CERTIFIED-RETURN RECEIPT REQUESTED

Hector Balderas
Attorney General State of New Mexico
408 Galisteo Street
Villagra Building
Santa Fe, NM 87501

Re: Urgent request for enforcement of the New Mexico Unfair Practices Act and for enforcement of the Fraud Against Taxpayers Act.

Dear Attorney General Balderas:

In the past six months or so a plethora of reliable and trustworthy information and data from multiple highly dependable, experienced and qualified medical doctors and others have become publically available which make it abundantly clear that the vaccines, so-called, that have been introduced into the market in New Mexico are toxic and deleterious to humans, and pose serious documented health threats to the citizens of New Mexico. The health threats include a variety of documented serious medical conditions. Many tens of thousands of these adverse effects from the vaccines have been reported to the Vaccine Adverse Event Reporting System (VAERS). Further, and more disturbing, according to the Center for Disease Control and Prevention (CDC) website, as of July 19, 2021, 12,313 deaths caused by the vaccine have been reported to VAERS.

In partial support of the foregoing statements I have enclosed the following documents for your review:

1. *Plaintiff's Motion for Preliminary Injunction*, filed in the United States District Court for the Northern District of Alabama, in the matter of America's Frontline Doctors, et al. v. Xavier Becerra, Secretary of the U.S. Department of Health and Human Services, et al., Civil Action 2:21-cv-00702-CLM on July 19, 2021 (the Motion);
2. Declaration of Lee Merritt, MD, which is **Exhibit A** to the Motion;
3. Declaration of Richard Urso, MD, which is **Exhibit C** to the Motion;
4. Declaration of Jane Doe, which is **Exhibit D** to the Motion;
5. Declaration of Diane Hallmark, which is **Exhibit K** to the Motion; and,

6. Declaration of Peter McCullough, MD, MPH, which is **Exhibit L** to the Motion. (Because Dr. McCullough's CV is about 180 pages long I have only provided the first few pages of his CV.)

I have not included all of the exhibits attached to the Motion, but rather only those provided by the medical doctors, Jane Doe (who attests to the probable actual number of deaths in the USA as a result of the vaccines, which is extrapolated from the deaths actually reported to VAERS (9,048) as of July 9, 2021); and the declaration of an individual who attests to her adverse reactions from the vaccine. Declarations from other individuals similarly situated are also filed in support of the Motion. Please read and understand the Motion, as it provides critically important information.

These documents represent only some of the available reliable information on the subject of the adverse events, including death, associated with the administration of the SARS Covid-2 vaccines that have been, and currently are, being administered to the citizens of New Mexico.

The vaccine products at issue were, and are, developed by, marketed and sold to the public in New Mexico by at least Pfizer/BioNTech, Moderna and Johnson & Johnson (Janssen) in the usual and ordinary course of the business of these companies. These companies are doing business in New Mexico and reaping profits from it.

These products were, and are being, purchased by the State of New Mexico primarily, if not entirely, using taxpayer money. Thereafter, these products are administered in the State of New Mexico to citizens who have been induced or encouraged to take the vaccine. In the course of marketing and selling these products these companies, through their authorized representatives, knowingly made false and deceptive statements concerning, among other things, the necessity, safety, and efficacy of these products.

At a minimum, the deliberate, knowing and willful acts, and failures to act, of these companies as generally described herein, and as supported by the enclosed documents, violate, and continue to violate, the New Mexico Unfair Practices Act, NMSA § § 57-12-1 *et seq.* (UPA), and may violate the Fraud Against Taxpayers Act, NMSA § § 44-9-1 *et seq.* (FATA).

As you well know, pursuant to § 57-12-15 of the UPA, you are mandated by law to enforce the UPA on behalf of the citizens of New Mexico. Pursuant to § 57-12-12 one of your enforcement and investigative tools is the Civil Investigative Demand. Similarly, pursuant to § 44-9-4 your office shall investigate violations of the FATA and the FATA provides you with both the power and duty to do so.

On behalf of myself and the citizens of the State of New Mexico I hereby respectfully request and implore you and your office to promptly initiate enforcement of the UPA and the FATA, and, if necessary, employ all investigative tools at your disposal, including a Civil Investigative Demand, necessary to determine whether these companies have violated the UPA and/or the FATA.

If, in the exercise of your sincere and sound judgement, and bearing in mind the duties of your office, and the health and welfare of the citizens of New Mexico, you determine that there has been, and/or is, an ongoing violation of the UPA and/or FATA, to then promptly file the

appropriate pleadings and other documents in the court of competent jurisdiction to obtain a temporary injunction and to permanently enjoin the unlawful conduct of these companies, and to seek damages, including treble or punitive damages, and restitution for the citizens of New Mexico.

Respectfully,

A handwritten signature in black ink, consisting of a large, stylized 'S' followed by a horizontal line extending to the right.
