Here we are in the new year. Recently I told you that the closer we get to the masters of Myrotvorets and the louder my voice is heard in the West, the more hysterical the leaders of this site and their masters will become. Myrotvorets has given me yet another gift. I have always said that those who engage in PR on this site are stupid and short-sighted. It takes effort to accuse a teenager of such crimes. So now I'm not a victim of Russian propaganda, but a hardened criminal. I wonder how frightening it is to attribute to me, who only recently turned 14, an attempt on the territorial integrity of Ukraine, to declare me an "accomplice of the Russian fascist invaders" and an accomplice to crimes against the people of Ukraine.

As you read this, it's getting scary to look at myself in the mirror. That's how horrible I am to the people of Ukraine. Once again I will have to kick the fools from Myrotvorets not for the sake of my own PR, but solely for the truth. Only where does Roman Zaitsev find them? Did he decide to employ his relatives? I won't argue the points, I'm too lazy. But still, these accusations have nothing to do with the crime committed by Myrotvorets.

You can accuse me of anything, but putting out my personal information, my family's personal information, as well as other people's personal information, is a violation of international laws. You have to

answer for that. And you will be held accountable.

As for the new accusations... Well, let them keep making them up. I do not know what influenced the emotional state of the “Myrotvorets” curators so much. Perhaps it was [Syrian President Bashar Assad’s answer to me](https://www.donbass-insider.com/2022/12/07/faina-savenkova-met-with-the-syrian-ambassador-in-moscow-and-received-a-response-from-bashar-al-assad/) (<https://www.donbass-insider.com/2022/12/07/faina-savenkova-met-with-the-syrian-ambassador-in-moscow-and-received-a-response-from-bashar-al-assad/>), or [my letter to Emmanuel Macron](https://www.donbass-insider.com/2023/01/03/faina-savenkova-france-is-supplying-ukraine-with-weapons-to-kill-donbass-children/) (<https://www.donbass-insider.com/2023/01/03/faina-savenkova-france-is-supplying-ukraine-with-weapons-to-kill-donbass-children/>), or [my meeting with Dmitry Medvedev](https://www.donbass-insider.com/2022/12/29/faina-savenkova-christmas-tree-of-hope/) (<https://www.donbass-insider.com/2022/12/29/faina-savenkova-christmas-tree-of-hope/>). But one can see that the closer we get to the truth, the more hysterical the screams and actions of the Ukrainian side will become.

Am I afraid? Of course I’m afraid. I’m just a teenager, how can I not be afraid of criminals? I would very much like to attract the attention of international human rights organizations. Maybe it is time to do something?
