ANNEX A TO
SOP 502

REPORT OF AN UNIDENTIFIED FLYING OBJECT

1. Date, Time and Duration of Sighting	Every day for the last 3 years. Variable times <i>Not recorded on computer so no exact date given.</i>
2. Description of Object (No of objects, size, shape, colour, brightness)	The objects looked like real microlights, biplanes, civvi planes, and learjets, except that they appeared from nowhere, flew erratically, and were pilotless, sometimes accompanied by a bright flash.
3. Location (indoor/outdoor stationary/moving)	Over Orpington, Bromley, and Farnborough Kent.
4. How observed (naked eye, binoculars, other optical device, still or moving)	Naked eye
5. Direction in which object first seen (A landmark may be more useful than a badly estimated bearing)	Various
6. Angle of Sight (Estimated heights are unreliable)	Various
7. Distance (By reference to a known landmark)	Various
8. Movements (Changes in 5,6 & 7 may be of more use than estimates of course and speed)	I do not think that this report should be taken to seriously. Section 40 was inconsistent, incoherent, and implausible. He wanted someone to reassure him that someone was watching all these aliens, and that there was no

	threat to him.
9. Met conditions during observations (Moving cloud, haze, mist, etc)	Variable
10. Nearby objects (Telephone lines, high voltage lines reservoir, lake or dam, swamp or marsh, river, high buildings, tall chimneys, steeples, spires, TV or Radio masts, airfields, generating plant, factories, pits or other sites with floodlights or night lighting)	none
11. To whom reported (Police, military, press, etc)	MOD

1.

12. Name and Address of Informant Name Address	Section 40 Farnborough Kent
13. Background of informant that may be volunteered	None
14. Other Witnesses	None
15. Date, Time of Receipt	10 Jun 98, 1930
16. Any Unusual Meteorological Conditions	No
17. Remarks	When asked what the difference between the objects he saw and normal planes was, he said that they were too advanced for earthly warplanes

Section 40
 Telephone: **Section 40**
- b. **Date, time and duration of sighting:** 29 May 1998 at 0215 hrs, total duration of sighting approximately 5-8mins
- c. **Description of object:** No distinctive shape, extremely bright red, white and blue flashing lights. The object was extremely noisy and sounded like thunder it seemed to stop in midair before shooting off at great speed.
- d. **Exact position of observer:** Initially heard the noise from indoors, as it flew almost directly overhead, she then ran outside to investigate but the object had disappeared into the distance.
- e. **How observed:** (naked eye, binoculars, other optical device, still or video camera).
 Observed with naked eye.
- f. **Direction in which the object was first seen:** (A landmark may be more useful than a badly estimated bearing).
- g. **Angle of sight:**
- h. **Distance:** (By reference to a known landmark wherever possible)
 Approximately 2 miles down the valley
- i. **Movements:** Seemed to hover in the sky before moving off incredibly fast out of sight.
- j. **Meteorological conditions during observations:** (Moving clouds, haze, mist etc).
 Clear night sky
- k. **Nearby objects:** (Telephone lines; high voltage lines; reservoir, lake or dam; swamp or marsh; river; high buildings; tall chimneys; steeples; spires; TV or radio masts; airfields; generating plant; factories; pits or other sights with floodlights or other night lighting).
 Cannot recall anything in particular

Section 40 was observing star and planets through binoculars when she saw the object. She seemed convinced it was a satellite and wanted to know how she could find out what exactly it was. I told her details of sighting would be passed to MOD but was unable to promise any follow up. She ~~was not~~ did not seem satisfied with this response and may well telephone again.

cannot reply as full address not given.

Section 40

Section 40

Caller says herself and three others saw a strange object in the sky at about 2200 16/5/98 over Amersham. It was an orange ball of light with a white ring about the outside of it. It travelled along in a straight line and when it got closer it did a sharp right hand turn and disappeared over the brow of the hill towards Colshill. She says it was flying low and didn't have any wings and there was no noise coming from it. She is happy to be called back if necessary and sounded sound of mind!

Dear Section 40

REPORTS OF 'UNIDENTIFIED FLYING OBJECTS' *enc 96*

Thank you for your letter of 14 April 1998 and the information concerning reports of UFO's. I have now taken the necessary steps to update our Standing Orders.

The UFO Report Form you included has been made an Appendix to our Standing Orders for photocopying should the need arise.

I note that the Low Flying Complaints Cell will be informing me under separate cover in respect of reports/complaints about low flying military aircraft.

I take this opportunity of thanking you for your kind attention in this matter.

Yours sincerely

1. At Reference you asked whether the UFO report raised by a credible witness required follow up action.
2. There is no evidence that unauthorised military activity occurred in the UKADR on 4 Mar 98, nor was there any other unusual activity of air defence interest. I do not intend, therefore, to take any further action.

Dear **Section 40**

REPORTS OF "UNIDENTIFIED FLYING OBJECTS"

1. Thank you for your letter of 31 March in which you asked for confirmation that the information currently held by Essex Police for dealing with reports of "UFOs" is up to date.

2. I have attached a "UFO" report form which can be photocopied locally. The form should be completed as fully as possible then either sent to the address above or faxed using 0171 218 **Section 40** during office hours only. Please use only one method when forwarding the reports. Members of the public can telephone the MOD direct to report a sighting; we have an answerphone facility on 0171 218 2140 where details of their sighting can be recorded. Again, this is only available during office hours (8am - 5pm).

3. I hope this is helpful. The Low Flying Complaints Cell will be replying to you separately regarding reports/complaints about low flying military aircraft.

Yours sincerely,

Dear Sir/Madam

Reports of Low Flying Aircraft / Unidentified Flying Objects

I am currently in the process of updating Essex Police Standing Orders and the enclosed extract provides information on the content of reports in respect of low flying aircraft and unidentified flying objects.

In addition, you will note that copies of our reports should be forwarded to the Ministry of Defence.

I would be grateful if you will confirm that this information is still correct, or amend it accordingly.

Many thanks in anticipation.

Yours sincerely

REPORT OF AN UNEXPLAINED AERIAL SIGHTING

1. CRO at RAF Honnington, Section 40 [redacted] called to pass on a "UFO" sighting reported to him today.
2. Witness: Section 40 [redacted] (Clerk with a Shipping Line) and his girlfriend
3. Driving at 80 mph(!) along the A12 between Wyton and Marks Tye and on the way to Ispwich at 040004hrs Mar 98 they saw lights dancing in the sky. He was sober (had not been taking drugs or alcohol (I should hope not if he was driving!)). The series of lights went up and down in the sky to as low as 300 ft and after 5 minutes, where they seemed to keep pace with the car, they disappeared. His girlfriend was very frightened.

CREDIBLE WITNESS REPORT DATED 4 MAR 98

Reference: D/Sec(AS)/64/2 dated 5 Mar 98.

1. At Reference you asked whether the UFO report raised by a credible witness required follow up action.
2. There is no evidence that unauthorised military activity occurred in the UKADR on 4 Mar 98, nor was there any other unusual activity of air defence interest. I do not intend, therefore, to take any further action.

'UNEXPLAINED' AERIAL SIGHTING REPORT - 4 MAR 98

1. In accordance with current policy I am required to run all 'UFO' reports received by the Department made by 'credible witnesses' past you.

2. We received a message at 1607 hrs yesterday from a **Section 40** (civilian) based at RAF Wainfleet, Boston Lincolnshire, Tel No available if needed). At 041306Z Mar 98 for period of 20 seconds he and a colleague **Section 40** a Chief Radio Technician) saw a large cylindrical solid object which was silver in colour and very bright. The object was seen over the North Sea, South West of Gibraltar Point. They observed the object with the naked eye. It was very high in the sky - well above the cumulous cloud. The object then shot up in the air and disappeared from view. The weather was good with 25K visibility.

3. Thus far we have received no other reports for yesterday.

4. I should be grateful if you would let me know if any follow up action is necessary.

REPORT OF AN UNIDENTIFIED FLYING OBJECT

1. Date, time and duration of sighting. 1st Feb 98, 195hrs. Sighting for 1 1/2 hrs.
2. Description of object. Main object large red/orange luminous ball. 2 smaller red lights converged on it from either side. One rotated clockwise, the other anti-clockwise around the main object. The two smaller objects had totally separate flight paths and kept moving away separately.
3. Exact position observed.
Overhead Cheesefoot Head, on A272 near Winchester.
4. How observed. Through naked eye and then by binos.
5. Direction in which object was first seen. Over Kingsworthy Area.
6. Angle of sight. Viewed from on a hill, at or below eye level.
7. Distance. Possibly 5 miles, though hard to say.
8. Movements. Main object "Just appeared" moved left to right up to 1 mile, then reversed the route. Two smaller lights were "doing their own thing" but ended up circling the larger object.
9. Meteorological conditions during observations.
Clear sky, but when large object appeared a mist formed at ground level directly underneath it.
10. Nearby objects.
None reported as seen.
11. To whom reported. Only to us so far.

20 January 1998

Dear **Section 40**

Thank you for your telephone call to the Station on 16th January 1998 to report an unidentified object flying in the area between Laxfield and Badingham the previous evening.

According to our air traffic records, none of our helicopters were in the vicinity at that time and we were unaware of any other aircraft being in the area. I should point out, however, that as the locality in which the sighting was made lay outside the airspace for which we at Wattisham have any responsibility, we would not necessarily have been aware of any aircraft flying between Laxfield and Badingham. The Station's flying operations had ceased earlier in the evening and the air traffic staff had gone home so none of the Station's radar displays will have been monitored.

I am quite unaware what your daughter and her boyfriend may have seen that evening, however, it may have been far from being an UFO. The airspace inland from the coast is frequently used by the US forces and RAF in transit from the continent to their bases in the UK and there are many commercial and private aircraft which also fly across the area. The lack of noise could be accounted for by differing densities in the atmosphere which can bend or even reflect sound waves.

I can comment no further on your report but I shall send it and a copy of this letter to the Ministry of Defence in London who may wish to take further investigative action.

Yours sincerely

1. At Reference, you asked whether the UFO reports raised by credible witnesses represented anything of air defence interest.

2. There is no evidence that unauthorised military activity occurred in the UKADR on either 19 or 28 Dec 97 nor was there any other activity of air defence interest. Perhaps it was Santa on his outbound and return trips.

DI51 - Section 40

"UFO" REPORTING

1. Sec(AS)2a is the focal point within the MOD for members of the public to report unusual aerial sightings. You asked Section 40 what information is required from your friend who witnessed something strange in the sky and wished to report it. The main points I need to know about the sighting are:

- (1) The date, time and duration of the sighting;
- (2) Description of the object;
- (3) Location of object;
- (4) Movement of the object;
- (5) Meteorological conditions;
- (6) The informant's name, address and telephone number;

With the above information I will be able to process the report in the usual manner.

CREDIBLE WITNESS REPORT DATED 13 NOV 97

Reference: D/Sec(AS)/64/2 dated 25 Nov 97. *enc. 11*

1. At Reference, you asked whether the UFO report raised by a civilian airline pilot represented anything of air defence interest.

2. There is no evidence that unauthorised military activity occurred in the UKADR on 13 Nov 97 nor was there any other activity of air defence interest.

STATES :-

About 20.00 hours on 13th November 1997, I left my work at Sun Micro Systems and drove home to Bo'ness via the Champany. As I was driving along the road, alone in the car, I noticed two bright lights in the sky, close together. They were hovering above the hill at the back of the factory, near to the golf course. I thought it was a plane or helicopter and didn't think too much of it at this time.

As I was driving past the Champany junction, my eye kept catching the two bright lights. At times they seemed far away and others close up, about 300-400 yards high above the sky. I had the radio on low but couldn't hear any engine noise coming from the lights of this object in the sky. As I continued on the way to Bo'ness the object seemed to follow my car, still high on the hill area to the back (south) of Bo'ness.

As I passed Bo'ness Academy I saw the object swoop down from the hill across the Recreation Centre and thought it was going to land on the grass beside the Academy. There was an 'R' reg. red coloured car in front of me, which was driving really slowly, watching the object as well. It hovered just above the ground for a couple of seconds then rose straight up to about the height of a two storey house, then moved slowly over the main road. By this time I was panicking as I knew the object couldn't be a plane or helicopter. There was no sound coming from this object at all. I drove along Dean Road, as did the 'R' reg. car, at speed. I could see in

Dear **Section 40**

I am writing in response to your report about red triangles in the sky on the night of 12 November 1997.

My investigations have revealed that 2 Harrier aircraft from another RAF Station were operating in the area at the time but as the incident occurred outside our military air traffic control zone, I have no further information.

I have therefore forwarded a copy of your report to the Ministry of Defence Air Secretariat which deals with them all and decides whether any further action should be taken.

Yours sincerely,

1. Thank you for the item at Ref.
2. I contacted my friend and posed your questions to him. His replies are attached to this LM. I have also attached his original information, which was contained in a personal e-mail to me, in case it contains information of interest. Another person **Section 40**, who also witnessed the event, apparently from a different vantage point, does not appear to want to be involved.
3. Speaking on a personal level, I have known **Section 40** for about 25 years. He is technically-minded, and has been a licensed radio amateur for at least that length of time. He is also computer-literate, being able to confidently install, commission and use computer hardware and software. He is also able to carry out complex car repairs.
4. If I can help further, please don't hesitate to contact me.

 FILE

Date 12-11-97
Time 23:55
Duration approx 10-12 minutes

Description:

It first started as a very bright spot of light and after a while became a vertical stack of 4 different coloured lights

Location:

In the South Eastern sky approximately 10 degrees above the horizon (given that your fist held at arms length is meant to be about 9 degrees, I'm told)

Movement:

At first it was static and then suddenly moved about 30 degrees towards the North, a few seconds later it moved back to it's original position but then jerked about in the sky for some time until it slowly faded and disappeared.

Weather:

Was overcast, 10/10 cloud cover and during the sighting rain started to fall.

Tel: Section 40 Although it's not my phone, I would have to be found and told I had a call.

The big news is that on Wednesday night I saw a UFO!! I popped out at midnight to visit the staff loo, the joys of having an outside toilet, as I walked round the front of the house I saw what I first thought was Jupiter. Then I realised we had 10/10 cloud cover, so it must a plane. Just to mess that theory up it travelled across about 30 degrees of sky in less than a second, then it came back again. I walked up the front slope and stood on the top lawn watching this light jump about the sky. During this time it appeared to change from one single point of light into a vertical stack of 4 coloured lights. I watched this for about 10+MAA- minutes when it started to fade. What I didn't know was that **Section 40** was up at his place watching it as well. Last year about a 100 people reported seeing something similar over the Quantocks during a village Bar-B-Que. Spooky eh!

I am writing to follow up your telephone call concerning a low flying aircraft of some sort at around 6.00pm on the 4th November.

First of all may I express my regret for the incident and for any alarm caused. From my investigation the aircraft that you saw was not from Yeovilton as we had nothing operating at low level in that area at the time; nevertheless I feel it might be helpful if I explain the situation regarding military low flying in the South West of England.

Although Yeovilton is one of the nearer military airfields, our aircraft are by no means the sole users of the airspace around this part of the country. The area may be used by aircraft from other stations and services throughout the country. However, I would stress that all aircrew involved in these exercises operate within strict rules to ensure flight safety and minimize annoyance to the population.

There is a very comprehensive organization within the United Kingdom for investigating and dealing with problems involved with military low flying, and I am enclosing the latest leaflet which explains the philosophies behind the need for such exercises. In the meantime I have forwarded details of this incident to the Ministry of Defence for their information and records.

It is of course possible that this may have been a police aircraft that do operate in the SW? I cannot comment on the UFO theory that you mentioned, but you may wish to contact the SW Representative of the British UFO Research Association, who I believe is **Section 40** on **Section 40**

If I can be of any further assistance please don't hesitate to contact me.

T. Gandy
