#### 1. PURPOSE

This instruction describes the functions of headquarters components with regard to covert approvals and related matters which are the subject of CSI-F No. 10-5.

#### 2. GENERAL

- a. The Chief, Counter Intelligence Staff, is delegated authority to act for the Deputy Director (Plans) in the exercise of all functions which are the latter's responsibility with regard to the granting of Operational Approvals and Provisional Operational Approvals.
- b. The Director of Security has designated the Deputy Director for Investigations and Operational Support, Office of Security, to represent him in discharging the functions which are reserved to him with regard to the granting of Covert Security Approvals, Provisional Covert Security Approvals, Proprietary Approvals.
  Proprietary Approvals, and Provisional Proprietary Approvals.
- c. it is the basic intent of both components that sensitive operational data shall remain within the custody and knowledge of the Clandestine Services, and that sensitive security investigative data shall remain in the custody and knowledge of the Office of Security. It is recognized, however, that such data may be necessary for proper performance by either component and, consequently, where necessary, it shall be made available or shall be discussed to the extent necessary.

#### 3. INVESTIGATIONS

The function of performing all investigations in the United States in connection with approval matters, except for the check of certain Agency records, is reserved to the Office of Security.

#### 4. OPERATIONAL APPROVALS

- a. The assembly and analysis of all file material (including the files of the Records Integration Division) in the Clandestine Services will be accomplished by professional personnel of the interested operating divisions under the technical supervision of the Counter Intelligence Staff and subject to spot check by the Counter Intelligence Staff. Certification will be made in each case by a responsible official of the requesting division that the material furnished is complete and accurate.
- b. The requesting division will assemble any biographical data; information of investigative or security significance (such as additional names the subject may have used); information relating to character, reputation, politics, or other activities, favorable and unfavorable information or comments; background information; PRQ Part to the equivalent (in duplicate); and field traces. Any information previously furnished by the subject concerning himself (such the personal history statement, records of activities or employments) memberships in organizations, etc.) will be furnished verbating that perfitest information thus produced—including that resulting from ecoholical interrogations, personal observation, field investigations, etc.—will be furnished to the Counter Intelligence Staff for necessary transmission to the Office of Security. It is also necessary to forward PRQ Part II to the Office of Security. In rare, complicated, or sensitive cases the Office of Security, in coordination with the Counter Intelligence Staff, may wish actually to review the material of the Records Integration Division. A brief practical statement of the scope, nature, and geographical area of the proposed usage of the subject will be furnished to the Office of Security along with the other data.
- c. The requester should also furnish to the Counter Intelligence Staff for transmission to the Office of Security any suggestions regarding the investigation to be conducted and any particular points to be emphasized in the investigation, such as special skills, abilities, and weaknesses of the subject. The requester should also indicate what would be the most plausible type of cover (i. e., general Government or commercial) to be employed in the conduct of the investigation and whether the subject has been briefed as to the fact of a pending investigation and, if not, why this is not feasible.
- d. Following appropriate investigation and analysis of a case, the Office of Security will forward its recommendation to the Counter Intelligence Staff, with the investigative data enclosed. Upon receipt of this material

the Chief, Counter Intelligence Staff, or his designee, will, if the Office of Security does not recommend against the use of the individual, determine whether an Operational Approval should be granted and will notify the Office of Security of its decision. However, in the event the Office of Security recommends against the use of an individual and the Clandestine Services still desires, on a calculated risk basis, to use the individual, the Counter Intelligence Staff will inform the Office of Security of this fact. In this event, the Counter Intelligence Staff and the Security Support Division will endeavor to arrive at an agreed position and, to this end, the former will hold the granting of the Operational Approval in abeyance until five days have elapsed after the Office of Security has been advised of this intention. The Counter Intelligence Staff will be Office of Security whenever it has:

- (1) Granted an Operational Approval or a Provisional Operational Approval.
- (2) Cancelled an Operational Approval.
- e. In Operational Approval cases the Office of Security will forward investigative reports, name check results, etc., to the Counter Intelligence Staff. In extremely sensitive cases, however, particularly those in which the security or good of the Agency as a whole is involved, the Office of Security will not be obliged to furnish all investigative material. In such cases the Office of Security will inform the Counter Intelligence Staff that such material has been withheld and will, upon request, discuss the matter with the Chief, Counter Intelligence Staff, or other appropriate official of the Clandestine Services.
- f. A Provisional Operational Approval may also be requested where circumstances warrant. A search of the indices of the Agency, including those of the Office of Security, is a minimum requirement for issuance of a Provisional Operational Approval.
- g. Whenever interest in an individual under consideration for either an Operational Approval or a Provisional Operational Approval is terminated for any reason, the requester, in order to prevent needless processing, will notify the Counter Intelligence Staff promptly so that the latter may in turn advise the Office of Security.

## 5. COVERT SECURITY APPROVALS AND PROPRIETARY APPROVALS

a. All background material will be assembled by the interested divisions and will include any biographic data; information of an investigative or security significance; information-relating to character, reputation, politics, past employment, residences, and other activities; favorable and unfavorable information; PRQ Part I or its equivalent (in duplicate); and field traces. This material is forwarded directly to the Office of Security In its original form. (Traces need not be obtained from the Records Integration Division; see paragraph 5.b., below.) A brief practical statement of the scope, nature, and geographical area of use of the subject will also

be furnished to the Office of Security. The requester should also furnish to the Office of Security any suggestions regarding the investigation to be conducted and any particular points to be emphasized in the investigation, such as, special skills, abilities, and weaknesses of the subject. The requester should also indicate what would be the most plausible type of cover (i. e., Government or commercial) to be employed in the conduct of the investigation and whether the subject has been briefed as to the fact of a pending investigation and, # not, why this is not feasible.

- b. In Covert Security Approval or Proprietary Approval cases, the files of the Records Integration Division will be searched by representatives of the Office of Security. All files of the Records Integration Division, except those portions containing specific sensitive operational data, will be made available to the representatives of the Office of Security. In those instances where a document of interest contains sensitive operational data, designated professional personnel within the operating division will review that portion of the information and furnish therefrom to the representatives of the Office of Security all information of the nature described in paragraph 5.a., above. The Office of Security will conduct appropriate investigation in each case and will issue or deny Covert Security Approvals and Proprietary Approvals, and Provisional Covert Security Approvals and Provisional Proprietary Approvals.
- c. The Office of Security will retain the investigative files in Covert Security Approval cases or Proprietary Approval cases, but will:
  - (1) Make available to the Counter Intelligence Staff any significant information in cases where towert Security Approvals or Proprietary Approvals are granted.
  - (2) Immediately call to the attention of the Counter Intelligence Staff any new evidence in Covert Security Approval or Proprietary Approval cases that reflects the subject's connection with a foreign government, the Communist Party, or any front organization of the Communist Party.
- d. Where the Office of Security issues or denies a Covert Security Approval or a Proprietary Approval, formal notification will be directed to the requester. In the case of disapproval one copy of the security disapproval will be forwarded to the Counter Intelligence Staff. Where a Covert Security Approval or Proprietary Approval is denied and the Clandestine Services still desires to use the subject on a calculated risk basis, the Office of Security will, upon request, furnish to the Counter Intelligence Staff a summary of the investigative data. Thereafter, the Counter Intelligence Staff, the requester, and the Security Support Division will attempt to reach an agreed position.
- e. A Covert Security Approval or a Proprietary Approval may be preceded by a Provisional Covert Security Approval or a Provisional Proprietary Approval.

f. Unless otherwise designated by the Office of Security, investigative data in either Operational Approval or Covert Security Approval cases involving aliens may be shown to proper offices of the division and may, if deemed necessary by the division, be forwarded to the field. The dispatch or cable in such cases will be coordinated with the Counter Intelligence Staff and the Office of Security. No investigative data will be transmitted or disclosed to other than Agency staff officials without the specific prior approval of the Office of Security. The need-to-know principle will be applied strictly in such cases. No investigative data regarding United States citizens will be transmitted to the field without the specific prior approval of the Counter Intelligence Staff and the Director of Security and subsequent to such approval without coordination with the Office of Security on the dispatch or cable involved.

#### OVERT SECURITY APPROVALS FOR LIAISON WITH UNITED STATES OFFICIALS

Requests for Covert Security Approvals for Liaison with H. S. officials, whether such officials are in the United States or abroad, will be transmitted directly to the Office of Security. Each request shall be specifically indicated as a request for a Covert Security approval for Liaison. The request shall be accompanied by all available biographic information, to include wherever possible in cases of civilian employees of United States Government agencies the name, date and place of birth, the employing agency, and the position and assignment of the person involved. In cases involving military personnel the minimum biographic information required shall consist of the name, date and place of birth, rank and serial number, and the parent service. In each case the details of the liaison with the individual must be set forth.

Requests for clearance will be forwarded to the Chief, Counter Intelligence Staff, Attention: CI/Liaison. Clearance will not be given until the approval of the parent agency has been obtained. If, after such approval is obtained, it is decided that the employee will not be used as requested, or upon termination of use, CI/Liaison will be notified so that the employee's parent agency may be advised.

9. EMPLOYEES AND OFFICIALS OF FOREIGN SERVICES

DDO INSTRUCTION NO. 50-10

OPERATIONS-GENERAL 4 September 1973

# RESTRICTIONS ON OPERATIONAL USE OF CERTAIN CATEGORIES OF INDIVIDUALS

Rescission: CSI 50-10, 13 July 1970

#### 1. GENERAL

- a. Elemental in the conduct of clandestine operations is the use of human agents to accomplish the missions of the Operations Directorate. In general, it is DDO policy to select agent assets with primary regard to the agents' abilities, target access, and security, and with few restrictions as to their origins, professions or status as members of particular groups. The basic rule is that any consenting adult may be used by the Operations Directorate. There are, however, certain sensitive categories of individuals or groups whose operational use by the Operations Directorate is prohibited or in some way restricted for reasons not necessarily related to security considerations.
- b. These prohibitions or restrictions stem from one of the following:
  - (1) The Agency has been directed by U.S. Covernmental authority to restrict or avoid the operational use of a particular category of individuals.
  - (2) The Agency has entered into a special restrictive agreement with an organization, government, corporation, or official responsible for a category of individuals
  - (3) The Director or the Deputy Director for Operations has imposed restrictions on the operational use of a certain category of individuals due to the extreme risk or sensitivity of such exploitation.

## 2. PURPOSE

The purpose of this instruction is to set forth the prohibitions and policy restrictions (as distinguished from security restrictions) which currently pertain to the operational use of various categories of individuals, together with the special approval procedures to be followed in certain cases. Where appropriate, reference has been made to another publication which provides more detailed guidance than has been attempted in this instruction. The special approval procedures set forth in this instruction do not supersede or alter in any way the requirements for covert approvals contained in DOI and DOI-F 10-5.

#### 3. DEFINITIONS

Within the context of this instruction, the definitions listed below will apply. Special note must be taken of the fact that the key term "operational use" employed throughout this instruction has been defined in the most succinct manner consistent with clarity. It has not been feasible, however, to cover in a definition the entire scope of possible variations in operational circumstances which may be encountered in DDO activities. The definition of "operational use" is intended to provide guidance for the majority of cases, and must be employed with responsible operational judgment. Issues involving a determination of "operational use" which cannot be resolved with reasonable assurance by the responsible operating components will be referred to the Deputy Director for Operations for decision.

#### a. Operational Use

Operational use is interpreted to mean the recruitment, utilization, or training of any individual or group for DDO purposes on either a witting or unwitting basis by or on the behalf of an element of the Operations Directorate. Utilization is made of an individual or group whenever that individual or group, responding to the direction or solicitation of a DDO element, provides information, performs services, provides cover, or supplies financial, material, or other support necessary for the accomplishment of DDO operational objectives either directly or indirectly, to or for an element of the Operations Directorate.

## b. DDO Element

Any person or group who or which is responsible to, owned or controlled either directly or indirectly by the Operations Directorate. Included under this definition are employees or members of Agency proprietary mechanisms.

### c. Operational Contact

Any association having as its purpose the initiation or furtherance of DDO operations.

#### 4. RESTRICTIONS ON OPERATIONAL USE

a. Restrictions on the operational use of individuals or groups are of four types and cover twenty five separate categories as outlined below and as described in greater detail in paragraphs 5 through 8 of this instruction:

Operational Use is Prohibited (see paragraph 5):  (a) Members and trainees of 99

Approval by the Deputy Director for Operations for the operational use of any individual who falls into one of the categories described in this paragraph will be requested by memorandum. The individual's covert approval status will be described in the memorandum to the Deputy Director for Operations, together with a concise explanation of the intended operational use. a. GENERAL. There are two categories of contract personnel: contract employees and independent contractors.

They receive only the compensation and benefits considered necessary to retain their services. In the Operations Directorate, their duties are normally limited to historical research and analysis and to the direction, utilization, spotting, or support of agents. PERSONNEL

HR 20-55c

- (2) The Director of Personnel will ascertain whether any staff or nonstaff personnel are available to perform the needed services. If not, he will examine the feasibility of satisfying the requirement by hiring new personnel. If this latter course of action also proves impracticable, the Director of Personnel will approve the proposal and return it either to the Office of Logistics or to the originator for subsequent submission of a contract request to the appropriate procurement unit. Procurement contracts are written under the authority of the Director of Logistics as stated in HR 45-2
- (3) The approval of the Director of Personnel is not required
  - (a) for procurement contracts involving the services of individuals incidental to research and development or the preparation of studies or reports, where the fee reflects an end product (a report written, a task performed, etc.) rather than a computation based mainly on time (per hour, per man year);
  - (b) for procurement contracts involving the purchase of equipment which requires the services of experts or technicians in delivery, installation, testing, initial operation or maintenance, training, etc. However, any follow-on contract for services only such as maintenance or operation—requires the Director of Personnel's prior approval as set forth above.

## c. RESTRICTIONS

- (1) Operating Officials are responsible for monitoring all personnel acquired through these procedures. Operating Officials are required to advise appropriate offices at any time the relationship or use of such individuals is subject to a change which affects the terms of their contractual arrangements, their status, or security clearances.
- (2) Technical representatives and other types of personnel engaged under procurement contracts or other agreements which do not create a direct employer-employee relationship are prohibited by law from holding formal organizational positions or positions requiring the exercise of any administrative authority. They are also prohibited from formally representing the Agency in meetings with representatives of other Government agencies, private industry, or foreign governments or industries.
