Wegrzyn, Renee has invited you to Save the Date: DARPA Safe Genes LEEDR Semi-Annual Update

Title: Save the Date: DARPA Safe Genes LEEDR Semi-Annual Update
Location: DARPA 1-500 and Remote Accessible Option
When: Friday, November 3, 2017 12:00 PM – 4:00 PM
Organizer: Wegrzyn, Renee <renee.wegrzyn@darpa.mil>
Description: Hello Safe Genes Community,

As previously mentioned, we will be leveraging travel for the FNIH workshop on Nov 4 (more info fnih.org/TalkingAboutGeneDrive) in order to have a short LEEDR engagement for the Safe Genes community on the afternoon of Nov 3 at DARPA. We are still working out the agenda for that meeting, but we anticipate that it will be ~2hrs in the afternoon. (This calendar invite is for a four hour window as we have not confirmed speakers and the exact time yet.) We anticipate updates from the Safe Genes teams on community engagement as well as other speakers. The audience will include the Safe Genes performer teams, LEEDR panel, and guest speakers (to be confirmed).

We will also have remote access for those that won't be travelling to the DC area.

Please let Lianne (lianne.parr.ctr@darpa.mil) know if you will be attending in person.

Attached is a DARPA Form 60. Any permanent residents or foreign nationals visiting DARPA should please complete and send it to:

SIDInternationalSecurity@darpa.mil

[<mailto:SIDInternationalSecurity@darpa.mil>](mailto:SIDInternationalSecurity@darpa.mil) via encrypted e-mail. If not, please disregard.

Regards,
Lianne
