List of Business Offices, Tenants, and Companies in the World Trade Center (WTC)

Searching the web, we find many companies related to the World Trade Center. Hundreds of firms did business in these New York skyscrapers, now destroyed. How many offices were in the Twin Towers? The tally of WTC tenants is not yet complete.

Sun 2001-10-14 00:30 UTC **UnBlinking has identified over 700 prospects by name.** Preliminary research suggests as many as **60 more** firms maintained a business presence within the Trade Center complex. Details below, with links to over 200 corporate home pages of WTC tenants.

Wed 2001-09-19 16:00 UTC **UnBlinking has identified over 240 phone listings** present in the WTC complex. These may help confirm details of your other searches. (Data were found through unique capabilities of Southwestern Bell SMARTpages.)

Wed 2001-09-26 17:00 UTC **UnBlinking has identified over 75 vacant office suites** present in the WTC complex. These may help confirm details of your other searches. (Data were found through unique capabilities of Google.)

UnBlinking scans the wealth of information on the internet, gathering background on people and events. Using public search engines, UnBlinking collates what may be known (and what may have been forgotten).

Tue 2001-09-11

Twin Towers Tenants (WTC Companies and Offices)

Several news sources have echoed a list of tenants provided online by the [CoStar Group](#):

[News and Observer: World Trade Center Tenants](#)
[USA Today: North Tower Tenants \(One World Trade Center\)](#)
[USA Today: South Tower Tenants \(Two World Trade Center\)](#)
[Crain's New York Business: North Tower \(1 World Trade Center\)](#)
[Crain's New York Business: South Tower \(2 World Trade Center\)](#)

All these lists contain the same 280 names known to CoStar. However, many other sources, included WTC documents indicate from 435 to 500 businesses were housed in the WTC Twin Towers.

UnBlinking has scanned free search engines to identify other firms within the WTC complex. We have discovered 240 more firms online, but we are in the same position as CoStar:

Although CoStar makes efforts to ensure the accuracy and reliability of its information, CoStar makes no representation or warranty regarding the quality, accuracy, timeliness or

completeness of such information. CoStar cannot guarantee that its tenant specific data is 100 percent accurate or complete, and errors and omissions do occur. Accordingly, CoStar is not responsible if its information is not accurate, complete or current, and CoStar has no responsibility for any consequence relating directly or indirectly to any action or inaction that you (or a third party) take based upon the tenant specific data presented here.

Please confirm **any** information listed here before taking action. (Search engines - in an effort to take a snapshot of the entire web - are notorious for preserving stale, out-of-date information alongside newer, more accurate data.) The list below **may** overstate active business operations at the time of collapse. Some firms are not full occupancy (for example, contractors or DBA representatives). Others may have departed Trade Center offices recently.

All items with Current date "2001" appear very reliable. A Current year with a live link offers an online reference; "VSP" indicates a current listing in [Verizon Super Pages](#). Asterisks (**) indicate corporate or US headquarters.

This page lists all seven WTC buildings, and so is quite large; our apologies. However, this permits you to **use your browser's Search function to scan for specific names**.

Green indicates that although older web references place an entity in the WTC, **newer** references indicate it had **moved out before 11 September 2001**.

Tenant Directory and History for Building: [One](#) | [Two](#) | [Three](#) | [Four](#) | [Five](#) | [Six](#) | [Seven](#) | [ABCN](#)
