CONTACT REPORT

SUBJECT: Meeting with AECassowary 2 and the AERODYNAMIC Psychological
Warfare Panel

DATE: 28 November 1955

1. During this meeting the scripts number eight, nine and ten
were prepared. The script number ten was devoted to a special topic
of "Soviet Colonialism" and represented an attempt to raise the issue
of nationalism versus internationalism.

2. Raising a nationalistic issue by a large and strong minority
group such as Ukrainians, offers a possibility of political action
that could be aimed at countering Soviet propaganda against "Capital-
istic Colonialism" in Asia, the Middle East, and Africa.

3. In connection with the possibility of promoting nationalistic
forces in the world, AECassowary 2 referred to his previous proposal
of publishing an English language monthly magazine that could be an
instrument of this nationalistic drive against the Soviet deceptive
tactics designed to captivate and ensnarl the undeveloped countries
of Africa, the Middle East, and Asia.

4. We have pointed out that such a magazine, regardless of its
value and efficiency in promoting the issue, would require considerable
funds for its support. We have suggested, however, that depending on
the internal arrangement and economic use of the available funds AECass-
owar 2, in coordination with AECassowary 3, could draw on the funds
we have currently appropriated for the support of UKRAINSKIY SAMOSTIYNIK,
and we have voiced the opinion that in this case, subject to confirmation
by Headquarters, we would be willing to assist the group in editing this
magazine and in helping it to become an additional weapon of propaganda.

5. It has been agreed that AECassowary 2 will initiate a corres-
pondence on the subject with AECassowary 3 and that concurrently with
this he will start planning the first issue and collecting the appro-
priate material for it.
