Headline: Belgrade Radio Suggests Croats Using Aircraft

Source Line: AU2710172692

FULL TEXT OF ARTICLE:

1. [Editorial Report] Belgrade Radio Beograd Network in Serbo-Croatian at 1400 GMT on 27 October carries its regular 45-minute newscast, which includes several reports on the situation in Bosnia-Herzegovina.
2. In his report from Sarajevo, Risto Djogo says that "today, snipers are still seeking victims. It was relatively calm last night also, apart from the artillery fire Muslim forces opened from Mojmiolo Hill and Alipasino Polje against Nedjarici and Kasindol Street."
3. The studio announcer cites correspondent Ratomir Milovic as having reported about "fierce clashes around the confluence of the Lim and the Drina Rivers. The goal of the Muslim forces is to destroy the Visegrad hydroelectric power plant."
4. In his report from Bihac, Milan Pantovic says that "for several nights already, flights of so-far unidentified aircraft [letilica] have been registered over Kordun, or, to be more precise, the regions around the Kupa River and over the Cazin Krajina. What is involved are not flying saucers but aircraft that are circulating over the positions held by the forces of the Republic of Serbian Krajina. The speed of the flights is about 450 kilometers per hour. The altitude of as much as 4.5 km tells experts that what is involved here are more modern aircraft with mainly reconnaissance tasks. That this is a part of some Croatian plans is clearly shown from the fact that since the aircraft started appearing over Serbian territory, the Croatian media have started carrying reports about planes taking off from the Banja Luka airport."
5. In his report from Trebinje, Dragan Mihovic says that "according to all available information, the agreement on a cease-fire on the Dubrovnik-Herzegovina battlefield that has come into force at 1200 today is being respected."
