Dear

Section 40

I am writing with reference to your report of a sighting of an 'unidentified flying object' on 17 September, the details of which were passed to us by RAF Northolt. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs'.

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's might have been compromised by hostile or unauthorised air activity. Unless there is evidence of a potential threat, and to date no 'UFO' report has revealed such evidence, MOD does not attempt to identify the precise nature of each reported sighting. We believe it is possible that rational explanations, such as aircraft lights or natural phenomena, could be found for them, but it is not the function of the MOD to provide this kind of aerial identification service. We could not justify expenditure of public funds on investigations which go beyond our specific defence remit.

With regard to your particular observation, I have looked back through our sighting report files and can confirm that we received no other reports of 'UFO' sightings for the 17 September from Northolt. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised air activity.

Yours sincerely

Thank you for your enquiry concerning the sighting of an "unidentified flying object" over Bonnybridge on 17 August 2003 at approximately 23:45. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity. Unless there is evidence of a potential threat, and to date no 'UFO' report has revealed such evidence, MOD does not attempt to identify the precise nature of each reported sighting. We believe it is possible that rational explanations, such as aircraft lights or natural phenomena, could be found for them, but it is not the function of the MOD to provide this kind of aerial identification service. We could not justify expenditure of public funds on investigations which go beyond our specific defence remit.

With regard to your query, I have looked back through our sighting report files and can confirm that we received no other reports of 'UFO' sightings for 17 August from anywhere in the United Kingdom. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised air activity.

Finally, I can confirm that no military aircraft were operating below 2000 feet in the area at that time. It is, of course, possible that a civilian aircraft was in the region. If you wish to pursue your investigations on this basis, you should contact: The Civil Aviation Authority, CAA House, 45-59 Kingsway, London, WC2B 6TE.

Yours sincerely,

West Yorkshire Police **Section 40** Duty Officer

on 4 Sep at approx 23:40

A member of the public had reported seeing unusual aerial activity in the Queensbury Moor area; an object was spotted towards Todmorden between approx 23:12 – 23:40, comprising of six lights that split, at one point becoming eight lights orange and red in colour. They were definitely not street lights and did not appear to be moving. An officer went out but could not see anything.

Dear

Section 40

I am writing with reference to your report of a sighting of an 'unidentified flying object' on 14 August 2003, which was passed to us by the Community Relations Officer for the RAF in Wales. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's might have been compromised by hostile or unauthorised air activity. Unless there is evidence of a potential threat, and to date no 'UFO' report has revealed such evidence, MOD does not attempt to identify the precise nature of each reported sighting. We believe it is possible that rational explanations, such as aircraft lights or natural phenomena, could be found for them, but it is not the function of the MOD to provide this kind of aerial identification service. We could not justify expenditure of public funds on investigations which go beyond our specific defence remit.

With regard to your particular observation, I have looked back through our sighting report files and can confirm that we received no other reports of 'UFO' sightings for 14 August from anywhere in the United Kingdom. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised air activity.

Yours sincerely

Dear

Section 40

I am writing with reference to your report of a sighting of an 'unidentified flying object' on 17 January 2000. The report was passed to us by RAF Menwith Hill as this office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's might have been compromised by hostile or unauthorised air activity. Unless there is evidence of a potential threat, and to date no 'UFO' report has revealed such evidence, MOD does not attempt to identify the precise nature of each reported sighting. We believe it is possible that rational explanations, such as aircraft lights or natural phenomena, could be found for them, but it is not the function of the MOD to provide this kind of aerial identification service. We could not justify expenditure of public funds on investigations which go beyond our specific defence remit.

With regard to your particular observation, I have looked back through our sighting report files and can confirm that we received no other reports of 'UFO' sightings for 17 January 2000 from Yorkshire. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised air activity.

Yours sincerely

Ministry of Defence.

This maybe 'wasted space' to you. But there seems to be a 'Highway' here above ones head of Star like Travelling Spheres, started on Friday 8th Aug 03 10.35 PM. as I Broyle in washing. I was startled by cows Bellowing. As it strange to hear cows especially at night. I stood a moment latency. Looked up at the lovely Starry Sky. Saw the Star more, definitely controlled going South to North. Called my son, so we watched it. Suddenly it stopped dead then dropped like a Bomb in a straight line -

↳ ← X South. Stopped again got very bright, one felt a bit anxious as we thought it was going to change direction towards us. But it zoomed off diagonally at a terrific speed. We were so excited at what we saw, so we took another look 11.15 PM. Sure enough another seen, but this time from west to North East. It passed in front of 'Some say' a Space Lab. Bright Star anyway. It appeared to go behind a Star, we lost sight as Horizon was light. So it got lost to us.

Sunday night, clear sky, put my car in garage, stood to look if I could see these Round Star Spheres. I was astonished to see some 10.35 PM. going South to North East. So I went out as near as time as today night. Sure enough 11.15 PM another going still South - North East. By now I'm really quite interested

Dear

Section 40

I am writing with reference to the message you recently left on the DAS (LA) Ops and Pol 1 answerphone, in which you report a sighting of an 'unidentified flying object' and said that there had been similar sightings in the West Midlands area recently. As you may be aware, this office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs'.

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's might have been compromised by hostile or unauthorised air activity. Unless there is evidence of a potential threat, and to date no 'UFO' report has revealed such evidence, MOD does not attempt to identify the precise nature of each reported sighting. We believe it is possible that rational explanations, such as aircraft lights or natural phenomena, could be found for them, but it is not the function of the MOD to provide this kind of aerial identification service. We could not justify expenditure of public funds on investigations which go beyond our specific defence remit.

With regard to your particular observation, and sightings from the West Midlands in general, I have looked back through our sighting report files and can confirm that we received no other reports of 'UFO' sightings from that area during the past twelve months. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised air activity. I hope this is helpful.

Yours sincerely

It was a general enquiry; about a year ago she had seen a UFO and was thinking of ringing someone about it but didn't because she had no evidence. Now she was really concerned because there had been a lot of reports in the West Midlands recently, which fitted a similar description. She had quite a lot of information related to the two bright lights she saw that night which she felt were connected to the recent spate of sightings in the West Midlands.

Dear **Section 40**

Thank you for the message you left on the DAS (LA) Ops & Pol 1 answerphone on 9 July concerning a stationary, triangular object, seen over Hereford Garrison on the evening of 8 July.

You may be interested to know that any reports of 'unidentified flying objects' are examined by the Ministry of Defence solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity. Unless there is evidence of a potential threat, and to date no 'UFO' report has revealed such evidence, MOD does not attempt to identify the precise nature of each reported sighting.

The details you gave us were passed to the appropriate Air Defence experts in the MOD, who were satisfied that the report did not represent anything of air defence interest. Once again, thank you for reporting this sighting to us.

Yours sincerely

Section 40

MOD Police at Hereford Garrison

Tel: Section 40

On Tuesday 8th July a stationary, triangular object was seen by residents over married quarters at Hereford Garrison around 20:00 and was subsequently reported to MOD police at 22:00. Section 40 and a colleague observed the object for approx 30 mins, in that time it remained stationary at quite a height. At 00:45 they viewed it again through Night Vision Goggles but could not find a logical explanation for it. They informed HQ, RAF Brize Norton, the local police and local airfields about it. In total the object remained visible for approx four and three quarter hours, a few residents being aware of its presence. Section 40 said that he expected that the incident might attract interest from local media considering where it occurred.

Dear **Section 40**

I am writing with reference to your report of an 'unidentified flying object', seen on 15 July 2003. The details have been passed to me as this office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity. Unless there is evidence of a potential threat to the United Kingdom from an external military source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each reported sighting. We believe it is possible that rational explanations, such as aircraft lights or natural phenomena, could be found for them, but it is not the function of the MOD to provide this kind of aerial identification service. We could not justify expenditure of public funds on investigations which go beyond our specific defence remit.

With regard to your particular observation, I can confirm that we received no other reports of 'UFO' sightings for 15 July from Worcestershire. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised military aircraft.

Yours sincerely,

PTO

At 0020Z, Section 40 called again with an update. He said that the light was moving again from SE to E in an almost vertical ascent. It was significant movement since he first reported it. He described the movement as slower than a satellite moves across the sky and it was still below the cloud cover.

He admitted that he had had a couple of drinks, but he was not drunk (he sounded sober). He said that he knew the basic constellations and that he knew what normal aircraft lights were like.

The DOC + DEOC had a look outside, but could not see anything unusual in the sky. There was very light cloud, but a generally clear sky and full moon.

from Northamptonshire

Tel: **Section 40**

The gentleman said he worked for Northants police on switchboard and saw an object on his rest day on 14th July at 21:30. He went into his back garden for a cigarette, from his garden he has a good view of Northamptonshire and saw the biggest white light he had ever seen. He was with his girlfriend at the time and couldn't work out what it was, whether it was a star or not. Watched it shoot off across the sky and then disappeared. He called the police station but there were no other sightings reported.

Dear **Section 40**

I am writing to acknowledge receipt of your letters of 13th, 15th, 28th and 29th July.

Following my colleague, **Section 40** letter of 12 May in answer to your previous correspondence, it would appear that you have misunderstood the Ministry of Defence's limited interest in reports of 'unidentified flying objects'. It may therefore be helpful if I clarify our position.

The MOD does not have any expertise or role in respect of 'UFO/flying saucer' matters or to the question of the existence or otherwise of extraterrestrial lifeforms. While we remain totally open-minded, to date we know of no evidence which substantiates the existence of these alleged phenomena.

Reports of sightings of 'UFOs' received by MOD are examined solely to establish whether they contain any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity. Once it is established a report does not contain such evidence we do not attempt to establish the precise nature of the sighting, as this would go beyond our specific defence remit.

With regard to the identification of possible planets you have viewed through your telescope, we have no expertise in this field. I note you have also written to the Royal Observatory at Greenwich who, I hope, will be able to assist you.

Yours sincerely,

Section 40

Dear Sir or Madam, 29/7/03.

In my
 memoir book I have collected
 143 pages of information about
 Aliens and space craft and some
 information about myself, over the
 past few years. Most of which
 has been in my mind or through
 Telepathy. What seems to come
 to mind is the Alien race called the
 Procyons. From 61 CYANI. One of these
 stars was going Nova so they had
 no choice but to prepare to make
 large space ships to guide them
 home world or planet to another
 suitable solar system. They also
 had lots of small craft. The nearest
 was our solar system. They decided
 to come in peace, so they did not
 develop any weapons.

PAGE 2

They decided to land there
Large space craft in the main
civilized countries of the world
hoping they would be civilized
enough to try to contact them
peacefully and not try to destroy
them. They are Telepathic. And
possibly have a "soul". I am
thinking that there soul is the
same as ours. I have a bad
feeling about this, that we have
destroyed them. And also destroyed
our future, Both materially and
spiritually. These large space craft
came to align there Planet
which I call planet No 10. To fit
in with the rest of our Solar
system. Without any disruption
to our world. They came to help
our people and try to help the
disabled. But perhaps we did not.

PAGE 3

understand the procyons, or these intentions. Perhaps we could not believe that a Alien race simular to ourselves could come in peace, and also try to help disabled people, and our condition.

My mauve book has other possible Alien races some could be fact and some could be fiction. But the one that stands out most is the procyons from 61 CYANI.

Thanking you for your Kind attention.

Yours Faithfully

15/7/03.

Dear Sir or Madam,

On
8TH JULY 03. I noticed between 3 AND 4 AM.
what looked like a yellow orange
star in the South. I got my
Telescope out and saw what looked
like a planet. It was not Jupiter
because there were no Galilean moons.
It was not Saturn, because there
was no ring's, and I dont think it
was Venus because Venus through my
telescope usually shows a slight
crescent in shape, and is usually
bright white in colour. I wondered
if you could tell me what you think
it could be. There was not any visible
stars in the south at that time, so I
think that could rule out Mars,
too.

PLEASE GO TO

PAGE (2)

PAGE ②

I observed the planet until 13 JULY 03. There was no sign of it on 13 JULY 03. It reappeared on Monday 14 JULY 03. and I made the last observation on Tuesday 15 JULY 03. AT 3 AM approxi-
-mately. I have also sent a similar letter to the Royal Observatory Greenwich SE10.

Thanking you for your
Kind attention.

FILE ~~sent~~ J. or Madam, 13/7/03.

Theory.

61 cygni twin star system

Red - Red 11.1 light years away

Possibly different in size to one another. One possibly went Nova. RED "B" Planetary System round it. Possibly with high intelligent life forms, I call the Procyons. Knowing one of these stars was going Nova.

They built large triangular star ships. The particles of the Red "B" going Nova emitted particles of neutrons which helped propel the star ships of the Procyons away from the Nova star. Using their telepathic minds they plotted a course to our solar system. Using our outward

Thoughts and knowing we had also plotted its Parallax successfully Determined by Trigonometry, so for the first time it was possible to Determine a stars distance from the sun. Once embarking on their Long Journey they where able to recycle certain things of importance. Drake sent signals out to star systems with Possible Planetary Systems round them. To name two Tau - Ceti. and Epsilon Eridani. But the Project was discontinued Because the massive Radio Telescope at Greenbank Virginia did not Pick up any signals which could be of intelligent Life. The Tenth Planet could be from 61 cygni. And there Ships could come to land possibly Mitcham common, possibly Rome and America, and France, To help

Guide there Planet and Place it in a favourable position in our solar system, with as little disruption as possible to our planet Earth. The large triangular craft would not have any weapons on them ~~only~~ only guidance systems. If destroyed it could become dangerous, and very unstable. The progeny or Aliens would try to make contact with us - possibly using telepathy of a kind. I think I might have made some contact a few years ago with a Colonel Cougar.

The tenth planet I named Cougar.

Thanking you for your kind attention.

Yours Faithfully
