## Ukraine 'independent' intel group 'InformNapalm' is Washington funded

The Ukraine group 'InformNapalm', set up in 2014 to “debunk myths and expose secrets of the Russian hybrid war” and which claims to be “a purely volunteer endeavor which does not have any financial support from any government or donor”, is actually US Government funded.

The 'civilian intel' group publishes its US funded, anti Russian propaganda in 31 languages on its website: <https://informnapalm.org/en/> (<https://informnapalm.org/en/>)

On p.35 of the 80pp. leaked list of N.E.D. (US Congress) grants to Ukraine since 2014 (see the separate post on this site), InformNapalm is listed as receiving one grant of \$100,000. That does not mean it has not received other moneys from the NED or other US agencies. It does mean its claims to be independent and not government funded are false.

**Background**

Russia launched its hybrid aggression against Ukraine in February 2014. At first, under the pretense of "a local uprising", Russia captured and illegally annexed **Crimea** - a move unthinkable in the 21<sup>st</sup> century. In the meantime, the Kremlin was sending troops and weapons to **Donbas**, where it started the deadly war that has already claimed over 10,000 lives and driven 1.58 million Ukrainians out of their homes. Despite its direct involvement in the conflict, Russia keeps denying it. Instead, Moscow professes to be a peacemaker and seeks to undermine Ukraine through Kremlin's puppet leaders in Donbas.
