Library address link	https://avalonlibrary.net/UAP%20in%20the%20UK%20Air%20Defence%20Region%20%28Project%20Condign%29/Volume%201/UAP%20in%20the%20UK%20Air%20Defence%20Region%20-%20Volume%201%20%28FULL%29/UAP%20in%20the%20UK%20Air%20Defence%20Region%20-%20Volume%201%20%28FULL%29	
Author/Source	UK Ministry of Defence (MoD)/UK National Archives	(Where known)
Publication date:	2000	(Year)

Description	Author: Air Command Owner: Ministry of Defence Date document created: 15 May 06 Date released proactively: 15 May 06 Date last updated: 14 Jun 12 The results of Project Condign were compiled into a 400-page document titled Unidentified Aerial Phenomena in the UK Air Defence Region that drew on approximately 10,000 sightings and reports that had been gathered by the DI55, a section of the Directorate of Scientific and Technical Intelligence (DSTI) within the DIS (Defence Intelligence Service). It was released into the public domain on 15 May 2006 after a September 2005 Freedom of Information Act request by UFO researchers Dr David Clarke, a lecturer at Sheffield Hallam University, and Gary Anthony, a former BUFORA astronomical consultant. The identity of the report's author/s was not made public. The author of the report, whose identity was not disclosed, was an MoD contractor with high security clearance and evident scientific training. He was given free access to all material on UFOs retained by the MoD and was able to speak openly about whatever he found. The report was not written for publication and remained so secret that only a handful of people were ever shown it when it was completed in 2000. Formally classified UK Eyes only UK restricted. Volume 1 and 2 are classified 'RESTRICTED', Volume 3 SECRET - issued by DI55 in February 2000 internal memo No. 55/2/00. Volume 1 is the main report which also provides indexes to all report volumes. The Main Report (Volume 1) describes the Background, Methodology used, the Data Base and the Statistical Analysis.	Can be additional information where a file name has ambiguous naming. May also include text from an article or publication
-------------	---	--

Additional information	The contents of Volume 1 were released in separate parts labelled A - G with additional annexes During a policy review in 1996 into the handling of Unidentified Aerial Phenomena sighting reports received by the Ministry of Defence, a study was undertaken to determine the potential value, if any, of such reports to Defence Intelligence. Consistent with Ministry of Defence policy, the available data was studied principally to ascertain whether there is any evidence of a threat to the UK, and secondly, should the opportunity arise, to identify any potential military technologies of interest. Note: full text of Project Condign is also available at the Internet Archive https://archive.org/stream/396201-defe-24-2090-1/396201-defe-24-2090-1_djvu.txt with options for other formats. Page count 160	May also include text from an article or publication
------------------------	---	--

Librarian notes	This file was created by collating the several parts released by the MoD. Original source for Volume 1: https://webarchive.nationalarchives.gov.uk/ukgwa/20121110115057/http://www.mod.uk/DefenceInterNet/FreedomOfInformation/PublicationScheme/SearchPublicat

Description	Author: Air Command Owner: Ministry of Defence Date document created: 15 May 06 Date released proactively: 15 May 06 Date last updated: 26 Jul 11 Volume 2 contains Supporting Technical Point Papers covering topics relevant to an understanding of the phenomena. This volume contains working papers, in no particular priority order, resulting from information collected and conclusions drawn from a wide variety of phenomena which have been applied to the study of UAP. Volume 2 Part A Contents: includes UAP effects on humans, electrical/electronic equipment and objects. Annex F - page 15 - includes non-ionising EM effects on humans listed on this table and is continued in part B Page count: 15	Can be additional information where a file name has ambiguous naming. May also include text from an article or publication
-------------	---	--

Additional information	Volume 2 contains too many files to merge into 1 document so each part remains an individual file	May also include text from an article or publication

Author/Source	UK Ministry of Defence (MoD)/UK National Archives	(Where known)
Publication date:	2000	(Year)

Description	Author: Air Command Owner: Ministry of Defence Date document created: 15 May 06 Date released proactively: 15 May 06 Date last updated: 26 Jul 11 This is the third volume of a three-part report on the information held in DI55 on the subject of UAP. The material in this report is classified overall SECRET only because it contains performance values of the UKADR radars. Radar performance is directly relevant to whether unidentified aerial objects can enter and leave UK airspace and whether they constitute a threat. Volume 3 considers classified radar performance data and contains an assessment of relevant technologies in the context of potential military applications and an assessment of UAP as potential hazards to aircraft.	Can be additional information where a file name has ambiguous naming. May also include text from an article or publication
-------------	---	--

Additional information	The contents of Volume 3 were released in separate parts labelled A - E	May also include text from an article or publication
------------------------	---	--

Librarian notes	This file was created by collating the several parts released by the MoD. Original source for Volume 3: https://webarchive.nationalarchives.gov.uk/ukgwa/20121110115232/http://www.mod.uk/DefenceInternet/FreedomOfInformation/PublicationScheme/SearchPublic

Author/Source	Dr David Clarke/Gary Anthony	(Where known)
Publication date:	2006	(Year)

Description	Author/s: David Clarke and Gary Anthony Publication: International UFO Reporter - IUR Issue: Vol 30, No. 4 - page/s 3 - 13 and pages 29 - 32 Title: The British MoD study: Project Condign Date: August 2006 Early in May 2006 we revealed to the world's media the existence of a secret study of UFOs, codenamed "Condign," commissioned by the UK Ministry of Defence (MoD). The discovery of the study's four-volume report, completed in February 2000, was the culmination of almost 18 months of investigative research involving a team of Britain's most experienced UFO researchers. The key finding from the perspective of ufology is expressed in the introduction to the study, where the report's author states that it is an indisputable fact that some UFOs, or UAPs (Unidentified Aerial Phenomena) as they are described throughout the report, are generated by an unknown phenomenon.	Can be additional information where a file name has ambiguous naming. May also include text from an article or publication
-------------	--	--

Additional information	David Clarke is a senior lecturer in journalism at Sheffield Hallam University, UK, where he teaches research techniques and use of the Freedom of Information Act legislation. Gary Anthony is an amateur astronomer from Yorkshire who has been interested in the UFO phenomenon for over 20 years.	May also include text from an article or publication
