“I AM” ACTIVITY
OF
SAINT GERMAIN FOUNDATION

The “I AM” Activity represents the Original, Permanent, and Highest Source of the Ascended Masters’ Instruction on the Great Laws of Life, as first offered to the western world by the Ascended Master Saint Germain, through His Accredited Messengers, Mr. and Mrs. Guy W. Ballard.

In the early 1930s the Ballards established Saint Germain Foundation and Saint Germain Press, Inc. which under Saint Germain’s Guidance, have expanded into worldwide organizations that offer to mankind the true Ascended Master Teachings on the Great Cosmic Word, “I AM”! Saint Germain Foundation strives to keep the “I AM” Ascended Master Instruction in Its pure, unadulterated form, free from any human interpretation, personal monetary gain, or proselytizing, as It is a Gift from the Great Ascended Masters and Cosmic Beings to bring Illumination and Perfection to mankind.

Hundreds of “I AM” Temples and Sanctuaries exist throughout the world, where the Teachings are applied in “I AM” Decree Groups. The Books of the Saint Germain Series are available in many libraries, bookstores, or directly from Saint Germain Press (address below). For further information, please contact:

DEDICATION

his Series of Dictations is dedicated in deepest Eternal Love and Gratitude to our Beloved Ascended Masters, Saint Germain, Jesus, Nada, the Great Divine Director, our Beloved Ascended Messengers—Beloved Godfré and Lotus, the Great White Brotherhood, the Brotherhood of the Royal Teton, the Brotherhood of Mount Shasta, the Great Ascended Masters from Venus, the Great Cosmic Beings, the Four Great Gods of the Mountains, the Great Angelic Host, the Great Cosmic Light; and those other Ascended Masters whose Loving Help has been direct and without limit.

TRIBUTE

he time is approaching when all the humanity of this planet must give recognition to the Four Gods of the Mountains who are entrusted with drawing and controlling the Electronic Force within the Mountain Ranges of the Earth.

The two Gods of the Mountains who abide in the Western Hemisphere form a Mighty Focus of the Cosmic Currents to this part of the landed surface of the Earth. One of these is the Great Cosmic Presence, Beloved God Tabor, who towers about eight feet tall and comes from a very ancient race of people. His Retreat is in the United States of America. He is the one after whom Mount Tabor in the Holy Land was named. Shortly after the Ascension of Beloved Jesus He came to North America to become the Guardian of the Rocky Mountain Range.

The second God of the Mountains in the Western Hemisphere is Beloved God Meru, the Guardian of the South American Range. He

guards magnificent wonders of wealth, jewels, and beauty in the caves of the Andes and is the Giver of certain Currents that form the great Strength and guarding Purity for the Three Americas. God Meru stands seven feet tall and is of the most wonderful proportions. He calls the Mountain Ranges of South America the "Treasure Chests of centuries past," and like the Himalayan Mountains, they guard many wonderful Secrets of Nature. His Retreat is located in the vicinity of Lake Titicaca, Peru, and His Messenger is the Beloved Lady Master Nada. Beloved Pearl tells us that "The God Meru, the God Tabor, and the God Himalaya are Beings who, the first time one sees Them, seem almost terrifying in Their Majesty, Their Beauty, the intensity of Their Light, and the Perfection which They are!"

Volume 6:321

The Great God Himalaya, from whom the Himalayan Mountains received their name, holds under His Direction the tremendous Electronic Force focused within the Himalayan Range. From there He governs the Electronic Force which surges throughout India and China. He has much to do with the governing of the Air Currents. One example is the releasing of His Golden Snow

over the United States of America. He has been the Guardian of the Himalayan Range since the beginning of this planet. He stands over seven feet tall and holds under His Protection many places of Beauty and marvelous Treasures in these great mountain peaks.

In India there resides the Ascended Master Orion, known by the people as the Old Man of the Hills. He is closely connected with the God Himalaya. Beloved Orion is the Guarding Presence of the Nation of India and the Guarding Presence of the Himalayan Range. He comes under the Beloved Mighty Elohim, called Orion as well, one of the Builders of this System of Worlds. There is also the Great Cosmic Hierarchy which governs the Galaxy of Orion, composed of uncountable billions of Suns and Systems of Suns and Systems of Worlds. The God Himalaya, the Ascended Master Orion, and the Constellation Orion are part of the same Activity, but of varying intensity.

In Europe the Beloved God of the Swiss Alps has guarded a very ancient Focus of Mighty Cosmic Power for thousands of centuries in the Alps. It is His privilege to be the Guardian of certain Substance, Fire, and Power for the

stabilization of that portion of the Earth around the Swiss Alps. His Retreat is located in the Monte Rosa. He tells us, "The Power which is drawn from the Retreat in the Swiss Alps, from Mighty Himalaya's Retreat in the Himalayan Mountains, from the Mighty God Tabor's Retreat here in your Rockies, and Mighty Meru's Retreat at Lake Titicaca, means the focusing to a given point of four of the Mightiest Streams of Electronic Force to this Earth! And that is necessary to hold certain balance in the structure of the Earth itself in and around the Three Americas.

"This forms a Mighty Cross over the Western Hemisphere, and It is no imaginary thing. The Mighty Electronic Currents which flow through the Mountains are all purifying in their nature. They are also protective and powerfully energized, of course. Mankind little dreams that there stand in the atmosphere of Earth two Great Electrodes between which can pass Cosmic Power and Electric Force which the mind of man has never comprehended or even imagined.

"Call to the Gods of the Mountains to give you the Blessings, the Power, and the Protection of the Mountains in whatever you are doing and wherever you move in the rest of the world; and

We shall become a Cross of Electronic Force over you, and in and around you, which will give you the feeling of Mastery over all energy wherever you move, but you must remember Us!

“May you live within It and BE Its Protection to all that is of Freedom and Victory of the Light for America and to all who seek the Light throughout the Earth!”

MIGHTY GOD TABOR

O Mighty God Tabor of Glorious Light!

Great God of the Mountains, whose towering height
Majestic, Commanding, in Silence Divine,

Thou dost guard and control by Power all Thine!
Great Guardian of Treasures and Blessings untold,
Through Thee, Nature's Great Heart of Love, we
behold

Thine own Shining Presence is governing all,
Releasing Thy Miracles through each Heart's Call.

We love Thee and praise Thee, Beloved Tabor Dear!

Enfold us and hold us and ever stand near
To bless us and raise us unto Thy Great Height,
To guard and protect us by Thy Cosmic Might!
Illumine and charge us with Thy Wisdom too;

Prepare now the way and in Glory step through!
We long have beheld Thee in Great Cosmic Power,
We stand at Thy side now each blest shining hour!
Expand all God's Light now throughout the whole world,
Until mankind all see Light's Banner unfurled—

Held high in the Heavens, the Hope of all here,
O Glorious God Tabor, make our way all clear!
Great God of the Rockies Thou dost ever remain,
God's Keeper of Secrets in Light's Great Domain,
Till marvels unnumbered reveal Life's Great Plan
Of Glorious Freedom and Victory for man!

O Being so Bright, in Thy Great Heart of Flame,
We come now to rest and adore God's Great Name,
And all Life bestows through God's Almighty Word,
The Glorious "I AM," through Thy Voice now is
heard
In Sounds so Almighty our Hearts burst with Light,
Thy Arms in Full Glory clothe us with Thy Might!
Thy Voice like the Music of Heavenly Spheres,
We hear say: "My Loved Ones, My own Blessed
Dears,
Come into My Heart in the Garden of God,
You shall live in the Light, no more shall you plod!
From all limitation I now set you Free,
Of Nature's Great Blessing, hold full custody,
Know Nature's great Secrets—Love, Wisdom, and Power,
Be all God's Authority, each day, each hour;
Command all the Elements to do God's Will,
Command in Full Power! 'Peace, Peace now! Be still!'"

DISCOURSE I

BELOVED GOD MERU

January 6, 1950

Chicago, Illinois

Record CD 1370 AB; Cassette 6 0422

Beloved Ones of the Light, as We enter into the Radiation of the evening, may I reveal to you more of the Inner Secrets and Powers of the great Love of the Universe, that Mighty Stream of Pure Electronic Force that plays throughout the System as the great cohesive Power holding the physical structure together, and at the same time moving within that structure Its sustaining, expanding Power of Life.

As We enter into the Radiation of that which We are endeavoring to increase in the United States of America to hold greater Protection around that which is constructive, We are drawing through the great permanent Rays to the Earth the greater intensity of Our own Love as It plays through the Mountain Ranges of the Americas.

Throughout the planet in the Mountain Ranges there is the Concentration of Electronic Force that, as It goes through the structure of Earth itself, pours forth through Radiation to the Powers of Nature and to the people that Energy which, from an electrical standpoint, you would speak of as high potential. And that is stepped down to whatever intensity the Beings of Nature require in their building of the magnificent formations within the Mountain Ranges themselves. Then It is stepped down into that intensity which the plant life can use; and It is also radiated forth into the atmosphere which mankind breathe in and which is, in reality, part of the Great Fire Breath of God.

This Mighty Outpouring of the Love from the Great Beings who direct this System of Worlds is of tremendous importance to the individual. If mankind would contemplate some of these more magnificent Manifestations of the great Outpouring of Life from the Great Central Sun, it would be a Raising Force to the individual who, through the attention, would reach up to this greater Power of Cosmic Christ Love and draw that which is of Cosmic intensity into the individual's own Life Stream to be the Illumination and the greater

Power of Accomplishment that cooperates with the great onward Expansion of Life's Perfection.

Now in entering in tonight to the Radiation that We are drawing from South America for the accomplishment of certain things to hold balance within the Three Americas, We ask each of you to become an Open Door through conscious recognition and acceptance of that Love which We are privileged to pour to the people of Earth. Unless mankind will understand this and consciously accept It, cooperate with It, and allow It to expand in themselves and go forth as the Purifying, Harmonizing Power to change conditions in the physical octave, I tell you, there's no hope otherwise.

As each of the Great Ones has said recently, the planet is taking its Initiation in Love; and that means that hate must be consumed by that Electrical Force of the Universe, the Pure Electronic Force from the Physical Sun and the Great Central Sun and from that Light Substance in Our Octave of Life. Just as you would throw a blanket over a fire to put it out, can this Cosmic Light Substance from the Ascended Masters' Octave be consciously drawn and condensed and concentrated and directed into conditions

and around them where hate is rampant, and planning an expansion of its own destruction.

And I might say to you tonight, this is vitally important in the capital of your Nation. While the capital of every country is the focus for intrigue and selfishness and all that sort of thing, yet We are all concerned with the Protection in the United States of America of that Power of Freedom of which She is the Guardian. Being the Heart of the World, the Freedom to love God as the Ideal of the Nation must be maintained within these borders; and Our Cosmic Christ Love and your Demands for Its Protection are the only Activities of Life on the planet that can possibly protect It.

The destructive force in the rest of the world, as well as here, will not protect your God-given Freedom. It will not protect the Blessings within your borders of which you are the custodians. The responsibility of guarding the great Divine Gift which the "Mighty I AM Presence" through the Beloved Saint Germain has bestowed upon America from the beginning—the responsibility of that Guardianship rests with you. And it rests also within the constructive people within your borders who really at heart want Freedom—and there are many besides yourselves.

That, so far as We are concerned, represents an Expansion of the Light within the people themselves; and if you are determined to fire them awake with this Great Cosmic Christ Love for the "Great God Presence" of Life, then that becomes the Guardian Presence for the Freedom of the Nation. We are drawing tonight certain Currents of that intensifying Love from the Retreat at Lake Titicaca, from the Retreat of Shamballa under the Direction of the Mighty Sanat Kumara, and there is also a Concentration of It into your capital tonight from the Great Lord Maitreya.

We would appreciate it deeply if sometime each day—while the present turmoil seems to be expressing—that each of you consider it your patriotic duty to demand such a Concentration of the Great Fire Breath of God's Invincible Love from the Central Sun go into that city with the Cosmic Power that will compel mankind to breathe It in, and to a large extent, hold the Purification necessary to stem the tide of that which the destructive forces wish to draw forth into outer violence.

Hatred is a terrible thing before Life! When mankind have gone on so many embodiments determined not to love some other part of

God's Life, then the reactions must come and make individuals awaken to the Law of their own beings. You, as "I AM" Students who have conscious awareness now of the Power of this Love, are Our Hope to hold under control certain forces within your borders until they can be completely removed.

Things must be kept in leash until the Cosmic Law sees fit to remove the complete stream of energy that is now the sustaining consciousness and supply of the war beast of the world. The head is in Washington, and the resources of your Country are being consciously depleted with the deliberate intent to subject you to the same slaughter as the rest of the world. With your cooperation to Our Request, in the recognition of the Great Fire Breath of Cosmic Christ Love from the Great Central Sun to sweep Its Blazing Presence into that city and compel the people to breathe It in, We hope to stem the tide of that which is planned.

I am not here without Conscious Command of the Great Cosmic Law; and the Beloved Lady Master Nada, who is My Messenger, ever stands ready to pour the Power of Her Love that has served many civilizations throughout the centuries

to bring in the Perfection that has blessed Life so greatly. We are asking you, as Beloved Saint Germain's Family, to call consciously and daily, and demand in the Name of the "Mighty I AM Presence"—the Great Cosmic Law of Cosmic Christ Love—demand the Concentration into the city of Washington of that which compels those in your government to become aware that they can no longer go on with the idea to undermine the Nation!

There are those strong, loyal souls—within them—who are doing all they know how to do to prevent the destruction intended; and they must have Help, and your Call for this Great Fire Breath of Cosmic Christ Love from the Great Central Sun will wrap Itself around them as a Substance which becomes the Strength and Courage and Power and Determination to not yield to the forces that want to destroy again the Handiwork that would take mankind to Freedom. We must concentrate your attention again and again and again to your own Conscious, Cosmic Call for this Great Love from the Great Central Sun to spread Its Flame wherever hatred appears. And that Flame must be held in sustained action until It shuts off the further feeling of the hate creation of the world.

We are very grateful for your Decrees tonight. Much was consumed as the Flames went forth, and much still needs to be consumed. From the great Mountain Ranges within this Nation there is going forth the Blessing and the Purifying Power of Our Love everywhere possible to hold Protection for all that is constructive, and maybe the Great Cosmic Law will permit certain Dispensations for which We have asked to more rapidly intensify within your borders the Concentration of the Cosmic Light Substance. Many Manifestations of the Light, and the great Electronic Currents of Energy passing through the atmosphere of your Country—many of these Streams of Energy are being increased hourly; and We are very grateful for your determined stand to demand America's Freedom from that which would seek to rob the people of everything that is of the Light.

As one of the Great Ones told you recently, you think the destructive forces have been frightful in the rest of the world; but I tell you, you cannot imagine how vicious would become their hatred to you because of your determined stand for God. Now there are others throughout the world who have stood fearlessly for the

“Great God Presence” of Life. They have stood with all they knew how, and their Light has been the Protection of much upon the Earth. But, My Dear Ones, you have Conscious Knowledge of the Great Cosmic Word, “I AM”—the Great Cosmic Authority that, if spoken into the atmosphere of Earth, becomes the Command to the Universal Light Substance to concentrate into outer manifestation. You hold within your hands the Scepter of Power by your Conscious Knowledge of that “Mighty I AM Presence.”

Will you, for the next few weeks, see the Luminous Presence, not only over the individuals who are within the city of Washington, but also the Luminous Presence of the Cosmic Beings who govern the Americas. See Their Luminous Presence filling and surrounding the city. The Mighty Cyclopea guards Canada. The Mighty Saint Germain, the Goddess of Justice, and the Archangel Michael have been the principal Guardians within the United States, as is also the Beloved Lanto and Mighty Victory. And the Beloved Nada, the Blessed Mary, and others with Myself, are the Guardians of South America. So far as Mexico is concerned, that comes under Our Guardianship also.

Now there are Focuses of tremendous Power within South America as well as Central and North America, places where the Manifestation of the Light has been held for centuries. Every effort is being drawn forth from those Retreats—wherever effort is being made—to draw forth from those Retreats the Streams of Electronic Force of the Love that has been held concentrated there for centuries; and that is all pouring tonight into the city of Washington, D.C. The United States of America, as you have been told before, is the “Cup of Light” to the world; and the Permanent Atom is within your city of Chicago. And if this Power of Love—and “I AM” speaking of that Great Cosmic Christ Love from the Great Central Sun that is the Sustaining Power of the whole System—if by Conscious Command, you demand that, in Its Cosmic Action unlimited in Its quantity, be concentrated into the capital of your Nation, and you demand that all things be held within your borders by that Love, all things be held within Its consciously drawn Flame—you’ll find many plans of destructive forces will not succeed.

For your encouragement, Beloved Ones, I want you to know, the Inner Currents have been reversed some time ago, so far as the destructive forces are concerned; and they are being removed

as rapidly as possible from the planet. But the outer effects must also be corrected, and the Great Powers that guard the Destiny of the Americas are watching hourly to increase by Conscious Command this Great Flame of Cosmic Christ Love everywhere within and around all that is constructive within your borders. Then as that is anchored and It expands, It goes forth and more rapidly consumes the destructive activities that are seeking to express. We want you to feel that there are Legions of Ascended Master Friends who stand your Guard because of the Service you have the capacity to render. And only the "I AM" Students do have that capacity because of your Conscious Knowledge of the "I AM Presence."

It would draw tremendous Assistance were you to demand that everyone within your Nation, and especially those in your government, be compelled to see that "Mighty I AM Presence" above their own heads. If you will make the Demand, We will do whatever the Cosmic Law permits to clear away enough of the obstruction in the atmospheric condition to make them see that "Presence" from time to time; and It would do much, I might say to you, to awaken certain forces within them that would be for the benefit of the Nation.

There are locations within South America where various ones of the Ascended Host have ministered from century to century. The same is true of Canada and North America and Central America. There are certain localities where the Great Cosmic Light Rays have been anchored through the centuries to sustain a Purifying Power which this Great Cosmic Christ Love is to the Earth; and wherever that has been in the past, I might say to you tonight, It is being intensified as much as the locality can stand.

You might wonder why destructive forces or a locality could not stand a sudden intense Action of Our Love; but when you recognize that that is tremendously concentrated Electronic Force, then It must be released in whatever intensity will not shatter the atomic structure that is not accustomed to It. All of this is a raising of the vibratory action of the energy within the Americas; and as you call forth through these exact Words, *the Great Cosmic Fire Breath of Cosmic Christ Love from the Great Central Sun*, and charge that throughout the atmosphere of the Nation, you will find It a very Purifying Activity.

And I feel sure you will all feel a sense of relief in the pressure of the conditions in the throat. That

is but a concentration of more impurity due to the war and certain forces over the Nation that are trying again to increase the psychic substance. You, through your Decrees, can decrease it. It is a constant, ceaseless surging of energy everywhere in the atmosphere of Earth; and those of you who know this Law, by Conscious Command can call forth from tonight the Great Fire Breath of Cosmic Christ Love and spread Its Blazing Violet Flame over your Nation—and especially within your capital—until It becomes an atmospheric pressure so great that destructive forces will find a barrier to the accomplishment of much of their evil.

You, My Dear Ones, have much more Power than you dream through your Decrees and your willingness to give obedience to the Cosmic Law's Requirements in order to command the God Authority of Life of that "Mighty I AM Presence" to move into mankind's outer activities, and take Command where destructive forces hitherto have seemed to rule. It might surprise you to know that a great many of the destructive forces within your borders have recently begun to fear greatly, because their own creation is about to return upon them, and their own life knows that. The sooner it can come, the better it will be.

Beloved Ones, enter into the Demand for that Great Fire Breath of Cosmic Christ Love to enter into yourselves as well as into your city. My! you have no idea what a sense of buoyancy that will give through your physical bodies. As you demand this and give conscious recognition to It by your daily attention, It will naturally come into more concentrated action in and around yourselves. While It is an Activity of the Violet Consuming Flame, It also is like a vapor. It is like a substance as well; and when you feel yourselves breathing that in, notice, if you will, Its immediate, raising, exhilarating effect within the body.

Whenever you're tired, for a few moments just stop, and taking a few deep breaths, demand that the Great Fire Breath of Cosmic Christ Love now comes into your body, and there expands Its great Outpouring of Cosmic Power in Its Purifying Radiation in and around the physical form; and see for yourselves what a lifting, wonderful, exhilarating feeling will come with It.

The Fire Element, My Dear Ones, is the Life-giving and Life-sustaining Activity of the Great Central Sun to this whole System of Worlds.

That is the atmosphere of a planet. It is also the atmosphere of the individual; but if you give It conscious recognition, you can increase Its Power within and around yourselves almost without any limit. When you begin to realize that the very air you breathe is charged with that Pure Electronic Force from the Great Central Sun that is the Radiation of the Love from the Life that is there, that "Mighty I AM Presence," then as you consciously are aware that you breathe in the Great Fire Breath, the Universal Fire Breath of that Great Love to this System of Worlds, My Dear Ones, you will begin to have the proof within yourselves of Its marvelous Purifying, Energizing, Illumining, and Protecting Presence in your own atomic structure.

Do you not feel the difference in the room as the Radiation has come forth? You have forgotten your throats for the moment, haven't you? (*laughter*) Well, It was the Fire Breath of My Love that you were breathing in; and so that which had been disturbing had to recede. But you can just as well as not fill yourselves consciously with It at any time. So "I AM" giving you a secret that, We might say, has a very close relationship to the way and means by

which Eternal Youth and Beauty can be brought into the atomic structure. It is but a matter of applying this Law with no longer an acceptance of that which seeks to cause disturbance.

You know, when there's a volcano burst and all that dust goes into the atmosphere of Earth, mankind become panic-stricken with fear. When Our Love comes forth by Conscious Command drawn from the Great Central Sun or the individual Retreats where Its greater intensity is located—when We consciously draw that forth and send It into a city or a nation or into a group of individuals, It has just the opposite effect of the volcano. One spreads its devastating substance. We, by the same Outpouring of Energy, but qualified with Our Love, spread the Life-giving Power of the Great Fire Breath of Our Love. And that, coming forth from the Great Central Sun by Conscious Command, can be drawn by the individual both within the body and into the atmosphere in which you move.

Then you carry your own atmosphere with you; and wherever you go, others will feel the Life-giving Essence around you. They will feel your courage. They will feel your power to accomplish. They will feel, through your

Radiation, the Acceptance of the "Presence" and the possibility of attaining the Ascension. This is actual Substance on which is carried your feeling that you have accepted concerning the "Presence," and on which is carried Our Outpouring and Conviction to you. Then your Radiation carries that Conviction to others through your mental and feeling world.

The great Activity of the Great Fire Breath of that Great Central Sun's Love is the most wonderful, Life-giving Essence; and It is an atmosphere in which you could be sustained, independent of that which the rest of mankind have to have in the physical octave. This Great Fire Breath of which I speak, of Cosmic Christ Love from the Central Sun, contains within Itself all your outer selves would ever need to sustain the atomic structure in absolute Perfection and hold about you a Sphere of Its own Essence, Its Energy, and Its Supply—ever-sustained, ever-expanding, self-sustained Activity that becomes Eternal Life for those who move within It. This is how you may live in the world but not of it. You may move in a Sphere of this Fire Breath of Cosmic Christ Love, and no harm could come to you.

So tonight, would you accept a business proposition? May I put it that way? (*applause—audience rising*) Thank you, Precious Ones. While you're standing for just a moment, will you see the Violet Flame passing from the feet through the body and around you for some distance. And then as you breathe in this Great Fire Breath of Cosmic Christ Love, will you see pass off from the top of the head, just like a vapor, all the substance within the body that has been distressing you. For just a moment feel that you are breathing in the Great Fire Breath of Cosmic Christ Love that releases into the Violet Consuming Flame everything that has been of your recent distress. (*silence*) Thank you so much. Won't you be seated, please.

If you will give Me that substance, I will give you My Substance; and that should be an even trade! You know, Life has so many wonderful things within It. Life is so wonderful, and mankind know so very little about It; and yet they could know all. So We come from time to time to those whose attention makes them receptive to that which We can give as rapidly as they can use It. You know, the Cosmic Law, as the Mighty Saint Germain told you, is not

stingy; but It does not permit an unnecessary use of Itself. And I might say to you, when you have accepted substance within the body or within your Country that is discordantly qualified, may I say, that is an unnecessary use of energy.

Anything that sustains limitations is an unnecessary use of energy, and We are trying to keep your attention upon the necessity of Cosmic Christ Love. You have not always considered It so. You have thought It was a religious ideal. Oh yes, It was true; but you shelved It most of the time, and you only remembered to call forth Its Power when your own distress became so great you couldn't stand yourselves.

But now that you are awake from the nightmare of the human senses, may We ask you to enter in with Us to the Conscious Command that this Great Fire Breath of Cosmic Christ Love now becomes the atmosphere of your city, the atmosphere of your Nation, the atmosphere in and about yourselves. And if you will visualize It always as violet—like you would see a violet fog, within which plays the Flame—you can draw that into yourselves, and then command It to be the Release within you of whatever intensity of that Cosmic Christ Love

is necessary to compel Purity and Balance and Health and Strength and all the Perfection you could desire.

You have accepted that you cannot live in the physical form if it doesn't have air to breathe. I say to you, you cannot live and go forward into the Activities of Perfection unless you have the Great Fire Breath of Cosmic Christ Love to breathe into your Inner Bodies. And that must become the atmosphere of your world. Then regardless of what you require, you at all times, through that Power of the Sacred Fire, have an Open Doorway, a clear Pathway into Our Octave and into the Heights of Creation; for through that Love you may go anywhere in the Universe, behold what you will, and with your attention and love upon It, will Life give It to you to use in the physical world.

Life will not withhold from you any constructive thing that you really desire to use in the physical octave; but be sure you call forth with it its Eternal, Invincible Protection and the full Illumination necessary to use it in the Fulfillment of the Great Divine Plan that affects the whole world. Then you are free to draw what you will, My Dear Ones. Beauty and Perfection

and Abundance of every good thing is yours at any time through the Command of that Great Cosmic Christ Love and the acceptance of Its great Authority of the Sacred Fire.

People do not realize that the Sacred Fire is real. To a majority of people, you say "the Sacred Fire," and it's indefinite—hazy—"something." They think It might have some relationship to the flame, but they're not sure; in fact, they're quite uncertain. And the average person, when you speak of the Sacred Fire, says, "Well, what's that mean? I don't understand It." And yet that very Sacred Fire, the Unfed Flame in your own Heart, is giving you the Energy by which you live; and then tell Me you don't know anything about It when you're It! (*laughter*) You certainly know yourself!

But tonight I want you to become aware and use, by Conscious Command, the Love, the Cosmic Christ Love through that Great Fire Breath of Creation, because that is the great Inbreathing of the Cosmic Activities of the Sacred Fire that produce what you will in the physical octave. That Great Fire Element interpenetrates all the other Elements, and It is the very Life Essence within everything.

Therefore, within yourselves you may have as much or as little as you consciously accept and call into outer action, because you are surrounded by It everywhere. You may turn your attention to the Heights of Creation, and by conscious recognition, as that Energy comes back to you on the Love you have sent forth through that "Great Cosmic Christ Presence," the "Mighty I AM" in the Great Central Sun—as your Love goes to that, It is like a River of Flame, and on the return Current does there come back to you this Great Fire Breath that is the Life Pulsation of the Beings of the Great Central Sun.

You were there once! Your Life has always been, is now, and always will be; and therefore you might just as well have all the Blessings that are in the Heart of Creation to draw into your outer use in whatever proportion you require Them, as to go on in this outer world's acceptance that you haven't this and you haven't that and you haven't something else.

Tonight, because of the need for your Nation, if you will make this Call that the atmosphere over America blaze the Great Fire Breath of Cosmic Christ Love until It makes the very atmosphere alive with Its Flame, and the people

are compelled to see It—and they'll be inquiring about other things than Discs of Light! (*laughter*) If they were to see the atmosphere itself become like a Flame, almost like a Fog of Fire, it would at least set them to thinking about something beside themselves. And in that moment they will learn much.

So as We move forward, you have the Knowledge—We have given you Conscious Explanation of these more magnificent Activities of Life's great Energy. Therefore, live now in the atmosphere of your own Call for that Cosmic Christ Love; and demand that Its Great Fire Breath come into you and renew the outer self, give you the exhilaration of Its Great Cosmic Presence, and pour forth through you that which maintains your world in Beauty and Perfection and boundless, wonderful, perfect activity. Then draw It forth into your Nation to render the same Service; and call that forth until the city of Washington itself becomes as a Blazing Sun with that Fire, and let Us see what We can do to prevent hate again having its own way.

If you will help the Beloved Nada and Myself to concentrate this through the Student Body by Conscious Command into your Nation's capital,

We will do Our utmost. And then leave it—the results—in the Hands of the Cosmic Law. But We will do Our best, and "I AM" sure you will, for the Protection of your Nation against that which is not Love.

So from tonight, may this Flame cover the Country; and may It concentrate in the big cities where so many people are gathered together, and move into outer action the Consuming Power that annihilates the hate that would try again to cause more suffering. Just as hatred hurts, so does Our Love heal and soothe and encourage and protect and supply that which is constructive. Wherever It goes, It blesses all with that great Gift which only that Cosmic Christ Love can give. May Its Great Fire Breath surge in and around each of you and arouse you to the most wonderful acceptance of Its Mighty Presence and take you forward victorious everywhere.

The Legions of the Sacred Fire are awaiting your Call. Let Us dissolve all the hate possible by that Great Fire Breath of Cosmic Christ Love; and as It spreads Its Healing Radiance over the people, may It forever bring Illumination to their minds, and they accept Its Reality and give the cooperation by which they become Free. It is

a Powerful Assistance to the guarding of the Freedom of your Nation, and the Activities of the Sacred Fire are the Cosmic Authority that bring Freedom everywhere. May you enter in tonight to the fullness of Their conscious use by Conscious Command, and see for yourselves the change in yourselves, in your affairs, in your atmosphere, in your business, and then in your Nation.

So We are awaiting your Call; and with all the Love at Our Command, with all that Life can give and that brings Blessings to you all, We stand ready to reveal in every possible way that great Outpouring which, We trust, will cover your Nation and stand the Guard against all that would rob you of Freedom.

May the Great Fire Breath of that Cosmic Christ Love from the Great Central Sun shed Its Radiance around you and become the Luminous Substance in which you move and let you know all the Happiness that is within Its Blazing Presence. Feel It as a Mantle about you. See It become the atmosphere around you. Visualize It everywhere, and demand the Great Fire Breath of Cosmic Christ Love spreads over the Nation that which withdraws hate and all that would seek

to confuse the people when they need to be alert and hold the guard for themselves and those they love.

This night may the Love of the Ascended Host prove Itself to each of you as you make this Call, and the Ease and the Protection and the Victorious Presence of that Great Fire Breath give you Peace that is indescribable, but that is yours for Eternity; and Its Illumining Presence ever reveals to you Its greater Glories, Its greater Joy, Its greater Freedom, and Its Full Cosmic Authority and Power to command and to compel Perfection into action by that Love that is always Invincibly Supreme.

Thank you, Precious Ones. And in the Fullness of all that I know that to mean, may you become aware of Its Victorious Presence everywhere about you; and then you give the encouragement to others, that brings them Victory also. Thank you with all Our Love.

DISCOURSE II

BELOVED GOD HIMALAYA

December 20, 1950

Santa Fe, New Mexico

Cassette 6 5027

Beloved Ones of My Heart, it is with great Joy that We draw into outer action again over your Nation that Substance that comes under Our Direction, to help produce the balance that is necessary in your Nation to help stand against that which wishes to destroy you. And as the great Powers are drawn forth into outer action by your Conscious Call, know always that all who guard the Destiny of any nation are always One with that which is the Divine Plan for your Nation.

Tonight I'm going to make a statement which has never been made in Explanation of the Retreats throughout the world. In the Retreats throughout the world are held the Divine Plans, Records, and Power to fulfill in outer manifestation that which is the Destiny of the

world. And those Retreats, under the Direction of the Ascended Host, are really like the Higher Mental Body of the world; for there is only that which is constructive there, and the Power that has been anchored in each Retreat throughout the centuries has been made permanent for the Fulfillment of the Divine Plan.

During the centuries past when discord accumulated in a certain place in the world, then the Power in the Retreats nearest to that was increased and drawn into the outer to help offset that. Now since the Destiny of America must be fulfilled as the "Cup of Light" to the Earth, and since America is the Heart of the World representing the same as the Heart to the physical body, then the Power from every Ascended Master Retreat throughout the world is focusing now to help protect your Nation, and give the people the Strength of the Light to stand against that which would become a world conflagration, if it were not for the Powers of the Great Cosmic Beings who must change certain currents in the Earth and begin the shattering of that which would destroy all if it is not removed.

Therefore, when We draw forth the Substance and the Electronic Force from the great Mountain Ranges of the world, it is because that greater

Purity is needed in the outer life to be a pressure that stands as a Repelling Force against that which is destructive. You see, the Mountain Ranges of the world are really like great batteries, a great reservoir of absolutely Pure Electronic Force drawn and held in reserve, so that We may direct It at any time through those channels to do for mankind and do through the Powers of Nature whatever is necessary to hold the balance against the destructive accumulation in the atmosphere of Earth which otherwise would shatter the structure of Earth itself—to offset the balance that is its natural movement in its own orbit.

Now within the Mountain Ranges of the world are many of the most magnificent Creations of the Lord the Maha Chohan and the Powers of Nature. Many wonderful things have been created and held protected within the Mountain Ranges of the world for a certain Service which will be rendered in the incoming Golden Age. Some of the Beauties and magnificent Gifts of Nature are being created and protected and prepared to bless the world with their Power, their Radiation, and their Beauty and Assistance to mankind when the Cosmic Law is ready to reveal them, or hand them into mankind's outer use.

So whenever it is necessary to draw upon the Mountain Ranges of the world for certain Electronic Currents of Energy, you will find an immediate response in your emotional body to the Strength and Power from the Great Central Sun that is anchored within the Mountain Ranges of the world. There We draw Streams of Energy to govern whole continents through the Radiation of that Electronic Force in the Mountain Ranges. So there is a very great reason why the people receive Health and Strength and Happiness within the Mountain Ranges of the world. They are the custodians, so to speak, of the great Gifts of Nature that are created there, not just for mankind's use or amusement, but for the use of the Great Beings who govern the whole motion of the planet and sustain Life in its balanced activity here to go forward and fulfill the Divine Plan.

Mankind feels justified in tearing great mountains to pieces to satisfy their greed and their peculiar ideas of supply, when if they would live close enough in their Love and Gratitude and Adoration to the "Beloved Mighty I AM Presence" of each Life Stream to keep the Door open to Us, the Natural Powers that are to bring supply to mankind in the outer world to fulfill

the Divine Plan would act through them as naturally as breathing, and without the frightful struggle and discord and destructive way and means that mankind has devised to extract that substance from the mountains that is used in outer commercial activity.

While mankind's energy must be kept used up in certain action of the outer, yet, Precious Ones, when you realize to what the mass of mankind, in their so-called work of the outer world, give their time, their energy, and their attention for no reason at all that lifts them to the Ascension—not one atom of what they do raises them to the Ascension. On the contrary, so much of their physical action in the outer world in the use of Life's energy, but builds more and more and more limitation through the centuries that accumulates as a pressure against the Powers of Nature, until such time as the force within arises and shatters the pressure without.

Now then, you who have Conscious Understanding of this in the use of the great Light Substance which We pour over the Nation, you may have an individualized Stream of that Substance as a Balancing Force within you, just as well as We can spread It over the Nation to hold

certain balance or pressure in the atmosphere, so the destructive forces cannot accomplish all they intend. We only allow enough of their own destruction to recoil upon them in order to teach the lesson which they will not learn harmoniously. Therefore, if We allow certain destructive reactions to be faced by mankind, it is because they have refused to learn the Law the harmonious way or they have refused to give obedience to the Demands of that Law.

But now you enter into a Cycle wherein the Cosmic Law takes possession of the atmosphere of Earth and becomes the Authority of what is to act here. So those of you who know this Law, those of you who have given obedience in your outer activities to come this far in the Light, are very welcome to help use these greater Powers and bring this Substance which brings balance and greater Purity wherever you consciously direct It in the physical world.

Therefore, Precious Ones, if you understand what the Cosmic Law's Demand is concerning the use of the Powers in the Mountain Ranges of the world, you may render tremendous assistance to the Beings of Nature; and you may also draw into your own worlds some very delightful Blessings

as you call forth the Cosmic Law's Great Powers of the Mountain Ranges of the world. In your Acknowledgment of the Cosmic Law's Miracle Action of the Powers of Nature through the great Mountain Ranges of the world, then everything that is beautiful and harmonious in those channels can begin to come closer and closer to you by your own Heart's Love; and by the natural law of attraction, that draws into your outer use that which expands the Blessing already created and fulfills the Great Divine Plan in outer action.

There are many Powers of Nature focused and acting within the Mountain Ranges of the world; therefore if you want them to bless you, then send your love to them and issue your Command. You call to your "Beloved I AM Presence" first, and then to the Great Beings who direct the Powers of the Great Great Silence. You may demand and acknowledge that, "'I AM' the Cosmic Law's Miracle Release of the Powers of Nature and the Forces of Light within the Mountain Ranges of the world into my outer use and direction for the greater Blessing of Love and Perfection to Life."

Now when you realize, Life is in the Mountain Ranges of the world, Life is in the Heart of the Great Great Silence, Life is in the great Powers of

Nature, then if you begin your Acknowledgment of your complete Oneness with that Life, that Life will give you all It has to help you fulfill the Divine Plan. So when you say, "‘I AM’ the Cosmic Law’s Miracle Action of the Life in the Great Great Silence; and that Life in Its Glorious Cosmic Blessings and Perfection without limit manifests through all the Life that I contact and releases Its Powers to fulfill the Divine Plan," then you become the "Crystal Cup." Those Powers pour into you; and as you use Them to give greater Blessing and Perfection to Life, more will come from moment to moment, hour to hour, and day by day.

When you want to feel your Oneness with the Powers of Nature in order to unite with them your love to help control them harmoniously and to prevent destruction, then when you say, "‘I AM’ the Cosmic Law’s Immortal, Miracle Action and Oneness with the Perfection in the Powers of Nature, and that Life ‘I AM’ to the Blessing of all!"—again through your Love and Acknowledgment of the Action of Life in the Powers of Nature will you feel all the activities that will bless you coming forth as the Gifts and Action of the Beings who direct that Energy.

And that would include everything from the Maha Chohan down to the Beings of the Elements.

Now supposing you want to feel yourselves at One with the Great Beings who are in the Heart of the Great Great Silence who are there planning the greater Perfection of the Incoming Golden Age. When you say “‘I AM’ the Cosmic Law’s Immortal, Miracle Action of my Oneness with the Great Great Silence and the Great Beings there who govern my Destiny, then ‘I AM’ the Open Door of all Their Blessings to the world about me, and I demand Their Fulfillment of the Great Divine Plan through me,” then, Precious Ones, at all times the outer self becomes the Open Door for the Greater Beings in the Universe to pour all the Blessings that you can receive from time to time. And if you will keep the Door open, you will find the Blessings will never run out because the Great Law of Life is to forever expand through each of you all the greater Perfection that is in the Octaves above you.

Now these are very Powerful Activities and use of the Great Law of your own Life; and if you want to know what is in the Fire Temples in the Electronic Belt around the Physical Sun or the Healing Temples or the Music Temples, then

acknowledge your Life's Oneness with that Life; for that Life is in the Universe. It is Real, It is Eternal, It is All-perfect, and It is One with you; but it takes your Acknowledgment and Call to open the door from your octave of Life to let Its Blessings flow into you and fill the world about you.

So if in any particular case you desire the Power or the Powers that are concentrated and acting through the great, magnificent Temples of the Fire Element in the Electronic Belt around the Physical Sun, then acknowledge your Oneness with that. Open the door from your side of Life, and you will find all They contain will surge forward into and through you and into your affairs to release that greater Perfection that is ever surging to give more of Itself into outer manifestation.

Therefore, for instance, we'll take the Jade Temple of which the Great Angel Deva of the Jade Temple is one of the Magnificent Beings who direct Its magnificent Beauty and Power into the physical world. Were you to say, " 'I AM' the Cosmic Law's Miracle Action of the Sacred Fire from the Jade Temple; and 'I AM' immortally One with Its Fire and Substance and Blessings of

Perfection there, and I draw that into outer use to fulfill the Divine Plan the Ascended Masters' Way," then no matter what you desire to do, if you reach to the Heights of the Source of your constructive desires, acknowledge your Oneness with that greater Perfection of Life, and then ask that It be poured forth through you to flood into outer manifestation the Fulfillment of the Divine Plan under the Ascended Masters' Direction, then every Desire of your Heart that is constructive can be joyously fulfilled. Then you begin to understand what Freedom is in the use of these greater Powers of Life throughout Creation which you may contact and draw into your outer use through your own Conscious Command and Acknowledgment of your Oneness with that which you seek to understand.

People know very, very little about the Mighty Being Helios and the Great Cosmic Beings who govern the Activity of the Physical Sun to the Earth; but they could know a lot more if they wanted to. When you really want to know and feel that magnificent Power from the Physical Sun which is all Life and Health and Strength to you all, Precious Ones, when you say, "‘I AM’ the Cosmic Law's Miracle Oneness with the Physical

Sun, and 'I AM' Its Victorious Flame in outer physical action producing Perfection forever," you would draw the Healing Rays from the Physical Sun. You would draw the Attention of the Cosmic Beings who direct the Activities of the Physical Sun to the Earth, and you could live just as close in the Heart of Their Love as you desire.

But it takes your Acknowledgment of your Oneness with that which you desire. When you say, " 'I AM' the Cosmic Law's Oneness with the Life in the Physical Sun! I give It my Love, and Love gives me all that is there! 'I AM' the Cosmic Law's Miracle Action of my Oneness with the Life in the Great Great Silence; and Its Manifestations are mine in outer action," then when you acknowledge your Oneness with the "Mighty I AM Presence" and Higher Mental Body of every Life Stream for the Freedom and Purification of your Nation, then that same Acknowledgment draws forth Cosmic Powers to help the Nation more quickly.

When you want to help your nation, any nation from whence you come, when you acknowledge, " 'I AM' the Cosmic Law's Immortal Oneness with the 'Mighty I AM Presence' of this nation, commanding the Fiery Purity of the Great Central Sun to flood the nation and fulfill the Great

Divine Plan,” then that same Mighty Purity acts in you and through you and around you—and as the Queen of Light pointed your attention to so many things, any one of which, if constantly acknowledged, would just open the Floodgates and bring Marvels and Manifestations that you couldn’t possibly imagine tonight.

Now supposing you want Miracles and Manifestations. Acknowledge your Oneness with them: “‘I AM’ the Cosmic Law’s Oneness with the Miracle Life in the Great Great Silence! the Miracle Beauty of the Great Great Silence! the Miracle Healing Flame of the Great Great Silence! the Miracle Powers of Happiness and Freedom from the Great Great Silence! ‘I AM’ the Cosmic Law’s Miracle Oneness with the Victory and Its Glorious Flame of the Great Great Silence, and my world is the Miracle World of the Great Great Silence! My body is the Miracle Fire Temple of the Great Great Silence! My loved ones are held in the Miracle Oneness of Immortal Purity and Love from the Great Great Silence, and the Mantle of Its Flame purifies and heals them forever!”

Why, Dear Hearts, speak these Commands with all the Love and Power at your Command;

and when you want Perfection, acknowledge your Oneness with It. Supposing you want to hear the magnificent Music that is in the Heart of the Great Central Sun. When you say, " 'I AM' the Cosmic Law's Miracle Oneness with the Great Music in the Heart of the Great Central Sun, and I draw Its Healing Flame into all my outer activities until It sounds everywhere Its Happiness to Life! 'I AM' the Cosmic Law's Miracle Oneness with all the Happiness at the Heart of Creation! 'I AM' the Cosmic Law's Miracle Oneness with the Powers that produce Manifestation that is Eternal in Its Love and Blessing for all in this world!"

And now let Us enter into the Treasure House of God's Heart and acknowledge your Oneness with that. When you say, " 'I AM' the Cosmic Law's Miracle Oneness with all the Wealth of Creation, all the Supply of the Great Great Silence, all the Supply that Love can give from the Great Central Sun Magnet! 'I AM' the Miracle Oneness with Its Magnetic Power that blesses all substance with my Love forever!" why, Dear Hearts, if you charge forth your love to the outer world, Love will have to answer you. And if you pour It out, the next wave is greater! And surely

the Love of Creation is enough for anyone, and It is the thing the world needs most this hour.

Now then, suppose you want the Manifestations of Light: “‘I AM’ the Cosmic Law’s Oneness with the Cosmic Light of Creation that intensifies Its Light in and around this outer self until Its Perfection blesses all forever!” Now when We spread the Golden Snow, that Golden Light Substance, over your Nation to help bring a Balancing Activity, We must know Our Oneness with the Law of Balance, don’t you see?—which is the Blessed Goddess of Justice’ Mighty Action of Her Flame to the Earth. Therefore, if you want Divine Justice in the outer, give this Acknowledgment: “‘I AM’ the Cosmic Law’s Oneness with the Immortal, Divine Justice from the Great Great Silence; and by that Silence is that Justice and Balance maintained here! By the Love of the Great Central Sun Magnet is Divine Justice ruling here!” This is almost limitless, Precious Ones, in your magnificent acceptance of this Action of the Cosmic Law; for when you acknowledge your Oneness with It, you are accepting the Divine Perfection you want.

But you must know your Oneness with that God Perfection; and acknowledging It in outer Conscious Command, you cause It to act in the

physical octave as manifestation. Through your attention you've been acknowledging the discord of the outer world and said that you had it. So now in your Acknowledgment of your Oneness with the Life of Perfection in the Great Central Sun will you find these Powers coming into outer action to balance your affairs and to flood the Light in which the shadows can never exist.

"'I AM' the Cosmic Law's Oneness with the Eternal Light, and Perfection's Flame manifests instantly by my Love the Fulfillment of my every Call and the Manifestation of the Divine Plan fulfilled for all! 'I AM' the Cosmic Law's Oneness with the Healing Flame from the Great Great Silence that goes forth at my Command and blesses with Immortal Purity all to whom I direct It! 'I AM' the Cosmic Law's Miracle Oneness with the Eternal Love at the Heart of Creation, and that Love is my Temple of Eternal Existence!"

"'I AM' the Cosmic Law's Oneness with those Powers of the Sacred Fire and the Cosmic Light that created the world and now purify and redeem it! 'I AM' the Cosmic Law's Oneness with every Savior that has come forth to manifest the Christ to Life! 'I AM' the Cosmic Law's

Immortal Oneness with the Fiery Purity of the Great Great Silence, and 'I AM' become the Victory of my every Call! 'I AM' the Cosmic Law's Oneness with all the Life and Power of Perfection in every Ascended Master Retreat throughout the world; and 'I AM' Its Action in the physical octave wherever I move to compel Perfection!"

"'I AM' the Cosmic Law's Oneness with all the Powers of my Life Stream which I had in the Great Central Sun before the world was, and now those Powers are mine in outer action to produce Perfection that frees all quickly! 'I AM' the Cosmic Law's Oneness with that Great Directing Intelligence of the Miracle 'I AM Presence' in the Great Central Sun, and that Intelligence governs all in my world! 'I AM' the Cosmic Law's Oneness with the Immortal Guard of the Sacred Fire, and here in the physical world does It become a part of the structure of Earth!"

Draw this into outer action in your Nation and everywhere you know mankind need assistance; and I tell you, nothing will be denied you. Nothing will limit you. Nothing will discourage you, and nothing can touch you but the Oneness of the Life you acknowledge. (*applause—audience rising*)

Thank you, Precious Ones, with all My Heart's Love. Now for just a moment as you are standing, try to acknowledge within your feeling world, "‘I AM’ the Cosmic Law's Miracle Oneness with all I want to know about the Great Great Silence, all I want to know about the Cosmic Light, all I want to know about the Ascension!"—and that which you require will flood to you in a Joy that is yours forever.

Therefore, as the world needs the great Motor of Joy to bring this Cosmic Light into outer action more quickly and release the Powers of the Sacred Fire into outer control of conditions in your Nation and the world, set these Activities into outer motion by your Command: "‘I AM’ the Cosmic Law's Miracle Oneness with those Powers of the Sacred Fire that purify and set all free wherever ‘I AM’! ‘I AM’ the Cosmic Law's Miracle Oneness with the Cosmic Light of Eternity, whose blazing Presence forever enfolds all that is constructive and forbids anything else in existence! ‘I AM’ the Cosmic Law's Miracle Oneness with the Authority from the Heart of the Great Great Silence that now is the only Authority, now is the only Law, now is the only Manifestation in the physical world for the Freedom of the Nation and

the Purification of the Earth!" And there shall you know the Power that owns and rules all.

"‘I AM’ the Cosmic Law’s Miracle Oneness with those Manifestations that must come into the outer to forever protect and hold Command! ‘I AM’ the Cosmic Law’s Miracle Oneness with that Invincible, Fiery Protection from the Great Great Silence that enfolds all that is constructive, and naught else can exist! ‘I AM’ the Cosmic Law’s Miracle Oneness with the Fulfillment of the Divine Plan in the physical octave that must hold everything obedient to God! ‘I AM’ the Cosmic Law’s Miracle Oneness with the God of Creation, the ‘Mighty I AM’ in the Great Central Sun, and that Oneness is everywhere Master through me for Eternity!"

Unto Its Presence do I commend you. Unto Its Heart do I claim you. Unto Its Bounty do I flood you with every good thing, and unto Its Blazing Presence may I be privileged to help raise you to your Immortal Victory; and as Love takes you over from the human to the Divine, will you know that you are entering into the Eternal Light of that One Mighty Life of Love whose Perfection is Immortal and whose Authority is everywhere in Command.

May the Fullness of Its Illumination and Blazing Glory reveal Itself to you, make you Its Victorious Presence, give you the Fullness of Its Freedom, and take you forward to hold balance and Perfection in the outer world until all have turned to the Light and the Light has become the Heart of the World for Eternity, and the world itself becomes the Flame of that which forever expands Life's Perfection. Won't you be seated, please, and good night.

DISCOURSE III

BELOVED GOD OF THE SWISS ALPS

January 18, 1951

Santa Fe, New Mexico

Record RU 107; Cassette 6 0473

Beloved Ones of the Heart of the World, We greet you tonight in that Love that seeks always to protect that which moves forward in the Fulfillment of the Great Divine Plan. And since the Great Cosmic Law has seen fit to place upon the Earth the Great Cross of Currents of that Magnetic Power from the Great Central Sun, that ever expands Its Flame until It holds Purity and Balance everywhere, We are all privileged to assist in that Great Cosmic Action of the Fiery Element to the Earth, which becomes the Permanent Control of all in this world in the future. Long have We poured forth these Powers of the Cosmic Fire in, through, and around the Mountain Ranges of the world. And that is, in the Activity of the Great Cosmic Law, the focusing of

the Master Power and that Authority of Creation, which through the Fire Element compels the Divine Plan eventually fulfilled.

Now under this Cosmic Fire to which your attention has been drawn through these weeks past, must there come your close feeling of abiding within It. We ask you to feel that you are living in a World of Cosmic Fire; and regardless of the temporary appearance of physical affairs, yet the Power of that Great Cosmic Fire ever commands and holds Control of the Powers of Nature. Through the Powers of Nature and their activities to mankind these great Activities of the Cosmic Fire can flow in ever-intensifying, Victorious Action; and you will yet find the Powers of Nature assisting you greatly to the Fulfillment of your Calls.

Long, long has each one of the Gods of the Mountains poured the Fire of Their Love and Their Cosmic Purifying Activity through the Powers of Nature to mankind. And now, since there is a group of mankind, as yourselves, consciously holding your attention upon your "I AM Presence" and upon Us and the Activities of the Cosmic Fire, it enables Us to draw forth in and around each of you a Pillar of the same

Cosmic Fire which We draw forth to the nations of the world. So you become, as it were, a walking Pillar of Flame through which We pour forth ever-expanding Power from Our Octave to correct conditions in the outer world, until the Cosmic Law sees fit to envelop the Earth in those Activities of the Cosmic Fire that compel the Eternal Purification of all in this world.

In the Service which We render to mankind, We are constantly drawing the Greater Life from the Physical Sun and the Great Central Sun—and Its greater Magnetic Power of the Cosmic Fire—in and through Ourselves and into the activities of the Mountain Ranges of the world. Each Mountain Range becomes, as it were, the backbone of the continent; and through that flows the Life Force from the Physical Sun and the Great Central Sun that is the action of the planet itself.

Therefore, anyone who steps within the Radiation of that flowing Energy can have as much as you desire in and around yourselves to do for you individually what We do for the continent or for the Nation en masse. It only takes mankind's attention upon Us to connect with Our Life Streams' ever-increasing Outpouring of the Cosmic Fire; for all Activities

of Life which produce Perfection are the Action, Projection, and Expansion of some Activity of the Cosmic Fire. So the more you hold your attention upon that and demand Its Presence in your own outer activities, the more We can reach you and intensify through you the Assistance to the Nation.

Now since it is My privilege to guard Europe and that portion of the Earth's surface which must be compelled into Perfection, then I, too, am quite as interested in the Purification and Protection of your Nation as "I AM" that portion of the Earth to which I have devoted My attention for centuries past. And as the Mighty Himalaya in His Authority has spread forth His Power of the Cosmic Fire over your America to help bring the Balancing Powers from the Western World and the Orient into balanced action, so do We pour forth across the seas to India and throughout your America those Powers of the Sacred Fire that are focused within the Alps.

Your Beloved God Tabor and the God Meru pour forth those same great Rivers of Flame through North and South America, and We pour from East to West the Powers of the Fire focused

in Our location. This forms a Cross upon the structure of the Earth—of the Cosmic Fire whose interblending Action sets up a Current that ever flows in a circle; and as It reaches out, It purifies and balances everywhere It flows.

Now long have the Powers of Nature concentrated the Purifying Power of the Cosmic Fire into the Mountain Ranges of the world, and through Radiation that has gone forth to keep consumed a certain amount of mankind's discord. But from now on, with your Conscious Calls in the use of the Cosmic Fire, a much greater Intensification of that can come forth into outer action to affect the nations of the world; and, automatically, that affects your own individual activities with Ever-purifying, Blessing Action.

You see, the most wonderful Purity, Beloved Ones, is maintained in the Mountain Ranges of the world, due, of course, to your snows and the rains—which are, after all, liquefied energy. The snows and that Everlasting Purity hold the substance undisturbed in those locations while the Radiation goes forth to touch the mental and feeling world of mankind with greater Purifying Power. Now as you enter into the feeling of being

completely One with Us, as you recognize the Heart Flame of Our Love, you may draw forth into your own individual activities Powers that you scarcely realize exist—even now, with all the Knowledge you have been given. And yet, the magnificent Powers that are held guarded in Their Eternal Purity within the Mountain Ranges of the world, those Powers, as the Permanent Golden Age takes Its Dominion on the Earth, will come into the outer use of mankind; and it is perfectly natural that They should come into your use ahead of the rest of mankind.

So your attention to Us through conscious recognition and feeling that your Life is One with Our Life—because We have poured forth Our Purity through the Mountain Ranges of the world—that has come forth to bless and awaken you. Therefore, as you give Us your attention and you feel at One with Our Life, well, then more of Our Cosmic Powers can come forth to bless you, individually, in your outer action, as well as for your Nation. (*applause—audience rising*) Thank you, Precious Ones. Won't you be seated, please.

Now in order to come closer into Our Powerhouse of the Cosmic Fire, if I were you,

I would give recognition in this way: "‘I AM’ One with the Fiery Hearts of the Gods of the Mountains, and my Life ever draws forth Their Boundless Blessings into my outer use for the Freedom of all mankind!" You see, there are many, many substances and wonderful condensations of Power and Beauty and Perfection within the Mountain Ranges of the world that mankind have never beheld and will not be permitted to behold until the entire structure of Earth is purified and the discord of mankind removed. Therefore, when you accept, and through your attention, acknowledge that your Life is One with the Fiery Hearts of the Gods of the Mountains, then the Fire of Our Life can begin to flow back and bring into your outer use many of the Blessings in the Mountain Ranges of the world that mankind have never yet used in the outer.

After all, Dear Hearts, when you want to connect with any part of Life and draw forth Its greater blessing into your outer use, you must connect with that through the Fire Element; and you must connect through the Love in that Fire. So Our Fiery Hearts, I might say, contain those wonderful Powers of Life which have been

Our Gift and Our Responsibility to focus, to concentrate, and to guard within the Mountain Ranges of the world.

There is such Beauty, My Dear Ones, in some of those Activities; and that Beauty is a Focus of Power. Therefore, since Power is one of Our main Services to the Earth, the Electronic and Magnetic Powers of the Fire Element that are held guarded within the Mountain Ranges of the world can be brought into your outer use now by your feeling at One with Our Life. And through the Fire of Our Hearts' Love, as you feel yourselves at One with Us, then call forth the Perfection which We want to bring into outer action into your outer use. You see, Life places these marvelous Blessings within the Mountain Ranges of the world to bring into outer action someday—into outer use—these more magnificent Blessings that produce greater Beauty and Perfection and give Life a greater opportunity to expand Its wonderful Love.

And may I say, those of you who have loved the mountains, I say to you, you can't possibly understand how much We love those mountains. So if you enjoy being within them, try to remember, your love for the mountains is

your gratitude to Life; and Our Love to the mountains is Our Joy to expand the Gift of Our Life to you and to all who come within their Radiation.

Now there are certain Activities of Power within the Mountain Ranges of the world that mankind cannot master until they come into Our Octave; and that is placed there for a very, very great reason. In the Mountain Ranges of the world is concentrated a certain Activity of Cosmic Purity of the Cosmic Fire, and that cannot be interfered with by mankind's discord. You see, there are many, many places in the Mountain Ranges of the world that are wholly inaccessible to man; and in those places do We guard and use those Great Powers of the Cosmic Fire that ever send forth Their Blessing to the physical structure of Earth, to the plant life of Nature, and into the atmosphere of the Earth which mankind is absorbing constantly. All of this is a controlled Action of the Fire Element from Our Octave, which is Immortal Purity to the structure of Earth and to the atmosphere of Earth.

And if those great Currents of Flame were not constantly passing through the structure of the

Earth through the Mountain Ranges, the cohesive power of the planet could not act. This is part of the Supply of Life to the Earth, the same as there is the Liquid Light flowing through the nerves of your physical bodies. So through the Earth passes these great Currents of Fire, and They become the Life of the Earth. They are the Life of the minerals. They are the Life of the plants. They are the Life in the atmosphere, and They are much of the Life through Radiation that mankind absorbs through the atmospheric conditions of the world.

So when you begin to feel yourselves at One with Our Hearts' Flame, Precious Ones, be prepared for wonderful, delightful surprises—for Our Hearts' Love to give you the Joy of what is within Our Life. And We love to give you the Blessings that We enjoy bringing forth in the Mountains of the world. Just know that Our Hearts' Love guards that magnificent Activity of Substance and Purity and Action—and you, the more you keep your attention upon Our Hearts' Love, you will feel more of Our great Blessings to Life become a permanent creation in your own world.

Just as in the great oceans of the planet is there focused that ever-purifying, continuous motion, so

in the Mountain Ranges are focused various Powers that continually surge forth through Radiation Their wonderful Gifts and Blessings and Beauty to Life everywhere. And you, through your Love to Us and through your feeling of Oneness with Our Hearts' Flame, can draw back into your own outer use everything that Our Love can give. It is but a matter of holding your attention upon the Source of the Gift, because Life everywhere loves to give that to you—I mean all Life that is greater than your outer manifestation—We love to give you the Gifts of Our Domain. Your “Beloved Presence” loves to pour Its Love through you to Us, and We love to pour Our Love back to you.

And Our Love has so many Gifts that would bring you such Joy that it lifts you beyond the outer self. You can find Peace and Strength and Purity in the Mountains that is truly the very Essence of Life. These are only a small portion of the Gifts which We bestow upon the whole planet Earth. We are the Guardians of those Gifts of Eternal Purity which ever expand Beauty and Perfection and the wonderful Action of Life everywhere throughout the planet.

So regardless of your air transportation, regardless of your scientific discoveries, regardless

of all that mankind think they can do, there is a Sacred, Secret Domain on the Earth into which they can never intrude until they are One with the Flame of Love in Our Hearts; for We are the Guardians of those Treasures not made by hands. And may I say, in the Mountain Ranges of the world is the Master Authority of Creation. We are Authority there wherein mankind's usurped human authority can never come. So you see, after all, there is on the planet Earth those Activities of Life that are the Master Hand of God; and mankind cannot control Them. Until they are One with the Love and Purity of Our Life, they cannot master that which is Our Handiwork and Our Gift to Creation.

So I might say We are very Powerful Friends of the Light to you all with an Authority that the outer human activities of mankind cannot dominate nor ever oppose. Who can oppose an avalanche down the side of the mountain? Will all your atomic bombs prevent that? Can mankind's so-called knowledge prevent the action of Nature through the mountain ranges? When mankind seeks to discover certain things in the mountains and the Powers of Nature hide them by the clouds—as delicate a thing as a cloud—can

mankind interpenetrate that? Do you not see the Hand of Authority? Do you not see, the Master Power of all Creation is vested in certain activities of Nature that mankind can never control except through the Love and Oneness with the Cosmic Fire in the Heart of the Cosmic Beings who control this System of Worlds.

When you say, “‘I AM’ the Cosmic Law of the Power in the Mountains, and I use It for the upliftment of mankind,” then, Dear Ones, that means that you become the Action in the physical octave of Our Authority and Our Power and Substance and Energy in the Mountains that you may draw forth to assist mankind. That Statement, “‘I AM’ the Cosmic Law,” contains within It very, very great Power to reach into any Activity in the Universe and draw back as much as you can use in your outer affairs to fulfill the Divine Plan.

When you say, “‘I AM’ the Fiery Love of the Gods of the Mountains charging Their Eternal Purity into my outer affairs,” then, My Dear Ones, much, much that mankind know nothing of at all can come forth to bless you, so long as the Divine Plan is fulfilled in the use of that which We have created, which We have guarded,

which We have given onto the Earth for the Fulfillment of the Divine Plan only. This is where Our Authority as the Gods of the Mountains is at all times Master of mankind's outer, so-called human authority.

You scarcely can understand how much We love the Mountains, for they are the objectification of Our Hearts' Design of Life. Therefore, since they are Our Creation, do you not think We love Our own Creation when It is Beautiful and Powerful and Pure? So when you enter into Oneness with Our Hearts' Love, you are going to enter into a magnificent Realm of Action, and much Illumination can come to bless you. And the very Purity that flows back to you from your contemplation upon Us or the mountain activities of the world, will automatically bring a Great Cosmic Power of Purity into your own world and your own affairs, because the Mountain Ranges of the world, as well as the Oceans of the world, are the Concentration of Immortal Purity to the Earth.

And only the Great Ones know how much the bodies of mankind and their mental and feeling world need the Purity of which We are the Guardian. When mankind is sinking in the

quicksand of their own human desires that have engulfed them with their own discord, then, Dear Ones, there must come forth something to balance that, that is the Cosmic Purity whose Power is the Magnetic Force from the Great Central Sun to raise mankind out of the engulfing substance of their own discord. Mankind in the outer world today need Purity as they have never needed It through the ages, and they need It more than they need food.

May your Hearts' Call to Us flood back into your world the Purity of Our Love and the Power, mark you, and the Authority, mark you, that is Ours as Guardians of the Mountains of the world. When you call forth the Authority of the Gods of the Mountains, you are drawing the Authority of Eternal Purity into your outer physical substance; and that becomes for you added Protection against the impurity of the rest of mankind. Feel yourselves at One with Us as often as you can.

Your Beloved God Tabor holds under His Direction such magnificent Gifts, such Beauty, and such Blessings as the eyes of mankind have never yet beheld, and will not behold until Purity has become the Law of the Earth forever.

We are Guardians of certain Substance that mankind has never yet used in the outer. The Mighty Himalaya is the Giver of that Golden Snow which He draws from the Himalayan Range, and He gives It to America. The Beloved God Meru is the Giver of certain Currents from South America that form the great Strength and Guardian Purity for North and South and Central America. And It is My privilege to be the Guardian of certain Substance and Fire and Power for the stabilization of that portion of the Earth around the Swiss Alps.

You see, Dear Hearts, through the Beings of Nature, the Great Cosmic Law ever acts in the most magnificent Beauty and Perfection as It holds the Guard over that which the Seven Mighty Elohim have created. We are the Guardians of Their magnificent Creation of the Earth; and that which ever supplies Purity to the Powers of Nature and the outer activities of mankind has to be held as a Reservoir from the Ascended Ones and the Cosmic Beings, and that must be released in balanced action as rapidly as mankind can use It to fulfill the Great Divine Plan.

And when you acknowledge your Oneness with Our Hearts' Flame, you will feel something

of Our Love for the mountains that will be irresistible to you and, may I say, will be the Magnet that will draw you into the enjoyment of what is there periodically; and while you are within the mountains will you feel Our Gifts flooding into your worlds, and then you will return again to the outer world to expand those Gifts and give Them to others. You will again come to Us and fill up the "Cup," as it were, and again go forth and give It to mankind; and you will receive in the mountains what you can never receive anywhere else. (*applause—audience rising*) Thank you, Precious Ones. Won't you be seated, please.

Now I would like you to make this experiment. The moment you sincerely send your love to the Mountains, if you'll be still, you will feel the return Current charge into your bodies with the instantaneous return of Our Love and Gratitude for your love to Our Beloved Mountains. You can have that return to you just instantly, just as if you took hold of a live electric wire and would charge your bodies with that same magnetic force and electronic force, because your love to the Beings who govern the activities of the Mountains—I do not refer to Ourselves; I mean

other Beings of Nature who govern some of the wonderful activities in the Mountain Ranges—your love to the Mountains is love to their Handiwork, and they are aware of that love. They see It as a Light the same as you would see a light flash—like that. You would see with your physical sight, you would be aware of it. Therefore, when your love comes to the Mountains, they are as aware of that Light and that love as you are a flash of light into the room.

And, may I say, the more you pour your love, the more Love you will receive back, because We return a thousand times more Love to you on every wave of love that comes to Us. We do that, that Its Love may fill the Earth until all else has been consumed. Your love to the Mountains draws back Our Power instantly into your flesh bodies; and, may I say, It is as free as the air you breathe. Think what Our Love can give to you!—and all it takes to bring that into your world is your love to Us. Isn't it wonderful? (*applause—audience rising*) Thank you, Precious Ones. Would you please be seated.

Dear Ones, just think! It only takes your Love to Us to open the Door into Our World of Beauty and Perfection, Our Authority, and Our Power to

control discord. And it only takes Our Love back to you to continually flood your world with the Perfection your Hearts desire; and Our Love to you flooding into your world raises your world into the Ascension of Ours. And all it takes is love from you to Us to draw back a thousand times more than you will ever require to handle conditions in the outer. Yet most of mankind don't even know that We exist! It is no wonder they are in the degradation and poverty of their own desires; for until they desire Our Purity, they cannot have the Power and Authority of Our Life or Our Gifts into their world. And mankind, unless they are shocked awake from their own desires, do not desire Purity until their agony is so great they are almost out of the body.

So, Precious Hearts, you who have given Us your attention, you who have loved the Light and have bravely defended It, you who are making your Calls for the release of the Earth from the frightful distress of human desire, Precious Hearts!—you do not realize how valuable you are to Us. Each of you is like a Jewel into which We can flash a Light, and It can illumine the pathway of thousands. So as you love Us and We pour forth Our Love to fill your world, will you

find the Authority of Our Purity becoming the Authority in your world to forbid the approach of that which is not Purity.

Dear Ones, could you know sometimes what charge of Power We place into the substance, certain kinds of substance within the Mountain Ranges, and you took a piece of that in your hands, it would be almost like a live fire within you. I could take you on a journey tonight—*(applause—audience rising)* Thank you, Precious Ones. Won't you be seated, please. I could take you on a journey tonight into the laboratory of Nature where only Love may enter; and when you behold there what Love can do, what Love has done, what Love constantly pours forth to the Life on this Earth, and you know that that Love is simply Our Joy of living, and Its Expanding Authority and Power pours forth the Blessing of Eternity, then you will know why We are not interested in mankind's frightful mistakes.

Our Joy comes in the Expansion of those Powers of the Cosmic Fire that produce Manifestation that forever grows greater in Its Everlasting Blessings to lift all into Our Octave. So, Precious Ones, your Hearts' Love to Us has opened the Door for Our Love and Our

Authority of Eternal Purity to become One with you, and become in outer physical action that which forever becomes Mastery over mankind's discord of outer action. Call the Authority of Our Love into your physical affairs, into your physical activities of the outer self. Call the Fire of Our Purity into your outer conditions, and see for yourselves what the Balancing Power means when It comes from the Gods of the Mountains.

You see, We are Custodians, Precious Ones, of certain Powers of Life; and the Greater Beings who govern this whole System of Worlds have made Us that Authority. Therefore, if you want that same Authority to act in your physical world, then through your Love to Us and your Call for Our Authority in outer physical action, it will enable you to be strengthened and protected against the hypnotic domination of the outer world until the Cosmic Law, through Its great Release of the Fire Element, moves into outer Command and purifies the Earth forever.

When you say, " 'I AM' Eternally One with the Cosmic Fire from the Gods of the Mountains, and 'I AM' Their Fiery Authority in physical action to maintain Immortal Purity here," then

great Currents of Electronic Force from the Mountain Ranges and great Flashes of Flame could come in and around you to more easily control outer physical conditions; for every problem you have in the physical world today, every bit of distress or limitation, has to be removed by some Action of the Cosmic Fire. And until mankind understand this, they will be enslaved to those conditions until Our Fire consumes the limitations.

You must have Our Purity in your world, Precious Ones, or the world itself would dissolve. Discord and disintegration are one and the same thing. Immortal Purity and God Authority are the Master Hand of Creation that stands the Guard and holds the Protection about that which is constructive. Therefore, if you want more Power of Protection, remember the Gods of the Mountains can give It by the Cosmic Fire and Cosmic Power that is automatically Theirs to direct.

Your Beloved God Tabor has given you such Blessings, many of which you will never know until your Ascension is complete. And the Beloved Himalaya—Great, Blessed Being who has guarded the Destiny of India all through the ages

and has maintained Her identity—how great do you think is His Love? How great do you think is His Authority and Purity to have accomplished that all through the ages?

So when you open the Door to Us through your Love to Us, remember, everything We are and have will rush to answer you. And everything that can make you happy, We are happy to give—without money, without price, without anything, except that Love has opened the Way for Us to give what only Love can create. Love to the Beings of Nature, Love to the Mountain Ranges of the world, love to the Great Beings who are the Custodians of that Power and the Authority of Its use, ever draws to you, Precious Hearts, the Freedom you crave and the Beauty that We want you to bring into the outer world.

May you enter into that complete At-onement with Our Hearts' Love and Our Authority of Immortal Purity to this Earth until the Flame about you compels Purity, and mankind know better than to create impurity in your atmosphere. This is very much needed in your America this hour. And may everything that We can give draw the Fire of Our Immortal Purity into outer physical action; and Our Authority to command

the removal of that which has sought to destroy you—may that Authority be felt in outer physical action by those who must go to the Compound for Purification. May everything that We can give to help you come forth this hour to assist your Nation until the Heart of the World is released from that which should never be.

It is Our great Joy to give you all that Life has given Us; and if you will keep the Door open by the remembrance of Us, then We can do that which your Nation needs, and We can clothe you in Our Power to maintain Purity and Our Authority to forbid destruction any longer to touch your world. May Our Hearts' Flame of Love Eternal and the Immortal Purity of Our great Authority and Power of Life come forth and charge into your outer use everything necessary to help you hold the Nation free from that which must be consumed.

May you become the Strength of the Mountain Ranges of the world to pour forth the Fire of Immortal Purity into your fellowman until they turn back to the Light that purifies all. May you be the Strength of the Mountains in the people of your Nation to hold to the "Great God Presence" of Life, the "Mighty I AM," and demand the

Immortal Freedom of God's Cosmic Fire come into your Nation and guard the Gifts that God alone can give. May you fire the people of your Nation with Our Authority and Immortal Freedom to stand against everything that is of impurity until the Full Cosmic Action of the Command of those Great Cosmic Beings for the Purification of the Earth moves into outer Command, and consumes that which has so long tortured Life.

May I call you tonight the Children of the Mountains—who come into the Love of My Heart to use My Authority to forbid impurity any longer to touch Life. (*applause*) Thank you, Precious Ones. And may the Beings of the Mountains ever hold Their Purity about you and charge forth Their Authority into all that you do until you stand forth clothed in the Fire and the Beauty of Their Love; and you go forward to master the conditions of the outer world, charged with the Strength of the Mountain Ranges of the Earth to stand against that which is of the shadows.

My Love is ever at your Command to be a Mantle about you of Authority, of Purity, of Power, and of Protection. May We move forward the Great Cosmic Fire of Immortal Command to the

forces of the outer world, until Purity once again illumines the Earth, this time with the Perfection of Eternity. My Legions and My Beings of the Mountains shall ever attend you and keep you ever in the Heart of Our Love and Purity.

Thank you with all My Heart's Love; and just know, "I AM" your Friend of Eternity. "I AM" the Guardian of Immortal Purity, and the Fire of My Love shall call and call and call until It has burned away everything that is an attraction in the opposite direction. To the Joy of the Great Beings whom I call forth to guard you, ever fill your world with that which lifts you beyond the outer self, and makes you Master over all in this world by the Strength of the Guardians of the Mountains until you see Them face to face and have the Joy of Their World fill yours forever.

DISCOURSE IV

BELOVED GOD TABOR

November 25, 1951

Montrose, Colorado

Record SG 2083 AB

Beloved Ones of My Rocky Mountain Family, I bring to you, I trust, a Joy from Our Great Realms of Activity that shall become a permanent part of not only your life, but your surroundings, and enable you to pour forth that which enables others to look Godward and be free in their great Call to Life for the assistance which they require to overcome their physical problems. May I say to you today how fortunate you are compared to the masses of mankind, to live in a locality where the atmosphere is purified and you have so little, or almost none of the frightful conditions to struggle against that you find in the large cities, or in those portions of the Earth where frightful destructive activities have taken place in the past.

You, in this locality, through your Calls to your "Presence" and to Us, and through the use of these various Activities of the Sacred Fire, can become a tremendous Powerhouse because of the atmosphere in which you live. It is very much easier, when there is not the pressure of many people's discordant thoughts and feelings in the atmosphere about you, to hold to your own consciousness of your "Beloved I AM Presence," or to hold to those Activities from Our Octave that We have offered you for your Freedom. Anytime the world presses heavily upon you, come into the great open spaces, and there in the quiet contemplation of the infinite sky overhead and the infinite energy that fills space everywhere, disconnect yourselves, so to speak, from the streams of energy that have held you bound to limitation or subject you to the discord of others.

People do not understand the Blessings that come from abiding within the Mountain Ranges of the world or in those great open spaces where the individual's aura is not contaminated by too close association with the rest of mankind. And truly, you are very greatly blessed in this community. While you are in it, yet you are not of it. And in these various Activities which We pour forth from

time to time into the atmosphere, I want you to feel perfectly at home in the environment of the Mountains; for, I assure you, there is Life, in Its great Purity and Perfection, drawing Its great Streams of Power within the Mountain Ranges that are not drawn anywhere except within the Mountains.

Each particular activity of the structure of Earth has its own service to render to Life. The Water Element, the seas, the great oceans, give off constantly their purifying radiation into the atmosphere of Earth. The plant life does a similar service. But in the Mountain Ranges there are those great Streams of Electrical Force in varying intensities that are consciously flowing all the time to sustain much of the structure of Earth. And just as the veins and arteries in the physical body carry the Life Stream to the cellular structure and continue the Life processes, so does a similar activity take place within the Mountain Ranges. Great Streams of Electrical Energy flow through the Mountains like blood flows through your veins and arteries. And as the Liquid Light flows through the nerves of the body, so is there a similar action of the Liquid Light that flows through the structure of the body of Earth.

In feeling yourselves One with the great Inner Fire Activities of Nature will you begin to absorb the Great Cosmic Energy that is wholly impersonal in Its Service to Life and Its Blessing to the world. You may at any time recharge yourselves with this Cosmic Energy that is absolutely pure—whenever you turn your attention to It, and ask that the energy of your outer selves be made One with the Energy of the great Activities of Nature that are placed within the Earth for the sole purpose of maintaining Purity. And when you consciously feel yourselves One with that Great Cosmic Activity, it will not be difficult to heal your bodies or feel the strength and the energy you require to carry on your outer activities.

Now just as each Great Being definitely projects and controls great Streams of Life to the Earth to bless mankind and the Powers of Nature, so do We, in the great Service which We render, continue to draw forth from the Physical Sun and the Great Central Sun the ever-sustaining, intensifying Streams of Electrical Energy, where We hold them in reserve, and then consciously direct them through the various Powers of Nature to accomplish a specific end. You think yourselves separate from the Beings of Nature and the Forces

of the Elements, and yet you are not. They interpenetrate you, and you cannot do anything in the physical world without some of their energy. So the closer you feel yourselves at One with the great Streams of Light, Cosmic Light Energy—which is, in reality, Substance playing through the Forces of Nature and the Beings of the Elements—the more you feel that your Life and their Life is One Life of Eternal Purity, the greater will be the Strength and the Blessing of that Energy in your own bodies.

With enough attention to this and your Calls to Us to charge you with the Power of the Mountains into your outer, daily activities, you would feel a natural Strength coming into the body and into your conditions that would repel the destructive vibratory action of most of the rest of the world. Long ago the Mighty Saint Germain asked you to set up the guard through your use of the Violet Flame—and your direct Call to your “Presence”—to establish about you the Flame that repels every destructive vibration from the outer world. If you give this special attention and demand that the Flame of Love from the Heart of your Higher Mental Body stands the Guard about you and, with Its Selective Intelligence, repels every

vibration in the air about you that is destructive, My Dear Ones, you have no idea the lightness that you would feel in your bodies. You would feel as if tons of pressure had been taken away from you.

That is why I'm drawing this to your attention, so that while you are visiting in the mountains, or temporarily in touch with them, or when you live here, keep charging the natural Purity and Strength of the Powers of Nature in the mountains with your special Command to repel every vibratory action of discord. As you intensify this, you build about the body an atmosphere vibrating at the rate that is within the mountains themselves, wherein the destructive forces of mankind's mental and feeling world do not penetrate. And you can, with your recognition of your Tube of Light and this Purifying Power—the Power of Nature's Purity, the Fire of Nature's Purity charged into the atmosphere about you to constantly throw off everything that is destructive that you might contact—as this increases, you would be able to move in any of the principal large cities of the Nation and scarcely be aware of any disturbance. You would be aware that it existed, but it would not come in and locate into your feeling world to disturb you.

And that is why, if periodically, people would pull away from the concentration of discord in large cities and come out into the mountains where they could be alone and quiet, and in that quiet absorb the Electrical Force that is in the Mountains, you would be your own atmosphere, so to speak, vibrating at a rate so much higher than is in your large cities that you would scarcely be aware of the discord. And if you were aware of it, you would not feel yourselves connected with it.

This is quite important, My Dear Ones. You might feel that, well, you can do it if you want to; but that's not what I'm explaining today. There is actual Strength in the very atmosphere of the mountainous districts which you can positively build into the body; and with Conscious Command that It repel every destructive vibration in the atmosphere about you, you could so qualify that Electrical Force that It would be almost like a switch that you could throw on, and would either bring on the greater Power or close out the discord.

It is a tremendous Gift from Life. And that is why so many of the great Retreats of the world have been placed within the Mountain Ranges—because of the Purity and the Power that can

be drawn within them without interference. It is not only the interference of daily association, but the desire of mankind; once they come into that sense of Power that is in a Mountain Range, they lose within themselves, may I say, the feeling of their own importance and mastery over conditions. Very often individuals, in their own little channels, imagine themselves to be quite powerful and quite important; but when they come out into a great mountain range, they lose that because there is so much more Power around them than there is in them, they get a perspective of themselves. And that is well.

Therefore, do not fail, while the opportunity is yours, to accept the Strength, the Purity, and the Power of the Pure Electrical Force—now mark you—I'm using the word, "Force" of the Mountain Ranges; and charge that into yourselves with a definite Command that your Higher Mental Body qualifies that so that It automatically repels every vibration of discord. You will find this a Blessing so great that you will never fail to do it once you begin to feel the momentum which you can build.

We have many, many Blessings from the Mountain Ranges of the world that mankind

have never yet discovered. They think they know something about the Powers of Nature in the Mountain Ranges, but I say to you, they know very little. We have secret riches in hidden places that none will ever find without Us and none will comprehend without Our Explanation. So you see, We do have secrets into which mankind can never pry until they are One with Us in their Desire to serve Life and purify all in order to set free that life which should long ago have produced the Perfection of the Ascended Masters' Octave in this world. Mankind have made many discoveries, most of which they have used to their own detriment, but they have not discovered the secrets of the Mountain Ranges of the world.

And, may I say to you, the Mountain Ranges of the world render a similar service to the structure of the Earth that the bones do to the physical body. Now you wouldn't be much good without the bones, would you? You'd be sort of a formless mass and not much consciousness there. And the Mountain Ranges of the world are the strength and the supporting structure through which the Powers of Nature dispense their Blessings to Life, to mankind. And since the Mountain Ranges are the storehouse of many of Life's great riches,

besides the minerals and the metals, mankind—when they begin to feel the Purity and the Love which those Beings of Nature pour forth under Our Command, you would find many Blessings coming into your outer use that would astonish you as well as the rest of mankind.

We have been the Custodians all through the ages of these great Streams of Electrical Force, and, may I say, Electrical Life, because that's what those Streams of Energy are. Therefore, is it any wonder that you can come out into the mountains and just, sometimes, in twenty-four hours, feel the great uplift of your strength and the power that the change brings you here, and how quick the pull of the discord of the outer world drops away when you enter into communion with Us.

Try to feel that over every great activity of Nature presides one or more of the Ascended Masters and Cosmic Beings who consciously regulate and direct the activities through the Powers of Nature for a specific, definite accomplishment and Blessing to mankind and the Earth. Nature is the great Storehouse of Life's great Blessings; and the more you can feel your Oneness with the Electrical Force, the Electrical

Life of Nature, the less would the atomic structure feel exhaustion or discord from associating with mankind.

Now many people who live in Our Domain love It so much they never want to go back to the big cities. They say they can't stand the pressure. Well, that's quite all right if they don't know this Law. But with you who understand that you are serving Life for your Freedom, then when you come into this great Blessing that Life has created to give you the strength and the way and means of sustaining your energy against the outer discord, then you fill up the "Cup," as it were. And then you go back to dispense Its Purifying Life to the conditions around you until you raise everywhere all that you contact by that which you absorbed from Us.

May I say, the Mountain Ranges are to some degree like a stepped-down transformer. It is Our Life that is concentrated within the Mountain Ranges, and the intensity of that Energy is lowered to the vibratory action where mankind's bodies and their mental and feeling world can absorb It harmoniously and hold It concentrated in reserve for future use. Now if you train yourselves to feel what We have placed within the Mountains to

bless you, then wherever you move, you will keep charging Our Feelings of the Powers of Nature into yourselves so that your feeling begins to understand what is acting through Nature, not only to bless you, but to bless the whole structure of Earth, bless all mankind.

If it were not for the Purifying Radiation that pours forth constantly from the Mountain Ranges of the world and through the great forests and the activities of Nature, mankind would smother to death in their own discord. So We are a Powerful Purifying Stream of Life which, if you feel at One with It, you can absorb in any intensity you desire, store It up within yourselves, make It an atmosphere about you, until wherever you move, It will raise all that you contact into Its own greater Strength and Purity.

Now when it comes to the use of the great Fire Element of Nature and of the Great Cosmic Activities, then the Strength in the Mountains, My Dear Ones—this Electrical Force is in reality a Stream of Fire that goes through the substance of the Mountains and charges into that Its own Mighty Purity and Power and Perfection of Life, and then radiates through that Substance to Nature and to mankind Its greater Blessing. And

just as you heat a radiator, the radiator is the receptacle that holds that heat when it reaches a certain intensity, and then gives off that heat in whatever quantity you can absorb it. And the Mountain Ranges of the world render a similar service. The Electrical Force within the actual Mountains of the world is an Action of the Fire Element; and, may I say, It is stored there to give off Its heat and Its Purifying Radiation to bless mankind, and through the Powers of Nature sustain conditions while mankind gain their experience in this world.

So when you call to Us for the Fiery Love of Our Hearts to charge into you and charge into your conditions the Feeling and the Power that is in Our Life, you can do the same thing from the Mountain Ranges that charges into the atmosphere about you and allows that Activity to go on to others wherever you move, just as It comes to you from the Life We have placed in the Mountains.

From Our Great Octave of Life We are constantly pouring into the structure of Earth and into mankind more and more of the Fire Element, because that is not only the Purifying Action of Life, but It is the raising of the vibratory action of

all substance until it comes to the place of Eternal Purity and Self-luminosity. And just as We place Our Life into the Mountain Ranges through this Electrical Force that radiates for centuries, so can you draw into yourselves from Our Life's Flame and from the Powers of Nature a similar activity. And then the atmosphere about you goes on with the same action to give to others, the same as Our Life in the Mountains gives to you that which you can next absorb.

And please recognize this always as an Inner Action of the Sacred Fire, the Great Divine Fire of all Creation; for without that Electrical Force, which is Eternal, Divine Fire placed into substance, you would never have Life. You would never have action. You would never have motion of anything in manifestation. So try to realize that everything that is active within yourselves or in the Powers of Nature is some Activity of the Sacred Fire. And the more you understand that, the more you give recognition to It, and the more you use It, the more will you embody the Mastery and the Perfection and the Dominion of the Sacred Fire. And when you are filled with that, there is no such thing as a mistake or a limitation that can stay in your world longer.

So when you come into the mountain ranges to breathe the pure air and enjoy the snows and the water, you are scarcely realizing that It is the Fire that makes everything act and enables everything to give you Itself. You must come back to this one fundamental everywhere throughout Creation: that Life is the Sacred Fire, and the action of Life is the concentration of that Fire into form and consciously directed to produce definite manifestation. If people understood what they could do by absorbing the Electrical Force—consciously calling It that—of the Fiery Love from the Ascended Masters' great Temples of Life and from those Activities of the Sacred Fire that are always controlling certain conditions in this world, if mankind understood how easily, how quickly they could enter in and draw that into themselves, My Dear Ones, you would go forward in such accomplishment as you have never dreamed.

Your Beloved Saint Germain has taught you through the years to call the "Presence" into you—the "Presence" into action, the Power of the "Presence" and the Intelligence of the "Presence" into yourselves, and outer conditions. But when you always recognize that as the Fiery Intelligence, the Fiery Presence, the Fiery

Energy of the Great Life of the "Mighty I AM Presence" in the Great Central Sun, the moment you accept, acknowledge, and use that Fire Element, you will find Mastery taking place and controlling conditions that otherwise would be a limitation.

So you are not at the mercy of outer world conditions regardless of the appearance world. No matter what comes to your attention, know always, your first duty is to turn to your "Beloved I AM Presence" and to Us, and charge the Sacred Fire into the condition that compels it to change and yield you Perfection. Call the Sacred Fire of Our Hearts, if you can't think of anything else, into the conditions of the physical world that need changing, because when you set the habit of continually remembering that your "Presence"—whether It be the Electronic Body or the Higher Mental Body—is a Fire Being, and the Unfed Flame of Life in your Heart is the Fire Action in you, then to use that constantly in and through yourselves, and charge It into conditions, is the use of the Master Power of Life to which all the Beings of the Elements are eternally obedient, because they know that to obey the Command of the Cosmic Fire is their

supreme privilege and joy; for there is nothing that can come to them through It but Purity and Happiness and Perfection.

It is the Purifying Power. It is the Life-giving Power. It is the Sustaining Power. It is the Protecting Power of the most concentrated Activity of Life; therefore It is the Supplying Power just as well. You ask that the Great Love from the Beings who created the Mountains and sustained them pour to you the Supply from Their own Hearts' Love. Try to call the Supply of that Fire Element into your beings and worlds and watch the results! We want you Free, Precious Ones; and I have many reasons for why I'm saying this, this afternoon. Mankind has so disturbed the natural balance and flow of supply to the masses of the people that they cannot reestablish the balance themselves; and unless they are taught this Knowledge of the "I AM," the use of the Violet Flame, and understand what the Sacred Fire is, they are like ships on an ocean without rudder or pilot.

Now you just cannot go on and produce mastery over this world in the condition of the outer world's chaos without consciously understanding what the Sacred Fire is. And

everything that is the Strength of good in you—or in anyone who tries to hold to that which is constructive—you will find to be some Activity of the Fire Element; and We have much of It in the Mountain Ranges. Please remember My Words tonight if you don't remember anything else: that whatever you want in the physical world to produce greater Perfection for you depends on your acceptance, recognition, and use of the Sacred Fire as the Highest Authority that can produce that for you.

Your own "Beloved I AM Presence" and Higher Mental Body is the Supplying Source of all that is of the Sacred Fire into your outer use. And every Ascended Master and Cosmic Being who offers you Assistance, offers It always in conjunction with your own "Blessed I AM Presence." Fill your beings and your worlds, fill your affairs with that Love of the Pure Divine Fire of Creation, and command It to produce Perfection for you, command It to do the Will of God everywhere in the physical world, command It to fulfill the Divine Plan the Ascended Masters' Way in the Service of your Mighty Saint Germain. This keeps you held within that Fire Element; and then as you charge your atmosphere with the Electrical

Force and Power of Purity from the Mountain Ranges of the world, it means you can go forward and have amazing results as you apply this to your business affairs, as you apply it into every condition that you find in the physical world.

If there be impurity, then the Divine Violet Flame is that Purifying Power. If you need Strength, then that Divine Blue Flame is that Electrical Energy and Force. If you need Peace, then that Divine Golden Flame with a breath of pink is the Concentration of that Fire whose Radiation especially produces the feeling of Peace. And the Sacred Fire—the Divine Fire—is the sustaining Power of the sustaining Life of everything that is constructive.

So you are really blessed among the people of Earth to have this privilege of contemplating the Mountain Ranges and being close enough in their Radiation to give recognition to the Blessings that Our Life has concentrated there to bless the whole world. And you, in your walk of life, should be a concentration of that Sacred Fire to pour forth Its same Divine Blessings to the rest of Life wherever you go; and if you are consciously aware of that and concerned with the outpouring of It, let the pressure become so

great that discord from the outer cannot come back and touch you. And that is your secret of Mastery.

Keep charging the Divine Fire from your "Mighty I AM Presence" and the Ascended Masters' Octave into everything in the physical world with such Power that that which is of the outer cannot come in and connect with you. It is your Supreme Scepter of Protection, of Mastery, and of Assistance to all Life wherever you move. Keep calling forth with all the Love at your command the Divine Fire from your own "Blessed I AM Presence" to manifest the Will of God on Earth as It is in the Ascended Masters' Octave—to manifest the Divine Plan fulfilled the Ascended Masters' Way in the Service of Beloved Saint Germain. And you demand all the Divine Fire necessary to do this quickly in outer conditions so that you may be protected against the discord, and go forward to the victorious accomplishment that each of you desires to attain, and which must be brought into the physical world somehow.

When you call forth any manifestation by the Divine Fire of Cosmic Christ Love from that "Blessed I AM Presence" in the Great Central

Sun, demand that that Divine Fire be an eternal part of this world, and whatever manifestation you produce becomes Luminous and a Blessing to this Earth forever. Then just fill your world and the worlds of those around you with these magnificent Manifestations, the Miracles and the Victories of the Divine Fire of Creation, that It may send the Love of Its Blessing into the atmosphere about you, and you become clothed with the Flames of your own thoughts of God's Perfection. Then you stand within that, the Jewel in the Heart of the Lotus, the Thousand-Petaled Lotus of Perfection's Flame, because every time you call forth that Divine Fire, another Flame becomes established about you until, eventually, you are a Sun of Its Loving Blessing to the Universe about you.

Thank you for your presence here. Thank you for your Love to the Light, and thank you for your blessings to Nature. I shall flood back those that come under My Direction, and I trust I can take you forward to an understanding of Happiness that becomes a Blessing to you forever. Thank you with all My Heart.

MIGHTY GOD MERU

January 3, 1954

Chicago, Illinois

Record CD 161; Cassette 6 0311-1

Beloved Ones of My Heart, in answer to My Heart's Call, again We have your attention; and I trust We will leave with you a Blessing that will be well worth your Calls and everything you have sought to do in your Service to the Light. I want to reveal something to you concerning South America. For century upon century South America had many wonderful Manifestations of the Light of God's Command to the Earth. Within South America there has always been given Adoration and Acceptance and a Call to the Sun as a Giver of Life to the Earth. And because there have been those places within our borders where the Light in centuries past was drawn with such Power to produce wonderful Manifestations,

certain other forces have sought, of course, to destroy that or interfere with Its Blessing to the Earth.

But now, once again, the expanding Light from the Great Central Sun is, through every Focus of Light throughout the world, expanding a Cosmic Heartbeat that causes every Focus of Light to intensify and expand Its Control throughout the world. The sinister force does not know this, but the Inner Action of It is going on with Victory! (*applause*) Thank you, Precious Ones. And so it is, as you give more and more recognition with great Love and Devotion to the Power and Authority of the Great Central Sun, you will draw Its marvelous Powers and Its Manifestations of Victory and Command to this Earth into and through your outer activities to more quickly release Its Dominion and reveal Its Perfection; for I assure you, the Great Central Sun stands back of the manifestation of what you call this System of Worlds.

And since It is the Giver of all Life in the Universe, It is the Directing Intelligence and Almighty Power by which this whole System of Worlds came into existence, is sustained, and through which the Great Central Sun's Love and

Eternal Perfection of Life will forever expand. So when you begin to recognize the existence of the Great Central Sun, and by Conscious Call and understanding of the Life and the Love of the "Mighty God Presence" there, you draw Its greater Manifestations and Blessings into physical existence in this physical world. And that makes you the master over conditions here very much more quickly than otherwise would be.

We have long given recognition and Love and Devotion to the Physical Sun in South America, and, at some places, to the Great Central Sun. And so We are grateful beyond measure for your recognition and use of this Power of God within your own consciousness and the Demand for Its Authority and Power to act within your Nation. If you will include in your Calls the same Mighty Power to go forth in Eternal Victory to Central America and South America, it will make the Western Hemisphere a Sun of Light within itself, intensifying to the point where It will burn away, so to speak, some of the destructive activities of the rest of the world that have sought to engulf the planet to complete destruction.

Mankind's peculiar genius for delving into the secrets of Nature and the use of energy to

fulfill the diabolical plans of human desire and human creation is a most terrific thing. And so with your recognition of the Great Central Sun and your Call for Its Secret Sacred Fire's Annihilation of all that the hordes of the shadows plan—you will never know until your Ascension just how wonderful it has been for these Calls to go forth, that they may release into outer physical conditions the prevention of a large portion of what is intended.

When selfishness reaches a certain place, a certain concentration of energy, whether it be in an individual or groups of individuals or nations, matters not. Selfishness accumulated to a certain point is criminal, animal insanity and is a blight upon the Universe and is treason to the Universe. And so when your Calls have gone to the Heart of Creation for the Release of the Secret Sacred Fire's Annihilation into certain channels, I assure you, that Sacred Fire will go there as sure as a Universe exists! (*applause*) Thank you, Precious Ones.

Now where individuals have turned to destructive activities, sometimes within the Life Stream there has accumulated a certain amount of Light in the Causal Body due to a

former use of energy constructively directed. But where individuals have accumulated such a momentum of evil over many embodiments, that destructive accumulation stands around the physical body and interpenetrates the emotional body, qualifying the energy destructively. In that case, very little Light, as a rule, abides within the Causal Body; and when the evil builds to a point where the Causal Body gives forth no Light, then the second death must be commanded.

So your Call, My Loved Ones, for the Great Central Sun's Secret Sacred Fire's Annihilation of the evil mankind has built, is a far greater act of mercy and a far greater use of the Great Love of the Universe than you understand tonight. We are very grateful that you have this Understanding of the Law by which you can continue this Call and move into outer conditions the Consuming Power to prevent these evil forces from building to greater destruction.

Mankind seem to refuse to understand that these Great Beings who exist in the other parts of this System wield Cosmic Forces of which mankind knows absolutely nothing. And so when those who intend destruction or desecration of whole nations and portions of the Earth build

their frightful creations to that point, if it becomes necessary, the Cosmic Law can act through Cosmic Beings who could direct Forces from outside of the atmosphere of this Earth that could dissolve any portion of it instantly. (*applause*) Thank you, Precious Ones.

I want you to know Our Love and Our Gratitude to you is boundless for every Call you send forth for the Descent of that Sacred Fire that consumes this human creation before it can accumulate to the place where the hordes of darkness could direct it to its wholesale destruction. We have watched mankind a long, long while misuse the great Blessings of God; and under the Action of the Cosmic Law there comes the cycle of time and Authority of those who own this System of Worlds to bring into outer action that which puts an end to the insane destruction of human defiance and denial and rebellion against God.

So, Beloved Ones, fear not to go forward. You have a Scepter of Power! You little realize what It means. You little dream the Power that is within your Call to the Great Central Sun for Its Secret Sacred Fire's Annihilation and Prevention of that which should not be. And so since Our Authority

in South America has long held the balance when, once before, these same forces tried to engulf the world, We have survived and still rule! (*applause*) Thank you, Precious Ones.

Now I simply give you the Idea and shall await the impulse within you as to what you choose to do. Long centuries ago when there was the school of black magicians in South America—three hundred of them working at one time against mankind's effort to turn to the Light; and their intent was so diabolical with the same thing you have today, the atomic bomb—We broke up that school of three hundred black magicians. (*applause—audience rising*) Thank you, Precious Ones, with all My Heart. Won't you be seated, please; and just remain so.

There still exists in the Andes Mountains the records and forms of some of their devilish things that they created and imposed upon life; and I, for one, would appreciate it if you would make the Call that the Great Central Sun's Secret Sacred Fire's Annihilation penetrates the structure of the Earth and removes from the Universe the records of their devilish viciousness against Life! If you will make this Call, We can do certain things within the crust of the Earth

to remove certain forces that they anchored through the Powers of Nature in these things that were so terrible.

You might wonder why I do not act of My own volition. God knows, I would have centuries ago if the Cosmic Law had permitted. But since you are aware of this now, and you are atoms in the body of mankind upon the Earth, if you will make this Call of your own Free Will, I can move into action certain Purifying Powers to dissolve and consume within the crust of the Earth certain things, certain forces, and certain creatures that are still held there bound, and which, if allowed to come to the Earth's surface, would be frightfully destructive to mankind. There are still creatures bound within the crust of the Earth in certain subterranean channels and caverns that are indescribable in your words in the horror of their creation. And they are alive.

If you will make your Calls for the Great Central Sun's Secret Sacred Fire's Annihilation—through the crust of the Earth—of all those creations of the black magicians and of mankind's diabolical viciousness, the Powers of Nature will love you and bless you without limit. And even the Beings

of the Elements will worship you because of their release. (*applause*) Thank you, Precious Ones.

This will also remove something of the magnetic drawing power of certain destructive forces on the surface of the Earth to certain localities in South America, and some in Mexico and some in Central America. So from the Inner standpoint, We will greatly appreciate your Calls; and it will give Us certain opportunity to act within, I trust, a limited time. If this can be accomplished within a certain time, the structure of the Earth will be greatly blessed and released from a terrific pressure and attraction to the discordantly qualified energy released through the feelings of the people in war.

If We break the focus of these destructive activities within the crust of the Earth, the destructively qualified energy released by the feelings of the people in the atmosphere of Earth will not be able to anchor in those places and in other places in the world to so easily focus against mankind. In one way, when these things are allowed to remain in the structure of the Earth, they are a drawing power to the destructively qualified energy in the atmosphere of Earth; and that keeps feeding more and more destruction. If

We can break each focus with the Sacred Fire, It looses the attracting power upon the atmospheric destruction, and it will be much easier to consume in the atmosphere over certain portions of the Earth the accumulating hate and discord released through war and consciously held in certain locations for further, future destructive action.

I have not been with you for a long time, but I trust I shall come more frequently as We move into action with the Release of these Forces that will surely bring to Life a Blessing indescribable, as you, in the full Authority of your own "Blessed I AM Presence," demand the Descent of the Secret Sacred Fire's Annihilation of everything within the crust of the Earth that is of such frightful destructive action!

Just remember, My Dear Ones, no matter how vicious mankind become in their misunderstanding and misuse of Life, I want you to remember that the resourcefulness of the Great God Beings who have created and directed the planet is infinite. The great resourcefulness of the "Great God Presence," the "Mighty I AM," is without limit; and regardless of what mankind creates, the "Great God Presence" can draw forth that which is its Master. (*applause*) Thank you, Precious Ones.

And now, to make your Calls to release the Earth from the frightful conditions created by animals and reptiles and vermin and the frightful conditions that have been imposed upon Nature, to release the Earth from that frightful activity, is, I tell you, a mercy and a gift of Love which will go on and expand its blessing to Life everywhere in this world forever. So We will deeply appreciate even just a few Calls, that We may set into action those Powers of the Cosmic Law that will undo the work of rebellious individuals who through the centuries past have been so determined to destroy the Earth.

So, Blessed Ones, you have Knowledge far beyond what you understand. You've been given and given and given these Pearls of Existence from the Heights of Eternal Perfection, that you may use Them in these outer conditions to do that which only the Cosmic Law can do through your Calls, and which will forever go on and expand Their Blessings to the release of mankind and the Powers of Nature and the Beings of the Elements from the mistakes and the creations of mankind's hatred of the past. If you, in making this Call—for the Great Central Sun's Sacred Fire's Secret Annihilation of mankind's hate creations

of the past that have been anchored within the crust of the Earth—it will reduce greatly much of the destruction that is intended.

And so We will be very happy to answer your Calls. We shall set into action certain powerful Currents and Activities of the Sacred Fire to begin Their Journey through the crust of the Earth to consume those creations which must be consumed from the Earth if it is to be purified, and once again illumine the Universe around it with the Blessing of Its Love and the Glory of God's Heart. So in helping to remove those forces from the Earth, you are not only increasing your own Protection, but you are lifting, by the Power of Eternal Love, the darkness of the hordes of evil from life, from substance, from energy, and from the Earth.

It is with great Gratitude that "I AM" privileged to speak to you for a few moments and tell you what has been on My Heart for so long, when I have longed to remove from the land over which I have Dominion, remove those creations that have tortured life, dishonored God, and betrayed mankind. Now let Us move into action the Sacred Fire of the Universe and let Its Secret Annihilation enter into those secret places where there have

been hidden for centuries these creatures and these creations that must be consumed, and that life and energy purified and released back into the Direction of the Powers of Life to compel Perfection in the future that blesses the Universe with the Gifts of Love.

Love is the most wonderful thing in all the Universe; for within It is the infinite, eternal resourcefulness of the Great God Life from the Great Central Sun to always bring into action that which consumes mankind's creation, annihilates its record from the Universe, and places the Perfection of God's Love in its place to hold Dominion for Eternity, and thus bring Freedom to Life where human creation has bound It in distress.

So, Blessed Ones, accept My Heart's Love to you today. I assure you, everything My Love can give will come to you in Blessings that are boundless if you will help Me render this Service to help free the Earth from that which has tortured and dishonored it so long. (*applause*) Thank you, Precious Ones.

The hordes of evil are trying to swarm over our Beloved South America and Central America and Mexico to continue their diabolical action against

Life; and if We can do this within a certain time, We will take out of their hands certain ways and means by which they can focus what they intend against Our continent and against the Western Hemisphere. In removing this condition from the crust of the Earth down to a certain depth, they will not be able to focus and locate some of the destructive things which they plan.

So if We will move into action as quickly as possible, I assure you, every Call you make, I will send back to you the Blessings of Love that will be tangible and real and eternal for your cooperation with My Request of Love. Love shall answer you as Love responds to Me, and together Our Love shall release the Western World from some of this frightful condition that should long ago have been consumed. And so now with this Conscious Knowledge that you have—the momentum of your Decrees and your Calls to the Central Sun—I bless you for Eternity. I thank you with all My Heart, and I will prove My Gratitude by the Blessings that I will gladly bestow upon all who will give Me this assistance from tonight.

Do the best you can, and I will give you the best I have; and together We will release that part

of life in the Western World from the shadows that are unspeakable and which We do not longer want to exist anywhere in the Universe. So let Us, shoulder to shoulder, render Our Service to Life and bring about once again the condition that glorifies that “Beloved I AM Presence” and brings Honor to the Great Beings whose Love through the centuries has stood Guard over God’s Handiwork until this Light and this Violet Consuming Flame could be brought forth into outer action by the Conscious Command of unascended beings who, taking the Scepter of their Dominion, march forward and command the world returned to God, and the Perfection of God’s Universe manifest here, to the Glory of the “Mighty I AM Presence” and the Love and Eternal Happiness to Life and the Universe around you.

May I have the opportunity to clothe you with the Blessings I can bestow that come under My Direction; and, I assure you, Love will give you all It has. May It forever hold you Victorious in the Glory of Its Heart, Invincible forever against the shadows and anything they have created. Go forward, and I will hold your hand to Our Victorious Accomplishment.

Thank you with all My Love.

DISCOURSE VI

BELOVED GOD TABOR

January 11, 1954

Chicago, Illinois

Record CD 1795

My Beloved Friends of the Mountains, it is with great Joy that I may spend a few moments with you and share with you the Beauties that are in My Domain and the Blessings which they pour forth to the people of this world, and which they are yet to bring into outer conditions for the blessing of all who will live in this world in the future. The Handiwork of Nature is very wonderful, My Dear Ones, and it would be well if mankind paused occasionally in the midst of their outer activities to realize how great is the Power of Life and how miraculous is Its Love and Its Beauty that is constantly going on everywhere, and, most of it, unseen by mankind.

When you realize that the Beings of Nature and the Forces of the Elements, by Conscious

Command of the Great Ones who govern this System of Worlds, bring about the Fulfillment and Manifestations of the Beauty which the Great Divine Plan of Life lovingly places everywhere in this world and is constantly trying to expand—it takes very great Love, My Dear Ones, and Patience, to wait upon wayward humanity, century upon century—and yet We are busy all the time building Beauty and using the magnificent Gifts and Powers of Life to create ever greater Beauty and ever greater Blessings and reveal greater depths of the Love that gives all.

And mankind in their depredations and degradation, have so often torn to pieces the Handiwork and Blessings of the Beings of Nature; and when mankind's destructive creation returns upon individuals age after age, when the individual leaves and stops the destruction for a time, Nature still beautifies and covers over the scar upon the world. Nature ever is using the magnificent Miracle Powers of God's Heart, God's great Love and Intelligence and Designing Power in Its great Creative Activity, ever and ever and ever to cover over and wipe out mankind's distortion and discord and destruction.

So you whom I shall call My Family of the Mountains—because some of you have loved the mountains very, very greatly—I shall expect, through your Calls, if you will cooperate with Me, to help undo some of mankind's mutilation of the Beauties which the Powers of Nature have bestowed. You must understand how great is the Intelligence, how great is the Love, how great is the Power that designs the infinitely small with such Beauty and such Perfection the same as the Great Cosmic Beings design a world or a System of Worlds or a Galaxy of Systems. The same Mighty God Intelligence of Eternal Love that designs the Beauty in the infinitely small is the same God Perfection and Love of Life in the Great Central Sun that has designed and manifested the entire Universe.

So one day when you come to visit My Realm of Beauty, you will understand more thoroughly what I mean tonight. In the meantime, contemplate It, and see if your understanding cannot reach out and stretch a little bit into My World, that I may come back into yours and leave a Blessing of Beauty and Gifts of Perfection that you may use as you go forward to your Eternal Destiny in bringing about the Freedom of the Earth. (*applause*) Thank you, Precious Ones.

Just as the Sun ever is dissolving and consuming the impurities generated in the atmosphere of Earth, just so do We continue purifying and rebeautifying many activities of Nature that must be held in balance if mankind is to be allowed to exist here in the future. And when, through the frightful conditions of war, mankind do the things they do—only one thing can you do if you understand the Realm of Beauty and Authority and Love from which I come. You can only do one thing: and that is to lift your Heart in Love and Gratitude and Adoration, and ask the Heart of Creation to have Mercy and Love and Forgiveness to that life, part of life which is so bound in the shadows that it cannot see the Sunshine of the Beauty of Everlasting Love.

When mankind prefer to destroy each other and distort the Blessings of the world to desecrate everything that is here in preference to loving God and receiving the wonderful Universe around them, then you must know something very severe must come to awaken them from the shell of their crime and their destruction and their filth.

We ever work to expand the Beauties of Nature whose Purity goes forth to help raise all

Life into Our Octave. And those of you who have faced this "Beloved I AM Presence," you whose Hearts are calling to the Ascended Host, you who love the Light, do you know what you mean to Us? You are like a breath of fresh air in sunshine to one who has been in the dark recesses of imprisonment. You, as a handful of mankind who have been willing to make your Calls, are an encouragement to Us. And so in return, I come to encourage you. (*applause*) Thank you, Precious Ones.

And in the great, wonderful activities of the Powers of Nature, those Powers, My Dear Ones, were you to require their Beauty and their Gifts in some wondrous service to Life, you would find the Beings of the Elements and the Powers of Nature bringing to you their Divinest Gifts without distress and work on your part, and without desecration of the world in which they live. You would not have to shatter a mountain to get what you required of the elements there or the minerals or the metals. If mankind were friends with these blessed Beings and would keep themselves purified, the Beings would be glad and anxious to bring their Blessings to mankind to perform the service that again beautifies the

world and uses the Blessings through the Powers of Nature that God has so richly given.

So, My Dear Ones, mankind in order to exist, does not have to destroy the Beauty and the Handiwork of Cosmic Beings who have built the Earth. Wouldn't it be a strange, strange way of Life that would make it necessary for beings to destroy something beautiful other Beings had built just in order to exist? It doesn't seem natural, does it? It doesn't seem reasonable, does it—for mankind to have to live as they do with slavery and destruction as their only means of existence?

I shall lift your Hearts tonight into the Great Creative Heart of God's Mighty Love and show you the Master Powers of Life that can design in a breath the Beauty of Nature and release the Powers that make that Beauty grow and give Its Blessing to everything else in Creation. Do you not think the great Plan of Life is very perfect and very wonderful, when those who govern your world care so much for you, and care so wonderfully for the Beings of the Elements and the Powers of Nature, and love Beauty so much, and are so filled with Perfection that They design something as tiny as a snowflake with such

exquisite beauty and balance—to exist maybe only an instant! That is the Perfection to which I have reference. That is how much Love cares for Its Manifestations. That is how much Love at the center of the Universe loves to give Perfection, and how much It is willing to give of Its own Beauty and Its own Power, that Its creatures may have only that which is perfect.

So if you will think some of these things through, if you will think deeply upon that to which I have referred tonight, I trust, as time goes on, some of the Blessing of which “I AM” Custodian may come to bless you, make your pathway easier, give you unlimited Powers over certain conditions in this world, and enable you to go forward in your Service to the Light with much greater Freedom, much greater Power, and much greater Victory.

I just happen to be Custodian of some very wonderful Gifts, and I wish you knew Me better and that there were no veils between. Then My Gifts would be yours to use in your outer conditions, and what you call Miracles would be just your natural, everyday experience. And I do want you to live a Life of Miracles as time goes on and as Love holds greater Command. You do

not quite realize how much I love the Beings of the Elements and the Powers of Nature who do My bidding when I design something beautiful and I call them to My Assistance. Because We obey the Law of Love, they love to come to Me, and I love to have them; for together We design that which honors the "Mighty I AM Presence" and the Ascended Host, and blesses everything else in the Universe with the Radiation of Its Beauty and Its Love.

Love is a wonderful thing, My Dear Ones. The Love to the Beings of Nature, the Love to the Forces of the Elements—Love to those blessed Beings will draw to you things the outer world can never give. Not all human beings put together can give to you what some of these Beings have in their custodianship as the Blessings of Nature. Can all mankind give you a mountain? Can they create a mountain? Not yet. But My Beings of the Elements and My Powers of Nature have built Mountains of Beauty in which abide wonderful Currents of Life, wonderful Power and Energy of Eternal Purity, and through whose Radiation alone We can lift mankind's human creation and consume it in the Violet Flame.

You do not understand, My Dear Ones, the Beings that create the Mountains and govern the Life Currents that pass through them and create the minerals and the metals and the crystals and the beauty and the jewels that are formed within the Mountains of the world. Do you know what the Mountain Ranges are? They are the custodians of many wonders of God's great Life, and many, many marvels that can teach mankind things they do not yet know. So, since "I AM" Custodian of certain things in the Mountains, "I AM" also Custodian of certain Beings who create them. They are a part of My Family, too. I would love to have one part of My Family know the other part of My Family more intimately! (*applause*) Thank you, Precious Ones.

Now one thing more: In blessing the Beings of the Elements, the Powers of Nature, you will be taught to use certain activities of Life, and your own consciousness and your own Love, to help those Beings fulfill their Divine Plan, create their Beauty, bring it to its Perfection, and then lift them into a more wonderful Activity that is greater and more powerful. Thus your Love to them is like a magnet to raise them to something better and greater capacity; and in doing that,

their love comes back to you to give you always the greater Gifts with which they are working in their activities of Nature—to produce more Beauty and more Blessings and release the Manifestations of Greater Love to the Earth.

So if you can feel that they are part of Our Family of Nature, I think you will be greatly surprised at some of the Gifts they can bestow upon you all. (*applause*) Thank you, Precious Ones. You know, you search the world over sometimes for a jewel or something that is the creation of Nature; and you struggle to make the money to buy it, and you have so much effort to go to, to get what you want. And yet enough Love to the Beings of the Elements and the Powers of Nature would draw them to you, and they would come and bring you their jewels without what you call "mining" them the hard way. They have the perfect way of creating them; and after they were created, they would love to give them to you to make you love them more. That is the Miracle Way to live Life.

If you knew how many Miracles there were in the Powers of Nature and Forces of the Elements—why, I just tell you, they are all Miracles as far as We're concerned.

Some of them—some of them will not accept mankind's discord; for they return it again and again to those who do not comply with the Law of Purity and Love and Harmony. So in guarding the Currents of Life that are in the Mountain Ranges of a continent, We are guarding the Life of those nations as well who abide within that continent. And I might say to you, the Rocky Mountain range, which is My Home, is really the backbone of the American continent, the North American continent. So it is quite a responsibility, I assure you, to keep those Currents of Electronic Force flowing without interruption and in balanced action in spite of mankind's determination to take out of the mountains anything they want.

Now since they have gone almost mad with this uranium desire, "I AM" watching quite carefully; and if they think they're going to use more and more and more of that just for destruction, "I AM" thinking some other things! (*applause—audience rising*) Thank you, Precious Ones. Won't you be seated, please, and just remain so. If they become too gluttonous, it might be necessary to change their minds for them; and while it might be distinctly unpleasant for them, it would benefit the world. So if I were you, regardless of the rush, I

think I would not be too anxious to hunt uranium for atomic bomb purposes. Atomic energy is one thing for commercial use, but atomic bombs are another.

And it might interest you to know, My Dear Ones, that there is a way and means of drawing atomic energy, Electronic Force, whatever you call it, out of the atmosphere without all that strain and struggle. So who is wise and who isn't? Mankind's way will always be hard until they learn and obey the Law of Love. We have told you this again and again. We have told It to mankind down the ages; and may I say to you and assure you that We will keep on telling It until mankind are either purified or, of their own Free Will, give the Obedience by which Love can fulfill the Law of Its own Perfect Manifestation everywhere in this world.

Our Love has poured to the Beings of the Elements a long while, and to the Powers of Nature—and they have blessed Us with their marvelous Gifts and Beauty. And so We have found that Love is worthwhile. So if you, with great Devotion to your "Blessed I AM Presence" first, and then to those of the Ascended Host to whom your attention is drawn from time to time,

will pour your Love to the Beings of the Elements and the Powers of Nature, and bless and bless and bless and thank them for everything they have done for you, I assure you, that will bring back to you Blessing that cannot come and will not come in any other way.

So tonight I wish to teach you how to experiment and associate with the Powers of Nature, the Forces of the Elements, and to feel your nearness to Us in the Activity with which We are concerned whereby those Beings carry out Our Will and produce the creation that blesses mankind and which is for their perfect use.

Now I have been very close with you sometimes, although it's a long while since We have had a visit with each other. But I may come more frequently in the future (*applause*)—thank you, Precious Ones—if time and conditions permit. In the meantime, I leave it with you to remember what the Beings who love Me and serve Me are willing to do for you as you recognize them as part of Our Family. Did you notice, I said, “Our Family”—yours and Mine; and that is because you have had the Blessings of Nature, the Blessings of the Beings of Nature, the Powers and Beings of the Elements, many, many ages.

Now let Us bring into concerted Action Our Obedience to the Law of Love, and let It reveal to you what Gifts and Powers It is waiting to bestow. And those will come to some of these Beings that come under My Direction. Magnificent is the Power, beyond description, that is held focused within the Mountain Ranges of the world, to ever pour forth Its Purifying Essence that mankind may breathe more easily. If it were not for the Purifying Electronic Force that is radiated forth from the Mountain Ranges of the world by Conscious, Directing Intelligence and by Great Cosmic Beings who have given that Life and that Energy—if it were not for that and the Love We bestow, you would have smothered to death long ago. Mankind's own discordant human creation will smother them if they do not have Purity, at least a certain proportion of It, to give them an opportunity to make further effort to come into the constructive way of Life and live as God intends.

So to those of you who love Nature so much, and I believe most all of you do, I have many surprises, that as you feel closer and closer to the Powers of Nature and the Forces of the Elements, the Beings of the Elements, We will be able to bring to you some very delightful Gifts that will

carry certain Power and Perfection into your world. And as We go forward feeling the Oneness with this portion of Life which acts through the Beings of the Elements and the Powers of Nature, try to realize that Its Mighty Love to the Earth loves you; and as you remember and recognize that Love and respond to It and send your Love in return, you fulfill the Law—the Cosmic Law—and you enable Them, certain ones of the Ascended Host, to come to you in a more tangible manner and to bring to you the Blessings that will make your pathway easier and clothe you with Mastery sooner.

So your Love to the Powers of Nature and Beings of the Elements will draw to you the Assistance from others who will raise you, as your Love raises those precious Beings who have created such Beauty and Blessing for the use of mankind. Tonight, try to know that these Beings are the Family of My Heart; and I trust as you learn to love them and recognize them and feel their reality, it will enable Me to show you some of the things that they do, and bring you Blessings for your use in bringing into outer physical conditions the greater Perfection that is to become eternal in this Land.

So as you go forward with some of your, shall I say, projects—you know that's a much used word, lately—as some of your projects develop, We have a few of Our Own which I trust, one day, you will enjoy experimenting with: some of Our Activities that will reveal to mankind many, many things from the Ascended Masters' Octave which must have a channel through which to come into this world and become a part of its future Perfection.

So, Dear Hearts, just know that We are part of the great Activity of building the Perfection of the future. We are some of the Builders, and you are some of the builders. And there are many other builders; but let Us all recognize that anything that is to be sustained and fulfill the Great Divine Plan must be built by Love, with Love, for Love—and on the substance of this world that Love has created and maintains to fulfill Its own Divine Plan and the Destiny of mankind unto the Ascension.

May We ever offer you the Blessing of the Mountains until when you come there, you will feel they are one of your homes; and there you will enjoy, with Us, others who make the Mountains their home also. May you forever

be welcome, and may I have the privilege of holding you there until I show you certain things that are exquisitely beautiful which mankind has never seen and do not understand, but which, one day, must come and be given to the outer world. And I hope you will be the channels through which those Gifts can be bestowed upon the rest of mankind to take them forward to their Freedom. Just know that in the Great Divine Plan of Perfection, all of this weaves itself together like a beautiful tapestry; and every thread is necessary, and all the Beauty of Perfection and Eternity comes to you as a natural enfolding Presence and Protection and Assistance to the Fulfillment of your Destiny also.

So as We enter into the use of this magnificent Power and Blessing of Life, try to know It is always the Gift, the Intelligence, the Power, and the Substance that Love offers to fulfill Its own Divine Law of Blessing and Happiness and Perfection to all. May you abide within It and know that there never again can be struggle.

I leave you enfolded in the Radiance from the Mountains. The Sunshine of Its Glorifying Presence, the "Mighty I AM," ever makes you understand how wondrous are those Mighty

Giants of Nature and what Love they represent to the Earth from the Great Beings who have created them and given Their Blessings to the world. I commend you to the Heart of that Love, that you may know Its Beauty, Happiness, and Its Victory forever. Thank you.

DISCOURSE VII

BLESSED GOD OF THE SWISS ALPS

January 13, 1954

Chicago, Illinois

Record CD 250 AB

Beloved Ones of God's Heart, it is My privilege tonight to bring to you an Explanation of the Activity of the Gods of the Mountains which I trust will stay with you forever; and it is this: The Four Gods of the Mountains, in Their Outpouring from Our Retreats to the world, form a Cross from the four points of the compass; and that performs the same Service to the structure of the Earth that the skeleton-work, so to speak, of a building forms to the building. It is the support and the structure of those great Outpourings and Streams of Life in Its Mighty Power through the Mountain Ranges of the world to the rest of the Earth. And if you will understand that, from north to south, those Currents are under the control of the Mighty God Tabor and the

Blessed God Meru, and the Currents from east to west are under the control of Myself and the Mighty Himalaya; and this forms, My Children, an Open-ended Cross through which constantly flows the Cosmic Life, the Cosmic Strength, and the Cosmic Love to the planet from the Great Beings who are the Dispensers of that Life and Its Blessing for the upliftment of mankind and for the Expansion of the Light through the Powers of Nature and the Beings of the Elements.

Now since this is the Cosmic Handiwork of the Great Builders of this System of Worlds, I trust you will understand something of what Our Task is in the Radiation which We pour forth from Our Retreats to the surrounding countries that come within the Radiation of the Focus of the Flame that abides in each Retreat of the Gods of the Mountains. That is a Radiating Center of the Sacred Fire from the Great Central Sun to this Earth, and It is the Controlling Intelligence and Power by which We govern certain outer world conditions as they affect the mass of mankind.

When the destructive accumulation of mankind gathers to a certain point, it becomes necessary for Us to draw forth certain Cosmic Currents

through the Mountain Ranges of the world to offset the pressure of that discord; and I wish you to understand this tonight, because those of you who love the Mountains can feel, as it were, the Heartbeat of Life within those Mountains. And that Heartbeat that lifts you and thrills you with the joy when you are in the Mountains is the Radiation of Our Love that pours forth to all who will accept It and all who are sensitive enough to feel It and enjoy It and feel they are a part of It.

So you can be the bearers, as it were, of the Powers that come under Our Direction. You can be the carriers of that Radiation to the rest of the Earth; for It must go forth. The same as the heat comes into this room to make you all comfortable from the source that supplies it, just so must the Perfection of Our Love and Its Cosmic Power and Action go forth to all Life, to all mankind, from the Gods of the Mountains, to make life more comfortable in the lower places of the Earth until all becomes purified and works harmoniously with the Great Cosmic Law's effort to purify and set mankind free through the Attainment of the Ascension.

People enjoy this or that other part of the Earth. They enjoy this climate or some other

climate; and they gravitate, as a rule, to those places where life is, may I say, easier. And, of course, in the tropics everything comes with so little physical effort that they become lazy. Not so with the mountains. When they come to the mountains, they come into a Focus of terrific Electronic Force, tremendous Electrical Power; and when they come into that Radiation of greater Purity, they become more alert, more active, more dynamic, more charged with the Power that is there. And if they will absorb that whenever opportunity offers, and then return to the other portions of the Earth carrying with them the Blessing and the Strength and the Power of the Mountains, it will be just like the veins in the body carrying the blood of the Life Stream to the various portions to render the service that helps the whole body to maintain balance and health and perfection.

So you see, each thing has its own proper use, its own proper location. But I tell you, in the Mountain Ranges abides the Purity and the Power of Purity which must flow forth to the rest of the Earth if the lower portions of the Earth are to be purified. Were We to remove the Electronic Force in the Mountain Ranges, the world would,

as you term it, be “sick” because of the lack of the Purifying Energy which is, mark you, generated and radiated by the Sacred Fire in the Retreats of the Gods of the Mountains.

Just exactly as the electrical equipment of your cities draws the electricity from the powerhouse and lets that light be produced which blesses the city and enables greater activity to take place, in exactly the same way does the Sacred Fire in the Retreats of the Gods of the Mountains send forth Its Purifying Life—mark you, I said “Life”—to the other portions of the Earth, because We are the Guardians of the Purity of Life; and so the Electronic Force that is held focused and under Our Control through the Mountain Ranges of the world is Ours to dispense as Wisdom directs and as the Cosmic Law commands. So whether that dispensing of that Life, Purity, and Power is required through the Powers of Nature or through the waters of the planet or through the Beings of the Elements or through mankind, it all comes under Our Direction.

And We are the Supplying Source and Balancing Activity through the Radiation that pours forth to the Mountain Ranges of the world. So if you will understand this, I want you who

are familiar with your Blessings of the Rocky Mountains to feel quite close to Us, because since your Beloved Saint Germain has His Home in the Rocky Mountains and I have My Home in the Swiss Alps, I want you to know that My Home is His Home also; and He has invited Me to visit His Home! (*applause*) Thank you, Precious Ones.

Now I want to show you how the Great Intelligence of the Cosmic Law has blessed mankind in Its own great Wisdom of Life. I wish you to understand that since We are the Guardians of much of Beloved Saint Germain's Blessing to Europe, that which is to come to America from the Great Central Sun is to be dispensed to the rest of the world, and those of Us who direct those Mighty Blessings to the Earth are watching with very great intensity some of the conditions within your Land.

I wish you to realize that Switzerland, given Her Freedom so long ago, guarded that Freedom that was given her since way back in the thirteenth century. America was given Her Freedom, and in both cases by the efforts of your Blessed Saint Germain. Now since these are the two points of the greatest Freedom upon the Earth, and since

He is the Great Guardian of that Freedom for America, and that which He sought to do in Europe was His Gift of Love there, "I AM" the Guardian of some of His Work—in fact, all of It—in Europe. There is an Inner reason why the two Nations who have clung to Freedom are closely associated with the Power of the Gods of the Mountains and your Beloved Saint Germain.

So We are ready to honor His Mighty Work of Freedom in America because all that protects God's Freedom in America will protect God's Freedom in Switzerland, and all that protects Our Freedom in Switzerland will protect God's Freedom in America. The Powers within the Mountain Ranges are great Currents of God's Life. And so since that Life must flow everywhere and carry Its Blessings of Love and Peace and Intelligence to the rest of the world, Our Service to individuals is largely carried on through Radiation. But those who know of Us consciously and can call to Us of their own Free Will, will automatically draw very much greater Power and Currents of Energy from the Gods of the Mountains than the rest of mankind who simply absorb through Radiation as much as they can, may I say, in their sleep state. They

are still in the nightmare of existence, and you have awakened in the morning. I trust none of you will go to sleep again in the human desires of this world!

So, Beloved Ones, try to feel Our Love for America. And the Precious Ones who have come and gone to Our Country have been quite aware of that Power and Strength that they received there, the same as you are all aware of the uplift that you receive when you go to the Mountain Ranges of your own land. The same is true of the Mighty Himalaya; and when the Blessed Godfré and the Children were there in the Himalayan Range, they received from one sunrise alone Blessings that are still Theirs and still expanding to bless the rest of the Universe. So it is with Our Land. So it is with your Land.

The Light within the two Countries of Freedom must expand until It penetrates the darkness in the rest of the world; for that darkness is selfishness, and the selfishness is destruction. So, Beloved Ones, it is a very great Joy and Privilege and a very great Responsibility for all of Us, you and I, and the Blessed God Tabor, your Mighty Saint Germain—and all—to keep expanding the Light until It penetrates to the

farthest resources of the world and consumes the selfishness that mankind has imposed upon the Powers of Nature.

The more you can call consciously for the Purification of the Powers of Nature and the Beings of the Elements, the less will the damage be done by the destructive forces; for when you demand the Purification of those blessed Beings of Nature and the Forces of the Elements, you take out of the hands of the sinister force much of its energy and power to create further destruction.

When you demand by the Action of the Cosmic Law, as you have tonight in the use of the Great Command, the Purification of the Powers of Nature and the Forces of the Elements, do you know what that does? It is just as if you swept debris out of your homes and then the light and the fresh air came in to give you greater blessing. And so it is when you demand the Purification, by the Power of the Great Command, of those Forces of the Elements, the Powers of Nature, you sweep away the conditions on which the sinister force survives and feeds to hold mankind in the clutches of its destruction.

So We are deeply grateful for everyone that has come from Switzerland to America, and everyone

who has come from America to Switzerland with the realization within of what the Power of this Light of the "Mighty I AM Presence" means to the Earth. Mankind has little concept of how important this Work of the Mighty Saint Germain is to the survival of that which is constructive throughout the world. We are, each of Us, guarding wherever possible in Our own Domain and wherever We can in the rest of the world; but He—Honor be to Him forever for taking the Responsibility of cleansing the Earth—you scarcely can understand what that means. (*applause—audience rising*) Thank you, Precious Ones. Won't you be seated, please, and just remain so.

When the Mighty Saint Germain took the Responsibility, or offered to take It, for the cleansing of the Earth, that He might bring to its Fulfillment the effort of the Blessed Jesus to set mankind Free, it was to prove His Love and His Gratitude to Life for His own Freedom. That was what He offered back to Life, for He was so grateful for His own Freedom.

His Freedom came through His Love to the Blessed Jesus. And His Love to Life through long centuries, My Dear Ones, has been something phenomenal in one Life Stream; and since

He has taken the Responsibility of so great a task, I can but say it has made Us all love Him even more than We did before He assumed that Responsibility. And so in the Love which We bear Him, We are so grateful to be of any Service possible to those of His Family, those whom He has loved, those whom He has drawn from the shadows and held by His Love in the Light. And so We are willing to do likewise, and draw wherever We can those Life Streams that are caught in the shadows, and show them, once again, the Way into the Light and call them Home where they belong.

So, Beloved Ones, vicious as are some of the conditions of the outer world, yet I say to you, there is no way to permanently cleanse the Earth or correct these conditions except by the Great Cosmic Law, the Cosmic Law of the Central Sun's Love, Forgiveness, Mercy, and the use of the Sacred Fire by which the Purification is accomplished. And since your Mighty Saint Germain has given you that Assistance, We are ready with everything We are and have to help protect you all, to fulfill every Call you send forth, to strengthen you, to strengthen all that is of the Light, that It may expand more rapidly,

and therefore release more of Its Power to shatter that which is destructive before it can any longer destroy that which should never have been desecrated by discord.

It is a magnificent Plan of Creation that gives and gives and gives of Itself with such Love and Beauty and Power to Its own Creation to ever provide Eternal Happiness. That is why, when people come into the mountains to enjoy the beauty of the scenery and feel the Strength and the Energy and the Health which they attain in that atmosphere, it is because the Purity of that Energy is the Pure Love from the Great Beings who control the Powers of Nature and bless the Forces of the Elements with the greater Happiness and Purity that must come forth into outer conditions through those channels.

Within your own Country, I tell you frankly, that Purity must be maintained to your people. They must be aroused; they must be made to understand that unless they will purify themselves and guard that Purity, there is only one other answer—and that is they must pay the penalty. The Great Cosmic Law is no respecter of persons. All must be ground into Perfection. All must obey the Great Cosmic Law that holds

Systems of Worlds together; and the individual is no exception to that Law, I assure you.

The "Great God Presence," the "Mighty I AM" that has provided the world to live upon, has provided for mankind the Blessings of Nature, has provided the Beings of the Elements to help serve mankind, that they may create Perfection and Eternal Happiness to bless all manifestation—that "Great God Presence," the "Mighty I AM," has been very wonderful in the Gift of Itself to the human beings of this world. And when Its Blessings have been desecrated and chaos built where Love meant Perfection and Happiness to hold Command, then sometimes there must be something done that is very drastic in order to stop mankind's frightful creation of that which is wrong. And so We work always with the Expansion of the Light in the individual through the Mountain Ranges, through the Powers of Nature and Forces of the Elements. Our Duty is to keep the increasing Power of Light in the Mountain Ranges ever expanding and flowing into the rest of the world.

And part of Our Blessing which We offer the rest of the world is the supply of water. (*applause*) Thank you, Precious Ones. Let Me assure you

tonight, so far as your supply is concerned, when you love your "Mighty I AM Presence," when you love Purity, when you love to use the Power of God's Love and the Sacred Fire to bring Perfection into your beings and worlds, supply of every good thing will always be at hand for you.

And when mankind, not awakened to this Love or rebellious against God's Law of Love, choose to desecrate the Blessings of Love, then they will find themselves in dire want. Poverty is a reprimand to mankind for not using the Love that Life is offering to do what needs to be done to bless the rest of Life. So if I were you, I would give every Call I knew how, and call every Power of the Sacred Fire in existence to prevent the desecration of the blessings of the pure water of your Land by those who are fiends. And I say that advisedly. I know whereof I speak. Their intent against you is far more vicious than you comprehend. Knowing even as much as you do, you cannot yet comprehend just how low they have gone.

So those of you who are awake and are calling for the Protection of your Nation, know that you have My Love and My Assistance and everything

I can give to assist you and the Blessed Saint Germain to accomplish His gigantic Task in saving your Nation and bringing to the Earth that which awakens mankind and keeps them awake in the future. (*applause*) Thank you, Precious Ones. I say to you all tonight: the problems of Europe and the British Isles are not solved; and what solution has to come in that part of the Earth must come either from Purity and Love and the Radiation of Our Retreat, or it won't come.

So hold to your Calls for Purity, My Dear Ones. You know not how important that is. Be no part of the filth of the outer world. Do not desecrate your temples by anything of the outer world's filth. Stand like shining stars in the midst of the shadows, and let your own Light expand until It shatters the darkness and demands its Annihilation by the very intensity of your Heart's Love to your Source, and on whose Love comes back the Power from the Heart of Creation to envelop you, supply you, protect you, and to blaze through you that which consumes from the Earth that which should never have been created.

I say to you tonight: regardless of all the groups of individuals on the Earth, the problems

of Europe and the British Isles are not solved, and will not be until they are compelled to be purified. And part of their Purification is to take the claws of their filth off of this Nation. (*applause*) Thank you, Precious Ones.

Now you—in the great Love and Mercy and Forgiveness to Life, My Dear Ones, I offer you tonight the Armor of your Invincible Protection. Call with every atom of your beings to the Heart of the Central Sun for whatever Forgiving Love, Mercy, and Divine Compassion in the Descent of the Sacred Fire is necessary to purify the rest of the world—purify yourselves, too. But you call for the Love and the Mercy and the Forgiveness from the Great Central Sun to blaze the Sacred Fire that compels the Purification of the rest of the world, and that will be your Protection because of your Obedience to the Law of the Love of the Central Sun.

The same group of individuals in every government of the world is doing this thing which is desecrating every nation and trying to destroy America. It is the same group of individuals throughout the world. And so your Protection is to call for the Great Central Sun's Fiery Love, Fiery Mercy, Fiery Forgiveness, and Fiery Purity

to move into the brain and body of every human being that wants to destroy you or desecrate you; and We will help through the Radiation of the Mountains. You call for the Great Central Sun's Fiery Love and Fiery Forgiveness and Fiery Mercy and the Great Cosmic Fire that purifies mankind's human creation, no matter where it is; and in your willingness to do that and help the life of the rest of the world be free, you automatically draw the Protection of the Great Central Sun to yourselves.

That is why, when you understand this Law and you call Its Power from the Great Central Sun, and make mankind understand the Immortality of the great Authority of the "Mighty I AM Presence" and Its Mighty Assistance of Love to the individual, It is the Strength of the Great Central Sun in you. Then that enables you to stand against the destructive forces of the world; for they know—regardless of their opinions to the contrary, they know they cannot conquer Immortality.

It would be well if they learned just how powerful Immortality is. Your positive Knowledge and Authority and Love from the Heart of the "Mighty I AM Presence" and from the Great

Central Sun is the Immortal Power of Protection. It is the Immortal Sacred Fire of Command to the Earth. It is the Immortal Control of everything in this world that forces the Purification that takes mankind back to God. And not all the human creation of all mankind can take Immortality out of the Universe. And you are that Immortality! (*applause*) Thank you, Precious Ones.

So, Beloved Ones, tonight I give you, I trust, a very valuable Secret, a very wonderful Wand of Power, a wonderful Gift of Illumination. If you will acknowledge yourselves as the Immortality of the Sacred Fire from the Great Central Sun walking the Earth, with the Great Central Sun's Great Command that that which is of the shadows must dissolve at your approach—I think you will have some experiences that will reveal just what the Sacred Fire means, at least to you. When you understand that the Immortality of the Universe is the Sacred Fire of God's Eternal Love, and It is the very Life of Creation Itself, and you acknowledge yourselves as that in action in this physical world, It will draw a Strength and a Power of that Sacred Fire around you that will speak for Itself; and your own experiences will prove to you the Cosmic Power that has come to your Assistance.

So I leave you to your own experimental use of that; and as you send forth into the atmosphere about you your Acknowledgment of your "Immortal Presence" of the "Mighty I AM" and Its Immortal Sacred Fire in Command of everything in this world, you will find circumstances will bow to you, and that which has been your struggle of the past becomes your opportunity of the future to use your Authority and your Power, and prove to yourselves and to mankind your ability to compel that which is of the darkness to be annihilated.

Acknowledge your Immortality, My Dear Ones, in your Blessing to your "Mighty I AM Presence" when you say, "I AM' the Immortal Presence of the Great Central Sun's Fiery Command to the Earth that forbids the hordes of darkness existence! And 'I AM' the Immortal Love of the Sacred Fire in action wherever I go! 'I AM' Its Immortal Victory, and 'I AM' the 'Freeing Presence' to Life!" And wherever you abide and give that Acknowledgment, It shall be so and established to you. There will come the Power and Authority into this physical octave by your Conscious Command that will compel respect and compel obedience from individuals,

the Powers of Nature and the Forces of the Elements, to the Fulfillment of the Divine Plan and the accomplishment of anything you choose, so long as it be constructive.

That is your privilege, authority, and power to use without limit in your Acknowledgment of the Immortal Blessings and Gifts of that "Beloved I AM Presence" above you and in the Great Central Sun. Just know you are that Authority to Life and to the world, and It is the Power that conquers the hordes of darkness. I bid you use It and go forward to your Freedom. (*applause*) Thank you, Precious Ones.

I have just one more Blessing to offer in this phrase. Acknowledge: "‘I AM’ the Immortality of the Great Central Sun’s Great Command to the Universe! ‘I AM’ the Immortality of the Great Central Sun’s Command of the Sacred Fire; and I bid It come forth and fulfill my Calls, to the Glory of my ‘Mighty I AM Presence’ and the Freedom of Life by the Love which ‘I AM’!"

May the Fullness of all the Power from all the Gods of the Mountains clothe you with the Fulfillment of that Call and make you the Legions of Invincible Immortality by the Great Command of Life. May you forever feel the Glory and the

Power and the Authority of Its Presence, and Its Love becomes for you the Manifestation of Its Everlasting Dominion over this Earth and all upon it.

We shall hold your hands across the seas until the Sacred Fire of that Command is heard and mankind are grateful for their Freedom in the Love of God's Heart which America is to the world. You who are the Bearers of that Love, acknowledge your Immortality of that Love, and see for yourselves whether God is your Defender or not. God, the "Mighty I AM Presence" in the Great Central Sun, and the Magnificent Beings who govern the Universe and design its Beauty, will ever be by your side as you acknowledge Their Presence of Immortal Perfection ever with you.

I clothe you in all that that Immortal Love can bestow upon Life, and may you reveal the Victory of Its Presence wherever you abide. Thank you with all My Heart tonight. I bear to you the Blessings from the Alps, and may their Love enfold you with Eternal Happiness. Thank you.

DISCOURSE VIII

BELOVED GOD HIMALAYA

December 28, 1955

Chicago, Illinois

Record CD 1735; Cassette 6 0426-2

Beloved Ones of America, in that Great Cosmic Service which We offer to the people of Earth, We wish to bring some Explanation to you of the Activity of the Currents of Electronic Force both in the atmosphere of Earth and in the structure of Earth itself; for if you understand some of these Cosmic Activities within the structure of Earth, it will enable you all to have greater confidence and greater assurance through the use of your Decrees in the release of the Fulfillment of that which brings Perfection to all.

Mankind, enfolded as they are in the clouds, so to speak, of their own discordantly qualified energy and substance, do not understand and do not realize what Forces are playing constantly through the structure of Earth and through the

atmosphere of Earth. Therefore, the mental and feeling world of the mass of the people is principally a continuous action of their own desires and the constant driving force that wants them to continue those desires to their destruction.

Now the reasoning mind sometimes accepts the Truth of the Law and sometimes does not, due entirely to the individual's feeling of willingness to surrender to God. Therefore, when mankind is unwilling to let go of the human desires that enslave them, there always come to their assistance, periodically, certain Activities of these Light Rays and the Sacred Fire which enter into the atmosphere over a nation or the world, and compel certain changes to take place.

Thus We work in the mental and feeling world of individuals until the Pressure of the Cosmic Light intensifies to the point where, playing through the Powers of Nature, It forces mankind to learn certain Activities of the Law which are unescapable. And, may I say, there are some individuals in that condition right now; and, like it or not, they're going to learn, willing or otherwise, because when mankind will not listen to the intelligent, reasonable Explanation of the Law—and why they should purify themselves and

go forward to greater accomplishment—then there must come a shock through the Powers of Nature that forces the awakening.

But those of you who by Conscious Demand for the Purification of the outer self, having accepted your “Mighty I AM Presence,” and giving your Decrees, can have unlimited Illumination at any time once you begin to rise into the feeling of closeness between your Heart Flame and the Heart Flame of your “Mighty I AM Presence,” or the Heart Flame of the outer self with the Heart Flame of any Ascended Master or Cosmic Being.

The outer world, not understanding the Law, doesn’t quite believe or comprehend how it is possible for unascended beings to reach to these great Heights of Power and Assistance, and draw back that Help to themselves or their fellowman. But that is because the mass of the people, intelligent as some of them are, do not understand what happens in the use of the Sacred Fire.

Now your outer self contains the Heart Flame from the Great Central Sun within the physical body in the Permanent Atom in the Heart. That does abide within you regardless of all mankind’s

opinions to the contrary. Therefore, if you will recognize that and begin to set It into Expanding Action by your own intense Love poured to your "Mighty I AM Presence" or the Ascended Host, you will automatically draw back the greater Illumination and the greater Powers of the Sacred Fire from the Heart Flame of your own "Mighty I AM Presence" or the Heart Flame of any Ascended Being.

Therefore, when any particular Activity is being poured forth to mankind by one or more of the Ascended Host by your own Heart's Love to your "Mighty I AM Presence" and to Us, you can draw back into yourselves, first of all, and then into your affairs—the Quality or special Activity that one or more of the Ascended Host are using to help conditions in the outer world.

So I want you to feel your closeness to Us through the Heart Flame in yourselves; and if you once understand how to still the outer and let that Heart Flame of your Love go forth to your "Presence," My Dear Ones, your struggle is over. Turmoil may rage about you in the outer world, but it will part and run around you when you have entered into the use of the Sacred Fire and feel your Oneness with It.

Now you can send forth the Feeling from within the Heart Flame to anyplace in the Universe, to any Cosmic Being as well as to your own "Mighty I AM Presence." That is how the Individualized Flame may reach up and contact Infinity and draw forth from the Infinite whatever intensifying, special Activity you require to produce Perfection in yourselves and your world. This is all contained in the First Commandment that has been given to mankind: "Thou shalt have no other gods before Me"; and if mankind understood a millionth part of what that Statement meant, they could not remain in the condition they are in the outer world. When you understand that there is a Powerhouse of the Universe through that Heart Flame in yourself—you came forth from the Great Central Sun, and without that you would cease to be—you can understand how important It is to you, and how you can, by recognition of It, draw Its greater Powers into outer manifestation to bless yourselves and your fellowman.

Now let Us take one Quality. Suppose We take Freedom. When things become uncomfortable, you know, for the outer self, it begins to wildly want Freedom, and very rarely gives It to anyone

else; and so it doesn't let that Quality—the Quality of Freedom within the Heart Flame—have any chance in the atmosphere about you. But if you want Freedom, and you send your own Heart's Flame of Love to your "Mighty I AM Presence" and Beloved Saint Germain and others of the Ascended Host, and you send Love there, asking that the Sacred Fire of Eternal Freedom come in and around you and bless you—if you ask that Blessing, Life, the Greater Life above you, cannot refuse you.

I wish you would experiment with this. If you will try it a few times until you become aware of Its Answer, and then you watch to see how much more Freedom comes into your affairs as well as into yourselves, then you can enter into more concentrated action and drawing forth of other Powers that you wish to use in the outer world. And since the Gods of the Mountains are the Balancing, Controlling Energy of every continent on the Earth, many Blessings will come to you as you understand how to send your own Heart's Flame of Love to your "Mighty I AM Presence" first, and then to any one, or all of Us, and draw back into yourselves or into your Nation the Powers of

Perfection and the Freedom of the Sacred Fire from the Heart Flame of each of the Gods of the Mountains.

The Mountain Ranges are the concentrated Power of Electronic Currents and Magnetic Currents which are the Radiation of the Sacred Fire from the Physical Sun and the Great Central Sun. These are located in the Mountain Ranges of the world, and that is why mankind has not been able to conquer the Forces in the Mountain Ranges of the world. An occasional individual attempts to scale the heights sometimes, but none of mankind can master or control the Magnetic and Electronic Currents in the Mountain Ranges of the world.

That's something to think about; for since the great Currents of Life pour forth through those Mountain Ranges to bless the Earth and mankind, anyone who will practice sending his or her Heart's Flame to the "Mighty I AM Presence"—and then to the Great Beings who dwell within and direct and control the Electronic Force and Magnetic Currents in the Mountain Ranges of the world—will draw many wonderful Activities into his or her outer use, as you know what that Love will bring back to you. Mankind, not understanding

that We exist and not understanding what We do to bless the world, do not reach up and help to draw back to themselves that which We can give them to assist them; but you who understand Our Presence and know of Our Existence can have tremendous Blessing if you will do this.

Now there is a very great reason why the Mountain Ranges of the world are the Guardians of the Power of Purity, because they are less disturbed by mankind's mental and feeling world than any other portion of the Earth. So they are like Radiating Centers from which constantly goes forth Purifying Power to the Earth, into the structure of Earth itself. And then Its Radiation flows forth into the atmosphere of Earth to bless mankind with greater opportunity to be purified and set Free.

"I AM" a Champion, if you do not mind, of the Gods of the Mountains (*applause*)—thank you—since that is where I render My Service to the Earth. And there are many wonderful Miracles in the Mountains of the world, far more than mankind ever dream; and each Focus of Power held within the Mountain Ranges of the world has been placed there by the Cosmic Beings who govern this whole System to control the rest of

the Earth. And the Electronic Force from the Mountain Ranges has a very definite effect upon the Water Element of the world as well as the Elements of the Air and the Earth. I just bring this to your attention because, if you'll learn once by your own experience what you can draw back into your outer use by your feeling of Love to the Heart Flame of the Beings who give their Blessings to this Earth, you will draw back those Blessings individually into you and your world infinitely greater—through the Love that comes back to you—than you can understand until you begin to practice this.

Your Love to your “Mighty I AM Presence” draws back instantly more of Its Heart Flame in and around you and into your affairs: Your Love to the Ascended Masters and Cosmic Beings draws back the Power of Their Heart Flame into you and your world; and therefore, you can draw these magnificent Blessings of Life's Perfection from the Life that is greater than the Life in mankind until that Greater Flame, coming back into you, makes you greater also.

And if people understood what they could have by intense Love and Devotion to the “Mighty I AM Presence” and the Ascended Host, this world would

be filled with the Perfection from the Ascended Masters' Octave. Mankind goes to great length to explore certain things when their curiosity drives them on; but I say to you, you will have infinitely more Illumination and infinitely greater Blessing through your intense Love sent to your "Mighty I AM Presence" and the Ascended Host than you will ever attain through curiosity or what the world calls "research."

So, Beloved Ones, tonight "I AM" going to give you a very deep secret. (*applause*) Thank you, Precious Ones. You call with all your Heart's Love and intensity to your own "Mighty I AM Presence" and the Beings in the Great Central Sun with your Decree to make the outer self all the Illumining Love and All-knowing Power of the Heart Flame of Life which you had in the Great Central Sun before the world was, and you will call forth into your outer use some of the secret Powers and magnificent Blessings that Love alone bestows—and that Wisdom ever guards in the use of mankind until that Love takes Its Dominion in the outer self.

You had this Knowledge, Beloved Ones, of what the Sacred Fire in the Great Central Sun does in Manifestation of the Universe. You were

part of that before you individualized. Therefore, when you call It forth now through Love into yourselves and your world, you will begin to know what Miracles mean, and you will begin to experience the Blessing that only that Love can give. I want you to try this, because We want you to have many things that, as yet, We cannot bring to the outer world until greater Purification takes place; but you may have the use of some of these greater Powers while the rest of mankind is being purified. You see, you're twenty years ahead of the rest of the Purification of the Earth. (*applause*) Thank you, Precious Ones.

And that might represent twenty centuries so far as the advancement of the rest of mankind is concerned if you send Love intense enough to your "Mighty I AM Presence" and to the Heart Flame of any one or more of the Ascended Host, and to the Heart Flame in the Great Central Sun, and ask It to make the outer self of you and your world all the Glory and Power of the Love of the Sacred Fire in the Great Central Sun which you had before this world was created.

We have many Blessings and Gifts in the Himalayan Mountains. There are many Blessings that We have guarded for centuries in the land of

India, the Land of My Heart; for I guard India as Beloved Saint Germain guards America. And until you have loved mankind as long as We have and offered them the right to Freedom, you do not understand how much you want Life to be free from distress. And since "I AM" the Guardian of the Gifts and the Powers of Nature in the Himalayan Range, you would be surprised what My Heart Flame could give to you—if you love Me. (*applause—audience rising*) Thank you, Precious Ones. Won't you be seated, please.

Now when We meet within the Blessing and the Illumining Presence of the Unfed Flame in the Heart, there will come release to the outer self of those greater Powers from the Higher Mental Body as well as from the Ascended Host. And then as you use those Powers in outer action, your world becomes the World of that Sacred Fire; and while you use perfectly natural power, the world will call it "supernatural."

You know, they're using the word, Precious Ones, "super" so much as a slang phrase, you know, in the outer world. Little do they understand what they draw when they use that word. "Super" means above, doesn't it? All right. Only Blessings come from above mankind's consciousness. So

in the Heart of the Himalayas there is a Focus of the Unfed Flame—the Heart Flame—and if you care to draw the Blessings of the Heart Flame in the Himalayas in and around yourselves to bless America, then I can do certain things for you, and America, too.

And when some years ago We drew that Golden Snow over America to bring a blending of the mental and feeling world between America and India in the individualized Life Streams embodying in both nations, it was that this Illumination might come and mankind be blessed thereby. So now in your calling forth from the Great Central Sun—and the Heart Flame in every one of the Mountain Ranges of the world—to release the Blessings of the Sacred Fire, I think you will not only render great assistance to your Nation, but you will draw into yourselves much Strength and much, much Blessing that you will only know as It comes into your outer use and you use It.

Now you might say, or those of the outer world would say to Me, “Well, we don’t know You. How can we love You?” I can say to you, if you do this which I explained, I can give you the Gift; and the Gift should be the proof that the Giver does exist. You can’t have a Gift without a Giver.

If you choose to experiment with this and prove Me, I will be glad to have you take Me at My Word, because there are certain Forces in India that are trying to guard against the communistic viciousness of the world, and there are Forces in America trying to guard against that same viciousness.

So if you recognize the Power in the Heart Flame—now use the word “Power” of the Heart Flame—of the Himalayas, the “Power” of the Heart Flame in the Mountain Ranges of your Land, you will find those of Us who guard the Activities in the Mountain Ranges can draw individual Power and Blessings from many of the Retreats of the world into you and into your affairs just as a natural improvement of everything you do and everything with which you come in contact. And it will be like the Sun coming out through the clouds until those clouds are dissolved and consumed. And so it can be with you. You can be a Sun Presence of the Power of the Heart Flame from the Gods of the Mountains. I would like you to experiment with that Call to reveal to you what It means, that I may give you a Surprise that will bless you forever; for My Surprises are all comfortable. (*applause*)

Beloved Ones, since We hold a great deal of the Purifying Power to the Earth under Our Control, as you have sent forth your Calls for the Purification of mankind, this is one channel through which your Decrees can be answered; and as you call for that Release to mankind, automatically, you release yourself.

So We are happy to go forth until you feel yourselves, through your own Heart's Flame, One with the Heart Flame of those of Us who guard the Mountain Ranges, until you draw back into your outer use as much as you require from time to time of the Blessings Life has placed under Our Control, and which We are glad to give into your use, so long as they are called forth by the Love of mankind for their Freedom.

I enfold you tonight in all the Blessings of the Mountain Range over which "I AM" the Master. May the Wonders, the Miracles, and the Marvels untold that abide within the Himalayas begin to pour into your beings and worlds that Power of the Sacred Fire which raises you to your greater and greater Power of Freedom, that you may give to the Nation of your Heart more Love to set It Free.

So, Blessed Ones, "I AM" One with your Hearts' Flame in more ways than you know; for some of you have dwelt within My Domain in the centuries past, and there is a memory within you of some of these Magnificent Powers you have used before. Now may Their Blazing Love and Blessings for the Freedom of your Nation come to your assistance to assist your Beloved Saint Germain until America, purified, arises and gives Her Blessing of Freedom to the Earth.

I enfold you in My Heart's Flame of every Assistance that My Love can bestow until you meet Me face to face. Thank you, for that will come. The hour does approach. It is part of the Divine Plan; and I assure you, it will be a great Joy for Us all. Thank you and good night.

Beloved Ones of the Mighty Saint Germain's Family, it is with great Joy that We come again to, I trust, enable you to look deeper into the Heart Secrets of Nature, and to have the Blessing of those Secrets as time goes on. That you may understand something more of the Activities of the Gods of the Mountains, I wish you to know that They represent to each continent what the spine does to the human body. They are the supporting structure of the landed surface of each continent, and therefore We hold under Our Control Forces and Blessings and Activities of the Powers of Nature of which mankind as yet knows absolutely nothing.

And as I have said before, in My Retreat in the Rockies there are Manifestations of Beauty

and the Perfection upon which human eyes have never yet looked, but which will one day be revealed to the people of the outer world as they move forward demanding greater Purity and demanding Obedience in the Fulfillment of the Great Divine Plan.

Now why do you suppose the Great Cosmic Law has guarded those Activities in the Mountain Ranges with such great care that mankind has never been able to penetrate them? Because the Forces that are sealed within the Mountain Ranges of the world are of such high potential, such Mighty Cosmic Power, and of such wonderful Victorious Action of the Sacred Fire, that mankind cannot be entrusted with their greater use until such time as the cleansing of the world takes place and those who are here turn only to the Light and serve only the Great Divine Plan of Life.

But until then, as you enter into the recognition of the Powers held within the Mountain Ranges of the world, you may have Their Blessing. You may have in concentrated action many of the Streams of Energy and some of the Substance that We are pouring forth all the time in Cosmic Action and which, individually, We can direct into your use.

So, Beloved Ones, in the Blessings that the “Mighty I AM Presence” and the Ascended Host have bestowed upon mankind on this planet, the Love and the Power which have been used to create and anchor here those Blessings from the Physical Sun and the Great Central Sun is tremendous. Mankind has no comprehension of what Power it has taken to create the Mountain Ranges, and place within them those Activities that hold the structure of the Earth in balanced action, and which give off continual Radiation to keep purified the atmosphere of Earth, so mankind can go forward and make conscious effort toward their Freedom and the Fulfillment of the Great Divine Plan.

The magnificent Blessings that are in the Himalayan Range are indescribable in words that you understand, and I can say almost the same thing for the Rocky Mountain Range in America. The same thing is true in the Andes of South America, and there are other places in the world where great Blessings and Powers are held in Guarded Control under Our complete Protection as They render Their Service to the rest of Life.

So, Precious Ones, the “Great God Presence” of Life has placed in this world Infinite Blessings

for the mankind who pass this way. And so whenever you contact the Mountain Ranges, if you really want to experience what the answer to your Love will be, I say to you, send your Love to the Mountains and ask your "Mighty I AM Presence" to bless those Mountains with all of Its Love for all the Blessing they give to the people of Earth. This will open certain Doors for individual Blessings to come to you that perhaps cannot come as quickly to the rest of mankind until they, too, give Conscious Recognition to the Powers and the Blessings of the Mountain Ranges.

There is a constant Purifying Radiation going forth into the atmosphere of Earth from the Purity in the tops of the Mountain Ranges, and even from deep within the structure of the Earth, as the Substance that is placed there continues to pour forth Its Life-giving Essence and Purity and Blessing to the mankind of this world. The "Great God Presence" of Life in Its ever-expanding Love has offered such Beauty, such Power, such Healing, and such Love through those channels that anyone can have—if he or she will but give attention to those Blessings and send forth the Love to those channels that open

the way for greater and greater Release to the individual. But remember this: No matter what you require, no matter what you desire of good, if you will send your "Mighty I AM Presence" your Love, and your Love to the channel from whence you want that good, that intense Love and Desire poured forth by the individual has to be answered by the Cosmic Law, because that is the Law of Life.

When the Demand through Love goes forth to the Greater Life, then the greater Blessings come forth to the life that makes that Demand. And when you understand that greater and greater Love to your "Mighty I AM Presence" and the Ascended Host thins the veil between the outer self and Their Visible, Tangible Presence, you will realize that to associate with Us as you do with each other depends upon your Expansion of the Flame of Love in your own Heart—because every time you command your Love to go up and enfold your "Mighty I AM Presence," the Unfed Flame in your Heart does expand. And that Expansion is Eternal. It never recedes.

So every wave of Love that you send to your "Mighty I AM Presence" makes the Power of Its Sacred Fire in you grow greater. Therefore,

Its Power to control conditions around you ever grows greater as you offer It to your "Mighty I AM Presence" or the Ascended Host. And under the Action of the Sacred Fire, every wave of Love that you send to your "Mighty I AM Presence" draws back an Action of the Great Central Sun Magnet's Love from the Central Sun which your "Mighty I AM Presence" uses to enfold you. So the great continuous flow, Blessed Ones, of these Activities of the Sacred Fire, ever and forever throughout Infinity brings you back the greater Blessings from Realms of Light infinitely greater than this world.

In your experiment of drawing back into yourselves the Strength of the Mountains by your Love to the Mountains first, will you find that Electrical Current charging back to you as visible and as tangible as if you held a high-powered electrical wire in your hand. High-powered current would have no more energy in it, in fact not as much, and it couldn't be any more tangible than the Answer of the Great Beings who control the Mountain Ranges of the world to your Heart's Love and Blessing to Life.

People do not yet understand the Power of Blessing in the sincere Desire of the outer self

to send forth the Flame of God's Heart to bless and bless and bless with God's Love all that you contact. So We are awaiting the hour when mankind's love to the Mountain Ranges of the world builds to the point where We may open the Heart of Nature, reveal the Beauty and the Action of some of these Powers that are forever the Perfection intended for this world.

Now "I AM" going to say something—and don't let anybody tell you that from the physical side they have the same thing. There are in the Mountain Ranges of the world—in the Ascended Masters' Retreats that are controlled completely by Ascended Masters—there are many Focuses and Activities of the Sacred Fire in constant Manifestation. That Sacred Fire burns within those Retreats as surely as this electric light lights your room. There are many Focuses of the Sacred Fire held for centuries in the Retreats of the world, and those Retreats are in the Mountain Ranges. Those are the Activities whose Radiating Purity goes forth and controls the conditions in Nature and in the atmosphere of Earth that enable mankind to make further effort toward their Freedom and to give them the greater Strength and the Blessing to make that effort.

There are many Retreats throughout the world. In fact, in every country there are some; and within every country is a Focus of the Sacred Fire which is the Guarding Presence of that nation or that country. And that is entirely under the Control of the Ascended Host. No unascended being has any control over that, and no one can ever go to those Retreats in the physical body except by the Ascended Masters' Escort and Invitation of the Ascended Master who is in charge of each Retreat. So don't listen to a lot of silly nonsense in the outer world by people who are simply lying.

These Sacred Focuses of the Sacred Power—the Sacred Fire in these places—have been drawn there by the Mighty Helios and the other Cosmic Beings who govern the Fire Element to this world. Therefore They are established by Cosmic Authority. They are controlled continually through the centuries by Cosmic Authority, and They are protected by the Powers in the Mountain Ranges that mankind can never master until individuals become Ascended.

Therefore, as the Purification of the world takes place, many of these Activities will be intensified. After They have rendered Their Service, mankind will be taught more of Their Power to control

physical manifestation and to assist the Powers of Nature to release greater Blessings for mankind's use. So Life, the "Beloved Mighty I AM Presence," has blessed the beings of this world infinitely with all the hidden Powers and Secrets and Blessing in the Mountain Ranges of the world. Each Mountain Range holds certain Activities that are definitely the Controlling Power for that portion of the Earth's surface; and with that, none of mankind will interfere, I assure you, regardless of all their invention.

There are Forces in Nature of which mankind knows absolutely nothing any more than a lamp post (*laughter*), and some of those Powers come under My Direction. And They are all controlled by Cosmic Beings who know what They're doing. I simply come to bring this to your attention, that you may draw back to yourselves, if you so desire, through your own Love, offered first to your "Mighty I AM Presence," and the Mountain Ranges of the world—that the Blessings that the "Mighty I AM Presence" in the Great Central Sun has placed within those Mountain Ranges may pour forth that Radiation to you that makes you strong to stand against the turmoil in the atmosphere about you.

So I simply come to remind you again of a Blessing you may have, and a Power that is offered when you understand what a Scepter of Dominion your Flame of Love from your Heart is to your "Mighty I AM Presence"—is to Us, is to the Mountain Ranges of the world, and It is to the Powers of Nature, to the Forces of the Elements. You may have such Blessings, long before your Ascension, as mankind has not yet dreamed are within the Mountain Ranges of this world.

So, Blessed Ones, if I, too, may call you "My Family of the Mountains," I trust one day when We meet, I will give you an experience you will never forget in all Eternity; for you shall see the Handiwork of the Beings who are wholly Pure, wholly Divine, and whose Love creates only the most magnificent Beauty within the Mountain Ranges, and held guarded there until the Blessing can go forth that one day beautifies the world.

So may you dream about the Mountain Ranges and contemplate them and then ask your "Mighty I AM Presence" and Us to tell you the Ascended Masters' Truth of all the Blessing and all the Powers held within the Mountain Ranges of the world that can come into your outer use to bless you, that you may send that Blessing to the rest

of Life, and thus cooperate with the Great Divine Plan as It spreads Its Beauty, as It gives Its Love, and as It reveals Its Power through those channels that are the secrets of Nature and held within the Great Creative Heart of God, the "Mighty I AM Presence." And My Love then enfolds you as a Guarding Presence; and the Blessings that I hold under My Custody in the Mountain Ranges of this continent, especially the Rockies, can I pour to you—the Blessings that only Love can bestow.

I shall love to fill your world with those Blessings to bring you Joy for Eternity and make you strong enough to pour that Blessing to the rest of Life wherever you abide. I can draw those Powers from all the Mountain Ranges of the North American continent and converge Them to any particular Service that blesses mankind with greater Freedom, greater Illumination, and the great Fulfillment of the Divine Plan for the Earth itself. So I enfold you in the Magic Powers of My Love, and may you dwell within Them until you know all They can do for Life everywhere. Thank you with all My Heart.

BELOVED GOD TABOR

Record CD 374

Beloved Family of the Mountains, once again it is Our great Privilege and Joy to be with you—and to hope and to invite you—to hope that you will come to Our Domain of the Mountains as often as you can; for, I assure you, the Mountain Ranges of the world are the Guardians of the concentrated Power of Purity drawn by the Great Cosmic Beings who have created this world, and held in reserve in those places to continually pour forth that which helps to purify mankind until individuals have completed their journey in this world, and come into the Ascension as is the Fulfillment of the Divine Plan.

Tonight I wish to remind you that it is within the Mountain Ranges of the world that so often the Ascension takes place—not always, but

almost always. Wherever individuals are drawn into the Retreats of the world to complete the preparation for the Ascension, the Final Victory is attained somewhere near the Mountain Ranges of the world. So I hope the Mountains will mean something more to you from tonight than they ever have before, because they are the Guardians of those Powers of Purity which enable the great Powers of Nature to continually go on and supply their Blessings to mankind for the outer activities that are drawn forth.

Now in the use of the Great Cosmic Power of the Sacred Fire, in order to assist mankind, in the various places in the Mountain Ranges of the world that are the Retreats of the Ascended Masters, there is always, within every Retreat, an intense Focus of the Sacred Fire and the Purity in the surrounding Mountains. The mountainous area is the Guardian of the Power within that Sacred Fire. If it were not so, Beloved Ones, the cohesive power of the planet would have been interfered with by mankind's discord, and has been at times in the past so seriously interfered with, that Cosmic Assistance has had to come and undo some of the frightful things that were imposed upon Life.

Now those of you who understand this Law have an opportunity that the rest of mankind does not have nor understand; for in your use of the Power of the Mountains, It is always a Purifying Stream of Energy that is constantly flowing forth to keep the atmosphere purified, and to enter into the mental and feeling world of mankind as well. So when I called you the "Family of the Mountains," it is that you may more deeply realize that your home in the mountains can be a Focus of very great Power to bless you, your world, and your affairs. And it can become a Powerhouse from which you draw Strength and Energy into yourselves, periodically, and then return to the outer world to render your service.

There are many places right in this Beloved Land that is the Heart of the World where the Sacred Fire is held within the Mountain Ranges; and I assure you, that Sacred Fire will remain Sacred, will remain there, be untouched by anything that mankind invents. Now is that indicative of Protection to you or not? (*applause*) Thank you so much, Precious Ones. We have established these Activities of the Sacred Fire within the various Mountain Ranges of the world

to compel safety to the structure of Earth itself. And the Power of the Sacred Fire within the Mountains is the same Strength to the structure of the Earth that pillars, your steel pillars, are to your modern skyscrapers. So if you choose to come within the Mountain Ranges of this Nation and there abide for a time in the silence and the Power of their Purity, you can but feel the intensifying Strength and victorious Power of accomplishment after you're there a short while. And there are certain things We can do for you while you are in that stillness and Purity of the Mountains that We never do anywhere except within the Mountains.

It doesn't mean necessarily that you must go hiking all over mountains in order to gain this of which I speak; but if you are near the mountains and you still the outer enough to send your Love to the Powers of the Sacred Fire within the Mountain, that Love will draw back to you the Blessings that are there. Now those Blessings may come to you in perfectly natural channels of the outer world, but the Power that begins to draw them into your outer use abides within the Mountains. And your "Mighty I AM Presence" and the Ascended Host—when your Love goes

to those magnificent Manifestations of Nature, they are so tremendous in the Power that is held within them, that when your Love connects with that, It can move everything in the outer world and draw to you the Blessings that your "Mighty I AM Presence" now wants to release into your outer use, that you may expand those Blessings for the benefit of the rest of the world.

So, Dear Ones, "I AM" very, very much concerned with giving you the Blessing of My Retreat, because at a certain time after world events have settled down permanently, the Palace of Beauty and Perfection—which It is My privilege to guard—I wish to reveal for the enjoyment of the mankind who are to come the way of Earth in the future. So while "I AM" guarding those Manifestations now, yet when your thought comes to Me and I feel your Love for the Mountains, the Radiation and the Blessing of that which I hold under My Protection can flow back to you and your world; and It is a Magnetic Power that draws from the outer world greater Blessings to you. So It has many, many Activities to bless you because of Its Purity.

If people only understood what Power can be theirs by demanding Invincible Purity in

everything in their beings and worlds, you would open the Floodgates to such an Onrush of the Blessings that God has created that you would step from your world into Ours almost overnight. I tell you, Dear Hearts, no matter what takes place in the outer world, keep up your Calls for such Invincible Purity and such Power of the Mountains to strengthen and guard that Purity, that We can draw into you and your world boundless Blessings of which you can be the dispensers in the future—Blessings that mankind has never yet used in the outer world. And yet those Blessings are here on the Earth.

Of course, We are the Guardians; but you whom We love, as your Love comes to Us at a certain time, are going to be given the use and the enjoyment of those Blessings, because at a certain time they must come into the outer use of mankind. We have been their Creators. We are their Guardians, and We can give them to you as Our Gifts if you demand Invincible Purity in everything in your beings and worlds. When We find that that has become Invincible in and around you, then the Floodgates open; and We will not delay trusting you with Our Hearts' Treasures and Blessings and Wonders of Life.

All that it takes is the Invincible Purity of the outer self. So, Dear Ones, as you demand this in the midst of the outer world's conditions, you are forging ahead, cutting through the limitations of the outer world; and just as sure as you stay with that will you arrive at the Fulfillment of your every Heart's Desire. And may I say, We have many surprises for you that contain only the most wonderful Miracles and Joy and Freedom that you could possibly even dream of in your wildest imagination—or your greatest imagination—for the mountains might seem wild, but not inside.

We do so want to bring these Blessings into the outer world, that mankind may live in Our World of Perfection. So, Blessed Ones, "I AM" going to try to come more frequently, be with you more powerfully, that I may bring you more of the Blessings it is My privilege to bestow. (*applause—audience rising*) Thank you, Precious Ones. Won't you be seated, please.

Now maybe you can plan your next summer's vacation to be somewhere near the mountains, because, Beloved Ones, there is Health and Strength you can absorb from the Mountains that you will not find anywhere else on the Earth. And that is because the Sacred Fire is focused

and guarded there and has a Power entirely Its Own. The intense Purity of the atmosphere in a Mountain Range enables the individual who stays within that for a while to be completely reattuned, and the emotional bodies are kept quiet until the Pure Light Substance comes into the body and redeems it.

So We have many Gifts to give besides just the pleasure of contemplating the gigantic Handiwork of the Great Beings who have created this world. When you see something so gigantic, you must know, Beloved Ones, that the Great Law of Life has used gigantic Power to create it; and that Power comes only from a Cosmic Love so great that it is safe to use that kind of Power anywhere in the Universe.

I want you to visit with Me tonight in the Mountains—is the reason “I AM” describing these things to you; for where your thought is, there you are, and what your attention is upon, you become. So I want you to be a Mountain of the Strength and Purity and Health and Blessings in the Mountain Ranges which is My privilege to guard, to love, and to expand My Cosmic Power through their mighty Gifts and outpouring to Life. And the Beings of Nature who dwell within

them—some of Them are the most beautiful you could ever behold. So you see, there are secrets about the Mountains and the Beings within the Mountains of which mankind knows nothing, or at least very little.

So, Blessed Ones, I trust I may give you of My Treasure House. Every time your Love comes to Me, I shall seek a Treasure and release It and send It back to you. I hope you will be alert and recognize It and receive It, let It into your world, that your world may be a part of My World until together We go forward and help to redeem the Earth. (*applause*) Thank you, Precious Ones.

As you love the Mountains enough, your Love will draw back to you the greater Love that has created them. It is no wonder that you can have Health and Strength and Happiness and Peace from the gigantic Mountains Ranges of this world. Each of Us who is a God of the Mountains is a Guardian of a certain proportion of the Power and Wealth and Blessings of this world. We are Custodians of the Great Lord the Maha Chohan's magnificent Treasure House. We are the Guardians of His Love and are the Beings who serve Him. And so if you care to join Our Family of the Mountains, I hope it will not be too long until

some of these Beings can be revealed to you. And when you see Them, you cannot help but love Them; and your Love to Them will draw back to you the Gifts that Their Love bestows.

I am not talking in riddles. It might sound like it, but if you'll think deeply on this, you will come closer to Us; and what your attention is upon, you draw into your world. So if you think of Us enough, We will become associated with you in your world. If you think upon the Blessings that are held within the Mountain Ranges, your Love to them will draw them into your world and draw you into their world. So you cannot lose. It is impossible not to receive back into yourselves and your world the Blessings of that upon which your attention rests. In the Powers of the Mountain Ranges of the world there are ways and means of accomplishment that will delight you greatly and will always bring you ease and comfort and peace.

So if you care to turn your attention just in a great outpouring of Love to the Mountain Ranges of the world, I would like you to experiment with that, that We may show you what comes back to you from the Mountains—Blessings and Gifts which only the Mountains can bestow. But your

Love to those Mountain Ranges is required to open the Door and let there flood back to you the Gifts that God has provided for you there. I'm still not talking in riddles.

Just accept Our Love tonight and let Us feel close to you, that We may bring into your world the Joy, the Beauty, the Perfection, and the Power that is in Ours; for surely your world needs It and you need It. And It will lift you up and above the conditions of strain and struggle under which you have been in the past. So just think of Us once in a while, just once in a while (*laughter*); and let Us show you what We can send back to you as your thought comes to Us. And if you care to bless the Domain of the Mountains which is Ours, It can but bring you back Its own Blessings.

I commend you to an experiment with the Blessings that the Mountain Ranges hold in their hearts, and yet are willing to give to all who open the way through Love to the Mountains, until the Floodgates open and all the Blessings that have been stored there surge now to serve you and bless you and lift you to their great Freedom for Eternity.

I shall do everything that Love can bestow to give back to you all the Blessings of which

"I AM" Custodian. May you feel them flood into your world until you behold the change that has come; and it has all been the result of the Sacred Fire focused in those Mountain Ranges to produce the things and the Beauty and the Perfection that brings you Happiness and Freedom and the Fulfillment of the Great Divine Plan.

My Love ever awaits an opportunity to pour to you and your world My Boundless Blessings, and there is Music in the Mountain Ranges that I hope one day you will hear. Thank you with all My Heart.

DISCOURSE XI

BELOVED GOD OF THE SWISS ALPS

December 6, 1956

Chicago, Illinois

Record CD 383

Beloved Ones of the Land of Freedom, Beloved Ones of the Heart of the World, Beloved Ones of the Fiery Heart of the "Beloved Mighty I AM Presence," tonight in the Outpouring which is coming forth from Heights of Perfection inconceivable to the human intellect, there is constantly approaching, constantly surging, constantly expanding one Activity after another of the Sacred Fire whose Presence must come into outer physical conditions and compel mankind to awaken from the shadows of their own creation, and to compel individuals to face the Light of Cosmic Christ Control of all in this System of Worlds.

As the Cosmic Light passes through the entire System, as the Sacred Fire increases all

Activity of Life within the System, I assure you, human creation must be forced to be annihilated. The onrushing Sacred Fire in Cosmic Action is compelling certain changes to be brought about in the structure of Earth itself and in the structure of the mental and feeling world of the masses of the people everywhere. So every time evil seems to be on the increase, the Expansion of the Sacred Fire and Cosmic Light are on the increase also. And since They are an Eternal Action of the Perfection of Life, then the hour strikes when Their increasing momentum swallows up that which has been of human darkness and that which has caused such distress to life.

In the conditions of the outer world which are seeking to torture life again, certain things are converging to a bursting point. And if, with your Calls and Our Release of the Sacred Fire, We can combine the Concentration of the Sacred Fire rapidly enough in and around that which is constructive, much that was intended of frightful destruction not only will be prevented, but in certain channels it will be removed rapidly enough for the Cosmic Christ to take control where before It seemed not to be handling situations at the present time.

Know this always: Whenever there is an effort to stand to God and call forth the God Help to the masses of the people of the world, that Call has to be answered regardless of all karmic accumulation. I bring you that Reminder tonight, that you may understand that when distressing conditions reach a certain intensity, the very Desire in the people to be free from those conditions forces the attention to be held upon the "Great God Presence" of Life with determination to have God's Help to release individuals from their own frightful creation.

So when sometimes the outer world conditions appear to be so frightful from the outer standpoint, yet, from the Inner Activity of Life, it is compelling the Desire within individuals to reach up and desire God, desire God's Help, and with fierce determination, desire the Release of that which masters the evil forces of this world. And when that reaches a certain momentum, I assure you, those forces will be compelled to be bound within their own cause until their evil annihilates itself by its own explosion. When you force destructive conditions back into their own center, the very intensity of the pressure causes the explosion that shatters

and annihilates their evil, because it generates a certain electronic pressure of that Electronic Force which is the energy by which those destructive conditions act, and as that pressure is increased, it forces the consuming of the evil.

While I know sometimes evil seems a long time consuming itself, yet, in the end, it has to fail and be consumed. So in your use of these various Activities of the Sacred Fire when distressing conditions come to your attention in the outer world, try to always hold the picture of the Cosmic Focus of these Activities of the Sacred Fire going forth instantly into the condition; and you hold the picture of the destructive conditions completely annihilated and a Sun Presence of the Sacred Fire take its place. It is to gather the Power from all of you together, by doing this, that We watch constantly for Its combined action, that We may lift a certain amount of your energy into these Activities of the Sacred Fire, and project Them where They will protect that which is of God.

Now the Gods of the Mountains have plenty of Power of the Sacred Fire and the Electronic Force of Eternal Purity, I assure you. But mankind has generated such destruction by

selfishness and defiance and rebellion against the Law of Perfection down through the ages, that there has to come a certain release of a certain amount of energy—through the Desire of individuals for God Assistance in these outer world conditions—that We have to wait until that momentum reaches a certain point. Otherwise, My Dear Ones, We would long ago have flashed the Sacred Fire necessary into mankind to take out of them their destructive impulses. But the Cosmic Law does not permit Us to remove their penalty when there is no desire within to stop their evil. Otherwise We would never permit such frightful conditions to go on in the outer world activities.

When We let certain forces spend their pressure of destruction, it is because We may remove by that all of their accumulation in one stroke. The Cosmic Law makes no mistakes, I assure you. The Sacred Fire cannot produce anything but Invincible Perfection. And therefore as you hold closer and closer into these Activities, and you command Them to go forth and consume mankind's evil, that is like a Light coming through you, expanding and reaching into the mental and feeling world of

the rest of mankind. That awakens constructive Desires within the masses of the people; and as that Desire awakens, It becomes a Light within individuals that reaches up to God as they understand It, and asks for God's Help to free life from human creation. So this Cosmic Law goes on in Its Almighty Control of individuals everywhere.

Now there are certain Life Streams whose accumulation of evil has been of very long duration; but each one is being tested out to its final strength; and as the Cosmic Light increases and the Sacred Fire expands throughout the world, either those Life Streams let go of their evil or they are taken out of the body with the evil until that evil is consumed. And they must do certain things themselves to help consume it because they built it.

So you have everything in the world to be encouraged about in your use of these Mighty Calls to the Heart of Creation for the Master Power of the Universe to be set into action in physical conditions and to force the Purification of the world. And thank you forever for that assistance from tonight. (*applause*) Thank you so much, Precious Ones.

You will never know until you are Ascended—until We show you what is in the etheric atmosphere of this world, you could not believe unless you saw it, what is released through your Decrees. That is why We come constantly to encourage you, to assure you of Our Presence, to give you Our Help, to hold Protection about you, that you may go on and render your maximum service while there is yet time.

So “I AM” here to express My Love and Gratitude to you for the releasing into the world—through your Calls—of the Sacred Fire that We can use in the various Activities with which Our Service is concerned. When your release comes to a certain point, when its power reaches a certain expansion, then the Cosmic Beings who govern the System of Worlds blaze into that which you have released the final amount of Cosmic Fire to go forth and finish the Work of removing from this world the human creation that has caused such frightful distress to life.

Keep demanding the forced Purification by all the Sacred Fire necessary to act instantly in and around yourselves. And then wherever you abide, whatever you contact, just keep demanding that the Sacred Fire compel Purification at

your Command. I want you to have Faith in yourselves so great that in the intense feeling of the Fulfillment of your Calls, the Light and the Sacred Fire can flash instantly into conditions and more quickly remove them both from your activities and the rest of the world.

Try to remember, Life is the only thing any individual in the Universe has with which to do anything, good or bad; and, therefore, you are Life. You have the Sacred Fire of Life to use. You have the Cosmic Power of the Sacred Fire by your Desire, by your Attention, by your Call. And if you remember that Faith is the feeling of Light, I say to you, Mastery is the use of the Sacred Fire into everything you contact. Then your world becomes the World of the Sacred Fire in which only Perfection can exist.

I shall hold your attention to the acceptance of that until the Fullness of Its Power reveals to you, inside of yourselves, the Perfection which is yours by Divine Right, and the Power you have to use the Sacred Fire to correct everything that is wrong. And I shall keep you reminded until your Victory is Eternal. (*applause—audience rising*) Thank you, Precious Ones. Won't you be seated, please, and just remain so.

I will not hold you longer. I just want to assure you that your constant use of the Sacred Fire is watched by every one of Us; and to every Flame for which you call, We add infinitely more to join yours until the mass momentum reaches the point where it overwhelms the hordes of evil, and they are compelled to roll back and be bound by the Cosmic Law that dissolves them from the Universe. Every Life Stream must be stripped of every destructive impulse; and when those destructive creations are taken away from each Life Stream and consumed from the Universe, then the awakening of the outer self to the Authority and Power of the Sacred Fire brings the forward advance on the Pathway of Light that compels the Mighty Victory of the "I AM Presence" to move into outer action and control all.

Now We are guarding certain forces in Europe, Beloved Ones, for the Protection of that which is constructive; and the Radiation that it is Our privilege to draw forth continues to penetrate everything regardless of outer world appearances. And this I can assure you: Some—and I mean a great many—destructive channels are not nearly so sure of themselves as they were a few months

ago; and as time goes on, they will be less so. Much of their contemplated plans—many of those plans have gone awry; and as your Commands to Life are sent into the atmosphere of Earth, they will continue to expand until every destructive thing is forced into Annihilation.

So while you might seem only a handful of people compared to the masses on the Earth, yet, as the Sacred Fire blazes in, through, and around you, as It goes on in Its ever-expanding Cosmic Pressure and Power, It fulfills the Great Divine Plan, and nothing can prevent It. So be of good cheer! Go on with the Expansion of the Sacred Fire, and demand Its Invincible Victory everywhere. Send It forth throughout the world to enfold all who are trying to hold to God, trying to protect the constructive things and ways of Life, and send forth that Sacred Fire that protects and strengthens and helps them to Victory. You cannot give that to every Life Stream on the Earth without manifesting It yourselves. It is your easiest, quickest way to Freedom—is to demand It, and give It to every Life Stream regardless of the appearance world tonight.

You are not in embodiment at this time by any chance. You are in the transition period

because you have the Strength and the Power of the Light to give assistance, and the greatest help you can give to all Life is to continually seal It in great Blazing Suns of Its Victorious Control of everything. And as that goes on, you will find your own world the World of that Sacred Fire automatically controlling things in you and your world that need controlling.

Blessed Ones, weary not of well doing; but go on with the feeling inside of you that you are the Master Power of the Sacred Fire's Control of everything whenever you call that into outer action. And it shall be so, and it shall be so established unto you. But don't fail to use It!—you can't use It too much. And if everything you do from hour to hour were charged, first of all, with the Sun Presence of the Sacred Fire's Control, your "Mighty I AM Presence" would have an open Pathway to give into your outer use everything you require, and bring it about with a Joy that lifts you always to Freedom.

So in the use now of the Cosmic Activities of the Sacred Fire, send Them forth for the Purification and Freedom of all mankind; and that shall have to come. And automatically It fills you and your world with Itself first; and then

as It goes to the outer world, It continues to intensify and expand until It finally becomes the Onrushing Control of all in the outer world.

So go forward to your Victory! Live in the continual use of the Master Power of the Sacred Fire by which you master everything, and forbid anything in your world that is not the Perfection of that Sacred Fire's Almighty Control everywhere you abide. And you will find Limitless Legions of Ascended Master Friends always ready to assist you in the Fulfillment of the Great Divine Plan which releases all from distress as you move into action with Its Cosmic Authority and Power by conscious use.

I enfold you in the Blazing Sun Presence of the Sacred Fire of Our Love to the Mountains of the world, that their enfolding Strength and Power and Radiance may ever bless you with the Boundless Powers and continual use of that which God, the "Mighty I AM Presence," has placed within the Mountain Ranges of the world to render this Assistance for the Freedom of all Life. Accept the Sun Presence of Our Love to you, that you may expand Its Almighty Control of all things wherever you abide, and all throughout the world.

So go forward, My Loved Ones, to Victory! Victory! Victory without limit by the Sacred Fire without limit, until everything has become Its Perfection for Eternity. Thank you with all My Heart.

DISCOURSE XII

MIGHTY GOD MERU

April 19, 1958

Santa Fe, New Mexico

Record CD 493; Cassette 6 0311-2

Beloved Ones of the Mighty Saint Germain's Family, it is My privilege tonight to reveal something to you of the magnificent Cosmic Activities of the Sacred Fire to the Earth and the Great Manifestations that control conditions in this world with which mankind, through destructive activities, cannot interfere. This which I wish to bring to your attention tonight is the intensity of the Cosmic Force concentrated through the natural rays to the Earth in Our Retreats—just east of Lake Titicaca in South America, and the other place, just south of the center of the Gobi Desert where the Mighty Sanat Kumara has drawn certain Powers of the Sacred Fire and Its Love from Venus.

These two places have a Concentrated Action of the Electronic Force from the Physical Sun and

the Great Central Sun that is a Balancing Activity to the rest of the world. It is a Controlling Force with which mankind's human creation cannot interfere; and because of the intensity of Its great Purifying Action and Its Sacred Fire Radiation, there is much Power in those two locations on the Earth's surface from which mankind, if individuals understood how to draw that Force into outer conditions, could have tremendous Assistance.

The Radiation goes forth anyway and enfolds the Earth, as well as entering into the physical structure of the Earth and fusing into a Sun Presence at the center. But there is a natural spreading of the Radiance at those two places; and that can and does become a Power that holds control and compels balance in the crust of the Earth itself, and in many activities in the atmosphere of Earth.

Now because of the incessant release of impurity and destructive activities through the munitions of war—and so on, through the centuries, into the atmosphere of Earth—there is, at certain places, a vortex of destructively qualified electronic force, sometimes having been held for centuries. Mankind knows naught where

these are, but We do; and it is well for those of you who understand this Law to continue your Decrees for the Purification of the atmosphere over the Earth.

If I were you, and "I AM" making a definite Request, We would appreciate it greatly if you would call for the complete Annihilation—the dissolving and consuming of every destructive etheric record in the atmosphere of Earth, especially those records that have been held for centuries over certain locations where destructive forces have drawn their sustaining power to continue evil. These destructive etheric records in the atmosphere itself are invisible to the physical sight of mankind; therefore, many individuals are drawn into destructive activities when they come near those destructive etheric records and disaster follows. And yet the people know not why these things occur.

If you will set into action by your Calls—you do not set It yourself—but if you'll give the Calls for whatever Sacred Fire is necessary to be released into every destructive etheric record in the atmosphere of Earth, that those records may be consumed as quickly as possible by the Sacred Fire that injures no one, this has an effect

on the pressure of the Earth's atmosphere. If you do make these Calls, it will enable certain Dispensations to be given by which the records where atomic and hydrogen bombs have been released and have established that destructive record in the atmosphere—those vortices of destruction can be consumed. Therefore, other forces passing through those areas will not be interfered with.

We are hoping that you will get into action on this as soon as possible and give Us the opportunity to consume certain etheric accumulation from many civilizations past. If We are able to do this within a certain length of time, you will see many Manifestations that the world calls Miracles which it will not understand, so far as mankind in general is concerned, but which will reveal Its Blessing. And mankind surely will be grateful.

There are many sustaining streams of energy that feed the sinister force from these destructive etheric records of the past. We have called this to your attention to some degree concerning locations of the Earth itself—within the structure of Earth. But I'm speaking now of the upper atmosphere. I do not mean the Octave of Light.

I mean just above the mountain ranges of the world. There are certain etheric records from the past that, if that energy is taken and purified by the Sacred Fire from the Heart of the Central Sun, not only much destruction will be avoided, but that energy, purified and requalified for the Freedom of the Earth, can be drawn into the Protective Activities of all that is constructive.

You must realize, Beloved Ones, that with the constant destructive activities that have gone on in the atmosphere of Earth, there is a cause for them; and since the sinister force delights in distress, We are hoping for your cooperation in this respect to more quickly shut off a certain feeding of energy into the destructive forces of the psychic realm. And We must consume this within a certain length of time.

Now the psychic stratum in the atmosphere of Earth, you must remember, is humanly qualified energy. It's energy that has come out of someone's mind and someone's feeling—in other words, the mental and feeling world of the mass of the people down through the centuries. This is the main feeding source of energy to the sinister force of the world; and where destructive activities have taken place in

the atmosphere of Earth in the centuries past, that vortex still remains there until the etheric record is consumed.

Now since the destructive forces are determined to drive mankind insane and enslave and deprave the minds and bodies of the people, if you will help Us to remove these conditions as quickly as possible, many of their plans will collapse; and the Cosmic Law is such as will remove many of them from the Earth until they are purified and will no longer create discord anywhere they abide in the Universe.

When the Great Law of Life pours out the great Blessing of the Love of the Sacred Fire through those natural rays to the Earth for the sustaining of the plant life, the sustaining of the myriad Blessings through the Powers of Nature, and the sustaining of conditions in which mankind function and can have great Blessings, We, as the Guardians of the Mountains, must watch that the Outpouring of the Sacred Fire through those two magnificent Streams of Life's Energy must not be interfered with any longer by destructive forces.

So there is nothing of danger can come to you through these Calls; and it does comply with

the Demand of the Cosmic Law for mankind's own Free Will to issue the Call, or the Command for whatever Sacred Fire's Love is necessary to consume destructive etheric records in the atmosphere of Earth and compel the Purification of the Powers of Nature. This will bring a Blessing which you can scarcely understand tonight, and I want to show you Its personal reaction to you.

Because you are willing to use your Life to make this Call for the Purification of the atmosphere of Earth, since the atmosphere of Earth is controlled by the Mighty Aries, the activities within that atmosphere are also within you. You're constantly breathing in the activities of the atmosphere of Earth, and as you call for the Purification of the whole, there automatically comes the Purification of that same element within yourselves. This will bring you a Blessing beyond any words to describe; and you, in turn, will feel the release of a certain pressure under which you have been living, not aware of what you would feel like if that pressure were removed.

When the Love of the Sacred Fire surges into the atmosphere of Earth, it is not only the Purifying Activity that takes place—It becomes a Life-giving Power to the people and the Powers

of Nature. And that is what We mean sometimes when We refer to the atmosphere as the Great Fire Breath of God. It is the Great Fire Breath from the Physical Sun and the Great Central Sun in which the magnificent Blessings and Manifestations of Eternal Purity are placed for the use of mankind.

Therefore, the Mighty Aries is very much concerned with this, as am I. Since "I AM" the Guardian of one of the portions of the Earth where the natural rays enter into the structure in and through Our Retreat, it is My privilege to offer you this opportunity through which Blessings without limit will come to you all. And I hope with all My Heart you may do it as soon as possible. (*applause*) Thank you so much, Precious Ones.

This will bring very much greater safety to your air transportation. It will make many things possible for Us to do for you all, as well as for all mankind, in the greater Blessings that We can bestow, because they will be protected, and their constructive activity go forth and become a permanent part of the incoming civilization. This is a clearing away of conditions that have preyed upon mankind for centuries.

Be not concerned about anything except to go on and give the Decrees; and the Cosmic Law Itself will reward you beyond anything you can understand tonight—not that I am asking you to do it for a reward, but it is a service that you can render and the rest of mankind cannot. The rest of the people do not understand what is in the atmosphere of Earth or how to rid the atmosphere of that which is destructive; but you understand. We can explain this need to you. We can show you what is required; and in your willingness to use your own Authority of Life to call the Cosmic Law into action for the Purification of the atmosphere, your own atmosphere, My Dear Ones, will be greatly purified.

We are hoping to prevent certain things over the Nation. This will have another very powerful Blessing. If this is continued, you will find much blight that has been imposed upon Nature disappearing; and that will bring much, much Blessing—very great Blessing to the plant life through your food, to your flowers, and to the magnificent Blessings that are to come in the near future. So the Blessings are almost without limit; and since the Mighty Aries will give every possible Assistance to purify the atmosphere as

soon as possible, I assure you, His Beings will give to you all the Blessings they can bestow. This, as time goes on, will bring a Purification into the cities, the large cities of your Country; and It will be of infinite benefit to the people. They will awaken as if they had been under an anesthetic.

And you, My Dear Ones, I tell you, you are the Beloved of the Ascended Host. You cannot understand how much We love you, because of what you have the capacity to do now when the Cyclic Moment is such that it must be done now by those who are unascended, but who understand the Law and set It into operation, that the Cosmic Blessings may come and mankind's distress cease to be.

I have long wanted to give you this Explanation; and if, within yourselves, you demand the Fire Breath of Victorious Cosmic Christ Control come within you and blaze Its Blessings everywhere—the Fire Breath of Cosmic Christ Control come within you and blaze Its Blessings everywhere—you have the Power to do this, and as you set this Law into action, It will teach you many, many things. And It will explain many things you heretofore have not

understood, and It will bring you many Powers that will bless you beyond words to explain.

Ask that the Cosmic Christ Fire Breath come into you and blaze Its Blessings through you. My Dear Ones, It will improve your health. It will flood your world with Blessings; and in turn, Blessings will come back to you. You will be a Blessing wherever you go. And It's a steady flow that will simply keep out of your pathway those delays and obstruction that have existed in the past to prevent your rendering your greatest Service or having your greatest Freedom as soon as possible.

Just try filling yourselves with the Cosmic Christ Fire Breath. This comes from the Physical Sun and the Great Central Sun. Your own Breath of Life comes from your Higher Mental Body, of course; but this Cosmic Action can enfold that of your own Life Stream, entering into it and becoming One with it—can expand Blessings that give you greater freedom. Try this for your health—to fill yourselves with the Cosmic Christ Fire Breath in you that floods Its Blessings to everybody and everything you contact.

Don't be concerned whether people are worthy of It or not. Go on and be the Sun Presence

and flood forth these Blessings like the Sun gives Light to the Earth, and you will know what it means to dwell within the Heart of the Sacred Fire Love to Life. If you will do this, My Dear Ones, Blessings you cannot believe exist will come to you until you will gasp with the speed of the Fulfillment of your Calls and the Blessings that flood to you for use—and in your use, you expand them and they become a greater Power in you and your world.

This is one of the tremendous privileges which you have as "I AM" Students, to draw forth these marvelous Activities of Life—impersonal—to bless Life everywhere. And when you're willing to bless all Life, all that lives will flood its blessings back to you. My Dear Ones, I could talk for Eternity about what is in the atmosphere of your world. You may call It an electrical force field. You may call It the Sacred Fire. You may call It anything you like; but there are magnificent Manifestations of the Great Cosmic Christ Activities from the Physical Sun and the Great Central Sun that are ever expanding Their Blessings to Life. And since the Mighty Aries really represents Inspiration to the mind, as you begin to fill yourselves with the Cosmic Christ Fire Breath within yourselves, of

Cosmic Illumination, you will see and know the reason for many things that have puzzled you in the past. But now they will be made clear, and in that greater comprehension will come to you the use of the Powers of that Fire Breath.

So go forward and try Me out. I'm willing to be tested! (*applause*) Thank you so much, Precious Ones. You're being trained, but don't know it, for many things that will surprise you greatly and delight you forever. You have asked for Freedom. You belong to the Family of the Mighty Saint Germain; therefore, you are the Freedom of His Violet Consuming Flame, so you must begin to experiment with your greater Freedom. And you do this by your Conscious Use of this Sacred Fire's Purifying Love and Its Fire Breath of Boundless Blessings to all that lives.

Great Purity will come as you call this into outer action, and I'm quite sure you will see results in the not-too-far-distant future. I want you to do this so you may have the Answers to your Calls that will lift you beyond words to explain into the feeling of your own Mastery and the privilege that is yours to use these greater Blessings and Powers of the Universe to bless all Life. And you, of your own Free Will, if you will

give this service, automatically make yourselves an Open Door through which We may pour ever greater Blessings into and through you, that, in turn, They may flow forth and correct conditions in the outer world.

So from Our Retreat do I draw tonight the Love of the Sacred Fire that is focused there. Its Blessings I shall pour to you without limit—enfold you in Their Power; I shall guard you by My Love. And I hope for the Victory of the Fire Breath of the “Mighty I AM Presence” and the Cosmic Christ, to sweep into the atmosphere of Earth and consume that which has but cast shadows upon the Light of God’s Love.

May the Fullness of the Great Power of that Fire Breath of the Victorious Cosmic Christ fill you with Its Blessings, flood your world with Its Perfection, keep you Invincible against discord, and take you forward to Victory with a Joy you have never yet known. And when you bring this Happiness to Life, Life will pour Its Happiness back to you, My Loved Ones; and Beloved Saint Germain’s Family of Freedom will yet bring Happiness to all Life forever.

Go forward and try this out! Help Us to render this Service. Your Nation shall be the beneficiary;

you, yourselves, step into the Sunlight of greater Freedom, and you begin to use your own Powers to reveal greater Mastery to free Life wherever you go. May you go forward and enjoy the use of this marvelous Power of the Fire Breath of the Victorious Cosmic Christ as you demand that that Sacred Fire annihilate every destructive etheric record in the atmosphere of this world and forever hold the Purity that is Eternal Freedom.

With My Love I enfold you in the Power of the Sacred Fire it is My privilege to direct and offer you for constant use. May you enjoy the use of your greater Powers of Freedom forever. Thank you with all My Heart.

DISCOURSE XIII

BELOVED MIGHTY GOD HIMALAYA

December 27, 1959

Chicago, Illinois

Record CD 612; Compact Disc 00612

Beloved Ones of the Heart of the World, I come this hour to bring to you that which I trust will enable you to more intensely feel Our Enfolding Love and Sacred Fire Assistance to you all. That which I wish to clear in your consciousness, so that you will have more wonderful results from your Application, is to give you the Ascended Masters' Comprehension of what is actually occurring when you call forth the Ascended Masters' Consciousness.

Now that phrase may seem to you like an intangible thing, but it's not. When the Ascended Masters or Cosmic Beings offer you the use of Their Consciousness, They are giving you—pouring directly into your flesh bodies and into your mental and feeling world—the Streams

of Energy from Their own Emotional Bodies. And those Streams of Their Life carry the Consciousness, the Picture, the Idea, and the Energy of Sacred Fire to enter into you and fill you with Their New Life that creates and manifests the fulfilled manifestation of the picture and of your Calls.

Now the Light Substance which comes from an Ascended Master's Ascended Body, or from the Light Ray or the Feeling of Love that pours forth, is a Tangible Light Substance. It is the Substance of Light. And that, as It enters into you, when you call for Our Illumining Ascended Master Consciousness and Comprehension to make you understand what this Power of Life is within you and can do for you, I assure you, We are giving you some of Our Heaven, which Our Octave is, into manifestation in the physical world to, one day, make this world the Ascended Masters' Octave.

Now when you're studying—we'll take music for instance—with a teacher, and when you're taking your lesson and the teacher tells you what to do, the vibration of the teacher's life and consciousness goes into the flesh of your body and into your nerves and into your emotional

body through the hearing, through the ear. It is a physical vibration in the voice of the teacher; and the words that are the concept of the teacher's mind carry that vibration and feeling into your Life Stream, and make you one with the consciousness of the teacher concerning the explanation given.

Now when you call to Us or to your "I AM Presence," try to still the outer enough to feel and hold the picture of the Heart Flame of Our Love coming forth from Our Ascended Master Bodies within a Light Ray, and entering into your bodies through the pineal gland, and then filling the body with the expanding Flame of Our Love. Feel that and see that as a Living Flame, a Flame that you can touch just like you can touch the flame on those candles. That's a living flame. If you doubt it, touch it.

But this that We give you is the Flame of Our Life; therefore, It has to be a Living Flame. And when this comes into you, and entering into your own Heart Flame, It makes that expand through the flesh of the body—when this goes through the energy of the emotional body, It goes through every cell of your flesh like a flame. I wish you would feel this very deeply; then you will know

what it means to be One with Our Life, One with Our Life's Mastery of Manifestation, One with Our Life Flame that creates Perfection and expands It and protects It and sends It into action in the world around you.

I want you to feel that when you ask for Our Sacred Fire Love to come into you, it is the actual Release of a Flame from Our Hearts or Our Hands or from Our Foreheads. It is a Projection of a Flame into your Life Stream; and Our Hearts' Flame enfolding your own Flame of Life, the Unfed Flame in the Heart, enables the Blazing Radiance to move into the flesh, and consuming discord, creates Perfection in its place and holds Harmonious Control.

You must come to the point where you feel the Oneness of the Sacred Fire, whether it is your "Mighty I AM Presence" sending down the Flame to expand the Unfed Flame in your Heart when It sends you Its Love, or when you are receiving the Flame of Love from an Ascended Being or the Angelic Host surrounding the body or coming within the flesh structure. Try to feel that every time you call forth an Action of the Sacred Fire, We release It, and It enters into your Life Stream and becomes One with

you forever. That is how We can enfold you in Eternal Protection, in Eternal Harmony. We can enfold you in the Sacred Fire Powers by which you can do the things that We do, at least a large proportion, even before your Ascension.

Now We do a similar thing to the structure of Earth itself. When there are conditions that need purifying or correcting or expanding, We call forth, by Conscious Command, a Flame into the structure of Earth, commanding It to produce whatever is needed there. I wish you to understand the ability of an Ascended Being or a Cosmic Being or the Angelic Host to manifest a Flame instantly by Conscious Desire to release that Sacred Fire Love into manifestation, into action, to produce Perfection or to consume imperfection.

It is to make you feel the Reality of these Activities of the Sacred Fire that enable Them—as you feel that Reality, you, your Life, enables Us to fill you and your world with the Sacred Fire Perfection of Our Octave, and thus build permanently Our Ascended Masters' Mastery and Perfection in and around you for more victorious accomplishment in the physical world and physical action.

This is how We bring forth the greater and greater Perfection of any civilization. And since the Himalayan Range is one of the most magnificently powerful on Earth, Transcendent, Magnificent Activities of the Sacred Fire of Our Love have taken place there for centuries—and mankind knows not how many. And when We correct conditions in the structure of the Earth, when We hold destructive forces in leash, so to speak, We send forth this Sacred Fire. And It is just as much a Tangible Flame as your physical fire is a tangible flame in the substance of this world.

Now We come to the place where I want you to feel that when you call for Our Love, It is more than just a wave of vibration. It is the Flame of Our Life which We create and send to you. It is Substance from Our Ascended Master Octave, and It is the Energy of Our own Life. And that is New Life to you because It is the Energy of Perfection Eternal, and which, of course, you then never can requalify. In other words, when We give you Our Love, We draw into your Life Steam an eternal part of Ourselves. We give you Our Life. We give Our Life into your life by that Sacred Fire Love that is All-Perfection for Eternity.

I want you to feel the Reality of this, the Power of It, and your opportunity to use It and feel with every fiber of your being Its Reality, Its Tangibility, and Its Almighty Control of everything in manifestation, because the Sacred Fire which We direct from the Ascended Masters' Octave is Master over everything in manifestation in this world. It is the Power by which We can transmute anything into greater Perfection.

So try to feel when We offer you Our Love that It's more than just an intangible thing—or that It's just a thought or that It's just a wave of feeling. It is an actual Flame, and It is Tangible Substance from Our Ascended Master Bodies. And that is how you may feel as close to Us as you desire. You may have as much of Our Perfection as you care to call into yourselves, or as you take the time to still the outer until you let Our Sacred Fire come into you and you feel It become a part of your life.

Now when We pour forth Our Sacred Fire in Blessing to the Powers of Nature, as We send forth that Sacred Fire and It passes through the plant life, It consumes all blight. It consumes imperfection. It consumes all substance that is not pure and manifesting the Divine Design of

Its Divine Plan fulfilled. Everything We do in the Ascended Masters' Octave in the control of conditions in manifestation is accomplished, I assure you, by some Activity of the Sacred Fire or the Light Rays or the Release of the Substance.

Now since discordantly qualified substance fills so much of your great cities, especially here in the West, yet, if enough people understood this Law and would make the Call for the atmosphere of your city to become the Heart Flame of the Ascended Masters and Cosmic Beings and the Angelic Host—if you would ask the atmosphere to become or be made the Heart Flames of Our Love, that, too, could come into being. And I assure you, none of mankind's inventions could contaminate the atmosphere of Our Sacred Fire, because Our Sacred Fire would compel the Purification of everything. And if mankind were to breathe in the Sacred Fire of Our Life and Our Love from the atmosphere in which individuals move, the people of the world would find and feel the Purifying Power of Our Life come into the life of individuals in this world and expand the Illumining Purity that raises all to Perfection.

Now We have done some of this at various ages in the past, and We will again in certain channels. I wish you to understand that the very conditions in India today in the Ganges River where the bathing ghats and so on—where people are healed—We have established a Flame from Our Octave of Our Purifying Love. And two miles below where the bathing takes place, We pass this Flame through the water, and below that, it's absolutely pure; and the scientific world today doesn't know why.

You can have the same Purity in the atmosphere of your great cities if you care to understand this and demand whatever Dispensation of the Cosmic Law is required to permit this to be done—with the Call that if and when It is done, that Sacred Fire will compel the Purification of the minds and the feelings of the people within that city so they understand the Power of God that assists them, the Power of God that frees them, and the Power of God they must use in order to fulfill the Great Divine Plan.

Now when the people of the world are willing to look up and ask to be purified, look up and ask to be taught the use of this Law to help themselves, there wouldn't be one moment's wait

in the Release of the Cosmic Light Substance and Sacred Fire from Our Octave that would enable them to begin to help themselves. They must do that; and that is the purpose of Beloved Saint Germain bringing this Instruction of the "Mighty I AM Presence" to the people of America and the world, that each one might understand how to help the outer self.

I wish that in India We had this many people who understood this Law as you do and would set It into action to purify and illumine the masses of the people of India. And so when you think of the masses in your own country that are unevolved or bound in discord, and you call for the Cosmic Christ Sacred Fire from the Great Central Sun and Its Purifying Love to compel the Purification of the Life Streams here that makes them understand this Law, and what they must do to help themselves—when you think of the people in this country that need that Assistance, We would be very grateful if you would call the same Illumining, Purifying Consciousness, which is Sacred Fire, to come into the teeming millions of India and China and the other nations of the world. Wherever you have great masses of people bound in conditions of degradation, surely they

need some Call from other unascended beings for the Descent of the Sacred Fire's Purifying Illumination that teaches each Life Stream what to do to make self-effort to cooperate with Us in order to draw them to Freedom.

So, Blessed Ones, when you love Life enough to call forth Our greater Activities of the Sacred Fire from Our Life Streams into the Life Streams that are embodied in America and the world—when you love Life enough to want to do that, I assure you, the Cosmic Law will answer you without limit; and It will be far more effective in redeeming the backward nations of the world than many of your political schemes that are certainly not wisdom.

And when We, now notice this—when We give the Sacred Fire, the Love Flame from Our Hearts in the Ascended Masters' Octave, to the people in this world and into their Life Streams, remember this: That Life Flame, as We give It to the unascended beings and It becomes One with their Life Flame, Our own Life Flame ever expands by the Expanding Blessing which We give. We can give you everything and yet never deplete Ourselves. We can give you ever-expanding Sacred Fire and Its Love, Its Wisdom,

Its Illumination, Its Substance. We can pour It forth without limit to ever expand manifestation of Perfection here; and yet We never deplete any Activity in Our Octave because the Light, the Substance, the Energy, and the Sacred Fire are ever expanding in Our Octave of Life. Therefore, there can never be depletion or lack of any good thing. And so when We bring this Sacred Fire into the physical world and into the Life Streams of unascended beings, it is that a certain amount of Our Immortality enters into and becomes a part of your Life Stream, and is therefore an Action of the Great Central Sun Magnet to ever draw your life up into Our Perfection.

So It is the Saving Grace of Love, Forgiveness, and Mercy. It is the Hand of the Great Central Sun offering the Life that lifts the rest of life out of the shadows and into the Eternal, Ever-expanding Perfection of God's Heart. And that God, the "Mighty I AM Presence," is ever giving of Itself; and in that Activity, It ever grows greater. It is the natural expanding activity of Life's Perfection; and so as We give It to you in order to give Cosmic Obedience to the Great Divine Law, it becomes obligatory for you to call Our Hearts' Flame into action into the Life Streams of this

world, that Our Life may be like a Magnet and hold those Life Streams on the constructive way of Life until they have attained Knowledge enough, and made Application enough to enter into their Ascension.

This, when consciously used by unascended beings, is the way We prevent the second death. (*applause*) Thank you so much. This is the way We rescue Life Streams that have been caught in destructive activities that otherwise would completely destroy them. So when you set into action by your own Conscious Call these various Activities of the Sacred Fire from Our Ascended Master Octave of Life, rest assured that if you sincerely do not want any Life Stream to go through the second death, you will call the Sacred Fire from Our Ascended Master Octave into those Life Streams with the Conscious Command that It shuts off all destructive activities and forever prevents the second death.

This is what the depraved races of the world require, your savage races; and where there are the teeming millions of people in such distress, they are there, My Dear Ones, because of disobedience to the Law in the past. But if you love Life enough, this which We offer can be drawn

into those Life Streams with the Command—this is what the Beloved God Meru gave you—that evil in those Life Streams shall not succeed, and must now cease to be because you have demanded the Sacred Fire Purifying Love and Authority from Our Ascended Master Octave to enter into those Life Streams, and be the Authority to put an end to any more use of life for destructive activities.

Your ability to help is very far-reaching. And as We continue to pour the Sacred Fire through the rivers of the world—in order to keep that water purified to a certain degree, that mankind may survive—then you can pour Great Rivers and Oceans, if need be, of the Sacred Fire of Our Life Streams, Our Illumining Sacred Fire Love and Power of Illumination, into all Life that is caught in the degradation of human creation.

This is why We love the world. This is some of the Power We draw from the Mountain Ranges of the world; for, I assure you, there are individual Powers and Points of Concentration of the Sacred Fire within all the Mountain Ranges of the world. And that Sacred Fire to which I refer is not a volcano—that's human creation. Human creation is what creates the destruction; the Fire Element is ever Life-giving. But the Sacred Fire Love which

We draw as a Visible, Tangible Flame within certain points of the Mountain Ranges of the world—that is an Eternal, ever-expanding Control of everything in the Powers of Nature; and that is Master, I assure you. That is Master over all the Powers of all the Elements in this world.

Try to feel that when you ask for the Sacred Fire Love and Power from the Ascended Masters' Octave to come into physical conditions, that is Master over all the Powers of Nature and Forces of the Elements in this world. And when you call that into your own Life Streams, into your flesh, into the atmosphere about you, into your world, into the things you use, and ask that everything be made Invincibly, Eternally Pure; Invincibly, Eternally Perfect; Invincibly, Eternally manifesting ever and ever greater Blessings to Life, you call this into being.

You send Us a Call, and We manifest it because We are glad to give Our Life into this world to establish Perfection here. And you who know the Law can be the first beneficiaries of that Love and Blessing, because when you ask It to come into yourselves to make you like Us, then you can use the Powers We use. Then you become the Blessing We are. Then you will move into action and flood

the world with the Perfection which only the Sacred Fire contains. And that Love of the Sacred Fire is so great that when you set It into action in this world, Its natural, Victorious Activity is to ever expand the Perfection which is within Itself, within Its own Action.

Now if you want Peace and World Peace—and you want activities to prevent the destruction intended by certain nations in the world, then, Dear Hearts, you need this Sacred Fire Love from Our Octave. But you need It drawn into yourselves as part of your life first. Then as you draw It into the Life of the atmosphere about you, It shuts off destructive activities and controls them until they can be consumed.

So you're not without Help. You're not without Friends. You're not without the use of the great Scepter of Power of Life, the Sacred Fire Love of the Universe. And in the conditions that the sinister force is trying to impose upon India today, there is again the opportunity to draw into the masses of the people who do not yet know how to sustain themselves or protect themselves—you can draw forth those Activities of the Sacred Fire that keep the hordes of evil repelled until they, too, are purified and turn to the constructive way of Life.

Great is the Power of the Cosmic Law; and this condition which needs to be handled in outer world affairs, must be called into physical conditions to release Forces and Powers from the Ascended Masters' Octave that the sinister force does not know how to use and does not even believe exists. You make your Calls, and with all the Power of your Hearts, demand with a Love that is Eternal that every part of life be compelled to be purified and charged with Cosmic Illumination that forever keeps it constructive, and fulfills the Divine Plan unto the Ascension.

Now this is an assistance you may give to your loved ones who have made the change and passed out of the physical body. In the Octave of Light—where they abide if they be constructive—you can send to them, there, the Ascended Masters' Illumining Sacred Fire Love and Comprehending Consciousness that will be a Strength in their Life Streams until, when they come back into embodiment, they gain their understanding and make effort to their Ascension quickly.

You can help your loved ones. You can help all who pass out of the body even under sometimes very vicious conditions. This Sacred Fire from the

Ascended Masters' Great Temples of the Sacred Fire and from Our own Ascended Bodies can go forth as easily into these conditions as you can raise your hand and use the energy through it to do what you want to in the physical service of Life.

So, Blessed Ones, be ever encouraged. Call the Consciousness of the Cosmic Beings who control the Mountain Ranges of the world to blaze Their Sacred Fire Love into the masses of the people everywhere, and be the Raising Activity that shuts off destructive impulses and allows the natural condition within Life to expand Its Light and Its constructive activity to fulfill the Divine Plan unto the Victory of the Ascension for all.

When you think of the conditions in the various nations of the world, especially government conditions, you can, whenever you see anything wrong, demand all the Sacred Fire from the Ascended Masters' Octave that is required to prevent that evil being imposed upon life any longer for any reason. You call, and let that evil be dissolved and consumed by Powers and Activities of Cosmic Action that have nothing whatsoever to do with the people of this world except that as They pass through, all must become purified.

We have given this Service for centuries through the waters of the planet. How think you would the water sustain the Life of mankind upon the Earth if all the discord and impurity of the past had not been consumed? What do you think it is that keeps great bodies of water pure, that mankind may use them and survive?—this Purifying Activity of the Sacred Fire We have given for aeons of time through the Powers of Nature. And now if you will do this and make this Call, you become Our helpers; and who of you can tell Me what Blessings I can give you—as well as the other Gods of the Mountains from the Mountain Ranges of the world—that will delight your Hearts and lift you to Happiness and Perfection you never expected to enjoy? (*applause—audience rising*) Thank you so much, Precious Ones.

Now let Me help you, as you stand a moment, in one more thing: Sometimes when you have made mistakes and you begin to think about them and it throws you back into a sense of depression, well, don't do that! When you are conscious of remembering mistakes, turn back to your "Beloved I AM Presence" and to Us, and ask for all the Ascended Masters' Sacred Fire to

come in and to forever dissolve and consume mistakes, prevent mistakes, and close the Door of Eternity against everything that was a mistake in your Life Stream—and then in your fellowman—then everywhere throughout the world.

And do the same with your problems and your struggle. Ask the Sacred Fire to come into those conditions and compel the Purification that forever prevents any more manifestation of mistakes or problems or struggle in your beings and worlds. Ask this to come into action. Call It forth from your "Beloved I AM Presence," always first, and then to Us; and Our Sacred Fire, I assure you, can pass through things in your beings and worlds that will relieve you from distress of many, many years and, sometimes, lifetimes.

So, Blessed Ones, accept Our Love, Forgiveness, and Mercy. We don't care how many mistakes you've made. We're not even much interested in your present problems. We want to replace them all by Our Sacred Fire Love that ever expands Perfection, makes you happy, gives you the Power to perfect the Universe wherever you go. And Freedom and Peace are yours to give to Life without limit for Eternity; and that will be—when

you call this Sacred Fire into yourselves and into your affairs and into your world—it will be like a breath of fresh air from the Mountains coming into your city and producing the Purity that you all enjoy.

So We are ready to help you enter into this if you will use It as I've said today; and with It will come tremendous Illumination to the mind. You will understand more readily the Ascended Masters' "problems," if you call them so. At least Our Activities—they are not problems to Us—but you will understand Our Activities of Life to help the rest of life unto greater Perfection. And then Peace is yours for Eternity.

Come! Be Our Legions of Ascended Master Sacred Fire to the Earth, and let It flood and flood and flood and do Its Perfect Work for Eternity; and you, yourselves, live in Our World of that Sacred Fire Love that always is Peace to Life for Eternity. Thank you with all My Heart, and won't you be seated, please.

DISCOURSE XIV

BELOVED GOD TABOR

May 16, 1961

Denver, Colorado

Record CD 726-A

Beloved of My Heart, I welcome you into My Domain of My Heart's Love to Life, My Realm of Victory, My Realm of Power, My Realm of Perfection. One day when the turmoil of the outer world has been consumed and the Light of Eternity floods the Nation and the Earth to make it self-luminous, you, the People of the Light, you, the Blessed Ones of the Light, you, the Carriers of the Light, will I welcome into My Domain and reveal to you what the magnificent Hand of the "Mighty I AM Presence" and the Ascended Host has created in outer manifestation—and held secure and Invincible through many, many cycles of time, guarding the Handiwork that beautifies the Universe with the magnificent Perfection of Its great Creative Activity. One day I shall take

you into My Domain and let you behold what the Beauty of the Ascended Masters' Octave means to the people of Earth, and that one day shall fill this world with that Beauty also.

In rendering the Service tonight which We want to give to you and through you, wherever you abide, I hope I may remind you frequently of the fact that the Great Law of Creation, the "Great Presence" that has created this world and sustains it, has focused within the Mountain Ranges of the world great Streams and Concentration of the Electronic Force of Life, so terrific in Its Concentration of the Fire Element that it takes the Activity of the substance in the Mountain Ranges to be Its Protection.

You did not know that there are certain Eternal Places in this world in the Mountain Ranges wherein the Sacred Fire has been established since the beginning of the planet. That's why the mountain ranges are inaccessible in a great proportion of the mountain ranges of the world. They are inaccessible to the mass of mankind because they are the Guarding Power, and they are the location of the Concentration of the Sacred Fire Element into the substance and structure of the Earth.

Because the Sacred Fire is concentrated into the Mountain Ranges of the world, It continually pours forth by Radiation the Purifying Electronic Force that is the sustaining Life in the atmosphere of Earth, by which mankind is permitted to live. The atmosphere of Earth is supplied by the Electronic Force and certain Powers and Qualities from within the Mountain Ranges of the world; and that is because in the Mountain Ranges are these Manifestations of the Sacred Fire of terrific Power—Power mankind cannot approach, Power mankind cannot control, Power mankind cannot use except by Our Permission.

So, Beloved Ones, since this is a matter of long ages—of the Concentration of the Life from the Great Central Sun into this world to produce here the conditions in which mankind can embody and gain the experience and use the Powers of Life to attain the Ascension now—these Blessings are placed here by the Great Cosmic Law. And the Cosmic Law is embodied in the Great Cosmic Beings who supply the Life to the Physical Sun and the planets of the System. Therefore the Life that has created and sustains the planets of the System or the Sun, that Greater Life from the Great Central Sun is under the

Conscious Direction of the Intelligent Beings who know the Destiny of mankind, who know the Destiny of the planet, who know the Destiny of the System—all of which is the ever-expanding Perfection of the Sacred Fire in outer action that produces Beauty, Action, Manifestation, and Blessing to Life, because It gives all Life greater opportunity to expand greater Perfection.

Therefore, We are the Authority and will be for many aeons of time to come, of the Life that flows through the Mountain Ranges of the world. And mankind, if individuals understood what they could have by acknowledging the greater Authority of Life that controls the Mountain Ranges, if they would but acknowledge that and cooperate with it, this Greater Life which is drawn by Cosmic Beings into manifestation here would open Its Heart and give to those who are One with It, Its Secrets, Its Powers, Its Manifestations, Its Blessing, and the Strength of Its Action.

So to those who qualify, We are ready to be their Partners. Those who love the Mountains and will understand the Reality of Our Existence will learn much by association with Us. And then We can teach those who are One with Us why the Sacred Fire is focused within the various

Mountain Ranges of the world, why and how the individual can receive of the special Action of that Sacred Fire which ever lifts the individual into greater and greater Power and manifests through the individual greater Perfection.

But if the hordes of evil imagine that they are going to harness the Power in the Mountain Ranges of the world for their devilish destruction, they are badly mistaken. We are still the Authority, and We will remain the Authority over all mankind and all mankind's evil. Those who are wise enough to purify themselves and love the Blessings We can give and love the Powers of Nature that guard the Sacred Fire in the Mountain Ranges of the world, will automatically be taken into Our Heart Realm of Life and taught the Power of the Heart Flame of Our Love. So those who care to know about Us are welcome when they care to live the Life as We do. (*applause*) Thank you so much, Precious Ones.

Now We're not asking you to do anything difficult, when you realize We live the Life of the Universe in the great enjoyment and use of the Powers of Love, and They always produce Happiness and Perfection. And there's no such thing as being strenuous when you understand

how to become One with Our Realm of Life. We know the comfortable way to live Life, the Way that is without struggle, the Way that is without failure. And if you should care to prove Me, whether "I AM" telling you the Truth or not, I challenge you to live My Way of Life. I challenge you to know something about My Way of Life. I challenge you to understand the Powers and Beings of Nature that are My Family of Creation.

We do not have bars that keep mankind away. The Door is always open from Our Realm of Life. But nothing can come into Our Realm of Life that is of limitation or discord, so if there are those who want to learn the Law of Love, if there are those who care to understand Us and understand Our Realm of Activity, We are ready to teach them. And when they come and behold what Life can do and Life can give and Life can reveal, their Joy will know no bounds and their limitations will dissolve.

It doesn't make any difference what your limitation is at the present time. If you are ever going to dissolve it and consume it and be free from it, you are going to have to use the Love of the Sacred Fire, which the Blessed Violet

Consuming Flame is, and which the Unfed Flame is and which the Sevenfold Flame of the Seven Mighty Elohim becomes to Life. It doesn't make any difference what limitations are binding the people of this world. They cannot be dissolved and consumed, and they cannot be removed except by the Command of the Sacred Fire. And that is what your "Beloved I AM Presence" is. That is why Its Authority has been in existence forever and will be in existence forever.

That's why the Great Command went forth in the beginning of the formation of this planet. And the First Command was "Let there be Light," and then the world manifested. And so it is today. If there be limitations in yourselves or your world, with all the power of your Love, all of your being, turn to your "Beloved I AM Presence," and with every atom of your being, ask It to fill you with Its Purifying Violet Flame Love and release you from the limitations from which you wish to be free. When you look there and call there, when your Love goes there and asks for the Purifying Violet Flame Love of the Greater Life in the whole System to come into you and release you from that which is not the Divine Plan, then can We, with your "Beloved I AM Presence," give

you the true Education of Life, reveal to you the true Powers of Creation, and show you what it means to cooperate with the Great Divine Plan and the Supreme Causeless Cause of Life.

Mankind's limitations and distress will never be consumed until the Sacred Fire is called into action to consume them. The Master Presence of the Universe is the Causeless Cause of the Eternal Sacred Fire. The "Beloved I AM Presence" is that. Every Ascended Master is that "Presence." Every one of the Angelic Host is that "Presence." And the Causeless Cause which We refer to as the Great Central Sun is the Focus of Ever-expanding Sacred Fire Love, the Treasure House of the Universe which gives of Itself in Ever-expanding Perfection wherever It is loved into outer action.

So if you are to be free from your limitations, remember, some Activity of Love must release the Sacred Fire that consumes the limitations. Limitations exist because Love is not where they are; therefore, if they are to be removed, the Sacred Fire Love must come and remove them. It matters not whether it be the individuals, nations, or the world—or Life anywhere—the only Source of Perfection, the only Power of Mastery, the

only Manifestation of Freedom of existence is the Sacred Fire Love from the Heart of Creation, the Causeless Cause of all that exists that is constructive.

So, Blessed Ones, if you want the Knowledge of Life, if you want to learn the Truth of existence, if you want to know the Reality and Perfection and Source of the Universe, your attention must go to your "Beloved I AM Presence," the Ascended Masters, the Cosmic Beings, and the Great Central Sun; and with all the Love at your Command, ask that Perfection of Life, that "Presence," to tell you the Truth of Itself, teach you the Law of Its Manifestation, and make you Its Presence of Perfection.

How do you suppose We have created so much Beauty in certain places in the Mountain Ranges of the world? How do you suppose We created that? By Love to Beauty and Love to Perfection and Love to the Power of Creation. And so it is with you. The Law is simple. The Power is absolute. The Perfection is the Divine Law. All you have to do is love It. Doesn't it sound easy? It ought to be easy to just love something that is wonderful. It certainly is not difficult to love the magnificent Perfection of the Infinite Universe

around you. That doesn't take any effort on your part to just love that, because It is Love, and It's worthy of your Love. The Power in the Mountain Ranges that can flow to you as free as the air you breathe is the Gift of Love—free as the birds of the air—and all you have to do is to love It enough to let It flow.

Think you not that the Sacred Fire Love is the Master Control of the Universe and its manifestations? Now I love the Mountain Ranges of the world, as does every other God of the Mountains. And I love My Domain, and "I AM" the Guarding Presence of It. But there is nothing I will refuse if someone else loves My Domain like I do. Why would I not share It? You are welcome when you love It as I do. (*applause—audience rising*) Thank you so much, Precious Ones. Won't you be seated, please. Just remain so.

Now let Me explain to you something of how the great Electronic Force of Life is supplied to the planet through the Mountain Ranges of the world. Just as Liquid Light flows through the nerves of your physical bodies, so does the Liquid Light of Electronic Force—which is the Fire Element—flow through the minerals and the

Elements within the Mountain Ranges of the world. But beside that, at various places throughout the Earth there is focused an individual Flame that sustains for centuries the balancing action and flow of Life through those minerals and metals within the Mountain Ranges that ever give off their precious qualities and precious radiation of wonderful Perfection to the Life of the beings who embody in this world.

They are the Treasure House of Life in more ways than one. They contain, of course, the substance that the outer world qualifies as wealth—metals and minerals and so on—but they contain another activity of Wealth far beyond the substance that mankind uses. And that greater Wealth is the flow of Electronic Force and the Focus of the individual Flames that abide in certain locations and that hold the balance of the structure of the Earth, as pillars in a building hold the structure of the building in place.

We are the Guardians of the Sacred Fire that holds the Earth in balanced action to expand the Perfection that one day makes it a Sun in Space, and that Sun is the Light of Our Love that We expand through the ages until the substance of Earth itself becomes that Sacred Fire Purity and

Love that manifests Eternal Perfection. Therefore, you are welcome to come into Our Realm of Sacred Fire Love; and if you come and still the outer and simply pour your love to the Life in the Mountain Ranges, I assure you, the Life of Our Love must flow back to you and carry to you the Qualities and the Blessings in the Mountain Ranges that don't exist anywhere else on Earth except in the Mountain Ranges. That's why there are mountains.

When the continual Purifying Activity goes on through the Electronic Force that passes through the Mountain Ranges and carries down into the rest of the structure of Earth the magnificent activities of the Water Element, the snows that abide at the heights are pure Electronic Force. They are Life-sustaining, and they are what carry the sustaining Life to the Powers of Nature and the rest of the structure of Earth where mankind abides. So, Blessed Ones, there is a Treasure House ever beckoning you into Its Heart to give you Its Blessings, to fill you with Joy, to give you the Health and the Strength and the Power to accomplish; and It abides in Our Realm of the Mountains.

Precious Hearts, you are very near something very wonderful as you sit here tonight—very

wonderful—and I wish you would knock at My Front Door and love what is within and pour Love to Life enough that I might open the way for you to enter there. (*applause*) Thank you so much, Precious Ones. I will try to call more frequently when some of your strenuous activities are over and We can spend a little more time together. I hope I may give you some of My Gifts that will bless you for Eternity and will always bring you Freedom.

May you know the Desire in My Heart for you to have all that I have; and may It ever expand and flow to you to fill your world with the same Joy and Happiness and Power that are in My World, and which shall for Eternity ever expand Its Sun Presence to bless Life wherever Life comes into contact with that which is My Realm of Blessing and Creation to Life. May the full Understanding of all that Life has placed in the Mountain Ranges of the world come to enfold you, give you Its Gifts, make you Its Perfection, lift you unto Its Heights, and give you Its Joy for Eternity; and We shall, one day, I hope before your Ascension, dwell together long enough to let Me reveal that which only the Hand of God can create. May Its Blessings without limit pour

Their Radiation to you until that time when you stand visible and tangible within the Realm of Their Perfection forever.

May the fullness of every Blessing that is in the Mountain Ranges of the world pour forth Its Love to you, wrap you in Its Heart, make you the Victory of Its Perfection, and let you blaze Its Light until It goes forth and forever raises all to Its own great Eternal Purity. I commend you to the joyous experience of Eternity and welcome you into My Heart Realm of Life and My Strength and Power and Light from the Mountain Ranges of the world. Others who assist Me are ever Guardians of the Blessings We want to bestow and that are ever flowing to raise all to greater Eternal Happiness. Thank you with all My Heart.

DISCOURSE XV

GREAT GOD MERU

January 6, 1962

Chicago, Illinois

Record CD 824

Beloved of My Heart, tonight I trust I may bring you a Gift, bring you encouragement, and bring you a Power with which to hold your Victory and expand the Light within you into all the Strength that is necessary in any experience to make you the Victor over all that is of human creation. I trust you will appreciate My Gift tonight; for It is a Reminder constantly of what is within Life that is constantly acting to bless Life wherever you abide. Now this of which I wish to speak is the ability within your Life to consciously intensify and expand the Strength of the Light in you; and I mean by that, intensify that Stream of Light that comes from your Higher Mental Body down into the outer self and anchors within the Heart. This is

the Life Stream from the Great Central Sun that is the Source of all sustaining activities of Life anywhere that are constructive.

I wish you to feel that every time you call to your "Beloved I AM Presence" or to the Ascended Beings to bless anything that has come into manifestation, whether it be the Powers of Nature or the things mankind has created by the use of Life, so long as they be constructive, in your ability of your own life to recognize the magnificent Powers within Life that have created such Beauty, have created the way and means by which you may have outer physical experiences by which you use this Life Stream within you—the Strength of the Light and the Life—as It flows to create Perfection in this world and sustain It and expand It, to reveal the Beauty and the Power and Perfection from the Great Central Sun, you have all Power within Life to create Beauty and Perfection, to sustain It, to protect It, to expand It, and to make of It a Blessing to every particle of Life that exists in the Infinite Universe.

You have that Power within your own Life. Your Life is the magnificent Mastery that creates the manifested Universe, sustains and expands It. Now in your use of your life, the energy and the

things of this world, the substance, whenever you will allow the outer self to be appreciative, to be grateful, to recognize the beauty, to realize what amount of action Life has concentrated into the manufacture of anything that is of beauty or use or Perfection or blessing to Life—every time you bless Life and recognize how Life has blessed you, you allow the Stream of your own Life, the Strength of the Life in you, to intensify, expand, and release more of Its Luminosity into outer physical conditions wherever you abide.

If you let enough Luminosity come into the conditions around you, you cannot have imperfection in them. And there is no easier way to let your own Strength of the Light expand in you—and then through you, and pour It into all outer world conditions around you—than to bless and bless and bless every particle of Life. Whether individuals are doing what you think they should or not has nothing to do with this. You are blessing the Life of the Universe and pouring the Love from the Great Central Sun into It impersonally. You have no idea, if you will do this to everything as a matter of habit, how you will breathe, as it were, into the Universe around you the Great Fire Breath of Ever-expanding

Beauty, Perfection, and Creative Action from the Higher Mental Body into the outer self, into the world around you.

And then let It go on and on; and as the Light expands, you will find no lack of any good thing in your being and world. If you will bless everything you contact with all the Blessings of the Life in the Great Central Sun, and understand that you can command the Great Central Sun's Cosmic Sacred Fire Love to just bless and bless and bless all substance you contact, all the energy you use, all the things you observe, and all the things that bless you—if you knew what you could create in your own beings and worlds in a very short time, anywhere from six months to a year, and maybe within thirty days, could you see what would come back to you by that continual blessing, there isn't a thing on this Earth that could persuade you not to do it, no matter what any human being does.

This Messenger has had occasion to watch a very dear, lovely elderly lady, all alone, just love everything in her garden, in her home, in everything she does. She just lives every second of the day just calling the Blessings of the "Mighty I AM Presence" and the Ascended Host

into everything just as naturally as breathing, and she has had some of the most amazing Miracles in the last six months you could ever dream of.

I ask every human being that hears or knows of this Instruction to take Me at My Word tonight and experiment with your own world to just bless everything with such Sacred Fire Love from the Great Central Sun, that you let the Master Powers of your Higher Mental Body come into the outer self and be the Strength of the Light in you to do greater and greater things that ever bless the Universe around you. And because you are pouring into outer world conditions more of that Sacred Fire Love, It always creates a Raising Activity that raises the rest of the world into greater Beauty, Perfection, and Harmony; and, automatically, you must raise with that, because that is your Life that you have called forth by Conscious Command to bless the Universe around you.

So when you say to your "Beloved I AM Presence," "My 'Beloved I AM Presence,' intensify and expand without limit Your Strength of the Light in me to blaze Blessings and Miracles and Marvels without limit into everything in

my being and world, into all Life that I contact, into the atmosphere about me, and send It forth as my World of the Illumining Presence and Boundless Strength of the Light with the Great Central Sun's Love that has blessed me, that has placed me here, that sustains me, and gives me the Power of Itself to create and sustain in the world around me the same Blessings It has given to me!"—you cannot have a greater Blessing to yourself! You can't have a greater way to expand the Strength of your own Life Stream in the outer self to make you more capable of doing more wonderful things in the world around you than to just keep calling this forth into outer world conditions.

Since this world doesn't need anything but the Sacred Fire Love from the Great Central Sun, which the Violet Consuming Flame is, the more you pour your Love and Blessing of the Violet Consuming Flame's Almighty Perfection into everything, the more It acts within you, the stronger you become, the more Luminous do you become, until the Sun Presence in the atmosphere about you reveals to Us the Obedience you have given. And the Powers that you now have with which to do the magnificent Service to

Life that enables you to move in outer world conditions—that Sacred Fire goes before you, consumes human opposition, human creation and problems; and all you do is to experience within your feeling all the time the Love, the Harmony, the Joy from the Higher Mental Body as It comes into you to bless and bless and bless the world around you.

You cannot be unhappy nor uncomfortable nor limited if you will let your Higher Mental Body, by this Call, come in and pour forth through you Its Eternal Blessings of the Sacred Fire Love from the Great Central Sun and make everything in the world around you a Sun Presence of Its own Realm of Perfection. This is an Action of the Great Central Sun Magnet that draws into you and into the atmosphere about you the Perfection of the Higher Mental Body and from the Ascended Masters' Octave. Then you become the custodian of the Gifts from the "Presence" and the Gifts from Our Life, Our Realm of Life, Our Octave of Life, Our Activity of Life. And the more you use Them, the greater becomes the Strength of the Light in you to control all conditions around you. I just want you to live this Magic Way of Life more than you know. Will

you do it? (*applause—audience rising*) Thank you, Precious Ones. Won't you be seated, please, and just remain so.

Beloved Ones, if you will do this, you will live Life as We do; for I assure you, We do not do anything but bless Life. Whenever We see anything constructive or anyone making conscious effort to pour forth something that is constructive to some other part of Life, We automatically enfold that individual in another Flame of Our Love and stand the Guard until It helps that Life Stream—helps the Higher Mental Body strengthen the Light within until it is able to send forth and create greater Blessings of Perfection by the use of Its own Strength of its own Life.

When you realize, Beloved Ones, that all Activities of the Sacred Fire that We direct are all Our Life's Love and Blessings to every particle of Life that is constructive—so We can expand the Light within it, that it may produce greater and greater Perfection. We do not move through the world with a fighting attitude; We do not war with the destructive forces. We do not criticize and blame and condemn mankind for not being something different than it is. All We do is pour

forth Our Life's Love of the Sacred Fire's Blessing to every part of Life. And do you know what that will do? It builds around you a Sun Presence of such Harmony and such Ease and Comfort and Peace, It would automatically keep you healed. It would automatically keep supply coming into your hands and use. It would automatically help all Life to cooperate with you to create greater Perfection and fulfill the Great Divine Plan.

Now with all the Blessings, magnificent things that have been created on this Earth in the Mountain Ranges of the world, We bless that creation constantly with the Sacred Fire Love of Our own Life Streams. And from Our great Temples of the Sacred Fire We are ever pouring into that more of the Sacred Fire Love to make It grow greater, that It may bring greater Blessings to the world. I assure you, there is no greater Joy in the Universe than to watch that which is constructive expand and bless everything where it goes. That's what the Sacred Fire Love does to Life.

Then when you are in the Mountain Ranges of the world, if you will take that Statement: "I breathe in the Great Fire Breath of the Love that has created the Mountain Ranges of the world! I

breathe in the Love that has anchored Strength and Energy and Purity into the Mountain Ranges of the world! I breathe in the Cosmic Fire Breath of the Sacred Fire's Love from the Great Central Sun that ever breathes through me greater Perfection into manifestation!"—My Dear Ones, you can perfect yourselves. You can perfect the world around you. You can bless everything you contact; and constantly will the Love from the Great Central Sun Magnet, drawing in and around you these greater Blessings and pouring them to the rest of Life, will make you a Sun Presence that draws all Life wherever you abide up and into the Fulfillment of the Divine Plan.

Thus you take out of the clutches of the hordes of evil the life, the substance, and the energy by which they sustain evil and expand it to the destruction of the God Creation that has been placed here by Love to help mankind rise into the Ascended Masters' Octave. There's nothing will bless you any greater than to realize that this outer self should be educated and trained to call the "Beloved I AM Presence" and Higher Mental Body's Sacred Fire Love and Strength of the Light into the outer self, that sheds Its Radiance—and keeps occupied blessing everything in the world

around you. You would give the Seven Mighty Elohim a magnificent Opening by which They could bring to bless you, and bring into outer existence Their great Creative Activities that would bless all Life and give all Life a greater opportunity to become Free and understand how to attain the Ascension.

Do you know what else this will do? This will make you forget to be selfish. This is the consuming of selfishness. This will consume doubt and fear. This will reveal what the Heart of God, the "Mighty I AM Presence," contains and wants to give you and wants you to manifest in the physical world to purify all and one day make this physical octave the Perfection of the Ascended Masters' Octave.

Then you will have Heaven manifest on Earth; and it won't be monotonous, either. Just being happy and constructive isn't monotonous the least bit, for We know! So don't let anybody tell you that you have to have some of these trying experiences in order to use or unfold the Master Powers of Life. That's not true! You can only teach yourselves to become aware of the Master Powers of Life by letting your Higher Mental Body pour forth through you

Its Ever-expanding Strength of the Light and, by Conscious Command, form the habit in the outer of just blessing everything. You haven't any idea what a Power of Transmutation this is. If you want to be enfolded in a Sun Presence of the Flame of the Transfiguration, there is no easier way to do it, no more joyous way, and no more wonderful, constructive way to live Life than to keep using the Master Powers of your own Life and the greater Strength of the Cosmic Light in yourselves to go forth and just make Life everywhere feel that you are grateful for its existence in the Universe.

Everything that has been manifested is entitled to your love, your protection, and your assistance to raise it into something better. Suppose you have in your garden a very rare plant, very beautiful. If you do not pour your love to it and give to it the things it requires to bring it to its fullest perfection that it may bless you, it doesn't bless you. It doesn't grow; therefore, you don't have its blessing. So if you are going to have its blessing, you must give it your blessing first. It's just like the farmer. If he doesn't put a grain of corn in the ground, he doesn't have a stalk of corn that will bless him with many grains.

No one understands yet, in the unascended state, what a magnificent Miracle Power the use of the Sacred Fire's Love and the Strength of the Cosmic Light from the "Mighty I AM Presence" and the Ascended Host can do for the Life Stream of the individual within, and then through that into everything you contact. Dear Ones, there will come such Illumination to your mind, there will come such a flood of Inspiration and Blessings and things that you can do to create Happiness and Perfection, all of which fulfill the Divine Plan in the physical world, that you could not ever again know distress.

When you have been given the use of this Blessed Violet Consuming Flame, by your very use of It and your Call to your "Beloved I AM Presence" and the Mighty Saint Germain and the Angels of the Violet Flame, or the Ruler of the Violet Planet or any Cosmic Being, to flood the Violet Consuming Flame's Mightiest Blessing into all Life you contact, and just leave your Blessings there with a Love that only that Violet Flame brings—if you just make the Call for It to come into existence and bless and bless and bless whatever you contact, My Dear Ones, there would be such Blessings, in you first, and then in

your world, of such Perfection from the Higher Mental Body and from Our Octave and from the Violet Consuming Flame, that you would never again be caught in the whirlwind of outer world destructive conditions.

So regardless of what human beings do, you don't have to live in other human beings' wrong activities. Now your intellect will say, "Well, all these conditions around me—I haven't got this and I haven't got that!" So long as you want to justify your limitations or excuse yourself for living in them, you do not want to bless Life. If every time you rebel against them, you will just stop and forbid the outer self to do that and command it to draw the "Mighty I AM Presence" and the Ascended Masters' Sacred Fire Love to bless those conditions until they become transmuted into the Perfection that blesses you—unless you command, unless you call into action the Sacred Fire Love that transmutes them, how are you ever going to get out of them?

You have either created them or opened the door and let them in. In any event, it was your life that did that. Therefore, your own life must call the greater Strength of Life, the greater Strength of the Light in you, the greater Sacred

Fire Love of the Universe into the condition in order to consume it or transmute it or replace it by that which is Eternal Happiness and Perfection for you that lets your "Mighty I AM Presence" hold Command.

So the day that you command this outer self to love and bless Life wherever you move with the Great Central Sun's Cosmic Sacred Fire Love and all the Blessings of the Violet Consuming Flame—that you may be a Blessing wherever you go—you cannot pour that out without having It come back to you infinitely multiplied, until It is the Lifting Force of the Universe and carries you forward on the Wings of Light, the Light you have given to Life.

When people are bound in distress, then they must have more Strength of the Light within to raise them out of that distress. So all Life needs your Call for the Strength of the Light within you and the Strength of the Light in all around you, to give Its Blessings of Sacred Fire Love that raises all you contact; and in that raising, raises you also.

If you will do this, and if you will think of Us once in a while in South America, and call forth all the Great Central Sun's Sacred Fire

Violet Flame Strength of the Light in that whole continent to strengthen everything that is Life's Perfection there, strengthen everything that manifests the Fulfillment of the Divine Plan, and strengthen everybody and everything there to awaken and stand within the Boundless Strength of the Light of Eternity, and make the people strong enough to stand against that which wishes to destroy or desecrate them—if you who are up here will pour your Love down there, then We who are the Guardians of the Life in the South American continent will, I assure you—for We are boundless—We will pour back to you such Love and Blessings as can only come when you give this Obedience to the Law.

So I hope from tonight your world will be the World of the Great Central Sun's Sacred Fire Love and Violet Flame Blessing! Blessing! Blessing to Life; and you'll be so busy pouring It out, you won't even see the distress and the limitations that heretofore have tortured you. If you are going to be free from your problems and struggle, you must have more Light within yourself. You must have more Strength of the Light within in order to be the Force that repels and makes problems and struggle let go.

So if you use this Power, your own limitations must automatically be dissolved and consumed.

So, Blessed Ones, go forward and be the Blessing of the Great Central Sun's Sacred Fire Love that loves to cover all Life with the Violet Consuming Flame's Cosmic Action that forever, forever, and forever creates and expands Perfection and strengthens Life everywhere to produce greater and greater Fulfillment of the Great Divine Plan.

The Lady Master Nada, who is My Messenger, long ago has offered Her Love to help all Life do this; and if you care for Her Concentration of that Violet Flame Love that She directs, you can but manifest the same greater Perfection that She is now to Life wherever She abides. I assure you, She is the Master Presence of a Love that loves Life so greatly that the Beauty and the Perfection and the Blessings in Her own Realm and Sphere of Activity are boundless and wonderful to behold. She will give them to you to help you have a World as wonderful as Hers.

And I will give you what is in My World until your world is as wonderful as Mine, and I have gone on to greater and greater Cosmic Expansion of that ever-releasing Power of Cosmic Sacred Fire Love, and the Strength of Eternity

creates and sustains the magnificent Perfection of Life that blesses everything infinitely in Cosmic Action.

So go forward, and I shall prove the Truth of My Words tonight as you call into Life everywhere that which blesses it and strengthens it to create something constructive. And as We go forward, We will free life everywhere from the shadows that are not God's Creation and must be consumed by the Strength of the Cosmic Light that is so bright the shadows can no longer be allowed existence. So go forward and fill the Universe around you with the Strength of the Cosmic Light, and the Sacred Fire Violet Flame Blessings and Love go forth to help you and all you contact to your Freedom for Eternity. Thank you with all My Heart.

BELOVED GOD OF THE SWISS ALPS

Beloved Ones of the Blessed Saint Germain's Family, weary not in well doing! We are very grateful to you for everything you have done to call the Light into the people of this world and to help Us consume the shadows. Great has been the Service of the Cosmic Beings to the people of this world throughout the ages to awaken mankind to the Divine Purpose of Life; and great has been the Love all through the ages that comes, periodically, to release the Light into the Life Streams of this world that is the Strength to hold to constructive activities until they are brought to the Fulfillment and Victory of the Divine Plan made manifest in this world.

In that great effort that has been made for the Purification of Europe and the whole condition

in that area all through the centuries, the effort has been made again and again to awaken the people to this Light. Those blessed ones have tremendous ability to do so many wonderful constructive things; but just as certain as the constructive activities are brought forth into outer existence and the people allowed to be active in them for a while, the moment they've begun to make a certain amount of progress, then the black magicians through the ages, and the hordes of evil, have done everything possible to prevent those Life Streams understanding this Law and gaining their Freedom.

This has been accomplished again and again through war and agitation and every diabolical thing. Those Life Streams have been held in the clutches of destructive forces again and again, through the hundreds of years that effort has been made to bring the Light with such intensity in that portion of the Earth—that these destructive things that are existing today could not come and do the damage they intend. But since the people have generated a certain amount of this discord, then by the conscious use of Great Cosmic Powers through the Retreats of the world, there is constantly being drawn into outer physical

conditions the Cosmic Strength of the Light—the Inner Essence of the Cosmic Light Substance and the Sacred Fire, periodically, that is intensified in those localities as another civilization. These Blessings are brought again and again, and during those times a certain number of Ascensions take place. Then as the Light becomes covered over again by the shadows of human creation, the people come down under the control of the destructive forces.

Now there comes the time when the increase of the Cosmic Light and various Activities of the Sacred Fire must be intensified and expanded through every Retreat throughout the world. When that Intensification comes, the Light from each Retreat will come and meet the Light from the other Retreats throughout the world. This will hold a certain Control of destructive forces until they are completely removed.

In the meantime, those of you who know where some of these Retreats are, and that you have the right to call the individual Streams of the Power of each Retreat into outer physical conditions whenever there is an opportunity to consume evil—please feel assured that We have Legions at Our Command. And there is always a Way and

Means of drawing into physical conditions that are wrong, various Activities of the Cosmic Fire, the Cosmic Light Substance, and the Power from certain Realms of Activity that act as a Barrier to at least control, for a time, the plans of the destructive forces.

Now when you think of the sinister force, it is but the mass accumulation of mankind's selfishness, which is a human desire in the feeling, in the emotional body. This is but an aggregate of that energy that has been qualified with the darkness of human desire. Therefore, in whatever way you wish to give help, fundamentally remember that the hordes of destruction are hordes of darkness. Therefore, if they are to be controlled and dissolved and consumed, there must come tremendous Concentration of the Cosmic Light Substance to shut off their activity and control them until the Sacred Fire consumes them, much as your snowstorm covers over everything and stops activity when it comes to a certain intensity.

So it is from the Inner Level when you can call forth the Cosmic Light Substance in whatever Cosmic Concentration will stop the action of the hordes of darkness, the hordes of

evil, hold them inactive until the Sacred Fire surrounds them and consumes their destructive activities. There is no reason that you cannot be answered instantly as you demand this for the Purification and Freedom of all Life in the world. We have through the centuries poured out tremendous Help; but, Precious Ones, very few of mankind—very few are concerned about illumining the people of the world with enough Cosmic Light Substance and Cosmic Activities of the Sacred Fire to consume their evil.

When people are in distress, yes, there's a general sympathy in certain individuals that wants to give help; but the masses of the people are not calling for Illumination to show them the way out of the darkness. It is only through those Life Streams who reach up and want understanding of the Way of Life in the Universe and the Plan of Life, and to understand the use of Life in the greater Manifestations of Perfection that draw that here for the Freedom of all mankind.

I am going to say something, because it's the condition in the mental and feeling world of the masses of the people that enables them to be used by destructive forces, because they do not understand the Law of Life enough to

know how they are being used until they are caught in conditions from which they cannot free themselves. The average mind—and I am speaking of the masses of the people throughout the world—you must understand, is not, you might term it, a student mind. It is not an intellectual mind. The masses of the people are creatures of feeling; and the feeling, having three times more energy than the mind, insists on controlling conditions before the intellect can understand what is being done to destroy the people. The average mind is not a student mind.

Now because of this condition of the darkness of the mind, because the Light has not come in to explain to Life Streams why and how the destructive forces enslave them, they have been helpless before the onrush of the mass accumulation of selfishness. Many of these Life Streams do not belong to this world and will be taken off and returned to the worlds from whence they come. But you who understand this Law—not only intellectually, but you who have felt the Peace and the Blessing, the Purity and the Love of the Violet Consuming Flame and the Ascended Host—you, because of that Awareness and Understanding of the Law, when you make

a Call for the Cosmic Activities of the Sacred Fire and Cosmic Light to come into all Life and force the Awakening, force the consuming of the human creation that binds the people in darkness, you can be answered, My Dear Ones, with far, far greater Release of Cosmic Power than can come to the masses of the people when they just reach up and ask for release from their distress.

Now I come to the main point that applies to you and all Life. Whenever you call for Help to Life anywhere in this world to consume discordant conditions, whenever you ask for the Love and Mercy of Life to consume mankind's evil and replace it by Perfection and the Divine Plan fulfilled, never fail to demand the Cosmic Ascended Master Illumining Comprehending Mind of Life to come into the outer intellect and explain the Truth of the Illumining Consciousness to the intellect of man.

Mankind's intellect must be filled with the Ascended Masters' Consciousness and Understanding of Life, if it is to be taken out of the clutches of the hordes of evil who have warped the outer intellect by misconcepts and deliberate desecration of the faculties of the

mind, because that is what communism has done. It's what the hypnotic forces of mankind's selfishness has done down through the ages.

Therefore, the consciousness of the people everywhere in the world has got to be purified by the Activities of the Sacred Fire, and must be illumined by the Ascended Masters' Understanding of Life. Therefore, if mankind does not know the Ascended Masters exist, individuals do not call the Illumining Intelligence from the Ascended Masters' Octave that brings to the outer consciousness the Understanding of the use of the Powers of Life to produce constructive manifestation. So whenever you call for the consuming of all evil, immediately demand that it be replaced by the Ascended Masters' Cosmic Illumination and Understanding of the Law of Life, the Purpose of Life, and the Action of Life to fulfill the Divine Plan unto the Ascension.

Now you must understand how powerful is the Radiation around every Ascended Master Retreat throughout the world, because the Radiation alone has controlled many of the conditions, destructive activities of the Powers of Nature, in those localities. Then if just the Radiation has held in abeyance certain destructive activities of

Nature in those localities, then, certainly, when you call forth the Ascended Masters' Cosmic Illumining Consciousness to force the intellect of man to understand the Truth and the Fiery Law of Purity and Purpose of Life to attain the Ascension, you will take the intellectual powers of life in mankind out of the control of the destructive forces, the sinister force.

That's why when you sometimes consume only a small portion of evil, if everyone would understand to demand that be replaced by the Ascended Masters' Cosmic Illumining Consciousness that would never allow discord to be created there again, then the work would be permanently done and individuals can be taken out of the clutches of the sinister force. And even though they perhaps are not too strong in the Light, yet enough Light could be given to strengthen the Light in the Life Stream to take It out of the control of destructive forces. That is what We do through the Radiation of the Retreats of the Ascended Masters throughout the world.

I wish to bring an Explanation tonight concerning the Retreats of the Ascended Host. To some degree, some of mankind understand that there is something called a Retreat; and

that is about as much as they do understand. But what the outer world refers to is not the Ascended Masters' Retreat. That's why We definitely make the distinction between what the world calls "masters" and what the Mighty Saint Germain in this Instruction brought clearly from the beginning and called "Ascended Masters." There's a vast difference between what mankind understands as masters and what the Ascended Beings are to the Life in this world.

Therefore, when you call for the Ascended Masters' Cosmic Illumining Consciousness, Cosmic Illumining Mind from the Ascended Masters' Octave into the mentality of mankind, you will clear the concepts, you will strengthen and protect the reasoning faculty, you will help to establish balance and protect it, and you will help the Life Stream to understand clearly enough so it can protect itself against the hypnotic, psychic, devilish forces of communism and destruction and insanity everywhere throughout the world.

Whenever you consume human creation, demand with all the Authority of your "Mighty I AM Presence" and the Ascended Host that the Ascended Masters' Cosmic Christ Illumining

Mind comes into the individual or into that life, and compels the Illumination that forces that life to understand Life, so there can be more cooperation between the outer self and the "Mighty I AM Presence" and the Ascended Host, or between the outer self and all the Powers of Life that are seeking to purify mankind and give the Assistance to protect and raise what is constructive into the Ascension.

Mankind has not understood what selfishness does to create darkness; and there is no other cause for it except the hatred, which is darkness. So in calling forth for the Annihilation of the war creation of the world, the hate of mankind, whenever you call for the Annihilation of a mass accumulation of mankind's destructive activities, demand they forever be replaced by the Ascended Masters' Cosmic Illumining Mind, Intelligence, and Blazing Control of life, so life is forced to understand the purpose of existence and is forced to understand that the Constructive Activities of Life are, everywhere in infinite space, Masters of Creation. Then you take mankind out of the clutches of the sinister force that seeks only to hold the people in ignorance until they can be desecrated to destruction.

If people will not comprehend the Law that produces Perfection, the Law that gives them existence, and the Law that has designed Perfection for the future, then they will not understand they are in darkness, indeed. And if they are in that darkness, then you must have the Cosmic Light Substance blaze and shut off their action until the Blue Lightning Christ Purity comes in and consumes their evil, and forces the awakening that makes them understand the purpose of existence, until they cooperate with the Cosmic Law that takes them forward to constructive accomplishment.

When people will not awaken, they are going to stay in distress until the cry goes forth, "O God have Mercy!" And when that cry goes forth, then there comes Illumination to the mind, because when the outer intellect asks for Mercy, that Mercy is Light. It's the Cosmic Light and Love from the "Mighty I AM Presence" in the Great Central Sun; and I assure you, when that Light comes to the mind, It brings Conscious Understanding that is never forgotten.

Now this is what is taking place and must take place in Europe or anywhere else in the world that agitation is going on and constant prodding—

by destructive forces—the people who otherwise would live harmonious if let alone. The darkness generated by mankind's selfishness and hatred and filth must be controlled, and consumed by the Cosmic Action of the Sacred Fire that brings Light where darkness seems to be. Until the impurity is consumed, you cannot teach the mind and it is not receptive. The Purification must come; and when the human creation is consumed, the intellect must be compelled to face the Light of the Cosmic Christ, which every Ascended Master is. And the "Mighty I AM Presence" and Higher Mental Body of every Life Stream is the Cosmic Christ. That is the Illumining Ascended Master Conscious Intelligence that forces Life to understand the Universe around it, and compels the outer faculties of the individual to know there is a Power of Command and Control that says, "Thus far and no farther" to destructive forces, and then takes them out of the Universe.

Now this is the Power that you can call into action. When you see these conditions in the rest of the world, call forth the Ascended Masters' Cosmic Illumining Consciousness and the Purifying Sacred Fire from all the Ascended Master Retreats in the world to keep consuming

everywhere all that is of evil, until the Cosmic Law takes a hand and purifies the entire structure of Earth. In the meantime, you can protect the constructive activities in those localities that have had great Light, have accomplished great Blessings to Life, and have been, in each case, a Focus of certain Activities of the Sacred Fire that enabled those civilizations and Golden Ages to come forth for centuries and bless mankind.

What do you think is the ingratitude of life when there have been six Golden Ages down through the centuries that were maintained for thousands of years with no destructive force, and those people got the Ascension. What do you think is the Love of Life that allows one civilization after another to be built, Blessings brought forth, and then the civilization decayed because the people that followed the height of the civilization were not made to understand that the Cosmic Christ Illumination from the Ascended Masters, were the Ones who gave the Inspiration to build the civilization, and that They are the Law.

The Ascended Masters are the Law of Perfection and the "Mighty I AM Presence" is the Law of Perfection and the Cosmic Beings

are the Law of Perfection. And mankind must understand that the education of Life demands humanity understand, acknowledge, and accept the Reality and the Life and the Light of these Cosmic Beings, who through the ages have used such Limitless Powers of the Universe to enable mankind to have experiences by which the Ascension can be attained. So ignorance of the Existence of the Ascended Masters is a very dangerous thing. Whether mankind likes it or not is not to be considered. The awareness of Our Existence, the awareness of Our Law, the awareness of Our Power, the awareness of the Power of Purity that is focused in the Retreats of the world must be brought to the understanding of mankind in order for human beings to be protected enough, that they may extricate themselves from the clutches of the hordes of evil until those hordes are annihilated.

So, Beloved Ones, when you know where some of the Retreats of the world are, the Ascended Master Retreats—and some of you have been privileged to live within the Radiance and Radius of some of those Retreats—you are very fortunate, indeed. You can absorb the Outpouring of the Sacred Fire from those

Retreats just the same as you can go out in the sunshine and absorb the Light and the warmth of the Sun.

The Sacred Fire is placed in those Retreats that the Radiation may go through the Powers of Nature and go through all mankind and bring greater Life and Strength to the individuals to stand for what is constructive. Therefore, when the Blessings have been poured without limit down through the ages through the Ascended Masters' Retreats throughout the world, there comes a time when, if mankind en masse does not purify the outer self and give obedience to the constructive way of Life, there comes the hour when those destructive forces must be leashed, controlled, and then consumed.

So from now on you can call your "Beloved I AM Presence"—and all who are in charge of the Ascended Master Retreats throughout the world—to call forth the Ascended Masters' Cosmic Christ Illumining Consciousness into everything that lives, and force it to know the Reality and Existence of the "Beloved I AM Presence" and the Ascended Host. Dear Ones, whenever you make that Call, it's just like lightning flashing through the atmosphere; and the Light and Its

Intensity will compel all Life to understand the Law of Its Existence and what is expected if it is to have more help.

So go forward in the constructive way of Life; and don't miss an opportunity to demand the Annihilation of mankind's evil, all the filth and selfishness and hate generated by mankind. Demand its Annihilation, but demand that it be replaced by the Ascended Masters' Cosmic Christ Illumining Consciousness that forces everything that lives to see with Invincible Visibility the "Mighty I AM Presence" and the Ascended Host, and be compelled to understand Life and the Law of Life. Then you become a Raising Activity to every particle of Life that you contact, even to the structure of Earth itself. You must of necessity be blessed by greater Raising Activity that loves you because you rendered that Service to Life; and the Greater Life, because you are raising all to Its greater Illumination, automatically raises you harmoniously, permanently, and invincibly against interference.

So may you go forward and call forth from all the Ascended Master Retreats throughout the world every possible Outpouring of the Sacred Fire in those Retreats, and demand that It not

only purify the people, but force the people to understand, accept, and obey the Reality of the "Beloved I AM Presence" and the Ascended Host. Then can there come Manifestations in the atmosphere that will convince all and will make all understand, and will consume the consciousness and concepts of atheism and Russianism and destruction of communism imposed upon the Life of the people of this world. And you can have It! (*applause—audience rising*) Thank you so much, Precious Ones. Won't you be seated, please, and just remain so.

Now if this were not done by Our Conscious Command and the help of those under this Radiation—those who understand this Law—if this Cosmic Christ Illumination of the Ascended Masters' Consciousness were not called into the Life of the mankind of this world, individuals would go on for aeons of time in the clutches of the destructive forces until those forces are consumed. Your Call for this Cosmic Illumination will compel the people who are caught in the clutches of destructive activities to awaken and make the Call to be free from them. Then the Sacred Fire can remove the human accumulation,

and mankind awakens to Obedience to the Law by which the Ascended Host can set them Free in the Ascension.

So this Call is very necessary. I wish to thank you all for all the Decrees you have given throughout the years where you've called for the Purification of all mankind. You have called for much Help to be given to the people of the world; and now if you will add to what you've done this Demand for the awakening, then much more rapid removal of the sinister force can begin to come into outer physical conditions and the Sacred Fire render Its Service of Purification.

So go forward and use this with every Power at your Command. All you have to do is to ask your "Beloved I AM Presence," the Ascended Masters, and Cosmic Beings to blaze such Cosmic Christ Ascended Master Illumining Consciousness into every human being, and shock the consciousness awake and out of the clutches of the hordes of the shadows. Then mankind will awaken as from a dream, and turning Godward, let go of the hordes of evil until they are consumed.

So your Victory is assured. There is no such thing as failure. The Cosmic Law never changes. Your Mastery over all evil comes by this Call

to your "Beloved I AM Presence" and to Us. And you have been doing it in plenty of your Decrees, but this We ask tonight: Every time you ask for the evil to be consumed, be sure you demand the Ascended Masters' Cosmic Christ Illumination to Life and Understanding of this Law take the place of human creation and make mankind turn Godward for the Freedom of the world and the Ascension of all. Thank you with all My Heart.

BELOVED GOD TABOR

January 10, 1962

Record CD 827

Beloved of My Heart, I wish to bring something to your attention tonight concerning the Mountain Ranges of the world. It is this: There is stored within the Mountain Ranges certain Forces that are concentrated. They are Cosmic Energy located within the Mountain Ranges storing up, as it were, a certain Concentration of Energy that gradually is dispensed down to the lower levels as It is needed. But don't forget this, there are certain Forces stored in the Mountains that never go to the lower levels. They are a Concentration of the Electronic Force from the Physical Sun—and other Activities held there—to pour the Radiance of that Energy as It goes forth into the atmosphere of the world to hold certain pressure that governs conditions at the lower level.

Just as the Mountain Ranges are the custodians, so to speak, of certain Cosmic Activities of Electronic Force which is sent down into the lower levels from time to time as It is needed, when you keep your attention to your "Beloved I AM Presence" or the Ascended Host, your attention connects with the Higher Activities of Life that We control and the greater Activities of Life that your "Electronic Presence" and Higher Mental Body control. This is dispensed into the outer self from time to time as the outer self calls It into the outer physical activities for your use in your daily life. Now as you look at the Causal Body and you see those Rays of Light coming forth from the "Electronic Presence," that is a constant sending forth into manifestation great Streams of Life constantly producing Perfection in manifestation, both in this physical world and in Cosmic Activities with which the Electronic Body is concerned.

When you understand that this outer self, the Life and the Desire in the outer self, the feeling, has the capacity to reach up to those Cosmic Activities that are going forth all the time to bless Life everywhere—and you can reach to that and draw It into yourselves or into outer

world conditions by your Love to It, by your Call to It, and by your use of It in the physical activities of the outer world—the same thing is true of the Mountain Ranges. The same thing is true of the Ascended Master Retreats throughout the world. All of these Great Cosmic Activities of Life are the Divine Plan's orderly, prepared way to keep manifestation in constant action, always pouring forth Perfection which mankind can call into outer physical conditions as the outer action requires. Life is so wonderful in Its Ever-expanding Release of Perfection, always wanting to give of Itself into all manifestation, that there may be only Perfection here in the physical octave or anywhere else in interstellar space.

The Concentration of the Power from the Physical Sun and other Activities in the System is located in the Retreats of the Ascended Masters throughout the world, almost all of which are in the highest peak of each range. With the exception, perhaps, of Shamballa in the south-central part of the Gobi Desert, most of the Ascended Master Retreats throughout the world are in the highest peak of each Mountain Range. That is because there is drawn into those Retreats

the Concentrated Action of the Sacred Fire which is constantly giving off Purifying Energy into the outer use of mankind. This is a location of the Fire Element—and "I AM" speaking now of the Sacred Fire from Our Octave, the Ascended Masters' Octave—which is an eternally sustained, Perfect Balance of Love, Wisdom, and Power. As It pours forth the Radiation of Its Energy, everything through which It passes will receive of Our Love, Wisdom, and Power; and that will strengthen within individuals who are embodied in this world, so each one's qualities and powers of Life can be expanded and set into dynamic use for the outer self to use, to produce physical manifestation in this world that affects not only the individual but all other beings in this world.

This arrangement is a Cosmic Ever-sustaining Supplying Activity of the greater Purity, the greater Powers of Life always waiting to pour Them through individuals, or through the Powers of Nature, into the outer activities of Life everywhere—always to produce Perfection. Now many people are perfectionists so far as their desires are concerned, but there's a great deal of mankind that isn't much concerned about

Perfection in the present state of limitation. When that takes place, there must come a Concentration of this Electronic Force of Eternal Purity. That must go into the mental and feeling world of the mass of the people all over the world if you are ever going to cut them free from their human creation and awaken them to the Purpose of Life.

In the sordid conditions of the various portions of the world where such impurity has accumulated—by Conscious Command, by the Conscious Direction of the Cosmic Beings who have drawn these Activities of the Sacred Fire into the Mountain Ranges, that can be poured forth to the masses of the people to purify them to a certain place, certain extent, until the consciousness within awakens to the Desire to reach up and live in some way better than what they are in now.

When you see the teeming masses of the people throughout the world that are in those conditions and have been for centuries, you must know that someday, sometime, somewhere, there's going to be an Action of the Sacred Fire that consumes that frightful miscreation which is mankind's selfishness objectified. Therefore, to

those of you who know this Law, those of you who call to Us can have not only unlimited Help for yourselves, but you can call forth the Cosmic Streams of Purifying Electronic Force from the Mountain Ranges of the world and consciously ask for Them to be directed where Purification is needed most.

If you will notice, much, a very great deal of the contamination of great masses of people is in the tropics. Well then, that's where Purification must come. Therefore the Concentrated Energy that is in the Mountain Ranges of the world can be called forth and projected by the Gods of the Mountains into those areas of a nation where Purification needs to take place. That's why there are the Four Gods of the Mountains. That is Our Service to Life. We consciously direct that. But those of you who know this Law and know of Our Existence and Our Power can, by Conscious Command, have all you want in your own localities or in any special service that you wish to give to Life.

We have unlimited Electronic Force at Our Command, not only what We direct in the Mountain Ranges of the world, not only what is anchored within Our Retreats as a Focus of the

Sacred Fire; but at any time We are free to draw a Sun Presence of any special Activity of the Sacred Fire into these conditions of the outer world and establish that as a Radiating Center to continually purify a locality or a condition, until the life in the human beings in that locality awakens to something better than it is in at present.

When you see what mankind has done with life and to life by human desire, when you understand it as We do, you will never again allow your human desires to have dominion in you. You never again will want anything that is human desire. When you see what it has led to, when you see what it has imposed upon Life, when you see what degradation human beings have gone into because they have gratified human desire, you will one day plead with Us for the Purity of Our Realm to concentrate Its Sacred Fire into those conditions that human desire has created.

It is not well to become indifferent to the Demand of the Cosmic Law for the Purity of God's Way of Life to be the Law of a nation or a civilization or of the world. Sometime the Cosmic Law may permit Us to take groups of unascended beings to the Inner Level and make you behold

what people have done to create these conditions; and when you do, every desire in you will be gone except to become as We are. Everyone doesn't want that experience, but some of them are going to get it anyway. (*applause—audience rising*) Thank you so much, Precious Ones. Won't you be seated, please. Just remain so.

Now from the human sympathy standpoint, many people in the outer world want to correct these conditions as best they know how; but before the physical assistance can become permanent, the Inner Light must come to the minds of the people who need assistance; and that Inner Light comes from the Radiation in the Mountain Ranges and from the Gods of the Mountains who direct that Energy.

We are Cosmic Illumining Beings to the humanity of this Earth, and that is why mankind has never conquered the mountains and never will. They remain an unexplored, impassable manifestation to unascended beings until Assistance is given by those who are the Gods of the Mountains and the other Cosmic Beings who direct the Sacred Fire to this world.

It is My privilege to be the Guardian of that Electronic Force in the North American

Continent. There's no limit to what you as individuals can have in your own individual activities, if you form the habit of daily asking for the Invincible Power and Purity of the Gods of the Mountains and the Mountain Ranges of this Nation to pour forth Their Blessing, not only to you individually, but into those conditions of the masses of the people that will force them to awaken. The awakening must be forced, Beloved Ones, because people do not awaken of their own free will when they are hypnotized and bound by the human creation of centuries of generation.

We are one Activity of the Cosmic Law's Purification to the mankind of this world; and if We did not do this, you would not have a sustaining Purifying Activity of Life powerful enough to offset mankind's frightful accumulation of evil. So the balance must be maintained, that those of you who have Conscious Knowledge of Our Existence can have the Blessings and the Power of the Mountain Ranges brought in and around yourselves and your outer activities with very great Blessing. And I assure you, all the Power that comes from the Mountain Ranges is Invincible Purification. Therefore, whatever

you want, the Strength and Purity in yourselves or your affairs or your locality can be assisted greatly by that Power which We direct.

Now if this were not the Divine Plan, Beloved Ones, there would not be the Ascended Master Retreats throughout the world. Each is in charge of a Department, so to speak, and governs that entire Activity; and while the Service is to the masses of the people, yet the individual who is aware of Our Presence—and will make the Call—can have Our special Help and Assistance to you in whatever you wish to do to bring Purity in and around yourselves or your location or to conditions of the outer world.

We are definitely Cosmic Beings of the Purifying Legions of the Sacred Fire to the Earth; and because of that, those of you who through your Decrees have called forth Purity into the physical structure of Earth and into the mankind of this world—to you We can give boundless Blessings and wondrous Gifts if you care to become a daily Outpouring of the Purity from the Gods of the Mountains to whatever Life you contact.

You can be like an Ambassador sent on a special mission to accomplish a certain Victory.

You can be Our Outpost, as it were, a Sun Presence that can draw the Strength and the Energy and the Purity of the Mountain Ranges in and around yourselves. Then you ask Us to direct It in any special locality with which you are concerned; and if that is established as a habit, We establish at the Inner Level a Pulsation that will continue until the work is accomplished.

All it takes is your assurance to Us—by your deeds—that you are going to keep at this until it is accomplished. As soon as you've set the habit of calling regularly, We will set the habit; and We will set the Focus and Outpouring into action just like a heartbeat, and wave after wave of that can come to purify conditions that otherwise are not purified.

You would be surprised how much Violet Flame is focused into the Mountain Ranges of the world. There's a very great Concentration of It in the Mountain Ranges of the world. That's why you have the beautiful violet colors so often in the Mountain Ranges. They are great Oceans, so to speak, of Cosmic Purifying Sacred Fire Love and Blessing to Life to bring Perfection without limit. It is given without limit, without money, without price—all.

It is always continually flowing, but a Concentrated Action of It can come into you or any special place where you want It directed for any special purpose. We will establish there ultimately an Action of the Sacred Fire. If you ask It—you establish the habit of daily giving It recognition and making your Call—one day, wherever you ask that to come forth, there will be a Focus of the Sacred Fire that can be made eternal to this world. And that can be in your homes as well as everywhere else. (*applause*) Thank you so much.

Now the Explanation I have given tonight is that I may give you this which you need, which the world needs, which is here in the physical octave of Earth for the Blessing to mankind. And all it takes is someone awakened to the Way We give the greater Blessings of Life to the lesser life that needs Blessing.

So, Blessed Ones, I can be a very close Friend to you for Eternity if you care to be an Outpost of My Blessings of the Mountain Ranges that are needed in the lower levels of your Nation, the lower country. You have had much contact with the mountain ranges; and as you say in your slang phrase, "You haven't seen anything yet" aside of

what I can show you. The Blessed Goddess of Justice has much to reveal; and if you could see the Perfection in the Retreats of the Ascended Masters, you would know that the Divine Design, the Divine Plan of Life is to provide that which, ultimately, is ever-expanding Perfection for Eternity. In the Retreats where the Sacred Fire is drawn, a certain amount of Perfection is created and established. That becomes an eternal part of this world; and as time goes on, more and more of that must come into the outer physical conditions of this world in order to perfect them.

So We trust you may all be Ambassadors from the Gods of the Mountains to bring wherever you abide the Purity and the Blessing of Our Power to raise Life to greater Perfection. This is the way the Greater is given to the lesser life. But the lesser must reach up and desire It, so We are trusting that you will desire It enough to awaken the rest of mankind wherever you abide.

You could awaken people silently; you don't always have to speak to them. There are many things you can do with the Violet Consuming Flame or other Activities of the Sacred Fire, and all you need to do is to ask Us to set It there. That shouldn't be too difficult. To ask Us to do

something that makes your world better ought to be a great Joy to you. It is to Us! We are happy to give you the greater Blessings that are given to Us to make you, one day, an Ascended Being.

So you can do the same thing. Ask for Our Blessings to come to the rest of Life wherever you abide, and one day make all in this world arise, be raised into the Ascended Masters' Octave of Perfection. That's the only way It will ever be built—is by unascended beings making the Call for the Perfection to come here.

Perfection is in the Universe. Life has given It. Life wants to give It. Life here should have It. We are ready to give It. Is there a reason in the world why It shouldn't be here? Now if I get some "Hurry Calls!" (*laughter*) for what is in the Mountain Ranges of this continent, it's all right with Me. The more you can give Me, the more I can keep you busy! And you won't be unhappy, either; and I can teach you through the Marvels of the Powers in the Mountain Ranges—I can teach you what you will not learn anywhere else, because that is the schoolroom of which "I AM" the Authority, which Life has provided, which is ever ready to bless you, and someday you must learn and use.

So I trust you will come to the mountains as often as possible. I trust We may establish a daily Pulsation of all of Our Blessings, at least to those under this Radiation, until enough Purification has taken place in the world to reveal Us to the mass of the people. So, Precious Ones, "I AM" pleading to give you My Gift tonight; and I just hope you'll have a continuous use for It and you bring It into the physical world, that your fellowman may one day be aware of Our Presence.

And I hope that We may give Our Gift with the Mightiest Power in Creation to show mankind the right way to live Life. You can be part of the Legions of Our Light to unascended mankind as you, yourselves, enjoy the Blessings of the Mountains, at least when you come to visit with Us. And if you can remember Us the rest of the time, your Blessings will fill your world also. I just hope you want Our World to come into yours and give you all the Perfection and the Joy which is Ours, and as soon as possible. (*applause*) Thank you so much.

I know, you usually think you have to have the summertime to come to the mountains. Some of you come in the winter, but be not concerned about the season of the year. Just make your Calls

every day for all the Gods of the Mountains—not just Myself, the other Gods of the Mountains—to draw in and around you all of Their Blessings that They know you can use and that will perfect your world and enable you to be the Blessing to all you contact that will raise all into outer greater Perfection for Eternity. And We shall bless you without limit and you shall be Our Family of the Mountains. And many, many wonderful things are in the mountains that neither you nor any of mankind have ever heard of.

So, one day, you are to experience the Beauty, the Perfection, and the Power that Life has placed in the Mountain Ranges for those who come Our Way of Life; and "I AM" awaiting the hour when your enjoyment and Mine will be for Eternity as I reveal to you that which human eyes have never yet beheld. There are Blessings beyond measure that We can give. We want you to have Them, so if you'll call for Them, I will await your Call, and the Blessing shall one day fill you and your world—and as soon as you want It. Thank you with all My Heart.

DISCOURSE XVIII

BELOVED MIGHTY HIMALAYA

January 11, 1962

Chicago, Illinois

Record CD 828

Beloved of My Heart, I trust I may make clear to you tonight something that is very important, and I hope I will be able to make it easier for you to comprehend something of Our Assistance to mankind through the channels in which We serve. And it is this:

When We pour forth the Light Rays, either from the Mountains or Our Ascended Master Retreats or the Electronic Belts around the Physical Sun or the Great Central Sun, every Outpouring is an actual Stream, just like a River of Cosmic Light Substance and Activities of the Sacred Fire. That is Our Life, Our Consciousness; It is Our Directing Intelligence that We pour into the life of individuals in the outer world to help strengthen everything that is constructive and

to dissolve and consume and repel—as much as the Law of Karma permits—from individual Life Streams that which is not constructive.

Now let Me show you how practical this is and how it's going on to some degree in any Activity of the Light and the Sacred Fire that blesses this world. When you pour into a glass of water, for instance, some other substance with a definite color or a definite quality, you have changed the qualities in the water, and you are able to use the qualities of whatever the substance is you have poured into that water. You have produced a third element, so to speak. The water has one quality, the other substance has another quality, and you put them together and you have a third quality; but in that, you have the qualities of both working in cooperation to produce a third result. And so it is with Us.

We pour to you the Sacred Fire of Our Love, the Intelligence of Our Consciousness. The Sacred Fire of Our Love is a Flame, part of the Fire Element. Our Intelligence is a Cosmic Light Ray and Substance which We pour into the brain structure of great masses of people whom We wish to help. The Flame of Love from Our Lives We pour to those people enters into their

own Heart Flames from their own "Beloved I AM Presence," and It is an Expansion of the Sacred Fire Love of Life to this world. From that, there radiates forth to the Powers of Nature and Forces of the Elements the Blessing of Our Life Streams, the Blessing of the individual Life Streams embodied here.

This great Assistance from the great Realms of Perfection comes forth to assist individuals to Mastery, to the complete Eternal Master Control of all energy, all substance, all consciousness, everywhere you move in the Universe. When We pour this forth at certain cycles of time, It brings more Light into the substance of this world and more Light into the minds and bodies of the people. It is a Refining, Purifying, Raising Vibratory Action that compels a certain proportion of the destructive human accumulation to be dissolved and consumed, cut away from those Life Streams, and cut away from the Powers of Nature and Forces of the Elements.

This is very important for you to understand for this reason: When We bring forth a new civilization, the Light from Our Life Streams, the Consciousness of Our Ascended Master Intelligence of Life, must come into the brain

structure of unascended beings to bring the Ideas that produce more perfect manifestation in the civilization. This is how the great Inspiration from the Heights of Perfection constantly comes through individuals embodied in this world. This is the way We give you the Divine Patterns, the Divine Pictures, the Divine Manifestations from Our Ascended Master Octave into your physical world to bless you and expand and be sustained until this world becomes like Ours—the Ascended Masters' Octave.

Therefore, unascended beings are wholly dependent upon the Greater Manifestations of the Universe for progress. Human beings in this world cannot progress without this Greater Intelligence from the Ascended Masters' Octave. The Ascended Masters' constant Expansion of Perfection goes on, because the Great Central Sun is constantly pouring more of Its Great Manifestations of the Sacred Fire into the Ascended Masters and Cosmic Beings and the Manifestations of Our Octave. Therefore unascended beings cannot be allowed to go on and use the Creative Powers of Life indefinitely without Purification, without Expansion of the Intelligence within Life to produce something

better than that which has manifested here. Therefore, the forward movement of Life must be expanded at certain cycles of time.

These greater Ideas and Blessings and more Perfect Ways of controlling manifestation or creating it are given from age to age—a Wave of this comes forth and floods the world for a certain cycle of time; and then We withdraw and We watch humanity to see how many individuals will use the Ideas We've given constructively, and feel their responsibility to raise mankind's consciousness and the creative activities of this world into something more nearly like Our Octave.

When mankind goes to sleep in its own desires and will not use these greater Blessings which We give to become Ascended, then there must come the reaction of the Law that shuts off any more giving from Our Octave until Purification takes place. And that Purification must come in the individual. So everyone is responsible if he or she does not use the Powers and the Blessings of Life in this world to expand greater Perfection in himself or herself or in the atmosphere or the world conditions around the individual.

The Cosmic Law does not change, and the Law of Balance is Absolute Authority for all time to come. When the world gets into the condition it's in today—the chaos is breeding more and more agitation, fight, injustice, filth, hatred against Life—I assure you, just as certain as you exist, there must come an Action of the Cosmic Law that turns that evil back into its cause and forces it into annihilation.

Those who are constructive, those who will use what We give to fulfill the Divine Plan and bring about that which blesses Life, will automatically be protected by the very greater Perfection which We give, because that which We give is Eternally Invincible against mankind's destruction. That is why I said it is imperative that mankind understands the Reality of Our Existence. It is imperative individuals know of Our Authority and Power and Service to Life; and it's an Absolute Law that mankind at certain cycles must be aroused, awakened, and forced to understand the Purpose of Life is the Attainment of the Ascension.

So regardless of the outer world conditions today—millions may be asleep, but millions can be awakened. (*applause—audience rising*) Thank

you so much, Precious Ones. Won't you be seated, please, and just remain so. Millions can be awakened not only by the Powers of Nature in unbalanced action; but millions can be awakened by certain Manifestations of the Sacred Fire in the atmosphere of Earth and certain Activities of the Light Rays that will not need explanation because They will explain Themselves—because there is that Quality within Life, that when It comes face to face with the Manifestations of the Sacred Fire, there is that consciousness within Life that automatically knows that that Sacred Fire is not only its Master, but is the inexorable Perfection that forces it forward to the Fulfillment of the Divine Plan.

Mankind does not need to experience shock nor unpleasant pressure of the Cosmic Law; but We, for centuries, have poured forth Our Love, Our Blessing, and Our Greater Intelligence of Life through all individuals who were constructive and who would use the Intelligence We have given to create conditions that will bring the Greater Light to lift all mankind. The Light must take Dominion of Its Own.

Now We come to the Master Presence of Life that all should study and understand. When the

Great Divine Law of such Magnificent Love and Power creates a Heavenly Body like the Physical Sun, and the Love of Life is so great that It controls that and It gives Its Life to the planets of the system and mankind embodied upon them, unascended individuals should be taught Reverence, Respect, Adoration, and Obedience to the Intelligence and Love that is so great that It can create a System of Worlds. Then will the individual respect Life, because the individual understands the Greater Life that manifests everywhere in the Heavens. Mankind can understand plenty if individuals want to; and unless the consciousness is awakened to Love and Gratitude to the greater Life in the Universe, and is awakened to the Understanding of the Law of that Life's Action, then the shock must come that brings the awakening through conditions that the individual cannot control.

Now when you understand that We, from Our Life, Our Great Octave of Life, are pouring forth the Sacred Fire, the Cosmic Light Substance, Our Love, Our Life, Our Intelligence, Our Consciousness, Our Wisdom, Our Power, Our Energy—all of which are eternally Invincible against all discord—then do you not see,

when that goes forth into the consciousness of unascended beings, since that is Eternal Light, it is just like illumining this room with your electric light bulbs. When you turn on that light in this room, it illumines everything within the room. When We turn on Our Cosmic Consciousness through the Cosmic Light Rays from Our great Temples of Life or from Our own Hearts' Flames to illumine individuals, where Our Heart Flames go, They illumine Life.

Where Our Cosmic Light Substance goes, It illumines substance. When Our Love goes forth, It is a Sacred Fire that consumes everything unlike Itself; and when Our Power is concentrated into the lower atmosphere of Earth, mankind will learn there is a Power in the Universe, a Power of Life about which individuals unascended know absolutely nothing—until that Power teaches individuals here, by Itself, what that Power is, and how It controls manifestation, and that It is here to rule the life that manifests in this world. That's the Master Hand of the Sacred Fire of the Universe, the Sacred Fire Love of the Life Streams that bless the Earth all the time with Immortal Love, with Immortal Sacred Fire, with Immortal Perfection and the Intelligence to produce It.

Now I ask you, whenever you think of Us, whenever you ask Us for anything to help you or your fellowman or your Nation or the world, try to realize and hold the picture of a Sun Presence coming forth—or a Light Ray or a River of Flame from Our Temples of the Sacred Fire or from the Physical Sun or the Great Central Sun—flowing into the condition that you wish to change. And then remember that It is Immortal Perfection from Our Octave that is flowing here to rule this world; and therefore, none of mankind can shut It off or prevent Its fulfilling the Divine Plan—none can prevent Its Revealing Presence, revealing what needs to be known. And this is part of the Mighty Power of the Gods of the Mountains all over the world. (*applause*) Thank you so much.

So when you charge yourselves with the Full Cosmic Illumination of the Gods of the Mountains to teach you what We know you need most in the unascended state to create Perfection here that is Invincible against all evil, you must give Us that recognition. You must be aware of what Our Gift brings to you and can produce to Life wherever It is called into existence.

Now the proof of what I say is that mankind has survived through the ages through many,

many destructive conditions; and if this were not true, I assure you, the humanity of this Earth would not have survived. So We are the Immortal, Sustaining Perfection of the Sacred Fire of Life to this world, both from the Mountain Ranges and from Our own Temples of the Sacred Fire in the Electronic Belt around the Physical Sun. We are the Sustaining Life of Eternal Perfection wherever We use these great Manifestations of the Sacred Fire and the Cosmic Light from Our Octave of Life.

I think from tonight the Mountain Ranges of the world will mean a great deal more to you in the future than they have in the past—if you could but realize that in all of the Mountain Ranges of the world there is concentrated, located, and established this greater Power and Perfection of Life from Our Ascended Master Octaves of Life, from Our Temples of the Sacred Fire—if you can realize that in the Mountain Ranges of the world this Perfection is concentrated and sustained and is ever giving off, by Its Radiation, the greater Perfection from Our World of Life.

So, Beloved Ones, when you begin to understand this, you can come very much closer into Our World of Experience than you have ever

experienced in the past. While yet unascended, you may dwell in Our Comprehending Consciousness, in Our Hearts' Flame of Love to Life. You can dwell in Our Sun Presence of Sacred Fire Love or Cosmic Light Substance. Wherever you ask for this to be established in and around you or your homes or your business or any special activity, It's just as freely given as the air you breathe; and there is no limit to what you can have.

Our Perfection of Life is ever giving into this world the Eternal Perfection of Our World. As you use It, you become It; and when you become It, It makes you Master over everything else in this world. So this is the way at certain cycles the Great Law of Life expands Its Mastery over mankind's human creation, and lifts individuals, by the Action of the Cosmic Law, into the Greater Light of Life, onto the Pathway that ultimately takes them to the Ascension.

Life is very wonderful, Beloved Ones, to have within It this eternally sustained proof of Its Mastery over all manifestation. Therefore, when there are conditions in this world with which you are concerned and they need perfecting, don't miss the opportunity to call the Sacred Fire Love from the Gods of the Mountains in the Mightiest

Strength that We direct, into the conditions which you wish protected or sustained, or expanding their Blessing. Draw this in and around yourselves, your physical bodies. Draw It into your atmosphere. It is so free for you, Dear Ones. It is yours to use without money and without price; and the only thing that it takes to open the flow of It into you and your world is your Understanding of Our Reality, the Existence of Our Presence, and the Operation of the Law that opens the Door to let you have It. And that "I AM" giving tonight for your Freedom. (*applause*) Thank you so much.

Whatever you require in your outer world conditions, just command the disturbing element around you to be still and stand aside while you call to Us; and let Us fill you and your world with that which is Our Immortal Perfection for you. And We know what you need much more than your outer intellect knows what you need. So when you call Our Sacred Fire Life and Love into yourselves to give you Immortal Perfection, just be at Peace and let Us fulfill the Divine Plan by revealing Our Heaven made physically manifest in this world in and around you, Invincible against human creation, ever expanding Its Strength and Its Blessing to make you Victorious,

and ever abiding with you—because Our Gift to you is Eternal, and therefore It becomes a part of your Life. That is why We dwell with you, that you may dwell with Us; and in that comes the Raising Activity that one day draws you into Our Octave after you have filled this world with the Manifestations of the Sacred Fire of Our Love's Perfection here for the rest of the world.

So go forward and remember, the Gift is without limit. It is Cosmic, It is Invincible, It is Eternal. It is ever-expanding, and the world needs every Call that you can make; and We will answer. So feel with Us tonight your unlimited use of the Sacred Fire Blessings to this world by the Gods of the Mountains that control everything around you harmoniously, permanently, intelligently, and invincibly. Let Us show you how Our Life coming into your life, in your world, makes the conditions here that ought to have been here long ago in the Fulfillment of the Divine Plan for all. Thank you with all My Heart.

BELOVED GOD TABOR

Beloved of My Heart, We bring you tonight not only the Radiation and Our Love from the Mountain Ranges of the world, We bring to you the Illumining Consciousness that brings into your outer self whatever your "Beloved I AM Presence" has commanded will allow the outer self to manifest and to use to more quickly fulfill Its own Divine Plan.

Tonight, again We want to bring to you the Explanation of why there is such Strength and Purity in the Mountain Ranges of the world, why the Great Power of the Electronic Force from the Great Central Sun is anchored and concentrated within those Mountain Ranges, and how that Service goes forth to help mankind and the Powers of Nature release what mankind requires while embodied in this world to do that which

needs to be done in order to gain mastery over the Forces of the Elements and the control of conditions in the physical world.

The Mountain Ranges of the world are the guardians of the most concentrated Electronic Force of Immortal Purity; and that is why the masses of the people do not live in the mountain ranges, because they are inaccessible and are very much more inconvenient—as places to live in—than the lower altitudes of the Earth. But the greater Purity and the greater Power of that Purity is definitely concentrated and stored, as it were, in the Mountain Ranges of the world, to be a certain proportion of Immortal Purity of that Electronic Force from the Great Central Sun that mankind cannot contaminate.

Therefore, as the Radiation goes forth through the Mountain Ranges of the world, Its intensity—the Purity and the Power and the Blessings and the marvelous Outpouring and Radiation that is held within the Mountain Ranges of the world—is stepped down in intensity as It flows to the lower levels and lower altitudes. It is stepped down in intensity so that mankind can absorb It little by little, or as much as the individual can make a part of his or her Life Stream and use It.

Those of you who love to go to the mountains and abide there always receive Strength and Harmony and Power while you are there that pushes aside or consumes the tension, the struggle, and the feeling of impurity or discord which exhausts you and which causes disturbance in your affairs. Therefore, when you want the extra Power and Immortal Purity from the Mountain Ranges of the world, call to your "Beloved I AM Presence" first and then to the Gods of the Mountains, any one of Us or all, and ask for Our Cosmic Mantle of Electronic Force and Immortal Purity to flow in and around you Its Protecting Presence, clothe you in Its Garment of Boundless Strength, and make you the Peace of the Silence in the Mountains—because when you still yourselves, after you go into some place in the Mountains and you become still, the concentrated Electronic Force in that stillness begins to penetrate you.

You begin, first of all, to breathe It in; that quiets the emotional body. Then you begin to feel It strengthen you from within. Then if you were to stay and make the Call, you would find It could bring you wondrous Illumination.

When you are in the Mountains and you will quiet the outer self and turn your attention to

the "Beloved I AM Presence" and the Ascended Host, asking Us to fill you with Our Gifts and Powers of the Mountain Ranges that you know you need and that We know you need, you can in that stillness, as you feel yourselves at One with the stillness, you can be filled just like you would pour water in a cup. You could be filled with the Strength, the Energy, the Health, and the Power of the Silence in the Mountain Ranges that can draw in and around you the Illumining Power of the Love that constantly sustains the Outpouring of the Life in the Mountain Ranges, because the Life that is anchored there that creates and sustains the great forests of the world and all the Blessings of the Powers of Nature in the Mountain Ranges—all of that Strength and Power and Activity of Life can come into you as you abide in the Silence and feel yourselves at One with It—because the amount of Power, the Energy of Life that it takes to create the vast forests in the Mountain Ranges of the world, you must realize, is something of tremendous Cosmic Concentration; and It is drawn into this world from the Great Central Sun by the Cosmic Beings who have created the Powers of Nature and are Masters over those forces in the physical octave.

Therefore, when you understand that you have the power and the capacity within your own life to push aside the turmoil of human creation, and entering into the Stillness—and the Power and the Purity in the great Mountain Ranges, you can draw within yourselves those Activities of Life that produce such Perfection there. There is much Beauty within the Mountain Ranges of the world, Beauty mankind has never understood because there's only one means of contacting It; and that is the stillness of the emotional body, the Purity of the energy of the outer self, and the Heart Desire for that which the Great Cosmic Law has located in the Mountain Ranges for use both by Cosmic Beings and mankind.

The Purity that flows forth through the forests in the Mountains and the Radiation from the Mountain Ranges and the mineral wealth that is within the Mountains—that is the Purifying Electronic Force of Life that goes to the lower levels of the world and forms the atmosphere of great cities and locations in which mankind live and in which there are so many of mankind in one spot.

It is the most wonderful provision of Life when you understand how the Greater Life pours the

Flame of Its Love and Its Energy to that which is lesser, provides the sustaining flow of the Greater Life until It has raised the vibratory action of the lesser life into something greater. And it is all done in a great, natural flow of the Currents of Energy that are continually pouring from the Great Central Sun to the Physical Sun and then into the Mountain Ranges of the world.

Now just as that Greater Life pours to the Earth through the Physical Sun, just so can the Life, the Purity, the Harmony, and the Perfection of the Powers of Nature pour into the individual, the human beings embodied in this world. It is a great Gift of the Greater Life's Love that continually pours Its Energy, Its Purity, Its Harmony, and then Its unfolding magnificent Pictures and Activities of Perfection and of Perfect Creation into the outer use of mankind.

This is one way the magnificent Divine Plan and Its Perfection from the Ascended Masters' Octave flows, little by little, through the Mountain Ranges of the world into the brain structure of mankind, into the mental and feeling world. And then individuals reach up; and when the Desire of the Heart reaches for something wonderful from the Octave above the physical world, then

there comes into the outer self the magnificent Perfection, the Blessings, the Divine Plan revealed, the Release of the Power to accomplish, and the great Harmony that enables constructive activity to be created and sustained.

This is the Great Cosmic Law's Sustaining Power to all that is constructive; and when individuals use that Energy, the energy of the outer self, to do things that are not constructive, then disaster occurs wherever the individual goes. But the individual that creates the discord is the source of whatever destruction is imposed upon the Powers of Nature and Forces of the Elements and, as time goes on, reacts on the individual who imposes it upon the Powers of Nature.

So when the Great Cosmic Law has created this magnificent Storehouse of Perfection from the Ascended Masters' Octave, from the Physical Sun and the Great Central Sun, and stored that Perfection for future use and ever guards It in the Mountain Ranges of the world, mankind should understand something about the effort Life goes to, in order to bring into the outer use of the people who embody in this world the greater Purity, the greater Ideas of Perfection, and the Design that will reveal to the intellect

of man the higher and greater way to produce manifestation that is always Perfect—because the Cosmic Beings who have designed the Powers of Nature and Forces of the Elements upon the Earth and have drawn them here, have created them to contain the Perfection that mankind is to reach up and receive and draw into the outer use of the individual to produce the activities of the physical world by which individuals, through experience, are constantly raised to something greater and better until the Ascension is accomplished.

So Creation goes on all the time. You're creating every moment. Waking and sleeping, something is being created in the great Storehouse of Nature. In the great Mountains of the world, the great Activities, the creative Activities of Life, are anchored and busy for aeons of time—building, creating, and sustaining the Perfection that is to be used aeons of time ahead.

So when you understand that when you become consciously aware of what is in the Mountain Ranges of the world, how you may receive It, then, Beloved Ones, when you are privileged to go into the mountains, don't fail to still the outer self and give recognition to the Great Beings and the Blessings and Powers of

Nature that are anchored there to pour forth their Blessings for mankind's use. But those of you, when you have been in the mountains and then sometimes must return to your homes in the cities, you can—anytime you care to still the outer and turn your attention to the Mountain Ranges of the world, you can at all times, through your “Beloved I AM Presence,” your Call to the “Presence,” and your Love to the Beings who govern those Mountain Ranges, you can draw back the Purity, the Love, the Feeling of Power.

By contemplating what the Great Blessings are that flow to mankind through the Mountain Ranges of the world, you not only can still the outer and begin to feel that almost at will, but your mind becomes still, and your very contemplation upon that Greater Life and Its greater Perfection will open the Door, by which your own “Beloved I AM Presence” and one or more of the Gods of the Mountains can bring the Illumination to your outer intellectual consciousness, to let you create more and more of the magnificent Beauty and the Perfection that you can bring into the physical world to bless it, to bless all you contact. And you can have the joy of using that and bringing It into the outer use of others.

So, Beloved Ones, the Life that has created such Beauty and such Power and such sustaining Perfection in the Mountain Ranges of the world, you must realize, is a Gift of Love that loves you and will give of Its Gift to you, just the same as anyone else who will come to the Mountain Ranges. Or in the quiet, many times, of your own homes, as you turn your attention and ask for the Blessing and the Radiation from those Mountain Ranges to come into you, no matter where you abide, that greater Storehouse of Life and Life's Perfection will open the floodgates and give you Its Gift. This is what I wish to bring to your attention, because there are Beings who direct this wherever mankind calls It forth or is willing to be quiet enough to draw It into your outer use. There is Power there that you can use, you can have in your outer world activities, provided you still the outer long enough to receive It and turn your attention there.

And wherever your attention goes to the great Mountain Ranges of the world, there must come within you an expansion of your own consciousness by the very Radiation that flows back to you through your attention, while your feeling reaches out to those magnificent Gifts

and Powers of Nature and the Storehouse of the Greater Perfection which is here for mankind's use.

So in giving you this Explanation, We hope you will feel closer to Us, because We are the Storehouse of the Power and Purity that must continually flow down into the outer use of the masses of mankind. It is always flowing, and you can step into a River of Its Flow and receive whatever you will when you desire It, when you still the outer, when you turn your attention to It and prepare yourselves to receive It. And We want to give It, that those great, magnificent Blessings may fill and surround you; and you, in turn, pour Them forth to the rest of mankind. You can have this Blessing if you will but call. *(applause—audience rising)* Thank you so much, Precious Ones. Won't you be seated, please, and just remain so.

Now one more thing: The Ascended Masters' Retreats, most of Them—not all, but a great many—are in the highest peak of the Mountain Ranges of any particular country. In every Ascended Master Retreat that has been here since the beginning of mankind's embodiment—every Ascended Master Retreat has focused within It a Concentration

and a Manifestation of the Sacred Fire; and therefore those are the Radiating Centers from which there constantly pours forth through the Radiation of the Mountain Ranges of the world the Perfection of the Ascended Masters' Octave through the Sacred Fire which They bring to Earth, to carry down into the outer use of mankind the greater Perfection of Life. That is why that Purity is sustained, Powers of Nature are sustained, the Electronic Force is sustained, and the creation of the oxygen and the other elements which mankind breathes in and must have for survival is constantly supplied through the Mountain Ranges of the world.

So these Gifts are located in those Mighty Miracles of Nature as a Storehouse of the Greater Life's Perfection, to give to mankind as much as human beings can use from time to time in the creation of a civilization or the producing of conditions, that release the Purity and the Harmony that is the Raising Power to take all forward to the Ascension.

Beloved Ones, the Ascended Masters' Retreats are located in the highest peaks of the Mountain Ranges of the world for a very definite purpose; and that Radiation has gone on for centuries and

centuries and centuries of which mankind knows nothing, and those Activities of the Sacred Fire are still there. They are still giving Their Gifts. They are giving mankind what mankind can use to purify and produce Perfection here; and They are the sustaining Life of the planet. Just like the pillars of a great building are the sustaining structure on which the building is built, so are the Ascended Master Retreats throughout the world a place where the Sacred Fire has been concentrated by definite Conscious Command to pour forth Its Blessing, sustaining Power, and Ever-expanding Perfection to the human beings who come into this world for embodiment.

So there's a very great reason why the Mountain Ranges of the world are inaccessible to most of mankind and why They are the Guardians of the Gifts that produce Perfection—and which mankind can have if individuals will use those Gifts constructively. When I say “constructively,” I mean for the upliftment of every other particle of life on the Earth, because when you receive the Gifts of the Greater Perfection of Life into this physical world, They are for you to use. They are for you to let flow so they may expand, and the next wave of the Outpouring be greater

than the one before; but you must give the one before—command It to go forth and bless all Life in this world—in order for the next wave to fill you with Its greater Blessing, to give you of Itself, to pour forth through you Its Perfecting Presence to ever be a Raising Force in the world around you.

So the Blessings go on and on. They come from above. They are magnificent. They are All-Perfection. They are Eternal; and They are given without money, without price, to all who will but turn their attention to the "Beloved I AM Presence" and the Ascended Host, understand this Law, then open the Door by which It can bless the individuals who know of Its Presence, wish to use Its Power, and are willing to pour forth something of Life to raise the rest of mankind into the Fulfillment of the Great Divine Plan. So the Great Divine Plan is magnificent Perfection and ever gives of Itself to raise everybody and everything into Its own great Perfection. Do you not think Love is a wonderful thing? (*applause*) Thank you so much.

Now the Greater Love that gives the Sacred Fire of Itself into the Mountain Ranges of the world, into the Ascended Master Retreats

throughout the world, into the ever-expanding Powers and Blessings of Nature—that Greater Love must be allowed to pour forth through human beings, purify them, expand Perfection through them, and raise them into the next Octave of experience, raise them as Masters over manifestation, that they, too, may use the Greater Life to again raise all they contact.

So the Blessing goes on. It's infinite and eternal. It is overwhelming to all human creation; and It is the Master Presence of the great Sacred Fire's Love to Life that comes from above, gives Its all, ever expands Its Blessing, and is forever and forever and forever the Master Presence of Life.

One day, as I have often said to you before, one day I hope to open the Door and let you see into that which I have been privileged to create and anchor within My Retreat, to reveal to those who come there the Perfection of the Divine Plan of Eternal Blessing and Beauty to Life. No matter what that Life is, where It comes from, It will bless all and raise all to the greater Perfection of that same Beauty in the Ascended Masters' Octave.

Beloved Ones, since these Creations have gone on for thousands and thousands of years,

the Work has gone on through the centuries, It still will go on; but It is ever seeking an outpouring whereby It can give Its Blessings to those who as yet have not quite attained their mastery and realize what they are privileged to use as they understand what Life can give. And the "Beloved I AM Presence" is the Master Hand that can use these Gifts and bring Them to outer existing conditions, that mankind may understand the right way to live Life and go forward in the Obedience that brings only Joy everywhere forever; for, I assure you, there is no discord in the great Powerhouse of Perfection and Light which has been located in the Mountain Ranges of the world; and there is no discord in the Ascended Master Retreats throughout the world.

The Sacred Fire does guard the Immortal Purity and gives It forever through the Love that ever raises all into the same great Perfection. So your opportunity is without limit. It is ever at hand, and It goes forth to carry Its Blessing to you, to all wherever you direct It; and It makes you master of circumstance. May you feel Its great Enfolding Sacred Fire Heart Presence of the Purity and the Love and the Mighty Power

of the Mountain Ranges of the world to raise you and to raise all into that same great Perfection for Eternity.

We are so grateful every time We can open the Door and draw another Life Stream into that same great Perfection, and We will always welcome you with the Power that only Love contains. Thank you with all My Heart.

DISCOURSE XX

BELOVED GOD TABOR

September 11, 1968

Shasta Springs, California

Record CD 1465

My Beloved Friends of the Mountains, I come to you tonight to give you a concept of the Mountain Ranges of the world that "I AM" sure, as you understand it, will bring you very, very great Blessings, and will enable you to return great Blessings and to help others as We want to help you. And it is this:

The Mountain Ranges of the world are, in reality, storage batteries for the Electronic Force from the Physical Sun, for all the Blessings of the Powers of Nature and Forces of the Elements that are needed in the physical structure of Earth—and are needed in the physical flesh bodies of mankind to hold balance of all the Elements required to produce the physical body, produce the blessings of the

Powers of Nature, and to produce the magnificent substance that is in the structure of Earth itself.

When you realize how the Great Cosmic Law concentrates the Electronic Force from the Great Central Sun through the Physical Sun down into the physical atmosphere of Earth, and then down into the plant life itself—I wish you to understand something of what the sustaining Life is to the substance of this world; and It can be the same thing to your own flesh bodies if you understand the Law and will cooperate with It.

Now when through the Powers of Nature, and the Electronic Force that comes from the Physical Sun down into the structure of Earth—and It activates, as you say, the plant life so that it grows, and then It gives Its Blessings to mankind—then It goes on, cycle after cycle after cycle. And if you will follow Me closely, you will realize that something in the Universe is continually pouring substance to this world in order to sustain it and perfect the Powers of Nature upon it, and is constantly giving that to mankind to embody here.

Sometimes when the Powers of Nature are not understood, mankind considers all the Blessings that Nature supplies as inanimate, or

a concentration just of substance; but I tell you frankly, the Powers of Nature are intelligent, and the Blessings of Nature are grown and directed and sustained by Intelligent Cosmic Beings who constantly pour Their Light and Love and Blessings to the Earth for mankind to live and mankind to use and give in the physical octave in the activities of the physical world.

If people understood that everything that is provided in this world is the Gift of some of the Great Cosmic Beings, or group of Them, to produce that manifestation, you could become aware of the Cosmic Beings who are giving constantly of Their great Outpouring from the Ascended Masters' Octave; and you, too, could have It consciously in and around yourselves in any intensity you desire. Now this is true of the Mountain Ranges of the world. Most people love the mountains; but if you want the Blessings of the Mountains, and even though you love to be in the mountains, do not fail to give conscious recognition to the Great Powers from the Great Central Sun that are anchored within the Mountain Ranges to hold the world balanced in Cosmic Action—all the time—in order to hold this world in its orbit around the Sun, to hold

the things in this world in balanced relationship with each other. And it is this Balance that I wish to refer to, so that those of you who want the Blessings and Powers of Nature to come into your world, so you may use them to produce Happiness, fulfill the Divine Plan, and give their Blessings to others—there must come this Cosmic Concentrated Action of Balance of all things in the physical octave.

And the Power that balances the substance in the Earth is directed by Intelligent Beings, Cosmic Beings, who when They see mankind doing destructive things and destroying the blessings of Nature and throwing out of balance the Elements in the structure of the Earth, there must come the time when the Cosmic Law and Authority of those Great Cosmic Beings speaks through the humanity of Earth the Command to cease destruction.

Now there has occurred on this Earth in many centuries past the sudden release into the atmosphere of Earth of the Control of certain Powers of Nature and Forces of the Elements—that has come suddenly into outer, physical conditions, and which mankind could not control, but to which mankind had to bow

and give obedience. These things will come again; and those of you who want the Blessings of the Mountain Ranges of the world to come and give you their Happiness and Freedom to give to others, need to recognize that when you call to the Gods of the Mountains, They are the Authority to bring anything and everything of physical substance into your hands and use to bring Balance in your world, just as We bring the Substance into the structure of Earth to bring Balance in the planet itself and into the System.

The Mountain Ranges of the world are the storage batteries, so to speak, of the most magnificent Electronic Force; and some of the Creations that that Electronic Force produces through millions of years in the structure of the Earth is the most beautiful you can possibly imagine. That is why I said in the beginning of this Instruction, I have in My Retreat certain Manifestations of this Beauty of which I speak; and It is Power without limit. It is beautiful beyond all description, and no human eyes have ever yet beheld It.

So there is in the structure of the Earth and in the Mountain Ranges of the world the magnificent

Creation of Beauty and Power designed by the Cosmic Beings who have created the planet, control it, direct its Destiny, and keep it sustained. Therefore, those of you who want to understand something of the Power of the Gods of the Mountains can have Our Love bring into you the Ascended Masters' Truth and Consciousness and Understanding of the Blessings that are in the Mountain Ranges of the world, which you can have as free as the air you breathe simply by your Love to Us and your Love to the Mountains and your Love to the Powers of Nature within them.

Now this doesn't have any reference to physical wealth or anything of the kind. "I AM" talking about the Radiation of certain conditions in certain Mountain Ranges of the world that are continually purifying the big cities, and many of the conditions in the Powers of Nature and Forces of the Elements that have been sustained throughout the centuries. Therefore, to understand all the Blessings that the Great Cosmic Law has stored within the Mountain Ranges of the world will enable you, as you think upon them, to receive back the Radiation that they are constantly pouring forth to hold Balance

in the world. And as you accept the Radiation of the Purity in the Mountain Ranges of the world, you can draw that in and around yourselves to sustain It in the atmosphere about you. And It will be a powerful Protection to you also.

This has much to do with the maintaining of the health of mankind throughout the world. If this were not pouring constantly into the big cities in order to hold a certain amount of Purity and Balance, mankind would not maintain sanity. Because of the discord in the emotional body, mankind's brain structure would be out of balance. This has much to do with the health of mankind and should be understood by those of you who know this Law. (*applause—audience rising*) Thank you so much. Won't you be seated, please, and just remain so.

If you will remember, the Beloved Saint Germain said in the beginning of this Instruction that the Mighty God of the Mountain—the Himalayan Range—the Mighty Orion who directs that sent forth like a snowstorm of golden flakes into the atmosphere of Earth to maintain certain Purity, that mankind might breathe more comfortably.

So mankind owes a very great deal of gratitude, or should pour it to the Gods of the Mountains.

The masses of the people do not even know the Gods of the Mountains exist; and yet We have been the Guardians of these Blessings down through the centuries. Now if We alert you to the Blessings that come forth from the Gods of the Mountains, the Blessings which come forth through Radiation from the Mountain Ranges alone, you can accept that, and you can ask It to be concentrated in and around your being and world, and have Its Blessings and Its Beauty and Its Perfection. And more than that, you can have within and around yourselves the Concentration of Our Power to hold that wherever you abide and pour It forth to others to help, to heal, to harmonize, to protect, and to illumine.

These Blessings go on forever because They are Eternal. And They are placed in the structure of the Earth itself for the use of mankind; and as the Elements are kept balanced, Beauty, Perfection, and Victory without limit can come, consciously drawn in and around the human beings of this world, when they understand this Law and understand the amount of Love that it takes from Cosmic Beings to grow the Blessings in the Mountain Ranges of the world as well as the Powers of Nature upon them.

Do you know how much Electronic Force it takes to create a diamond in the structure of the Earth? Century upon century upon century does the Mighty Helios pour the Concentration of the Electronic Force into the substance in the crust of the Earth to produce what you call a diamond. Well, this same Electronic Force is pouring constantly, and has been pouring constantly, to create within the structure of Earth these many, many, many substances that mankind uses in outer physical conditions to fulfill the Divine Plan and to use as the outer self desires to use it. When those Blessings are not used constructively, then you have what you call danger from the Powers of Nature and Forces of the Elements; but when they are constructively used, there is no danger from the Powers of Nature and Forces of the Elements.

When the Mighty God of the Himalayas poured forth that Golden Substance throughout the atmosphere of Earth, it was to produce a certain amount of Purity that has held a certain Balance in that portion of the world in order to keep destructive forces from completely annihilating the Handiwork of the Cosmic Beings who have created the planet. Now this thing is

true within your own physical bodies. If you understood how the Heart Flame of the Great Central Sun, how that Heart Flame creates a planet and pours Its Life and Love and Blessing into it and pours the Intelligence into the Powers of Nature and Forces of the Elements to grow and fulfill the Great Divine Plan, you could—consciously sending your Love to those Great Beings, and even to Their Manifestation, your Love to Them would draw back to you Their Blessings to you as individuals.

Now this I am coming to is to help you hold balance in your emotional bodies as well as in the mind and the chemical components of your bodies. There is only one thing that causes distress, and that's when something is out of balance. Well, when you call forth into yourselves the Great Central Sun's Heart Flame, the Master Flame of all Creation, to hold Perfect Balance in all the elements of your bodies which the Powers of Nature and Forces of the Elements give you all the time—through your food and through the things you create in the physical world—if you were to call that Heart Flame Control and Balance into all the Elements in your bodies, you wouldn't have such a thing

as disease or distress or ill-health, and you could never have lack or limitation of any good thing.

So no matter what the mistakes have been, no matter what your problems are or have been, when you call forth the Great Central Sun's Heart Flame, the Master Flame of that Purifying Love, into the Powers of Nature and Forces of the Elements that you use all the time, there must of necessity come to you such Perfection through the Powers of Nature and Forces of the Elements as to bless you forever and give you the Blessings that you can give to others. It is a Boundless Outpouring from the Treasure House in the Heart of Creation that will set mankind Free if people will only understand It, accept that Heart Flame of Love, and then use It to bless the Powers of Nature and Forces of the Elements, that Balance may be sustained everywhere, and that which you desire for yourselves be amplified, that you may give It to the rest of Life everywhere in the world. And then mankind will live the Divine Way of Life and hold in balanced control the things you use in the physical world, and you would know no such thing as danger or destruction

or desecration of any kind. So It is Invincible Protection and Security in every way if people will only learn to use It.

So when you call into yourselves or your world the Love from the Gods of the Mountains, I assure you, It will help you to hold balance in your feeling world and balance in the things that you use in the physical world. The Beloved Goddess of Justice also has much to do with this, and pours constantly the Love that brings Order and Balance into the substance and the things of the physical world, and also is a Pull upon the attention—for mankind's attention to go back to the "Presence" and give the Divine Justice to the "Presence" and the Ascended Host, by which Eternal Balance can come into your outer physical bodies, physical affairs, and the physical conditions of this world, until it becomes the Ascended Masters' Octave of Perfection.

There is only one Master Presence in the Universe that all can use, and is as free as the air you breathe. It is the Heart Flame of Love from the Great Central Sun which abides in the "Mighty I AM Presence" of every Life Stream. It abides in your physical Heart. It abides in the physical structure of Earth. It abides in the

Mountain Ranges of the world. It abides in the Sevenfold Flame of the Seven Mighty Elohim in your forehead. And It is the Controlling Presence, the Master Flame that controls all substance, all energy, all consciousness; and this is what is Ascended Master Obedience. This is Ascended Master Feeling; and this Ascended Master Consciousness will forever prevent the mistakes and the discord that mankind has generated, past and present. So It has a Protective Power quite as well as a Supplying and Harmonizing Power that is stored in the Mountain Ranges of the world.

When you see the limitless amount of Energy that the Powers of Nature use to grow the plant life of this world on the mountains of the world, you must realize that that is drawn here by some Great Cosmic Consciousness that is without limit and is forever the Master Presence of Perfection. So, Blessed Ones, the Mountain Ranges of the world have been created for a very definite Supplying Activity to mankind in this world; and it is time human beings understood the Love that it takes to produce these Manifestations by which mankind can survive.

There is nothing so great as the Heart Flame of that Sacred Fire Love in the Great Central

Sun that gives, gives, gives constantly into all outer manifestation in this world the Sacred Fire Purity and Substance and Love and Peace that holds Balance. And when that is done, mankind will not know lack or limitation, mankind will not know distress. mankind will not have disease or crime or desecration of any kind. If mankind wants to be Free, this must be understood; and the Sacred Fire Heart Flame from the Great Central Sun drawn into every condition in the physical world that you contact, that it may be purified and balanced and pour back to you all the Blessings It can give. And when mankind is ready to use this, We are ready to give It!—and My Sunshine Presence stands at the top of the Mountain Ranges of this Nation. (*applause*) Thank you so much.

I have guarded and guarded and guarded the Blessings, the Wealth, the Perfection without limit, and the Beauty that the Great Cosmic Beings have created within the Mountain Ranges of the world—and I shall still guard It until mankind, purified, is worthy to understand It and see It and love It and bless It and help It expand for the rest of Eternity throughout the world when Purification is established forever.

Mankind cannot have these Supreme Blessings of Life until Purity has come into the feeling world and the consciousness of mankind, and the outer consciousness made as Pure as the "Mighty I AM Presence" and the Ascended Host. And it is this Purity and Beauty and Perfection held in safeguard in the Mountain Ranges of the world that is the sustaining of Perfection in this world through the Powers of Nature and Forces of the Elements; and if mankind were to have that removed, you could not exist here on this planet. Your physical bodies could not be sustained.

So you owe more to the Mountain Ranges of the world than you'll ever understand until you come into the Ascended Masters' Octave for Eternity. And then, as Master of the Powers of Nature and Blessings that are given constantly to the mankind of this world, you, too, will become the Outpouring of the Beauty and Perfection, the Substance and the Energy from the Ascended Masters' Octave drawn here by the Sacred Fire Love which the Ascended Masters' Octave is.

This world must be filled with the Ascended Masters' Sacred Fire Love, as well as that from the "Beloved Mighty I AM Presence" and from the Great Central Sun, if the conditions in this

world are to be purified and brought into the Perfection that hold Balance for Eternity and takes mankind through to the Ascension. There is no other way. The Cosmic Law demands it. And when people don't want Perfection, which Indestructible Purity and Love are, then certainly something needs to be consumed in the consciousness until the Light of Eternity illumines the mind, and the Purifying Heart Flame of the Great Central Sun, through the Heart, purifies the emotional body, and the outer self, held in Balance, receives the Perfection, and then gives It to the rest of the people in this world to be sustained for Eternity, and discord will never again be allowed to be created here.

So it is the end of the Cycle. It is the end of mankind's distress. It is the end of mankind's destruction. Those of you who want the Mountain Ranges of the world to yield to you their Blessings, you will find you can open the Door as easily as you can look into the Heavens when you call forth the Great Central Sun's Heart Flame of All-purifying Love to bless and bless and bless the Powers of Nature and Forces of the Elements in the Mountain Ranges that have blessed you for aeons of time.

Mankind needs to understand the Authority the intellect has and the Authority your feeling has, which is the Unfed Flame in your Heart, to reach to the Heights of Creation and draw the Eternal Love of Perfection into everything in the physical world and establish here the Perfection that fulfills the Divine Plan and holds Balance, not just for yourselves—holds Balance in the structure of Earth itself, holds Balance in the mental and feeling world of the rest of mankind, holds Balance in the Powers of Nature and Forces of the Elements, and holds Balance in the world itself, so cataclysmic conditions can never come here again in the future. So I have your Protection at Heart. (*applause*) Thank you so much.

So from tonight, whenever you think of Protection that is needed for others or for your Nation or for that which is constructive to be protected, don't hesitate to call forth the Mightiest Sacred Fire Love from the Great Central Sun Heart Flame that has been drawn into the Mountain Ranges of the world. Call forth that Love through those Mountain Ranges to bless them; and then draw It in and around yourselves, draw It around the rest of mankind. And the

more you call forth that Sacred Fire Love from the Heart of Creation, the more will every Being of Love in the Universe pour to you the Blessings that It has drawn in, through, and around the Ascended Masters, the Cosmic Beings, and the Great Angelic Host.

There will come in and around you whatever is necessary to hold the Protection that enables you to give to the rest of the Life in this world the same Blessings from that Heart Flame in the Great Central Sun that are stored in the Mountain Ranges of the world. This is Eternal Security when mankind understands It and uses It and dwells within It and then gives and gives and gives It to the rest of Life; you cannot possibly ever again know distress or limitation in the aeons of time that are to come.

So as We call Our Legions of the Angelic Host, and there are unlimited Legions who guard the Blessings in the Mountain Ranges of the world—is the reason that certain places in those Mountain Ranges have never yet been explored by mankind, and mankind cannot come into them until certain Purification takes place. And that Purification is drawn into outer, physical conditions by the Sacred Fire's Love from the

Heart Flame of the Great Central Sun as well as the Heart Flame of each one's "Mighty I AM Presence" and the Heart Flames of the Ascended Masters and the great Temples of the Sacred Fire, who pour that forth wherever It is called into outer physical conditions to purify, harmonize, hold balance, and fulfill the Great Divine Plan that brings Perfection to all, that all may be raised into the Ascended Masters' Octave as the Beings who, of the future, can create a world or a System of Worlds or a Sun or a System of Suns; for that is your ultimate Destiny. That is what the Great Divine Plan offers to Life everywhere throughout infinite space for all Eternity.

And when that "Great Presence" gives all of Itself to unascended mankind, it's time the intellect understood how great is Life and how loving and wonderful is the "Beloved Mighty I AM Presence" and the Ascended Host and the Great Cosmic Law of Perfection that has designed a Plan so perfect, so marvelous, so wonderful in Its expanding Perfection of Eternity, that mankind cannot again create discord; and therefore, life cannot suffer again in this world. And it is to this end that We offer you everything that the Love in the Mountain Ranges of the world can give

to you—and all who will accept that Invincible Purity and the Blessings of Beauty and Perfection that are forever pouring forth Their Radiation to bring Peace to the Earth and raise all into the Victory of the Ascension; for It is Power Unlimited, Victory Invincible, and Perfection for Eternity.

We enfold you, then, in the Diamond-shining Sun Presence of all the Love and Purity and Blessings that the Mountain Ranges of the world can give; and as We enfold you in that, you will find Our Miracle Mantle of Love's Mastery is a very Real, Tangible Garment, a very Real, Tangible Presence around you that holds around you Our Perfection for Eternity. And as We give It to you, It raises you into the condition that can give It to others; and It goes on and on, to ever expand the Perfection that Love alone can give and Love alone can control. Unto this end do We give everything, and It shall forever come back to bless you for Eternity.

So We leave you enfolded in the Diamond-shining Sun Presence of all the Love and the Purity and the Blessings that the Mountain Ranges of the world can give you to bless you, to help you, to raise you into the Fullness of

your Victory in the Ascension. Many Ascensions have taken place in the Mountain Ranges of the world, and more will yet do so; so We enfold you in Our Miracle Mantle of the Love We pour to Life, and may It forever raise you into the Peace of Our Hearts for Eternity. Thank you with all My Heart.
