On the same day, Cardiologist @DrAseemMalhotra from the UK posts this on his Twitter feed:

Dr Aseem Malhotra @DrAseemMalhotra · Jan 16

My biggest fear now is that it's going to get violent. When the truth comes out we must do all we can to stop that & show compassion to those who got it very VERY wrong.This is not individual failure but that of a corrupted system that needs to be dismantled & rebuilt TOGETHER!

Update: @JamesfWells has spoken to @MiMiSy10 and her sister (the lady in the video) A Drs name has been given. He has advised both sisters to go to the police with the information they have given him as he feels it would be in the public's interest to do so 🙋

Rare 🚑📞📌 @theysayitsrare · 14h ...
@JamesfWells is not sure on the accuracy of their statements yet confirms that if the Dr is genuine and speaking out to the public about this, she is risking her whole career to do so 🙄

As @JamesfWells cannot verify the accuracy of the story, his instinct is to believe it may not be true. We shall wait for an update from the police, the hospital or any further investigation into the matter 🙌

Yes in the source linked above the lady explains it was a call back from out of hours (common practice in the UK) also the number has been checked and verified as the hospital 🙄
