Inventory for FOIA Request 2006-0527-F

Records on “Area 51”

Extent

24 folders, approximately 460 pages

Access

Collection is open to all researchers. Access to Clinton Presidential Records is governed by the Freedom of Information Act (FOIA) (5 USC 552 as amended) and the Presidential Records Act (PRA) (44 USC 22) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

Copyright

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

Provenance

Official records of William Jefferson Clinton’s presidency are housed at the Clinton Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

Processed by

Staff Archivist, 2007. Previously restricted materials are added as they are released.

Scope and Content

The materials in FOIA 2006-0527-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA request 2006-0527-F contains materials from the White House Automated Records Management System Emails, NSC Records Management, and NSC Cable and NSC Email systems. “Area 51” is an unofficial title that often refers to an area in southern Nevada containing United States Air Force (USAF) facilities. The USAF does not recognize owning or operating any facility regarded as “Area 51.” They do recognize operations at the Nellis Range Complex which includes an Operating Location near Groom Lake, Nevada. However, much of the information regarding activities at these sites remains classified. During the Clinton Administration, the Operating location near Groom Lake was named in a lawsuit. In 1994, suit was filed against the USAF and the Environmental Protection Agency (EPA) alleging contractors at the Groom Lake site had been exposed to high levels of toxic chemicals. The suit claimed that the EPA had failed to enforce the Resource Conservation and Recovery Act resulting in high level chemical exposures. President Clinton signed a Presidential Determination in 1995

exempting the Air Force from disclosing classified information related to Groom Lake. The suit was eventually dismissed and the following appeal was also rejected.

The WHORM Subject Files contain no relevant records.

The WHORM Alpha Files contain no relevant records.

The White House Staff and Office Files contain no relevant records.

The Automated Records Management System (ARMS) Emails contains back and forth correspondence regarding a “Good Morning America” interview related to the Groom Lake lawsuit.

The NSC Cable, Email, and Records Management Systems contain Presidential Determinations regarding the Operating Location near Groom Lake, Nevada and memoranda concerning these Determinations. “Area 51” articles and a press briefing that references the Groom Lake lawsuit are included in the NSC Cable and Email systems.

System of Arrangement

Records responsive to this FOIA request were found in two collection areas—Clinton Presidential Records: ARMS Emails, and Clinton Presidential Records: NSC Cable, Email, and Records Management Systems. As policy, Staff and Office Files are processed at the folder level. That is, individual documents are not selected and removed from a folder for processing. WHORM Subject and WHORM Alpha files are processed at the document level. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The WHORM Subject file was compiled by the White House Office of Records Management and is a series of categories designated by a letter/number combination. A complete listing of the categories with detailed descriptions is provided in our research room.

The following is a list of documents and folders processed in response to FOIA 2006-0527-F:

Clinton Presidential Records: Automated Records Management System (ARMS) Emails WHO

TO: Laura D. Schwartz (CN=Laura D. Schwartz/OU=WHO/O=EOP @ EOP [WHO])
READ:UNKNOWN

TEXT:

Laura -- After our conversation last Friday, August 8th, I called GMA back that afternoon to advise them I would inquire about the President's science advisor (Jack Gibbons) relative to their request for an interview on Area 51. It turns out that Jack Gibbons will be away from the White House this week, so their request may be moot -- at least as far as we're concerned (I'm not convinced that Gibbons is the right person to tackle this topic). I've misplaced the piece of paper with her name on it (I think it was Meg, and she was a futures editor in NYC). Do you wish to follow through or should I call with a polite decline?

UNCLAS SECTION 01 OF 03
SUBJ: DOD NEWS BRIEFING - CONDUCTED ON TUESDAY, NOVEMBER 22,
1994 AT 1:00 P.M. BY MR. KENNETH H. BACON, ATSD (PA) AT THE
PENTAGON

MR. BACON: GOOD AFTERNOON.

ON THANKSGIVING DAY SECRETARY PERRY WILL GO TO HAITI TO
SPEND THE DAY WITH TROOPS. THERE HE'LL TRAVEL TO A NUMBER OF
LOCATIONS. IT'S ONE OF HIS WAYS OF SAYING THANK YOU TO THE
TROOPS WHO HAVE DONE SUCH A GOOD JOB DOWN THERE.

THAT'S ALL I HAVE. I'M PREPARED TO TAKE YOUR QUESTIONS.

Q: DID YOU SAY HE'LL HAVE A MEAL DOWN THERE WITH THE
TROOPS? WHERE WOULD THAT BE, OR...

A: HE'S GOING TO BE TRAVELING AROUND TO SEVERAL LOCATIONS.
I THINK PROBABLY THE BEST THING TO DO IS EITHER TALK TO US LATER

IN DDI OR CONTACT THE JIB DOWN THERE. HE'S REALLY DOING THIS TO
SPEND TIME CHATTING WITH THE TROOPS AND NOT TO GET A LOT OF MEDIA
COVERAGE.

Q: ARE TURKEYS AND STUFF BEING SENT DOWN?

A: I THINK IT'S FAIR TO SAY THERE WILL BE A LOT OF TURKEYS
AND ALL THE FIXINGS.

Q: ON BOSNIA, HAS THERE BEEN ANY EVIDENCE THAT THE BOSNIAN-
SERBS HAVE GOTTEN THE MESSAGE THAT NATO INTENDED TO SEND
YESTERDAY WITH THIS AIR STRIKE?

A: WE'RE WATCHING THE SITUATION THERE. IT IS NOT A GOOD
SITUATION AND WE'RE HOPEFUL THAT THEY WILL GET THE MESSAGE. IF
THERE IS FIGHTING CONTINUING, WE STAND READY TO SEND THE MESSAGE
AGAIN IF NECESSARY.

Q: WHY HASN'T THERE BEEN A RESPONSE TO THE FIRING OF
GROUND-TO-AIR MISSILES AGAINST NATO AIRCRAFT? WHY IS THAT GOING
UNANSWERED?

A: THE MISSILES MISSED WIDELY, AS I UNDERSTAND IT. I ALSO
UNDERSTAND THAT THEY WERE FIRED FROM MOBILE SITES WHICH ARE HARD
TO FIND SOMETIMES. BEYOND THAT, I CAN'T GIVE YOU AN ANSWER.

Q: WHEN YOU SAY WE ARE PREPARED TO SEND THE MESSAGE AGAIN,

WHAT SORT OF MESSAGE WOULD IT BE? WOULD IT BE A MORE AGGRESSIVE OR STRONGER MESSAGE THAN THE PIN-PRICK STRIKE OF YESTERDAY?

A: WELL, THAT'S YOUR CHARACTERIZATION. THE STRIKE YESTERDAY SUCCEEDED IN DOING EXACTLY WHAT IT WAS SUPPOSED TO DO. IT HAD A LIMITED PURPOSE, AND THAT PURPOSE WAS ACHIEVED. SO I'M NOT BUYING YOUR CHARACTERIZATION OF IT. IT DID WHAT IT WAS SUPPOSED TO DO.

Q: IF BY SENDING A MESSAGE THE SERBS DON'T GET THE MESSAGE AND CONTINUE, THEN IT DIDN'T DO WHAT IT WAS SUPPOSED TO DO. THEREFORE WOULD A STRONGER ATTACK OR STRIKE BE IN ORDER?

A: THAT'S FOR THE UN AND NATO TO DECIDE. AS YOU KNOW, THE TWO-KEY CONCEPT REMAINS IN EFFECT. THERE ARE A NUMBER OF THINGS HAPPENING. ONE, CLEARLY, BOTH THE UN AND NATO ARE WATCHING THE SITUATION AND REACTION TO THE STRIKE YESTERDAY TO SEE WHAT HAPPENS AND TO SEE IF THERE'S ANY CHANGE IN SERB BEHAVIOR. THAT'S THE FIRST THING.

SECONDLY, IT'S WELL KNOWN THAT WE AND OUR ALLIES ARE DISCUSSING IN NATO AND AT THE UN A NUMBER OF STEPS THAT WE MIGHT TAKE. MANY OF YOU HAVE WRITTEN ABOUT THESE STEPS AND THEY INVOLVE THINGS LIKE EXCLUSION ZONES ON BIHAC, ASSISTED OPERATING

ZONES DEALING WITH AIR STRIKES, ETC. THESE ARE DIPLOMATIC INITIATIVES THAT WILL LEAD TO CHANGES ON THE GROUND THAT CAN BE TAKEN. THESE ARE UNDER CONSIDERATION. THAT CONSIDERATION IS ONGOING AND THERE SHOULD BE DECISIONS ON THAT.

AS I SAID, WE RETAIN THE RIGHT, BOTH NATO AND UNPROFOR, TO CARRY ON ADDITIONAL AIR STRIKES IF NECESSARY.

Q: HAND-TO-HAND COMBAT IS NOW BEING REPORTED IN THE SUBURBS AROUND BIHAC. IT'S SUPPOSED TO BE A SAFE HAVEN. HOW CAN YOU CLEANSE THAT AREA WITHOUT ENDANGERING THE PEOPLE IN THE SAFE AREA?

A: THAT'S ONE OF THE DIFFICULTIES WE FACE. THAT'S ONE OF THE REASONS WHY THIS ISN'T AN EASY PROBLEM TO DEAL WITH. NOTHING IN THIS AREA IS EASY TO DEAL WITH. IF THERE WERE EASY SOLUTIONS, WE WOULD HAVE FOUND THEM A LONG WHILE AGO. IT'S VERY COMPLEX, THERE ARE LIVES AT STAKE, AND WE'RE TRYING TO SORT OUR WAY THROUGH THIS AS BEST WE CAN.

Q: THERE ARE REPORTS THAT QUOTE UN SOURCES AS SAYING THAT THE SERBS HAVE USED A HELICOPTER GUNSHIP IN TODAY'S FIGHTING. CAN YOU ELABORATE ON THAT AT ALL?

A: I CAN'T ELABORATE ON IT. I'VE SEEN THE SAME REPORTS.

HELICOPTERS ARE ALSO VERY HARD TO FIND. THEY CAN POP UP AND SEE SOMETHING AND THEN GO BACK ONTO THE GROUND. THEY CAN MOVE VERY QUICKLY. SO BY THE TIME THE AIRCRAFT GET THERE, THEY'RE NO LONGER THERE.

Q: YOU SAID YOU ACHIEVED THE GOAL, I GUESS MAYBE I MISSED THIS YESTERDAY. WHAT EXACTLY WAS IT? WAS IT SENDING THIS MESSAGE, OR WERE YOU OUT TO DISABLE THE AIRPORT FOR A CERTAIN PERIOD OF TIME? WHAT EXACTLY...

A: THE MAIN GOAL WAS TO SHOW THAT UNPROFOR AND THE NATO ALLIES WORKING TOGETHER WERE PREPARED TO STRIKE IN A GIVEN SITUATION. ONE, WE SHOWED THAT WE WERE WILLING TO STRIKE. SECONDLY, THE GOALS OF THE STRIKE WERE TO DISABLE THE RUNWAYS, WHICH WE DID. THEY WERE TO SUPPRESS THE ANTI-AIRCRAFT FIRE, WHICH WE DID. AND THEY WERE TO SUPPRESS THE SAM STRIKES, OR THE SURFACE-TO-AIR MISSILE SITES, WHICH WE ALSO DID. THOSE ARE THE THREE TACTICAL GOALS THAT WERE SET OUT IN THE STRIKE, AND ALL THOSE WERE ACHIEVED.

THEY WERE NARROW GOALS. THOSE GOALS WERE ACHIEVED.

Q: SECRETARY PERRY WAS QUOTED THIS MORNING BY REPORTERS WHO ARE TRAVELING WITH HIM AS HE RETURNS FROM THIS TRIP,

INDICATING THAT IF THERE WERE ANOTHER STRIKE AGAINST AN AIRFIELD, THAT THIS TIME THE PLANES WOULD BE DESTROYED. IS THAT THE CORRECT POSITION OF THE SECRETARY OF DEFENSE?

A: THE SECRETARY OF DEFENSE ALWAYS STATES HIS POSITIONS CORRECTLY. (LAUGHTER)

Q: WHAT IS THE PENTAGON'S REACTION TO COMMENTS BY SENATOR HELMS THAT IF THE COMMANDER-IN-CHIEF, PRESIDENT CLINTON, TRAVELS TO HIS STATE, THAT HE SHOULD HAVE BODYGUARDS WITH HIM?

A: WHICH STATE IS THAT?

Q: NORTH CAROLINA.

A: THE PRESIDENT HAS TRAVELED WIDELY IN THE LAST FEW WEEKS AND MONTHS AMONG THE TROOPS, AND HE'S BEEN RECEIVED WITH WARMTH AND COURTESY AND ENTHUSIASM. I THINK WE ALL REMEMBER THE PICTURES OF THE PRESIDENT ADDRESSING MEMBERS OF THE 24TH DIVISION IN KUWAIT SEVERAL WEEKS AGO, SURROUNDED BY TROOPS AND THE WARM RESPONSE HE GOT THERE. I THINK THOSE PICTURES SPEAK FOR THEMSELVES AND THEY'RE AN ACCURATE PORTRAYAL OF HOW THE TROOPS FEEL ABOUT HIM.

Q: HOW DO YOU REACT TO SENATOR HELMS' ACCUSATION THAT PRESIDENT CLINTON ISN'T FIT TO BE COMMANDER-IN-CHIEF?
UNCLAS SECTION 02 OF 03

A: GENERAL SHALIKASHVILI HAS RESPONDED TO THAT. SENATOR DOLE HAS RESPONDED TO THAT. SECRETARY PERRY HAS RESPONDED TO THAT. I HAVE NOTHING MORE TO ADD.

Q: THE SPECIFIC QUOTE BY HELMS IS THAT THE PRESIDENT IS SO DISLIKED IN NORTH CAROLINA BY THE MILITARY THAT HE "BETTER WATCH OUT IF HE COMES DOWN HERE. HE'D BETTER HAVE HIS BODY GUARDS." DOES THE PRESIDENT OF THE UNITED STATES NEED A BODY GUARD IF HE VISITS U.S. TROOPS IN NORTH CAROLINA?

A: THE PRESIDENT OF THE UNITED STATES AS A MATTER OF COURSE ALWAYS TRAVELS WITH BODY GUARDS. I CITED TO YOU EARLIER PICTURES THAT YOU'VE SEEN, THAT YOUR NETWORK RAN, OF HIM BEING EMBRACED WARMLY BY TROOPS. WE'VE SEEN THAT IN KUWAIT, WE'VE SEEN IT IN NORFOLK, VIRGINIA, WE'VE SEEN IT IN ALASKA. HE WAS

RECENTLY IN HONOLULU AND DINED WITH THE COMMANDER, ADMIRAL MACKE OUT THERE, COMMANDER-IN-CHIEF OF THE PACIFIC REGION. EVERYWHERE HE GOES HE SEEMS TO GET A WARM RECEPTION. I THINK THE RECORD SPEAKS FOR ITSELF.

Q: IS IT YOUR UNDERSTANDING OR IS IT YOUR SCHEDULE THAT SECRETARY PERRY'S DECISION ON DEUTCH'S PROGRAM MEMORANDUM WILL BE

DELAYED UNTIL THE BUDGET IS SUBMITTED? OR DO YOU STILL EXPECT IT TO BE RELEASED IN DECEMBER?

A: THE SECRETARY SPOKE ABOUT A WEEK AGO AND SAID THEY WOULD NOT BE THIS MONTH. I LEAVE IT TO YOU.

THIS IS STILL BEING WORKED OUT. IT'S A COMPLEX SITUATION. WE'RE DOWN NOW TO THE FINAL DECISIONS IN THE BUDGET. JIGSAW PUZZLES GET EASIER AS YOU GET TO THE END BECAUSE IT'S MUCH EASIER TO SEE WHERE THE FEW REMAINING PIECES GO. WITH BUDGETS, IT SOMETIMES GETS MORE DIFFICULT TO FIT IN EVERYTHING YOU WANT TO FIT IN AS YOU GET DOWN TO THE END. THERE ARE STILL A LOT OF DECISIONS TO BE MADE AND THESE ARE AMONG THOSE DECISIONS. SO I CAN'T GIVE YOU ANY DEADLINE ON THAT.

Q: GUANTANAMO BAY. THERE HAVE BEEN ADDITIONAL ATTEMPTS BY CUBANS IN THE LAST DAY OR TWO TO SWIM BACK TO CUBA.

A: YES.

Q: CAN YOU GIVE US ANY IDEA ON NUMBERS?

A: THERE HAVE BEEN SEVERAL ATTEMPTS. ON NOVEMBER 21ST, THREE CUBANS ATTEMPTED TO SWIM TO CUBA. ONE WAS SUCCESSFUL. TWO WERE RECOVERED AND RETURNED TO THE CAMP. THAT'S THE LAST REPORT I HAVE OF PEOPLE TRYING TO SWIM. ON NOVEMBER 20TH, A GROUP OF 46 CUBANS LEFT IN THE MORNING AND ATTEMPTED TO SWIM. THIRTY WERE SUCCESSFUL, 16 WERE RECOVERED. THERE WAS ALSO A SECOND GROUP ON NOVEMBER 20TH THAT SET OUT TO SWIM OF 44 CUBANS. SO THERE HAVE BEEN A NUMBER OF CUBANS TRYING TO SWIM BACK.

I THINK THAT SOME OF THIS REFLECTS THE FRUSTRATION THAT THE CUBANS MAY FEEL IN THE SLOWNESS OF GETTING PROCESSED TO GO BACK INTO CUBA BY CUBA. THE ARRANGEMENT IS THAT WE SET ASIDE A NUMBER OF VISAS, 20,000 A YEAR, FOR CUBANS TO COME TO THE UNITED STATES. IN ORDER TO GET THOSE VISAS, THEY HAVE TO GO BACK TO CUBA AND APPLY. THE CUBANS HAVE BEEN RELUCTANT TO ALLOW LARGE NUMBERS OF PEOPLE BACK IN FROM GUANTANAMO BAY TO CUBA. THERE'S A VERY LENGTHY PROCESSING PROCEDURE. IF WE SUBMIT A LIST OF NAMES, THEN THEY SELECT ONLY A VERY, VERY, FEW OF THOSE NAMES TO GO BACK FOR PROCESSING. SO THERE'S A FAIR AMOUNT OF FRUSTRATION ON THE PART

OF THE CUBANS WHO MAY WANT TO GO BACK AND TRY TO TAKE ADVANTAGE OF THIS NEW SYSTEM OF GETTING VISAS.

Q: IS THERE ANY PROBLEM WITH CUBANS TRYING TO BREAK OUT OF THE CAMPS IN PANAMA AND JUST BLEND INTO THE PANAMANIAN POPULATION?

A: NOT THAT I'M AWARE OF. THERE HAVE BEEN VERY ISOLATED INCIDENTS OF THAT. NOTHING THAT I RECALL IN THE LAST WEEK OR TWO, BUT I'VE BEEN GONE FOR THE LAST WEEK AND I HAVEN'T BEEN FOLLOWING THIS. BUT I DO NOT THINK THAT THAT IS A PARTICULARLY GRAVE PROBLEM.

Q: CAN YOU GIVE US AN UPDATE ON THE COST OF RUNNING THE REFUGEE CAMPS AT GTMO?

A: THESE ARE THE LATEST FIGURES I HAVE. THE INITIAL ESTIMATES ARE \$100 MILLION TO START UP GUANTANAMO BAY FOR THE CUBAN OPERATION. THAT'S ASSUMING MORE CUBANS THAN ARE THERE NOW. IN ADDITION, \$20 MILLION A MONTH FOR FOOD, WATER, AND OTHER CONSUMABLE SUPPLIES.

Q: BACK TO BOSNIA. SECRETARY GENERAL WILLY CLAES

YESTERDAY IN A PHOTO OPPORTUNITY AT THE DEPARTMENT OF STATE WAS ASKED ABOUT THE UNILATERAL LIFTING OF THE ARMS EMBARGO THAT THE

CONGRESS IS CONTEMPLATING, AND HE BASICALLY SAID THAT WOULD BE DISASTROUS. THAT NATO WOULD HAVE TO WITHDRAW, THE UN WOULD HAVE TO WITHDRAW, AND THE U.S. WOULD HAVE TO COMMIT TROOPS TO PROTECT THOSE TROOPS IN THEIR WITHDRAWAL. HE SAID THIS IS NOT A GOOD THING. HE WILL CONTINUE TO LOBBY CONGRESS ON THIS PARTICULAR ISSUE. CAN YOU STATE WHAT PLANS THE UN MIGHT HAVE TO BACK UP A UN WITHDRAWAL IF INDEED THE U.S. CONGRESS UNILATERALLY LIFTS THE EMBARGO?

A: FIRST OF ALL, UNILATERAL WITHDRAWAL IS NOT AN ISSUE RIGHT NOW. AS YOU KNOW, WE HAVE A PROPOSAL BEFORE THE UNITED NATIONS SECURITY COUNCIL FOR A MULTILATERAL LIFT OF THE ARMS EMBARGO. THAT IS STILL UNDER CONSIDERATION. THE KEY TO THAT IS THAT IT WOULD BE LIFTED MULTILATERALLY AT THE END OF SIX MONTHS IF THE BOSNIAN SERBS DON'T ACCEPT THE CONTACT GROUP PEACE PLAN. THE GOAL OF EVERYTHING THAT'S HAPPENING RIGHT NOW IN BOSNIA IS TO PUT PRESSURE ON THE BOSNIAN SERBS TO ACCEPT THIS CONTACT GROUP'S PEACE PLAN. WE HOPE THAT THEY WILL DO THAT. THE END OF FIGHTING IS THE BEST WAY TO GO HERE. IT'S THE ONLY SOLUTION TO THE PROBLEM IN THIS TROUBLED AREA. BUT RIGHT NOW WE ARE PROMOTING THE MULTILATERAL LIFTING, NOT A UNILATERAL LIFTING.

Q: YESTERDAY TWO HIGH LEVEL DEFENSE OFFICIALS WERE SPEAKING ABOUT THE CYCLE OF ESCALATION AND RETALIATION. AND, MR. CLAES YESTERDAY SAID SOMETHING AT THE END ABOUT THE PEACE PROCESS COMING TO CONCLUSION AND AGREEMENT.

DOES THE DEPARTMENT OF DEFENSE SEE A TREND HERE IN THE FIGHTING THAT WILL LEAD RAPIDLY TO A SETTLEMENT AT THE TABLE OR WITH THE CONTACT GROUP?

A: IT IS OUR HOPE THAT THERE WILL BE PEACE QUICKLY IN BOSNIA.

Q: THERE ARE A COUPLE OF LAWSUITS OUTSTANDING AGAINST THE NELLIS AIR FORCE BASE COMPLEX, ALSO KNOWN AS AREA 51. WITHOUT COMMENTING ON THE SPECIFICS OF THE LAWSUIT, COULD YOU SAY IF THERE'S ANY THINKING HERE AT THE PENTAGON TO CHANGE THE CLASSIFICATION OF THOSE AREAS, TO ANY WAY ACKNOWLEDGE IN PUBLIC WHAT IT SEEMS EVERYONE KNOWS ABOUT?

A: WHAT DO PEOPLE KNOW?

Q: LET ME REPHRASE THE QUESTION. IS THERE ANY DISCUSSION GOING ON WITH THE JUSTICE DEPARTMENT NOW BETWEEN DOD AND JUSTICE TO LIFT THE SECRECY ON THAT AREA?

A: AS YOU RIGHTLY POINT OUT, THERE ARE PROJECTS IN AREAS UNCLAS FINAL SECTION OF 03 OUT IN THE NELLIS AIR FORCE BASE REGION THAT ARE CLASSIFIED. I THINK THEY WILL REMAIN CLASSIFIED FOR SOME TIME. THEY CAN'T BE DISCUSSED HERE FOR THAT REASON. THAT'S ALL I CAN TELL YOU RIGHT NOW.

Q: ON THE SUBJECT OF THE RECOMMENDATION TODAY THAT THE CHARGES BE DROPPED AGAINST THE F-15 PILOTS WHO MISTAKENLY SHOT DOWN THE BLACK HAWK HELICOPTERS IN APRIL. IT WOULD APPEAR THE WAY THE RECOMMENDATIONS ARE GOING, THAT ONLY ONE OF THE CASES IS GOING TO PROCEED TO COURT-MARTIAL, THAT AFTER THE PENTAGON HAD A

RATHER HIGH PROFILE BRIEFING IN WHICH IT LAID OUT A SERIES OF MISTAKES AND ERRORS... I'M JUST ASKING WHAT KIND OF A STATEMENT IS THIS SENDING IF IT APPEARS THAT ONLY ONE PERSON IS GOING TO FACE ANY SORT OF SERIOUS DISCIPLINE? EVEN THAT PERSON MAY YET BE

CLEARED OF CHARGES.

A: YOU'RE MAKING A LOT OF ASSUMPTIONS THAT I CAN'T MAKE RIGHT NOW. THESE CASES ARE, AS YOU POINT OUT, ARE CONTINUING. THEY'RE NOT OVER. THEY'RE PART OF THE LEGAL PROCESS. I CAN'T COMMENT ON THEM UNTIL THE LEGAL PROCESS IS COMPLETED.

Q: ONCE THOSE DECISIONS AND THOSE FINDINGS ARE COMPLETED INSIDE THE AIR FORCE JUDICIAL SYSTEM IS THERE ANY REVIEW BY THE SECRETARY OF THAT? OR DO THEY STAND? DO YOU KNOW?

A: MY BELIEF IS THAT THEY STAND. IF THERE'S A CONVICTION, IT STARTS A WHOLE NEW APPEAL PROCESS AND REVIEW PROCESS. BUT IF THEY'RE ACQUITTED OF THE CHARGES, THERE IS NO REVIEW AS I UNDERSTAND IT.

Q: DO YOU HAVE ANYTHING ON WHY THE ONE PILOT WAS NEVER CHARGED?

A: I DON'T HAVE ANY FURTHER COMMENTS ON THIS CASE. I HAVE NOTHING TO ADD.

PRESS: THANK YOU.

Heads Up

The WSJ on page one has a lengthy article about ongoing litigation against the Government at a classified Air Force facility in Nevada known as "the operating location near Groom Lake." The article incorrectly refers to "Area 51." We may get some inquiries, because as the article notes in the very last paragraph, consistent with the applicable statutes, President Clinton exempted the "operating location near Groom Lake" from any federal or state laws governing solid and hazardous waste that would require the disclosure of classified information. BUT NOTE: The President expressly stated in his exemption that it was not intended to "limit the applicability or enforcement of any requirement of law applicable to the Air Force's operating lcoation near Groom Lake, Nevada, except thouse provisions, if any, that would require the disclosure of classified information."

The article is grossly inaccurate and appears to have been planted in response to recent rulings adverse to plaintiffs, including the dismissal of one of the two companion lawsuits. It will, however, be difficult for you to respond without knowing a great deal about the case, the Government's position, and the significant state secrets at stake. I recommend that you refer all press inquiries to DOJ press person Jim Sweeney, 514-2008. He is familiar with the case.

Please call if you need further background. I also have press briefing sheets (a few weeks old) from the USAF.

BACKGROUND FYI ONLY:

The two civil suits in question are "citizens suits" against the EPA and against Secretary Perry, the Secretary of the Air Force and Tony Lake. In essence, the suits challenge the Government's compliance with environmental laws involving the storage, treatment and disposal of hazardous waste.

The article presents the plaintiffs perspective of the case and is likely the result of the district court's rulings against the plaintiffs. Among other things the district court has ruled that the EPA has (subsequent to the litigation) completed an inspection of the location in question and the Air Force had conducted an inventory rendering at least one of the cases moot, i.e., the Government has done what plaintiffs asked. The court has also upheld the Air Force's assertion of the state secrets privilege over information plaintiffs sought to discover and disclose -- the third aspect of the suits.

Plaintiffs, have more recently sought to argue that the Government was hiding criminal conduct behind the state secrets privilege. The court on January 31 denied plaintiffs motion to conduct discovery on this allegation, without comment. While the applicable environmental law has criminal sanctions, I am at a loss as to the theory by which plaintiffs (driven by a local law school professor) can seek to undertake the Government's role as enforcement authority in the area of criminal sanctions. Moreover, as noted above, the court has ruled that the inventory and inspection requirements, (to the extent they are applicable), have been completed.

Heads Up

BACKGROUND: 60 Minutes ran a story last night on the "operating location near Groom Lake," erroneously referred to as Area 51. While the story was nominally about the facility, the focus was plaintiffs' attorney's version of a suit filed against Sec. Perry, the National Security Adviser and Sec. of the Air Force (previously described below). This suit, however, was dismissed by the district court of Nevada on March 6. Plaintiffs will appeal. As they say, this is an effort to try the case in the media.

The most troublesome aspect of the story (from my perspective) was the discussion with Lee Hamilton, the only person interviewed for the story not associated with Jonathan Turley and plaintiffs. Hamilton criticized the Government's efforts, upheld by the court, to classify the results of the EPA inventory and inspection at the operating location. I believe he referred to the classification of "paint" as nonsense or silly. (Note: I asked Air Force/GC to consider whether it was appropriate to brief Hamilton on the operating location.)

We may receive calls because (1) Tony Lake's name was highlighted during a camera zoom on the Plaintiffs complaint to the court, and (2) the Presidential exemption described in an earlier e-mail, was discussed. You should also be aware that GAO is doing an inquiry on environmental

E002a

exemptions generally and has asked Air Force a number of questions about the operating location near Groom Lake.

GUIDANCE: As a general matter, and because this matter is under litigation, I recommend that you refer questions on this matter to Jim Sweeney at Justice 514-2008 or to the Air Force/PA.

If you are specifically asked about the Presidential exemption or Tony Lake's connection to the suit I recommend that you draw from the following:

Presidential Exemption: President Clinton exempted the "operating location near Groom Lake" from any requirement to disclose classified information contained in federal or state laws governing solid and hazardous waste. BUT NOTE: The President expressly stated in his exemption that it was not intended to "limit the applicability or enforcement of any requirement of law applicable to the Air Force's operating location near Groom Lake, Nevada, except those provisions, if any, that would require the disclosure of classified information." This exemption was published in the Federal Register and was reported to the Congress.

Re: Tony Lake as a defendant. I do not recommend that you engage on this point. Background: The case against Perry, Lake and Widnall was dismissed on March 6, when the court granted the Government's motion for summary judgment ruling that the Government had properly invoked the military and state secrets privilege and that plaintiffs had failed to establish a genuine issue of any material fact without running afoul of the privilege. The court found that disclosure of any further information or a trial on this matter risks significant harm to the national security. Additional Background: In addition to invoking the state secrets privilege, with respect to Tony, the Government argued that as a matter of law, he should be dismissed from the suit in any event because the National Security Adviser has no supervisory responsibility over the operating location. The court did not find it necessary to rule on this matter.

Please let me know if you need additional information. Thank you. Earlier guidance on a WSJ article, giving more information on the background to the suits, follows below.

Subject: WSG Article on Groom Lake [UNCLASSIFIED]
Date: Thursday, February 08, 1996 10:41 AM

Heads Up

The WSJ on page one has a lengthy article about ongoing litigation against the Government at a classified Air Force facility in Nevada known as "the

[0020]

operating location near Groom Lake." The article incorrectly refers to "Area 51." We may get some inquiries, because as the article notes in the very last paragraph, consistent with the applicable statutes, President Clinton exempted the "operating location near Groom Lake" from any federal or state laws governing solid and hazardous waste that would require the disclosure of classified information. BUT NOTE: The President expressly stated in his exemption that it was not intended to "limit the applicability or enforcement of any requirement of law applicable to the Air Force's operating location near Groom Lake, Nevada, except those provisions, if any, that would require the disclosure of classified information."

The article is grossly inaccurate and appears to have been planted in response to recent rulings adverse to plaintiffs, including the dismissal of one of the two companion lawsuits. It will, however, be difficult for you to respond without knowing a great deal about the case, the Government's position, and the significant state secrets at stake. I recommend that you refer all press inquiries to DOJ press person Jim Sweeney, 514-2008. He is familiar with the case.

Please call if you need further background. I also have press briefing sheets (a few weeks old) from the USAF.

BACKGROUND FYI ONLY:

The two civil suits in question are "citizens suits" against the EPA and against Secretary Perry, the Secretary of the Air Force and Tony Lake. In essence, the suits challenge the Government's compliance with environmental laws involving the storage, treatment and disposal of hazardous waste.

The article presents the plaintiffs perspective of the case and is likely the result of the district court's rulings against the plaintiffs. Among other things the district court has ruled that the EPA has (subsequent to the litigation) completed an inspection of the location in question and the Air Force had conducted an inventory rendering at least one of the cases moot, i.e., the Government has done what plaintiffs asked. The court has also upheld the Air Force's assertion of the state secrets privilege over information plaintiffs sought to discover and disclose -- the third aspect of the suits.

Plaintiffs, have more recently sought to argue that the Government was hiding criminal conduct behind the state secrets privilege. The court on January 31 denied plaintiffs motion to conduct discovery on this allegation, without comment. While the applicable environmental law has criminal sanctions, I am at a loss as to the theory by which plaintiffs (driven by a local law school professor) can seek to undertake the Government's role as enforcement authority in the area of criminal sanctions. Moreover, as noted above, the court has ruled that the inventory and inspection requirements, (to the extent they are applicable), have been completed.

Mary,

Alan brought this over to the General this morning. By the way you should not call this area 51 -- it's not correct and there was a court ruling about it and this term should not be used.

TEXT_BODY Here is draft press guidance. Don Kerrick should clear before use.

TRANSLATED_ATTACHMENT GudGL.doc
If Raised Press Guidance:
Operating Location Near Groom Lake
(erroneously referred to as "Area 51")

Question: Has the President Exempted "Area 51" from the Public Disclosure Requirements of the Resource Conservation and Recovery Act?

Answer:

-- On September 26, the President renewed an existing exemption for the United States Air Force operating location near Groom Lake, Nevada, from any applicable requirement for the disclosure to unauthorized persons of classified

information concerning the location. The exemption does not limit the applicability or enforcement of any requirement of law other than those that might require the disclosure of classified information.

-- The exemption relates to two lawsuits under the Resource Conservation and Recovery Act; beyond that I am not going to comment on a matter potentially involving classified information and that is the subject of litigation.

FYI BACKGROUND ONLY: This is the third such Presidential exemption. The exemption was necessitated by litigation over RCRA compliance at the facility. While ruling that the information in question was appropriately classified, the Federal district court ruled that under RCRA classified information could only be protected from public disclosure pursuant to a Presidential exemption. That ruling remains under appeal by both the plaintiffs and government, which argues among other things that a Presidential exemption under RCRA is not required in order to protect classified information.

Oral arguments are scheduled for November 5. Among other things, the Government will appeal the court's decision that a Presidential exemption is required to protect classified information. Plaintiffs will seek to over-turn the court's decisions to proceed with exhibits under seal and on attorney's fees in addition to challenging the lower court's dismissal of both cases. The 9th Circuit would likely rule six to twelve months later.

PLEASE PASS TO SANDY, JIM AND MARA

Legislative Look Ahead
Week
of February 14, 2000

Coincidence? . . . or Foreign Conspiracy?

* Miles

and Mara have been called for jury duty on the same day (Monday).
The summons says "Report to Area 51." You may never hear from either
of us again!

SRB Action

* POTUS meetings with House Members

on China/PNTR scheduled for Monday, Tuesday and Thursday. The Monday
meeting is for bi-partisan supporters . . . the subsequent meetings
will be with a mix of Democratic Members; we have been working with
Chuck Brain and the Lane group on points and Q&As;

* SRB meeting

with Dick Gephardt on Thursday at 11:45 for a general foreign policy
discussion at our request. Topics should be MEPP, Colombia, Africa
(i.e., his trip), and Russia. We also need to be prepared for the
F-15 issue;

* SRB call to Porter Goss on Colombia. I sent you
a final set of points on Friday which includes a section from Mary
McCarthy on NSA;

* SRB makes follow-up call to Jim Jeffords on
Tibetan human rights case (points with Mona);

* SRB call to Charlie

Rangel about possible travel to North Korea (points will be coming
shortly);

SRB Action Items Not Yet Scheduled

- * Biden. I have not called Biden's staff to discuss a repeat performance -- waiting for the right moment;
- * Thomas/Feinstein on Taiwan/PNTR. I sent you a proposed list of invitees for a bipartisan meeting on Taiwan/PNTR with the Thomas/Feinstein group. Target would be the week of February 21;
- * Warner. I have spoken with State and Defense about having a meeting at the WH with Warner for a discussion on Kosovo. We are still discussing who should be invited to join Warner. In any case, it can't be scheduled until next week because the Senate is out this week;
- * Cohen NMD Meetings. DoD has proposed a list (mostly Republicans but also a handful of Democrats) to come to the Pentagon over the next month. The idea is to one meeting per week -- beginning when the Senate returns next week. Q: do you want to join any of these meetings?
- * Colombia. I got the formal request from the House Democratic Caucus for you to come to a policy lunch on Colombia. I told them you would be happy to come, but that you are not available this week. Since the House is going on recess next week, we will be looking at a lunch meeting the week of February 28th;

The Week Ahead

The Senate is out this week -- the House is out next week -- how inconsiderate!

* Monday

* POTUS meeting with bi-partisan group of House Members on PNTR;

* Miles out on jury duty;

* Tuesday

* POTUS meeting with group of Democratic House Members on PNTR;

* The first hearing on our Colombia assistance package will take place

Tuesday before the House Government Reform Subcommittee on Criminal Justice, Drug Policy, and Human Resources (Mica). This was not our preferred venue to kick off -- in large part because the key witnesses (Rand Beers, State; Brian Sheridan, DOD) will be in Colombia -- but lack of cooperation from Southcom, who insisted on sending Wilhelm -- and Mica's staff's threats of subpoenas -- made it difficult for other agencies to refuse. So ONDCP (McCaffrey), Southcom (Wilhelm), DEA (Ledwith), State (Romero), and DOD (Salazar) are expected to testify;

- * Holbrooke testifies before HIRC on U.N. peacekeeping in Congo;

- * Lackey, Samore and Weiss(?) will meet with Levin's staff to discuss amendments to Russia/Iran legislation;

- * Wednesday

- * Albright's hearing before the HIRC (rescheduled from last week).

- * Stanley
Roth will testify before HIRC/Asia on Indonesia;

- * General Kadish
will testify on ballistic missile defense program before two HASC Subcommittees;

- * The Vice Chiefs will testify in closed session on the military readiness budget before the HAC Defense Subcommittee;

- * Tenet
and DIA will testify in closed session on worldwide threats before the HASC;

- * Ann Witkowski and State, DOD and JCS will brief SASC staff on CFE;

- * Thursday

- * POTUS meeting with group of Democratic House Members on PNTR;

- * Hearing on Colombia before the HPSCI
on Thursday -- not clear yet if it will be open or closed. Witnesses will include State (Beers), DOD, ONDCP, USAID, and possibly CIA;

- * General
Clark will testify on EUCOM budget before HASC;

* Wendy Sherman
will testify on North Korea before the HIRC;

On Gephardt meeting and Africa dimension - suspect we need points on Nigeria and HIV-AIDS - those seemed to be the big ticket items for the delegation. Please let me know if Bret has indicated otherwise.

[010a]

Also,
recommend that you include an Africa trade bill point in the Rangel call on North Korea.

[UNCLASSIFIED]

PLEASE PASS TO SANDY, JIM AND MARA

Legislative
Look Ahead
Week of February 14, 2000

Coincidence? . . . or
Foreign Conspiracy?

* Miles and Mara have been called for jury duty on the same day (Monday). The summons says "Report to Area 51." You may never hear from either of us again!

SRB Action

* POTUS

meetings with House Members on China/PNTR scheduled for Monday, Tuesday and Thursday. The Monday meeting is for bi-partisan supporters . . . the subsequent meetings will be with a mix of Democratic Members; we have been working with Chuck Brain and the Lane group on points and Q&As;

* SRB meeting with Dick Gephardt on Thursday at 11:45 for a general foreign policy discussion at our request. Topics should be MEPP, Colombia, Africa (i.e., his trip), and Russia. We also need to be prepared for the F-15 issue;

* SRB call to Porter Goss on Colombia. I sent you a final set of points on Friday which includes a section from Mary McCarthy on NSA;

* SRB makes follow-up call to Jim Jeffords on Tibetan human rights case (points with Mona);

- * SRB

call to Charlie Rangel about possible travel to North Korea (points will be coming shortly);

SRB Action Items Not Yet Scheduled

- * Biden.

I have not called Biden's staff to discuss a repeat performance -- waiting for the right moment;

- * Thomas/Feinstein on Taiwan/PNTR.

I sent you a proposed list of invitees for a bipartisan meeting on Taiwan/PNTR with the Thomas/Feinstein group. Target would be the week of February 21;

- * Warner. I have spoken with State and

Defense about having a meeting at the WH with Warner for a discussion on Kosovo. We are still discussing who should be invited to join Warner. In any case, it can't be scheduled until next week because the Senate is out this week;

- * Cohen NMD Meetings. DoD has proposed

a list (mostly Republicans but also a handful of Democrats) to come to the Pentagon over the next month. The idea is to one meeting per week -- beginning when the Senate returns next week. Q: do you want to join any of these meetings?

- * Colombia. I got the

formal request from the House Democratic Caucus for you to come to a policy lunch on Colombia. I told them you would be happy to come, but that you are not available this week. Since the House is going on recess next week, we will be looking at a lunch meeting the week of February 28th;

The Week Ahead

The Senate is out this

week -- the House is out next week -- how inconsiderate!

- * Monday

- * POTUS

meeting with bi-partisan group of House Members on PNTR;

- * Miles

out on jury duty;

- * Tuesday

- * POTUS meeting with group of Democratic House Members on PNTR;

- * The first hearing on our Colombia assistance package will take place Tuesday before the House Government Reform Subcommittee on Criminal Justice, Drug Policy, and Human Resources (Mica). This was not our preferred venue to kick off -- in large part because the key witnesses (Rand Beers, State; Brian Sheridan, DOD) will be in Colombia -- but lack of cooperation from Southcom, who insisted on sending Wilhelm -- and Mica's staff's threats of subpoenas -- made it difficult for other agencies to refuse. So ONDCP (McCaffrey), Southcom (Wilhelm), DEA (Ledwith), State (Romero), and DOD (Salazar) are expected to testify;

- * Holbrooke testifies before HIRC on U.N. peacekeeping in Congo;

- * Lackey, Samore and Weiss(?) will meet with Levin's staff to discuss amendments to Russia/Iran legislation;

- * Wednesday

- * Albright's hearing before the HIRC (rescheduled from last week).

- * Stanley Roth will testify before HIRC/Asia on Indonesia;

- * General Kadish will testify on ballistic missile defense program before two HASC Subcommittees;

- * The Vice Chiefs will testify in closed session on the military readiness budget before the HAC Defense Subcommittee;

- * Tenet and DIA will testify in closed session on worldwide threats before the HASC;

- * Ann Witkovsky and State, DOD and JCS will brief SASC staff on CFE;

- * Thursday

- * POTUS meeting with group of Democratic House Members on PNTR;

- * Hearing on Colombia before the HPSCI on Thursday -- not clear yet if it will

be open or closed. Witnesses will include State (Beers), DOD, ONDCP, USAID, and possibly CIA;

* General Clark will testify on EUCOM budget before HASC;

* Wendy Sherman will testify on North Korea before the HIRC;

before the HAC Defense Subcommittee;

* Tenet and DIA will testify
in closed session on worldwide threats before the HASC;

* Ann
Witkowski and State, DOD and JCS will brief SASC staff on CFE;

* Thursday

* POTUS
meeting with group of Democratic House Members on PNTR;

* Hearing
on Colombia before the HPSCI on Thursday -- not clear yet if it will
be open or closed. Witnesses will include State (Beers), DOD, ONDCP,
USAID, and possibly CIA;

* General Clark will testify on EUCOM
budget before HASC;

* Wendy Sherman will testify on North Korea
before the HIRC;

GROOM LAKE
November 3, 1997

FOR USE IF ASKED

Question: Has the President Exempted "Area 51" from the Public Disclosure

Requirements of the Resource Conservation and Recovery Act?

-- On September 26, the President renewed an existing exemption for the United

States Air Force operating location near Groom Lake, Nevada, from any applicable

requirement for the disclosure to unauthorized persons of classified information

concerning the location. The exemption does not limit the applicability or

enforcement of any requirement of law other than those that might require the

disclosure of classified information.

-- The exemption relates to two lawsuits under the Resource Conservation and

Recovery Act; beyond that I am not going to comment on a matter potentially

involving classified information and that is the subject of litigation.

FYI BACKGROUND ONLY: This is the third such Presidential

exemption. The exemption was necessitated by litigation over RCRA compliance at the facility. While ruling that the information in question was appropriately classified, the Federal district court ruled that under RCRA classified information could only be protected from public disclosure pursuant to a Presidential exemption. That ruling remains under appeal by both the plaintiffs and government, which argues among other things that a Presidential exemption under RCRA is not required in order to protect classified information.

Oral arguments are scheduled for November 5. Among other things, the Government will appeal the court's decision that a Presidential exemption is required to protect classified information. Plaintiffs will seek to over-turn the court's decisions to proceed with exhibits under seal and on attorney's fees in addition to challenging the lower court's dismissal of both cases. The 9th Circuit would likely rule six to twelve months later.

TEXT_BODY Air Force has called with some edits to the tasking memo. Have not connected yet. I would say to SRB: we will have the tasking memo for you to sign shortly and that all parties know that time spent drafting does not defer deadline for answering questions we all know are coming. Depending on comments, we could in fact have this to Sandy when he returns. The missing pieces remain discussion with DOE and DCI and alerting them that memo is coming, which I understand to be in your AOR.

^Earthy explanation offered for mysterious Lake Havasu circles<

LAKE HAVASU CITY, Ariz. (AP) Green circles that have been cropping up in a grassy amphitheater in Rotary Community Park had early-morning walkers fluttering their fingers to simulate a descending spaceship.

With a secret military operation only a couple of hours' drive north Nellis Air Force Base's Area 51, many were wondering about the circles' origin.

One walker claimed he had seen an Air Force truck pull into the park, its driver snap some photographs, then leave. Others claimed to have heard mysterious noises after 10 p.m., the park's closing time.

But there's a very earthy answer, says Bart Wagner, parks division manager of the city's parks and recreation director. Mushrooms.

``They're just like the fairy rings in Rip Van Winkle, which he entered and fell asleep for 20 years," said Larry Mick, Lake Havasu High School biology and physical sciences teacher.

Under the grass is the mycelium,
the mushroom, and like an
earthworm, it feeds on dead grass and
water and it releases
nutrients that create the green grass rings.
The mushrooms
themselves are the fruity manifestation of the hidden
underground
organism, Mick and Wagner explained.

has begun [UNCLASSIFIED]

^Conspiracy theories rise over Elian
photos

WASHINGTON (AP) Some point to a missing tooth. Others say it's the hair. Still others allege signs of government-induced drugging. In the hours since young Elian Gonzalez was taken from the home of his Miami relatives, conspiracy theories abound over photos of the child released after he arrived at a military base to be with his father. Attorneys for Elian's father, Juan Miguel Gonzalez, released pictures of the family Saturday after government officials brought the 6-year-old Cuban boy to Andrews Air Force Base, just outside of Washington. Critics have closely scrutinized the father's photo with one

captured during the raid just hours earlier by a free-lance photographer for The Associated Press.

In the AP photograph, Elian is being held by a friend as a government agent holds an automatic rifle.

In the pictures with his father, critics say Elian's hair is longer than in the AP photo and that he appears to no longer have a missing tooth.

Rep. Lincoln

Diaz-Balart, a Florida Republican who represents the Miami area,

said he saw signs that the government was "brainwashing" the child.

"I saw a little Band-Aid (in the Maryland pictures),"

Diaz-

Balart said Saturday evening on CNN's "Evans, Novak, Hunt and Shields."

"I think the drugging has already begun."

But Deputy Attorney General Eric Holder said on NBC's "Meet the Press," "I have no knowledge that he was given any kind of drugs."

Marisleysis Gonzalez, the 21-year-old cousin who says Elian thinks of her as a surrogate mother, declared Sunday at a Washington news conference "That is not Elian. Look how short the hair looks when

he was taken out of the house and look how long the hair is in the picture that they show today."

Kendall Coffey, an attorney for the Miami relatives, said in an interview with ABC's "This Week" that he had taken no position on the allegations of doctored photos but, "He seems to have a good bit more hair. And unless they were developing some hair product with the boy on the flight up to the north, then our community is very, very suspicious."

Joan Brown Campbell of the National Council of Churches, a friend

of Juan Miguel Gonzalez who was present when father and son were reunited, criticized those alleging a conspiracy.

``He had

his arms around his father," she said on ABC's ``This Week."

``There was real affection there that cannot be manufactured."

UFO Theorists Mining NSA Site For X-Files

Spy agency flooded with requests after reports go on Web

By Laura Sullivan, Sun Staff

Two years ago, the National Security Agency began posting previously classified documents on its Web site to deflect the growing number of requests each year for information about flying saucers and space aliens. But the plan backfired.

Rather than relieving suspicions that the agency is hiding information about unidentified flying objects, the result has been more people than ever demanding to see UFO documents. A record 36,000 people perused the UFO page last month.

What has piqued UFO believers' interest is not so much what the documents on the Web site say - often little or nothing between the blacked-out censored sections - but their extraordinary volume: thousands of pages of unofficial reports and antiquated radio interceptions from abroad.

Among the postings from the files of nation's most-secret spy agency is a National Enquirer article with the headline, "Take UFOs Seriously or Be Prepared for Sneak Invasion By Space Aliens."

All of this is fueling speculation among believers who wonder why, for something that doesn't exist, the agency has collected a ton of records.

The NSA staff, burdened with hundreds of written requests under the Freedom of Information Act, is unamused. Staff members say the time required for the UFO requests slows down the response time for all requests.

The agency hasn't kept exact numbers about UFO requests. But Pamela Phillips, chief of FOIA/Privacy Act Services, said the increase in letters asking about UFOs has been "significant," forcing the office to hire several additional staff members.

Phillips said the "conspiracies" that believers are deriving from the postings can be easily explained.

"These documents contain the term UFO, but they are not necessarily about aliens," she said. "They just contain the term which describes an object that was flying that was unidentified" at the time.

As for the Enquirer article - which one UFO enthusiast says proves that the weekly tabloid known for its alien abduction stories has been right all along - Phillips says it's more likely that it was clipped for amusement and found on someone's desk after they retired.

Much of the latest increase in requests is a result of better technology. In the past, people interested in viewing the agency's files would have to find its address and know whom to write to, then type and mail

a letter. Now, people can use the agency's online request form to ask for documents, made even easier with a ready-made letter template. Visitors can send in multiple requests in seconds.

The agency hasn't added to the UFO page since its first posting two years ago, but it plans to soon, Phillips said, especially for the most commonly requested items.

Agency officials said most of the UFO requests they receive ask for information about specific words pulled from the online documents. Enthusiasts believe the agency categorizes documents under keywords - and they just haven't hit on the right word yet.

In pre-Internet times, most requests for documents with a keyword would center on popular tales such as "Area 51," "Roswell," or "Philadelphia Experiment." Today, the keywords are more numerous, prompting agency officials to compile lists of common ones - such as "snowbird" and "sigma" - and the results of those searches, so they don't duplicate their efforts.

Even with lists and a stack of frequently requested documents close by, agency officials say it's hard to keep up with requests that are similar but change by a single word. Every request, no matter how similar to a previous one must be queried again and given the same attention.

Believers say what the documents don't say is most interesting.

"The fact that they're releasing this stuff and it's so blacked out, the theories just flurry," said John Greenwald, who has collected UFO documents from NSA and other agencies for more than five years and posts them on his Web site, "The Black Vault."

"Maybe it has nothing to do with aliens, that's a possibility," said Greenwald, of California. "But I've never found so many documents this blacked out before, and that adds to the fascination."

To Greenwald and other enthusiasts, it comes as no surprise that so many people are perusing the security agency's UFO documents. One batch of papers deals with an alleged "spotting" in Iran in the 1970s, which has captured the imaginations of many believers.

The NSA apparently intercepted radio communications of an Iranian pilot who said he had temporarily lost control of his airplane when he encountered something in the air that he couldn't identify.

The documents on the Web - at <http://nsa.gov/docs/efoia/released/ufo.html> - shed no additional light on this situation, which only adds to viewers' curiosity.

"More people than ever are interested in this stuff," said Peter Gersten, an Arizona-based attorney and director of Citizens Against UFO Secrecy. "Each year you get more and more people, especially young people. With 'X-Files' and 'Star Wars,' it's exotic. It's entertaining. It's the greatest mystery of all time."

ACTION

MEMORANDUM FOR THE PRESIDENT

THROUGH: THE EXECUTIVE CLERK

FROM: ANTHONY LAKE

SUBJECT: RCRA Exemption for the Operating Location at Groom Lake

Purpose

To exempt the Air Force from public disclosure requirements concerning the inspection and inventory of hazardous waste at the "operating location near Groom Lake, Nevada."

Background

Lawsuits have been brought against EPA, the Air Force and other government officials for failure to enforce the requirements of the Resource Conservation and Recovery Act (RCRA) at a classified AF operating location near Groom Dry Lake Bed, Nevada (the operating location). Plaintiffs allege EPA failed to (1) conduct a RCRA inspection; (2) compile an inventory of wastes and (3) publicly disclose the inspection and inventory.

Subsequent to this suit, the EPA, in agreement with the Air Force, conducted a RCRA inspection and compiled a RCRA inventory. The Air Force has committed to conducting its activities at the operating location in accordance with RCRA requirements. EPA agrees that annual RCRA inspections will be conducted at the operating location. On this basis, the district court has granted summary judgment for the Government regarding plaintiffs' inspection and inventory claims.

The only remaining issue is RCRA's requirement of public disclosure of the inspection and inventory. The Secretary of the Air Force presented a classified affidavit to the Court explaining that public disclosure would compromise sensitive national security information. She explained that the presence of certain chemicals or chemical compounds could reveal military operational capabilities or the nature and scope of classified operations and could provide critical information on the makeup

and vulnerability of materials analyzed. The court agreed the information was appropriately classified but found that it could only be protected from disclosure if you invoked authority under RCRA to exempt the location from RCRA's disclosure requirements.

The Justice Department and Air Force believe the RCRA statute should be read to include an implicit exception for classified information, and they are appealing the judge's decision on that basis. However, given the uncertainties of an appeal and the sensitivity of the information at stake, Deputy Secretary of Defense White and the Secretary of the Air Force have recommended that you provide a statutory exemption to the operating location. EPA Administrator Browner has concurred on the basis of the Air Force's determination that the information must remain classified.

The proposed exemption is worded narrowly, to exempt the location only from disclosure requirements and not from applicable environmental standards. It needs to be filed with the court by October 2.

I concur in the recommendation, as do Ab Mikva and Katie McGinty. The classified declaration of Air Force Secretary Widnall at Tab C elaborates on the need to keep the information concerning the operating location at Groom Lake classified.

RECOMMENDATION

That you sign the exemption at Tab A.

Presidential Determination
No. 95-45

MEMORANDUM FOR THE ADMINISTRATOR OF THE ENVIRONMENTAL
PROTECTION AGENCY
THE SECRETARY OF THE AIR FORCE

SUBJECT: Presidential Determination on Classified
Information Concerning the Air Force's Operating
Location Near Groom Lake, Nevada

I find that it is in the paramount interest of the United States to exempt the United States Air Force's operating location near Groom Lake, Nevada (the subject of litigation in Kasza v. Browner (D. Nev. CV-S-94-795-PMP) and Frost v. Perry (D. Nev. CV-S-94-714-PMP)) from any applicable requirement for the disclosure to unauthorized persons of classified information concerning that operating location. Therefore, pursuant to 42 U.S.C. § 6961(a), I hereby exempt the Air Force's operating location near Groom Lake, Nevada from any Federal, State, interstate or local provision respecting control and abatement of solid waste or hazardous waste disposal that would require the disclosure of classified information concerning that operating location to any unauthorized person. This exemption shall be effective for the full one-year statutory period.

Nothing herein is intended to: (a) imply that in the absence of such a Presidential exemption, the Resource Conservation and Recovery Act (RCRA) or any other provision of law permits or requires disclosure of classified information to unauthorized persons; or (b) limit the applicability or enforcement of any requirement of law applicable to the Air Force's operating location near Groom Lake, Nevada, except those provisions, if any, that would require the disclosure of classified information.

The Secretary of the Air Force is authorized and directed to publish this Determination in the Federal Register.

UNCLASSIFIED DECLARATION AND CLAIM OF MILITARY AND STATE

SECRETS PRIVILEGE OF SHEILA E. WIDNALL, SECRETARY OF THE AIR FORCE

I, SHEILA E. WIDNALL, HEREBY DECLARE THE FOLLOWING TO BE TRUE AND CORRECT:

1. Official Duties: I am the Secretary of the United States Air Force and the head of the Department of the Air Force. In that capacity, I exercise the statutory functions specified in section 8013 of Title 10, U.S. Code. I am responsible for the formulation of Air Force policies and programs that are fully consistent with the national security directives of the President and the Secretary of Defense, including those that protect national security information relating to the defense and foreign relations of the United States. As the Secretary of the Air Force, I exercise authority over the operating location near Groom Lake, Nevada, and the information associated with that operating location. As the head of an agency with control over the information associated with the operating location near Groom Lake, I am the proper person to assert the military and state secrets privilege with regard to that information. Under Executive Order 12356, I exercise original TOP SECRET classification authority, which permits me to determine the proper classification of national security information on behalf of the United States. Executive Order No. 12356, Sec. 1.2, 47 Fed. Reg. 20,105 (1982), reprinted in 50 U.S. Code Section 401 (1991); Presidential Order of May 7, 1982, Officials Designated to Classify National Security Information, reprinted in 50 U.S. Code Section 401 (1991).

2. Purpose: This Declaration is made for the purpose of advising the court of the national security interests in and the security classification of information that may be relevant to the above captioned lawsuits. The statements made herein are based on (a) my personal consideration of the matter; (b) my personal knowledge; and (c) my evaluation of information made available to me in my official capacity. I have concluded that release of certain information relevant to these lawsuits would necessitate disclosure of properly classified information about the Air Force

operating location near Groom Lake, Nevada. I am satisfied that the information described in the classified Declaration is properly classified. I have further determined that the information described in the classified Declaration, if released to the public, could reasonably be expected to cause exceptionally grave damage to the national security. It is not possible to discuss publicly the majority of information at issue without risking the very harm to the national security that protection of the information is intended to prevent.

3. Security Classification: Under Information Security Oversight Office guidance, “[c]ertain information that would otherwise be unclassified may require classification when combined or associated with other unclassified information.” (32 CFR 2001.3(a)) Protection through classification is required if the combination of unclassified items of information provides an added factor that warrants protection of the information taken as a whole. This theory of classification is commonly known as the mosaic or compilation theory. The mosaic theory of classification applies to some of the information associated with the operating location near Groom Lake. Although the operating location near Groom Lake has no official name, it is sometimes referred to by the name or names of programs that have been conducted there. The names of some programs are classified; all program names are classified when they are associated with the specific location or with other classified programs. Consequently, the release of any such names would disclose classified information.

4. National Security Information: As the head of the agency responsible for information regarding the operating location near Groom Lake, I have determined that information that concerns this operating location and that falls into any of the following categories, is validly classified:

- a. Program(s) name(s)
- b. Mission(s);
- c. Capabilities;
- d. Military plans, weapons, or operations;
- e. Intelligence sources and methods;
- f. Scientific or technological matters;
- g. Certain physical characteristics;
- h. Budget, finance, and contracting relationships;
- i. Personnel matters; and,

j. Security sensitive environmental data. The following are examples of why certain environmental data is sensitive to the national security. Collection of information regarding the air, water, and soil is a classic foreign intelligence practice, because analysis of these samples can result in the identification of military operations and capabilities. The presence of certain chemicals or chemical compounds, either alone or in conjunction with other chemicals and compounds, can reveal military operational capabilities or the nature and scope of classified operations. Similarly, the absence of certain chemicals or chemical compounds can be used to rule out operations and capabilities. Revealing the composition of the chemical waste stream provides the same kind of exploitable information as does publishing a list of the chemicals used and consumed. Analysis of waste material can provide critical information on the makeup as well as the vulnerabilities of the material analyzed. Disclosure of such information increases the risk to the lives of United States personnel and decreases the probability of successful mission accomplishment.

5. Role of State and Federal Environmental Agencies: Since 1990, appropriately cleared representatives of Nevada's Department of Conservation and Natural Resources have been

authorized access to the operating location near Groom Lake. The state representative's role is and has been to monitor and enforce compliance with environmental laws and regulations and to advise on remedial efforts, if required. Appropriately cleared officers of the U.S. Environmental Protection Agency were recently granted access to the operating location near Groom Lake for inspection and enforcement of environmental laws. Federal inspectors from the Environmental Protection Agency commenced an inspection pursuant to the Solid Waste Disposal Act, commonly referred to as a "RCRA inspection," at the operating location near Groom Lake, Nevada on December 6, 1994. The Air Force has taken these steps to ensure full compliance with all applicable environmental laws. At the same time that the operating location near Groom Lake is being inspected for environmental compliance, it is essential to the national security that steps also be taken to prevent the disclosure of classified information.

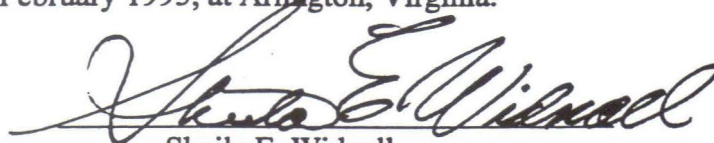

6. Invoking Military and State Secrets Privilege: It is my judgment, after personal consideration of the matter, that the national security information described in this Declaration and in the classified Declaration, concerning activities at the U.S. Air Force operating location near Groom Lake, Nevada, constitutes military and state secrets. As a result, disclosure of this information in documentary or testimonial evidence must be barred in the interests of national security of the United States. Pursuant to the authority vested in me as Secretary of the Air Force, I hereby invoke a formal claim of military and state secrets privilege with respect to the disclosure of the national security information listed in paragraph four of this Declaration and more fully discussed in the classified Declaration, whether through documentary or testimonial evidence.

7. Environmental Compliance: Although I have found it necessary to invoke the military and state secrets privilege, I believe it important to comment on the Air Force's commitment to full compliance with the environmental laws of the United States. Our goal is to be the best possible

environmental steward of the lands comprising the Nellis Range. To meet that goal we are cooperating and will continue to cooperate with both federal and state environmental agencies.

8. Under penalty of perjury, and pursuant to section 1746 of Title 28, U.S. Code, I certify and declare that the foregoing statements are true and correct.

Executed this 21 day of February 1995, at Arlington, Virginia.

A handwritten signature in dark ink, appearing to read 'Sheila E. Widnall', is written over a horizontal line.

Sheila E. Widnall
Secretary of the Air Force

MEMORANDUM FOR THE SECRETARY OF THE AIR FORCE AND
THE ADMINISTRATOR OF THE ENVIRONMENTAL
PROTECTION AGENCY

SUBJECT: Classified Information Concerning the Air Force's Operating Location Near Groom Lake, Nevada

I find that it is in the paramount interest of the United States to exempt the United States Air Force's operating location near Groom Lake, Nevada (the subject of litigation in Kasza v. Browner (D. Nev. CV-S-94-795-PMP) and Frost v. Perry (D. Nev. CV-S-94-714-PMP)) from any applicable requirement for the disclosure to unauthorized persons of classified information concerning that operating location. Therefore, pursuant to 42 U.S.C. § 6961(a), I hereby exempt the Air Force's operating location near Groom Lake, Nevada, from any Federal, State, interstate, or local provision respecting control and abatement of solid waste or hazardous waste disposal that would require the disclosure of classified information concerning that operating location to any unauthorized person. This exemption shall be effective for the full one-year statutory period.

Nothing herein is intended to: (a) imply that, in the absence of such a Presidential exemption, RCRA or any other provision of law permits or requires disclosure of classified information to unauthorized persons; or (b) limit the applicability or enforcement of any requirement of law applicable to the Air Force's operating location near Groom Lake, Nevada, except those provisions, if any, that would require the disclosure of classified information.

SECRETARY OF THE AIR FORCE
WASHINGTON

SEP 25 1995

MEMORANDUM FOR THE DEPUTY SECRETARY OF DEFENSE

SUBJECT: Request to Seek Presidential Exemption for Classified Information Concerning the Air Force's Operating Location Near Groom Lake, Nevada

I recommend and request that you seek from the President an exemption from disclosure of classified information concerning an Air Force operating location near Groom Lake in the Nellis Range Complex in Nevada. This request is necessitated by a judicial decision in a lawsuit against the Environmental Protection Agency, Kasza v. Browner, No. CV-S-94-795-PMP. Administrator Browner concurs in this request, as does the Department of Justice Environment and Natural Resources Division, which is defending EPA in the lawsuit.

The Kasza case is one of two citizen environmental suits pending in federal district court in Nevada concerning the operating location near Groom Lake. The activities undertaken at the operating location are crucial to national security. The nature of the activities requires that virtually all information about the location be classified. Indeed, until recently the Air Force had never publicly acknowledged that it had an operating location there; as of today, that is virtually the only information about the location we have made public. To protect national security in the pending litigation, I have made a formal claim of the military and state secrets privilege. My unclassified declaration invoking the privilege is attached. My classified declaration, which provides detailed information about the operating location and its national security significance, can be made available to you on request and is available to the President through NSC staff.

Plaintiffs in the Kasza case sought to compel EPA to inspect the operating location and to obtain from the Air Force (or prepare itself) an inventory concerning the operating location and then to make public the report of inspection and the inventory under the Resource Conservation and Recovery Act (RCRA). In the second related suit against the Department of Defense, the Air Force, and the National Security Advisor, plaintiffs have alleged that the Air Force violated RCRA at the operating location, and they seek declaratory and injunctive relief and civil monetary penalties. Although it is not the subject of either lawsuit or related to this request for a Presidential exemption, plaintiffs' counsel has also claimed (a) his clients have knowledge of criminal violations at the operating location and (b) his clients suffered personal injury due to environmental violations. EPA and the Justice Department are investigating the claims of criminal conduct.

Earlier this year, the government moved to dismiss the Kasza case as moot because EPA had conducted the inspection and the Air Force had delivered the inventory to EPA. The report of the inspection and the inventory are classified. The government has also sought dismissal of the second suit based on the military and state secrets privilege; under a well-established line of precedent, where as here the suit cannot be prosecuted or defended without disclosing classified information that would cause serious harm to national security, it must be dismissed.

On August 30, the court decided the Kasza motion, dismissing plaintiffs' inspection and inventory claims as moot. After reviewing the inspection report and inventory, the court concluded that EPA, with the Air Force's full cooperation, "has conducted a thorough inspection of the operating location near Groom Lake . . . in full compliance with the requirements of RCRA" and that "the Air Force is adequately providing information to EPA . . . in compliance with RCRA." The court also found that the inspection report and inventory are properly classified and fall within the scope of the military and state secrets privilege I invoked. Nevertheless, the court held that the documents are subject to public disclosure under RCRA section 3007(b), 42 U.S.C. § 6927(b). The judge recognized that disclosure would conflict with 18 U.S.C. § 793, which makes it a felony to disclose national security information to unauthorized people, and with E.O. 12356, which provides for the classification of information and restricts access to classified information. He concluded, however, that the only alternatives were (1) declassify and disclose the documents or (2) obtain a Presidential exemption from disclosure, pursuant to section 6001(a) of RCRA, 42 U.S.C. § 6961(a), which authorizes the President to exempt federal facilities from compliance with certain obligations if he determines that it is "in the paramount interest of the United States" to do so. An exemption under section 6001(a) can last for one year, subject to renewal. The court gave EPA until October 2, 1995, to report which course it would pursue.

I am advised that the court's order is legally tenuous from several perspectives. First, there are grounds for believing that the court interpreted the statute incorrectly. Second, the order, which appears to require either that the Air Force declassify a document or that the President exercise his discretion to grant an exemption, raises separation of powers concerns. Third, there is a question whether the exemption provision, which on its face concerns the obligations of federal waste management facilities, may properly be invoked to relieve EPA of any of its statutory obligations. Moreover, if extended to other comparable statutory requirements and to other classified activities, the opinion is of concern.

If the Kasza case were standing alone, review of the court's order through reconsideration and the appellate process would be the likely strategy. However, delay attendant to judicial review poses risks to national security because of the second suit against the Air Force. The court will not dismiss the case against the Air Force as long as there is an open question whether the inspection report and inventory will be made public. Because the pendency of the case against the Air Force and attendant leaks by plaintiffs have created significant national security risks, it is important that we pursue the most protective course. We believe that course is obtaining Presidential affirmation of the protected status of these documents while at the same time seeking legal review of the order. The Department of Justice, which is defending both cases, and EPA agree with this recommendation.

The decision memorandum we propose to have the President sign exempts the Air Force's operating location near Groom Lake from any provision of hazardous waste law that might require disclosure of classified information concerning the operating location. The memorandum makes clear that other environmental obligations are not diminished. It also reserves the question whether the court was correct in ruling that an exemption is actually needed, which will be the subject of further litigation. We ask that it be returned in time for EPA to be able to report to the court that it has been granted by the October 2 deadline.

We believe that the action requested here is consistent with protecting the environment and national security. The Air Force is fully committed to complying with the environmental laws and being a good steward of the land entrusted to its care, including classified locations. The Air Force also is, and must be, committed to protecting national security and, necessarily, sensitive classified information. We do not believe these goals are mutually exclusive. We are working in cooperation with the EPA to ensure that both goals are fulfilled.

UNCLASSIFIED DECLARATION AND CLAIM OF MILITARY AND STATE

SECRETS PRIVILEGE OF SHEILA E. WIDNALL, SECRETARY OF THE AIR FORCE

I. SHEILA E. WIDNALL, HEREBY DECLARE THE FOLLOWING TO BE TRUE AND CORRECT:

1. Official Duties: I am the Secretary of the United States Air Force and the head of the Department of the Air Force. In that capacity, I exercise the statutory functions specified in section 8013 of Title 10, U.S. Code. I am responsible for the formulation of Air Force policies and programs that are fully consistent with the national security directives of the President and the Secretary of Defense, including those that protect national security information relating to the defense and foreign relations of the United States. As the Secretary of the Air Force, I exercise authority over the operating location near Groom Lake, Nevada, and the information associated with that operating location. As the head of an agency with control over the information associated with the operating location near Groom Lake, I am the proper person to assert the military and state secrets privilege with regard to that information. Under Executive Order 12356, I exercise original TOP SECRET classification authority, which permits me to determine the proper classification of national security information on behalf of the United States. Executive Order No. 12356, Sec. 1.2, 47 Fed. Reg. 20,105 (1982), reprinted in 50 U.S. Code Section 401 (1991), Presidential Order of May 7, 1982, Officials Designated to Classify National Security Information, reprinted in 50 U.S. Code Section 401 (1991).

2. Purpose: This Declaration is made for the purpose of advising the court of the national security interests in and the security classification of information that may be relevant to the above captioned lawsuits. The statements made herein are based on (a) my personal consideration of the matter, (b) my personal knowledge, and (c) my evaluation of information made available to me in my official capacity. I have concluded that release of certain information relevant to these lawsuits would necessitate disclosure of properly classified information about the Air Force

operating location near Groom Lake, Nevada. I am satisfied that the information described in the classified Declaration is properly classified. I have further determined that the information described in the classified Declaration, if released to the public, could reasonably be expected to cause exceptionally grave damage to the national security. It is not possible to discuss publicly the majority of information at issue without risking the very harm to the national security that protection of the information is intended to prevent.

3. Security Classification: Under Information Security Oversight Office guidance, "[c]ertain information that would otherwise be unclassified may require classification when combined or associated with other unclassified information." (52 CFR 2001.3(a)) Protection through classification is required if the combination of unclassified items of information provides an added factor that warrants protection of the information taken as a whole. This theory of classification is commonly known as the mosaic or compilation theory. The mosaic theory of classification applies to some of the information associated with the operating location near Groom Lake. Although the operating location near Groom Lake has no official name, it is sometimes referred to by the name or names of programs that have been conducted there. The names of some programs are classified; all program names are classified when they are associated with the specific location or with other classified programs. Consequently, the release of any such names would disclose classified information.

4. National Security Information: As the head of the agency responsible for information regarding the operating location near Groom Lake, I have determined that information that concerns this operating location and that falls into any of the following categories, is validly classified:

- a. Program(s) name(s)
- b. Mission(s);
- c. Capabilities;
- d. Military plans, weapons, or operations;
- e. Intelligence sources and methods;
- f. Scientific or technological matters;
- g. Certain physical characteristics;
- h. Budget, finance, and contracting relationships;
- i. Personnel matters; and

j. Security sensitive environmental data. The following are examples of why certain environmental data is sensitive to the national security. Collection of information regarding the air, water, and soil is a classic foreign intelligence practice, because analysis of these samples can result in the identification of military operations and capabilities. The presence of certain chemicals or chemical compounds, either alone or in conjunction with other chemicals and compounds, can reveal military operational capabilities or the nature and scope of classified operations. Similarly, the absence of certain chemicals or chemical compounds can be used to rule out operations and capabilities. Revealing the composition of the chemical waste stream provides the same kind of exploitable information as does publishing a list of the chemicals used and consumed. Analysis of waste material can provide critical information on the makeup as well as the vulnerabilities of the material analyzed. Disclosure of such information increases the risk to the lives of United States personnel and decreases the probability of successful mission accomplishment.

5. Role of State and Federal Environmental Agencies: Since 1990, appropriately cleared representatives of Nevada's Department of Conservation and Natural Resources have been

authorized access to the operating location near Groom Lake. The state representative's role is and has been to monitor and enforce compliance with environmental laws and regulations and to advise on remedial efforts, if required. Appropriately cleared officers of the U.S. Environmental Protection Agency were recently granted access to the operating location near Groom Lake for inspection and enforcement of environmental laws. Federal inspectors from the Environmental Protection Agency commenced an inspection pursuant to the Solid Waste Disposal Act, commonly referred to as a "RCRA inspection," at the operating location near Groom Lake, Nevada on December 6, 1994. The Air Force has taken these steps to ensure full compliance with all applicable environmental laws. At the same time that the operating location near Groom Lake is being inspected for environmental compliance, it is essential to the national security that steps also be taken to prevent the disclosure of classified information.

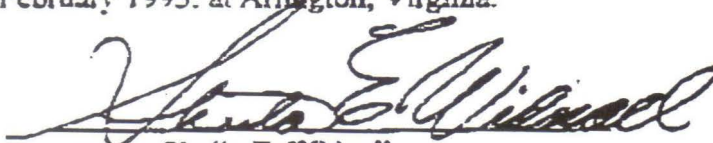

6. Invoking Military and State Secrets Privilege: It is my judgment, after personal consideration of the matter, that the national security information described in this Declaration and in the classified Declaration, concerning activities at the U.S. Air Force operating location near Groom Lake, Nevada, constitutes military and state secrets. As a result, disclosure of this information in documentary or testimonial evidence must be barred in the interests of national security of the United States. Pursuant to the authority vested in me as Secretary of the Air Force, I hereby invoke a formal claim of military and state secrets privilege with respect to the disclosure of the national security information listed in paragraph four of this Declaration and more fully discussed in the classified Declaration, whether through documentary or testimonial evidence.

7. Environmental Compliance: Although I have found it necessary to invoke the military and state secrets privilege, I believe it important to comment on the Air Force's commitment to full compliance with the environmental laws of the United States. Our goal is to be the best possible

environmental steward of the lands comprising the Nellis Range. To meet that goal we are cooperating and will continue to cooperate with both federal and state environmental agencies.

8. Under penalty of perjury, and pursuant to section 1746 of Title 28, U.S. Code, I certify and declare that the foregoing statements are true and correct.

Executed this 21 day of February 1995, at Arlington, Virginia.

Sheila E. Widnall
Secretary of the Air Force

I, SHEILA E. WIDNALL, HEREBY DECLARE THE FOLLOWING TO BE TRUE AND CORRECT:

1. Official Duties: I am the Secretary of the United States Air Force and the head of the Department of the Air Force. In that capacity, I exercise the statutory functions specified in section 8013 of Title 10, U.S. Code. I am responsible for the formulation of Air Force policies and programs that are fully consistent with the national security directives of the President and the Secretary of Defense, including those that protect national security information relating to the defense and foreign relations of the United States. As the Secretary of the Air Force, I exercise authority over the operating location near Groom Lake, Nevada, and the information associated with that operating location. As the head of an agency with control over the information associated with the operating location near Groom Lake, I am the proper person to assert the military and state secrets privilege with regard to that information. Under Executive Order 12356, I exercise original TOP SECRET classification authority, which permits me to determine the proper classification of national security information on behalf of the United States. Executive Order No. 12356, Sec. 1.2, 47 Fed. Reg. 20,105 (1982), reprinted in 50 U.S. Code Section 401 (1991); Presidential Order of May 7, 1982, Officials Designated to Classify National Security Information, reprinted in 50 U.S. Code Section 401 (1991).

2. Purpose: This Declaration is made for the purpose of advising the court of the national security interests in and the security classification of information that may be relevant to the above captioned lawsuits. The statements made herein are based on (a) my personal consideration of the matter; (b) my personal knowledge; and (c) my evaluation of information made available to me in my official capacity. I have concluded that release of certain information relevant to these lawsuits would necessitate disclosure of properly classified information about the Air Force

operating location near Groom Lake, Nevada. I am satisfied that the information described in the classified Declaration is properly classified. I have further determined that the information described in the classified Declaration, if released to the public, could reasonably be expected to cause exceptionally grave damage to the national security. It is not possible to discuss publicly the majority of information at issue without risking the very harm to the national security that protection of the information is intended to prevent.

3. Security Classification: Under Information Security Oversight Office guidance, “[c]ertain information that would otherwise be unclassified may require classification when combined or associated with other unclassified information.” (32 CFR 2001.3(a)) Protection through classification is required if the combination of unclassified items of information provides an added factor that warrants protection of the information taken as a whole. This theory of classification is commonly known as the mosaic or compilation theory. The mosaic theory of classification applies to some of the information associated with the operating location near Groom Lake. Although the operating location near Groom Lake has no official name, it is sometimes referred to by the name or names of programs that have been conducted there. The names of some programs are classified; all program names are classified when they are associated with the specific location or with other classified programs. Consequently, the release of any such names would disclose classified information.

4. National Security Information: As the head of the agency responsible for information regarding the operating location near Groom Lake, I have determined that information that concerns this operating location and that falls into any of the following categories, is validly classified:

- a. Program(s) name(s)
- b. Mission(s);
- c. Capabilities;
- d. Military plans, weapons, or operations;
- e. Intelligence sources and methods;
- f. Scientific or technological matters;
- g. Certain physical characteristics;
- h. Budget, finance, and contracting relationships;
- i. Personnel matters; and,

j. Security sensitive environmental data. The following are examples of why certain environmental data is sensitive to the national security. Collection of information regarding the air, water, and soil is a classic foreign intelligence practice, because analysis of these samples can result in the identification of military operations and capabilities. The presence of certain chemicals or chemical compounds, either alone or in conjunction with other chemicals and compounds, can reveal military operational capabilities or the nature and scope of classified operations. Similarly, the absence of certain chemicals or chemical compounds can be used to rule out operations and capabilities. Revealing the composition of the chemical waste stream provides the same kind of exploitable information as does publishing a list of the chemicals used and consumed. Analysis of waste material can provide critical information on the makeup as well as the vulnerabilities of the material analyzed. Disclosure of such information increases the risk to the lives of United States personnel and decreases the probability of successful mission accomplishment.

5. Role of State and Federal Environmental Agencies: Since 1990, appropriately cleared representatives of Nevada's Department of Conservation and Natural Resources have been

authorized access to the operating location near Groom Lake. The state representative's role is and has been to monitor and enforce compliance with environmental laws and regulations and to advise on remedial efforts, if required. Appropriately cleared officers of the U.S. Environmental Protection Agency were recently granted access to the operating location near Groom Lake for inspection and enforcement of environmental laws. Federal inspectors from the Environmental Protection Agency commenced an inspection pursuant to the Solid Waste Disposal Act, commonly referred to as a "RCRA inspection," at the operating location near Groom Lake, Nevada on December 6, 1994. The Air Force has taken these steps to ensure full compliance with all applicable environmental laws. At the same time that the operating location near Groom Lake is being inspected for environmental compliance, it is essential to the national security that steps also be taken to prevent the disclosure of classified information.

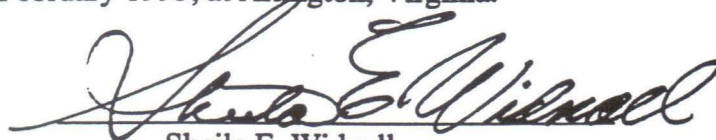

6. Invoking Military and State Secrets Privilege: It is my judgment, after personal consideration of the matter, that the national security information described in this Declaration and in the classified Declaration, concerning activities at the U.S. Air Force operating location near Groom Lake, Nevada, constitutes military and state secrets. As a result, disclosure of this information in documentary or testimonial evidence must be barred in the interests of national security of the United States. Pursuant to the authority vested in me as Secretary of the Air Force, I hereby invoke a formal claim of military and state secrets privilege with respect to the disclosure of the national security information listed in paragraph four of this Declaration and more fully discussed in the classified Declaration, whether through documentary or testimonial evidence.

7. Environmental Compliance: Although I have found it necessary to invoke the military and state secrets privilege, I believe it important to comment on the Air Force's commitment to full compliance with the environmental laws of the United States. Our goal is to be the best possible

environmental steward of the lands comprising the Nellis Range. To meet that goal we are cooperating and will continue to cooperate with both federal and state environmental agencies.

8. Under penalty of perjury, and pursuant to section 1746 of Title 28, U.S. Code, I certify and declare that the foregoing statements are true and correct.

MEMORANDUM FOR PRESIDENT CLINTON
THROUGH MR. LAKE

SUBJECT: Classified Information Concerning the Air Force's Operating Location near Groom Lake, Nevada

A recent Federal district court decision has raised a question whether certain documents, even though properly classified, must nonetheless be disclosed pursuant to an environmental statute, the Resource Conservation and Recovery Act (RCRA). The documents concern an Air Force operating location near Groom Lake, Nevada. Although this legal ruling will be challenged, it is important that the continued protection for this classified information be clearly and promptly affirmed. Accordingly, for reasons addressed in the attached memorandum from Secretary Widnall, I concur in her request and recommendation that you issue the proposed exemption under RCRA for the operating location near Groom Lake from any requirement to disclose classified information to unauthorized persons. I note that EPA Administrator Browner and the Justice Department's Environment and Natural Resources Division concur in this recommendation.

Presidential Determination
No. 95-45

MEMORANDUM FOR THE ADMINISTRATOR OF THE ENVIRONMENTAL
PROTECTION AGENCY
THE SECRETARY OF THE AIR FORCE

SUBJECT: Presidential Determination on Classified
Information Concerning the Air Force's Operating
Location Near Groom Lake, Nevada

I find that it is in the paramount interest of the United States to exempt the United States Air Force's operating location near Groom Lake, Nevada (the subject of litigation in Kasza v. Browner (D. Nev. CV-S-94-795-PMP) and Frost v. Perry (D. Nev. CV-S-94-714-PMP)) from any applicable requirement for the disclosure to unauthorized persons of classified information concerning that operating location. Therefore, pursuant to 42 U.S.C. § 6961(a), I hereby exempt the Air Force's operating location near Groom Lake, Nevada from any Federal, State, interstate or local provision respecting control and abatement of solid waste or hazardous waste disposal that would require the disclosure of classified information concerning that operating location to any unauthorized person. This exemption shall be effective for the full one-year statutory period.

Nothing herein is intended to: (a) imply that in the absence of such a Presidential exemption, the Resource Conservation and Recovery Act (RCRA) or any other provision of law permits or requires disclosure of classified information to unauthorized persons; or (b) limit the applicability or enforcement of any requirement of law applicable to the Air Force's operating location near Groom Lake, Nevada, except those provisions, if any, that would require the disclosure of classified information.

The Secretary of the Air Force is authorized and directed to publish this Determination in the Federal Register.

ACTION

January 30, 1996

MEMORANDUM FOR THE PRESIDENT

THROUGH: THE EXECUTIVE CLERK

President sgd per WH
Executive Clerk 1/30/96FROM: ANTHONY LAKE
PATRICK GRIFFINSUBJECT: Report to Congress on the Presidential Exemption
Concerning the Operating Location Near Groom LakePurpose

To report to the Congress pursuant to the Resource Conservation and Recovery Act (RCRA).

Background

On September 29, you exempted the Air Force operating location near Groom Lake, Nevada, (the operating location) "from any Federal, State, interstate or local provision respecting control and abatement of solid waste or hazardous waste disposal that would require the disclosure of classified information" to unauthorized persons. The exemption was granted in the context of litigation over the Government's compliance with RCRA at the operating location.

Under RCRA, you are required to report each January to the Congress all exemptions granted during the previous year and the reasons for doing so. In addition to noting that the exemption was necessary to protect national security (without providing details), the report indicates that the exemption was not intended to limit the applicability or enforcement of any requirement of law applicable to the operating location except those provisions, if any, that would require disclosure of classified information.

This report has been coordinated with the Departments of Defense and Justice as well as the EPA.

RECOMMENDATION

That you sign the attached letters.

Tab A Letter to Speaker of the House

Tab B Letter to President of the Senate

THE WHITE HOUSE

WASHINGTON

Dear Mr. Speaker:

Consistent with section 6001(a) of the Resource Conservation and Recovery Act (RCRA) (the "Act"), as amended, 42 U.S.C. § 6961(a), notification is hereby given that on September 29, 1995, I issued Presidential Determination 95-45 (copy attached) and thereby exercised the authority to grant certain exemptions under section 6001(a) of the Act.

Presidential Determination No. 95-45 exempted the United States Air Force's operating location near Groom Lake, Nevada, from any Federal, State, interstate, or local hazardous or solid waste laws that might require the disclosure of classified information concerning that operating location to unauthorized persons. Information concerning activities at the operating location near Groom Lake has been properly determined to be classified, and its disclosure would be harmful to national security. Continued protection of this information is, therefore, in the paramount interest of the United States.

The Determination was not intended to imply that in the absence of a Presidential exemption RCRA or any other provision of law permits or requires the disclosure of classified information to unauthorized persons, but rather to eliminate any potential uncertainty arising from a decision in pending litigation, Kasza v. Browner (D. Nev. CV-S-94-795-PMP). The Determination also was not intended to limit the applicability or enforcement of any requirement of law applicable to the Air Force's operating location near Groom Lake except those provisions, if any, that would require the disclosure of classified information.

Sincerely,

The Honorable Newt Gingrich
Speaker of the
House of Representatives
Washington, D.C. 20515

Presidential Documents

Presidential Determination No. 95-45 of September 29, 1995

Presidential Determination on Classified Information Concerning the Air Force's Operating Location Near Groom Lake, Nevada

Memorandum for the Administrator of the Environmental Protection Agency (and) the Secretary of the Air Force

I find that it is in the paramount interest of the United States to exempt the United States Air Force's operating location near Groom Lake, Nevada (the subject of litigation in *Kasza v. Browner* (D. Nev. CV-S-94-795-PMP) and *Frost v. Perry* (D. Nev. CV-S-94-714-PMP)) from any applicable requirement for the disclosure to unauthorized persons of classified information concerning that operating location. Therefore, pursuant to 42 U.S.C. § 6961(a), I hereby exempt the Air Force's operating location near Groom Lake, Nevada from any Federal, State, interstate or local provision respecting control and abatement of solid waste or hazardous waste disposal that would require the disclosure of classified information concerning that operating location to any unauthorized person. This exemption shall be effective for the full one-year statutory period.

Nothing herein is intended to: (a) imply that in the absence of such a Presidential exemption, the Resource Conservation and Recovery Act (RCRA) or any other provision of law permits or requires disclosure of classified information to unauthorized persons; or (b) limit the applicability or enforcement of any requirement of law applicable to the Air Force's operating location near Groom Lake, Nevada, except those provisions, if any, that would require the disclosure of classified information.

The Secretary of the Air Force is authorized and directed to publish this Determination in the Federal Register.

William Clinton

THE WHITE HOUSE.

Washington, September 29, 1995.

WASHINGTON

Dear Mr. President:

Consistent with section 6001(a) of the Resource Conservation and Recovery Act (RCRA) (the "Act"), as amended, 42 U.S.C. § 6961(a), notification is hereby given that on September 29, 1995, I issued Presidential Determination 95-45 (copy attached) and thereby exercised the authority to grant certain exemptions under section 6001(a) of the Act.

Presidential Determination No. 95-45 exempted the United States Air Force's operating location near Groom Lake, Nevada, from any Federal, State, interstate, or local hazardous or solid waste laws that might require the disclosure of classified information concerning that operating location to unauthorized persons. Information concerning activities at the operating location near Groom Lake has been properly determined to be classified, and its disclosure would be harmful to national security. Continued protection of this information is, therefore, in the paramount interest of the United States.

The Determination was not intended to imply that in the absence of a Presidential exemption RCRA or any other provision of law permits or requires the disclosure of classified information to unauthorized persons, but rather to eliminate any potential uncertainty arising from a decision in pending litigation, Kasza v. Browner (D. Nev. CV-S-94-795-PMP). The Determination also was not intended to limit the applicability or enforcement of any requirement of law applicable to the Air Force's operating location near Groom Lake except those provisions, if any, that would require the disclosure of classified information.

Sincerely,

The Honorable Albert Gore, Jr.
President of the Senate
Washington, D.C. 20515

Presidential Documents

Presidential Determination No. 95-45 of September 29, 1995

Presidential Determination on Classified Information Concerning the Air Force's Operating Location Near Groom Lake, Nevada

Memorandum for the Administrator of the Environmental Protection Agency [and] the Secretary of the Air Force

I find that it is in the paramount interest of the United States to exempt the United States Air Force's operating location near Groom Lake, Nevada (the subject of litigation in *Kasza v. Browner* (D. Nev. CV-S-94-795-PMP) and *Frost v. Perry* (D. Nev. CV-S-94-714-PMP)) from any applicable requirement for the disclosure to unauthorized persons of classified information concerning that operating location. Therefore, pursuant to 42 U.S.C. §6961(a), I hereby exempt the Air Force's operating location near Groom Lake, Nevada from any Federal, State, interstate or local provision respecting control and abatement of solid waste or hazardous waste disposal that would require the disclosure of classified information concerning that operating location to any unauthorized person. This exemption shall be effective for the full one-year statutory period.

Nothing herein is intended to: (a) imply that in the absence of such a Presidential exemption, the Resource Conservation and Recovery Act (RCRA) or any other provision of law permits or requires disclosure of classified information to unauthorized persons; or (b) limit the applicability or enforcement of any requirement of law applicable to the Air Force's operating location near Groom Lake, Nevada, except those provisions, if any, that would require the disclosure of classified information.

The Secretary of the Air Force is authorized and directed to publish this Determination in the *Federal Register*.

William Clinton

THE WHITE HOUSE.
Washington, September 29, 1995.

Honorable Albert Gore, Jr.
President
U. S. Senate
Washington, D. C. 20515

Dear Mr. Speaker and Mr. President:

Consistent with section 6001(a) of the Resource Conservation and Recovery Act (RCRA) (the "Act"), as amended, 42 U.S.C. § 6961(a), which requires that I "report each January to the Congress all exemptions from the requirements of this section granted during the preceding calendar year, together with [my] reason for granting each such exemption," I notify you that on September 29, 1995, I issued Presidential Determination 95-45 (copy attached) and thereby exercised the authority to grant certain exemptions under section 6001(a) of the Act.

Presidential Determination No 95-45 exempted the United States Air Force's operating location near Groom Lake, Nevada, from any Federal, State, interstate, or local hazardous or solid waste laws that might require the disclosure of classified information concerning that operating location to unauthorized persons. Information concerning activities at the operating location near Groom Lake has been properly determined to be classified, and its disclosure would be harmful to national security. Continued protection of this information is therefore in the paramount interest of the United States.

The Determination was not intended to imply that in the absence of a Presidential exemption RCRA or any other provision of law permits or requires the disclosure of classified information to unauthorized persons, but rather to eliminate any potential uncertainty arising from a decision in pending litigation, Kasza v. Browner (D. Nev. CV-S-94-795- PMP). The Determination also was not intended to limit the applicability or enforcement of any requirement of law applicable to the Air Force's operating location near Groom Lake except those provisions, if any, that would require the disclosure of classified information.

I am forwarding copies of this notification to the Chairman and Ranking Minority member of each of the following committees: House Committee on Resources; House Committee on National Security; Senate Committee on Environment and Public Works; and Senate Committee on Armed Services.

Sincerely,

MEMORANDUM FOR ANTHONY LAKE

THROUGH: ALAN KRECZKO *AK JB*

FROM: JAMES BAKER *JB AK*

SUBJECT: Report to Congress on Presidential Exemption
Concerning the Operating Location Near Groom Lake

In September the President exempted the Air Force operating location near Groom Lake, Nevada, from any applicable provisions of hazardous or solid waste laws that would require disclosure of classified information. The exemption was granted in the context of litigation (Browner) over the Government's compliance with the Resource Conservation and Recovery Act (RCRA).

Under RCRA, the President is required to report each January to the Congress all exemptions granted during the previous year and the reasons for doing so. This is the first such report during this Administration. The attached report has been coordinated with the Departments of Defense and Justice as well as the EPA; it should be submitted to Congress no later than January 31.

As to the status of the litigation, we are doing well. On January 10, the district court determined that the EPA had completed its statutory duties with regard to the inspection and inventory of the operating location, rendering the Browner case moot. The court also ruled that the Government has "complied with RCRA's public disclosure requirements by virtue of the Presidential Determination," and has entered final judgment in the case.

In a companion case, Perry, in which you are a named defendant, the court is continuing to consider cross motions for summary judgment. We are optimistic in light of the court's ruling in Browner. Notwithstanding these successes, we will need to consider whether to appeal one aspect of the court's ruling: that in the absence of a Presidential exemption EPA has a nondiscretionary duty under RCRA to disclose classified information.

Concurrence by: Bob Bell, Bill Danvers, and David Sandalow ^{13 for}

MEMORANDUM FOR PRESIDENT CLINTON
THROUGH MR. LAKE

SUBJECT: Congressional Notification of Presidential Exemption Concerning the Air Force's Operating Location Near Groom Lake, Nevada

I recommend you provide the enclosed report to Congress pursuant to section 6001(a) of the Resource Conservation and Recovery Act, as amended, 42 U.S.C. § 6961(a).

Section 6001(a) requires that you "report each January to the Congress all exemptions from the requirements of this section granted during the preceding calendar year, together with [your] reason for granting each such exemption." You granted such an exemption on September 29, 1995, in Presidential Determination 95-45, which protects classified information concerning the Air Force's operating location near Groom Lake, Nevada, from public disclosure. The enclosed report provides notice to Congress of the exemption.

The EPA Office of General Counsel and the Department of Justice Environment and Natural Resources Division have reviewed the report and concur with the Department of Defense that this report should be provided.

Presidential Determination
No. 96-54

MEMORANDUM FOR THE ADMINISTRATOR OF THE ENVIRONMENTAL
PROTECTION AGENCY
THE SECRETARY OF THE AIR FORCE

SUBJECT: Presidential Determination on Classified
Information Concerning the Air Force's
Operating Location Near Groom Lake, Nevada

I find that it is in the paramount interest of the United States to exempt the United States Air Force's operating location near Groom Lake, Nevada (the subject of litigation in Kasza v. Browner (D. Nev. CV-S-94-795-PMP) and Frost v. Perry (D. Nev. CV-S-94-714-PMP) from any applicable requirement for the disclosure to unauthorized persons of classified information concerning that operating location. Therefore, pursuant to 42 U.S.C. 6961(a), I hereby exempt the Air Force's operating location near Groom Lake, Nevada, from any Federal, State, interstate or local provision respecting control and abatement of solid waste or hazardous waste disposal that would require the disclosure of classified information concerning that operating location to any unauthorized person. This exemption shall be effective for the full one-year statutory period.

Nothing herein is intended to: (a) imply that in the absence of such a Presidential exemption, the Resource Conservation and Recovery Act (RCRA) or any other provision of law permits or requires disclosure of classified information to unauthorized persons; or (b) limit the applicability or enforcement of any requirement of law applicable to the Air Force's operating location near Groom Lake, Nevada, except those provisions, if any, that would require the disclosure of classified information.

The Secretary of the Air Force is authorized and directed to publish this determination in the Federal Register.

William B. Clinton

MEMORANDUM FOR THE PRESIDENT

THROUGH: THE EXECUTIVE CLERK

FROM: ANTHONY LAKE

SUBJECT: Presidential Determination on RCRA Exemption for
the Operating Location at Groom Lake

President sgd per WH
Executive Clerk
Sept. 29, 1996
DR

Purpose

To continue to exempt the Air Force from public disclosure requirements concerning the inspection and inventory of hazardous waste at the Air Force "operating location near Groom Lake."

Background

On September 29, 1995, you issued an exemption under the Resource Conservation and Recovery Act (RCRA) protecting from disclosure classified information regarding an Air Force facility near Groom Lake, Nevada. By statute, the exemption is effective for one year, unless renewed. As a result, the attached exemption should be **signed by September 29**. The exemption was necessitated by litigation over RCRA compliance at the facility. While ruling that the information in question was appropriately classified, the Federal district court ruled that under RCRA classified information could only be protected from public disclosure pursuant to a Presidential exemption.

That ruling is now being appealed, as is plaintiffs' challenge to the sufficiency of your original exemption. In the interim, Deputy Secretary of Defense White and Secretary of the Air Force Widnall recommend that you renew the exemption to provide continued protection for national security information while the matter is on appeal. EPA Administrator Browner and Department of Justice, Environmental and Natural Resources Division concur in this recommendation as does Katie McGinty. As with last year's exemption, the attached document is worded narrowly, to exempt the location only from disclosure requirements and not from applicable environmental standards.

RECOMMENDATION

That you sign the exemption at Tab A.

MEMORANDUM FOR PRESIDENT CLINTON
THRU: MR. LAKE

SUBJECT: Classified Information Concerning the Air Force's Operating Location Near Groom Lake, Nevada

On September 29, 1995, you issued an exemption under the Resource Conservation and Recovery Act (RCRA) protecting from disclosure classified information concerning an Air Force operating location near Groom Lake, Nevada. By statute, the exemption is effective for one year, unless renewed. The exemption was necessitated by a Federal district court ruling that held that classified information could not be withheld from public disclosure under RCRA absent such an exemption. That ruling is now being appealed. In the meantime, and for reasons addressed in the attached memorandum from Secretary Widnall, I concur in her request and recommendation that you renew the exemption to provide continued protection for the full one-year statutory period while the matter is on appeal.

I note that EPA Administrator Browner and the Justice Department's Environment and Natural Resources Division concur in this recommendation.

THROUGH: ALAN KRECZKO *AK*

FROM: JAMES E. BAKER *JB*

SUBJECT: Presidential Determination on Continuation of RCRA
Exemption for Groom Lake

Last year, the President exempted the "Operating Location near Groom Lake" from the public disclosure requirements of the Resource Conversation Recovery Act in order to protect national security information. By statute, the exemption is effective for one year.

With the concurrence of EPA and Justice, the Deputy Secretary of Defense is recommending that the President renew the Groom Lake exemption. As with last year's exemption, the continuation expressly notes that it is not intended to limit the applicability or enforcement of any requirement of law applicable to the facility except those concerning the disclosure of classified information. To ensure continued protection of classified information the **President should sign the attached exemption by September 29.**

Katie McGinty concurs in this recommendation.

WASHINGTON

ACTION

January 31, 1997

MEMORANDUM FOR THE PRESIDENT

THROUGH: THE EXECUTIVE CLERK

FROM: SAMUEL R. BERGER *SRB*
JOHN HILLEY *JH**President and per WH 1/31/97*
*Executive Clerk*SUBJECT: Report to Congress on the Presidential Exemption
Concerning the Operating Location Near Groom LakePurpose

To report to the Congress pursuant to the Resource Conservation and Recovery Act (RCRA).

Background

On September 28, you exempted the Air Force operating location near Groom Lake, Nevada, (the operating location) "from any Federal, State, interstate or local provision respecting control and abatement of solid waste or hazardous waste disposal that would require the disclosure of classified information" to unauthorized persons. You first granted such an exemption in 1995 in the context of litigation over the Government's compliance with RCRA at the location.

Under RCRA, you are required to report each January to the Congress all exemptions granted during the previous year and the reasons for doing so. In addition to noting that the exemption was necessary to protect national security (without providing details) the report indicates that the exemption was not intended to limit the applicability or enforcement of any requirement of law applicable to the operating location except those provisions, if any, that would require disclosure of classified information.

This report has been coordinated with CEQ as well as the Departments of Defense and Justice and the EPA.

RECOMMENDATION

That you sign the attached letters.

Chief of Staff

CLINTON LIBRARY PHOTOCOPY

THE WHITE HOUSE
WASHINGTON

Dear Mr. Speaker:

Consistent with Section 6001(a) of the Resource Conservation and Recovery Act (RCRA) (the "Act"), as amended, 42 U.S.C. § 6961(a), notification is hereby given that on September 28, 1996, I issued Presidential Determination 96-54 (copy attached) and thereby exercised the authority to grant certain exemptions under section 6001(a) of the Act.

Presidential Determination No. 96-54 exempted the U.S. Air Force's operating location near Groom Lake, Nevada from any Federal, State, interstate or local hazardous or solid waste laws that might require the disclosure of classified information concerning that operating location to unauthorized persons. Information concerning activities at the operating location near Groom Lake has been properly determined to be classified, and its disclosure would be harmful to national security. Continued protection of this information is, therefore, in the paramount interest of the United States.

The Determination was not intended to imply that in the absence of a Presidential exemption RCRA or any other provision of law permits or requires the disclosure of classified information to unauthorized persons, but rather to eliminate any potential uncertainty arising from a decision in pending litigation, Kasza v. Browner (D. Nev. CV-S-94-795-PMP). The Determination also was not intended to limit the applicability or enforcement of any requirement of law applicable to the Air Force's operating location near Groom Lake except those provisions, if any, that would require the disclosure of classified information.

Sincerely,

The Honorable Newt Gingrich
Speaker of the
House of Representatives
Washington, D.C. 20515

Tuesday, October 8, 1996

Title 3—

The President

Presidential Determination No. 96-54 of September 28, 1996

Presidential Determination on Classified Information Concerning the Air Force's Operating Location Near Groom Lake, Nevada

Memorandum for the Administrator of the Environmental Protection Agency [and] the Secretary of the Air Force

I find that it is in the paramount interest of the United States to exempt the United States Air Force's operating location near Groom Lake, Nevada (the subject of litigation in *Kasza v. Browner* (D. Nev. CV-S-94-795-PMP) and *Frost v. Perry* (D. Nev. CV-S-94-714-PMP) from any applicable requirement for the disclosure to unauthorized persons of classified information concerning that operating location. Therefore, pursuant to 42 U.S.C. 6961(a), I hereby exempt the Air Force's operating location near Groom Lake, Nevada, from any Federal, State, interstate or local provision respecting control and abatement of solid waste or hazardous waste disposal that would require the disclosure of classified information concerning that operating location to any unauthorized person. This exemption shall be effective for the full one-year statutory period.

Nothing herein is intended to: (a) imply that in the absence of such a Presidential exemption, the Resource Conservation and Recovery Act (RCRA) or any other provision of law permits or requires disclosure of classified information to unauthorized persons; or (b) limit the applicability or enforcement of any requirement of law applicable to the Air Force's operating location near Groom Lake, Nevada, except those provisions, if any, that would require the disclosure of classified information.

The Secretary of the Air Force is authorized and directed to publish this determination in the Federal Register.

William Clinton

THE WHITE HOUSE,
Washington, September 28, 1996.

January 30, 1997

ACTION

MEMORANDUM FOR SAMUEL R. BERGER

THROUGH: ALAN KRECZKO *AK*

FROM: JAMES BAKER *JB*

SUBJECT: Report to Congress on Presidential Exemption
Concerning the Operating Location Near Groom Lake

In September the President exempted the Air Force operating location near Groom Lake, Nevada, from any applicable provisions of hazardous or solid waste laws that would require disclosure of classified information. The exemption was first granted last year in the context of litigation (Browner) over the Government's compliance with the Resource Conservation and Recovery Act (RCRA).

Under RCRA, the President is required to report each January to the Congress all exemptions granted during the previous year and the reasons for doing so. This is the second such report during this Administration. The attached report has been coordinated with CEQ as well as the Departments of Defense and Justice and the EPA; it should be submitted to Congress no later than January 31.

Concurrence by: Joe Sestak, Bill Danvers, and David Sandalow *JB*

RECOMMENDATION

That you sign the memorandum to the President at Tab I.

30 JAN 1997

MEMORANDUM FOR PRESIDENT CLINTON
THROUGH MR. BERGER

SUBJECT: Congressional Notification of Presidential Exemption Concerning the Air Force's Operating Location Near Groom Lake, Nevada

I recommend you provide the enclosed report to Congress pursuant to section 6001(a) of the Resource Conservation and Recovery Act, as amended, 42 U.S.C. § 6961(a).

Section 6001(a) requires that you "report each January to the Congress all exemptions from the requirements of this section granted during the preceding calendar year, together with [your] reason for granting each such exemption." You granted such an exemption on September 28, 1996, in Presidential Determination 96-54, which protects classified information concerning the Air Force's operating location near Groom Lake, Nevada, from public disclosure. The enclosed report provides notice to Congress of the exemption.

The EPA Office of General Counsel and the Department of Justice Environment and Natural Resources Division have reviewed the report and concur with the Department of Defense that this report should be provided.

Attachment:
A/S

Dear Mr. Speaker:

Consistent with section 6001(a) of the Resource Conservation and Recovery Act (RCRA) (the "Act"), as amended, 42 U.S.C. § 6961(a), notification is hereby given that on September 28, 1996, I issued Presidential Determination 96-54 (copy attached) and thereby exercised the authority to grant certain exemptions under section 6001(a) of the Act.

Presidential Determination No. 96-54 exempted the United States Air Force's operating location near Groom Lake, Nevada, from any Federal, State, interstate, or local hazardous or solid waste laws that might require the disclosure of classified information concerning that operating location to unauthorized persons. Information concerning activities at the operating location near Groom Lake has been properly determined to be classified, and its disclosure would be harmful to national security. Continued protection of this information is, therefore, in the paramount interest of the United States.

The Determination was not intended to imply that in the absence of a Presidential exemption RCRA or any other provision of law permits or requires the disclosure of classified information to unauthorized persons, but rather to eliminate any potential uncertainty arising from a decision in pending litigation, Kasza v. Browner (D. Nev. CV-S-94-795- PMP), appeal pending (9th Cir. Nos. 96-15535 and 96-15537). The Determination also was not intended to limit the applicability or enforcement of any requirement of law applicable to the Air Force's operating location near Groom Lake except those provisions, if any, that would require the disclosure of classified information.

Sincerely,

The Honorable Newt Gingrich
Speaker of the
House of Representatives
Washington, D.C. 20515

Dear Mr. President:

Consistent with section 6001(a) of the Resource Conservation and Recovery Act (RCRA) (the "Act"), as amended, 42 U.S.C. § 6961(a), notification is hereby given that on September 28, 1996, I issued Presidential Determination 96-54 (copy attached) and thereby exercised the authority to grant certain exemptions under section 6001(a) of the Act.

Presidential Determination No. 96-54 exempted the United States Air Force's operating location near Groom Lake, Nevada, from any Federal, State, interstate, or local hazardous or solid waste laws that might require the disclosure of classified information concerning that operating location to unauthorized persons. Information concerning activities at the operating location near Groom Lake has been properly determined to be classified, and its disclosure would be harmful to national security. Continued protection of this information is, therefore, in the paramount interest of the United States.

The Determination was not intended to imply that in the absence of a Presidential exemption RCRA or any other provision of law permits or requires the disclosure of classified information to unauthorized persons, but rather to eliminate any potential uncertainty arising from a decision in pending litigation, Kasza v. Browner (D. Nev. CV-S-94-795- PMP), appeal pending (9th Cir. Nos. 96-15535 and 96-15537). THE WHITE HOUSE

WASHINGTON

September 26, 1997

Presidential Determination
No. 97-35

MEMORANDUM FOR THE ADMINISTRATOR OF THE ENVIRONMENTAL
PROTECTION AGENCY
THE SECRETARY OF THE AIR FORCE

SUBJECT: Presidential Determination on Classified
Information Concerning the Air Force's
Operating Location Near Groom Lake, Nevada

I find that it is in the paramount interest of the United States to exempt the United States Air Force's operating location near Groom Lake, Nevada (the subject of litigation in Kasza v. Browner (D. Nev. CV-S-94-795-PMP) and Frost v. Perry (D. Nev. CV-S-94-714-PMP)), from any applicable requirement for the disclosure to unauthorized persons of classified information concerning that operating location. Therefore, pursuant to 42 U.S.C. 6961(a), I hereby exempt the Air Force's operating location near Groom Lake, Nevada, from any Federal, State, interstate, or local provision respecting control and abatement of solid waste or hazardous waste disposal that would require the disclosure of classified information concerning that operating location to any unauthorized person. This exemption shall be effective for the full one-year statutory period.

Nothing herein is intended to: (a) imply that in the absence of such a Presidential exemption, the Resource Conservation and Recovery Act (RCRA) or any other provision of law permits or requires disclosure of classified information to unauthorized persons; or (b) limit the applicability or enforcement of any requirement of law applicable to the Air Force's operating location near Groom Lake, Nevada, except those provisions, if any, that would require the disclosure of classified information.

The Secretary of the Air Force is authorized and directed to publish this determination in the Federal Register.

William J. Clinton

THE WHITE HOUSE

WASHINGTON

September 25, 1997

President sgd per WH
Executive Clerk TMA 9.26

ACTION

MEMORANDUM FOR THE PRESIDENT

THROUGH: THE EXECUTIVE CLERK

FROM: SAMUEL R. BERGER *A*SUBJECT: Presidential Determination on RCRA Exemption for
the Operating Location at Groom LakePurpose

To continue to exempt the Air Force from public disclosure requirements concerning the inspection and inventory of hazardous waste at the Air Force "operating location near Groom Lake."

Background

You have twice issued an exemption under the Resource Conservation and Recovery Act (RCRA) protecting from disclosure classified information concerning an Air Force location near Groom Lake, Nevada. By statute, the exemption is effective for one year, unless renewed. As a result, the attached exemption should be **signed by September 27**. The exemption was necessitated by litigation over RCRA compliance at the facility. While ruling that the information in question was appropriately classified, the Federal district court ruled that under RCRA classified information could only be protected from public disclosure pursuant to a Presidential exemption.

That ruling remains under appeal. In the interim, Deputy Secretary of Defense Hamre and Secretary of the Air Force Widnall recommend that you renew the exemption to provide continued protection for national security information. EPA Administrator Browner and the Department of Justice's Environmental and Natural Resources Division concur in this recommendation as does Katie McGinty. As with last year's exemption, the attached document is worded to exempt the location only from disclosure requirements and not from applicable environmental standards.

Continuation of this exemption does not prejudice our review of the health and environmental record at the Air Force location. General Kerrick and Jamie Baker are scheduled to visit the

location in mid-October. As you know, Secretary Cohen is also taking an interest in the matter. We will report back to you, and to Bill, after General Kerrick's trip.

RECOMMENDATION

That you sign the exemption at Tab A.

WASHINGTON, DC 20301-1010

20 SEP 1997

MEMORANDUM FOR PRESIDENT CLINTON
THROUGH: MR. BERGERSUBJECT: Classified Information Concerning the Air Force's Operating Location
Near Groom Lake, Nevada

On September 28, 1996, you issued an exemption under the Resource Conservation and Recovery Act (RCRA) protecting from disclosure classified information concerning an Air Force operating location near Groom Lake, Nevada. By statute, the exemption is effective for one year, unless renewed. The exemption was necessitated by a Federal district court ruling that held that classified information could not be withheld from public disclosure under RCRA absent such an exemption. That ruling is now being appealed. In the meantime, and for reasons addressed in the attached memorandum from Secretary Widnall, I concur in her request and recommendation that you renew the exemption to provide continued protection for the full one-year statutory period while the matter is on appeal.

I note that EPA Administrator Browner and the Justice Department's Environment and Natural Resources Division concur in this recommendation.

SUBJECT: Renewal of Presidential Exemption for Classified Information Concerning the Air Force's Operating Location Near Groom Lake, Nevada - ACTION
MEMORANDUM

PURPOSE: Protect classified information concerning the operating location near Groom Lake

DISCUSSION: I recommend and request that you seek from the President a renewal of the exemption he issued on September 28, 1996, protecting from public disclosure classified information concerning an Air Force operating location near Groom Lake in the Nellis Range Complex in Nevada. By statute, the exemption granted last year is effective for one year, unless renewed. The exemption was prompted by a judicial decision in a lawsuit against the Environmental Protection Agency, Kasza v. Browner, which is now on appeal to the U.S. Court of Appeals for the Ninth Circuit. In the meantime, continued protection through a renewed exemption is necessary.

As discussed in the memoranda requesting the exemption the last two years, the activities undertaken at the operating location near Groom Lake are crucial to national security. The nature of the activities requires that virtually all information about the location remain classified. To protect national security in the pending litigation, I have made a formal claim of the military and state secrets privilege, which the court has found procedurally and substantively proper.

In the ruling at issue, the court nonetheless held that classified information must be produced pursuant to the public disclosure provisions of Section 3007(b) of the Resource Conservation and Recovery Act (RCRA), 42 U.S.C. § 6927(b), unless an exemption is granted by the President pursuant to Section 6001(a) of RCRA, 42 U.S.C. § 6961(a). EPA, through briefs filed by the Justice Department, has contested that construction, arguing that RCRA is properly interpreted as not mandating disclosure of classified information, which is consistent with other statutes, the common law, and separation of powers considerations. That issue is now on appeal. To protect classified information concerning the operating location near Groom Lake while the issue is litigated, the President granted such an exemption on September 29, 1995, which he renewed on September 28, 1996. To ensure continued protection of the information during the appeal process, a further renewal is required now.

The text of the proposed exemption is the same as that granted last year. It exempts the Air Force's operating location near Groom Lake from any provision of hazardous waste law that might require disclosure of classified information concerning the operating location. It also makes clear that other environmental obligations are not diminished. We ask that the exemption be executed and made effective on (but in all events not later than) September 28, 1997, the one-year anniversary of the previous exemption.

COORDINATION: As was true last year, EPA Administrator Browner concurs in this request for exemption, as does the Department of Justice's Environment and Natural Resources Division, which is defending EPA in the pending litigation.

OSD/GC _____

RECOMMENDATION: I recommend you send to the President the enclosed memorandum and proposed Presidential Determination.

MEMORANDUM FOR THE ADMINISTRATOR OF THE ENVIRONMENTAL
PROTECTION AGENCY
THE SECRETARY OF THE AIR FORCE

SUBJECT: Presidential Determination on Classified Information
Concerning the Air Force's Operating Location Near Groom
Lake, Nevada

I find that it is in the paramount interest of the United States to exempt the United States Air Force's operating location near Groom Lake, Nevada (the subject of litigation in Kasza v. Browner (D. Nev. CV-S-94-795-PMP) and Frost v. Perry (D. Nev. CV-S-94-714-PMP)) from any applicable requirement for the disclosure to unauthorized persons of classified information concerning that operating location. Therefore, pursuant to 42 U.S.C. 6961(a), I hereby exempt the Air Force's operating location near Groom Lake, Nevada, from any Federal, State, interstate or local provision respecting control and abatement of solid waste or hazardous waste disposal that would require the disclosure of classified information concerning that operating location to any unauthorized person. This exemption shall be effective for the full one-year statutory period.

Nothing herein is intended to: (a) imply that in the absence of such a Presidential exemption, the Resource Conservation and Recovery Act (RCRA) or any other provision of law permits or requires disclosure of classified information to unauthorized persons; or (b) limit the applicability or enforcement of any requirement of law applicable to the Air Force's operating location near Groom Lake, Nevada, except those provisions, if any, that would require the disclosure of classified information.

The Secretary of the Air Force is authorized and directed to publish this determination in the Federal Register.

ACTION

MEMORANDUM FOR SAMUEL R. BERGER

THROUGH:

ALAN KRECZKO *AK*

FROM:

JAMES E. BAKER *JB*

SUBJECT:

Continuation of RCRA Exemption for Operating
Location Near Groom Lake

The President has twice exempted the "Operating Location near Groom Lake" from the public disclosure requirements of the Resource Conversation Recovery Act in order to protect national security information. By statute, the exemption is effective for one year.

With the concurrence of EPA and Justice, the Deputy Secretary of Defense is recommending that the President renew the exemption. Katie McGinty concurs as well. As with last year's exemption, the continuation expressly notes that it is not intended to limit the applicability or enforcement of any requirement of law applicable to the facility except those concerning the disclosure of classified information. To ensure continued protection of classified information the **President should sign the attached exemption by September 27.**

Subsequent to receiving concurrence on the attached memorandum to the President, we have added a paragraph noting that execution of this determination does not prejudice our review of the health record and current conditions at the location and that you will report back to the President after General Kerrick's trip.

Concurrence by: Bob Bell and David Sandalow *3 previous drafts*

RECOMMENDATION

That you sign the attached memorandum to the President.

MEMORANDUM FOR THE PRESIDENT

THROUGH: THE EXECUTIVE CLERK

FROM: SAMUEL R. BERGER (P) F02

SUBJECT: Presidential Determination on RCRA Exemption for
the Operating Location at Groom Lake

Purpose

To continue to exempt the Air Force from public disclosure requirements concerning the inspection and inventory of hazardous waste at the Air Force "operating location near Groom Lake."

Background

You have twice issued an exemption under the Resource Conservation and Recovery Act (RCRA) protecting from disclosure classified information concerning an Air Force location near Groom Lake, Nevada. By statute, the exemption is effective for one year, unless renewed. As a result, the attached exemption should be **signed by September 27**. The exemption was necessitated by litigation over RCRA compliance at the facility. While ruling that the information in question was appropriately classified, the Federal district court ruled that under RCRA classified information could only be protected from public disclosure pursuant to a Presidential exemption.

That ruling remains under appeal. In the interim, Deputy Secretary of Defense Hamre and Secretary of the Air Force Widnall recommend that you renew the exemption to provide continued protection for national security information. EPA Administrator Browner and the Department of Justice's Environmental and Natural Resources Division concur in this recommendation as does Katie McGinty. As with last year's exemption, the attached document is worded to exempt the location only from disclosure requirements and not from applicable environmental standards.

RECOMMENDATION

That you sign the exemption at Tab A.

MEMORANDUM FOR THE ADMINISTRATOR OF THE ENVIRONMENTAL
PROTECTION AGENCY
THE SECRETARY OF THE AIR FORCE

SUBJECT: Presidential Determination on Classified Information
Concerning the Air Force's Operating Location Near Groom
Lake, Nevada

I find that it is in the paramount interest of the United States to exempt the United States Air Force's operating location near Groom Lake, Nevada (the subject of litigation in Kasza v. Browner (D. Nev. CV-S-94-795-PMP) and Frost v. Perry (D. Nev. CV-S-94-714-PMP)) from any applicable requirement for the disclosure to unauthorized persons of classified information concerning that operating location. Therefore, pursuant to 42 U.S.C. 6961(a), I hereby exempt the Air Force's operating location near Groom Lake, Nevada, from any Federal, State, interstate or local provision respecting control and abatement of solid waste or hazardous waste disposal that would require the disclosure of classified information concerning that operating location to any unauthorized person. This exemption shall be effective for the full one-year statutory period.

Nothing herein is intended to: (a) imply that in the absence of such a Presidential exemption, the Resource Conservation and Recovery Act (RCRA) or any other provision of law permits or requires disclosure of classified information to unauthorized persons; or (b) limit the applicability or enforcement of any requirement of law applicable to the Air Force's operating location near Groom Lake, Nevada, except those provisions, if any, that would require the disclosure of classified information.

The Secretary of the Air Force is authorized and directed to publish this determination in the Federal Register.

DEPUTY SECRETARY OF DEFENSE

THE WHITE HOUSE
WASHINGTON

January 31, 1998

Dear Mr. Speaker:

Consistent with section 6001(a) of the Resource Conservation and Recovery Act (RCRA) (the "Act"), as amended, 42 U.S.C. 6961(a), notification is hereby given that on September 26, 1997, I issued Presidential Determination No. 97-35 (copy attached) and thereby exercised the authority to grant certain exemptions under section 6001(a) of the Act.

Presidential Determination No. 97-35 exempted the United States Air Force's operating location near Groom Lake, Nevada, from any Federal, State, interstate, or local hazardous or solid waste laws that might require the disclosure of classified information concerning that operating location to unauthorized persons. Information concerning activities at the operating location near Groom Lake has been properly determined to be classified, and its disclosure would be harmful to national security. Continued protection of this information is, therefore, in the paramount interest of the United States.

The Determination was not intended to imply that in the absence of a Presidential exemption RCRA or any other provision of law permits or requires the disclosure of classified information to unauthorized persons, but rather to eliminate any potential uncertainty arising from a district court decision in pending litigation, Kasza v. Browner (D. Nev. CV-S-94-795-PMP), the relevant appeal which, was subsequently dismissed as moot (9th Cir. Nos. 96-15535 and 96-15537; decided January 8, 1998). The Determination also was not intended to limit the applicability or enforcement of any requirement of law applicable to the Air Force's operating location near Groom Lake except those provisions, if any, that would require the disclosure of classified information.

Sincerely,

William J. Clinton

The Honorable Newt Gingrich
Speaker of the
House of Representatives
Washington, D.C. 20515

THE WHITE HOUSE

WASHINGTON

January 31, 1998

Dear Mr. President:

Consistent with section 6001(a) of the Resource Conservation and Recovery Act (RCRA) (the "Act"), as amended, 42 U.S.C. 6961(a), notification is hereby given that on September 26, 1997, I issued Presidential Determination No. 97-35 (copy attached) and thereby exercised the authority to grant certain exemptions under section 6001(a) of the Act.

Presidential Determination No. 97-35 exempted the United States Air Force's operating location near Groom Lake, Nevada, from any Federal, State, interstate, or local hazardous or solid waste laws that might require the disclosure of classified information concerning that operating location to unauthorized persons. Information concerning activities at the operating location near Groom Lake has been properly determined to be classified, and its disclosure would be harmful to national security. Continued protection of this information is, therefore, in the paramount interest of the United States.

The Determination was not intended to imply that in the absence of a Presidential exemption RCRA or any other provision of law permits or requires the disclosure of classified information to unauthorized persons, but rather to eliminate any potential uncertainty arising from a district court decision in pending litigation, Kasza v. Browner (D. Nev. CV-S-94-795-PMP), the relevant appeal which, was subsequently dismissed as moot (9th Cir. Nos. 96-15535 and 96-15537; decided January 8, 1998). The Determination also was not intended to limit the applicability or enforcement of any requirement of law applicable to the Air Force's operating location near Groom Lake except those provisions, if any, that would require the disclosure of classified information.

THE WHITE HOUSE

WASHINGTON

September 26, 1997

Presidential Determination
No. 97-35

MEMORANDUM FOR THE ADMINISTRATOR OF THE ENVIRONMENTAL
PROTECTION AGENCY
THE SECRETARY OF THE AIR FORCE

SUBJECT: Presidential Determination on Classified
Information Concerning the Air Force's
Operating Location Near Groom Lake, Nevada

I find that it is in the paramount interest of the United States to exempt the United States Air Force's operating location near Groom Lake, Nevada (the subject of litigation in Kasza v. Browner (D. Nev. CV-S-94-795-PMP) and Frost v. Perry (D. Nev. CV-S-94-714-PMP)), from any applicable requirement for the disclosure to unauthorized persons of classified information concerning that operating location. Therefore, pursuant to 42 U.S.C. 6961(a), I hereby exempt the Air Force's operating location near Groom Lake, Nevada, from any Federal, State, interstate, or local provision respecting control and abatement of solid waste or hazardous waste disposal that would require the disclosure of classified information concerning that operating location to any unauthorized person. This exemption shall be effective for the full one-year statutory period.

Nothing herein is intended to: (a) imply that in the absence of such a Presidential exemption, the Resource Conservation and Recovery Act (RCRA) or any other provision of law permits or requires disclosure of classified information to unauthorized persons; or (b) limit the applicability or enforcement of any requirement of law applicable to the Air Force's operating location near Groom Lake, Nevada, except those provisions, if any, that would require the disclosure of classified information.

The Secretary of the Air Force is authorized and directed to publish this determination in the Federal Register.

William J. Clinton

TEXT OF A LETTER FROM THE PRESIDENT
TO THE SPEAKER OF THE HOUSE OF REPRESENTATIVES
AND THE PRESIDENT OF THE SENATE

January 31, 1998

Dear Mr. Speaker: (Dear Mr. President:)

Consistent with section 6001(a) of the Resource Conservation and Recovery Act (RCRA) (the "Act"), as amended, 42 U.S.C. 6961(a), notification is hereby given that on September 26, 1997, I issued Presidential Determination No. 97-35 (copy attached) and thereby exercised the authority to grant certain exemptions under section 6001(a) of the Act.

Presidential Determination No. 97-35 exempted the United States Air Force's operating location near Groom Lake, Nevada, from any Federal, State, interstate, or local hazardous or solid waste laws that might require the disclosure of classified information concerning that operating location to unauthorized persons. Information concerning activities at the operating location near Groom Lake has been properly determined to be classified, and its disclosure would be harmful to national security. Continued protection of this information is, therefore, in the paramount interest of the United States.

The Determination was not intended to imply that in the absence of a Presidential exemption RCRA or any other provision of law permits or requires the disclosure of classified information to unauthorized persons, but rather to eliminate any potential uncertainty arising from a district court decision in pending litigation, Kasza v. Browner (D. Nev. CV-S-94-795-PMP), the relevant appeal which, was subsequently dismissed as moot (9th Cir. Nos. 96-15535 and 96-15537; decided January 8, 1998). The Determination also was not intended to limit the applicability or enforcement of any requirement of law applicable to the Air Force's operating location near Groom Lake except those provisions, if any, that would require the disclosure of classified information.

Sincerely,

WILLIAM J. CLINTON

MEMORANDUM FOR THE PRESIDENT
THROUGH THE NATIONAL SECURITY ADVISOR

SUBJECT: Congressional Notification of Presidential Exemption under Section 6001(a) of the Resource Conservation and Recovery Act, as amended, 42 U.S.C. § 6961(a).

I recommend you provide the enclosed report to Congress pursuant to section 6001(a) of the Resource Conservation and Recovery Act, as amended, 42 U.S.C. § 6961(a).

Section 6001(a) requires that you "report each January to the Congress all exemptions from the requirements of this section granted during the preceding calendar year, together with [your] reason for granting each such exemption." You granted such an exemption on September 26, 1997, in Presidential Determination 97-35, which protects classified information concerning the Air Force's operating location near Groom Lake, Nevada, from public disclosure. The enclosed report provides notice to Congress of the exemption.

The EPA Office of General Counsel and the Department of Justice Environment and Natural Resources Division have reviewed the report and concur with the Department of Defense that this report should be provided.

ACTION

MEMORANDUM FOR SAMUEL R. BERGER

FROM: JAMES BAKER *JB*

SUBJECT: Report to Congress on Presidential Exemption
Concerning the Operating Location Near Groom Lake *Issue*

Don
memo to POTUS (revised)
needs to remind
him we are
overwork working
Issue
A

Under the Resource Conservation and Recovery Act (RCRA), the President is required to report each January to the Congress all exemptions granted during the previous year and the reasons for doing so. This is the third such report during this Administration. The language is consistent with earlier reports with the addition of language noting the 9th Circuit's January 8 ruling that the litigation giving rise to the President's exercise of the exemption is moot.

The 9th Circuit upheld the validity and scope of the President's exemption, but declined to address the Government's argument that an exemption is not required because criminal statutes already preclude disclosure of classified information.

The report should be submitted to Congress no later than January 31.

Concurrence by: *JB for* Joe Bouchard, Mara Rudman and David Sandalow

RECOMMENDATION

That you sign the memorandum to the President at Tab I.

THE WHITE HOUSE
WASHINGTON

Dear Mr. President:

Consistent with section 6001(a) of the Resource Conservation and Recovery Act (RCRA) (the "Act"), as amended, 42 U.S.C. § 6961(a), notification is hereby given that on September 26, 1997, I issued Presidential Determination 97-35 (copy attached) and thereby exercised the authority to grant certain exemptions under section 6001(a) of the Act.

Presidential Determination No. 97-35 exempted the United States Air Force's operating location near Groom Lake, Nevada from any Federal, State, interstate, or local hazardous or solid waste laws that might require the disclosure of classified information concerning that operating location to unauthorized persons. Information concerning activities at the operating location near Groom Lake has been properly determined to be classified, and its disclosure would be harmful to national security. Continued protection of this information is, therefore, in the paramount interest of the United States.

The Determination was not intended to imply that in the absence of a Presidential exemption RCRA or any other provision of law permits or requires the disclosure of classified information to unauthorized persons, but rather to eliminate any potential uncertainty arising from a district court decision in pending litigation, Kasza v. Browner (D. Nev. CV-S-94-795-PMP), the relevant appeal from which was subsequently dismissed as moot (9th Cir. Nos. 96-15535 and 96-15537; decided January 8, 1998). The Determination also was not intended to limit the applicability or enforcement of any requirement of law applicable to the Air Force's operating location near Groom Lake except those provisions, if any, that would require the disclosure of classified information.

Sincerely,

The Honorable Albert Gore, Jr.
President of the Senate
Washington, D.C. 20515

THE WHITE HOUSE

WASHINGTON

September 25, 1998

Presidential Determination
No. 98-36

MEMORANDUM FOR THE ADMINISTRATOR OF THE ENVIRONMENTAL
PROTECTION AGENCY
THE SECRETARY OF THE AIR FORCE

SUBJECT: Presidential Determination on Classified
Information Concerning the Air Force's Operating
Location Near Groom Lake, Nevada

I find that it is in the paramount interest of the United States to exempt the United States Air Force's operating location near Groom Lake, Nevada, (the subject of litigation in Kasza v. Browner (D. Nev. CV-S-94-795-PMP) and Frost v. Perry (D. Nev. CV-S-94-714-PMP), from any applicable requirement for the disclosure to unauthorized persons of classified information concerning that operating location. Therefore, pursuant to 42 U.S.C. 6961(a), I hereby exempt the Air Force's operating location near Groom Lake, Nevada, from any Federal, State, interstate, or local provision respecting control and abatement of solid waste or hazardous waste disposal that would require the disclosure of classified information concerning that operating location to any unauthorized person. This exemption shall be effective for the full one-year statutory period.

Nothing herein is intended to: (a) imply that in the absence of such a Presidential exemption, the Resource Conservation and Recovery Act (RCRA) or any other provision of law permits or requires disclosure of classified information to unauthorized persons; or (b) limit the applicability or enforcement of any requirement of law applicable to the Air Force's operating location near Groom Lake, Nevada, except those provisions, if any, that would require the disclosure of classified information.

The Secretary of the Air Force is authorized and directed to publish this determination in the Federal Register.

ACTION

MEMORANDUM FOR SAMUEL R. BERGER

FROM: JAMES E. BAKER *JB*

SUBJECT: Continuation of RCRA Exemption for Operating
Location Near Groom Lake

Since 1995, the President has exempted the "Operating Location near Groom Lake" from the public disclosure requirements of the Resource Conversation Recovery Act in order to protect national security information. By statute, the exemption is effective for one year, unless renewed.

With the concurrence of EPA and Justice, the Deputy Secretary of Defense is recommending that the President renew the exemption. Katie McGinty concurs as well. As with last year's exemption, the continuation expressly notes that it is not intended to limit the applicability or enforcement of any requirement of law applicable to the facility except those concerning the disclosure of classified information. To ensure continued protection of classified information the **President should sign the attached exemption by September 25.**

In response to questions from the President, you requested that Defense, CIA and Energy review certain questions with respect to the Operating Location. A summary of this review was sent to the President in August, and is presently with John Podesta. Execution of this determination would not prejudice the President's satisfaction with this review.

Concurrence by: *JB* Joe Bouchard and David Sandalow

RECOMMENDATION

That you sign the attached memorandum to the President.
