14 May 1965

ME: DRANDUH FOR: Chief, SR/CI

SUBJECT : 3-13 May Interrogation of MOSENKO

- 1. Although I have attended all nine (9) sessions in the current phase of MOSEMKO's interrogation, I as yet have been unable to determine the reasons for the interrogaton(1) conduct and manner and the true purpose of the phase itself.
- 2. As the interregator noted in the beginning, he is to be concerned only with "certain personal matters." The interregation of NOSENKO along such lines and FEENKO's responses neither have produced any change in my opinion of NOSENKO nor have appeared to have opened up any new, useful or valuable information to us.
- 3. Perhaps, from the psychologists point of view, this interrogation has been of some value; but, even if this is so, I cannot see it from a review of his reports. These reports all contain basic errors arising from the psychologist's lack of knowledge of Saviet meality and his lack of experience with the true nature of Saviet man. The psychologist is not prepared to preparly deal with and evaluate NOSENKO because NOSENKO is first, a Russian; second, a Saviet; third, a Communist; and, in addition to all of this, a highly trained intelligence agent.
- A. ROSENKO is one of a kind. It is quite likely that the psychologist never has experienced such a personality before. Then, with the wide difference in their backgrounds and the psychologist's resulting inability to understand NOSENKO's character, it is understandable that he cannot properly judge NOSENKO and his conduct. The most we can improve an in NOSENKO's case improvement are the carefully considered epinions of those who

<u>APPROVED FOR RELEASE 1994</u> CIA HISTORICAL REVIEW PROGRAM have backgrounds more similar to that of MOSENAO and experience with persons of MOSEEKO's type. This becomes more and more obvious to me as I hearing the psychologist say, "Well, he is probably telling the truth," when in I have seen clearly that MOSENAO has been lying. There have been many such cases in this EM latest phase of the interregation.

- 5. As a result of such instances instances of "soft interregation," where MOSENKO's obvious lies have not been challenged MOSENKO can now only be getting the impression that there still is a way out for him. We must remember that MOSENKO came to us prepared only for complete success or failure; he expected that in the case of failure he would be subjected to MOSENKO hard interregation, harsh treatment, strong punishment. Yet he now finds himself in the peculiar position of having MOSENCESCOMMOSICESCOMM outwardly failed in his primary assignment, yet being fairly well treated and allowed to continue with his lies and dezinformatsiya despite his detention. He can now only be thinking that there still is some hope for him and for his mission.
- 6. In his report on the 3 May session (first session), the decter wrote: "... After spelogizing for having stemach trouble he became most receptive and even eager to cooperate. In general his manner during the interview remained relaxed, spentaneous and relevant.... As the interview progressed it was apparent to me that he was getting considerable psychological relief from the interview. At the time he left, he actually told me goodbye...."

 This is typical of many such statements and incidents which are my reasons for asking do we really need this kind of interrogation? POLYCOMMENTAL Aside

 MARTINIA PROGRAMMENT AND ADDRESS OF PROGRAMMENT ASIGE FOR considering the report itself we must ask if we really need to concern ou selves with giving MOSEMAO "psychological relief." If not and since it is obvious we are getting nothing else out of it then this type of

interrogation should be abandened.

- 7. Elsewhere the faychelegist writes that "the picutre that MOSENKO painted of his father was that of a hard working man.... Accredited as a worker at 13 or 14.... He graduated from the institute the year after MOSENKO was bern in 1928. MOSENKO tells of being teld that his father would work at home on his studies while helding MOSENKO acress his knees to quiet him when he would cry." We knew all of this except the fact that MOSENKO held his sen acress his knews from the Seviet newspaper, Frayda, in a August 1956; and what father has not held his crying child acress his knees to comfort him?
- 8. It is certain that REEN our ECSENKO did have a father, and times
 it is quite likely that this father held him across his kneed. Yet this
 does not answer the real question is our ECSENKO's father Ivan Isiderevich
 ECSENKO?
- 9. ROSENKO teld us in this first session that his father studied in
 the Rabfak and the institute while working full-time suring the years 1923-28.
 The dector was quite impressed with MOSELKO's statements on this. Yet Pravia netedenly the studies of (again on 3 August 1956, in MOSENKO's obituary) rank/insta / MOSENKO, Ivan 11
 Isiderevich; Mosenkon MOSENKO, Ivan Isiderevich, also/been working at the time he was studying, Pravda would have mentioned this without fail, because it was that much more to MOSENKO's credit. Further, the 3 August 1956 Pravda clearly stated that after graduation from the institute, MOSENKO, I. I., was sent to MOSE a ship-building plant.
- 10. In the same session, MOSENKO stated that at some point in 1922 his
 (3 Aug 56)
 father was admitted to the Party. <u>Pravda/states</u> that RESENKO I. I. entered the
 Party in 1925. According to MOSENKO his family moved to Loningrad early in 1934.

 <u>Pravda</u> (3 Aug 56) states that they moved in 1935.

- 11. If EDSERGO does not remember what his father did how he worked and studied, when the family neved, when he was admitted to the CPSU why does no not say so? Why is he apparently guessing at these things? Also, why can't he remember these things when he can remember being held across his father's knees?
- 12. The psychologists report includes and assessment of ROSEKO's rether:

 "An hypothesis that could be made based on the description of the mother, would
 be that she would have difficulty adjusting away from Nikelayev where she had
 been bern and where she could depend on her rather." Of whom is this not true?

 Who does not experience some difficulty in nowing away from familiar neighborhoods
 and friends? Do we really need this assessment of NOSENKO's mothers emotions of
 35 years ago? Do we need it badly enough to spend this much time and effort
 getting it?
- 13. The psychologist's report continues: "... His (NESENKO's) mether continued to get support from her father, and they apparently lived better (or beyond their means) in Leningrad." So what? Is the point that we should thank NOSENKO's grandmether for helping NESENKO grow and come to us? NAMA

 If not, then again what is the point? Why do we need this?
- 14. It is my epinion that the type MPAN and line of questioning used MY of present in this phase of MESENIO's interregation should be abandoned; we must drop this policy of letting MESENIO ramble on freely and uninterruptedly about the unimportant details of his youth. Instead, we should begin now to press MESENIO and question him in detail about such things as:
- a. His father's life (we still cannot be certain that NOSENKO's father was the I. I. NOSENKO); for example, NOSENKO's father's service in ChON (& what credit was given NOSENKO for this while he was working in State Security); was it even mentioned in his file?);
 - b. His grandfather (enternal); for example, his arrest and each in

jail, the role this played when MESENKO entered the MGB, the manner in which it was recorded in MCSENKO's file, MOSENKO's questioning in Personnel (identities of Personnel employees included) about this; MOSENKO speke with some happiness and gratitude of the financial assistance given his family by the grandfather — the KGB would have been most unhappy to learn of this.

15. If ECSERGO were really the person he claims to be he would have spaken more precisely of his father's rank (rank given and date received).

According to Pravda, in 1944 EOSERGO'S father get the rank of Engineer-Rear Admiral. HENERGENATION The real EOSERGO also should be able to tell us more decorations precisely of the ECOTOMORDE given his father. According to Pravda, he was awarded three Orders of Lenin, Order of Eakhinev First Class, three Orders of Red Banner (Labor), Order of Red Star, Order of "Fedal of Hener (Znak Pecheta)."

16. Further, in order to be certain that we have the real MOSENKC, we should question him in detail about his father's death and funeral, starting with the illness and the dectors in attendance through the procession from the Hall of Columns to the Kremlin wall. I do not wish to include such detailed questions in this memo, but can downwan produce them upon request/namely especially those on the funeral procession, having twice been in such procession agreelf.

17. According to Pravia (5 Aug 56), H. I. BOBROVNIKOV was a member of the funeral commission and opened the funeral ceremony on Red Square. BOBROVNIKOV at that time was Chairman of the Moscow City Council. During the 13 May 1965 interview, MOSERKO mentioned a girl friend, Marina, who once worked as secretary to BOEROVNIKOV. If this was time a true statement, then MCSERKO should be able to tell us much about BOEROVNIKOV; furthermore, when talking about Marina, MCSERKO should probably have also volunteered the information that "this was the same BOEROVNIKOV who was on the commission for my father's funeral....."

18. 3 May 1965 Interview. Even new we are not certain of the date when the MCSENKO family neved to Leningrad; MCSENKO says it was in 1934, but Pravda reports the move as having been in 1935. It is possible to believe that MCSENKO might have forgetten the date, but we must remember that he associates the move with his level of schooling. That is, MCSENKO says that he moved from the O-class in Mikelayev in 1934, when he was 6 years eld; he says that in Leningrad he was in the first grade.

a. NOSENEC could manual none of his friends from Bikelayev. It is possible to believe that NOSENEO might have forgetten these friends if he had no contact with them in later years; yet NOSENEO himself says that he wisited Bikelayev twice after the family had moved from there. Certainly he must have not with some of those friends, and man it is certain also that he would remember those meetings.

b. Although MOSENKO could remember none of his friends from Mikolayev, it is interesting to note, he reportered very well that when his family noved to Leningrad in 1934 they were met by his father with a "GAZ# automobile."

- b. MOSEMAO remembers also that while in Leningrad his family lived at
 - (1) Ploshchad Stachek,
 - (2) Griboyedevia Kanal, and
- (3) EMRSSANIMA ulitsa Gorkege. THE But HOSENED could name no friends or neighbors when he knew well while in Leningrad.
- d. NOSERKO never mentions visiting former friends when visiting former places of residence.
- e. The psychologists may accept these "lapses of memory" as being "just human," but I cannot.
 - 19. 4 May Interview. During this interview, M.SENKO changed his story

slightly, saying that his family moved to Leningrad in March-April 1935, where he started the first grade (in Spetember 1935). MOSENEO could not, however, describe the school or name even one of his teachers. When the dector insisted this time that MOSENEO name some friends, he gave the rickname, "Shturm," but failed to give the bey's true name; he also MOSENEO gave the name, Oleg ENTHELIX SAFRONOV. EXTRE accept as a fact that MOSENEO manufacture really cannot remember any of his friends MOSENEOMERA from childhood, we cannot believe that he also has completely forgetten about the naval school and the tekhnikum.

20. General. During these latest sessions, NCSENKO has been trying very hard to put the record of his schooling in proper order. But in view of what has been stated in the past/himmensum and his present errors, it must be said that he is finding it impossible and he is much not a tall convincing. In my eximien everything he has told us about this, starting from the 1941 period, has been a lie. It is possible that he really was in Knybyshev and Baku for one reason or another, but PACM his time description of the circumstances and situations is unbelievable from and fits no Seviet pattern of life.

21. Om 4 May MOSENKO said that while he attended the 585th High School in Mascow, he had two friends — Vladimir KABANOV and Anateliy TIMAKOV. But these were not friends who also lived on Sarafinevich Street, nor were they children of Seviet high officials. MOSENKO failed to name any friends who were children of high officials, except SABUROV.

22. NOSERAC's description of his life on Serafimevich Street could never convince me that he ever really lived there. Among the high efficials living on Serafimovich Street, MOSERAO mentioned PERMA SHVERNIK first.

According to my knowledge, prior to WI II so many other members of the

 \mathscr{S}

Seviet government also were living there (KAGANOVICH, etc.). If NCSENSO is the person he claims to be he should be able freely to name and discuss many persons MYMMOVAM from among the first-ranking efficials who lived on Serafinevich Street; not just SHVERHIK (whose address, incidentally, already has been published in <u>The Secret World</u>).

- 1. It was the intenti n of the undersigned to attend every session conducted by the dictor in hope to gain something new and useful for our future interrogations. During these sessions, I managed only to refresh my memory of things MCSENKO had previously said. Nothing new or significant developed during these sessions except for a few miner facts which have negreat value. It should be mentioned that many of the facts that MCSENKO stated about his past life were more mixed up than the story he had proviously related.
- 2. It is not the intent of the paper to criticize the work which the doctor has done because the sessions have alreadly taken place and the work is completed. By main objection to this type of interrogation is that the doctor tried to maintain a neutral attitude and never my opinion that challanged any of MCSENKO's statements. It is/the doctor made a mistake in the last session when he told MISENKO "Y on are MCSENKO." This leads MCSENKO to believe we accepted his life story and family background, and it would be very hard to question him again on this subject. It is my opinion that we did not have enough information to make a definite or neclusion that he is MCSENKO. That MISENKO told us could be obtained or learned by another person very well brief on these mat ers. Mos of the information that MCSENKO gave to us about his parents is stillnot convincing to make conclusions. Most of the questions during the recent sessions were of a leading nature and MISENKO's answerms appeared to be of the type that the doctor wanted.

APPROVED FOR RELEASE 1994CIA HISTORICAL REVIEW PROGRAM

SECRET

(-

In my opinion, MASELMC did not say more about his father, and in many instance loss, than the newspaper Pravda said in 1956.

3. In the doctor's epinion, MCSENKO mentioned to us quite a few family friends who were around the MCSENKO family and at the first look it is a minimum who were around the MCSENKO family and at the first look it is a minimum with the is McSENKO. In my epinion, MCSNEKO gave to us associated enly names who logically would be antimized with MCSENKO or MCSENKO's revealing the information matter activities or private lives. Significantly, most of the information MCSENKO has given us is about people who are matter either dead or no longer in authority. For example, MALISHEV, (former deputy chairman of the Council of Ministers, died); VAKHRUSHEV, (died); SABURCE, (no longer a VIP); KABULOV, (shet); SABURCE, (no longer a VIP); KABULOV, (shet); SECHERBAKOV, (died); and otherse.

4. He rentiered a few names who are VIPs new, but did not say anything afteresting about them. For example, he rentiered SHYERMIK who livesen wicha Serifizevakaya Street, a fact known to everyone, or/family friendship

Lately he mentioned Farshal ZHUKOV's on ghter who he knew we/have
a good picture of Rima ZHUKOVA from one of our employees as well as a good
description of ZHUKCV's apartment.

5. The only c nelusion we can come to from the foregoing is that RUSERNO has been allowed to say little or nothing about the lives of important

Soviet officialsx, or this nam is not NCHERNO and all he knows is the

SECRET

is the legend which has been provided him or or answers which he could figure out himself.

6. With regard to his rather, he did not mention anything of importance to us. He did not mention any of his rother's friends among Soviet VIPS, and tried to avoid or change the subject when this matter was brought up. 7. I am not convinced that MCSENKO lived on Serimevicha and Granevskiy Streets because he gave so little information about these areas that it is impossible to judge if he actually lived there. Although he gave correct information about a few VIPs who lived in housesin that area, other details are lacking which would confirm his residence there. 8. MCSENKO's latest information on his educational background is se mixed up and be made so many mistakes regarding Seviet realities that it is impossible to believe him any part of his education. 9. I don't believe any part of MOSEMKO's story about his mil tary service. "The Maval Preparatory School in Baku and Leningrad." According to Soviet regulation, a person was usually called in the army when he is 19 (these called be called at age 18. who have graduated from high school or otherwise have a higher caucation/) MUSEUM from was bern on than 30 October 1927, then he would be 18 years eld on 30 October 1945. He could be called into the army at this time, i.e., the fall of 1945, although he should have been 18 by September of that year, Ordinarily, he would be called to service in 1946. In my epinion, everything HCSENKO said about his military background in any kind of service school

-Signiff

prior to the fall of 1945 is a lie. MCSEMEO, then did not attend the Higher

Maval Schools in Leningrad and Daku because he was tee young to attend these

schools and the schools only accepted students who were ready for regular for acceptance in these schools was military service, and the levest age/maintail 18 years. Then we still have unanswered questions on where, when, and how MCSEMMO finished high school. MCSEMMO's story that he took some courses in Fescow Evening High Germyy

School Attached to faxing Institute and his attendance at the Loningrad Shipbuild ng Technicum, I consider as a complete lie, because it does not

legical fit any/pat:ern of Seviet reality.

Lt.

10. It is my belief that MISINZO probably never was in actual military the service and definitely did not take/military eath the way he described it, i.e., that he military took the oath at the age of 15 or 16 in Baku. It is not conduct necessary to make any minorizance research since an individual final to be 18 and on active duty in the service in order to be eligible to take the military eath. If we believe that MISENIC was admitted to the Leningrad Higher Military Proparatory School in 1944 with 9 grades of showever, education he would not be admitted to the school because of his age and because he could not take the oath until October 1945.

11. During the last interregation, there was some confusion on MISENICO's part about his military ranks. And now we have three different stories about his ranks. Jr. Lt. — June 1947

Sr. Lt — end of 53 or carry 54 has stated that he was promoted to Lt. in 1950 last interview, he stated that he was promoted to Sr Lt in April or Pay 1953.

spring of 1951.

should be

seriously and/considered as a complete lie.

SOME POINTS FROM THE DOCTUR'S INTERVIEW

1. NOSENECIEN stated (7 May 1965) that he took the cath in Baku in 1943 when he was 15 years old, but he did not remember how he correlled in the Baku school. In the same resting, he stated that while he was in the Baku school he was komindir otdeleniya. Also in the same interview he stated that he was in the Moskovskiy Flotskiy Ekipazh. It should be said that the Moskovskiy Flotskiy Ekipazh was only for naval persennel who were called in the regular naval service. All of this should be considered as a lie.

when he was 16 years old and was mpx put under home arrest. If this indicant incident really took place, it is more likely that papa helped him to get out of the arrest or it is possible to think that after this arrest for some crime unknown to us he was put in jail and then in a concentration or labor camp. This is why ECSENEO tells us a story that in 1944, in the fall, he was working for two or three months in the forest, where he get sick and conditions were very bad. As ECSENEO described it, the c nditions were very bad. As ECSENEO described it, the c nditions were rore like a labor camp than a regular idlitary unit.

-SEGNET-

the naval preparatory school of Frunze in 1944 but he didn't start any studies until Movember or December 1944 because the whole school was working in the ferest. Then in February or March 1945, the shooting accident took place and he spent some time in the hospital and in May he enrelled in a shipbuilding techicum. MOSZNKO tried to make us believe that while he was in the naval preparatory school he studied lith grade subjects, but as we can see, in actual fact, he did not study anything because he had no time. Laters he stated that when he enrelled and in the shipbuilding technicum in May, the next menth he gumulated and received his certificate as if he graduated from a high school, and got the right to ge to a higher institution. Only a crazy person could believe this story.

A. During all the interrogations, we never got a clear picture internal how he received his first/passport in Leningrad and how he received his first military ticket. If he really was denshized and put in the meserve it should take place somewhere later than October 1945 when he became 18 years eld. Definitely there will be no talk about any military ticket before you reach 18 years old. And more likely at that time he should have been 19 years this to have been called into the service or posted to the reserve. It should be noted here if MCSATIO really was in the naval preparatory school in 1944 and 1945 and received his military ticket in 1945 then he definitely should be two years elder than he claims.

SFARFT

On 5 May , MCSENKO named more friends. He mentioned again SABU .. V*s sons. One of them killed his wife (Valya Yefrirovay, the daughter of do, uty minister YEFRIMAY). He killed her because he found her in bed with another man. Deputy Minister V. V. YEFRINEV was deputy to M. SENKO's father. H e was at his funeral and delivered a speech in Red Square during the funeral ceremeny. It was neticable that therefore manages when we questioned h.m about friends he always mentioned SABURGV. MUSERKO only contioned YEFR. MCV by name and did not give a y details. If N SENKO is the persen is the person he is supposed to to, he would known much more about the life and background of the deputy to his father. And here ag ain we have an example of a person who is continued who is no lenger a VIP 6. On 6 May MOSENKO told us stories about the eldest can of SABUROV who was married the daughter of the forrer Minister of Railroads KOVALLY . It should be noted here that the full story of KCVALEV was published in my book The Secret World. KCVALEV was punished and lest his V.P status in 1950.

7. On 21 May, in enswering the dector's questions about his first work in the KGB, MCSENKO told us a story h w he received an order to write a statement to arrest a Soviet citizen who was connected with foreigners. (MAXIMALAX The Soviet citizen wrote a letter to the American Embassk) According to MCSENKO he rejected this type of work although there was EERIYA's resolution for felt arrest (Russian work is remeated!). Further, MCSENKO explained that the man was not guilty. The point of this story was to prove that he was working in the SCD.

8. On 20 May RESERKO ense again rendiened that the working hours of the EGB were from 10:30 in the morning until 1 etclock in the morning, with a

-SECRET ---

THE RESIDENCE OF THE PROPERTY OF THE PROPERTY

break between 5 and 8 in the even ng. An I already said before Mescew Headquarters until later July or August 1953 working hours were from 11 AM to 12 PM with a reak from 5 to 8 in the evening. In oblast, KGB, including Mescew city, working hours were from 10:30 in the remning to 1 e'clock in the merning. Somewhere at the end of July and the beginning of August 1953, working hours were changed and were from 9 Ai to 6 PM with a lunch innix break of 1/2 to 1 hour taken between the hours of 1 PM to 3 Fiff for all the effices of the KGB including headquarters and the oblast.

Then it is possible to think that haybee sensuhere in bescew oblast.

Leningrad, or some other city, KC ELKO used to work as a case officer or was closely connected with the oblast. KGB. That is where he learned the working hours. That is why he race the mistake of regarding the working hours in headquarters.

9. When the deed of a writing in the survey of MCSENKO's psychological

When the decrept is writing in the summary of MCSERKO's psychological assessment the called him a bright seciepath. Paybe he is, but in my epinion he is a very well trained agent with great ingenuity and insignams preparation. It absolutely disagrees with the dector's statement that "He has been essentially convincing and accurate in general if not always truthful in detail." In one beint it is pessible to agree with the dector that MCSERKO does not present to us the complete legend. In my epinion, MCSERKO developed his own story or legend himself in response to leading questions, especially about his early life and schooling up to 1953. And from 1952-1953 and on , up to his defection, we should believe that it was a legend developed but his defection, we should believe that it was a legend developed but his defection, we should believe that it was a legend developed but his defection, we should believe that it was a legend developed but his defection, we should believe that it was a legend developed but his defection, we should believe that it was a legend developed but his defection.

SEC

-SEGRET ---

SUGCESTICES.

1. It is suggested that I participate in the next hostile, needling interregation.

alone in theinterregation reem, although I prefer that sensene be present in the reem. But if I am aloneit will give me greater authority in MISERKO's eyes, and this may be a psychological factor working to my benefit. But if MCSEKKO is taken to another place, then it is pessible to interregate him who is asked CiA authorities tax for a long time to talk to MCSEKKO. In the event of my participation in the interregation to avoid mistakes and misunderstansings, the interregation should be held in Russian. It is not

event of :y participation in the interrogation to avoid mistakes and misunderstandings, the interrogation should be held in Russian. It is not possible to make the interrogation as hostile as it might be and to needle him if the interrogation is held in English, as MCSERKO does not understand strong words in English as well as he does in Russian. Larking the interrogation I will not speak fast an error to make it understandable. It is understood that I am going to be correct, but not polite. I would try to avoid getting into any arguments with MCSERKO. In case of arguments, I would ask him to be seated and to answer the questions. In the event he recognizes and to lis me who I am, it is possible to give two answers: 1. I am not he but he is coming seen to talk to you, and you are mistaken. 2. Yea, I am D and you are going to give me proof that you are S. You have to give me proof that you did work for the KCB.

SECRET

In case of my participation , I would like to be able to use all the information tha t MOSENKO has previously told us. In utilizing this information, I would like to have a free hand to press him on certain points which I feel would be of value to use in gaining a confession from him. I need permission to use the names of Bagley, Big George, and Eurphy, of course, only in the proper way and when it is necessary. The use of the changes in the Seviet gavernment could be desscussed having in mind theuse those events in at the proper time when it is an arent that it will help him to c nfees (the use of only the fall of KHRUSHCHEV without revealing the rise of SHELE TH and SEVICHASTHY.) It could be used in wari us ways, for example, a newspaper on the trains table with only the headline showing. He could be allawed to see the paper inadvertently and we could see what his reaction is. Or, the inferration could be brought out at a point in the interrogation when we are srying to stress that he must confess since we know he is telling lies, and furthermere, his bosses are no longer in authority in the S. wiet Union and all is lost for him anyhow.

- 2. During the interregation stress should constantly be given to the fact that MCSENGO is being used as a tool of the KGB without proper training of American realities, and that his mission was doomed from the start because of this.
- 3. If it is decided to give him some drugs, litshould be given prior to the hostile interregation, so that we can use any 68 the information gained from the use of these drugs against him. The first natter which should be mixed determined if drugs are used in whether he is MOENKO or not.

-SECRET

4. I would not hest tate to continue the interregations to the point where perhaps

ECSENIO would be extremely tired and prepared less able to resist heatile enough questioning. If there is not prepared personnel for extended periods of interregation, then he should be left in the interregation reem during breaks in the interregation.

VULNERABLE MIXELEMENT AREAS TO BE EX LOITED BURIEG THE LEXT HOSTICE INTERCORMICE

1. Everything about MCSEKO's education starting from Leningrad elementary school, move to Moscow, Moscow schooling, should be exemined. And special attention should be devoted to the schools he attended in September 1941, Embyshow, Haku, Mascow, Leningrad, and back to Moscow again, During the interregation of this period, we should challenge MUSINED by the facts that he could not be at any military school prior to the fall of 1945. Then we do not believe his story. This in erregation should include detailed questioning about his travel to Kubychev, Baku, to find out where be really was at that period. At the same time , ECSEEZO should be questioned about twhere his parents lived from October 1941 thru 1942. Also he should be questioned about h.s first passport which he is supposed to receive not earlier than thank Mevember 1943 and not lat r than the beginning of 1944. The same can be said about his military ticket, i.e., when and hew he received his first military ticket, through what military commissariat, because he could not receive his military ticket earlier than Eoverber 1945. His story that he received his military ticket in the summer of 1945 is false. What redical commission hax was he examined by before he get his filitary ticket should be ascertained. It is impossible that bCSEMMO was en active military service prior to 1945 including any military schools because of his age. He should have been called to active duty in the fall of 1945 er fore

likely in 1946. If he was posted in active reserve in 1945 or 1946 then the question is why he was not called into the army.

Together with this gies the question of M SEESO's education x in the Institute of International Relations. The story he told us is unbelievable. First he states that it was a four year course and that he graduated in 1949 and later on he changed hissbory and said that it was a five year course and that he graduated in 1950.

2. MOSENKO's first carriage to TZLEGIN's daughter and diverce. Conthis subject, ECSEEZO should be questioned about his registration of the carriage, passports, what district was the carriage registered in , about banks apartments on the First Meshchanskaya Street, including his military status at this time, what kind of military ticket he had, when it was registered. Fore définite questions shoule be asked about the diverce announcement in the newspapers and full procedure of the divorce including the two court sessions (district and eblast courts). Alirony - the exact amount of alimony, reminding to him that earilier he told us that he beid to his first wife 150,000 rubles form his money which he earned serving in the Far East. According to the latest MCSEME statements he spent in the Far East less than 20 months. If this is the case, then MCSENO 33333 received more than 5,0.0 raubles a month. To make during the 20 months the 100,000 rubles Even if ECSELEO was in the Par East and peceived there a double salarly as a jr. it. the first year of service in the GRU, he could not make zore than 3,000 rubles a menth (I gave here the highest possible salarly for a junior

3. Both of the subjects mentioned above should be much much investigated

efficer)

-SECRET

along with the matter of where N. SENKO was living at that time, aying s.ocial attention to Serifcnicha, Granevskage and First Feshchanskaya Streets, keeping in mind that these subjects will really shew if he is EOSZEKO. If we do not get proper answeres on his first two subjects, if he continues to lie or give unsatisfactory answers, then in my opinion it is not necessary to question him about his study in the foreign relations institute. If the answers are satisfactory or more realistic then we would move to the Institute of International Relations. 4. NOSEHKO's Entry to the KGB. Because we have A or 5 different dates on his entry into the KGB I think it would be a good idea to start quustioning him from the point when he said that once prior to 1952 he had complete interview with the KGB representative representative about his employment in the KCB, but he rejected their preposal because he did not like it. From this point we would go on from the beginning somewhere in 1952 when he first talked with KABULOV and so on. And he should be challenged all the time that EGB did not work he way he described to us. Then somewhere during the interrogation he should be reminded or asked questions could a person be in KGB service if be:XXX

an recommend to the EGB by a person who was shot to death as an energy of the people.

b. whose jother's background is noble (averyon), and whose grandiather was a Tretskiyite and who was arrested and died in jail.

c. whose fither of first wife was arrested and was in fail the day he entered the AGB.

-SEC!

- the guilty and question about he was his immerality was discussed in the party commission of the CPSU
- e. who entered the KCET when he was already everage member of the Konsemel without any desire to become war a nember of the Communist Party
- f. whould a person with such background mentioned above be taken to work in the SCD American Department
- g. who wax lest his Komsemel rembership because of his misuse of operational documents and immorality.
 - h. who was arrested for 15 days for the reasons centiond above.
 - i. who was without Komsomel and party membership for 2 years.
- j. who rejected the order of the Minister to write a statement for arrest in the wourse of his work .

 etc.

It is very hard now to develop questions about h s entry into the KCB but he should be challenged all the time about his answers.

- 5. I did not mention about his being in the Far East and how he was transferred from GRU to KGB. The line of questions on this matter would be depend or connected whith answerms imm about his education and how he entered the KGB. Questions about his truff transfer from the GRU to the KGB could be put together when we will question him about his entry into the KGB, his personal file, and military ranks.
- 6. I would definitely utilize and show to him the number 7, what is connected with it, anijust ask him for an explanation.
- 7. MOSERKO's trip to Corkly in search of CHEREPARKY. This question should

KINIT

stabled from the point where he first heard of CHEREPARCY's defection from Moscow, ROSENKO's trip to Corkly and how long he studied the CHEREPANOV papers. Here all the NOSENKO documents should be an hand. 8. MOSEMKO's operational and social activities on Red Square during the holi ays and father's funeral also where MCSEMMO's presence at the Kremlin should be closely investigated because it is my belief herwas often in Red Square as he chained. If he was there, it was only once or twice and it would be easy to mix him up about these matters. Questions on this subject could be developed according to his answers. 9. I to ld like to take NCSENKO on a trip from Kurskiy Station in Moscow to his apartment on Narodnaya Streetalong Chkalovskaya Street and Taganka . Also on a trip along Dzorzhinskiy StreetSretenka Street and First Meshchanskaya Street to his apartment building where he lived with his first wife. This is necessary to be sure that he real y lived in these places. I still do not believe that he really lived at these addresses , except for the fact that he may have lived nearby in sufehouses. 10. Interregation on operational questions such as his work with agents and his use of safehouse, etc. could be held later. It depends how the prescuence interrogation goes.

Note: I have no special suggestions how to exploit MCSEMMO's information, it depends on the next stage of the interrogation, but I am against turning him back to the Soviets, whether he confesses of not.

We have have to reverything in our power to take him confess in order to win this big game.

If we publish his story even with our changes without his confession

-SECRET

-SECRET-

we will be on the losing side. There is no room to interchangement that defection is that the act of an honorable notivated can without his confession

when the educative good for a settle downer Condenna tallow our should be asked how sho sectived the matromysde Allerierovan - her bioling the chin indicates she was born one of wedlock. This was offered by our birth certificate is surprised about of the Enthur is not listed. late two total many deviation process. For many chratian of tas fard caredoon. If she took too getrooping of for stopfather, been patronyold out old to deficandrevia, after her steplation to given mile. In the inviet police state, birth registration requests are reticulously maintained. regard of the palacerate of nerbora children, this is a life-long indicator of the father of the child. As is well known the decivation, Profession, politics, eto, of the father forquestly coveras the future security forest collecture, their qualities ten to enterthe CFPE, bother is istatement bearing, government pervice etc.

From my can experience in the deviet security services I

know that the Soviets will not register the name of the father if there has not been a formal marriage - even if the identity of the common-law father is known.

Birth Certificates - Actually three copies of Marina's birth certificates are furnished. ITEM #340 is a copy of her birth certificate issued on 19 July 1961, in Arkhangelsh. The other two birth certificates are contained in ITEMS 264-270. These are notarized copies of ITEM #340, notarized in MINNE. One of these later two birth certificates was procured on 4 Aug. 1961 and the second was obtained on 8 Aug. 1961. Two different notary's notarized these two birth certificates - both obtained in Minsk within a four day period. By the hand-zerting it is obvious that the same person filled out the MINSK birth certificates - only the notary's signatures

ato different Regarding all three birth certificates
the following questions should be asked of Marina:

- a) The origin of her NIKOLAYEVMA patronymic.
- b) That happened to the original of her birth certificate which she must have had in order to enter primary school, pharmacy school, and to get her presport when she reached the age of 16 in
- c) Why did she request a second copy, marked "TCVTORNAVA", of her birth certificate ITEM #349 from ARRHANGELSK? (** -
- d) ITEM #340 was issued in Arkhange at about a 1000 kilometers from MINSK. Did she travel there personally to apply for her birth certificate? Did she write for it. Tas is sent to her through the mail or did she pick it up at the Minsk militia headquarters.

What reason did she give the ARKHANGELSK militia

birth certificate. Why was she applying for this birth certificate on 19 July 1961.

e) The ITEM #340 birth certificate is supposed to be an exact duplicate of the birth certificate issued after her birth. This normally is issued several days after birth because parents do not usually rush down to register the birth of a child on the day of the birth not even in the USSR. ITEM #340 shows that MARINA's birth was registered on 14 Aug. 1941 and that she was boyn on 17 July 1941. Marina applied for copy of this certificate on 19 July 1961. For some reason the 9 in 19 July 1961, is marked over and is an obvious change of the figure 4 to a 9 in the following way 4. An examination of the original vill better skor if this was a marked over delt ---berate change. Such a change could only be signifiissued in ARKHANGELSK. Personal document conscious Soviets would note such an obvious change. Certainly if she applied for the two notacized copies of her birth certificate using ITEM #340 as a basis for these new copies she would be closely questioned and it is more than likely that notarized copies would not be issued on a marked over original. Now it might be possible that the first notary would not have noticed the marked over original. However, a second notarized birth certificate was issued in Minsk by still another notary.

4. Vancing the Contribute (feetude) in INTS (18-270)

In connection with discussion of Lamina OSTALDY, date

of birdy, it is restablished to note that this date is

- b) According to Lee OSYMD's diary, Marina was a Komsomol member. The military service bocklet, hweever, shows that she was weither a Komsomol or CaSE member. What proper explanation can because offer for this?
- c) in Section XII, "Special notes, (Osobyre Otmethi)
 of this document, it is shown that Waring was given

mayone to be ready for the military callengt the durament also shows, towerer that on diangust this notice was cancelled. One legical explanation for this might be that the cancellation was made when barina informed the commissariat of her marriage. But Mrs. OSYALD should be asked about thus, and her enswer should be noted carefully. d) Section X of this document shows that as noted alcve, Marina was registered in Minsk in Franzenskiy Rayon on 23 October 1959, whence she was deregistered on 1 August 1961; on 9 August she was registered in Leninsky Payon. Nowhere in Marina's mutobiography, the report on the FUI'm interviews of Marina or any other official papers belonging to the 05"Mily, is there may cention of the change of mysidence which allowed required this change in . registration. There is some discussion of the change

in the childless correspondence, with an indication that Pair apartness in Penazonsky Acqua was reoccupied almost as soon as the GSVALD's left. Mrs. Oswall must be asked about this move in detail. Thy lid they move. What were the exact addresses? the were their neighborst And so on. This have is all the more interesting, not because it was given to little attention in Mrs. Osmald's testismony (it seems she has offered little detailed coverage of any part of her life), but because it took place in the middle of the period in which the OSBMD's were arranging to return to the H.S. According to Lee's diary for the period, 15 July to 20 August, the CSUALD's found that they very required to have around theaty documents in order to apply for an exit visu; they submitted

tiens documents on to August and Johnson that they

11. Two locations (Installed in IT. 15 71 183). The first of those (see 11 a)) is of greaten apportance to our

evarious at the wement, hearing as it does on the discussion of percentanties in the OSUMID shot records. The reportance of the necond is yet to be proven.

a) Pertificate of revaccination (for Marian), issued by the Midsk (exact designation unclear in copy) colyclinic No. 3, 18 May 1961. Again, (see paragraph # b) above), the date does not correspond exactly: to the date of vaccination (16 May) given to Macina's International Contificate. Here also it is unlikely that an official certifying a vaccination given by someone else at an earlier date vould have mistaken the date as given on the original certificate. Then if the certifying ship's physician merely accepted the OSSAID's word for the date of the vaccinations, why did he not so indicate in the International Certificates: Now did it happen that he also accepted their word for Marina's revaccination, on a second (16 May) date? Why was he given a second date? Surely even if the Offship's had been unable to remember the exact date. They would have remembered that the vaccinations were accomplished on the same day. Then, why did Marina not return to her former place of employment (the Combined Third Clinical Mospital), for the vaccinations? Remembering that, according to the

and this destriction. The intensity fear actually were and initialized the cross day, and that there als yet a stage of it is granible to believe that Warlan had a for the June to the children's hospital and then went to Polyclade No. Is because it was alseer to that hospital. It is also possible that Marina was instructed to have the vaccinations done only at these piaces. The by whom not under what circumstances were those instructions i made. inow more than she has total include the reason for we's employment in Minsk, mather than Toscow and the reason for the difference between Lee's high pay for his unstitled labor and fer low salary. Tith regard to the latter, even til the only reason was just as Lee himself presented it. Le received a subsidy grant though the Red Cross 4- with no other considerations to be made, certainly Marina would have known of this, and, unless there were something sensitive about the subject, should not be religious, why?

her hashand's nature? Marina remarked that...he did not address politics with her er, to her knowledge with any other sections (see page 16.)" It is not remarkable that an ordinary man-on-the-street American would not discuss politics to a noticeable extent. But

It is desired and pression read the Danie Techer, depend their Costro. Study the Pussian Decrease and prepare to receive their citizenship and go to the USUR? How many return to the US to proclaim thise Markist views and hand out pro-Castro pamphlets on street corners. And to assassinate the President of the USP And how may such men, usually, most outstanding for their veciferation, are able to keep noticeably sitent on political subjects even before their gives, while spending two or three years in their "political homeland". Marina must be questioned closely about these things, just as she must be questioned closely in order to identify these "other associates" with whom the OSTALD did not discuss politics.

- KHAR'KOV of which we would know nothing were it not for the small collection of letters written to her during her stay there. Why did she make no mention of this trip, yet talk freely of her vacation trips to Leningrad, etc. What was the purpose of the trip? What other details (length; place of residence, etc.)
- 13. In brief, as indicated in the foregoing, it fis the belief of the undersigned, based on the materials made

ITEM : AEDONOR Interrogation Transcripts

1. Submitted herewith, as requested, are AEDIPPER/20's verbatim transcripts (15; English-language) of his interrogation of AEDONOR, 26 July-13 August 1955; the first five (5) of these transcripts are accompanied by the corresponding verbatim Russian-language transcripts

| | an index t | o the names m | entioned in all of | f the |
|-----------------------|--------------|---------------|--------------------|---------|
| transcripts also is s | ubmitted. F | urther, the o | riginal English-1: | nguage |
| transcripts (15), wit | h correction | s, are being | returned to Headqu | arters |
| with this memo; | | correspondin | g tape recordings | already |
| have been returned. | | | | |

- 2. With regard to the renainder of the original Headquarters request, it has been agreed that AEDIPPER/20's transcripts are self-explanatory at most points and that his background comments on the course and content of the interrogation will be reserved, to be addressed to any future specific questions and requirements generated in Headquarters review of those transcripts.
- 3. It should be noted here, however in view of part three (3) of Headquarters' request that AEDIPPER/20 did not use false or unfounded statements for any reason in any of the interrogation sessions; it is believed possible that ideas to the contrary may have arisen during review of the original transcripts, which included many instances of improper interpretation of the Russian "double negative". Reviewing the interrogation, AEDIPPER/20 noted only two (2) points at which he did not have a basis in detailed personal knowledge (to 1954) or specific documents for statements made to AEDCHOR:
- a. HRPs (Morskoy Bazvedyvatel'nyy Punkt Navy Intelligence Point) AEDIPPER/20 stated that at the time AEDONOR was assigned to duty with an MRP on the Baltic other MRPs also were in operation in that area; in fact, although AEDIPPER/20 knows that other MRPs were in operation there, he has no knowledge of their specific designations.

 APPROVED FOR RELEASE 1994

 CIA HISTORICAL REVIEW PROGRAM

BYBB ONLY

- b. Letter on KRUGLOV's Removal AEDIPPER/20's statement that a letter explaining KRUGLOV's removal had been circulated within State Security was based upon personal knowledge, not of the fact itself, but of the State Security practice always of circulating such letters following the removal of other State Security chiefs, such as ADAKUMOV and BERIYA.
- 4. AEDIPPER/20's English-language transcripts employ the following key (not repeated in the transcripts):
 - a. A AEDIPPER/20;
 - b. B AEDONOR;
 - C. C T. H. BAGLEY
- d. () Single sets of parentheses enclose transliterations or, in case of
- e. (2G), (XG), (XM) indicate a number of missing or garbled or otherwise "unreadable" words;
- f. (()) Double sets of parentheses enclose transcriber/
 translator remarks, explanations, etc., in addition to/not part of
 interrogation content;
 - g. (? ?) Queried transcriptions are thus indicated;
- h. ... Ellipses indicate either a brief pause in speech or an unfinished sentence, not omitted or "unreadable" phrases;
- i. ___ Underlines, except in cases of book and periodical titles, indicate emphasis in speech.
- however, there has been some "emelioration" of the few obscenities found therein.
