

STATEMENT

Received dispatch from CSC to rendezvous with Police 4 AIC Burroughs, and Police 5 SSgt Penniston at east gate Woodbridge. Upon arriving at east gate directly to the east about 1 1/2 miles a large wooded area. A large yellow glowing light was emitting above the trees. (refer sketch) In the center of the lighted area directly in the center ground level, there was a red light blinking on and off 5 to 10 sec intervals. And a blue light that was being for the most part steady. After receiving permission from CSC, we proceeded off base past east gate, down the logging road. Left vehicle proceeded on foot. Burroughs and I were approx. 15-20 meters apart and proceeding on a true east direction from the logging road. The area in front of us was lighting up a 30 meter area. When we got within a 50 meter distance. The object was producing red and blue light. The blue light was steady and projecting under the object. It was lighting up the area directly under ~~the~~ extending a meter or two out. At this point of positive identification I relayed to CSC, SSgt Coffey. Positive sighting of object...color of lights and that it was definitely mechanical in nature. This is the closest point that I was near the object at any point. We then proceeded after it. It moved in a zig-zagging manner back through the trees then lost sight of it. On the way back we encountered a blue streaking light to left lasting for a few seconds. After a 45 min walk arrived at our vehicle.

SGT PENNISTON HAS A LOT TO CONTRIBUTE. HE PROMISED ME A PLASTER CAST & PHOTOS BUT DIDN'T DELIVER. I THINK HE'S HOLDING OUT TO 'SAIL' A STORY. HE IS HONOLULU, A VERY COMPETENT MAN AND CAN BE TRUSTED. I'M CONVINCED HIS STORY IS TRUE. HE SAYS HE WAS SURE HE SAW IT. HE HAD TO HAVE A WAY TO REPORT IT.
