Hi Dan,

This is great. I wonder if we should loop in Elizabeth who will be coordinating our Ethics Advisory Board. Please consider and do so if you wish (I will be on leave soon).

Her email is:

Elizabeth Heitman [Elizabeth.Heitman@UTSouthwestern.edu](mailto:Elizabeth.Heitman@UTSouthwestern.edu)

Fred (who serves on Target Malaria Ethics Board) has met by phone with Elizabeth. Feel free to discuss amongst yourselves.

Cheers

rs

**Subject:** [gbird] Recent NZ social science reports

Hi All

A couple of reports to share.

The first is just a general background review of attitudes to pest control methods in NZ -  
<http://www.landcareresearch.co.nz/publications/researchpubs/LC2789-Literature-review-invasive-species.pdf>

The second one, an annotated bibliography on 'Potential ethical issues and unintended effects of CRISPR gene editing and gene drives for invasive species control', is attached here. This one isn't publically available yet, and I was wondering whether it's something we could build on as a group for a cross-GBIRD publication? Let me know what you all think.

Cheers, Dan.
