She has started up a Somerset branch of
Bifora and is currently investigating some
sightings between 3-14 August. She is
trying to determine whether we are aware of
any activity that might have been taking
place at the time which might explain
the sightings (lights in sky, about the
size of a football at arm's length!, and
shaped a bit like a daisy !!).

She would appreciate a telephone call.

Family sees strangers in the night

A LITTLE green
omen could be set
to land in the area,
after a number of
strange sightings
in the skies.

The Neal family from
Scawby saw what they
believe to be an
unidentified flying
object on Friday evening.

And a Crosby woman
has also reported seeing
a strange object in
the skies — also spotted
in the Gladfield
area by her relatives.

Checks to local RAF
bases reveal no aircraft
reported flying in the
area on Friday night
and so the strange
sightings remain a
mystery.

COUNCILLOR KER
Stephen Neal and his

KATHRYN REANEY

wife Sallianne, of St
Martin's Crescent,
Scawby, said they were
driving their two
daughters Louise (12)
and Victoria (nine), to
the library in Brigg
when Louise spotted
the object.

"She said what's that
stick in the sky,
mum," said Sallianne,
who thought at first
Louise had seen a
plane or something
similar.

Sallianne described
the object as quite a
big stick of light that
looked like the edge of
a saucer.

It was moving
slowly, said Sallianne
and the family headed
towards Barton Lind.

They got a better view.
But before they got
there it seemed to turn
and disappear, she
said.

"I can't explain what
we saw," she said. "It
wasn't a bird and it
wasn't a plane. We just
couldn't describe it."

Now the family are
hoping Evening Tele-
graph readers may
have seen something
similar on Friday night
or that experts may be
able to explain what
they saw.

"I'm always sceptical
about these things,"
she added. "Whether it
was the light playing
tricks, I don't know."

"It would be interesting
to find out what it
was."

Local police said
they had not had any
reports of UFO sightings
over the weekend.

Mystery object was cigar-shaped

A CROSBY woman who believes
she saw an unidentified flying
object in Scunthorpe on Friday
night has learned she is one of a
growing number of people who
have had sightings in the area.

The woman, who does not wish to
be named, was called outside by
her partner when he got home from
work at around 10pm.

He had seen the object as he came
home from work.

She said the cigar-shaped craft
had small wings on it but not at
right angles like a plane.

There was no plane noise and
there were lights underneath it, she
said.

According to the woman, the
object was stationary for a while
before moving off very quickly.

found that her stepson had seen a
similar object as he drove from
Barrow to Barton at about the
same time on Friday.

"It was very strange," said the
woman. "I wondered if anyone else
had seen anything."

Now a national expert has added
weight to the claim, saying that the
number of UFO sightings across the
country has risen significantly in
the last few weeks.

Philip Mangle of the British UFO
Research Association, said that 95
per cent of sightings turn out to
have a logical explanation such as
weather phenomena or planes but
that a small percentage seem to
have no explanation at all.

The Bradford-based authority
said he would contact Humberside
