A Section 40 reported sighting an object in the sky - looking from Sackville Rd in Hove in a westerly direction towards Portslade in East Sussex.

Object is Dome shaped and has bright white light that is flashing. Object has been stationary for about 45 mins now. Call came to us at 2219HRS and we have had no other reports. Observer saw object with naked eye and saw no other objects.

Police unit has attended and confirms there is a bright light but does not think it is a UFO.

**Subject: Reported sighting of a UFO**

1. A call was received at this office from [Section 40] Lichfield stating that she had seen a UFO. The following details were obtained. The time of the sighting was 2315 hrs on Wednesday 9th June 99. The weather at the time of the sighting was dry. The location was Blithbury Reservoir near Admaston. The duration was 10 minutes. The colour of the object differed between green, red, blue and yellow. It was round in shape. The informant was sat in a stationary vehicle and witnessed the object with the naked eye.
2. At the time the object was high in the sky across the reservoir and appeared to dart from the left to the right. It then darted toward the vehicle as it dove off towards Rugeley.
3. There are no objects such as Cathedrals, Church Spires or high buildings in the area. There were two other witnesses to this sighting whose names are only known as [Section 40] from Fradley and a male who is only known as [Section 40] from Barton Under Needwood. There is nothing known about the background of the informant.
4. There have been no press enquiries concerning the incident.
5. Could this report please be forwarded to:

Details:

First seen by husband about a month ago. Driving home last night, 23 May at 2300, when they both saw 2 large, yellow, bright lights exhibiting no movement, no sound could be heard. One was over Oakham at approx 2,000ft, the other over Ketton at approx 3,000ft. These were seen with the naked eye and were not recorded, they had not spoken to others to find out if anyone else had seen these lights. Would appreciate a response.

Actions:

Leicestershire

Have spoken to SATCO, he stated that we did not have any ac flying at that time and that RAF Cottesmore has no answer as to what it was that they saw.

REPORT OF UNIDENTIFIED FLYING OBJECT NEAR RAF LOSSIEMOUTH - 19 MAY 99

1. Following our telecon earlier today, please find attached the details of a possible UFO sighting in the Kinloss/ Lossiemouth area. One of the Reserve cpls from Stn Ops know the informant from past experience in the local town, and expressed doubts over his reliability as a witness. However, this is the subjective view of one individual and I do not wish to besmirch the caller, who appeared coherent and lucid throughout the call.

2. If you have any further questions on this matter, please contact me on the above ext.

Report of Unidentified Flying Object.

In accordance with the instructions in the Manual of Air Traffic Services, Section 6 (Reporting Procedures), Chapter 4, para 3 (Unidentified Flying Objects) page 6-22, here are the details of a report received at this location this evening:

- A. ***Date, time & duration of sighting;***
13th April 1999 at 2115 local for 30 - 35 seconds.
- B. ***Description of object;***
Very bright point light source flashing white, with 4 quick flashes then a gap, 4 quick flashes etc. No coloured lights visible, no shape or sound discernible.
- C. ***Exact position of observer;***
Section 40 East Belfast. Observer was outdoors and stationary.
- D. ***How observed;***
Naked eye.
- E. ***Direction in which object first seen;***
In direction of, and then apparently following course of old dismantled BCD Railway in a countrywards (Southeast) direction.
- F. ***Angular elevation of object;***
35 - 40 degrees above horizon. Just above level of roof.
- G. ***Distance of object from observer;***
Impossible to assess.

- H. ***Movement of object;***
Very rapid - covered distance a commercial aircraft would take 2 minutes to cover, in 30 seconds. Object seemed to climb very rapidly.
- J. ***Meteorological conditions at time;***
Clear, but some broken high cloud (object observed to enter cloud, and then illuminate it from within).
- K. ***Nearby objects;***
None relevant (from list of possibles that could be).
- L. ***To whom reported;***
Air Traffic Control, Belfast International Airport.
Strandtown RUC station.

 operated by the RUC Air Support Unit. From flight progress strip records, it had been airborne to the South of the Belfast Control Zone just prior to this watch taking over duty. It has not been possible to ascertain the aircraft's precise area of operations prior to its recovery to landing at Aldergrove. The assertion of the witness that the object climbed rapidly and seemed much faster than commercial aircraft is difficult to correlate to the performance characteristics of such an aircraft, however.

'UFO' REPORT – 10 Mar 99

References:

A. D/Sec(AS)/64/2 dated 9 Apr 99

1. At Reference A, you asked whether the UFO report represented anything of air defence interest. Following enquiries, there is no evidence that unauthorised military activity or any other activity of air defence interest occurred in the Stamford Bridge area at that time. It is certainly better watching the sky than watching Chelsea play!

From: ADGE1
Sent: 29 March 1999 10:40
To: SEC(AS)2A1
Subject: FW: REST- UFO REPORTS 15 & 22 FEB 99
Importance: High

You asked me to investigate the UFO reports from credible witnesses on 15 and 22 Feb 99. The report of the investigation by HQ 11/18 Gp is attached below and, as you will read, there was no evidence of unusual air activity. Please note that I have authorised that the radar recordings be released, however, I have asked that 11/18 Gp retain the video tapes for an initial period of 1 year.

Sir,

please see the attached brief. Grateful if you could advise when I may release the impounded radar recordings.

ADGE1UFO REPORTS - 15 & 22 FEB 99

You asked me to research these UFO reports to see if there were any AD involvement, interest or corroboration of sighting.

AD ACTIVITY

- Have checked AD activity for the periods concerned. the results are as follows;

15 Feb 99 (Period 1015-1045hrs).

- UKCAOC. No record of AD activity over the duration of the UFO report. Particularly, there was no QRA(I) activity, no routine UK AD flying and no exercises in progress between those times.
- RAF Neatishead. RAF Neatishead were not involved in any AD, exercise or air activity during the period of interest.
- RAF Buchan. RAF Buchan were not involved in any AD, exercise or air activity during the period of interest.
- Radar Investigations. Due to the source of this report and the description of the observed traffic, further investigation was carried out by examination of recorded radar data from the following sources:
 - RAF Buchan Reference Telecon **Section 40** 220915ZMar99 – RAF Buchan radar information examined for the time and area of the reported sighting by Buchan ops staff. No traffic matching the report was seen. VHS video tape en-route to HQ11/18Gp, radar tape impounded.
 - LATCC West Drayton Reference Telecon **Section 40** 221012ZMar99 – LATCC radar information examined for the time and area of the reported sighting by AIS staff. No traffic matching the report was seen. VHS video tape en-route to HQ11/18Gp, radar tape impounded.
 - SCATCC Prestwick Reference Letter PWK/20/1/ATCC dated 15 Mar 99 – SCATCC radar information examined for the time and area of the reported sighting by SO2 ASACS Ops1. No traffic matching the report was seen. VHS video tape with HQ11/18Gp, radar tape impounded.

CONCLUSION

- There was no AD activity at the time of the report.
- No exercises involving RAF AD units were in progress at the time.

UNCLASSIFIED
RESTRICTED

RESTRICTED
UNCLASSIFIED

- Recorded radar data replays do not support the sighting.
- Report of no further interest to HQAD.

22 Feb 99 (Period 2030-2100hrs).

- UKCAOC. No record of AD activity over the duration of the UFO report. Particularly, there was no QRA(I) activity and no exercises in progress between those times.
- RAF Neatishead. RAF Neatishead were controlling 4 x Leeming F3s (SAMSON 1-4 -11 Sqn) in area 7 (Lincolnshire MTRA) at the time of the reported sighting. These ac are discounted from contributing to the sighting for the following reasons;
 - The Westerly boundary of Area 7 is over 35nm East of Littleover.
 - Any traffic inadvertently straying West towards Littleover from Area 7 would infringe the E. Midlands Airport CTZ, which would be a serious matter and subject to a special report.
 - The F3 ac were not stationary, and
 - They were not dropping flares.
 - Notwithstanding the above, F3s do not show steady lights when carrying out Practice Intercepts, only flashing anti-collision strobes.

CONCLUSION

- There was no QRA(I) activity at the time of the report.
- No exercises involving RAF AD units were in progress at the time.
- There was AD training flying in the Lincolnshire MTRA, but this could not have produced the sighting observed.
- Report of no further interest to HQAD.

NOTE

- I have impounded 3 radar tapes upon your authority for the purpose of examining recorded radar data for evidence of the 15 Feb 99 sighting. If you agree, I will release each radar tape once I have received the VHS video of the area/time of interest. Please advise.

UFO REPORTS FROM CREDIBLE WITNESSES

1. In accordance with current procedure, I would be grateful if you would determine whether any unusual air activity of air defence significance was associated with the 2 attached UFO reports.
2. The report from the Prestwick SATCO is unusual and may be the subject of subsequent publicity. I would be grateful, therefore, if this incident could be thoroughly scrutinised to determine whether a similar phenomenon was seen on sensors available to ASACS. Additionally, please determine whether a radar recording of the incident has been retained by Prestwick and, if so, request that it be kept for future reference.
3. A reply by 26 Mar 99 would be appreciated.

R 03/04

REPORT of an UNIDENTIFIED FLYING OBJECT

- February*
- a. Date/Time and Duration of Sighting (Local times to be quoted)
*Saturday, 20th March 1999, 07.20 hrs.
 For approximately 45 seconds.*
- b. Description of Object (No. of objects, size, shape, colours, brightness, sound, smell etc)
*One only, exceedingly bright white light
 approximately 10 metres diameter, appeared
 disc shaped. No apparent sound.*
- c. Exact Position Observed. (Geographical location, indoors or outdoors, stationary or moving)
*From M6 Southbound near to Cheshire and
 Staffordshire borders. In a south westerly location
 from southbound carriageway.*
- d. How Observed (Naked eye, Binoculars other optical device, still or movie camera)
Naked eye.
- e. Direction in which Object was first seen (A landmark may be more useful than a badly estimated bearing)
*Possibly in the general area of
 Nantwich.*
- f. Angle of Sight (Estimated heights are unreliable)
*There was broken cloud this object
 was situated under the cloud-base
 which I estimate was at approx. 5000 feet.*
- g. Distance (By reference to a known Landmark if possible)
Two and one half to three miles.
- h. Movements (Changes in R, F, G may be of more use)
*In a fixed position but the object seemed
 to be spinning extremely rapidly upon its
 axis. Also the light pulsed again very rapidly.*
- i. Meteorological Conditions During Observations. (Moving clouds Mist etc.)
*Some clear sky with banks of slow
 moving clouds.*
- j. Nearby Objects (Telephone lines Spires Etc.)
*Not known. I should add at this juncture
 that this object disappeared from view
 suddenly and quite instantaneously - without
 trace, one second it was still hovering, when
 in a split second, it had simply disappeared.*
- k. To Whom Reported (Police, Military Organisations, the Press)
*Section 40. Duty Watch Manager.
 National Air Traffic Services.
 Manchester Airport.*
