

Our Supporters

Grants

Our World in Data is supported by a grant from the [Bill and Melinda Gates Foundation](#).

Our World in Data has also received a grant from the German entrepreneur, businesswoman and philanthropist Susanne Klatten.

From 2015 to 2016 we were supported by a grant from the London-based Nuffield Foundation.

Sponsors

In addition to grants, our work is also made possible with the donations of individuals and organizations that have made contributions to support our project:

- Paul Graham
- Kevin Hale
- The Rodel Foundation
- Ron Conway Family
- The Pritzker Innovation Fund
- Centre for Effective Altruism – [Effective Altruism Meta Fund](#)
- [Templeton World Charity Foundation](#)
- HDR Global Trading Limited, owners and operators of the BitMEX cryptocurrency exchange

Individual donations and contributions

We'd also like to thank the following people who **donated** to support our work – it is only through the sum of all these kind collective efforts that our work is possible.

We received support from a very large number of readers, 1071 people donated to us.
