REPORT OF AN UNEXPLAINED AERIAL SIGHTING

1. A **Section 40** rang (work telephone no **Section 40**)  
**Section 40** Last night she saw white bright flashing moving lights in the sky over Burnside, near GLASGOW. The time was 2340 hrs.
2. I explained our role and that we knew of no evidence to support extraterrestrial lifeforms so the most likely explanation was that it could have been several aircraft lights which were nowhere near each other but by a quirk of perspective appeared all in close proximity with one another.
3. I said if there were any sightings in the vicinity reported to us in the coming week we would contact her to let her know. She seem quite happy with this. She was not a "believer", but was just generally interested in case we might know what it was.

**RAF POLICE SITUATION REPORT FOR THE PERIOD  
0800 HRS TUE 14 MAY 96 TO 0759 HRS WED 15 96**

1. For your information, during the reporting period, a number of incidents occurred which were reported to and actioned by the RAF Police, which involved RAF St Mawgan, its property, personnel and environment.
2. Brief details of the incidents are outlined below:

**RAF POLICE**

DOB No  
734/1/96

TIME  
0015hrs

**DETAILS OF OCCURRENCE  
UFO SIGHTING REPORT**

ATT this time the duty PBX operator, SAC **Section 40** telephoned this location, stating that he had a civilian on an exchange line wishing to report a suspicious object that he believed to be a UFO hovering over his property at Tintagel. The person identified himself as **Section 40** of Tintagel. He described the object as being of "enormous size", very bright, triangular in shape with 9 lights down each of it's sides.

**ACTION TAKEN;**

SAC **Section 40** was instructed to tell **Section 40** that as the object was so far away from RAF St Mawgan we were unable to assist him and that if the object was a cause for concern, the only advice that we could offer him was to inform the local police.

**ALSO TO BE NOTED;**

At approx 0110hrs the civilian police at Camborne informed us that they had spoken to **Section 40** regarding the sighting and that he had further reported the sighting to both the National press and the Civil Aviation Authority. Due to possible involvement with the press, Flt Lt **Section 40** was informed.

3. Should you require further information concerning the above incidents, I should be happy to brief you at your convenience.

STATES:-

About 2040 hours, Tuesday 2nd April 1996, I was driving northwards on the A1, about 30 miles south of Edinburgh (near large cement works), when I saw two Orange/Red coloured circular lights in the sky one on top of the other. They appeared to be flying at the height of an airliner, they shot across the sky in a westerly direction but I would say their speed was at least eight times faster than a normal jet.

I pulled into a layby to watch these objects, after I had parked up I noticed one of the objects had disappeared. The other appeared to be hovering, I couldn't understand how it had come to stop so quickly due to the speed it travelled across the sky. The object then began to move slowly southwards and the whole thing was flashing in and out. I watched it until it disappeared out of sight.

The sky was clear and the weather was fine.

P. 1

The complete details as received by telephone during the night  
21 MARCH 96 at 0245 are included below:

19 MARCH?

At SOUTH DRIVE I stopped the car which I had been following for several miles.

The OBJECT or LIGHT FORMATION was moving slowly, in the ANNIESLAND direction and was constant in height estimated at between 200 - 400 FEET ABOVE GROUND LEVEL.

While stationary, in SOUTH DRIVE, I had an extremely clear view of the FORMATION then it came to a standstill very close to VICTORIA PARK. It was in the form of a CHRISTMAS TREE at a height of APPROX. 200-300 FT AGL and remained there for between one and two minutes.

I then observed another smaller object appear from ground level relative to where I was standing.

This object rose from behind some buildings that lay in my view and was of a definite triangular shape small in size. It had low power white lights also triangular within the defined shape of the object.

It then moved vertically from the ground and travelled horizontally a very short distance estimated as 100 yards and proceeded to merge into one of the corners of the LIGHT FORMATION and was then no longer visible when the three lights extinguished.

The LIGHT FORMATION remained stationary throughout this event then disappeared like a light bulb being switched off within 15-30 seconds. No distinctive shape of the secondary object could be observed within the primary formation after the object merged.

On site examination by myself and a fellow investigator has revealed the possible location where the small object arose and might be one of two locations, either the YARROW SHIPYARD or immediately opposite over the RIVER CLYDE BARR & STROUD ELECTRONICS.

No sound was emitted at any stage throughout the sighting and was definitely not an aircraft, helicopter or balloon.

Report by Section 40 Glasgow. He telephoned on 25/3/96 + informed me this report would be on its way.

# UFO fear for local family

Luke Barnard: "There was something up there I just don't know what it was."

A LOCAL mother has described her fear as she watched what appeared to be an unidentified flying object in the sky above Brecon.

Mrs Sarah Barnard had just collected her son Luke, 10, from a snorkelling class at Brecon swimming pool. She was driving Luke and daughter Bianca, 12, back to their St John's home via Hay Road last Thursday night. It was very dark but clear.

Their first warning of anything unusual came from Luke in the back of the car just as they had rounded the left turn at the junction near Bishop's Meadow.

Mrs Barnard later estimated the time at about 9:20pm. "Luke said 'what are those lights, Mum?' I said 'I don't know.' Bianca said 'what is it?' I said 'I don't know'. We were mesmerised for a few seconds.

"There was this circle of red lights across the field. I stopped the car and wound down the window. There wasn't a sound. It was dead quiet and these lights were slowly coming towards us.

"My heart was pounding. It was practically over the car. It took ages to get to us - I must

by Jason Woolfe

have been there for five minutes waiting for it to come.

"You could sense it was solid because everything was going dark over us as if a big cloud had come over."

Mrs Barnard said it was difficult to estimate the diameter of the ring of the 10-20 steady red lights, which appeared to stand vertically in the sky like a big clock face. She thought the silent object was only as far away when she first saw it as the end of her street from her home - not more than 200 or 300 metres.

"I was frightened," she said. "I honestly thought if it came over us we would be 'zapped up' - I know it sounds silly. I was trying to look to see what it was, wondering was it an aeroplane? They all knew the lights were not an aircraft or anything else they had seen in the sky before.

The mysterious object was almost above the Vauxhall car when Mrs Barnard drove off. "If my mum had been stood on the roof she would have been able to touch it," said Luke.

"As I drove off I looked up and I could see this big thing

over me, and I thought 'Oh my god I've got to go.' My heart was pounding. I was sweating and awful thoughts were going through my mind," said Mrs Barnard.

If the object had continued on its course, Mrs Barnard guessed it would have passed north of Brecon Leisure Centre and travelled over the empty road towards Groestfordd.

Her excited children wanted to tell their grandmother about the inexplicable sighting and their fear gave way to laughter and thoughts of little green men as they drove away.

Mrs Barnard, who works at Dering Lines and whose husband Brian is a builder, had never had any sort of strange experience before and reported the unidentified object to the RAF.

An MoD spokesman said they had not received any other reports of anything unusual in the skies that night.

None of the family know what they saw last week. They have recovered from their mysterious experience but are left wondering.

"I was scared," said Luke. "What was it going to do to us?" He looked up, and added "And where is it now? See cartoons on page eight

UNUSUAL EVENT - REPORTED BY Section 40

Section 40 LLANRHYSTUD, DYFED Section 40

1. At about 22.00-22.15hrs on Sunday, 25 Feb 96, Section 40  
Section 40 accompanied by her Section 40 daughter, was driving south from Aberystwyth on the A487 road. About half way between Blaenplwyf and Llanrhystud they saw a large pale (whiteish) light in the 11 o'clock position at an angle of 30-45° from the horizontal. The light was diffused or "watered down" and most unusual. It moved slowly from left to right across their path.
2. Shortly afterwards several white lights appeared from the area of the first sighting and proceeded to approach the car, passing over it very, very low ("skipped the car") from right to left. These appeared to "become" an elliptical white light behind hills to the left of them which eventually went out. As the lights crossed the car the observers were looking up at, perhaps, an angle of 80°.
3. Section 40 seemed a very sensible and responsible person who does not believe in UFOs. However, neither she nor her daughter have ever seen anything like this before and, if we have an explanation, they would be interested to know.
4. The weather was cloudy at the time. Section 40  
telephone number is Section 40. We have had no other reports of such sightings to date and I find it difficult to imagine the cause of this.

REPORT OF AN UNEXPLAINED AERIAL SIGHTING

1. Received a call from **Section 40** Last Saturday morning (22 Feb), at 0215 hours, she and a friend were driving home north of Peebles and they saw two or three distinctive very bright lights in a field, hovering.

2. I explained the MOD position on "UFOs" and offered to let her know if any explanation came to light for the sighting. She clearly understood that we were not necessarily going to be able to come up with an explanation, but did not think what she saw was "extraterrestrial". She was just interested to know if someone else had seen it and could say what it was.

**REPORT OF UFO SIGHTING**

**Call Time:** 070925Z FEB 96

**Name/Address:**

Section 40

**Telephone:**

**The Sighting:**

**Date/Time:** 020805Z FEB 96

**Duration:** 1 minute

**Description:** Was cube-like in shape although the top was bigger than the bottom giving it a 'metal cup cake' appearance. Had reddish glow to it. Was the size of 'several detached houses'

**Position of Observer:**

Driving northbound on M3, just past the M25 junction. 'UFO' was about two miles away on the right. Seen with naked eye.

**Height:**

First assumption was that it was a warning light on a building or mast so, several hundred feet.

**Movement:**

Hovered for 60 secs then flew eastwards at very high speed.

**Weather:**

Slightly misty with generally low cloud cover.

**Reported to Others?**

No, only work colleagues.

**Other Witness:** No-one specific although the M3 was very busy so 'someone must have seen something'.

**Comment:**

Section 40 seemed quite calm and rational about the whole thing and understood that we were only interested from a defence viewpoint. He did mention that he believed a similar sighting was made at Manchester Airport the same day (I didn't tell him that he had misread the reports). Section 40 was particularly interested in whether anyone else had reported the UFO.
