REPORT OF AN UNIDENTIFIED FLYING OBJECT

- A. Date, Time and Duration of Sighting. 13 August 1985 2200hrs A
- B. Description of Object. Approx 12 small, bright, fast objects. Green glow duration 10 - 15 seconds each.
- C. Exact Position Observer. As per L, outdoors.
- D. How Observed. Naked eye.
- E. Direction in which Object was first seen. From the direction of Sheffield moving towards Finningley.
- F. Angle of sight. Estimated very high.
- G. Distance. Not known.
- H. Movements. Moving very fast, erratic, but controlled movements.
- J. Meteorological conditions during observation. Clear night.
- K. Nearby objects. Built up residential area.
- L. To whom reported. SDO RAF Finningley - Flt Lt Section 40 Via Finningley switchboard.
- M. Name and Address of informant. Section 40  
 Doncaster Tel: Section 40
- N. Any background on the informant that may be volunteered.  
 Stable. Wondered if he had seen a meteorite shower.
- O. Other witnesses. Informants wife.
- P. Date and time of receipt of report. 13 Aug 1985 2255hrs A
- Q. Is a reply requested. Yes

SOP 502REPORT OF AN UNIDENTIFIED FLYING OBJECT

A. Date, Time & Duration of Sighting	131835A Aug 85 1 minute.
B. Description of Object (No of objects, size, shape, colour, brightness)	Grey metal. Size of suitcase. Heart shaped with 3 black rings.
C. Exact Position of Observer Location, indoor/outdoor, stationary/moving	Bedroom of house.
D. How Observed (naked eye, binoculars, other optical device, still or movie)	Naked Eye.
E. Direction in which object first seen (A landmark may be more useful than a badly estimated bearing)	From House. South West.
F. Angle of Sight (Estimated heights are unreliable)	Unclear.
G. Distance (By reference to a known landmark)	Less than $\frac{1}{4}$ mile.
H. Movements (Changes in E, F & G may be of more use than estimates of course and speed)	Gliding 20-30 mph.
J. Met Conditions during Observations (Moving clouds, haze, mist etc)	Clear.
K. Nearby Objects (Telephone lines, high voltage lines, reservoir, lake or dam, swamp or marsh, river, high buildings, tall chimneys, steeples, spires, TV or radio masts, airfields, generating plant, factories, pits or other sites with floodlights or night lighting)	Nil.

UNUSUAL OCCURRENCE - MIDDLE WALLOP AREA

Reference: --

A. Telecon Col **Section 40** 051730A Aug 85.

1. Enclosed are a brief report and polaroid photographs of the scene together with an extract from the HAMPSHIRE CHRONICLE reporting similar occurrences.
2. Four films, 2 x 100mm Colour, 2 x 35mm Black and White, of ground and aerial photographs of the scene have been given to MOD CS(Rep S) Photography **Section 40** with instructions to forward prints and negatives to you.
3. The films are the private property of **Section 40** and I would therefore be grateful if the negatives could be returned to me as soon as possible so that I can give them back to him. (With some prints if possible for services rendered).
4. Purely incidentally, **Section 40** was an official observer and film camera man at the BIKINI ATOL Atomic Explosion in 1952.

**Section 40**

Lt Col  
S02 Avn Stds HQ DAAC

UNUSUAL OCCURRENCE (UFO?)

1. On Monday 5 Aug 1985 **Section 40** ██████████ CLATFORD who farms near the AAC Centre, Middle Wallop telephoned to report some extraordinary depressions in a field of near ripe wheat, and asked, "What on earth we (THE AAC) were up to now?" I took the Aircraft Accident Investigation Officer (AIFSO) Maj ██████████ REME with me and went to inspect the scene.

2. The site, **Section 40** Grid Reference 346392 was a vergin, un-weather damaged, near ripe field of wheat. We found the following:

a. An exactly circular hole in the wheat in which the wheat had been laid flat in a clockwise twist 40 ft in diameter. (As if a plank had been put with one end at the centre and then swept round in a complete circle). There were one or two stalks of wheat standing which had sprung upright again. The wheat on the edge of the circle was completely upright and undamaged.

b. Four separate, smaller circles approx twelve feet in diameter, exactly similar to the larger one. These were set in a precise square, NORTH/SOUTH and EAST/WEST, with their centres 43 paces from the centre of the large circle.

c. There were absolutely no tracks in the wheat. To have set the holes in such a precise pattern manually would have required a tape measure or string, and the users would have been bound to leave tracks in the wheat.

d. All but one of the holes touched onto the main furrows in the wheat, and could therefore be approached from the edge of the field without leaving tracks. However there was no way of moving from one to the other without leaving tracks in the wheat, except by going some 200 yards to the edge of the field, and then back down another main furrow. One of the smaller holes was completely isolated.

**Section 40****Section 40****Section 40**

3. Maj ██████████ took some polaroid photographs which are included with this report. Mr ██████████ a semi professional photographer, took some 120mm colour photographs. I subsequently took Mr ██████████ and we photographed the scene from the air. By that time some half a dozen sight-seers were on the scene and a track, which had not been there when we were on the ground, had been made out to the isolated hole.

4. Present at the initial viewing were:

Lt Col **Section 40** ██████████ AFC AAC

Maj **Section 40** REME

**Section 40** ██████████

And two others

None of us could offer any reasonable explanation.

5 Aug 85

### Chilbolton Church Fete

Spanning the usual fancy dress competition at Chilbolton Church Fete, a parade with the theme "Children of the World" and its way from the Green, Rise and through the village, led by the Test Valley Brass Band. Children ranging from pre-school to teenagers were dressed in costumes from various parts of the world. A mounted contingent in the local riding school outriders on BMX bikes, children rode through the village on a haywain, decorated motor and trailer, kindly led by Mr. Edward Painter.

The entries were judged by Rev. C. Hubbard, Mr. David Merridale and Mrs. Angela Merridale, and prizewinners were Charles Coats, Katherine Lewin, Thomas Batchelor and Nicola Jones.

Still on the theme of "Children of the World," there was a competition to make a dwelling from another country, and prizewinners were Rachel Preveat, Thomas Batchelor and Katherine Lewin. Pre-school children were invited to paint a picture on the same theme and the winner in this section was Andrew Lewin.

The village street was gaily decorated with bunting by village organisations and groups, and there was an excellent attendance, and all the stalls were well supported.

This year's very successful fete was held in the recently restored threshing barn and on the lovely grounds of Barnuta Farm, with the kind permission of Mr. and Mrs. B. Youell, and upwards of £1800 was raised.

brought to an end by the ball burst, but the day was saved when a new ball was hurriedly produced from a nearby house. The Plough were the victors with a score of 2-1, and this obviously did not prove popular with the Dolly Birds who proceeded to pour water over the referee. Vera Woodruff captained the Plough team of Pat Casey, Sharon Kempster, Sally Nicholson, Melanie Gerrard, Debby Welch, Sue Ruff and Fran Piper. Dolly Birds were Sue Rees (captain), Kate Denehy, Georgina Wilson, Wendy Denehy, Julie Harris, Ivy Wright, Sue Smith and Sally Rees.

The Children's Fancy Dress Competition was judged by Miss Dorothy Hunt from Alresford, and her task was made harder by such a variety of excellent costumes. In the Under Five Class the most original was Lara Colvill as "Night and Day," the most attractive Sarah Kennedy as a Clown, and the best made Liam Brozman as a Cowboy. In the six to nine years age group the most attractive was Katie Kennedy as a "Sugar Plum Fairy," and the most original Rose Smith as a Cat.

Strawberry teas were served in the Village Hall, and the final item on the programme was a tug-of-war refereed by Dave Bulpitt. Only four teams entered this year, from the Plough at Bishop's Sutton, the H.F. at Cheriton, and two from the Jolly Farmer at Bramdean. The victors were the Jolly Farmer A, with the H.F. second, the Plough third and the Jolly Farmer B fourth.

At the end of a very successful afternoon £330 had been raised by the Village Hall Committee, who had organised the fete.

Bishop's Waltham, who works for Solent Excavations, was married to Miss Carol Jay Millier, daughter of Mr. and Mrs. A. P. Millier, of "Fair View," Winchester-road, Bishop's Waltham, on June 29th, at St. Peter's Church, Bishop's Waltham. The Rev. John Willard conducted the service.

The bride, who is a receptionist with T.N.E. Roadfreight, wore a cream three-quarter length gown, a pillbox hat and carried a bouquet of mauve and pink silk flowers when she was given in marriage by her father. She was attended by her sister (Patricia Millier), her niece (Virginia Whiting), both attired in lilac dresses with cream accessories, and her nephew, Gareth Millier.

The best man was Mr. David Grove; 146 guests attended the reception at the Jubilee Hall and when the couple left for an undisclosed destination, the bride wore a red suit with white accessories.

### Founder's Day at Hordle House School

The parents of nearly all the local day children from Hordle House Prep. School, at Milford-on-Sea, together with many boarders' parents who had made long journeys, went to the school on June 29th, for Founder's Day, and the main event of the morning was a performance by some of the senior children of scenes from "The Merchant of Venice." At a previous performance, one of the infants from the Pre-Prep. School had been terrified by Shylock's realistic effort to get his pound of flesh from poor Antonio!

Country dancing by some of the junior children was supported by rhythmic clapping from the enthusiastic parents, and the last set piece was an exhibition of aerobics by a group of barefoot girls.

The school was open for parents to walk round, and the working models and computer displays in the Science Laboratory attracted great interest. Most of these had been made by senior children, and the exhibition in the Art Department was much admired.

Picnic lunches were eaten in the grounds, and the parents' cricket team, captained by Mr. Peter Tilby, home on leave from Nigeria, was defeated by the school 1st XI by 16 runs. The balance of parental power was restored by the ladies' shooting team scoring 357 against the school's 296, and justice was maintained by the tennis match ending in a draw.

It's happened again! The Mystery Circles have returned. Nobody knows why or whence they come, but every year since the last war, the perfectly regular circles have appeared somewhere. For the last five or six years, they have materialised between Alresford and Winchester, first at Cheesefoot Head, this year at Matterley Farm, just off the A31. Similar phenomena have been reported in Australia, Canada, Sweden and in other parts of the British Isles including Westbury and Warminster. The largest in this group is about 40 feet across, the rest are 11 or 12 feet. In each the corn is swirled clockwise round the rings, whilst outside it is untouched. Normally — if anything about them can be called normal — they are in this configuration, the largest in the centre of a square, the smaller at each corner, although in 1982 at Cheesefoot, there were only three in a straight line. Theories abound about the cause, from vandalism to UFOs by way of micro-tornadoes. The truth is, we just don't know, but if they run true to form they will be back next year . . .

Officer Commanded,

A.I.F.

LATICCI R.A.F.

West Drayton

Dear Sir, I wish to inform you that at about 10 PM, on Friday, August 2 I saw from my window what I am convinced was a U.F.O.

I glanced through my window & saw what appeared to be a most brilliant & beautiful sunset to my right. But of course it was much too late to be a

Sunset, & was too high in the sky. As I watched a brilliant ball of light detached itself from the "sunset" & moved steadily away to the left, on a dead straight line. I thought "that's a very brilliant moon", & then I realised it was travelling the wrong way for the moon - it was going from right to left. It was a most brilliant light, not flashing or twinkling but just moving steadily. As I watched, wondering what it could be, it curved downwards towards the sea, & then to my amazement it hovered above the sea for quite some seconds, & then, having remained

2

still, while a light house on the  
Somerset coast flashed regularly, so  
that I now saw two lights - one  
flashing & one still, it suddenly  
disappeared.

It was certainly not  
a shooting star - it travelled in too  
steady a straight line, & it was not  
a crashing aircraft - I saw from  
my window some months ago a  
Trainer Jet crash into the sea  
off the lower coast, outside Swansea  
& that had flashing lights in  
quite a different manner, and  
anything falling from the sky  
would not have remained

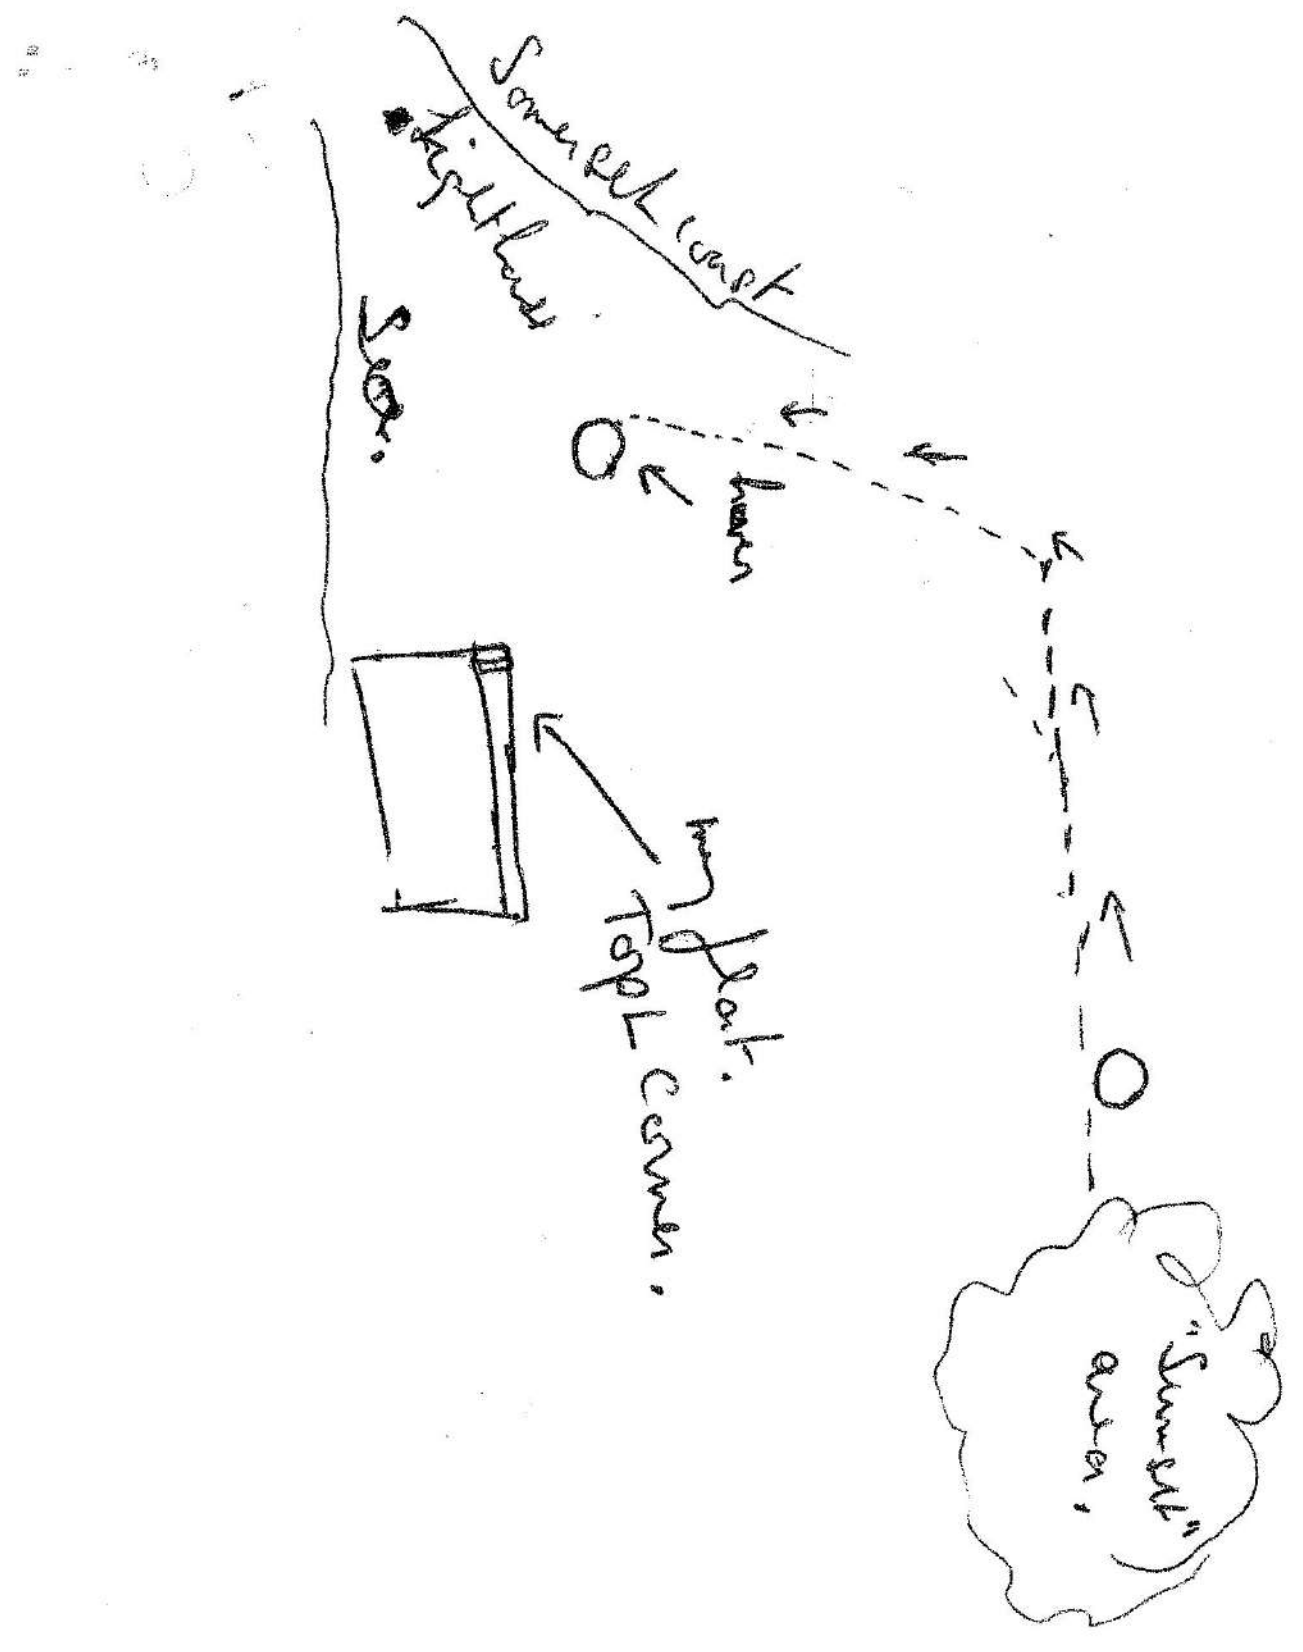

still, over the sea, on the way  
this did.

I might add I am  
76 years old, & not given to  
wild flights of imagination!

I have enclosed a  
rough diagram of what I saw.

Yours faithfully,
