Sealing of the Five Senses

Our senses are like antennas which receive waves of vibration, sound and light that come to us. If that wave makes sense, our brains will start to think. Thinking consumes more energy than any other bodily activity. As humans we can not stop thinking, looking and listening nor stop fantasizing. This sensory-linked brain function in reaction to the external world is known as the monkey mind.

Our mind connects with the heart. When the mind is disturbed, the heart too will become disturbed. The good-minded good heart is the compassionate heart (harmony), therefore its good intention connects to the earth and nourishes it. When the wood meets the earth, the wood will grow. When the water meets the earth, the water will gather. When the metal meets the earth, the metal will condense. When the fire meets the earth, the fire will tone down.

If we can make the senses stronger, and seal the senses with external and internal force, we can accumulate profound energy.

Fig. 1 Waves of Vibration Coming into Senses

1. First, we will strengthen the senses.
2. Second, we will make the connection.
3. Third, we will seal the senses.

The formula of Sealing the Five Senses effects a literal transmutation of the warm current or Chi into spiritual energy or energy of the soul. To do this, we must seal the five senses, for each one is an open gate of energy loss. The power flows out from each of the sense organs unless there is an esoteric sealing of these doors of energy. They must release energy only when specifically called upon to convey information.

Abuse of the senses leads to far more energy loss and degradation than people ordinarily realize. Examples of misuse of the senses are as follows: if you look too much, the seminal fluid is harmed; listen too much the mind is harmed; cry too much, and the blood is harmed; have sexual intercourse too much, and the marrow is harmed.

Fig. 2 Sense Energy Turning inward. Content Person sitting in Meditation. Vibration turned Inward.

A. First Formula Strengthening the Senses

The first step of strengthening our senses is very important. When the senses are strengthened we will be less affected by the stimuli coming from the outside world as criticism or praise. This strength leads to a connection with our center, where the mind becomes still, and the thoughts rest. A great deal of energy is spent thinking warring. Sealing the senses conserves this energy to be used for spiritual development.

Turning the senses inwardly to the center of the brain and down to the navel, and use the three cauldron coupling to help the suck in the natural and universal force.

1. The left ear corresponds to the metal element force.
 2. The right ear corresponds to the wood element force.
 3. The chin and the mouth correspond to the water element.
 4. The nose corresponds to the earth star; this will tonify the earth.
 5. The left eye corresponds to the sun.
 6. The right eye corresponds to the moon.
- (Raise the water and lower the fire, and let it couple on the tip of nose.)

Fig. 3 Elements Connected to Senses

Practice Formula One

- a. Be aware of the left ear and the metal force.
- b. Be aware of the right ear and the wood force.
- c. Draw these two forces together into the crystal room, combine them into the fire force.

Fig. 4 Metal and Wood Transforming to Fire Crystal Room

- d. Be aware of the mouth and breath into the throat center and the lower abdominal suction and the tiger and the dragon breath to create the suction, and feel the Chi entering the mouth and gathering the water force into the Chi Ball.
- e. Create the collection points to contain the water in the mouth.

Fig. 5 Coupling of Five and Water

Fig. 6 Dragon and Tiger breath. Exhale and compress the Chi down to lower abdomen.

f. Let the water rise up, and lower the fire down and couple at the tip of the nose. Turn the awareness inward and feel the three-cauldron coupling at the same time.

Fig. 7 Coupling of Five and Water

g. Let it steam to the crystal room. The lower cauldron steams to the organs and the glands.

Fig. 8 Steam to the Crystal Room

h. Feel the four cauldrons couple at the same time, the normal breath stop and the true breath begin. Let the skin start to breath first, and the bones in the arms and the legs.

Fig. 9 Skin, Bones Breathing

i. Suck in the crown and expand to the nature and the universe. Suck in the mideyebrow, the third eye, the palms the soles of the feet, the perineum, the sacrum and the Door of Life. Eventually the whole body is breathing.

Fig. 10 Whole Body Breathing

B. Practice Formula Two

- a. Be aware of the left eye as sun power.
- b. Be aware of the right eye as moon power.
- c. Combine these two forces into the bridge of the nose and let them become fire force.

Fig. 11 Combine to Nose

- d. Be aware of the Chi in the mouth, use the throat center and the lower abdominal and the Tiger and Dragon breath to create the suction to breathe in the external Chi to form a chi ball in the mouth.
- e. Raise the water and lower the fire and let them couple at the tip of the nose.

Fig. 12 External Chi

f. Feel the four cauldrons couple at the same time, the normal breath stop and the true breath begin. Let the skin start to breathe first and the bones in the arms and the legs.

g. Suck in the crown and expand to the nature and the universe. Suck in the mideyebrow, the third eye, the palms the soles of the feet, the perineum, the sacrum and the Door of Life. Eventually the whole body is breathing.

Fig. 14 Eventually the whole body is breathing.

C. Practice Formula Three: Sealing of the Five Senses

- a. The left ear connects to the left kidney, known as the true kidney, the activator of the stored energy of the kidneys.

Fig. 15 Stored Energy of the Kidneys

b. The right car connects to the right kidney, which is yin, and is represented by a Weaving Maiden who stores the essence of the sexual energy (sperm and ovum), as well as the inner yang that attracts the active yang known as the Gate of Life.

Fig. 16 Weaving Maiden who stores the essence of the sexual energy.

c. Be aware of the left kidney as fire force and let it gradually rise up to the left ear, creating a collection point to contain the fire force.

Fig. 17 Left ear creating a collection point to contain the fire force.

d. Be aware of the lower cauldron. Feel the fire start to warm the abdomen. The fire and steam power goes down to the sexual organs to transform the sexual energy into Chi or arousal sexual energy. Let this energy rise to the right kidney to activate the stored essence of sexual energy, the inner yin. Feel the connection of the right kidney to the right ear and let the essence yin energy rise up the ear. Create a collection point to contain the energy.

Fig. 18 Create a collection point to contain the energy.

e. Let the left and right ear, fire and water couple in the crystal room (middle of the ear).

Fig. 19 Fire and water couple in the crystal room

- f. Be aware of the mouth and gather the water force into a Chi Ball.
- g. Let the water and fire couple at the nose, the earth.

Fig. 20 Connecting to Earth

D. Practice Formula Four: Sealing of the Five Senses

1. Clean out the Thrusting Channels. Be aware of the sole of the feet and feet, the universe force and earth force, rising up to the left side of the sexual organ and up the left thrusting channel and up to the left side of the crown.
2. Activate the Sexual Energy in the Lower Tan Tien.

Fig. 21 Activate Sexual Energy

3. Turn the Wheel.

 - b. Up the spine to the C-7 and then down to the solar plexus.
 - c. Up the spine to the brain and then down to the heart.

Fig. 22 *Turn the Wheel*

4. Build the Aura
 - a. Breathe red mist into the heart.
 1. Breathe out any gray color.
 2. From the heart, send out the red mist to create an aura around the body.

 2. From the spleen, send the yellow mist to all over the body and send radiance out around the body.
 3. From the mouth, breathe out the yellow mist to create an aura.

Fig. 30 Sun and Moon down to the Eyes

8. Start the coupling (this differs from practice formula#2 where we just combined the sun and moon to create one fire energy, now we couple two different energies).
9. The steam will come out the third eye.

Fig. 31 Combine the Sun and Moon

10. Gather the sexual Energy from the sexual organs and bring it to the collection point in the mouth.

Fig. 32 Gather the Sexual Energy.

15. Let the fire cool.
16. Bring the energy down to the Lower Tan Tien.

E. Practice Formula Five: Sealing of the Five Senses

The harmonizing of the four forces (stopping the draining of the essence)

1. When the eyes (green dragon, east, wood) are not seeing, the eternal soul will stay in the liver. Turn the eye power inward.

2. When the ears (Tortoise, north, water) are not hearing, the sexual essence stay in the kidneys. Turn the ears inward.

3. When the tongue (red pheasant, south, fire) is not speaking the spirit stays in the heart.

4. When the nose (white tiger, west, metal) is not smelling, the corporal soul (pui) stays in the lungs. Holding the tongue power inward regulates the breath.

5. When all four are not moving, these four essences will harmonise at the earth and will be nourished, strengthened, and sealed.

Fig. 36 *Five Sealing of the Five Senses*

When all the four essences are not draining out, sexual essence - water, spirit - fire, eternal soul - wood, and the corporal soul (pui) - metal all will gather at the earth, at the tip of the nose.

When there is no desire in the heart - fire is not activated, the green dragon in the liver will sound, the red pheasant will close its wings, and the sexual essence stays and gathers. Wood burns to become fire, and thus gives birth to the heart energy. The white tiger (Lung) gives energy to the water (kidney) which is the life essence (body). If we do not drain out the life essence (take care of our body) the white tiger will sound, the wind will start to move. The tortoise will stay dormant, the sexual essence will be conserved and stay in. When the sexual essence and the Chi stays in us, the metal, wood, water, fire forces will harmonize together and not leak to the earth. So the sexual essence, spirit, eternal soul will gather in the good intention.

2. Activate the Sexual Energy in the Lower Tan Tien.
3. Turn the Wheel.

Sealing of the Five Senses

Opening the Crystal Room

Mantak Chia

Sealing of the Five Senses

In this booklet for the first time ever Master Chia has revealed the final level of the Immortal Tao Practices of the Universal Tao System. You can divide your practice into several sections starting with the Three Levels of Kan & Li to set up the alignment of the body for the Opening of the Crystal Room in the Sealing of the Five Senses practices. Your training should be progressive; that is, once you have mastered one section, you can progress on to the next. Be sure to spend at least one or two weeks on each section as shown in this booklet, allowing enough time to thoroughly master each part before adding on the next section. Remember that you should always do the Chi Kung Warmups before going on into the meditation; it is very important to loosen the spine before meditation that helps your focus.

In this booklet we have divided the entire Microcosmic Orbit practice into Eight Formulas: Strengthening the Senses, Activating Sun & Moon, Connecting Senses to Organs, Activating Thrusting Channels, Opening the Virtuous Animals, Clearing the Conception Vessel with the Three Tan Tiens, Clearing the Planets, Building the Aura and Connecting with the Big Dipper and North Star. This booklet explains and reveals how to activate the Sealing of the Five Senses by spiraling, touching, coloring and small air sipping techniques.

This booklet is designed so you can use it to do your practice at your home or a cave anywhere in the world. We are happy to welcome you to the Advanced Level of the Universal Tao System and to join the Universal Tao family as a Advanced practitioner.
