MOSCOW, November 2. /TASS/. Russian Security Council Deputy Chairman Dmitry Medvedev has warned that Poland's actions may lead

to a direct confrontation with Russia and Belarus and launch World War III.

"Poland's own military buildup and Polish military presence in Ukraine may trigger a direct confrontation between Warsaw and Belarus and Russia," Medvedev said in an article for the [Rossiyskaya Gazeta](#) newspaper. "In this case, the allied group will give an appropriate response to prevent threats that stem from the evil ambitions of the Polish establishment," he stressed.

In Medvedev's opinion, "Poland's reckless actions, if rashly supported by its NATO allies, may have far-reaching dangerous consequences for the entire world." "And then Poland will fulfill the role of 'the hyena of Europe' that unleashed World War III," he noted.
