"About six months ago, a blogpost by "Publius Tacitus" appeared regarding attorney Ty Clevenger's FOIA request regarding Seth Rich:

"But now there is new information that may corroborate what the human sources quoted in the Fox article claimed about Seth's role in getting the DNC documents to Wikileaks. Borne from a FOIA request filed in November 2017 by attorney Ty Clevenger, who requested any information regarding Seth Rich and Julian Assange. The NSA informed Clevenger in a letter dated 4 October 2018 that:

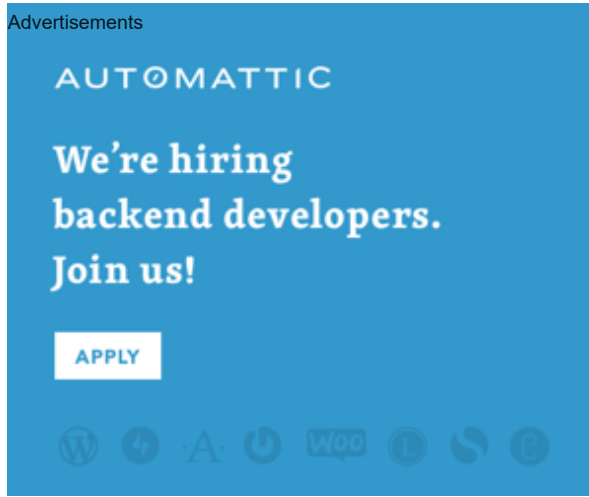

Your request has been processed under the provisions of the FOIA. Fifteen documents (32 pages) responsive to your request have been reviewed by this Agency as required by the FOIA and have found to be currently and properly classified in accordance with Executive Order 13526. These documents meet the criteria for classification as set forth in Subparagraph © of Section 1.4 and remains classified TOP SECRET and SECRET."

Here's what Binney says:

"Ty Clevenger has FOIAed information from NSA asking for any data that involved both Seth Rich and also Julian Assange. And they responded by saying we've got 15 files, 32 pages, but they're all classified in accordance with executive order 13526 covering classification, and therefore you can't have them.

That says that NSA has records of communications between Seth Rich and Julian Assange. I mean, that's the only business that NSA is in — copying communications between people and devices.

If Binney is interpreting this correctly — and bear in mind that, not only is he extraordinarily bright, but he is sometimes referred to as "the father of the NSA" — this provides strong support for the hypothesis that Seth was indeed Wikileaks' source for the DNC emails it published. Assange has strongly hinted at this, Sy Hersh claims to have a trusted informant inside the FBI who states that he has seen FBI documents verifying this, and Binney himself says that he has two sources inside the intel community vouching for this."

If you watch Crowd Source The Truth here on Youtube, John Michael Dougan a former Florida Sheriff set up the server for Seth Rich. He fled to Russia in Exile after the FBI launched a warrant for his arrest in Debbie Wasserman Shultz district. He set up the server for DC LEAKS. He drove and met Seth Rich at a park across from a High School and personally picked up his jump drive and uploaded the files to #Wikileaks.
