## Epstein Procurer Ghislaine Maxwell's 1986 Frontpage Political Sex Scandal

Submitted by [leveymg](#) on Sun, 07/14/2019 - 1:29pm

Despite her 30 year career in political *kompromat* operations, the FBI and major media have ignored Ghislaine Maxwell. Here's where she got her start, as detailed in 1986 on Page One of one of her father's tabloids. Complete with canes and British school boys:

## Maxwell threatened over spanking M.P.

**ASTONISHING** threats have been made to The People and to publisher Robert Maxwell following our exposure of spanking MP Harvey "Whacko" Proctor.

A sinister 'phone caller said that if we continued with our "campaign" against the kinky MP he would reveal compromising details of an alleged relationship between Mr Maxwell's daughter Ghislaine and the son of a Duke.

The anonymous male caller, who tried to get through to Mr Maxwell, told his receptionist:

"I will produce a story about Ghislaine and Lord Granby at Belvoir castle with incriminating pictures of them in compromising positions..."

He threatened "other dire consequences."

Last night Mr Maxwell said: "He was told in no uncertain terms to get lost."

"The People and its publisher will not be frightened."

The 24-year-old Marquis of Rutland, who is the Duke of Rutland, said last night: "I find all this stuff about Ghislaine Maxwell is a very dear friend to me and that's as far as it goes."

Of the caller's claim that he had incriminating pictures showing the peer with 23-year-old Miss Maxwell, the Marquis said: "That is a lot of nonsense—a load of rubbish. Our friendship is purely innocent."

Ghislaine comes to our family home in London for drinks sometimes, and we have had dinner together. So what?

There is NO suggestion that the blackmail call was made or instigated by Mr Proctor.

The Tory MP for Bultericay said at his home in Fulham last night: "I know nothing about it at all. I would describe this kind of threat as absolutely disgraceful."

"I have no idea who would do anything like that. It has nothing to do with me. I have nothing more to say."

The People's investigation into Proctor's sex life began in June, when homosexual David Jackson came to us with allegations about his affair with Tory MP Jackson also produced a number of obscene photographs of naked boys which he claimed had been taken by Proctor after he had beaten them with a cane, a slipper and his hand.

Proctor, confronted by the People, confirmed the photographs had been taken in his Pullman flat and that Jackson had stayed at his flat. But he strongly denied allegations of beating boys in sex fantasy games in which he played the role of headmaster.

At a recent meeting of the Bultericay Conservative Association senior executive council members remained in protest after Proctor was given a vote of support.

On the basis of our evidence, Scotland Yard's Serious Crimes Squad is now conducting its own investigation.

On October 12, The People ran a leader saying Proctor was not fit to remain an MP.

It concluded: "IN THE NAME OF GOD, GO!"

DAUGHTER GHISLAINE: She's a very dear friend, said the Marquis.

For decades, the US and UK governments knew about Epstein and Maxwell's sexual *kompromat* operations. Maxwell and her famous father, it turns out, have made them a family business. But, the FBI and Scotland Yard did nothing to stop them. Why? For background details about Robert and Ghislaine Maxwell - SEE FULL REPORT: <https://caucus99percent.com/content/epstein-turned-informant-muellers-fb...>

As was previously reported:

In 1996,

the FBI failed to act on an accusation that they had together sexually abused a 15 year old girl and her older sister. Documents in a recent law suit filed by an alleged victim, Maria Farmer, show that the FBI had been aware of Epstein and Maxwell's child abuse activities in New York and other states for at least a dozen years before Epstein was finally prosecuted in 2008 under much-reduced Florida state offenses.

[UPDATE: A WSJ report of July 11 states that the 1996 assault of Maria Farmer by Epstein and Maxwell occurred at the Ohio residence of Mr. Leslie Wexler, Epstein's long-time financial backer.

For her own part, Maxwell, who has been largely overlooked in U.S. reporting, was granted immunity from prosecution as part of Epstein's prosecution deal. Ghislaine Maxwell was all but ignored by the U.S. Attorney and prosecutors in previous criminal proceedings.

According to the Journal, Maxwell wasn't named in Epstein's 2008 plea deal with the US Attorney, while four other women were identified as potential co-conspirators. Until recently, her identity and key role as organizer of paedophilia rings has also been systematically obfuscated by the U.S. media, which has repeatedly spiked stories in which she played the role as initiator of the pair's sexual contact with underage girls.

It turns out that Ghislaine Maxwell and her late father have a spectacular past and family history as players or publicists in political sex scandals that has gone altogether ignored by the U.S. media.

### **Here is some additional background and new details.**

For years the rape of the Farmer sisters and the larger child sex scandal was publicly ignored by the authorities and the media. A story intended to expose it in *Vanity Fair* was spiked by the editor. According to reporter Vicky Ward:

<https://www.thedailybeast.com/jeffrey-epsteins-sick-story-played-out-for...>

I spent many months on his trail in 2002 for *Vanity Fair* and discovered not only that he was not who he claimed to be professionally, but also that he had allegedly assaulted two young sisters, one of whom had been underage at the time. Very bravely, they were prepared to go on the record. They were afraid he'd use all his influence to discredit them—and their fear turned out to be legitimate.

As the article was being readied for publication, Epstein made a visit to the office of *Vanity Fair*'s then-editor, Graydon Carter, and suddenly the women and their allegations were removed from the article. "He's sensitive about the young women," Carter told me at the time.

Not until after the Court of Appeals formally unsealed the civil court records in a separate civil case, have details about Maxwell and the Farmer sisters started to reemerge. Maxwell has generally been portrayed in press accounts as Epstein's helper or "madam".

The WSJ also omits reference to specific allegations of the pair's sexual act with the 15 year old sister in New Mexico (a significant omission), it corroborates that a report was made by Maria Farmer to the FBI and the NYPD. The July 11 article, "Following Epstein's Arrest, Spotlight Shifts to Financier's Longtime Associate" also fails to mention Robert Maxwell's criminal past and his espionage ties to Israel, identifying him only as a "British media baron."

In reality, Ghislaine Maxwell has a known family history of public entanglement with political sex scandals that goes back to the mid-1980s.

An extraordinary 1986 front-page British tabloid story in a British tabloid claimed that Ghislaine, then 23, had an been caught in compromising photos of herself with the son of the Duke of Rutland. Those photos were allegedly held out as blackmail or retaliation for the tabloid's "investigation" of a relationship between a Conservative Member of Parliament, David Proctor, reportedly involving photos taken of him with naked boys whom the MP had beaten with a cane. All very byzantine and English public school kinky. Extraordinarily, *The People* tabloid was controlled by the Mirror press syndicate, owned by Ghislaine's father, Robert Maxwell, whose picture appears on the masthead above his daughter's Page One photo.

Robert Maxwell was himself a Member of Parliament for the opposing Labour Party . . . and, as cited in yesterday's essay, the CIA acknowledged after his death,

That Robert Maxwell was a ruthless, corrupt, tax-dodging international businessman who served as an Israeli agent is highly probable.

As a propagandist, entrapment artist, and character assassin, he was without peer, even among the seamy British tabloids. Talk about a talent for spinning a story and flipping the narrative . . . extraordinary. Very Old School.
