Jeffrey,

Thanks again for your intro.

No response, so far, from Richard Merkin.

Thanks for the introduction. I believe that you both were interested in our disruptive technologies (precise, fast and inexpensive) for human genome (and microbiome) engineering -- especially in the context of our PGP biobank human stem cell samples -- which we (& NIST + FDA, genomeinabottle.org) feel are the only ones in the world properly consented for broad commercial use. [REDACTED] be delighted to discuss this and other projects (e.g. the BRAIN Innovative Neurotech Project that we recently initiated) in more detail -- if [REDACTED] like, Meghan ([REDACTED]) can help with scheduling, etc.
