Welcome to SomaEnergetics!

It is my intent that you use the information in this booklet for enlightenment and empowerment. In helping to re-introduce the Ancient Solfeggio Scale to the world, through the modality of tuning forks, I hope to help facilitate the expansion and activation of unused human potential. It is my desire to help you realize the healing potential that you possess is a portion of your inherent birthright. It is indeed my pleasure to share with you some basic concepts and techniques that you can use to help others and yourself during times of stress, dissonance, and discomfort.

One of our missions at **Light Within/SomaEnergetics™** is to swing the pendulum back from the traditional scientific thinking to a more holistic energetic approach to healing. Many people have surrendered their healing potential to advanced technology, leaving them feeling intimidated and disempowered. It is not our desire to discredit modern medicine; however, we should not lose sight of the expanded healing that can be accomplished by tapping into our own, inner intuitive capabilities, and integrating the mind, emotions and spirit into the process.

The Lost Frequencies of the Ancient Solfeggio Scale, that we are about to explore, are sacred tones which, I believe, can serve as a “vibrational bridge” to holistically re-integrate the physical, mental, emotional and spiritual aspects of the individual, as well as all of Humanity—collectively. These powerful frequencies were rediscovered by Dr. Joseph Puleo as described in the book [Healing Codes for the Biological Apocalypse](#) by Dr. Leonard Horowitz. I give honor to both of these gentlemen for the part they’ve played in helping return these lost frequencies back to humanity.

What is SomaEnergetics?

SomaEnergetics (Soma meaning “body” in the original Greek) is a powerful series of **Sound Therapies** that utilize tuning forks tuned to the frequencies of the **Ancient Solfeggio**. These amazing therapies release blockages in the energy bodies, and, thus, assists one with connecting with Source. Bringing these powerful frequencies back into use has been an amazing experience. We have a full range of training including workshops, teacher certification, and coming soon, a DVD home study course.

SomaEnergetics is built around the highest quality Solfeggio Tuning forks, which are custom-made for SomaEnergetics by a manufacturer who has over 3 decades of experience developing quality, therapeutic tuning forks. These anodized Solfeggio Frequency tuned forks are only available thru SomaEnergetics.

This wonderful quote from Dr. Horowitz and Dr. Puelo’s, book – [Healing Codes for the Biological Apocalypse](#) sums up the importance of this work: **“Nature and Grace”—the physical and the spiritual—reflect each other and reveal “the great fact” that there is a secret tone scale—or set of sounds—that vibrates at the exact frequencies required to transform spirit to matter, or matter to spirit”**

May your own Journey of discovery with these Ancient Tones be one of Wonderment and Joy,

Untl Then, Stay Tuned!

David E. Hulse, D.D.

A Personal Journey of Discovery...

by David Hulse, D.D.

www.SomaEnergetics.com

Being a student of metaphysical teachings in the late 80's, I was faced with a dichotomy in the idea that we are not a body. I never understood this statement fully until I read a quotation by Albert Einstein that stated: **“Concerning matter, we have been all wrong. What we have called matter is energy, whose vibration has been so lowered as to be perceptible to the senses. There is no matter.”** I believe what is being stated is that at the deepest level we are not separate, as a body, as a spirit, as a soul — we are just energy-beings. This is the level of consciousness being opened to us from which a new paradigm is emerging for the purpose of healing all separation. The popular term, “The Divine is in me,” makes “me” separate from the Divine. May I suggest a shift in the saying to: “The Divine, AS me” to remove the separation.

As we move from genetics and concepts like “Soul”, “Soul Mates” and “Soul work,” we move beyond physical diagnosis, into a new field of quantum physics. In this new field, where consciousness is seen as a unified field where “everything is everything else”, (T.O.E. Theory - The Theory of Everything), there are no boundaries. There is no “this” or “that,” no you or me. It is a pure field of awareness – consciousness. I solved the dichotomy about “we are not our body” by changing my perception of genetics to *energetics* - realizing that we are not meant to ignore our physiology, but recognize the body as energy, vibrating at a very dense frequency. (Trapped energy as ice is trapped H₂O.)

I was first introduced to DNA in 1988 when I was going through a transitional period, during which time, I felt that I had come to the end of many beliefs I had been taught from childhood. I was listening to a tape that was given to me of a gentleman speaking with an accent, (which, at the time I thought was rather boring), and I didn't understand what he was talking about. Then all of a sudden, as I was ready to turn it off, he said:

“Quantum physics has found that there is no empty space in the human cell, but it is a teeming, electro-magnetic field of possibility or potential.”

That's all he said! Whatever frequency was contained in those words, RESONATED a deep knowing inside the CORE of my BEING, and I had a “KNOWING” in me that the “NOTHING” I thought I was looking at was the “EVERYTHING”; much like in Zen...the idea of becoming “as an empty bowl”. Eastern Religions (including the Bible) refer to it as the VOID – The “Nothing” that is “EVERYTHING” – The Womb of Creation. I knew that I was experiencing a re-birth! The person on that tape was Dr. Deepak Chopra.

I had never heard of Deepak Chopra in 1988, as he was just coming on the scene about that time. I credit him for a very important transition in my life, just from the statement he made on that tape. Today, in retrospect, I would call my response to that statement a “cellular awakening”. We know that intelligence is stored within the cells of the body, and when the right resonance comes, information releases, awakening - inherent KNOWLEDGE. That is why so many of us seem to jump from one stimuli to another looking for what will resonate in us.

DNA LEADS TO THE FREQUENCIES

The work being done today with energy at the cellular level really excites me, since I had been very interested in DNA before it became a household word. In fact, I think it took me months to learn how to pronounce deoxyribonucleic acid. I was determined to understand this tremendously powerful energetic blueprint for life, as we know it. DNA became a part of the collective consciousness when CNN produced a special on the Genome Project in 2000.

As I pursued my passion for the study of DNA, I attended a workshop by Dr. Robert Girard from California on DNA Activation. His work focused on using certain sounds and frequencies to activate DNA and I started doing DNA Activation workshops. Through those workshops, an article was given to me that reported how biochemists were using the frequency 528 Hz to repair human DNA, the “blueprint of life”. After I read the article I thought, all I would need to do is go to a piano or some other instrument and play a “C”, and then I would be able to repair DNA.

Well, it wasn't that simple, because I discovered that the regular “C” that we know in the Western culture (which is from the diatonic scale of do, re, mi, fa, so, la, ti, do) was not the 528 Hz frequency “C”, as described in the article. Instead, I discovered that a regular “C” vibrates to a frequency of only 512 Hz, and that the “C” of 528 Hz, used in DNA repair, had been a part of an ancient sequence of frequencies called the *Solfeggio*. Moreover, the difference in the scales existed because of different tuning methods that were utilized in ancient times, vs. those in general use today. In the workshops, we explore how *music molds our character as well as our culture*.

THE BIRTH OF SOMAENERGETICS

At the turn of the century, my accelerating interest and research into the lost frequencies of the Ancient Solfeggio served as the Spirit-guided catalyst for the idea of bringing these tones back into use. I shared the frequencies with Aryiana, a musician friend who decided that she would like to experiment with these frequencies in the form of meditation music. She was also in touch with Jonathan Goldman (author of *Healing Sounds*) who knew of these frequencies, and was using them in some of his music like “The Lost Chord.” Jonathan Goldman, Aryiana and I each obtained a set of tuning forks calibrated to the Solfeggio scale and independently began our research.

During my travels across the country, I began noticing that people were resonating with the information about these powerful frequencies and asking me to use the tuning forks on them. Spurred on by these requests, while I continued to collect additional research, the right people were drawn to me, such as concert pianist and teacher Lois Winter and musician and mathematician, Randy Masters. “Bridging Spirit with Science”, **SomaEnergetics™** was birthed. I put much thought into this name, combining the Greek Word *soma*, meaning ‘body’, with *energetics*, to reflect the ‘wholistic’ idea of the body as a vibrant energy field. I firmly believe that these sacred tones actually serve as a “vibrational bridge” to holistic reintegration of the physical, mental, emotional and spiritual aspects of the individual.

After I founded and developed **SomaEnergetics™**, it became increasingly apparent that my method of using these tuning forks appeared to be helping individuals optimize their energy, giving them an enhanced sense of well being by facilitating the release, and stimulating the flow, of blocked or stagnant energy. With growing interest, SomaEnergetics™ workshops were developed to teach and empower people to discover and use these long lost frequencies to enhance their lives on all levels.

Currently, SomaEnergetics™ conducts training classes throughout the country and is the exclusive source for the color-coded Solfeggio tuning forks. To date, over 400 practitioners have completed SomaEnergetics™ workshops and the number continues to grow!

THE JOURNEY CONTINUES...

A Chinese saying states; “**May you live in interesting times.**” I think we are living in interesting times, and rather than seeing the glass as ‘half empty,’ I see it as ‘half full.’ Our purpose is to assist others. It’s not to be their ‘Healer,’ but to assist them in knowing who they are and in connecting with their true Self. We provide a non-judgmental atmosphere, a *sacred space*, for the purpose of healing themselves.

The old paradigm dictates that the information should be kept among the professionals. The new paradigm challenges us to share the information and empower the client.

I do believe this is the beginning of a new way in which we can bypass the resistance of the human ego and its powerful belief system. I see healing procedures moving in the direction of using frequencies therapeutically as we head further into the 21st century. This view is corroborated, in detail, in the book *Vibrational Medicine* by Richard Gerber, M.D.:

“Vibrational healing methods represent new ways of dealing with illness. Practitioners of subtle-energy medicine attempt to correct dysfunction in the human organism by manipulating invisible yet integral levels of human structure and function. Healing at the level of human subtle energy anatomy is predicated upon the new physics understanding that all matter is, in fact, a manifestation of energy. As science and technology evolve to make that which was formerly unseen visible, more scientists and physicians will be forced to change their viewpoint about the extended nature of human beings...”

I invite you to be a co-creator with me as we take this adventure together...

THE SOLFEGGIO FREQUENCIES

This ancient scale is part of a 6-tone sequence of electro-magnetic frequencies called the Original Solfeggio Scale. These particular frequencies were rediscovered by Dr. Joseph Puleo in 1974, during a wonderful experience that some would describe as mystical. These frequencies are not something new, but indeed something very ancient. We owe Dr. Puleo our sincere gratitude for rediscovering these frequencies and returning them to humanity.

The Six Solfeggio Frequencies include:

- UT - 396 Hz – Liberating Guilt and Fear**
- RE - 417 Hz – Undoing Situations and Facilitating Change**
- MI - 528 Hz – Transformation and Miracles (DNA Repair)**
- FA - 639 Hz – Connecting/Relationships**
- SOL -741 Hz – Expression/Solutions**
- LA - 852 Hz –Awakening Intuition**

These original sound frequencies were used in ancient Gregorian chants, including the great hymn to St. John the Baptist. Church authorities reported that St. John’s hymn, along with many other chants, were lost centuries ago. The chants and their special tones were believed to impart tremendous spiritual blessings when sung in harmony during religious Masses. Chants sung in Medieval Latin were believed to enhance the spiritual experience of the members. Many still believe that when we sing in Latin, or use simple musical tones without conceptual language, we are able to reach deeper levels of the subconscious. Pure music is very powerful since it discards limiting thought forms associated with words and allows the individual to access insights beyond traditional belief systems.

According to entries from Webster’s Dictionary and the original Apocrypha, these original frequencies are believed to be effective in; turning grief to joy, undoing situations and facilitating change, helping a person connect with Source to bring forth miracles, repairing DNA, connecting with spiritual family and understanding relationships, becoming more expressive to solve problem situations, and finally, awakening intuition to return to spiritual order. Through sound (including the Level I - Energy Vitality Technique) these tones can assist energy channels to stay open and keep the life force (Chi) flowing freely through the chakra system. Perhaps this smooth energy flow was the intent of the six electro-magnetic frequencies of the “lost” hymns and Gregorian chants (see Section Two).

Vibration and sound can be used, like most things, with either positive or negative intention (see Section Four for more discussion of intention). Oftentimes, one’s intention is communicated through the use of language. History is filled with examples of societies being controlled or manipulated by those with less than honorable intentions. Various religious texts, including the Bible, discuss the importance of just making Sound - by chanting, singing, drumming, or speaking in tongues. Each expression of sound is a way that people may access deeper levels of consciousness. The Solfeggio Tuning Forks are another powerful way of reaching these levels.

What is a SomaEnergetics Vibrational Tuning?

We store life experiences as energy patterns in our energy anatomy. Some of those experiences, especially negative ones, create blockages interrupting the free flow of energy in our lives. The other factor in limiting our energy flow is that many of us live at “survival” level. We access and use only the energy needed to get through the day.

What happens if we can free the blocked energy; or better yet, access energy, which has been stored within our “energy anatomy?” What we have discovered at SomaEnergetics™, is that when people receive a SomaEnergetics™ Vibrational Tuning, they frequently tell us that not only do they feel much better (spiritually, emotionally, and physically), but, they have often altered their life in some major way (change of career, moving, etc.). The ‘tuning’ activates the energy in the root energy center and raises it up through each energy center in succession allowing energy to freely flow. When energy flows freely, new choices in our lives are awakened and we have new- found energy from within to make the changes we *want*, and perhaps *need* to make.

As a person increases in consciousness, it becomes necessary for energy to flow freely allowing the space for higher vibration energies to integrate. Each time we receive a SomaEnergetics™ Vibrational tuning, it helps our bodies adjust to and integrate the higher vibrations that accompany a raise in consciousness.

Sessions are usually 30 or 60 minutes and are conducted fully clothed on a massage table. Sessions begin with an affirmation and use of the “OM” tuner (which is calibrated to the vibration of the Earth year) to take away the stresses of the day followed by the Energy Vitality Technique, which can assist in opening energy centers and raising the client’s energy level from survival to optimum vitality. A 60 minute session will continue with either Solfeggio Body Tuners to address specific areas of concern and/or the Energy Scanning Technique which can assist in finding and clearing out energy blockages from past events that the client is ready to release.

At the turn of the century, David's accelerating interest and research into the frequencies of the Ancient Solfeggio, served as an inspirational catalyst for bringing these tones back into use. As a result, he began to co-create with others who are exploring the power of therapeutic tuning forks - tuned to the same frequencies as the Ancient Solfeggio Tones. From that, he developed **SomaEnergetics™ - a set of techniques whereby the Solfeggio Tuning Forks help facilitate the releasing of energy to flow more easily.** David attributes this to the **Energy Vitality Technique**, which he shares through **SomaEnergetics™ Certification Workshops.** *“We are hearing from individuals around the country that these unique frequencies are making a difference in their lives. That is how I know something is real - by the fruit that it bears,”* observes David.

In these exciting workshops, David shows you how you raise your energy level from survival mode to optimum vitality so you have the energy to make the changes you desire in your life.

The most common remarks I hear after a SomaEnergetics™ is ‘I don’t understand why, but my mind and body just seem to be asking for more.’ I encourage you to give it a try. It is part of the universal language: we are all energy, we are all light, we are all vibration. We are living in some pretty dense times right now and anything that we can use to help heal ourselves and raise our own sense of love and mastery in this world, we should use. I was very pleased with the workshops. David is very enthusiastic, compassionate and empathetic with each person. He wants each person to come to their own mastery of their own lives.”

- *Margarete Brandenburg, Board Certified Music Therapist and Certified Level II SomaEnergetics™ Practitioner*

“This new modality developed by Dr. Hulse is blowing me away. I have been working on people with SomaEnergetics™ Techniques for the last few months and what I am seeing is amazing. I have taken many classes over the years and had many mentors. Dr. Hulse is one of the most impressive of all these teachers. During the workshop, I was lucky enough to be the person that Dr. Hulse demonstrated on and it was a profound experience. I see miracles happening all the time in my work with energy medicine. Nothing has impressed me more than SomaEnergetics™.”

- *David Fish, Radio Talk Show Host and Certified Level II SomaEnergetics™ Practitioner*

“As a Reiki Master, I have added the SomaEnergetics™ Techniques to my sessions and it has added a boost to the sessions and I am thrilled with the effects I am seeing. Anyone who does any kind of energy healing needs to incorporate this into what they do. It has an incredible effect by going into the body allowing us to release locked in emotional energies that are locked into our nervous system. It is painless, wonderful, exhilarating, and you feel so renewed after experiencing one of these SomaEnergetics™ sessions. I was very impressed with David and his drive and determination to share what he has pioneered, and spent so much time and money developing, with everyone. It gives such extra energy and power to whatever anyone is doing that I feel very confident that this is the one of the ways that we are going to heal the earth: by making this available to people so they can become whole and share this with others. I am a very different person today than I was prior to experiencing this and I am excited about the future developments. If you have an opportunity to attend one of these workshops, do yourself a favor and take it – you will be glad you did.”

S.O.L.F.A. Sound II CD - “Extension for Ascension”

This is the second CD specially created with the S.O.L.F.A. Sound frequencies. By extending the numerical pattern discovered in the Bible, higher frequencies have been calculated and applied to the 8th through 12th chakras. These chakras encompass Divine Love, Soul Blueprint, Divine Creativity, Advanced Spiritual Skills, and Connection to the Central Son/Sun. As with the first S.O.L.F.A. CD the tracks are repeated with the actual striking of the tuning forks incorporated into each song. The songs on this CD are melodious and enhance dimensional and emotional awareness. Tracks:

1. Nature of Love
2. DNA Remapping
3. Releasing Creativity
4. Spiritual Ph.D.
5. Son/Sun Connection
- 6-10. Repeat of 1-5 with tuning forks added

S.O.L.F.A. Sound CD's - \$20.00 each

Chants utilizing the Ancient Solfeggio Forks:

Lyndsey Watson, a talented SomaEnergetics™ Teacher, has created a wonderful CD of 9 chants using powerful combinations of the Solfeggio Frequencies. Hear Sample Tracks on-line:

Lyndsey's Journey: I was first introduced to the SomaEnergetics™ Tuning Forks in September 2002 when I was trained as a Level I Practitioner by David Hulse. I have always been drawn to sound therapy, and have used sacred “spirit” singing for many years as the main tool for my own inner work. When I started using the forks in my practice, a whole new dimension began to open to me. One particular day, my dear friend and fellow musician, Cheryl Melody, was teaching me a new song she had written (Compassion, on Track #2). We were singing unaccompanied and I felt an urge to add some kind of instrument. I tried many things (drum, chimes, rattle) but none of them added anything to the song. Suddenly I thought of my new tuning forks. The Ut and Mi frequencies fit the song beautifully. A few months later, I hosted a Level I SomaEnergetics training course here in my home facilitated by Dr. Hulse. I sang Cheryl Melody's chant for the group passing the forks by their ears as we sang. They were quite moved. Later Dr. Hulse asked if I could compose more chants using different intervals of the Solfeggio Scale. Dr. Hulse's request has resulted in this recording, VibraChant. My intention in offering this recording is to encourage people to sing along with the chants, thus assisting in the healing process by creating the vibration of the interval not only from the outside (from the vibration of the forks going into your ears) but from the inside through the vibration of your own voice. Sing even if you think you don't know how. The chants are simple for that reason. Allow them to wash over and through you., and see what happens!

The Rydel Seiffer Graduated Tuning Fork

The Rydel Seiffer tuning fork can be used to diagnose those nervous afflictions defined as polyneuropathy and manifesting themselves in the form of reduced sensitivity to vibrations. These symptoms can be found and monitored by this tuning fork in:

- *diabetes
- *toxic nerve damage (ETOH, lead, heavy metals)
- *immune mediated neuropathies (AIDP/Gullian Barre,CIDP)
- *B12 deficiency/subacute combined degeneration
- *tabes dorsalis
- *HIV related neuropathy
- *chemotherapeutic related neuropathy

Practical use

Notice the black and white triangles on the dampers, each with a scale from 0 to 8. When the tuning fork is struck against the ball of the thumb (never strike it against a hard surface), the prongs start to oscillate and the illusion of two triangles is visible on each damper. The base of the tuning fork is placed over the appropriate bony surface (ie distal hallux, medial malleolus etc) and the patient is asked to indicate the moment when the vibration is not longer detected. As the intensity of the vibration starts to diminish the two triangles move closer together again and their point of intersection moves slowly upward. The intensity at which the patient no longer detects the vibration is read as the number adjacent the intersection of the vibrating damper triangles. This number can be read off the white or black triangle depending on the amount of light available or which scale is more easily readable. Recording the black triangle intersection from the bottom up and the white triangle intersection from the top down produces the most accurate readings between triangles for any particular moment in time. Comes with a creditcard size Reference chart listing values for normal healthy controls which have been published in the Journal of Neurology, Neurosurgery and Psychiatry 1998;65(5)743-7.

ANGEL TUNERS™

Sounding the Angel Tuners™ opens passageways to angelic kingdoms. The Angel Tuners™ are based on the ninth octave of the overtone series. In the overtone series a fundamental tone creates a second tone and the second tone creates a third tone, etc. These tones ascend in pitch. This rising in pitch of the overtone series represents the archetypal images of Jacob's Ladder and the stairway to heaven. The Angel Tuners can be used in many creative ways. Tap any two together and meditate upon the sound or hold several Angel Tuners™ between your fingers and tap them simultaneously to create an Angelic concert. The sound will be delicate, and high in pitch. The Angel Tuners™ can also be used with crystals to create group meditations. *Angel Tuners - 3 Forks in a carrying bag - \$59.00*

CRYSTAL TUNER

This tuning fork's frequency is a high C note and amplifies the healing power of crystals through sonic vibration (crystal not included). Note: The Crystal Tuner is included in the Angel Tuners above. *Crystal Tuner, Tuning fork (1) Price: \$22.00*

OM TUNER

The rishies or spiritual master of India believed that the musical tone “sadjā” or “sa”, which means the father of all others, to be the musical sound which resonates with the never ending primordial vibration “om”. The rishies arrived at “sa” through deep meditation. To this day Indian musicians approach tuning their instruments as a meditation to set the Spiritual tone for a whole concert.

OTTO TUNERS

The Otto tuners are used for relaxation, the sound vibrates into the bones for relaxation. The Otto Tuners are tuned to the frequencies of 32cps, 64cps and 128cps. they vibrate at a low pitch and due to their weighted ends the sound lasts longer than that of regular tuning forks.

32 cycles per second: to regenerate and stimulate nerves. Works with the skin and hair to stimulate the nerves.

64 cycles per second: for deep relaxation. Especially effective to relieve tension in the lower lumbar, sacrum and coccyx area. It is wonderful on the lower spine.

128 cycles per second: creates a deep earth tone which resonates the bone and relaxes the tissues. When placed on the sternum, ribs and upper spine, it is especially good to relieve back tension.
