MINUTE SHEET

Subject

Station: Dewsbury Date: 13th April 1988

UFO SIGHTING.

Sub Divisional Officer, Dewsbury.

A report was received from Section 40 [redacted] aged 17 years regarding the sighting of an unidentified flying object at 3.15 a.m. on Tuesday 12th April 1988.

The informant who suffers from Section 40 [redacted] was unable to sleep and was spending the night on the sofa in the lounge of her home. At 3.15 a.m. the family dog became agitated and began barking. A sound could be heard which she described as being like a railway locomotive only yards away. The nearest railway line running from Huddersfield to Wakefield is approximately 1 mile away. There were no vehicles in sight outside the house which is in a small quiet cul-de-sac.

On looking through the lounge window the informant saw an object in the sky some distance away, probably between the Rectory Park and Combs Road area. She could not describe a shape but saw that it displayed a round red and a round white light, similar to those displayed by aircraft. The object was observed for several minutes and did not move. Her angle of sight from the lounge window was between 30 and 40 degrees. Stars could clearly be seen as the sky was clear.

When the informant closed the curtains after several minutes the lights were still visible and had not moved, the sound was still continuing. She was sure that the sound was with the lights. The sound continued for at least 30 minutes before she fell asleep.

The object was observed from indoors and by the naked eye only. There are no large buildings nearby but other dwellings are on higher levels than the informants home.

Section 40 [redacted] was the only person to see the object but next door neighbour Section 40 [redacted] of Section 40 [redacted] heard what she described as a humming noise above the houses at 3.15 a.m. the same morning. She was awoken by the noise but on looking outside could see nothing. She will verify that the noise continued for some 15 or more minutes, and could clearly be heard indoors, Section 40 [redacted] works for the Section 40 [redacted] but has made no mention of the incident at work.

Section 40 [redacted] has made no mention to the press. She has not had any involvement with any of the armed services or with any UFO agency. She did however ring Leeds/Bradford Airport and was told that a similar report had been received from Leeds that morning.
