Dear **Section 40**

Thank you for your letter dated 23 August 2004.

You will be aware from our previous correspondence that the MOD examines UFO reports, sent to us, solely to establish whether they present any evidence of a breach of UK airspace by unauthorised aircraft.

With regard to your particular observation on 16 August 2004, I can confirm for that date, we received no other reports of 'UFO' sightings. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by any unauthorised aircraft.

The MOD is not saying that witnesses do not see things that they are unable to identify, just that we do not have any expertise or role in respect of 'UFO/flying saucer' matters to the question or to the existence or otherwise of extraterrestrial lifeforms, about which we remain totally open-minded. Also, the MOD is often misquoted as saying that it does not believe 'UFO/flying saucers' to be a threat; this is a distortion of the MOD's stated position which is that to date, we have seen nothing which could be classed as proof that extraterrestrial life and or 'UFO/flying saucers' exist. Hence to date, no threat to the UK has been discerned which has attributed to a so-called 'UFO/flying saucer'.

Your letter will be placed on our files.

Yours sincerely

I received letter 22nd June 04 -

Section 40

Monday 23rd August 04

(Secretariat G/3A.

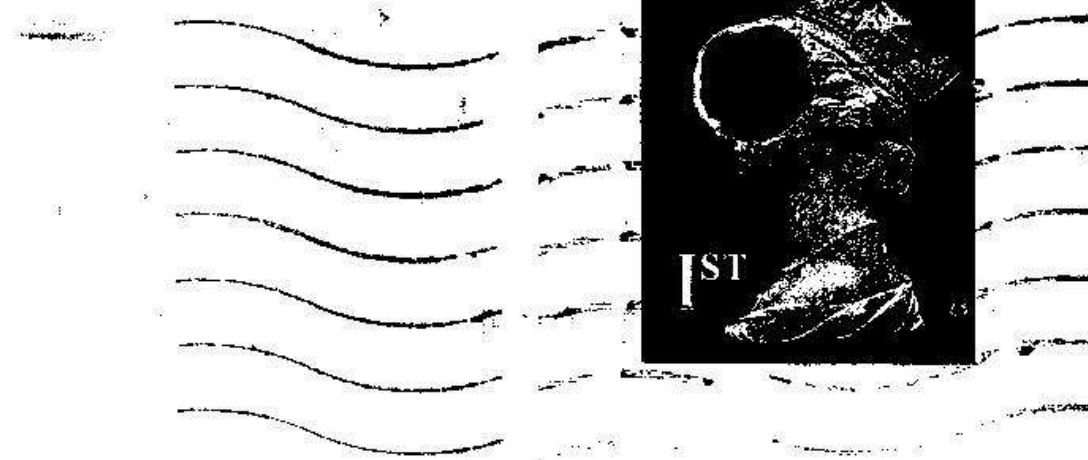

I took note of your statement on UFO, an 'Alien' Phenomenon, and no Evidence of existence. I don't think the Ministry of Defence is being fair, to honest witnesses to solid craft that light up like Xmas trees in the afterglow of the sun. That one solid - led grey as noted, & plenty of Evidence they are massive times. The yellow brass type spheres are still here in our own Solar System. Do note times they are mostly above your Defence Air Space. But not always.

There is a lot of activity seen on August 16th 04. at 23:35 PM 5 spheres turned up at once on space of 3 1/2 minutes all going N/E. except one came down N/South. Since your letter we observed a few, as sky is not so clear - too cloudy. But times they do do Phenomenal acts of jumping like space-time. they can stop - also they can connect with each other with a white flash. They are Real - exist - above my Home Area.

I referred in a letter, of Helicopters I told Section 40 in 1980 out with my Dog at night, that make no noise. Twice I saw them very close up. Pilot 'Human' looking with sharp features and only a slight sweet sound from propellers above. Took me a while to think 'what' different because they make such a racket - we are used to them here on Helicopters - Phenomenal. They were Silent.

Now the Report in Newspaper last week you do have such Stealth type Helicopters. Everythg I'm telling you, is True Trust me I do believe they pick out people at random by their 'aura' reported. I know one aliened me to their presence because my back was to it. He read, once you observe them as by chance taking in my washing. He you then become a witness. I'm a contactee. Why? I found a clue. I think they just want to know our ways. I think it's more Precious than us. it's a warning. May destroy it. What else? Yours Sincerely

Dear **Section 40**

I am writing with reference to your report of an 'unidentified flying object', seen on 31 July 2004, the details of which you passed to Boscombe Down. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external military source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

With regard to your particular observation, I can confirm that we received no other reports of 'UFO' sightings for 31 July 2004 from anywhere in the UK. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft.

Re Unexplained Sightings Over Shepton Mallet
31 July 2004

I have been given your name and address from the MOD in Boscombe Down, who have told me that you deal with any strange sightings.

I would like to inform you that on the 31 July 2004, at approx 22.45 I was leaving my house and looked up into the sky and saw a very strange bright orange object which was quite large and going in an upward direction, this was watched for a while and then it was decided that it should be recorded, both myself and my neighbours went and got our video cameras, on looking again into the sky it was noted that there were now three of these objects all following the same diagonal line upwards into the sky, they all seemed to be following each other, and they then disappeared vertically out of our sight.

You might also wish to know that a "UFO" expert has actually seen the video and can confirm that it does not look like any plane or military aircraft he has actually seen, due to its luminosity and the spinning, he thinks that it could be a genuine sighting of a UFO.

This footage has been played on our local ITV news station and also on the national station GMTV. To which there have been no confirmations of what the objects were.

I look forward to receiving your comments in due course.

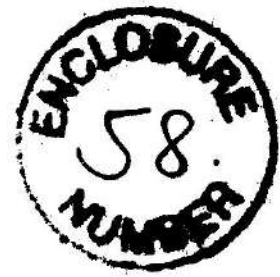

Yours sincerely

I received a UFO report on Saturday evening at 2130 from Chingford Police. They were concerned, and had video film of the occurrence. I explained that we did not take such reports and that there was a separate number for UFO reports.

In the event I said I would pass it on, but gave them the number for future reference. However, the number we hold, 0207 218 2140, did not have the answerphone switched on so I was unable to use it!

Is the number still correct? If so could the machine please be reactivated. The reporting officer was The Duty Controller Chingford Police, Section 40 on Section 40

Dear Section 40

Thank you for your e.mail of 20 May 2004. Sorry for such a long delay in getting back to you.

Dear Sirs

I am writing to express my concern regarding an aircraft that was seen at approximately 1.00 am Tuesday 13 July 2004. The aircraft was clearly seen by my wife and myself from our bedroom window and it was not something that I have ever seen before. It most certainly was not an aeroplane or helicopter.

It was extremely large with pulsating lights and there was no sound whatsoever. We often have planes and helicopters flying overhead but this was something very different. I am not a believer in UFO's or alien beings and I do not believe in ghosts or things that go bump in the night. My wife and myself had an extremely good view because our bedroom is at the back of our house and is a loft conversion that has large windows. My wife and I fully expected to hear something about this on the news but in fact no one else appears to have spotted it.

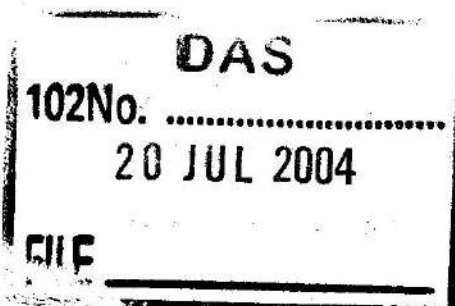

Please do not dismiss this as a crank letter because I am not the type of person to just imagine what I saw. I am a 59 year old male and I do not frequent pubs or drink alcohol other than the occasional glass of wine with a meal or the odd glass of beer. I had not had any alcohol whatsoever and neither had my wife. We have been married for 35 years and have three adult children and a grandchild. We are just ordinary people who have lived in the same house for over 30 years and never before have we seen anything like this aircraft.

I would appreciate your looking into this for me and would be very grateful if you could give me an explanation of what you suspect this aircraft could have been. It was not completely circular but more like a circle than any other shape and the lights were pulsating different colours. I was not dreaming as I had only just gone upstairs to go to bed and my wife and I were both very much wide awake.

Once again I would ask you not to dismiss this as some kind of prank or something that is coming from someone who believes in little green men or such like nonsense. I would very much appreciate your response at your earliest convenience because I am totally perplexed about this.

Yours faithfully

Note of a Press enquiry

D News RAF called at 11.30 on 20th July 2004 to inform us that a local Newbury newspaper had called about reports of a UFO sighting in the Hungerford / Newbury area, near a US Depot at Wellford.

The UFO was seen at 22.20 on the 19th July 2004 and consisted of a ball of flames with a solid bit underneath. The witness said the flames went out, the object changed direction, the flames came back on and it plummeted to earth.

Thames Valley Police launched their helicopter, but they could not see anything unusual. Nothing has been found on the ground.

I informed D News RAF that we had received no other reports, although our UFO answerphone is not in operation at present, so we may receive reports at a later date.

Dear **Section 40**

I am writing with reference to your report of an 'unidentified flying object', seen on 21 June 2004, the details of which you passed to Air Traffic Control Manchester ACC. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external military source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

With regard to your particular observation, I can confirm that we received no other reports of 'UFO' sightings for 21 June 2004 from anywhere in the UK. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by any unauthorised aircraft.

Yours sincerely

Dear **Section 40**

I am writing with reference to your report of an 'unidentified flying object', seen on 2 June 2004, the details of which you passed to National Air Traffic Services in Glasgow. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

It would be an inappropriate use of defence resources if we were to do so.

With regard to your particular observation, I understand that you believed the object might have been a Harrier aircraft. I can confirm that there were no Harriers flying at low level (below 2000ft) in your area at the time of your sighting. We received only one other report of a 'UFO' sighting for 2 June 2004 and that was in Middlesex. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft on either of these occasions.

Yours sincerely

Dear **Section 40**

Thank you for your letter of your reported sightings, dated 3 June 2004.

I can assure you that the integrity of the UK's airspace in peacetime is maintained through continuous surveillance of the UK Air Policing Area by the Royal Air Force. This is achieved by using a combination of civil and military radar installations, which provide a continuous real-time "picture" of the UK airspace. Any threat to the UK Air Policing Area would be handled in the light of the particular circumstances at the time (it might if deemed appropriate, involve the scrambling or diversion of air defence aircraft). From that perspective, reports provided to us of 'UFO' sightings are examined, but consultation with air defence staff and others as necessary is considered only where there is sufficient evidence to suggest a breach of UK air space.

With regard to your particular observation, I can confirm for the dates 2 April, 17th, 19th and 30 May, we received no other reports of 'UFO' sightings. On the 25th May, there was one other sighting, in Devon. We are satisfied there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft on any occasion.

Your letter will be placed on our files.

Received letter 25th 05/04, I know you say the yellow spheres reported are to you not a threat,

But I've been taking note, it's ones duty to do so, and since May 10th. practically every night, if skies are clear to see, they are there, it's too cold to stay out no more than 15 minutes I've taken times & notes

Sometimes one is down as 12.30^{PM} Putting my car in garage "April 2"

So 10th May 2 spheres, 18th 2 spheres each By Passed each other appeared to be a foot apart, communicated with a 'blast' white light' one went on, other stopped few seconds ^{later} Right above my head, grew brighter & stayed there for ages, I was afraid to move, unless seen as he witnessed what these spheres can do. They can drop hundreds of thousands miles in one Jump Down.

It sat there, and eventually went vertically 'up' slowly, till it got fainter & fainter into space.

If only they Section 40 you wouldn't know it was a UFO stopped

 I feel I watched? I would not say they are not a threat, "There

I took my Daughter out to see them from St Andrews, & she was
 too frightened to look up. You'd have to ask people if they believe
 in 'Beings' from elsewhere? I think, for people to handle these spheres.

They make me uneasy because he seen a craft 30-40ft in length
 & 15ft high. Probably bigger than the ship like the one after Xmas trees.
 massive. I landed. As I saw, I've seen one appeared to
 be "floaty down" landing. Awesome. I feel terribly calm after it,
 like as if UFO. "So what." I know they are not from here. I could
 see as they lit up. They were solid crafts. Succeeded. They are definitely
 'not' being detected by Radar in your lower Air Space. That's just

3

Thank God you state in my last letter from Section 40 you do
 have an open mind. Because I would dismiss them as no
 threat, they are too superior & massive - the S/Bore do extraordinarily
 impossible feats, when they decide to come close. The one I &
 my son watched, as it took off diagonally at a tremendous speed
 electric shocks flew around  as it took off. That
 was the first I knew they were there, after Henry to cover Bellow
 the S/Bore triggered the heavy Day light out of me & my son.
 I felt a rather menacing.

The larger UFO. were more Angelic looking as they let up.
 my hands were pure white, with the light. Yet I couldn't just
 quite Judge the Distance. But I sort of Judge the Size from where
 I stood. To tell you truth I don't know why nobody else
 reported these two larger UFO. I'll remember them all my life
 you could never forget anything so profound & awesome, yet beautiful.
 There are a lot about, I feel the world is in such a mess by
 wrong choices. I think they maybe a threat. They are not there for
 nothing. They exist. Anybody can see these S/Bores if they stand where
 I stand. They seem to gather around here a lot, they in straight
 lines, not doing Acrobatic Stunts. I'm not too sure why we
 seen them 'close up'. Are not trying to lose or gain or Power Sector.
No need to write back, I don't think I'll have anything more to report.

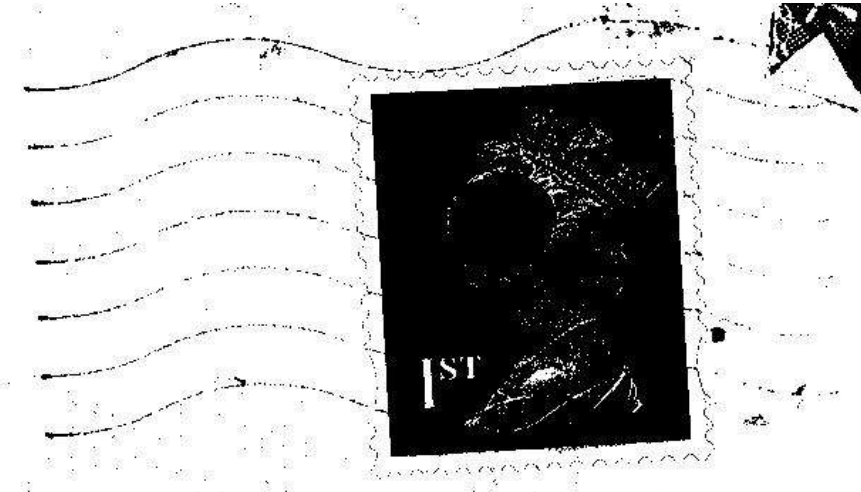

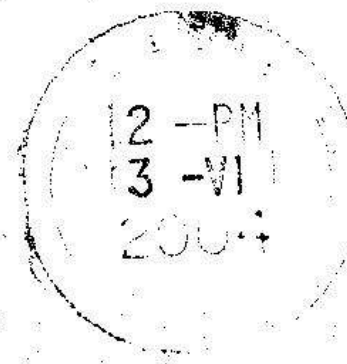

Unless one is ⁴contacted away with them HA. I can't contact them.
 But I noticed, the very large one with the Turrets, contacted
 from behind with a flash. A blue white light. That all I
 know. I feel they were there presence known.

Thank you for taking time to read my Refats. I believe people
 may see them too, but the Refat, or just Refat to researchers
 Refats are more afraid of the unknown, I hope they are benefited?

Yours Sincerely

 3 June 2004

Dear **Section 40**

I am writing with reference to your report of an 'unidentified flying object', seen on 2 June 2004, the details of which you passed to me on the telephone. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external military source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

With regard to your particular observation, I can confirm that we received no other reports of 'UFO' sightings for 2 June 2004 from anywhere in the UK. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised military aircraft.

Yours sincerely

Dear **Section 40**

I have just received the letter and photographs that you sent to RAF Fylingdales regarding 'UFOs', that you observed in Sri Lanka on 27 March 2004.

It may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Defence of Sri Lankan airspace is clearly a matter for the Sri Lankan Government and you may wish to pursue your enquiries with them.

I am sorry I can not be more helpful.

Yours sincerely

UNUSUAL ATMOSPHERIC OCCURRENCE

1. Please find enclosed a letter and a couple of photographs I recently received regarding an unusual atmospheric occurrence observed over Sri Lanka on 27 Mar 04. As RAF Fylingdales routinely forwards sightings of UFOs to your office I am also forwarding this to you. RAF Fylingdales recorded no satellite re-entries or unusual phenomena on the date in question.
2. I have sent a standard reply to **Section 40** a copy of which is also enclosed.

Unusual Atmospheric Occurrence

The Officer Commanding,
Royal Air Force Station,
Fylingdales.

Dear Sir

For many years I was employed by the Ministry Of Defence at R A F Fylingdales as an employee of the A F D F S, my records will be held by the appropriate office.

You will have seen by now the two photos enclosed, they are of an incident I observed whilst on holiday in SRI LANKA on the 27'th of MARCH this year, they may or may not be of any significance to your stations working, though may be of some significance to The M O D. You must admit they are unusual.

My notes on the incident are,

On Saturday the 27'th March 2004, whilst on holiday in Sri lanka, at a small place called HABARANA, I noticed a partial aura in the sky, a minuet or so later there was a clap of thunder, then a short while later a ring like a doughnut appeared the ring was orange in colour with a white/cream finger pushed through, the head of the column glowed an orange colour, behind the doughnut, was a second cloud of colour, and a further ring of orange. The Time This occurrence happened was 17-30 hrs approx SRI LANKAN time. The only way I can describe the sighting is that of an atomic or other type of nuclear explosion, the cloud from which did not rise in the sky, but headed from the high atmosphere towards the earth. Whatever the outcome of this letter, I shall remain convinced that it was an air Burst of some kind or other.

I am fully aware that you cannot reply to my letter due to the nature of your service restrictions, what I am not sure of, is what the outcome will be.

Yours truly,

UNUSUAL ATMOSPHERIC OCCURRENCE

1. Thank you for your recent letter and photographs reporting the sighting of an unusual atmospheric occurrence over Sri Lanka. Both this letter and the photographs have been forwarded to an office within the Ministry of Defence that deals with similar sightings and reports. The task of this office is to establish whether what was seen might have some defence significance. It is also possible that there may be a natural explanation for this phenomenon.

2. I can assure you that your report has not been ignored and will be subject to further investigation by the Ministry of Defence. Once again, thank you for your letter and photographs and also for your interest.

Dear **Section 40**

Thank you for your letter of your reported sightings.

You will be aware from our previous correspondence that the MOD examines UFO reports, sent to us, solely to establish whether they present any evidence of a breach of UK airspace by unauthorised aircraft.

With regard to your particular observation, I can confirm for the dates 15th/16th April 2004, we received no other reports of 'UFO' sightings. On the 10th May 2004, there was one other sighting, in Cumbria. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised military aircraft.

Your letter will be placed on our files.

Yours sincerely

In August 2003 I Refused Yellow Spheres and one Jumped Hundreds thousands of miles Down in one go, without as much a Blink of the eye - Save my Son - I Great Anxiety. Later of 2 very large UFO close, one must Have Been at Distance I saw it 30-40 ft long, 15 ft High. Snow white or off the white, which lit up in a straight line from the front and reflection, Back, was led grey with windows cut out. - the other like off the green with slight yellow center. Saucer shape the Band thought in front of Passengers Plane, You saw a Tell - floated Down slowly to land as witnessed to Back of Torbet Hill. So I lost track of it.

Well I said I would tell you 'if' this "Yellow Sphere" up in the Stars too - howay where Direction always headed North East. Would Return. Well they are
