ed814da0ae9d00a1:**  
[http://www.bestsolution.at/en/03\\_Products~---~Projects\\_12\\_repair~nbspcorrupt~nbspcorrupt~archives.html](http://www.bestsolution.at/en/03_Products~---~Projects_12_repair~nbspcorrupt~nbspcorrupt~archives.html)  
(4:51:15 AM) **leondavidson@jabber.org/ed814da0ae9d00a1:** theres a perl script some asshat wrote that will go through the tar and parse out all the right chunks  
(4:51:57 AM) **leondavidson@jabber.org/ed814da0ae9d00a1:**  
<http://www.datanumen.com/atr/recovery.htm>  
(4:52:00 AM) **leondavidson@jabber.org/ed814da0ae9d00a1:** windows app for the gay  
(4:52:44 AM) **leondavidson@jabber.org/ed814da0ae9d00a1:** ahahahha  
(4:52:48 AM) **leondavidson@jabber.org/ed814da0ae9d00a1:** I know what alex did  
(4:52:49 AM) **leondavidson@jabber.org/ed814da0ae9d00a1:** hahahah  
(4:52:50 AM) **yohoho@jabber.ccc.de:** this is fucked  
(4:52:50 AM) **leondavidson@jabber.org/ed814da0ae9d00a1:** hahaaah  
(4:52:52 AM) **leondavidson@jabber.org/ed814da0ae9d00a1:** he fucking  
(4:53:01 AM) **leondavidson@jabber.org/ed814da0ae9d00a1:** transfered the tar using ascii mode  
(4:53:03 AM) **leondavidson@jabber.org/ed814da0ae9d00a1:** via ftp  
(4:53:04 AM) **leondavidson@jabber.org/ed814da0ae9d00a1:** hahahahahah

(4:54:17 AM) **leondavidson@jabber.org/ed814da0ae9d00a1:** want me to handle this?  
(4:54:20 AM) **leondavidson@jabber.org/ed814da0ae9d00a1:** you go work on more important shit  
(4:54:25 AM) **leondavidson@jabber.org/ed814da0ae9d00a1:** im the fucking man right now

(4:54:34 AM) **yohoho@jabber.ccc.de:** I can try to see what's up with clearspace  
(4:54:38 AM) **leondavidson@jabber.org/ed814da0ae9d00a1:** got you

sup\_g hrm yes unfortunately I don't think we will be able to do any audio or video

sup\_g I hope you understand

AJEMatteen i do.

AJEMatteen but I have seen you guys disguised yourselves.

AJEMatteen disguise.

AJEMatteen (in the past)

(5:47:17 AM) yohoho@jabber.ccc.de: is this real?

(5:47:22 AM) leondavidson@jabber.org/jabber.org: yes

(5:47:24 AM) leondavidson@jabber.org/jabber.org: he refers to topiary

(5:47:59 AM) yohoho@jabber.ccc.de: umm who biella referred me to

(5:48:01 AM) yohoho@jabber.ccc.de: started with e

(5:48:10 AM) yohoho@jabber.ccc.de: actually, he's on jabber now too

(5:48:19 AM) leondavidson@jabber.org/jabber.org: yeah

(5:48:37 AM) yohoho@jabber.ccc.de: and he sowed me articles before  
(5:48:42 AM) yohoho@jabber.ccc.de: this guy just wants us on the air?

(5:48:57 AM) leondavidson@jabber.org/jabber.org: haha

(5:49:02 AM) leondavidson@jabber.org/jabber.org: hes the real thing though  
(5:49:06 AM) leondavidson@jabber.org/jabber.org: I guess he's rushing the story  
(5:49:07 AM) leondavidson@jabber.org/jabber.org: it makes sense  
(5:49:13 AM) leondavidson@jabber.org/jabber.org: they go live at 7am est  
(5:49:20 AM) leondavidson@jabber.org/jabber.org: he wants to be the first to get the story on television  
(5:49:22 AM) leondavidson@jabber.org/jabber.org: monday morning  
(5:53:17 AM) yohoho@jabber.ccc.de: ok now he's getting some good questions in  
(5:53:26 AM) leondavidson@jabber.org/jabber.org: good  
(5:57:08 AM) yohoho@jabber.ccc.de: AJEMatteen do you have a list of the charities you were able to aid? And the corporate clients you managed to hack?  
sup\_g One minute, let me get you a few screenshots of the donations as they were made AJEMatteen that would be awesome.  
AJEMatteen G I want to make you an offer.  
AJEMatteen If Anon would like to make a video statement we will run it. You produce it and send it to us.

(5:57:23 AM) leondavidson@jabber.org/jabber.org: HOLY  
(5:57:23 AM) leondavidson@jabber.org/jabber.org: SHIT  
(5:57:33 AM) leondavidson@jabber.org/jabber.org: you better go kiss disacordians ass now  
(5:57:35 AM) leondavidson@jabber.org/jabber.org: HHAHAHAHAHAHAHAHAHAHAH  
(5:57:38 AM) leondavidson@jabber.org/jabber.org: H4H4H4H4H4H4H4H4  
(5:57:51 AM) leondavidson@jabber.org/jabber.org: I fucking told you disacordian was useful  
(5:58:08 AM) leondavidson@jabber.org/jabber.org: ok heres the problem we have  
(5:58:14 AM) leondavidson@jabber.org/jabber.org: we don't have no fucking body to make us a video in an hour  
(5:58:32 AM) yohoho@jabber.ccc.de: thats ridiculous  
(5:58:47 AM) yohoho@jabber.ccc.de: it's going to take days, at least, all we can offer is text, pictures, and the data itself  
(5:59:09 AM) leondavidson@jabber.org/jabber.org: true  
(5:59:23 AM) leondavidson@jabber.org/jabber.org: damn it  
(5:59:30 AM) leondavidson@jabber.org/jabber.org: this is a once in a life time opportunity  
(6:00:13 AM) yohoho@jabber.ccc.de: hah  
(6:00:14 AM) yohoho@jabber.ccc.de: not really.  
(6:00:19 AM) yohoho@jabber.ccc.de: there's plenty of other targets on the way  
(6:00:57 AM) leondavidson@jabber.org/jabber.org: true

(6:01:10 AM) **yohoho@jabber.ccc.de:** other AJE guy is idle  
(6:02:51 AM) **yohoho@jabber.ccc.de:** dunno man this is kind of weird  
(6:03:06 AM) **leondavidson@jabber.org/jabber.org:** I think he's just rushing to get the story on air tis all  
(6:03:20 AM) **yohoho@jabber.ccc.de:** AJEMatteen do you have a list of the charities you were able to aid? And the corporate clients you managed to hack?  
sup\_g One minute, let me get you a few screenshots of the donations as they were made AJEMatteen that would be awesome.  
AJEMatteen G I want to make you an offer.  
AJEMatteen If Anon would like to make a video statement we will run it. You produce it and send it to us.  
sup\_g I will have to see if that is within our capabilities at the moment: our hands are full, what is the deadline?  
sup\_g In the meantime, written statements, pictures, and the data itself is all we are able to offer  
sup\_g we are putting together a full statement with all the other targets set to go off by the 30/31st  
AJEMatteen I would love to have all your pictures, statements and data.  
sup\_g there are other targets on the way  
AJEMatteen here is the problem. we are 24 hour news.  
AJEMatteen i hate to say it, but they way things work is that unless there is something in the news it doesn't run.  
AJEMatteen (remember, something could go down in Baghdad or say Syria...)  
AJEMatteen if that were to happen, Anonymous' hack moves down the priority list.  
AJEMatteen (i am sorry to say this, but it's just how it works)  
sup\_g I understand: do what you need to do, but none of us can do a live video or audio program  
sup\_g We may be able to produce a video but it will take at least a day or two  
sup\_g All we can offer is statements, pictures, data  
AJEMatteen I understand.  
AJEMatteen your safety has to be your priority.  
sup\_g <http://pastebin.com/bQ2YHDdw> <- this was released earlier this morning  
AJEMatteen G - let me make this offer if you if somehow someone can put together a video statement within 6 hours it will run.  
sup\_g here are a few images  
sup\_g <http://imagebin.org/190298> <http://imagebin.org/190299> <http://imagebin.org/190300>  
<http://imagebin.org/190301> <http://imagebin.org/190302>  
AJEMatteen I can't promise anything two days from now.  
sup\_g those images are screenshots of using live credit card information on the charities  
(6:03:44 AM) **yohoho@jabber.ccc.de:** @AJEMatteen is him  
(6:03:47 AM) **leondavidson@jabber.org/jabber.org:** yeah  
(6:04:18 AM) **leondavidson@jabber.org/jabber.org:** I have a plan  
(6:04:22 AM) **leondavidson@jabber.org/jabber.org:** lets wake biella up  
(6:04:26 AM) **leondavidson@jabber.org/jabber.org:** and have her do it  
(6:06:26 AM) **yohoho@jabber.ccc.de:** not a bad idea  
(6:06:37 AM) **yohoho@jabber.ccc.de:** I am sending him pictures, text releases, and the released cards so far  
(6:06:40 AM) **yohoho@jabber.ccc.de:** link to the defacement

(6:06:44 AM) leondavidson@jabber.org/jabber.org: ok while you do that I'll wake her ass up  
(6:06:45 AM) leondavidson@jabber.org/jabber.org: brb

(6:07:30 AM) yohoho@jabber.ccc.de: going on AJE to talk about stratfor... FUUCK  
(6:07:38 AM) leondavidson@jabber.org/jabber.org: biella will beat up the president for me  
(6:07:48 AM) yohoho@jabber.ccc.de: hah hel yes  
(6:08:09 AM) leondavidson@jabber.org/jabber.org: we just gotta brief her on the hack and our points  
(6:08:12 AM) leondavidson@jabber.org/jabber.org: she'll handle the erst  
(6:08:13 AM) leondavidson@jabber.org/jabber.org: rest  
(6:10:22 AM) leondavidson@jabber.org/jabber.org: bro we're #4 on news.google.com  
(6:10:23 AM) leondavidson@jabber.org/jabber.org: thats like

(6:11:07 AM) leondavidson@jabber.org/jabber.org: I bet you itll shake some things up

sup\_g they will pay for the pain they cause around the world

(6:18:28 AM) leondavidson@jabber.org/jabber.org: win  
(8:08:32 AM) leondavidson@jabber.org/jabber.org: too tired. I'm going to leave it alone before I fuck it up worse than it is. at least the mails are there in one big file  
(8:08:36 AM) leondavidson@jabber.org/jabber.org: we just need to parse this bitch  
(8:08:59 AM) yohoho@jabber.ccc.de: yeah hopefully alex will pop on and clue us in  
(8:09:56 AM) leondavidson@jabber.org/jabber.org: might sound stupid as fuck but have him try to transfer the file as a binary via ftp locally. setup a ftpd and try it that way. it should kill out all those nulls  
(8:12:07 AM) leondavidson@jabber.org/jabber.org: lockerz.com/s/168606687

(6:56:11 PM) **yohoho@jabber.ccc.de**: for example we included some cabin crew people

(6:56:19 PM) **leondavidson@jabber.org/jabber.org**: true

(6:56:21 PM) **yohoho@jabber.ccc.de**: also

(6:56:45 PM) **yohoho@jabber.ccc.de**: (U//FOUO) Following law enforcement action against Anonymous and LulzSec, individuals claiming to be members of the groups contacted FBI field offices in an attempt to provide information and become informants. While some individuals may have had honest intentions when contacting the FBI, others may have engaged in social engineering to solicit information about law enforcement personnel or active investigations of Anonymous and LulzSec. In addition, individuals may have also contacted the FBI to provide misinformation about the identities of Anonymous and LulzSec members and their activities as a means of interfering with law enforcement investigations.

- (U//FOUO) In June 2011, suspected members of LulzSec discussed a scheme to provide misinformation to the FBI in a private Internet Relay Chat (IRC) channel. Members discussed having an FBI informant with access to the IRC channel contact his handling agent to provide misinformation in exchange for payment. Once this occurred, the group then planned to publicize the incident and to give the impression that the FBI was funding LulzSec activities.

- (U//FOUO) In October 2011, an FBI source with unknown reliability reported that an individual contacted FBI field offices via e-mail claiming to have information regarding Anonymous. Source reporting suggests that this individual had previously discussed in chat logs attempts to social engineer an FBI agent to download malware.

(6:57:39 PM) **yohoho@jabber.ccc.de**: yeah that's what I'm thinking

(6:57:41 PM) **yohoho@jabber.ccc.de**: is a possibility

(6:57:49 PM) **yohoho@jabber.ccc.de**: this all sounds quite fishy

(6:57:55 PM) **leondavidson@jabber.org/jabber.org**: indeed

(6:58:54 PM) **leondavidson@jabber.org/jabber.org**: ryan sent me the screen shots

Sabu, save this file and keep it with You.

As I said, I'm living my "virtual" life for good after 16.1 because I'm badly ill. I got brain cancer two years ago and sadly it's been worsening lately, some months before I popped up on Twitter and got in touch with You on #anonreport. That said, due to my illness I won't be able to do anything anymore, which is why I'm leaving for good on 16.1

Despite not being a hacker myself, I decided to join Anonymous because I found necessary to do something against all the shit ongoing in Finland since a few years and in the middle of a total silence and "don't-give-a-fuck" attitude by Finnish people. My purpose was and is to wake up people in this country, people mentally "narcotized" on their own will, and show them the shit that is going on at their damage: to stop racism, hidden and silencious illegality and similar shit. I hope You, the AntiSec people or other allied Anon battleship will be able to carry on successfully what I've started. And I wish You my best luck. Hopefully Your future actions will cause huge shitstorms here in Finland and some positive changes.
