OPHA-3513

Chief, W.

28-6-2

Chief of Station, [redacted]

29 August 1958

Station/Operations -- Survey of Official and Overt Activities of Soviet Officials.

None, for information only.

ME Field Notice No. 285, 26 May 1958

REF ID: A6540

1. In reply to the referenced Field Notice, we cite the following instances (of which [redacted] has knowledge) of Soviet efforts to establish official and social contact and personal rapport with local government officials, political leaders, and persons in the fields of economics, science, technology, labor relations, cultural matters, etc. Included also are some instances of Soviet contacts with VACO DEE/1 representatives in Helsinki. According to VACO DEE/1, Soviet efforts to cultivate local citizens noticeably increased during 1956-57, and have continued since that time. In July 1958 VACO DEE/1 gave Pusiolta a long lecture on recent changes in local Soviet social practices. He said in brief that the Soviets since approximately mid-1957 have been coming more and more out of social isolation and making social contacts somewhat in the manner of Westerners; they rent summer and winter cottages outside of Helsinki and invite individual Pines or small groups out for an evening featuring innocuous conversation and drinking. The Soviets try to keep the Pines they are cultivating on a social merry-go-round, i.e., they try to make the Pines socially indebted and then another them with further invitations, free tickets, etc., which are hard to turn down. All this makes the VACO DEE/1 work of keeping track of Soviet espionage much more difficult. [redacted] is trying to get more detailed information from the VACO DEE/1.

2. In the fall of 1956, Mikhail Grigoryevich KOTOV<sup>†</sup> ([redacted] indicates known RIS), Counselor of the Soviet Embassy, invited VALUTOR/1 to a private dinner after having met VALUTOR/1 at an official reception at the Soviet Embassy.

3. Ivan S. SEMENOV<sup>†</sup>, Soviet Counsel in Helsinki from 1956 until 1957, occasionally had lunch with VACO DEE/1, and some officers of the [redacted] (separately). On at least one occasion, Yuri N. VORONIN<sup>†</sup> was present at a lunch including [redacted] personnel.

4. Yuri N. VORONIN<sup>†</sup> maintained social contact with Sherman C. Torreyson from early 1956 until August 1958.

5. Victor P. GULIKOV<sup>†</sup>, Third Secretary at the Soviet Embassy, has tried to gain membership in the Western Foreign Press Club (WFC) but was refused. He has cultivated various members of the WFC through invitations to lunch. These include Joseph S. Tiffany and Boris VOLKOV<sup>†</sup>, no Italian newspaperman. He also occasionally entertains VALU/1.

6. Grigory Ye GOLOB<sup>†</sup>, Soviet Counsel who replaced I. E. SEMENOV, joined the Helsinki Commercial Corps, which had previously had no Sino-Soviet bloc representatives, in the fall of 1957. Since the Commercial Corps is not specifically a "Western" body, the Corps had no valid reason to refuse his entry. As far as is known, no other Sino-Soviet Bloc representative have followed GOLOB into the Corps.

7. During 1958, VALUTOR/1 has had several negotiations with the Soviet Commercial Mission in Helsinki regarding Soviet purchases of soap-making machinery and soap. VALUTOR/1 has also visited Leningrad in connection with these negotiations and plans to visit Moscow for further talks.

8. VACO DEE/1 has sent a Finnish medical student to study in the USSR. In return, the Soviets intend to send three medical students on short visits to Finland. Many categories of persons in the fields of science, technology, construction work, and agriculture (both Finnish and Soviet) will visit each other's country within the framework of the Fanno-Soviet Technical and

**Scientific Collaboration Agreement. (See CRTF-2404).**

b. Numerous contacts have taken place between COMINT, COMINT, COMINT representatives and their Soviet counterparts. Most of these have been reported to their Headquarters and are presumably available to KUMARK Headquarters.

i. VANITY/3 and VANITY/1 frequently receive invitations to Soviet cocktail parties and other official functions. VANITY/3 has occasionally attended them, particularly those having some connection with the Finland-Soviet Union Society. VANITY/1 has attended less frequently since he prefers to avoid the cocktail circuit.

J. VIKTOR M. VLADIMIROV, according to the VACCDHEM, was spotted in early 1966 picking up an unidentified Social Democratic member of the Diet in a covert manner and later letting him out of the car in an isolated spot. We have not been able to identify the Social Democrat, but the VACCDHEM spoke to him and even though he claimed that his association was innocent, the VACCDHEM strongly admonished him to stay away from the Soviets.

k. We were also advised by VACCINE/8 that the present secretary of the Finnish People's Party and former Minister of Defense Pekka VALINTIINEN gave V. N. VLADIMIROV some American maps after returning from an ASKA trip to the United States. VARIATION/1 reported that VLADIMIROV had known MALINEN. VALINTIINEN/8 has said that VLADIMIROV seems to be especially interested in the Finnish Reserve Officer Association.

1. V. M. VLADIMIROV has also made attempts to cultivate the Time/Life correspondent here, LENSLET KRYUCHKOV. Similarly, V. N. VOLONIN tried to cultivate Donald DAY, an expatriate American Journalist here, to the extent that VOLONIN offered DAY an expense-paid trip to Riga, Latvia. DAY refused.

m. Ambassador LEBEDEV and Counsellor ETOV<sup>+</sup> in 1955 and 1956 had several luncheons with leading Social Democrats such as LEKHDEV and SING. In late 1957 and so far in 1958, there has been no such luncheons or invitations by the Soviets to high members of the Social Democratic Party (as opposed to the Simonists), according to VAULT/4.

M. Y. N. VONNEU<sup>1</sup>, who has been identified in the VAQUERO operation as a KGB officer specializing in American and British contacts, also maintains contacts with leaders of Helsinki ballet and theater circles (his wife is a former ballet dancer of Hungarian ancestry) and occasionally has liaison with the Finnish-Soviet Friendship Society.

2. The Soviets have numerous advantages for operating in Finland. Some of their principal advantages are:

a. A larger staff of representatives than any other country; a larger staff than either of the Finnish security services trying to keep track of them.

b. Ownership of seventy buildings or apartments in Helsinki alone.

#### e. A large indigenous Communist Party.

4. They own a large business firm which has gas stations in almost every Finnish hamlet, namely, Trusti Vaasan Bensiini.

e. Lack of defensive audio-surveillance equipment and know-how on the part of the Finnish security services.

f. The longest common border with any Western European country; this border is not heavily guarded on the Finnish side.

g. Soviet officials stationed in many cities aside from Malainki.

#### **h. The Finns' weakness for alcohol.**

i. Case officers who specialize in various strata of Finnish society, as opposed to mimisca Western country staffs which do not have time or man power to specialize.

CONTINUATION OF  
DISPATCH

OPHA-3413

- j. The largest number of tourists transiting Finland in both directions.
- k. A cultural, scientific and technical collaboration agreement for cover of intelligence operations.
- l. Large numbers of Finns either working on hydroelectric stations in the Soviet Union or going to Leningrad and Moscow as tourists. This furnishes excellent cover for spotting, assessing, recruiting and other operational activities.

Oliver P. Hallmark

Malvin F. Pendleton

## ADDITIONS: (add to end of paragraph 2)

m. Two Soviets who have been quietly asked to leave Finland were KGB officers who were brazenly propositioning several Finnish citizens upon very short acquaintance and who made very little effort to hide the fact that they were interested in espionage against Finland. Furthermore, virtually no Soviet agents who have had direct contact with Soviet case officers in Finland have been arrested and prosecuted. Those Finns prone to work for the Soviets and Soviet case officers themselves have very little to fear from Finnish law enforcement bodies as long as they are not too brazen in their activities.
