Hey Todd,

I'm about to meet with Fred about this right now. Here's the embargoed DARPA release.

I was contacted by Nature today to talk about the DARPA announcement. They sent me the press release which is the only reason I know that the announcement is tomorrow. We haven't really talked about how we are going to handle press around this, but if asked about NCSU involvement, I will refer them to either John or Jason depending on what the question is related to. I just wanted to be upfront that I was asked to speak with Nature.
