MEMORANDUM FOR: Assistant Deputy Director for Plans

VIA : MPS/BG/CA

SUBJECT : Project AERODYNAMIC

REFERENCE : Memorandum for Record, dated 14 February 1968,
from MPS/BG/CA

1. The tax exempt corporation in New York under which Project AERODYNAMIC conducted its operations since 1952 (Prolog Research and Publishing Assoc., Inc.) was officially liquidated on 6 June. A new commercial corporate entity (Prolog Research Corporation) is now in existence. Prolog Research Corporation is conducting its business from the same premises in which the old corporation was located. There was no physical change of property, except for the name plate on the door leading to the suite of offices.

2. Prolog Research Corporation will be funded quarterly from headquarters via [redacted]. The corporation's profits ostensibly will come from research (on the Soviet Union) contracts to be fulfilled for non-specified users in the Western world. It will be subsidized by a private donor (or donors), whose name(s) would be revealed only in the case of an overly inquisitive representative of a news media or in other emergency needs. The donor aspect is being worked out by the Central Cover Staff.

3. The AERODYNAMIC Munich office (Ukrainische Gesellschaft fur Auslandsstudien e.V.) also will be funded from headquarters via [redacted], but its records will continue to reveal Prolog Research Corporation (formerly Prolog Research and Publishing Assoc., Inc.) as the source of its financial support. Munich will account for the expenditure of the

money received ostensibly from Prolog Research Corporation directly to the latter, as in the past. Prolog Research Corporation will continue to attach the Munich monthly accountings to its quarterly accountings to headquarters. Prolog Research Corporation has notified Munich that for various practical reasons, in the future it will transfer money to Munich from a [] rather than a New York bank. Prolog Research Corporation will open a [] account into which headquarters will transfer money from another [] bank periodically as needed. Prolog will instruct the [] bank to transfer specified amounts from its [] account to the Munich bank account of the Ukrainische Gesellschaft fur Auslandsstudien e.V. There is only one individual in the Munich office (AECASSOWARY/3) aware of the actual source of funds. The personnel situation in the Munich office is such that if any inquiries are ever made concerning administrative, operational or funding matters, the individual making the inquiry would be referred to AECASSOWARY/3.
