Hi –

I've added names in the document, unfortunately all from Europe. But people who volunteered to be part of this during our recent meeting with regulatory experts/biosafety groups

Warm regards

Delphine

Subject: RE: CBD online forum - edits to the proposed list of "volunteers"

Hi Isabelle,

Today Todd and I briefed the Genetic Biocontrol steering committee and urged them to get themselves (and other's from their organizations/networks) nominated for the online forum. You can add these steering committee to your 'volunteer' target list and note that they've been asked to enlist. Todd's given them a sample nomination letter, to make that step easier. I'm sure they'd appreciate a more detailed briefing (we only had 15 min.).

- Dr. Peter Brown, CSIRO
- Dr. Karl Campbell, Island Conservation
- Dr. John Godwin, NCSU
- Dr. Fred Gould, NCSU
- Gregg Howald, Island Conservation
- Dr. Toni Piaggio, USDA
- Dr. Paul Thomas, U. of Adelaide
- Dr. Dan Tompkins, Landcare Research
- Dr. David Threadgill, TA&M
- Royden Saah, Island Conservation

I've also attached an email that includes the current 172-member roster of the 'genetic rescue' list serve that *Revive and Restore* (Ryan Phelan) maintains. The list is dominated by conservation-oriented folks, and much of the dialogue relates to de-extinction papers/debates. There's bound to be some skeptics (maybe detractors?) amongst the group as well...but this is a great list for a few of us to mine...we could occasionally consider less-than-targeted information sharing and outreach through this list as well. Maybe some of you would want to sign up and monitor the activity...be cautious – there are a few journalists monitoring the list as well.

Best,

Heath Packard

Subject: CBD online forum - edits to the proposed list of "volunteers"

Dear all

A gentle reminder to send me any additions, suggestions or other edits to the list of possible volunteers to the online forum (see document attached). Stephanie has put me in touch with Anthony James, Ethan Bier, Robert Friedman, and Suresh Subramani from the University of California and with Zach Adelman at Texas A&M. I will have calls with them next week to brief them and I can report on our group call.

As a reminder, the recent communication from the CBD secretariat indicated that the online forum would take place over the summer, July to September, so we need to get people briefed and registered before then.

“To implement the various elements of the decision in a systematic manner, the Secretariat is establishing a continuous process comprising: (i) submission of information on synthetic biology (by June 16 2017); (ii) discussions through the open-ended online forum (tentatively to be held from July to September 2017); (iii) one face-to-face meeting of the AHTEG (tentatively to be held in December 2017); and (iv) peer-review of the outcomes of the AHTEG. The outcomes of this process will be submitted for peer review and subsequent consideration by the Subsidiary Body on Scientific, Technical and Technological Advice (SBSTTA) at its twenty-second meeting to be held 2 to 7 July 2018.”

Best,

Isabelle
