### 9/11: An Occult Ritual? IV: The Twin Towers (2)

**“Perhaps the reason all the aforementioned parties ritualistically use 33 is because they understand what it is all about: 33 is part of us, and part of the architecture of the universe. They hijack this sacred knowledge and use it in plain sight in order to control and manipulate.”**

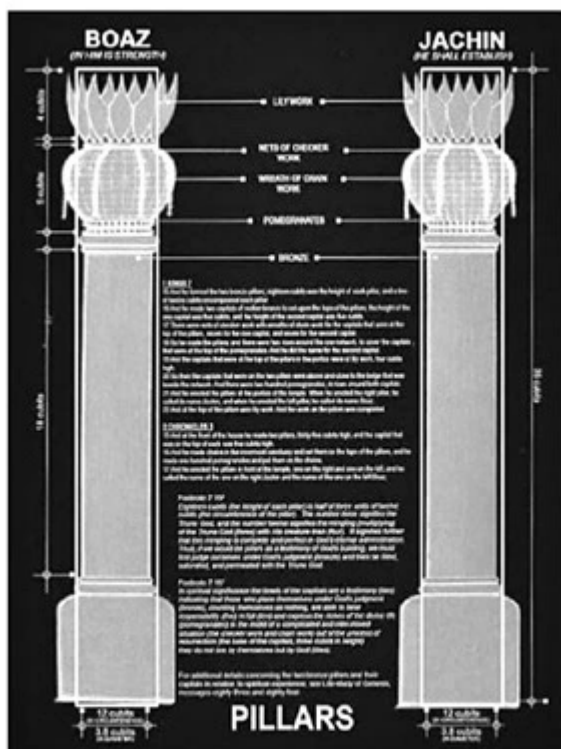

*– Scott Onstott*

---

Occult and sacred geometry researcher Scott Onstott makes an important point in amongst all this occult ritual in that the people behind these dark games do not own sacred numbers. He has shown that they do indeed belong to everyone.

He has also made some fascinating discoveries linked to ancient, monuments, geography, mathematics and architecture on his website: [www.secretsinplainsight.com](http://www.secretsinplainsight.com/) (<http://www.secretsinplainsight.com/>). He has made a special point of researching the numerology and mathematics of some of our most sacred sites around the planet, as well as delving into the World Trade Centre and the new One World Trade Centre and has discovered some interesting details.

An architect friend who had a “hunch” suggested he find out if the original Twin Towers might match the proportions of the columns of the aforementioned Biblical pillars of Boaz and Jachin that were part of the mythical Solomon’s temple and included in the symbolism of every Freemasonic lodge in the world. Sure enough, Onstott found that when the Twin Towers are overlaid as rectangles, drawn with real-world proportions they match perfectly.

The symbol of the twin pillars forming a gateway is one of the most common symbols in occult lore. It is used by bankers, commerce, architects and freemasons and has long been incorporated into Christian architecture. Author Zen Gardner reminds us of a “cathedra[m]” as a message “from the Masons themselves, encoded in stone and concealed in plain sight.” The “Tracing Board” of freemasonry is the key to the symbolism in Gothic Western façades, acting as a both an architectural blueprint and a metaphysical portal or doorway symbolising an initiation of higher (or, in this case, lower consciousness) in praise of entropy or the path to primal matter: Satanism. For in order to reach the state of creative balance, to forge a purified and transformed human being, an alchemical process is undergone towards redemption or inversion.

The All-Seeing Eye is the Egyptian “Eye of Horus” set betwixt the two and determines the outcome of the battle between the light of higher consciousness and primal matter. It is one of the most important symbols in freemasonry and Rosicrucian traditions for hundreds of years. Perhaps this is why you have it as the Pyramid of the Great Seal on every US dollar bill in order to implant the suggestion that America is following the path of “the light bearer” who is otherwise known as “Lucis” or “Lucifer.” A New World Order ideology is drawn from the totalitarianism and slavery of the Levitical Babylon grafted onto the Egyptian Empire myths which was originally called in masonic lore: the “Religion of Light.” Lucifer is recast as the liberator of humanity – and in a sense that is precisely what he is – for those that choose the service to self pathway. Whether such a path leads to true liberation is another *matter*...

Discoveries that Washington D.C. is a hotbed of architectural occult symbolism has been undergoing a process of revelation rather like an archaeological dig for the past one hundred years and most intensively during the last decade with the advent of satellite technology and Google Earth. For example, many occult researchers have shown that the Washington Mall Government Centre, is the Sephiroth Tree of Life and “Masonic coffin”; The Goats Head of Mendes pentagram is on the street layout which encompasses the White House and the 5-sided structure of the Defence Department’s Pentagon. Let’s not forget the Mall gardens and streets which form the image of an owl a mythical reference to the goddess Lilith and part of the rituals enacted in the present day society of Bohemian Grove. Then there is the little matter of the Washington Memorial that mimics an Egyptian obelisk and phallic symbol ...

In the same way, the World Trade Centre complex, as we will see, is also wrapped in occult symbolism. Silverstein Properties is doubtless over the moon (no pun intended) with the replacement building which was provisionally called the “Freedom Tower” and was scheduled to be fully completed by December 21 2012 (Mayan Prophecy anyone?) but actually finished May 10, 2013.

Which brings us to number 33.

Let’s play around a bit and see what comes up with 9/11 and the memorial year of 2011:

$$9/11 / 2011: 9 + 11 + 2 + 0 + 11 = 33.$$

The parasite of Rosicrucian Illuminism nested deeply within the host of freemasonry seems to have special significance in relation to these symbols and numbers. In particular the divine number 33 seems to feature quite strongly in both 9/11, Western popular culture and global monuments. It has an important meaning in occult secret societies and Scottish Rite Freemasonry and denotes the highest degree bestowed upon the initiate. If we multiply the Kabbalah’s power number eleven by three, we get 33. When 11 squared is divided by phi. (1 times 1; 5 minus 3) it delivers a code of 353535 which relates to infinite power. (This was calculated from the date “September 11<sup>th</sup>” as we saw previously). Author Laura Knight-Jadczyk provides a golden nugget regarding the astrological context of this number when initiates are promised infinite power: “which they must seek infinite knowledge to gain, for which they pledge allegiance infinitely for which<sup>[2]</sup> they possess for all eternity, so long as they find infinite wisdom, for which they search for all infinity.”

The capstone and All-Seeing Eye of the Pyramid is the powerhouse of accrued energy extracted by deception which ends up as an never-ending spiral winding its way to a black hole of service to self Godhood. Hence the obsession with 33 and the Great Pyramid from which the basis of psychopathic occultism derives. With a triangle pointed to the heavens and a triangle pointing down toward the Earth you have 3 = 33. More importantly, as Knight-Jadczyk mentions: “... we have a bunch of people who are

playing with mathematics, sacred geometry, and playing with higher knowledge, basically as a keep busy activity to distract them at the human level from the fact that they are being manipulated at a higher level.” (You’ll have to read her books to find out the ultimate source of that “manipulation.”)

More obviously, Onstott tells us: “The House of the Temple is the headquarters of Scottish Freemasonry in the United States. The 33 columns which are 33’ high support a 13 step Egyptian unfinished pyramid just like the one on the dollar bill. The 33 members of the Supreme Council confer the highest 33rd degree on select brothers who have already attained the 32nd degree.”

Here are some of Onstott’s other discoveries regarding the revered 33:

- Disney’s The Magic Kingdom has a mysterious private organization called Club 33. Perhaps it is no wonder because Walt Disney himself was a 33rd degree freemason, although he died just before Club 33 was opened.
- There are 32 feathers on one wing and 33 feathers on the other wing of the reverse of the great seal of the United States.
- The address of the Federal Reserve Bank of New York is 33 Liberty Street. [It] reportedly holds 25 percent of the world’s existing gold bullion (\$335 billion as of April 2011), making it the largest known treasury in the world. However the Fed cannot be audited.
- There are 33 “Ethnological Heads” carved into the exterior of the Library of Congress.
- The United Nations The UN Flag and emblem divides the Earth into 33 sectors.
- The City of London is surrounded by 32 boroughs, making 33 jurisdictions.
- Phoenix Arizona sprawls over 33°N. The Phoenix metropolitan area is called the Valley of the Sun. Heliopolis means City of the Sun.
- By about 1200 BCE, the Children of Dan ended up settling in the far north of modern Israel under the shadow of Mt. Hermon. Mt. Hermon is located 33° north of the equator and 33° east of the Paris prime meridian.
- Jesus is said to have been crucified at age 33. King David (father of Sol-Amun) ruled for 33 years.
- Jacob had thirty-three sons and daughters.
- The Kabbalah – The Tree of Life from Jewish mysticism encodes 33.
- The Foundation Stone inside the Dome of the Rock on the Temple Mount in Jerusalem is an *omphalos* or world centre point. The distance from the Foundation Stone (FS) to the sea is exactly 33 miles. The distance from the Foundation Stone to the Cherhill Obelisk is 33.0 degrees.
- The Human Spine There are 33 vertebrae in the spinal column if you count the fused bones in the lower spine individually.

- Planck's Constant is  $1.616252 \times 10^{-33}$  cm. That's 33 orders of magnitude smaller than your thumbnail.
- The Sun's core apparently spins once every 33 days and scientists have just figured this out at Stanford University. The Sun's mass is 333,000 times the mass of Earth.

After turning his attention to the One World Trade Centre Onstott viewed the latitude and longitude coordinates in degrees/minutes/seconds or decimal degrees via Google Earth only to discover that the following coordinates designating the location of the Freedom Tower are: Latitude  $40.713^\circ$  and Longitude  $-74.013^\circ$  Decimal longitudes west of the prime meridian are negative and those east of it are positive. Adding the latitude and longitude values Onstott got the easily verifiable:  $40.713^\circ - 74.013^\circ = 33.300^\circ$ .

So you get the picture. 33 seems to be important. And as you might imagine at this stage, it doesn't stop there.

The One World Centre or the Freedom Tower is the tallest building in the United States (and the Western hemisphere) at 1776 feet, including its mast. July 4th, 1776 was of course the date the Declaration of Independence was signed. And with a doffing of the hat to the Grand Master himself, 1776 was also the year that the Bavarian Illuminati was founded. Just in case we were in danger of thinking that Lady Luck had somehow crept into the proceedings, the 9/11 Memorial opened on the 10th year anniversary on 9/11 / 2011:  $9+11+2+0+11 = 33$ .

The Freedom Tower's triangle mirrors the All-Seeing Eye of Horus atop the freemasonic pyramid which has pride of place on the US dollar bill. This is fitting tribute to the climax of a ritual sacrifice to their Saturn/Sun gods and the onset of a "New Age"/"One World."

It is also significant that the tablet held by the Statue of Liberty has inscribed in Roman Numerals July 4, 1776 the date of the Declaration of Independence and as we have stated, the founding of the Illuminati. Then there is the matter of Sirius: the "Blazing Star" otherwise known as the "Dog Star" which played a central part in freemasonic rituals of the past and present. Astronomers tell us that Sirius is actually a binary star system, consisting of a band of stars termed "Sirius A" and a white dwarf (stellar remnant) companion called "Sirius B." Given the name of Silver Star to Crowleyian adepts and Rosicrucians, it is traditionally associated with Thoth, Hermes and Mercury, with connections to almost every God and Goddess. Yet, as with all things yin and yang, everything has an alter-ego or polar opposite and Sirius is no different.

According to Helena Blavatsky the founder of the Theosophical movement Hermes, the God of Wisdom was also called "Thoth, Tat, Set and *Sat-an*; (Saturn)" and that he was, when viewed under his bad aspect, Typhon, the Egyptian Satan, who was also Set." Crowley also confirms that Sirius or "Silver Star" is: "... the key to the present, a key of Horus, for it represents the energy of Satan that will permeate the earth during the present cycle."

If Thoth (as Saturn) and the Egyptian God of magic, measurement and the regulation of events and time – even the creating the matrices of Heaven itself – then it is especially interesting that we can see Sirius as an important node in channelling Saturnine energy for present priesthood of globalism. Once again, we are back to our tracing board, the pillars of Joachin and Boaz and the triangles of the Saturn Star or six-pointed star of “David.”

S.K. Bain views Sirius as key to the whole 9/11 occult ritual. He reveals that the Egyptian New Year was originally marked by the dawn rising of Sirius in the summer solstice with the present day Coptic calendar based on the ancient Egyptian calendar still used in Egypt. The first day of the New Year is called “Thout” named after Thoth, the date of which coincides with September 11<sup>th</sup> on the Gregorian calendar which is not only New Year’s Day but: “the symbolic or observed date of Sirius’ helical rising.” So, a vast 9/11 ritual sacrifice was conducted on the New Year on a calendar derived from the ancient Egyptian calendar, in a month named for Thoth, the Egyptian God of Time. The occult significance of this Sirius connection is derived from: “the date ... tied directly to Sirius in a most powerful fashion, with the intent being to bring the entire day’s events under the dark energies of Sirius, and to invoke the blessings of Lucifer who resides there.”

In relation to the Statue of Liberty which appears to be overseeing this Grand Ritual, the significance of the inscription has a deeper meaning: “In the modern era the date which Sirius conjuncts with the Sun, which esoterically is considered the embrace of our physical and spiritual Suns<sup>7</sup> is ... July 4<sup>th</sup>. The inscription on the Statue of Liberty’s tablet is ... an encoded tribute to Sirius.”

French Freemason and designer of the Statue of Liberty was a freemason as were his commissioners. Through associations with the Goddess Isis, it is Lucifer which is being symbolised by the ‘torch of *illumination*,’ the guiding beacon with its own crown of solar rays a major symbol of Illuminism and their worship of Fire. Instead of the Statue of Liberty as “Enlightening the World,” it is the Light bearer of Lucifer, representing salvation for a very select few. Given what we know so far about the occult ritualistic events of September 11<sup>th</sup> it is safe to say that the invocation is likely to have been for the deity of Lucifer himself. Bain draws our attention to the design of the Twin Towers and the existence of the trident as an occult emblem and both a symbol of fire “... Shiva, Poseidon, [and] Satan” In fact, the trident is a weapon of the Devil which just happened to have been the supporting design at the base of the Twin Towers acting as “Twin Mega Talismans” which were “literally wrapped in a Satanic symbol.”

infrakshun notes (2012)

Saturn may have featured as the ultimate Brown dwarf star of Chronos and Cometary stimulus (<https://infrakshun.wordpress.com/2015/04/26/occult-zionism-vi-the-saturn-king/>), which effectively kicked off the whole four ages of man mythology and as such presided over massive changes in the destiny of humankind. It is therefore appropriate to discover that astrologers were worried about the *opposition* of the Planet Saturn and Pluto which occurred during the time of the attacks. As we know, Saturn has been associated with death, structure, materialism and the breaking down of the old order to introduce the new since the Golden Age of peak catastrophism. Pluto can symbolise death, rebirth, transformative power whilst traditionally ruling the Underworld. Both are indicative of destruction to make way for either positive change or depending on your polarity, more destruction and control. With the *conjunction* of Saturn and Pluto, it was already known in astrological circles that something bad was coming down the pipeline, or as Bain interprets: "... the two Lords of Death came too near each other in a couple of astrological houses that amplified their malevolent characters ... which made it a great day to sacrifice 3,000+ people to the Prince of Darkness."

Recall that the number 7 is also another divine number in the fast approaching tedium that is occultism. It rules microcosmic (body) macrocosmic (world) cycles of power and their rhythmic perfection. It is perhaps considered the most sacred number of all by many esoteric groups and thus on a par with 9 and 11. (The London 7/7 Bombings followed the same occult trajectory ) The 47-story ( $4+7 = 11$ ) World Trade Centre 7 was completed in 1987, ( $1+9+8+7 = 25$   $2+5 = 7$ ) located right next to the Twin Towers and clad in red granite exterior set in a trapezoidal footprint. The Salomon Brothers signed a long term lease in 1988 after which WTC 7 was known as the Salomon Building. If The Twin Towers symbolised Jachin and Boaz, the Two Pillars of Freemasonry that were positioned at the front of King Solomon's Temple, then the location of the Salomon Building and the Salomon Brothers as lease holders was another occult sign-post. S.K. Bain informs us that the Bible's King David gave exact measurements and specifications for Solomon's Temple: "... because the building was a deceptively-simple yet powerful modern occult-Masonic construct. Its shape and 47 stories were an architectural embodiment of the 47th Problem of Euclid, more widely known as the Pythagorean Theorem," a principle that was of profound importance to freemasonic belief.

The trapezoidal design of the building is also pertinent as a recognised occult-Masonic construct often associated with enhancing rituals of invocation. Indeed, Anton LaVey, the founder of the Church of Satan, refers to an occult principle known as the 'Law of the Trapezoid' a shape that finds a repeating occurrence in the United Nation's meditation room along with other occult references care of the Lucis Trust. Former member of a satanic cult Bill Schnoebelen believes that the trapezoid shape is designed to create "... a spiritual 'cloud-chamber' of sorts across which [the occultist] may track the hoof-prints of the demons he wishes to invoke. It is believed to be the perfect atmosphere for the manifestation of the unholy and the cursed."

It may be somewhat hackneyed but it doesn't necessarily mean the core meaning is incorrect...

infrakshun notes (2012)

The “revitalisation” of the Manhattan area – in particular the WTC project – was spearheaded by David and Nelson Rockefeller from a family which magically appears in anything connected to large-scale financial, social and occult psychopathy. As Passio, Ramsey and Bain have commented, could it be that the One World Trade Centre complex is indeed, a massive ceremonial site strewn with objects of ritual significance? It would certainly seem that way if one takes a bird’s eye view of the World’s financial centre, lying directly adjacent and west of the World Trade Centre. There, we find an unfinished pyramid; a step pyramid; a square pyramid and a dome.

Although not all of the day’s events went according to plan the numerological, logistical, and operational activities involved were nothing short of miraculous. But when the official fairy-tale is believed how easy it is for these men and women to create the power of a “Divine” inversion which was not only in “plain sight” but an active part of the template of the 9/11 atrocity itself.

Meanwhile, Lower Manhattan was left out of the economic boom. In 1958, Rockefeller established the Downtown-Lower Manhattan Association (DLMA), which commissioned Skidmore, Owings and Merrill to draw up plans for revitalizing Lower Manhattan. The plans, made public in 1960, called for a World Trade Center to be built on a 13-acre (53,000 m<sup>2</sup>) site along the East River, from Old Slip to Fulton Street and between Water Street and South Street. The complex would include a 900-foot (275 m) long exhibition hall, and a 50–70 story building, with some of its upper floors used as a hotel. Other amenities would include a theater, shops, and restaurants. The plan also called for a new securities exchange building, which the Downtown-Lower Manhattan Association hoped would house the New York Stock Exchange." Great work!

It seems like you're toiling alone, but it's not so. What you're doing matters. Be encouraged and keep it up. The LORD said "If they will not listen to Me, why be amazed when they do not listen to you."

Tell them still.

This is excellent work. I have been watching a lot of 9/11 related stuff lately and tonight as I was watching survivor stories, for some reason the towers Boaz and Jachin came to mind. I do believe the whole event was an occult ritual and human sacrifice.

Article très intéressant! Il existe dans la petite ville du Locle (Suisse) un autre portail franc-maçonique/kabbaliste, bien moins connu, mais cependant toujours "debout"! Il s'agit de celui formé par les 2 tours jumelles de 11 étages chacune construites sur les Marais (interface entre les vivants et les morts) à l'endroit même d'un ancien cimetière fraîchement démoli pour l'occasion! Il forme ainsi pour ces franc-maçons le parfait portail 11-11 vers un autre monde, en l'occurrence vers l'enfer/l'Abîme! Et il semblerait que cela marche! En effet, probablement empuissancé par le CERN ainsi que des rituels de sorcellerie (invocation des esprits) pratiqués dans le plus grand secret dans

certaine(s) maison(s) de maître situés à proximité de ce "GATE", il semblerait que La Bête elle-même (Aleister Crowley??), accompagnée par des légions de démons sortent de l'Abîme, en témoignent les ondes électromagnétiques totalement anormales qui remontent dans les tours par tous les conducteurs reliés à la terre, ainsi que d'autres phénomènes paranormaux, tels que l'apparition de démons à proximité du GATE, ou encore une infection de mouches aux sommets des tours. Tout ceci semble confirmer que ces 2 tours de 11 étages fonctionnent bien comme un "GATE", une porte d'accès vers le monde des esprits, et que celui-ci est bien ouvert! Very interesting article! There is in the small town of Le Locle (Switzerland) another Freemason/Kabbalist portal, much less known, but still "standing"! This is the one formed by the 2 twin towers of 11 floors each built on the Marais (interface between the living and the dead) at the very location of an old cemetery freshly demolished for the occasion! It thus forms for these Freemasons the perfect 11-11 portal to another world, in this case to hell/the Abyss! And it looks like it works! Indeed, probably empowered by CERN as well as witchcraft rituals (invocation of spirits) practiced in the greatest secrecy in certain mansion(s) located near this "GATE", it would seem that La Bête herself (Aleister Crowley??), accompanied by legions of demons come out of the Abyss, as evidenced by the totally anomalous electromagnetic waves which go up in the towers by all the conductors connected to the earth, as well as other paranormal phenomena, such as the appearance of demons near the GATE, or even an infection of flies at the tops of the towers. All this seems to confirm that these 2 towers of 11 floors work as well as a "GATE", an access door to the world of the spirits, and that this one is indeed open! You can find all proofs and additional information (videos and others) about this GATE on my YouTube channels ("ETERNAL ARMY TV", "Tite Servant" or "GOD ARMY – LE LOCLE") (sabotaged by YouTube), as well as on my web page (www.god-army .com) (sabotaged by Google). (My native language is french).
