Gentlemen:

I have just read in the San Francisco Chronicle of February 25, 1987, that your agency is providing various types of information re the UFO sighting by the JAL pilot, Captain Kenjya Terauchi.

Please send me a copy of the FAA form summarizing the sighting. I understand, because this is under \$5, that it is free. I would also appreciate any other free items.

Would you also send a price list for the 20 individual items you are offering re this event.

Thank you for your courtesy.

Very truly yours,

Carol Keast

Dear Mr. Leyden,

I am writing in regard to the alleged unidentified flying object incident that occurred last November over Alaska as reported by Captain Kenjyu Teruchi of Japan Air Lines.

Could I receive a copy of the results of the FAA investigation into this matter; and also a copy of the conversations concerning the sighting between the pilot and the ground controllers.

Also, how do you explain the radar images that the ground controllers reported?

Thank you.

Yours truly,
Timothy Sernick

Dear Sir or Madame:

Please send me as much information as you can concerning the unidentified flying object sighting made by the JAL pilot Kenju Terauchi and his crew on Nov. 17, 1986. The papers reported very little about it. I would like to know as much about the incident as you can tell me. Thank you for your cooperation.

Dear Mr. Wood:

This is in response to your letter requesting documentation about the JAL pilot Kenju Terauchi incident on November 17, 1986, and the Korean Air Lines flight 007 disaster on September 1, 1983.

I am sending you our order form of materials concerning the JAL incident so that you can select the particular items that you need.

Since the Korean flight 007 was outside of USS. air traffic control area when the disaster occurred, the records and documentation that we have may not be of use to you. If you can be more specific about what you want, we will see if we have it.

I've enclosed a page from the New York Daily News of January 6th, 1987 describing in an Associated Press article an incident involving a UFO sighting by a Japanese pilot which may have also been tracked on radar. I understand that the pilot was to be interviewed by the FAA, according to the article, for a second time.

As the newspaper article factual as reported and could you possibly furnish me with a summarized account of the FAA's interview with the pilot the second time? Hoping to hear from you at your convenience, I am

U.S. Is Selling Kits On UFO Sighting

Anchorage

If you want an inside look at a Japan Air Lines pilot's recent claim that he saw a UFO, the Federal Aviation Administration will send you everything you ever wanted to know about the case for \$194.30.

The complete package includes tapes of interviews with crew members, spaceship drawings by the JAL pilot and air controller statements, even four glossy color photos of regenerated radar data.

The unusual FAA mail-order offer is an attempt to cope with enormous public interest in the November sighting, said spokesman Paul Steucke.

Since the pilot's claim was publicly disclosed, the FAA's Anchorage office has received information requests from more than 200 members of the press, as well as 46 requests from individuals.

For those on tight budgets, the FAA's UFO package can be broken down. The agency is offering 20 individual items, ranging from a \$50 cassette tape of communications between the controllers and the flight crew to a 30-cent copy of an FAA form summarizing the sighting. Or-

ders of less than \$5 are free. ?

"We wanted to be as responsive as we can to the public. We don't want them to spend \$100 for data they don't need," Steucke said.

JAL Captain Kenjyu Terauchi reported on November 17 that his Boeing 747 cargo jet was shadowed by two belts of light as it crossed into Alaska airspace on a flight from Iceland to Anchorage.

In an encounter that lasted about 50 minutes, Terauchi also reported seeing a third aircraft, a huge spaceship that he said was the size of two aircraft carriers. He radioed the sighting to Anchorage FAA flight controllers, who saw what they thought was an object on their radar screens.

The objects, Terauchi said, "were not made by humankind. They were of a very high intelligence."

Philip J. Klass, an editor with Aviation Week and Space Technology and a longtime investigator of claimed sightings of unidentified flying objects, has investigated the incident and concluded that the pilot was actually seeing an unusually bright image of the planet Jupiter

To Whom it may Concern:

I was fortunate enough to hear Paul Harvey
on the radio on this date.

He stated that there was a very large object
sighted in flight, in the North Pacific area,
and anyone that may be interested in the report,
can get the information by requesting it.

I would like to hear from you as to what I
need to do to receive it.

Thank you very much

Dear FAA Folks:

A local radio broadcast mentioned an incident which involved two Japanese airline pilots and a relatively lengthy UFO sighting. It said that there was much conversation recorded about this incident and that transcripts and/or tapes were available. I'd appreciate your sending information about what materials are available as well as the cost of obtaining these materials. Please send the information to:

Dear Sir,

Please send me any information on a Commercial airlines report, to your office on a UFO sighting by the crew & passengers of this flight. Paul Hawry on March 5 at 12:30 PM news cast stated the size of the UFO was as large as two Aircraft Carriers! He also stated that your Anchorage office would supply pictures & information on this sighting & report on request. If there is a fee for this service please advise as to the amount I may send you a check for the amount.

Sincerely,
