According to Lt. Gen. Michael Flynn, the Chinese Communist Party is supporting the Democrat Party's effort to steal the election from President Trump.

In an [interview](#) Sunday, Flynn said common warfare tactics used by the Chinese military, namely information control and manipulation, have been employed in this

election. He noted this is part of Mainland China's advancing of its plan to become the only superpower in the world.

In order to achieve that, Flynn said Beijing would need to remove President Trump.

"Their sort of plan was by about the middle of this century that we are in right now and I believe during the last 2016 election when they didn't get the candidate that they needed and the kind of ideology that they saw American moving toward, they were not going to allow 2020 to happen," he explained.
