Propaganda

MOUNTAIN VIEW, CALIFORNIA –“When one lies, one should lie big, and stick to it. They keep up their lies, even at the risk of looking ridiculous.” Joseph Goebbels, January 12, 1941 in *Die Zeit ohne Beispiel*.

There are currently 281 studies, with 209 peer-reviewed, demonstrating the effectiveness of hydroxychloroquine as a [prophylaxis and treatment for COVID-19](#). Ivermectin has 89 studies, including 48 peer-reviewed, [demonstrating its effectiveness](#) as prophylaxis and treatment for COVID-19.

Both Ivermectin and hydroxychloroquine have been on the market for decades, with mountains of data demonstrating their safety and efficacy. These drugs are also dirt cheap to manufacture and store. All of the foregoing is great news if the goals of U.S. government and big pharma is public health and eradicating COVID-19. But those never have been and never will be the goals. "They" want everyone injected with synthetic mRNA, synthetic DNA and [nanoparticles](#).

Alphabet dupe

Google/Youtube is an illegal monopoly that violates every tenet of U.S. [antitrust laws](#). The company owns a 92% market share for global internet search, [according to Statcounter GlobalStats](#). It has an 89% market share in the United States.

The Google monopoly has all the same elements as the AT&T/Bell Operating Companies monopoly that the [U.S. government broke up in the 1980s](#). But Google is untouchable. It controls all social, business, political and otherwise narratives in the world. Google decides what is fact, fiction and important, without oversight of any kind.

You can read about Google and its myriad [conflicts of interest](#) as it relates to [big pharmaceutical companies](#) at another time. The purpose of this article is to bring light to the blatant malevolence and wickedness of Google.

Trust the Google, not the science

Google has a page entitled "[COVID-19 medical misinformation policy](#)" ([archived here](#)). It states that the company does not allow "medical misinformation that contradicts local health authorities' or the World Health Organization's (WHO) medical information about COVID-19."

In other words, Fauci, the CDC and WHO are the end all be all for everything COVID-19 related. But the most disturbing part is Google's propaganda

relates to Ivermectin and hydroxychloroquine.

What this policy means for you

If you're posting content

Don't post content on YouTube if it includes any of the following:

Treatment misinformation:

- Content that encourages the use of home remedies, prayer, or rituals in place of medical treatment such as consulting a doctor or going to the hospital
- Content that claims that there's a guaranteed cure for COVID-19
- Content that recommends use of Ivermectin or Hydroxychloroquine for the treatment of COVID-19
- Claims that Ivermectin or Hydroxychloroquine are effective treatments for COVID-19
- Other content that discourages people from consulting a medical professional or seeking medical advice

Prevention misinformation: Content that promotes prevention methods that contradict local health authorities or WHO.

- Claims that there is a guaranteed prevention method for COVID-19
 - Claims that any medication or vaccination is a guaranteed prevention method for COVID-19
- Content that recommends use of Ivermectin or Hydroxychloroquine for the prevention of COVID-19
- Claims that wearing a mask is dangerous or causes negative physical health effects
- Claims that masks do not play a role in preventing the contraction or transmission of COVID-19
- Claims about COVID-19 vaccinations that contradict expert consensus from local health authorities or WHO
 - Claims that an approved COVID-19 vaccine will cause death, infertility, miscarriage, autism, or contraction of other infectious diseases
 - Claims that an approved COVID-19 vaccine will contain substances that are not on the vaccine ingredient list, such as biological matter from fetuses (e.g. fetal tissue, fetal cell lines) or animal products

What happens if content violates this policy

If your content violates this policy, we'll remove the content and send you an email to let you know. If this is your first time violating our Community Guidelines, you'll get a warning with no penalty to your channel. If it's not, we'll issue a strike against your channel. If you get 3 strikes, your channel will be terminated. You can learn more about [our strikes system here](#).

In other words, if you dare to “trust the science,” and cite the research of tens of thousands of scientists and doctors as it relates to hydroxychloroquine and Ivermectin, you will be censored. You’ll be banned permanently after “three strikes.”

Computer nerds like [Bill Gates](#) and Google employees are now the foremost authorities in public health policy. Doctors, scientists and others who have committed their entire lives to public health are now “conspiracy theorists” and “misinformation.”

Dystopia continues

We've [said it before](#) – search “The COVID Blog” without quotes on DuckDuckGo, Yahoo!, Bing, or any other search engine. We are the first result. Now do the same thing in Google. We are nowhere to be found.

Truth is out there. But you'll need to divest of Google and Youtube if you want the truth. All you're getting from Google, Facebook, Twitter and mainstream media are talking points handed to them by Merck/Pfizer, Johnson & Johnson, U.S. government, etc.

Ignorance is a choice in 2021. Google has revealed its hand as a mouthpiece for big pharma. It's really not that hard to find truth if you want it. Divest of Google, Chrome, Youtube, social media, etc. and you're well on your way. Stay vigilant and protect your friends and family.

COVID Legal USA provides document preparation and legal coaching for pro se litigants fighting against mask mandates, **mandatory vaccines**, and other COVID-related restrictions.
