Additional information	Author: Ian Ridpath Source: http://www.ianridpath.com/ufo/halttape.html Date: January 2011 Throughout the events recorded on the tape, it is Bruce Englund who is guiding Halt around the site and he is also the person who first points out the flashing light. Englund himself has never gone on record about the events of that night. As well as Halt and Englund, the main character heard on the tape is Sergeant Monroe Nevels, who was operating the geiger counter. Nevels was a Chemical Defense Instructor in Disaster Preparedness, not a nuclear specialist, and his unfamiliarity with the equipment he is using becomes apparent on the tape. One other airman referred to by name is 'Bob' (Sergeant Bobby Ball). Col Halt has helped clarify certain exchanges and identify the voices for me, so this is the nearest we are likely to get to an 'authorized' version, and I am grateful to him for his assistance. However, I should add that Col Halt does not subscribe to my overall interpretation of the case.	May also include text from an article or publication

Additional information	Author: Ian Ridpath Source: http://www.ianridpath.com/ufo/halttape.html Date: January 2011 This is a transcript of the cassette tape recording made by Lt. Col. Charles Halt on the night of the second sighting of the Rendlesham Forest UFO, i.e. the early hours of 1980 December 28. (The first sighting had been in the early hours of December 26, in which Halt was not involved.) Halt made the recording on a hand-held Lanier micro-cassette recorder which he carried for note-taking. There are many gaps and jumps in the recording as he switched the machine on and off			May also include text from an article or publication

Description	Author: Georgina Bruni Source: Internet Archive Link: https://archive.org/details/youcanttellthepeoplethegeorginabruni Title: You Can't Tell the People: The cover-up of Britain's Roswell Publisher: PAN Books ISBN: 9781447217558 ISBN 13: 9780330390217 Page count: 453 Date: 2000 This is the casebook of the world's only officially recognized UFO encounter that took place in the UK in December 1980. Previous accounts of the Rendlesham Forest incident have been flawed: people with axes to grind and little access to primary sources and discreditable single eyewitness accounts. Georgina Bruni has had access to police, Ministry of Defence and US military sources and her casebook reveals fresh information on the incident and the possible alien encounter that ensued. It includes interviews with those involved as well as other never-before-reported incidents in the area. The casebook also reveals details of the aftermath and the harsh treatment meted out to those who wavered from the "don't ask, don't tell" line of officialdom. -------------	--	--	--	--

Additional information	Over a series of three nights in December 1980 an extraordinary series of UFO incidents took place in Rendlesham Forest in the UK, next to two United States Air Force bases. This was not some vague sighting of lights in the sky, but a controlled landing and take-off. The UFO was tracked on military radar and left physical evidence at the landing site, including damage and scorch marks on the trees, indentations in the frozen ground, and abnormally high levels of radiation. The UFO was seen by dozens of military witnesses, including the Deputy Base Commander. The object fired light beams at some of the men and, later, into the Weapons Storage Area, where some military personnel based there at the time allege that nuclear weapons were kept. Encounter in Rendlesham Forest tells the extraordinary story of the world's most compelling and best-evidenced UFO incident - a case that is more significant than the infamous Roswell Incident. Co-written by former UK government UFO investigator Nick Pope, with John Burroughs and Jim Penniston, the two military witnesses at the heart of these encounters, this disturbing and compelling book tells the inside story of what really happened, and lifts the lid on the true role played by government, the military and the intelligence community in relation to the UFO phenomenon. Description	Author: Emma Parry Newspaper: Scottish Sun Link: https://www.thescottishsun.co.uk/news/7066729/first-photos-britains-biggest-ufo-sighting-orb-woods/ Title: First ever 'photos of Britain's biggest UFO sighting show huge orb flying through woods with beam of light shooting out' Date: May 05 2021 A set of photographs were sent to the Scottish Sun newspaper from an anonymous source. The Scottish Sun published seven of them. Veteran UFO researcher Philip Mantle remains uncertain on their real provenance until the type of camera and film used can be determined and the photos are subjected to closer scrutiny, to verify their authenticity. The alleged (unnamed) witness claims he was 200ft away from Colonel Charles Halt, deputy base commander of RAF Bentwaters, and his men, when he spotted the glowing orb. He said: "When I was younger, I was a poacher. I lived very close to Rendlesham Forest and frequently went poaching there. So back in 1980, 28 December, I was in the forest poaching. "Now bear this in mind, before this encounter I saw and heard a lot of strange things in that forest. I could tell you stories that would bend your bones, so every time I went poaching, I always took my camera always hoping to capture some evidence." Linda Moulton Howe gave her Keynote Presentation Symbols and Binary Code in High Strangeness Phenomena at the 2016 Ozark Mountain UFO Conference in Eureka Springs, Arkansas. Over decades there have been reports of highly strange phenomena around the world that involve symbols on unidentified aerial craft. Some of those high strangeness cases have also included binary code that has been translated. Linda compares symbols and binary code translations in cases that have ranged over time from the 1800s to current day			Can be additional information where a file name has ambiguous naming. Description	Host: Linda Moulton Howe Guest: John Burroughs Date: 26 February, 2015 Duration: 00:09:43 Linda speaks to John Burroughs about his exposure to radiation after his experience in Rendlesham Forest. Linda's Earthfiles site report to which this interview relates titled: Part 1: Implications of John Burroughs's Full V. A. Medical Coverage from Injury Caused by Unidentified Aerial Phenomena (UAP) Radiation at RAF Bentwaters/Woodbridge, Dec. 1980. From the interview which also discusses Project Condign: "Now, that was one of the documents that was submitted to the V. A. The fact that there was an MoD document saying that we were exposed to above background radiation. Then, when you get into Project Condign, which is a huge report that has a lot in it, but it's one of the few things in the report when you go through the report - and it's over 400 pages long (460 pages) - there's a spot in there where it goes: 'The well-reported Rendlesham/Forest Bentwaters event is an example where it might be postulated that several observers were probably exposed to UAP (Unidentified Aerial Phenomenon) radiation for longer than normal UAP sighting periods.'" Publication date:	2015	(Year)		

Description	Host: Linda Moulton Howe Guest/s: Pat Frascogna and John Burroughs Date: 26 February, 2015 Duration: 00:10:22 Linda summarised this as: Groundbreaking Implication of V. A. Granting Full Medical Benefits to John Burroughs - UAPs Are Real and UAP Radiation Injured John During Military Duty. Frascogna: "After many years of trying to get the Veterans Administration to recognize that John Burroughs was injured in the line of duty in December 1980 in responding to what initially was thought to be a downed aircraft in the Rendlesham Forest near the twin bases of Bentwaters and Woodbridge, the injury that he received was immediate to his heart - something that he did not have when he went into the Air Force just a year or so before that eventually would require open heart surgery." "Yes, in reference to the document that was formerly U. K. Restricted and I am just going to quote from it: 'The well-reported Rendlesham Forest/Bentwaters event is an example where it might be postulated that several observers were probably exposed to UAP radiation for longer than normal UAP sighting periods. The unidentified aerial phenomenon" - or referred to in the United States as Unidentified Flying Objects (UFOs) or "anomalous vehicles" and when these craft are operating, they emit a certain electromagnetic field. That field is known to cause injury. That is what was referenced in the U. K. document."			Can be additional information where a file name has ambiguous naming. May also include text from an article or publication
-------------	---	--	--	--

Additional information	Eventually the V. A. admitted knowledge of John's service at RAF Bentwaters-Woodbridge in the 1979-1982 time period, but found those medical records were "classified." By 2013, needing open heart surgery to repair seriously damaged mitral valve leaflets, John was angry and frustrated at not being able to get V. A. medical disability coverage when he was learning that a Top Secret U. K. Restricted Project Condign - that had been quietly de-classified in 2006 - contained information that directly linked exposure to UAP radiation in the December 1980 Rendlesham Forest "unexplained lights" phenomenon to bodily injury and mental manipulation. Whilst she and the Ancient Aliens production team are filming in December 2010 an elderly lady - a former now retired and attached to the local elementary school - approaches Linda with a story about a house that used to be near the base East Gate, that had completely vanished shortly after the Rendlesham Forest events. Additional information	Former Arizona Governor Fife Symington moderates a distinguished panel of former high-ranking government, aviation, and military officials from seven countries to discuss close encounters with what the US Air Force describes as Unidentified Flying Objects (UFOs). Representatives from France, England, Belgium, Chile, Peru, Iran and the US call for the US Government to join in an international dialogue and re-open its investigation - which the Air Force shut down over 30 years ago - in cooperation with other governments currently dealing with this unusual and controversial phenomenon. While on active duty, the panelists have either witnessed a UFO incident or have conducted an official investigation into UFO cases relevant to aviation safety and national security. James Fox introduces the conference and Fife Symington moderates. Description	Document: DEFE/24/1948-1_1 Description: Digital copy of DEFE 24/1948: UFO reports of sighting: Rendlesham Forest, December 1980; with redactions Date range: 1992 January 01-2002 December 31 Held by: The National Archives, Kew Legal status: Public Record(s) Closure status: Open Document, Open Description Access conditions: Open on Transfer Record opening date: 17 August 2009 Page count: 54	Can be additional information where a file name has ambiguous naming. May also include text from an article or publication
-------------	--	--

Additional information	Although the cover of this file states that it was opened on 25 October 1982, it is clear that this was not the case. Sec(AS) was not in being at this time only being formed around early 1985 and therefore no file with a reference number starting with D/Sec(AS) could have been in existence in 1982. Although no record of when it was opened can be found, it is probable that it was created during the period 1991-94. The file itself is clearly a compilation file comprised primarily of documents that were removed from their file and placed on this file. This would account for the non sequential enclosure numbers which may confuse readers (April 2008 File note)	May also include text from an article or publication
