

Even The Blind Can See

I see the world for what it is, and it is not interested in community unity, but instead using every opportunity to maintain its dominance over all of us, and will do anything to keep everyone in line. Their main goal is power, control, and profit at all cost. --- You see, the establishment is reminding us about the Jesus Christ story – and all the way to the end result. And those 30 pieces of silver coins still buys a lot these days. And like Jesus Christ said - mankind cannot serve 2 masters: you either Serve God, or you Serve Money. And for that – he got tortured and crucified, and made an example of for everyone to see - what happens to anyone that wishes to go against the establishment.

And The Old British Empire conquering and stealing from other nations - their foreign policy then - & their foreign policy that continues on to this day, which became the American-Indian domestic policy in the 1800's, which then became the US Foreign Policy, which is how all wars came to be. And manipulating the general population to fight their wars for their profits – knowing how easy it is to sucker the general population with their propaganda media BS machine.

You see, The JEW ZIONIST ANGLO SAXON NEO-CON-ARTIST GLOBALIST MAFIA CRIMINAL ORGANIZATION are the ones pulling the strings on this planet, and they are manipulating the general white folk to do their dirty biddings. And again, how easy it is for them to fool mankind by offering them stuff like awards, certificates, medals, titles, and ranks, and slogans like – It Takes A Village, Make America Great, & He's A War Hero. And again, how easy mankind will turn the other way when offered 30 pieces of silver coins, and the likes. This Is What Is, And This Is Who We Are. And Damn All Those That Trust A Jew.

JFK - The Last President to Tell the truth about Illuminati (The Freemasonry and Zionism)
<https://www.youtube.com/watch?v=0JdrhJKfNq0>

JFK Speech on Secret Societies and Controlled Media, American Newspaper Publishers Association, Waldorf Astoria Hotel, New York, New York, (4/21/1961)

"The very word secrecy is repugnant in a free and open society, and we are as a people, inherently and historically, opposed to secret societies, to secret oaths and secret proceedings. We decided long ago that the dangers of excessive and unwarranted concealment of pertinent facts far outweigh the dangers which are cited to justify it.

Even today there is little value in ensuring the survival of our nation, if our traditions do not survive with it. And there is very grave danger that an announced need for increased security will be seized upon by those anxious who wish to expand it's meaning to the very limits of official censorship and concealment.

That I do not intend to permit, to the extent that it is in my control. For we are opposed, around the world, by a monolithic and ruthless conspiracy, that relies primarily on covert means for expanding its sphere of influence, on infiltration instead of invasion, on subversion instead of elections, on intimidation, instead of free choice, on guerrillas by night, instead of armies by day,

It is a system which has conscripted, vast material and human resources into the building of a tightly knit, highly efficient machine that combines military, diplomatic, intelligence, economic, scientific, and political operations. Its preparations are concealed, not published. Its mistakes are buried, not headlined. Its dissenters silenced, not praised. No expenditure is questioned. No rumor is printed. No secret is revealed.

No president should fear public scrutiny of his program. I am not asking your newspaper to support an administration. But I am asking your help in the tremendous task of informing and alerting the American people. I not only could not stifle controversy from your readers, I welcome it. Without debate, without criticism, no administration and no country can succeed. And no republic can survive. For I have complete confidence in the response and the dedication of our [citizens when they are fully informed.](#)"

SUPREME LAW OF THE LAND

http://www.rightsofthepeople.com/freedom_documents/additional/print_law_of_the_land.php

The general misconception is that any statute passed by legislators bearing the appearance of law constitutes the law of the land. The U.S. Constitution is the supreme law of the land, and any statute, to be valid, must be in agreement. It is impossible for a law which violates the Constitution to be valid. This is succinctly stated as follows:

"All laws which are repugnant to the Constitution are null and void."

---Marbury vs. Madison, 5 US (2 Cranch)
137, 174, 176, (1803)

"When rights secured by the Constitution are involved, there can be no rule making or legislation which would abrogate them."

---Miranda vs. Arizona, 384 US 436 p. 491

"An unconstitutional act is not law; it confers no rights; it imposes no duties; affords no protection; it creates no office; it is in legal

contemplation, as inoperative as though it had never been passed."

---Norton vs. Shelby County 118 US 425 p. 442

The general rule is that an unconstitutional statute, though having the form and name of law, is in reality no law, but is wholly void, and ineffective for any purpose; since unconstitutionality dates from the time of its enactment, and not merely from the date of the decision so branding it.

"No one is bound to obey an unconstitutional law and no courts are bound to enforce it."

---16 Am Jur 2nd, Sec 177 late 2d, Sec 256

Matt Taibbi: Eric Holder Back to Wall Street-Tied Law Firm After Years of Refusing to Jail Bankers
<https://www.youtube.com/watch?v=xVdjiFuG1DQ>

The **Libor** is a **benchmark interest rate** that affects how consumers and companies borrow money across the world. The rate is set by the British Bankers' Association (B.B.A.), an industry group in London.

How the Rate Is Set

Banks Submit Figures

Each weekday, leading banks around the world each submit a figure to the B.B.A. based on the rate at which they estimate they could borrow funds from other banks.

British Bankers' Association

The B.B.A. throws out the highest and lowest 25 percent of submissions and averages the remaining rates. This is the Libor.

The Libor

It is calculated for 10 different currencies and 15 borrowing periods. There are 18 banks that submit rates for the U.S. dollar Libor.

What Is Affected by the Rate

Derivatives

The Libor is often used to price financial instruments like swaps transactions and futures contracts. At least an estimated \$350 trillion in derivatives and other financial products are tied to it.

Loans

To calculate interest rates, some lenders use the Libor as a base and add additional interest based on the borrower. When the Libor goes up, rates and payments on loans tied to it can rise as well.

Mortgages

Of the mortgages in the United States that are adjustable-rate, about 45 percent of prime mortgages and 80 percent of subprime have interest rates based on the Libor.

Student Loans

About half of variable-rate private student loans are tied to the Libor.

What Barclays Did

- 1 Between 2005 and 2007, employees in Barclays' trading units convinced employees responsible for submitting Libor rates to alter the bank's rates based on their derivatives trading positions to bolster their own profits.
- 2 Certain traders at Barclays coordinated with other banks to alter their rates as well.
- 3 Later, during the height of the financial crisis, Barclays submitted artificially low rates to give the impression that the bank could borrow money more cheaply and was healthier than it was.

How the peak EMP on the ground varies with the weapon yield and burst altitude. The yield here is the prompt gamma ray output measured in kilotons. This varies from 0.115–0.5% of the total weapon yield, depending on weapon design. The 1.4 Mt total yield 1962 Starfish Prime test had a gamma output of 0.1%, hence 1.4 kt of prompt gamma rays. (The blue 'pre-ionization' curve applies to certain types of thermonuclear weapons, for which gamma and x-rays from the primary fission stage ionize the atmosphere and make it electrically conductive before the main pulse from the thermonuclear stage. The pre-ionization in some situations can literally short out part of the final EMP, by allowing a conduction current to immediately oppose the Compton current of electrons.)

NAFTA: <https://www.boundless.com/u-s-history/textbooks/boundless-u-s-history-textbook/bush-clinton-and-a-changing-world-31/the-george-h-w-bush-administration-229/the-george-h-w-bush-administration-1303-2270/>

During George H. W. Bush's presidency from 1989 to 1993, he negotiated the end of the Cold War, struggled with a large federal deficit, and signed several new laws.

In July of 1991, the Strategic Arms Reduction Treaty (START I) was signed by Bush and Gorbachev in Moscow. After the dissolution of the Soviet Union in 1991, Bush and Gorbachev declared a U.S.-Russia strategic partnership, marking the official end of the Cold War. Bush's administration, along with the Conservative Canadian Prime Minister Brian Mulroney, spearheaded the negotiations of the North American Free Trade Agreement (NAFTA), which would eliminate the majority of tariffs on products traded among the United States, Canada, and Mexico.

North American Free Trade Agreement
https://en.wikipedia.org/wiki/North_American_Free_Trade_Agreement

The Canada–United States Free Trade Agreement had been very controversial and divisive in Canada, and the 1988 Canadian election was fought almost exclusively on that issue. In that election, more Canadians voted for anti-free trade parties (the Liberals and the New Democrats) but the split caused more seats in parliament to be won by the pro-free trade Progressive Conservatives (PCs). Mulroney and the PCs had a parliamentary majority and were easily able to pass the 1987 Canada-U.S. FTA and NAFTA bills.

Breaking: Sen. Harry Reid Behind BLM Land Grab of Bundy Ranch
<http://www.infowars.com/breaking-sen-harry-reid-behind-blm-land-grab-of-bundy-ranch/>

AWAKEN

A movie poster for the film 'Awaken'. The title 'AWAKEN' is written in a large, white, gothic-style font across the center. The background is a dark, apocalyptic landscape with a city of ruins. In the foreground, a young boy is kneeling on the ground, looking up at the sky with his hands clasped in prayer. The sky is dark with a bright, glowing horizontal band of light, possibly representing a sunrise or a celestial event. The overall mood is one of hope and resilience in the face of destruction.
