Description	<p>The 9/11 Commission Report, formally named Final Report of the National Commission on Terrorist Attacks Upon the United States, is the official report of the events leading up to the September 11, 2001 terrorist attacks. It was prepared by the National Commission on Terrorist Attacks Upon the United States (informally sometimes known as the "9/11 Commission" or the "Kean/Hamilton Commission") at the request of United States president George W. Bush and Congress.</p> <p>The commission was established on November 27, 2002 (442 days after the attack) and their final report was issued on July 22, 2004. The report was originally scheduled for release on May 27, 2004, but a compromise agreed to by Speaker of the House Dennis Hastert allowed a 60-day extension through July 26.</p>	Can be additional information where a file name has ambiguous naming. Additional information	Betty Ong was a flight attendant on American Airlines Flight 112, the first plane to hit the World Trade Center on September 11 2001. During the time leading to the collision, Betty Ong succeeded in making a phone call from a telephone on the plane. She got in touch with two employees at American Airlines. The part of the conversation that managed to be recorded lasted for just over four minutes. Later the same day, September 11, one of the two employees at American Airlines, Nydia Gonzalez, interviewed over the phone by an FBI agent. During the interview, Gonzalez plays the recorded conversation with Betty Ong twice. During the interview, the FBI agents writes down what Gonzalez says, and what Betty Ong says on the recording. This article also contains the transcript.	May also include text from an article or publication

Description	<p>Source: Aldeilis.net Link: https://aldeilis.net/english/were-the-phone-calls-from-the-911-planes-faked Author: William M. Arkin Date: April 2010</p> <p>Extracted from the article Arkin discusses a little of the history of voice-morphing technology and how it could have been used as a part of the narrative of 911:</p> <p>(It is) the result of voice "morphing" technology developed at the Los Alamos National Laboratory in New Mexico. By taking just a 10-minute digital recording of Steiner's voice, scientist George Papcun is able, in near real time, to clone speech patterns and develop an accurate facsimile. Steiner was so impressed, he asked for a copy of the tape. Steiner was hardly the first or last victim to be spoofed by Papcun's team members. To refine their method, they took various high quality recordings of generals and experimented with creating fake statements. One of the most memorable is Colin Powell stating "I am being treated well by my captors." "They chose to have him say something he would never otherwise have said," chuckled one of Papcun's colleagues.</p>	Can be additional information where a file name has ambiguous naming. Description	<p>Author: Elias Davidsson Date: January 2008 Title: There is no evidence that Muslims committed the crime of 9/11</p> <p>Davidsson outlines the case for lack of concrete evidence for those accused of the 911 terrorist atrocities. He observes the following:</p> <ol style="list-style-type: none"> 1/ The US government did not present any authenticated passenger lists 2/ No witnesses to the boarding of the airliners 3/ No boarding passes 4/ No proper identification of the "hijackers" bodily remains <p>Excerpted from his conclusions: US authorities have failed to prove that the 19 individuals accused of the mass murder of 9/11 had boarded the aircraft, which they allegedly used to commit the crime. No authenticated, original, passenger lists, bearing their names, have been released; no one is known to have seen them board the aircraft; no video recordings documented their boarding; no boarding pass stub is known to exist; and there is no actual proof that the alleged hijackers actually died at the known crash sites, because their bodily remains were not positively identified (except for one dubious case) and no chain-of-custody report accompanied these remains.</p>	Can be additional information where a file name has ambiguous naming. Description	<p>Author: Elias Davidsson Date: 8 November 2004 (corrected on 4 May 2005, edited 8. Oct. 2005) Title: Participants in the Cover-Up of 9/11: The Case of American and United Airlines Source: Aldeilis.net Link: https://aldeilis.net/english/are-american-airline</p> <p>One of the immediate worries of American Airlines on September 11, 2001, was how to mould information flow to the general public and prevent "rumors" and wrong "theories" to leak out. A prestigious public-relations agency was put on the scene by AA "minutes after the first crash" to help carry out that communications task. Concurrent to such public-relations efforts, both airlines refused and continue to refuse to disclose the most fundamental data in their possession regarding the murderous events, such as passenger lists and access to eye-witnesses. This evidence suggests airlines complicity in covering up the truth on 9/11.</p>	Can be additional information where a file name has ambiguous naming. Despite the title, the text is a sober analysis of all reports, messages and personal accounts regarding the events occurring at Hopkins Airport on the morning of 9/11. It makes the case for the emergency landing of an airliner with unknown identity, but determined by several clear characteristics. Its existence was covered up by another plane in emergency - Delta Flight 1989 - which landed at about the same time. Box named the mystery airliner "Flight X".</p>	Can be additional information where a file name has ambiguous naming. May also include text from an article or publication

His submission is based on the following principles of human rights that have been affirmed by the United Nations and human rights tribunals, and reaffirmed by a panel of distinguished personalities concerned with the need to establish the truth on the mass murder of September 11, 2001. These include Prof. Ali Khan, Law Faculty, Washburn University (USA); Dr. Daniele Ganser, Historisches Seminar, University of Basle (CH); Dr. Kevin Barrett, Co-Founder of the Muslim-Jewish-Christian Alliance for 9/11 Truth (USA); Jim Fetzer, Distinguished McKnight University Professor Emeritus, University of Minnesota (USA) and Prof. Lynn Margulis, Distinguished University Professor, MIT and member of the National Academy of Sciences (USA).</p>	Can be additional information where a file name has ambiguous naming. St. John asks: Why haven't we seen the routine video surveillance tapes of ANY of the passengers alleged to have boarded the ill-fated 9/11 flights at Boston's Logan, Newark's Liberty and Washington's Dulles international airports? Why haven't we seen these video tapes?</p> <p>Security at some if not all of these airport gates of 9/11 was in the hands of an American minimum-wage subsidiary of a Dutch corporation called ICTS International. What is most remarkable about this arrangement is that the Dutch corporation ICTS International was, as of 9/11, Dutch in name only. An early 2003 check of its web-site showed a Board of Directors consisting entirely of nationals of the Zionist state with the single exception of the Comptroller, who apparently was the nominal Dutchman. Not long after 9/11, the chairman of ICTS, Ezra Harel, whose surname is famous in the annals of the Mossad, died suddenly of a heart attack in his early 50s on his yacht off the coast of Palestine.</p>	Can be additional information where a file name has ambiguous naming. Description	<p>Author: Alexander K. Dewdney Title: Project Achilles: Low Altitude Cellphone Experiments Date: 2003 Source: http://physics911.net/pdf/Achilles.pdf</p> <p>Claims that passengers aboard the doomed aircraft hijacked on the morning of September 11 2001 had used their cellphones to contact acquaintances and loved ones on the ground are shown to be highly questionable in light of experiments conducted in light aircraft over a typical, highly serviced urban area. The author conducted three such experiments in single-engine light aircraft, supplemented by a fourth experiment in a twin-engine light aircraft financed by the ASAHI Television Network of Japan. The acceptance of such claims by a broad segment of the public revealed a general ignorance of the powers and limitations of cellphone technology, an ignorance which is not surprising in view of a) a lack of knowledge about radio technology generally and b) the ban on cellphone calls from airliners imposed by the Federal Aviation Authority (FAA) since the early 1990s, when cellphones first began to come into general use. Given the operational realities of cellphone technology, the ban would appear to have been unnecessary, an issue that will be revisited at the end of the article.</p>	Can be additional information where a file name has ambiguous naming. Description	<p>Author: Shaila K. Dewan Source: NYT (New York Times) Title: Balcony Scene (Or Unseen) Atop the World; Episode at Trade Center Assumes Mythic Qualities Date: 18 August 2001</p> <p>The article is a review of the book "The B-Thing" produced by four Vienna-based artists known as Gelatin. The book documents the covert installation, and brief use, of a balcony on the 91st floor of the World Trade Center, 1,100 feet above the earth. In the spring of 2000, Gelatin and 14 other artists shared free studio space on the 91st floor, where the group's artmaking appeared to consist of building a clubhouse out of cardboard boxes.</p>	Can be additional information where a file name has ambiguous naming. The truth was very different. Rather than being on a routine patrol Aug. 2, the U.S. destroyer Maddox was actually engaged in aggressive intelligence-gathering maneuvers -- in sync with coordinated attacks on North Vietnam by the South Vietnamese navy and the Laotian air force.</p>	Can be additional information where a file name has ambiguous naming. The failure of official agencies to address this issue may appear suspicious, but it may reflect an opinion that the "hijackers alive" story doesn't pose a threat to the official account.</p> <p>There are many possible explanations for the inclusion of identities of still-living individuals in the FBI's list of suspects, from coincidence to identity theft. The use of assumed identities is consistent with the official account, but is perhaps more consistent with the view that the Arab men on the flight were patsies, particularly when seen in conjunction with the men's poor piloting skills, Koran-proscribed behavior, and apparent efforts to leave a paper trail.</p>	Can be additional information where a file name has ambiguous naming. Description	<p>Source: Wikispooks Link: https://wikispooks.com/wiki/9-11/Israel_did_it Title: 9-11 Israel Did It</p> <p>This article presents evidence that the Israeli deep state was a prime mover in the events of 9-11. Note that it does not imply that other groups (i.e. the US deep state and maybe others) were not involved in both the commission and cover up of the September 11 attacks. The 9-11 event advanced the Neocon PNAC agenda, with its explicitly stated need for "...a catastrophic and catalysing event - like a new Pearl Harbor" in order to mobilise US public opinion for already planned wars, the effects of which would be to destroy Israel's enemies.</p>	Can be additional information where a file name has ambiguous naming. -------------	---	--

Additional information	<p>Raphael: I believe the Naudet film of Flight 11 is a charade, staged to appear accidental. However bizarre that claim may appear to be, the evidence that justifies it is there in the film (the DVD version, issued in September 2002, titled "9/11 – The Filmmaker's Commemorative Edition"), and I challenge anyone watching it and following my arguments to reach any other conclusion. No-one can dispute that this is an extraordinary piece of film – because of its uniqueness as well as its content – and that there must therefore be an equally extraordinary explanation for how it came to be captured. I believe – for the reasons in this essay – that those who had both the motive and the effrontery to carry out these attacks also had the motive and the effrontery to film the first one for propaganda purposes, passing it off as the product of luck, complete with a contrived cover story, the one told in the Naudet film</p>	May also include text from an article or publication

PNAC's web site said it was "established in the spring of 1997" as "a non-profit, educational organization whose goal is to promote American global leadership." PNAC's policy document, "Rebuilding America's Defences (http://www.newamericancentury.org/RebuildingAmericasDefenses.pdf)," openly advocated for total global military domination. Many PNAC members held highest-level positions in the George W. Bush administration. The Project was an initiative of the New Citizenship Project (501c3). [1] In 2009 two of PNAC's founders, William Kristol and Robert Kagan, began what some termed "PNAC 2.0," The Foreign Policy Initiative.</p> <p>Article contains an extensive list of resources with links.</p>	Can be additional information where a file name has ambiguous naming. The Boston Globe published the only complete manifest of which we're aware, however journalist and author Terry McDermott reports that he obtained passenger lists from the FBI while researching a book, and they did contain the hijackers names. 911 Myths obtained copies, and while the names are abbreviated, and 6 passenger names are curiously missing, all the hijackers appear to be included. Researcher David Ray Griffin is frequently cited throughout the article.</p>	Can be additional information where a file name has ambiguous naming. May also include text from an article or publication

("Kee") Dewdney. Keith shares his views on the NPT (No Plane Theory). Excerpted:</p> <p>(Reynolds) Q: Why is there such resistance to NPT? (Keith) A: NPT is a direct attack on the head of the snake. You can go after Bush, Cheney and that whole compartmentalized entity but not the head of the snake. NPT is the only thing that we have direct evidence of, so it is very threatening. The media control everything because they can point the finger at anybody. The media is the enforcement arm of the head of the snake that controls everything. It can topple any government. And NPT is direct proof of their enforcement of the 9/11 scam. It's the propagandea arm of the ruling class and NPT would break it all open. They'd be done.</p>	Can be additional information where a file name has ambiguous naming. May also include text from an article or publication

-------------	--	--

Additional information	<p>From Reynolds and Rajter: Warning Label: In August (2006) we submitted this article to the Journal of 9/11 Studies because Editor Steven Jones had publicly promised to publish pro-plane and anti-plane articles, had solicited them and this was our effort to defend the position that on 9/11 No Big Boeings crashed at the four government/media-designated sites. Our paper was essentially dismissed out of hand by two anonymous reviewers (read here) who offered few specific objections. When we complained about the lamentable quality of the reviews, Jones sent the paper to new reviewers. They objected to virtually everything, and had plenty of specific objections (read here). However, we found little merit in their objections, especially for a paper that must cover a great deal of controversial ground without an encyclopedia of proof on behalf of every proposition and conclusion. Therefore, we present our analysis below for your critical review with the product warning that our analysis has failed to achieve the highly sought-after "Journal of 9/11 Studies" seal of approval</p>	May also include text from an article or publication

Description	<p>Author: Morgan Reynolds Source: No More Games website Link: https://nomoregames.net/2006/09/22/talking-with-jim-marrs-about-jfk-and-911-parallels/ Title: Talking with Jim Marrs about JFK and 9/11 Parallel - interview Date: 22 September 2006</p> <p>Excerpted: (Marrs): : A huge similarity between JFK and 9/11 is the lack of connecting dots. For instance, eight months before The Warren Commission came out from behind closed doors, Lee Oswald was convicted in the minds of the public because of a famous photo of him holding a rifle which was published on the cover of Life magazine with the caption, "Lee Oswald with the weapons he used to kill President Kennedy and Officer Tippit." So much for presumed innocence until proven guilty. Oswald told the Dallas Police that his face had been superimposed on another's body and that the photo was a fake. That fakery was well proven and even Scotland Yard, said yes, it was phony but would not say this publicly because they said they didn't want to offend the FBI. Here is another parallel: after the assassination, there was an aura of fear in Dallas. Officials were fearful because they knew the official story was not true. Witnesses in interviews said don't use my name. That's the nature of the beast when certain people pull off a successful coup d'etat: the rulers let those who are aware know who rules but it's kept a secret from the general public.</p>	Can be additional information where a file name has ambiguous naming. Description	<p>Author: Webster Griffin Tarpley Book title: 9/11 Synthetic Terrorism Made in USA Published: 2004 Pages: 405</p> <p>From Tarpley in his introduction: A key feature of this study is its approach to the roots of 9/11. I do not see 9/11 as an event growing exclusively or even primarily out of conditions in Afghanistan or the Middle East. Rather, I see 9/11 as the culmination of a decade-long crisis of economics, finance, politics military affairs, and culture in the United States. In the broadest sense, 9/11 is the wages of a disastrous decade of economic globalization, and of the impoverishment and weakening of an entire society. 9/11 does not grow out of US strength, but represents a desperate flight forward in an attempt to mask US weakness. 9/11 fits within the tradition of NATO geopolitical or spheres of influence terrorism as it was practiced in Italy and West Germany during the years from 1965 to 1993.</p>	Can be additional information where a file name has ambiguous naming. Compiled by Paul Thompson, the 9/11 Timeline long ago became the leading resource of mainstream news reports about September 11. Available in book form as The Terror Timeline (2004), it continues to evolve online. The latest material for the first time casts light on what may have been the day's master wargame: Global Guardian, run out of Offutt Air Force Base by the US Strategic Command (Stratcom) under Admiral Richard Mies. He has since retired and taken up a gig as the CEO of Hicks & Associates, a "strategic consultant" to the federal government dealing in "military transformation." Ground Zero and the surrounding areas were photographed countless thousands of times, yet no one really assessed all of the phenomena found in these photographs. What is presented in this book is not a theory and it is not speculation. It is evidence. It is the body of empirical evidence that must be explained in order to determine what happened at Ground Zero. Anyone declaring who did what or how they did it before they have determined what was done is merely promoting either speculation or propaganda. The popular chant, "9/11 was an inside job," is, scientifically speaking, no different from the chant that "19 bad guys with box cutters did it." Neither one is the result of a scientific investigation supported by evidence that would be admissible in court. Neither identifies what crime was committed or how it was committed. The order of crime solving is to determine 1) WHAT happened, then 2) HOW it happened (e.g., what weapon), then 3) WHO did it. And only then can we address 4) WHY they did it (i.e. motive). Let us remember what is required to (legally) convict someone of a crime. You cannot convict someone of a crime based on belief. You cannot convict someone of a crime if you don't even know what crime to charge them with. If you accuse someone of murder using a gun, you'd better be sure the body has a bullet hole in it. Yet, before noon on 9/11/01, we were told who did it, how they did it, and why they did it; before any investigation had been conducted to determine what had even been done. Many people have speculated as to who committed the crimes of 9/11 and/or how they did so. But without addressing what happened, speculation of this kind is nothing more than conspiracy theory. My research is not speculation. It is a forensic investigation of what happened to the WTC complex on 9/11.</p>	Can be additional information where a file name has ambiguous naming. The Port Authority of New York informed his company that there would be a "power down" on the weekend of Sept. 8 and 9, 2001. This would mean that all power would be off in the top half of the south tower for most of the weekend. Forbes has called this unprecedented, because to have a data centre lose power for two days requires major preparations and disruption. He reports that as part of the power down, all security cameras and security door locks were non-operational for about 36 hours.</p>	Can be additional information where a file name has ambiguous naming. Description	<p>Author: Barrie Zwicker Source: Global Outlook website Link: https://globaloutlook.ca/ Title: The Great Conspiracy: The 9/11 News Special You Never Saw Date: 2004</p> <p>This article published in the Global Outlook Issue 9 2004/2005 Fall/Winter edition is the transcript to Zwicker's sequel to his 2002 6 part documentary series 2The Great Deception"</p> <p>"The Great Conspiracy: The 9/11 News Special You Never Saw" is a 70-minute sequel to The Great Deception. That is a ground-breaking 44-minute video also by Barrie Zwicker. He was the first mainstream journalist in the world to go on air (in January 2002) and ask hard questions about the official story of 9/11. The Great Deception is a compilation of his series of seven commentaries on 9/11. In The Great Conspiracy, Zwicker updates and expands his critique. He analyses the use of fear to befuddle the public. He deconstructs the so-called "war on terrorism". He examines in depth the failure of the military on 9/11 and George Bush's highly inappropriate behaviour that day. He finds the 9/11 Commission to be a total coverup operation. Throughout, he analyses the role of the mainstream media as complicit in keeping the public massively misinformed and befuddled. And he suggests what we can do. Those who have seen both works find them complementary.</p>	Can be additional information where a file name has ambiguous naming. May also include text from an article or publication

Additional information	<p>Author, producer and social and political activist Barrie Zwicker has specialized in media criticism since 1970. Since the events of 9/11 he has become a leader in the "9/11Truth movement." Millions of people around the world (as proven by reputable international polling firms) question or disbelieve outright the official conspiracy theory about 9/11. Zwicker has combined media criticism and criticism of the official 9/11 conspiracy theory in his book Towers of Deception: The Media Cover-Up of 9/11, which won Gold in the Current Events category of the 2007 Independent Publishers Awards. Prior to 1970 Zwicker was an award-winning newspaper writer for the Globe and Mail, Toronto Star and The Detroit News, among others. His commentary "Facing the Fourth Estate" was aired weekly on 18 CBC stations. He taught journalism for seven years at Ryerson University and worked for 15 years at Vision TV, finishing with his own weekly program, "Media File." In March 2002 he produced the 44-minute video The Great Deception and in the Fall of 2004 the DVD The Great Conspiracy: The 9/11 News Special You Never Saw.</p>	May also include text from an article or publication

Description	<p>Director: Erik Nelson Duration: 01:29:57</p> <p>Taking an hour-by-hour look at the lives of many who worked at the Twin Towers and those who loved them creates as unique a perspective on things as the view from the 107th floor of Tower 1, at the iconic restaurant Windows on the World. September 10, 2001 was a typical Monday in New York. It began to rain and the local television news shows spent a lot of time on the usual traffic and weather reports that make up much of local coverage. People were commuting to work from early morning through the evening. On September 10, 2001, New York City voters were going to the polls to elect mayoral candidates and THE FINAL HOURS spends some time with Mark Green, who was believed by many to have the best chance of becoming the city's next mayor. Also on that Monday, then-mayor Rudy Giuliani and the NYFD chaplain, Father Mychal Judge attended a ribbon cutting ceremony at a local firehouse and spoke to the assembled firefighters about their jobs as a calling to something that had a higher purpose.</p> <p>Most poignant of all are the stories of two men, George Delgado, who worked at Windows On the World and who opens the program with a mixology demonstration, and Harley DiNardo, a musician and filmmaker whose sister was a top day trader at Cantor Fitzgerald, the firm that lost more than 600 employees when the first tower fell. Their stories of how they spent the evening prior to the attacks is one we can all relate to. One was plagued by car trouble that made him think he might have to stay overnight at work. The other described a birthday celebration at the restaurant, the bill for which was found in his sister's wallet that survived the building collapse.</p>	Can be additional information where a file name has ambiguous naming. Description	<p>Director: Dylan Avery Duration: 01:38:32</p> <p>Loose Change is a series of films released between 2005 and 2009 that theorize, based on evidence available about the 9/11 attacks, that 9/11 was a planned operation. The films were written and directed by Dylan Avery and produced by Korey Rowe, Jason Bermas, and Matthew Brown. The original 2005 film was edited and re-released as Loose Change: 2nd Edition (2006), a third time for the 2nd Edition Recut (2006), and then subsequently edited for a fourth time for the HD Remastered Edition (2017). Loose Change: Final Cut, deemed "the third and final release of this documentary series" was released on DVD and Web-streaming format on November 11, 2007. Another version of the film, Loose Change 9/11: An American Coup, released on September 22, 2009, is narrated by Daniel Sunjata and distributed by Microcinema International.</p>	Can be additional information where a file name has ambiguous naming. Essentially a mix-tape of archival newsreel, witness testimonials, and interviews with engineers, firefighters and architects, the film questions if the American Government was somehow complicit in the destruction of the structures that fell that day.</p>	Can be additional information where a file name has ambiguous naming. Description	<p>Director: Sofia Smallstorm Duration: 01:30:45</p> <p>Director Sofia Shafquat's (who goes by Smallstorm in the credits) 911 Mysteries, Part 1: Demolitions argues for an alternative interpretation for the collapse of the World Trade Center twin towers on September 11, 2001. Along with her conspiracy-theory collaborator Brad Waddell, a self-described conservative Republican and demolitions hobbyist, Shafquat argues that the WTC buildings were brought down by a government-sponsored controlled demolition. Narrated by Shafquat, the documentary offers layers upon layers of circumstantial proof as it examines evidence from borrowed sources, including news footage, PBS and History Channel documentary clips, and snippets from expert testimony.</p>	Can be additional information where a file name has ambiguous naming. Description	<p>Director: Anthony Fioranelli Duration: 00:55:19</p> <p>Bringing never before seen video from Ground Zero and coupled with in-depth interviews from photojournalists, the audience is given a behind the scenes view into the unique world of gathering news in a crisis. We learn the intimate details of what these photojournalists endured to cover this atrocity; from being buried alive to lensing photos that continue to create controversy and now sit in the Library of Congress. We are also given a unique glimpse into the emotional toll and how the event continues to affect them to this day. Behind the Lens: Covering 9/11 navigates through the vast destruction at Ground Zero and beyond. From a cleanup worker who believes he's found a survivor to a fireman's widow burying her husband to an FBI technician separating bones from rubble, this film looks through a lens that few people have seen before. The sights and equally important, the sounds will place you at Ground Zero, experiencing that fateful day as these photographers did.</p>	Can be additional information where a file name has ambiguous naming. Publication date:	2006	(Year)

Description	<p>Director/s: Mathieu Verboud and Jean-Robert Viallet Duration: 00:52:04</p> <p>Sibel Edmonds, a 32-year-old Turkish-American, and latterly a whistle-blower, was hired as a translator by the FBI shortly after the terrorist attacks of September 11, 2001 because of her knowledge of Middle Eastern languages. She was fired less than a year later in March 2002 for reporting shoddy work and security breaches to her supervisors that could have prevented those attacks. The documentary focuses on both Ms. Edmonds's personal struggle to expose the criminality that she uncovered while at the FBI, and also the Sept. 11, 2001 tied 'secret' itself - the network of nuclear black-market, narcotics and illegal arms trafficking activities. Interviewees include David Rose, Philip Giraldi, Daniel Ellsberg, Coleen Rowley and Russell Tice.</p> <p>A film by Mathieu Verboud and Jean-Robert Viallet originally in French and later released in English by SBS Australia.</p>	Can be additional information where a file name has ambiguous naming. Publication date:	2015	(Year)

Description	<p>Host: Bill Ryan Interview guest: Rebekah Roth Date: September 10, 2015 Duration: 01:55:400</p> <p>From Bill Ryan's introduction: REBEKAH ROTH is the author of two books: METHODICAL ILLUSION, her first, and a sequel just out, called METHODICAL DECEPTION. And she's already working on a third. In my very strong personal opinion, she has the story pretty much exactly right, in a LOT of detail. After all these years, we all need to be listening carefully.</p> <p>Rebekah was a flight attendant – a highly experienced one – of many years standing. And flight attendants know EXACTLY what could and couldn't happen on a plane, especially in an emergency. It's like we were all waiting all this time, but never knew it, for a very experienced flight attendant to come along and lay it all out for us. Some of the flight attendants who made the famous cellphone calls on 9/11 – which could of course only have been made from the ground – may very well have left clues in their messages which only another flight attendant would be able to decipher. Whether or not this was intentional on their part, this is just what Rebekah has done. So in this interview, we hear how the planes were taken over by an installed Flight Termination System, which remotely controls the aircraft, and there's nothing the pilots can do. In fact, they can't even communicate, not even with the cabin crew on the other side of the cockpit door. This renders all the pilots quite impotent.</p>	Can be additional information where a file name has ambiguous naming. May also include text from an article or publication

Additional information	<p>Author, producer and social and political activist Barrie Zwicker has specialized in media criticism since 1970. Since the events of 9/11 he has become a leader in the "9/11Truth movement." Millions of people around the world (as proven by reputable international polling firms) question or disbelieve outright the official conspiracy theory about 9/11. Zwicker has combined media criticism and criticism of the official 9/11 conspiracy theory in his book Towers of Deception: The Media Cover-Up of 9/11, which won Gold in the Current Events category of the 2007 Independent Publishers Awards. Prior to 1970 Zwicker was an award-winning newspaper writer for the Globe and Mail, Toronto Star and The Detroit News, among others. His commentary "Facing the Fourth Estate" was aired weekly on 18 CBC stations. He taught journalism for seven years at Ryerson University and worked for 15 years at Vision TV, finishing with his own weekly program, "Media File." In March 2002 he produced the 44-minute video The Great Deception and in the Fall of 2004 the DVD The Great Conspiracy: The 9/11 News Special You Never Saw.</p>	May also include text from an article or publication
