Section 40

Section 40 appeared to be a sensible lady, who maintained throughout that the object she saw was not a figment of the imagination. She was awoken by a very bright light shining into her bedroom. On looking out she saw an object approx 7-8' across, round and on the ground. There was no noise coming from it and it was stationary. She watched the object for a couple of minutes and during this time there was no movement. Later that morning her son visited the area and found 3 circles in the grass. Inside these circles the grass appeared brighter than the surrounding area. The circles were indented about 1-1½ inches. The area was also visited by Sqn Ldr [redacted]. The discription of the area is produced below.
