Subject: GAO Report on UFOs

UFOs

---------- Message Contents ----------

I spoke with Gary Weeter at GAO regarding the mentioning of OSTP in its report on UFOs. He was calling for verbal approval. The report will have two sentences in which OSTP is mentioned. The first sentence will mention that GAO asked OSTP along with other selected agencies whether we had any records and what the records were. The other sentence will go on to mention that"...DOE and OSTP had no records". Dr. Gibbons will receive the report, which is 8 pages, when published. Congressman Schiff is expected to release the report sometime around June 30, 1995.

Any problems, let me know.
