Hi All,

Thanks for the input so far. I have incorporated most of it, but need some assistance for some of the suggestions as well. Please review (again) and give feedback taking into consideration the requests below.

David – In the ‘Technical Approaches’ section, is the term T-complex appropriate, or should I also/instead use t-haplotype. Also, please denote the preferred case (upper/lower) for ‘T’

Dona – In the ‘Technical Approaches’ section, do you have a figure that is easier to digest for the T-complex? Maybe one with Sry inserted (or not).

Paul – In the ‘Technical Approaches’ section, do you have a better figure(s) for CRISPR-Cas9 that you would like in the poster?

Keith – In the ‘Ethics, Societal and Legal Implications’ section, do you want a different figure for the Risk Assessment?

Many Thanks,  
Royden
