FEEDBACK FROM WATERGATE TO THE GARDEN OF EDEN

In the beginning was the word and the word was god and has remained one of the mysteries ever since. The word was God and the word was flesh we are told. In the beginning of what exactly was this beginning word? In the beginning of WRITING history. It is generally assumed that spoken word came before the written word. I suggest that the spoken word as we know it came after the written word. In the beginning was the word and the word was God and the word was flesh ... human flesh ... In the beginning of WRITING. Animals talk and convey information but they do not write. They cannot make information available to future generations or to animals outside the range of their communication system. This is the crucial distinction between men and other animals. WRITING. Korzybski, who developed the concept of General Semantics, the meaning of meaning, has pointed out this human distinction and described man as 'the time binding animal'. He can make information to other men over a length of time through writing. Animals talk. They don't write. Now a wise old rat may know a lot about traps and poison but he cannot write a text book on DEATH TRAPS IN YOUR WAREHOUSE for the Reader's Digest with tactics for ganging up on digs and ferrets and taking care of wise guys who stuff steel wool up our holes. It is doubtful if the spoke word would have ever evolved beyond the animal stage without the written word. The written word is inferential in HUMAN speech. It would not occur to our wise old rat to assemble the young rats and pass his knowledge along in an aural tradition BECAUSE THE WHOLE CONCEPT OF TIME BINDING COULD NOT OCCUR WITHOUT THE WRITTEN WORD. The written word is of course a symbol for something and in the case of hieroglyphic language writing like Egyptian it may be a symbol for itself that is a picture of what it represents. This is not true of an alphabet language like English. The word leg has no pictorial resemblance to a leg. It refers to the SPOKEN word leg. so we may forget that a written word IS AN IMAGE and that written words are images in sequence that is to say MOVING

PICTURES. So any hieroglyphic sequence gives us an immediate working definition for spoken words. Spoken words are verbal units that refer to this pictorial sequence. And what then is the written word? My basis theory is that the written word was literally a virus that made spoken word possible. The word has not been recognized as a virus because it has achieved a state of stable symbiosis with the host...(This symbiotic relationship is now breaking down for reasons I will suggest later.)

I quote from *MECHANISMS OF VIRUS INFECTION* edited by Mr. Wilson Smith, a scientist who really thinks about his subject instead of merely correlating data. He thinks, that is, about the ultimate intentions of the virus organism. In an article entitled *VIRUS ADAPTIBILITY AND HOST RESISTANCE* by G. Belyavin, speculations as to the biologic goal of the virus species are enlarged ... 'Viruses are obligatory cellular parasites and are thus wholly dependant upon the integrity of the cellular systems they parasitize for their survival in an active state. It is something of a paradox that many viruses ultimately destroy the cells in which they are living..'

And I may add the environment necessary for any cellular structure they could parasitize to survive. Is the virus then simply a time bomb left on this planet to be activated by remote control? An extermination program in fact? In its path from full virulence to its ultimate goal of symbiosis will any human creature survive? Is the white race, which would seem to be more under virus control than the black yellow and brown races, giving any indication of workable symbiosis?

'Taking the virus eye view, the ideal situation would appear to be one in which the virus replicates in cells without in any way disturbing their normal metabolism.'

This has been suggested as the ideal biological situation toward which all viruses are slowly evolving..'

Would you offer violence to a well intentioned virus on its slow road to symbiosis?

'It is worth noting that if a virus were to attain a state of wholly benign equilibrium with its host cell it is unlikely that its presence would be readily detected **OR THAT IT WOULD NECESSARILY BE RECOGNIZED AS A VIRUS.** I suggest that the word is just such a virus. Doktor Kurt Unruh von Steinplatz has put forth an interesting theory as to the origins and history of this word virus. He postulates

that the word was a virus of what he calls **BIOLOGIC MUTATION** effecting the biologic change in its host which was then genetically conveyed. One reason that apes cant talk is because the structure of their inner throats is simply not designed to formulate words. He postulates that alteration in inner throat structure were occasioned by virus illness ... And not occasion ... This illness may well have had a high rate of mortality but some female apes must have survived to give birth to the wonder kindern. The illness perhaps assumed a more malignant form in the male because of his more developed and rigid muscular structure causing death through strangulation and vertebral fracture. Since the virus in both male and female precipitates sexual frenzy through irritation of sex centers in the brain the males impregnated the females in their death spasms and the altered throat structured was genetically conveyed. Having effected alterations in the host's structure that resulted in a new species specially designed to accomodate the virus the virus can now replicate without disturbing the metabolism and without being recognized a virus. A symbiotic relationship has now been established and the virus is now built into the host which sees the virus as a useful part of itself. This successful virus can now sneer at gangster viruses like small pox and turn them in to The Pasteur Institute. Ach jungen what a scene is here ... the apes are moulting fur steaming off them females whimpering and slobbering over dying males like cows with aftosa and so a stink musky sweet rotten metal stink of the forbidden fruit in the Garden of Eden...

The creation of Adam, the Garden of Eden, Adam's fainting spell during which God made Eva from his body, the forbidden fruit which was of course knowledge of the whole stinking thing and might be termed the first Watergate scandal, all slots neatly into Doc Steinplatz's theory. And this was a white myth. This leads to the supposition that the word virus assumed a specially malignant and lethal form in the white race. What then accounts for this special malignance of the white word virus? Most likely a virus mutation occasioned by radioactivity .All animal and insect experiments so far carried out indicate that mutations resulting from radiation are unfavorable that is not conducive to survival. These experiments relate to the effects of radiation on autonomous creatures. What about the effects of radiation on viruses? Are there not perhaps some so classified and secret experiments hiding behind national security? Virus mutations occasioned by radiation may be quite favorable for the virus. And such a virus might well violate the equilibrium with the host cell.

So now with the tape recorders of Watergate and the fall out from atomic testing the virus stirs uneasy in all your white throats. It was a killer virus once. It could become a killer virus again and rage through cities of the world like a topping forest fire.

“It is the beginning of the end.” That was the reaction of a science attache’ at one of Washington’s major embassies to reports that a synthetic gene particle had been produced in the laboratory ...”Any small country can now make a virus for which there is no cure. It would only take a small laboratory. Any small country with good biochemists could do it.”

And presumeably any big country could do it quicker and better.

In the Electronic Revolution I advance the theory that a virus IS a very small unit of word and image. I have suggested now such units can be biologically activated to act as communicable virus strains. Let us start with three tape recorders in The Garden of Eden. Tape recorder 1 is Adam. Tape recorder 2 is Eve. Tape recorder 3 is God, who deteriorated after Hiroshima into the Ugly American. Or to return to our primevil scene: Tape recorder 1 is the male ape in a helpless sexual frenzy as the virus strangles him. Tape recorder 2 is a cooing female ape who straddles him. Tape recorder 3 is DEATH.

Steinplatz postulates that the virus of biologic mutation, which he calls Virus B-23, is contained in the word. Unloosing this virus from the word could be more deadly than loosing the power of the atom. Because all hate all pain all fear all lust is contained in the word. Perhaps we have here in these three tape recorders the virus of biologic mutation which once gave us the word and has hidden behind the word ever since. And perhaps three tape recorders and some good biochemists can unloose this force. Now look at these three tape recorders and think in terms of the virus particle. Recorder 1 is the perspective host for an influenza virus. Tape recorder number 2 is the means by which the virus gains access to the host, in the case of a flu virus by dissolving a hole in cells of the host’s respiratory tract. Number 2, having gained access to the cell, leads in number 3. Number 3 is the effect produced in the host by the virus: coughing, fever, inflammation. **NUMBER 3 IS OBJECTIVE REALITY PRODUCED BY THE VIRUS IN THE HOST** Viruses make themselves real. It’s a way viruses have. We now have three tape recorders. So we will make a simple word virus. Let us suppose that our target is a rival politician.

On tape recorder 1 we will record speeches and conversation carefully editing in stammers mispronouncing, inept phrases ... the worst number 1 can assemble. now on tape recorder 2 we will make so a love tape by bugging his bed room. We can potentiate this tape by splicing it in with a sexual object that is inadmissible or inaccessible or both, say the senator's teen age daughter. On tape recorder 3 we will record hateful disapproving voices and splice the three recordings together at very short intervals and play them back to the senator and his constituents. This cutting and playback can be very complex involving speech scramblers and batteries of tape recorders but **THE BASIC PRINCIPAL IS SIMPLY SPLICING SEX TAPE AND DISAPPROVAL TAPES IN TOGETHER.** Once the associations lines are established they are activated every time the senator's speech centres are activated which is all the time heaven help that sorry bestard if anything happened to his big mouth. So his teen age daughter crawls all over him while Texas rangers and decent church going women rise from tape recorder 3 screaming "WHAT ARE YOU DOING IN FRONT OF DECENT PEOPLE."

The teen age daughter is just a refinement. Basically all you need is sex recordings on number 2 and hostile recordings on number 3. With this simple formula any CIA sonofabitch can become God that is tape tape recorder 3. Notice the emphasis on sexual material in burglaries and bugging in the Watergate cess pool ...Bugging Martin Luther King's bed room ...Kiss Kiss bang bang ...A deadly assassination technique. At the very least sure to unnerve and put opponents at a disadvantage. So the real scandal of Watergate that has not come out yet is not that bed rooms were bugged and the offices of psychiatrists ransaked but **THE PRECISE USE THAT WAS AND IS MADE OF THIS SEXUAL MATERIAL.** This formula works best on a closed circuit. If sexual recordings and film are widespread, tolerated and publicaly shown tape recorder 3 losses ist power. Which perhaps explains why the Nixon administration is out to close down set films and reestablish censorship on all films and books. to keep close circuit on tape recorder 3.

And this brings us to the subject of **SEX.** In the words of the late John O'Hara I'm glad you came to me instead of one of those quacks on the top floor ...Psychiatrists, priests whatever they call themselves they want to turn in off and keep tape recorder 3 in business. Let's turn it on. All you swingers use video cameras and tape recorders to record and photograph your sessions. Now go over the session and pick out the sexiest pieces you know when it really **HAPPENS.** Reich built a machine with electrodes

attached to the penis to measure this orgasm charge. Here is unpleasurable orgasm sagging ominously as tape recorder 3 cuts in. He just made it. And here is a pleasurable orgasm way up on the graph. So take the best of your sessions and invite the nabors to see it. Its the naborly thing to do. Try cutting them in together alternating 24 frames per second. Try slow downs and speed ups.

Build and experiment with orgone accumulators. Its simply a box of any shape or size lined with iron. Your intrepid reporter at age 37 achieved spontaneous orgasm no hands in an orgone accumulator built in an orange grove in Pharr/Texas. It was the small direct application accumulator that did the trick. That's what every red blooded boy and girl should be doing in their basement work shop. The orgone accumulator could be greatly potentiated by using MAGNETIZED IRON which sends a powerful magnetic field through the body. And small accumulators like ray guns.

There is Two Gun Maggee going off in his pants. The gun falls from his hand. Quick as he was he was not quick enough.

For a small directional accumulator obtain six powerful magnets. Arrange your magnetized squares so they form a box. In one end of the box drill a hole and insert an iron tube. Now cover the box and tube with any organic material ...rubber,leather,cloth. Now train the tube on your privates and the privates of your friends and nabors. Its good for young and old man and beast and is known as SEX. It is also known to have a direct connection with what is known as LIFE. Let's get St. Paul off our backs and take off the bible belt. And tell tape recorder 3 to cover his own dirty thing. It stinks from the garden of Eden to Watergate.

I have said that the real scandal of Watergate is the use made of recordings. And what is this use? Having made the recordings as described what then do they do with them?

ANSWER: THEY PLAY THEM BACK ON LOCATION.

They play these recordings back to the target himself is the target is an individual from passing cars and agents that walk by him in the street. They play these recordings back in his naborhood. Finally they play them back in subways, restaurants, air ports and other public places.

PLAYBACK is the essential ingredient.

I have made a number of experiments with street recordings and playback over

a period of years and the startling fact emerges THAT YOU DO NOT NEED SEX RECORDINGS OR EVEN DOCTORED TAPES TO PRODUCE EFFECTS BY PLAYBACK. ANY RECORDINGS PLAYED BACK ON LOCATION IN THE MANNER I WILL NOW DESCRIBE CAN PRODUCE EFFECTS. No doubt sexual and doctored tapes would be more powerful. But some of the power in the word is released by simple playback as anyone can verify who will take the time to experiment ...I quote from some notes on these playback experiments.

Friday July 28, 1972 ...Plan 28 at a glance ...First some remarks on the tape recorder experiments started by Ian Sommerville in 196. these involved not only street, pub, party, subway recordings but also PLAYBACK on location. when I returned to London from the States in 1966 he had already accumulated a considerable body of data and developed a technology. He had discovered that playback on location can produce definite effects. Playing back recordings of an accident can produce another accident. In 1966 I was staying at the Rushmore Hotel, 11 Trebovir Road, Earl's Court, and we carried out a number of these operations: street recordings, cut in of other material, playback in the streets ...(I recall I had cut in fire engines and while playing this tape back in the street fire engines passed.) These experiments were summarized in THE INVISIBLE GENERATION ... (I wonder if anybody but CIA agents read this article or thought of putting these techniques into actual operation) Anybody who carries out similar experiments over a period of time will turn up more 'coincidences' than the law of averages allows. The tech can be extended by taking still or moving pictures during playback. I have frequently observed this operation: make recordings and take pictures of some location you wish to discomode or destroy, now play recordings back and take more pictures, will result in accidents, fires, removals. especially the latter The target moves. We carried out this operation with the Scientology Center at 37 Fitzroy Street. Some months later they moved to 68 Tottenham Court Road, where a similar operation was carried out...

Here is a sample operation carried out against The Moka Bar at 29 Frith Street London W1 beginning on August 3, 1972 ...Reverse Thursday ...Reason for operation was outrageous and unprovoked discourtesy and poisoned cheese cake...

Now to close in on The Moka Bar. Record. Take pictures. Stand around out-

side. Let them see me. They are seething around in there. The horrible old proprietor, his frizzy haired wife and slack jawed son, the snarling counter man. I have them and they know it.

“You boys have a rep for making trouble. Well come on out and make some. Pull a camera breaking act and I’ll call a Bobby. I gotta right to do what I like in the public street.”

If it came to that I would explain to the policeman that I was taking street recordings and making a documentary of Soho. This was after all London’s First Espresso Bar was it not? I was doing them a favor. They couldnt say what both of us knew without being ridiculous...

“He’s not making any documentary. He’s trying to blow up the coffee machine, start a fire in the kitchen, start fights in here, get us a citation from the Board of Health.”

Yes I had them and they knew it. I looked in at the old Prop and smiled as if he would like what I was doing. Playback would come later with more pictures. I took my time and strolled over to the Brewer Street Market where I recorded a three card Monte Game. Now you see it now you dont.

Playback was carried out a number of times with more pictures. Their business fell off. They kept shorter and shorter hours. October 30, 1972 The Moka Bar closed. The location was taken over by The Queens Snack Bar.

Now to apply the 3 tape recorder analogy to this simple operation. Tape recorder 1 is the Moka Bar itself it is pristine condition. Tape recorder 2 is MY RECORDINGS of the Moka Bar vicinity. These recordings are ACCESS. Tape recorder 2 in the Garden of Eden was Eve made from Adam. So a recording made from the Moka Bar is a piece of the Moka Bar. The recording once made, this piece becomes autonomous and out of their control. Tape recorder 3 is PLAYBACK. Adam experiences shame when his DISCRACEFUL BEHAVIOR IS PLAYED BACK TO HIM BY tape recorder 3 which is God. By playing back my recordings to the Moka Bar when I want and with any changes I wish to make in the recordings, I become God for this local. I effect them. They cannot effect me. And what part do photos take in this operation? Recall what I said earlier about written and spoken word. THE WRITTEN WORD IS AN IMAGE IS A PICTURE . The spoken word could be defined as any verbal units that correspond to these pictures and

could be in fact be extended to ANY SOUND UNITS THAT CORRESPOND to to the pictures ...Recordings and pictures are tape recorder 2 which is access. Tape recorder 3 is playback and 'reality'. For example suppose your bathroom and bed room are bugged and rigged with hidden infra red cameras. These pictures and recordings give access. You may not experience shame during defecation and intercourse but you may well experience shame when these recordings are played back to a disapproving audience.

Now let us consider the arena of politics and the applications of bugging in this area. Of course any number of recordings are immediately available since politicians make speeches on TV. However, these recordings do not give access. The man who is making a speech is not really there. Consequently more intimate or at least private recordings are needed which is why the Watergate conspirators had to resort to burglary. A presidential candidate is not a sitting duck like a Moka Bar. He can make any number of recordings of his opponents. So the game is complex and competitive with recordings made by both sides. This leads to more sophisticated techniques the details of which have yet to come out. The basic operation of recording pictures, more pictures and playback can be carried out by anyone with a recorder and a camera. Any number can play. Millions of people could nullify the control system which those who are behind Watergate and Nixon are attempting to impose. Like all control systems it depends on maintaining a monopoly position. If anybody can be tape recorder 3 then tape recorder 3 loses power. God must be THE GOD.

ELECTRONIC REVOLUTION

In THE INVISIBLE GENERATION first published in IT and in the Los Angeles Free Press in 1966 and reprinted in THE JOB, I consider the potential of thousands of people with recorders, portable and stationary, messages passed along like signal drums, a parody of the President's speech up and down the balconies, in and out open windows, through walls, over courtyards, taken up by barking dogs, muttering bums, music, traffic down windy streets, across parks and soccer fields.

Illusion is a revolutionary weapon:

TO SPREAD RUMOURS

Put ten operators with carefully prepared recordings out at rush hour and see how quick the words get around. People don't know where they heard it but they

heard it.

TO DISCREDIT OPPONENTS

Take a recorded Wallace speech, cut in stammering coughs sneezes hiccougs snarls pain screams fear whimperings apoplectic sputterings slobbering drooling idiot noises sex and animal sound effects and play it back in the streets subway stations parks political rallies.

AS A FRONT LINE WEAPON TO PRODUCE AND ESCALATE RIOTS

There is nothing mystical about this operation. Riot sound effects can produce an actual riot in a riot situation. RECORDED POLICE WHISTLES WILL DRAW COPS. RECORDED GUNSHOTS, AND THEIR GUNS ARE OUT.

“MY GOD, THEY’VE KILLING US.”

A guardsman said later: “I heard and saw my buddy go down, his face covered in blood (turned out he’d been hit by a stone from a sling shot) and I thought, well this is it.” BLOODY WEDNESDAY. A DAZED AMERICA COUNTED 23 DEAD AND 32 WOUNDED, 6 CRITICALLY.

Here is a run of the mill, pre-riot situation. Protesters have been urged to demonstrate peacefully, police and guardsmen to exercise restraint. Ten tape recorders strapped under their coats, playback, and record controlled from lapel buttons. They have prerecorded riot sound effects from Chicago, Paris, Mexico City, Kent/Ohio. If they adjust sound levels of recordings to surrounding sound levels, they will not be detected. Police scuffle with the demonstrators. The operators converge. turn on Chicago record, play back, move on to the next scuffles, record playback, keep moving. Things are hotting up, a cop is down groaning. shrill chorus of recorded pig squeals and parody groans.

Could you cool a riot by recording the calmest cop and the most reasonable demonstrator? Maybe! However, it’s a lot easier to start trouble than to stop it. Just pointing out that cut/ups on the tape recorder can be used as a weapon. You’ll observe that the operators are making a cutup as they go. They are cutting in Chicago, Paris, Mexico City, Kent Ohio with the present sound effects at random and that is a cutup.

AS A LONG RANGE WEAPON TO SCRAMBLE AND NULLIFY ASSOCIATIONAL LINES PUT DOWN BY MASS MEDIA

The control of the mass media depends on laying down lines of association. When the lines are cut the associational connections are broken.

President Johnson burst into a swank apartment, held three girls at gunpoint, 26 miles north of Saigon yesterday.

you can cut the mutter line of the mass media and put the altered mutter line out in the streets with a tape recorder. Consider the mutter line of the daily press. It goes up with the morning papers, millions of people read the same words. In different ways, of course. A motion praising Mr. Callaghan's action in banning the South African Cricket Tour has spoiled the colonel's breakfast. All reacting one way or another to the paper world or unseen events which becomes an integral part of your reality. You will notice that this process is continually subject to random juxtaposition. Just what sign did you see in the Green Park station as you glanced up from the PEOPLE? Just who called as you were reading your letter in the TIMES? What were you reading when your wife broke a dish in the kitchen? An unreal paper world and yet completely real because it is actually happening. Mutter line of the EVENING NEWS, TV. Fix yourself on millions of people all watching Jesse James or the Virginian at the same time. International mutter line of the weekly news magazine always dated a week ahead. Have you noticed it's the kiss of death to be on the front cover of TIME. Madam Nhu was there when her husband was killed and her government fell. Verwoerd was on the front cover of TIME when a demon tapeworm gave the order for his death through a messenger of the same. Read the Bible, kept to himself, no bad habits, you know the type. Old reliable, read all about it.

So stir in news stories, TV plays, stock market quotations, adverts and put the altered mutter line out in the streets.

The underground press serves as the only effective counter to a growing power and more sophisticated technique used by establishment mass media to falsify, misrepresent, misquote, rule out of consideration as a PRIORI ridiculous or simply ignore and blot out of existence: data, books, discoveries that they consider prejudicial to establishment interest.

I suggest that the underground press could perform this function much more effectively by the use of cut/up techniques. For example, prepare cut/ups of the ugliest reactionary statements you can find and surround them with the ugliest pictures. Now give it the drool, slobber, animal noise treatment and put it out on the mutter line with recorders. Run a scramble page in every issue of a transcribed tape

recorded cut/up of news, radio and TV. Put the recordings out on the mutter line before the paper hits the stand. It gives you a funny feeling to see a headline that's been going round and round inside your head. The underground press could add a mutter line to their adverts and provide a unique advertising service. Cut the product in with pop tunes, cut the product in with advertising slogans and jingles of other products and siphon off the sales. Anybody that doubts that these techniques work has only to put them to the test. The techniques here described are in use by the CIA and agents of other countries ...Ten years ago they were making systematic street recordings in every district of Paris. I recall the Voice of America man in Tangier and a room full of tape recorders and you could hear some strange sounds through the wall. Kept to himself, hello in the hall. Nobody was ever allowed in that room, not even a fatima. Of course, there are many technical elaborations like long-range directional mikes. When cutting the prayer call in with hog grunts it doesn't pay to be walking around the market place with a portable tape recorder.

An article in *NEW SCIENTIST* June 4, 1970, page 470, entitled ' Electronic Arts of Non communication ' by Richard C French gives the clue for more precise technical instructions.

In 1968, with the help of Ian Sommerville and Anthony Balch, I took a short passage of my recorded voice and cut it into intervals of one twenty - fourth of a second movie tape (movie tape is larger and easier to splice)- and rearranged the order of the 24th second intervals of recorded speech. The original words are quite unintelligible but new words emerge. The voice is still there and you can immediately recognise the speaker. Also the tone of the voice remains. If the tone is friendly, hostile, sexual, poetic, sarcastic lifeless, despairing, this will be apparent in the altered sequence.

I did not realise at the time that I was using a technique that has been in existence since 1881 ...I quote from Mr. French's article ... "designs for speech scramblers go back to 1881 and the desire to make telephone and radio communications unintelligible to third parties has been with us ever since"... The message is scrambled in transmission and then unscrambled at the other end. There are many of these speech scrambling devices that work on different principles... "another device which saw service during the war was the time division scrambler. The signal was chopped up into elements .005 cm long. These elements are taken in groups or

frames and rearranged in a new sequence. Imagine that the speech recorded is recorded on magnetic tape which is cut into pieces .02 long and the pieces rearranged into a new sequence. This can actually be done and gives a good idea what speech sounds like when scrambled in this way.”

This I had done in 1968. And this is an extension of the cut/up method. The simplest cut/up cuts a page down the middle and across the middle into four sections. Section 1 is then placed with section 4 and section 3 with section 2 in a new sequence. Carried further we can break the page down into smaller and smaller units in altered sequences.

The original purpose of scrambling devices was to make the message unintelligible without scrambling the code. Another use for speech scramblers could be to impose thought control on a mass scale. Consider the Human body and nervous system as unscrambling devices. A common virus like the cold sore could sensitize the subject to unscramble messages. Drugs like LSD and Dim-N could also act as unscrambling devices. Moreover, the mass media could sensitize millions of people to receive scrambled versions of the same set of data. Remember that when the human nervous system unscrambles a scrambled message this will seem to the subject like his very own ideas which just occurred to him, which indeed it did.

Take a card, any card. In most cases he will not suspect its extraneous origin. That is the run of the mill newspaper reader who receives the scrambled message uncritically and assumes that it reflects his own opinions independently arrived at. On the other other hand, the subject may recognise or suspect the extraneous origins of voices that are literally hatching out in his head. Then we have a classic syndrome of paranoid psychosis. Subject hears voices. Anyone can be made to hear voices with scrambling techniques. It is not difficult to expose him to the actual scrambled message, any part of which can be made intelligible. This can be done with street recorders, recorders in cars, doctored radio and TV sets. In his own flat if possible, if not in some bar or restaurant he frequents. If he doesn't talk to himself, he soon will do. You bug his flat. Now he is really round the bend hearing his own voice out of radio and TV broadcasts and the conversation of passing strangers. See how easy it is? Remember the scrambled message is partially unintelligible and in any case he gets the tone. Hostile white voices unscrambled by a Negro will also activate by association every occasion on which he has been threatened or humiliat-

ed by whites. To carry it further you can use recordings of voices known to him. You can turn him against his friends by hostile scrambled messages in a friend's voice. This will activate all his disagreements with that friend. You can condition him to like his enemies by friendly scrambled messages in enemy voices.

On the other hand the voices can be friendly and reassuring. He is now working for the CIA, the GPU, or whatever, and these are his orders. They now have an agent who has no information to give away and who doesn't have to be paid. and he is now completely under control. If he doesn't obey orders they can give him the hostile voice treatment. No, "They" are not God or super technicians from outer space. Just technicians operating with well-known equipment and using techniques that can be duplicated by anyone else who can buy and operate this equipment.

To see how scrambling technique could work on a mass scale, imagine that a news magazine like TIME got out a whole issue a week before publication and filled it with news based on predictions following a certain line, without attempting the impossible, giving our boys a boost in every story and the Commies as many defeats and casualties as possible, a whole new issue of TIME formed from slanted prediction of future news. Now imagine this scrambled out through the mass media.

With minimal equipment you can do the same thing on a smaller scale. You need a scrambling device, TV, radio, two video cameras, a ham radio station and a simple photo studio with a few props and actors. For a start you scramble the news all together and spit it out every which way on ham radio and street recorders. You construct fake news broadcasts on video camera. For the pictures you can use mostly old footage. Mexico City will do for a riot in Saigon Chile you can use the Londonderry pictures. Nobody knows the difference. Fires, earthquakes, plane crashes can be moved around. for example, here is a plane crash in Toronto 108 dead. so move the picture of the Barcelona plane crash over to Toronto and Toronto to Barcelona. And you scramble your fabricated news in with actual news broadcasts.

You have an advantage which your opposing player does not have. He must conceal his manipulations. You are under no such necessity. In fact you can advertise the fact that you are writing the news in advance and trying to make it happen by techniques which anybody can use. And that makes you NEWS. And TV personality as well, if you play it right. You want the widest possible circulation for your

cut/up video tapes. Cut/up techniques could swamp the mass media with total illusion.

Fictional dailies retroactively cancelled the San Francisco earthquake and Halifax explosion as journalistic hoaxes, and doubt released from the skin law extendible and ravenous, consumed all the facts of history.

Mr French concludes his article ...”The use of modern microelectric integrated circuits could lower the cost of speech scramblers enough to see them in use by private citizens. Codes and ciphers have always had a strong appeal to most people and I think scramblers will as well...”

It is generally assumed that speech must be consciously understood to cause an effect. Early experiments with subliminal images have shown that this is not true. A number of research projects could be based on speech scramblers. We have all seen the experiment where someone hears his own recorded voice back a few seconds later. Soon he cannot go on talking. Would scrambled speech have the same effect? To what extent does a language act as unscrambling in either-or conflict terms? To what extent does the tone of voice used by a speaker impose a certain unscrambling sequence on the listener?

Many of the cut/up tapes would be entertaining and in fact entertainment is the most promising field for cut/up techniques. Imagine a pop festival like Phun City scheduled for July 24th, 25th, 26, 1970 at Ecclesden Common, Patching, near Worthing, Sussex. Festival area comprised of car park and camping area, a rock auditorium, a village with booths and cinema, a large wooded area. A number of Tape recorders planted in the woods and the village. As many as possible so as to lay down a grid of sound over the whole festival. Recorders have tapes of prerecorded material, music, news, broadcasts, recordings from other festivals, etc. At all times some of the recorders are playing back and some are recording. The recorders recording the crowd and the other tape recorders that are playing back at varying distances. This cuts in the crowd who will be hearing their own voices back. Play back, wind back and record could be electronically controlled with varying intervals. Or they could be hand operated, the operator deciding what intervals of play back, record, and wind to use. Effect is greatly increased by a large number of festival goers with portable recorders playing back and recording as they walk around the festival. We can carry it further with projection screens and video cameras. Some of

the material is pre-prepared, sex films, films of other festivals, and this material is cut in with live TV broadcasts and shots of the crowd. Of course, the rock festival will be cut in on the screens, thousands of fans portable recorders recording, and playing back, the singer could direct play back and record. Set up an area for traveling performers, jugglers, animal acts, snake charmers, singers, musicians, and cut these acts in. Film and tape from the festival, edited for best material, could then be used at other festivals.

Quite a lot of equipment and engineering to set it up. the festival could certainly be enhanced if as many festival goers as possible bring portable tape recorders and play back at the festival.

Any message, music, conversation you want to pass around, bring it prerecorded on tape so everybody takes a piece of your tape home.

Research project: to find out to what extent scrambled messages are unscrambled, that is scanned out by experimental subjects. The simplest experiments consists in playing back a scrambled message to subject. Message could contain simple commands. Does the scrambled message have any command value comparable to post-hypnotic suggestion? Is the actual content of the message received? What drugs, if any, increase ability to unscramble messages? Do subjects vary widely in this ability? Are scrambled messages in the subject's own voice more effective than messages in other voices? Are messages scrambled in certain voices more easily unscrambled by specific subjects? Is the message more potent with both word and image scramble on video tape? Now to use, for example, a video tape message with a unified emotional content. Let us say the message is fear. For this we take all the past fear shots of the subject we can collect or evoke. We cut these in with fear words and pictures, and threats, etc. This is all acted out and would be upsetting in any case. Now let's try it scrambled and see if we can get an even stronger effect. The subject's blood pressure, rate of heart beat, and brain waves are recorded as we play back the scrambled tape.

His face is photographed and visible to him on video screen at all times. the actual scrambling of the tape can be done in two ways. It can be a completely random operation like pulling pieces out of a hat and if this is done several consecutive units may occur together yielding an identifiable picture of intelligible word. Both methods of course can be used at varying intervals. Blood pressure, heart beat, and

brain wave recordings will show the operator what material is producing the strongest reaction, and he will of course zero in. And remember that the subject can see his face at all times and his face is being photographed. As the Peeping Tom said, the most frightening thing is fear in your own face. If the subject becomes too disturbed we have peace and safety tapes ready.

Now here is a sex tape: This consists of a sex scene acted out by the ideal sexual object of the subject and his ideal self image. Shown straight it might be exciting enough, now scramble it. It makes a few seconds for scrambled tapes to hatch out, and then? can scrambled sex tapes zeroing in on the subject's reactions and brain waves result in spontaneous orgasm? Can this be extended to other functions of the body? A mike secreted in the water closet and all his shits and farts recorded and scrambled in with stern nanny voices commanding him to shit, and the young liberal shits his pants on the platform right under Old Glory. Could laugh tapes, sneeze tapes, hiccough tapes, cough tapes, give rise to laughing sneezing, hiccoughing, and coughing?

To what extent extent can physical illness be induced by scrambled tapes? Take for example, a sound and colour picture of a subject with a cold. Later, when the subject is fully recovered, we take colour and sound film of recovered subject. We now scrambled the cold pictures and sound track in with present pictures on present pictures. We also project the cold pictures on present pictures. Now we try using some of Mr. Hubbard's reactive mind phrases which are supposed in themselves to produce illness. To be me, to be you, to stay here, to stay there, to be a body, to be bodies, to stay present, to stay past. now we scramble this in together and show it to the subject. Could seeing and hearing this sound and image track, scrambled down to very small units, bring about an attack of cold virus? Is such a cold tape does actually produce an attack of cold virus, perhaps we have merely activated a latent virus. Many viruses, as you know, are latent in the body and may be activated. We can try the same with coldsore, with hepatitis, always remembering that we may be activating a latent virus and in no sense creating a laboratory virus. However, we may be in a position to do this. Is a virus perhaps simply very small units of sound and image? Remember the only image a virus has is the image and sound track it can impose on you. The yellow eyes of jaundice, the postules of smallpox, etc. imposed on you against your will. The same is certainly true of scrambled word and

image it can make you unscramble. Take a card, any card. This does not mean that it is actually a virus. Perhaps to construct a laboratory virus we would need both camera and sound crew and a biochemist as well. I quote from the INTERNATIONAL PARIS TRIBUNE an article on the synthetic gene: "Dr. Har Johrd Khorana has made a gene-synthetic."

"It is the beginning of the end," this was the immediate reaction to this news from the science attache' at one of Washington's major embassies. "If you can make genes you can eventually make new viruses for which there are no cures. any little country with good biochemists could make such biological weapons. It would take only a small laboratory. If it can be done, somebody will do it. "For example, a death virus could be created that carries the coded message of death. A death tape, in fact. No doubt the technical details are complex and perhaps a team of sound and camera men working with biochemists would give us the answer.

And now the question as to whether scrambling techniques could be used to spread helpful and pleasant messages. Perhaps. On the other hand, the scrambled words and tape act like a virus in that they force something on the subject against his will. More to the point would be to discover how the old scanning patterns could be altered so that subject liberates his own spontaneous scanning pattern.

NEW SCIENTIST 2 July, 1970 ...Current memory theory posits a seven second temporary "buffer store" preceding the main one: a blow on the head wipes out memory of this much prior time because it erases the contents of the buffer. Daedalus observes that the sense of the present also covers just this range and so suggests that our sensory input is recorded on an endless time loop, providing some seven seconds of delay for scanning before erasure. In this time the brain edits, makes sense of, and selects storage key features. The weird DEJA VU sensation "now" has happened before is clearly due to brief erasure failure, so that we encounter already stored memory data coming round again. Time dragging or racing must reflect tape speed. A simple experiment will demonstrate this erasure process in operation. Making street recordings and playing them back, you will hear things you do not remember, sometimes said in a loud clear voice, must have been quite close to you, nor do you necessarily remember them when you hear the recording back. The sound has been erased according to a scanning pattern which is automatic. This means that what you notice and store as memory as you walk down

the street is scanned out of a much larger selection of data which is then erased from the memory. For the walker the signs he passed, people he has passed, are erased from his mind and cease to exist for him. Now to make this scanning process conscious and controllable, try this:

Walk down a city block with a camera and take what you notice, moving the camera around as closely as possible to follow the direction of your eyes. The point is to make the the camera your eyes and take what your eyes are scanning out of the larger picture. At the same time take the street at a wide angle from a series of still positions. The street of the operator is, of course, the street as seen by the operator. It is different from the street seen at a wide angle. Much of it is in fact missing. Now you can make arbitrary scanning patterns - that is cover first one side of the street and then the other in accordance with a preconceived plan. So you are breaking down the automatic scanning patterns. You could also make colour scanning patterns, that is, scan out green, blue, red, etc. in so far as you can with your camera. That is, you are using an arbitrary preconceived scanning pattern, in order to break down automatic scanning patterns. a number of operators do this and then scramble their takes together and with wide angle tapes. This could train the subject to see at a wider angle and also to ignore and erase at will.

Now all this is readily subject to experimental verification on control subjects. Nor need the equipment be all on control subjects. Nor need the equipment be all that complicated. I have shown how it could work with feedback from brainwaves and visaaceral response and video tape photos of subject taken while he is seeing and hearing the tape, simply to show optimum effectiveness.

You can start with two tape recorders. The simplest scrambling device is scissors and splicing equipment. You can start scrambling words, make any kind of tapes and scramble them and observe the effects on friends and on yourself. Next step is sound film and then video camera. Of course results from individual experiments could lead to mass experiments, mass fear tapes, riot tapes, etc. The possibilities here for research and experiment are virtually unlimited and I have simply made a few very simple suggestions

“A virus is characterised and limited by obligate cellular parasitism. All viruses must parasite living cells for their replication. For all viruses the infection cycle comprises entry into the host, intracellular replication, and escape from the body of the

host to initiate a new cycle in a fresh host." I am quoting here from *MECHANISMS OF VIRUS INFECTION* edited by Dr. Wilson Smith. In its wild state the virus has not proved to be a very adaptable organism. Some viruses have burned themselves have burned out since they were 100 per cent fatal and there were no reservoirs. Each strain of virus is rigidly programed for certain attack on certain tissues. If the attack fails, the virus does not gain a new host. There are, of course, virus mutations, and the influenza virus has proved quite versatile in this way. Generally it's the simple repetition of the same method of entry, and if that method is blocked by any body or other agency such as interferon, the attack fails. By and large, our virus is a stupid organism. Now we can think for the virus, devise a number of alternate methods of entry. For example, the host is simultaneously attacked by an ally virus who tells him that everything is allright and by a pain and fear virus. so the virus is now using an old method of entry, namely, the tough cop and the con cop.

We have considered the possibility that a virus can be activated or even created by very small units of sound and image. So conceived, the virus can be made to order in the laboratory. Ah, but for the takes to be effective, you must have also the actual virus and what is the actual virus? New viruses turn up from time to time but from where do they turn up? Well, lets see how we could make a virus turn up. We plot now our virus's symptoms and make a scramble tape. The susceptible subjects, that is those who reproduce some of the desired symptoms, will then be scrambled into more tapes till we scramble our virus into existence. This birth of a virus occurs when our virus is able to reproduce itself in a host and pass itself on to another host. Perhaps, too, with the virus under laboratory control it can be tamed for useful purposes. Imagine, for example a sex virus. it so inflames the sex centres in the back brain that the host is driven mad from sexuality, all other considerations are blacked out Parks full of naked, frenzied people, shitting, pissing, ejaculating, and screaming. So the virus could be malignant, blacking out all regulation and end in exhaustion, convulsions, and death.

Now let us attempt the same thing with tape. We organise a sex-tape festival. We organise a sex-tape festival. 100,000 people bring their scrambled sex tapes, and video tapes as well, to scramble in together. Projected on vast screens, muttering out over the crowd, sometimes it slows down, so that you see a few seconds, then scram-

bled again, then slow down, scramble. Soon it will scramble them all naked. The cops and the National Guard are stripping down. LET'S GET OURSELVES SOME CIVVIES. Now a thing like that could be messy, but those who survive it recover from the madness. Or, say, a small select group of really like-minded people get together with their sex tapes, you see the process is now being brought under control. And the fact that anybody can do it is in itself a limiting factor.

Here is Mr. Hart, who wants to infect everyone with his own image and turn them all into himself, so he scrambles himself and dumps himself out in search of worthy vessels. If nobody else knows about scrambling techniques he might scramble himself quite a stable of replicas. but anybody can do it. So go on, scramble your sex words, and find suitable mates.

If you want to, scramble yourself out there, every stale joke, fart, chew, sneeze, and stomach rumble. If your trick no work you better run. Everybody doing it, they all scramble in together and the populations of the earth just better settle down a nice even brown colour. Scrambles is the democratic way, the way full cellular representation. Scrambles is the American way.

I have suggested that virus can be created to order in the laboratory from very small units of sound and image. Such a preparation is not in itself biologically active but it could activate or even create virus in susceptible subjects. A carefully prepared jaundice tape could activate or create or create the jaundice virus in liver cells, especially in cases where the jaundice liver is already damaged. The operator is in effect directing a virus revolution of the cells. Since DOR seems to attack those exposed to it at the weakest point, release of this force could coincide with virus attack.

Reactive mind phrases could serve the same purpose of rendering subjects more susceptible to virus attack.

It will be seen that scrambled speech already has many of the characteristics of virus. When the speech takes and unscrambles, this occurs compulsively and against the will of the subject. A virus must remind you of its presence. Whether it is the mag of a cold sore or the torturing spasms of rabies the virus reminds you of its unwanted presence. "HERE ME IS."

So does scrambled word and image. The units are unscrambling compulsively, presenting certain words and images to the subject and this repetitive presentation is irritating certain bodily and neutral areas. The cells so irritated can produce over a

period of time the biologic virus units. We now have a new virus that can be communicated and indeed the subject may be desperate to communicate this thing that is bursting inside him. He is heavy with the load. Could this load be good and beautiful? Is it possible to create a virus which will communicate calm and sweet reasonableness? A virus must parasitise a host in order to survive. It uses the cellular material of the host to make copies of itself, in most cases this is damaging to the host. The virus gains entrance by fraud and maintains itself by force. An unwanted guest who makes you sick to look at is never good or beautiful. It is moreover a guest who always repeats itself word for word take for take.

Remember the life cycle of a virus ... penetration of a cell or activation within the cell, replication within the cell, escape from the cell to invade other cells, escape from host to infect a new host. This infection can take place in many ways and those who find themselves heavy with the load of a new virus generally use a shotgun technique to cover a wide range of infection routes... cough, sneeze, spit and fart at every opportunity, Save shit, piss, snot, scabs, sweat stained clothes and all bodily secretions for dehydration. The composite dust can be unobtrusively billowed out a roach bellows in subways, dropped from windows in bags, or sprayed out a crop duster ... Carry with you at all times an assortment of vectors ... lice, fleas, bed bugs, and little aviaries of mosquitoes and biting flies filled with your blood ... I see no beauty in that.

There is only one case of favourable virus influence benefiting an obscure species of Australian mice. On the other hand, if a virus produces no damaging symptoms we have no way of ascertaining its existence and this happens with latent virus infections. It has been suggested that yellow races resulted from a jaundice-like virus which produced a permanent mutation not necessarily damaging, which was passed along genetically. The same may be true of the word. The word itself may be a virus that has achieved a permanent status with the host. However, no known virus in existence at the present time acts in this manner, so the question of a benefit virus remains open. It seems advisable to concentrate on a general defence against all virus.

Ron Hubbard, founder of Scientology, says that certain words and word combinations can produce serious illnesses and mental disturbances. I can claim some skill in the scrivener's trade, but I cannot guarantee to write a passage that will make

someone physically ill. If Mr. Hubbard's claim is justified, this is certainly a matter for further research, and we can easily find out experimentally whether his claim is justified or not. Mr. Hubbard bases the power he attributes to words on his theory of engrams. An engram is defined as word, sound, image recorded by the subject in a period of pain and unconsciousness. Some of his material may be reassuring: "I think he's going to be alright." Reassuring material is an ally engram. Ally engrams, according to Mr. Hubbard, are just as bad as hostile as pain engrams. Any part of this recording played back to the subject later will reactivate operation pain, he may actually develop a headache and feel depressed, anxious, or tense. Well, Mr. Hubbard's engram theory is very easily subject to experimental verification. Take ten volunteer subjects, subject them to a pain stimulus accompanied by certain words and sounds and images. You can act out little skits.

"Quickly, nurse, before I lose my little nigger," bellows the southern surgeon, and now a beefy white hand falls on the fragile black shoulder. "Yes, he's going to be alright. He's going to pull through."

If I had my way I'd let these animals die on the operating table."

"You do not have your way, you have your duty as a doctor, we must do everything in our power to save human lives."

And so forth.

It is the tough cop and the con cop. The ally engram is ineffective without the pain engram, just as the con cop's arm around your shoulder, his soft persuasive voice in your ear, are indeed sweet nothings without the tough cop's blackjack. Now to what extent can words recorded during medical unconsciousness be recalled during hypnosis or scientological processing? To what extent does the playback of this material affect the subject unpleasantly? Is the effect enhanced by scrambling the material, pain and ally, at very short intervals? It would seem that a scrambled engram's picture could almost dump an operating scene right in the subject's lap. Mr. Hubbard has charted his version of what he calls the reactive mind. This is roughly similar to Freud's ID, a sort of built-in self defeating mechanism. As set forth by Mr. Hubbard this consists of a number of quite ordinary phrases. He claims that reading these phrases, or hearing them spoken, can cause illness, and gives this as his reason for not publishing this material. Is he perhaps saying that these are magic words? Spells, in fact? If so, they could be quite a weapon scam-

bled up with imaginative sound-and-image track. Here now is the magic that turns men into swine. To be an animal: a lone pig grunts, shits, squeals and slobbers down garbage. To be animals: A chorus of a thousand pigs. Cut that in with video tape police pictures and play it back to them and see if you get a reaction from this so reactive mind.

Now here is another. To be a body, well it's sure an attractive body, rope the marks in. And a nice body symphony to go with it, rhythmic heart beats, contented stomach rumbles. To be bodies: recordings and pictures of hideous, aged, diseased bodies farting, pissing, shitting, groaning, dying. To do everything: man in a filth apartment surrounded by unpaid bills, unanswered letters, jumps up and starts washing dishes and writing letters. To do nothing: he slumps in a chair, jumps up, slumps in chair, jumps up. Finally, slumps in a chair, drooling like an idiot helplessness, while he looks at the disorder piled around him. The reactive mind commands can also be used to advantage with illness tapes. While projecting past cold sore on to the subject's face, and playing him back to him a past illness tape, you can say: to be me, to be you, to stay here, to stay there, to be a body, to be bodies, to stay in, to stay out, to stay present, to stay absent. To what extent are these reactive mind phrases when scrambled effective in causing disagreeable symptoms in control volunteer subjects? As to Mr. Hubbard's claim for the reactive mind, only research can give us the answers.

The RM then is an artifact designed to limit and stultify on a mass scale. In order to have this effect it must be widely implanted. This can readily be done with modern electronic equipment and techniques described in this treatise. The RM consists of commands which seem harmless and in fact unavoidable ... To be a body ... but which have the most horrific consequences.

Here are some sample RM screen effects ...

The RM can be cut in with the most ordinary scenes covering the planet in a smog of fear ...

The RM is a built-in electronic police force armed with hideous threats. You don't want to be a cute little wolf cub? All right, cattle to the slaughter house meat on a hook.

Here is a nostalgic reconstruction of the old fashioned Mayan methods. The wrong kind of workers with wrong thoughts are tortured to death in rooms under the pyramid ... A young worker has been given a powerful hallucigen and a sexual stimulant ... Naked he is stripped down and skinned alive ... The Gods of pain are surfacing from the immemorial filth of time ...The Ouab bird stands there, screams, washing through his wild blue eyes. Others are crabs from the waist up clicking their claws in ecstasy, they dance around and mimic the flaved man. The scribes are busy with sketches ...Now he is strapped into a segmented copper centipede and placed gently on a bed of hot coals ... Soon the priests will dig the soft meat from the shell with their golden claws ... Here is another youth staked out on an ant hill honey smeared on his eyes and genitals ...Others with heavy weights on their backs are slowly dragged through the wooden troughs in which shards obsidian have been driven ...So the priests are the masters of pain and fear and death ...To do right... to obey the priests ... To do wrong? the priest's very presence and a few banal words....

The priests postulated and set up a hermetic universe of which they were the axiomatic controllers. In so doing they became Gods who controlled the known universe of the workers. They became Fear and Pain, Death and Time. By making opposition seemingly impossible they failed to make any provision for opposition. There is evidence that this control system broke down in some areas before the arrival of the White God. Stellae have been found defaced and overturned, mute evidence of a worker's revolution. How did this happen? The history of revolutionary movements shows that they are usually led by defectors from the ruling class. The Spanish rule in South America was overthrown by Spanish revolutionaries. The French were driven out of Algeria by Algerians educated in France. Perhaps one of the priest Gods defected and organised a worker's revolution ...

The priest Gods in the temple. They move very slowly, faces ravaged with age and disease. Parasitic worms infest their flesh. They are making calculations for the sacred books.

“400,000,000 years ago on this day a grievous thing happened...”

Limestone skulls rain in through the porticos. The Young Maize God leads the workers as they storm the temple and drag the priests out. They build a huge brush fire, throw the priests in and then throw the sacred books in after them. Time buckles and bends. The old Gods, surfacing from the immemorial depths of time, burst in the sky ... Mr Hart stands there looking at the broken sellae ... “How did this happen?”

His control system must be absolute and world wide. Because such a control system is even more vulnerable to attack from without than revolt within... Here is Bishop Luanda burning burning sacred books. To give you an idea as to what is happening, imagine our civilisation invaded by louts from outer space...

“Get some bulldozers in here. Clear out all this crap...” The formulae of all natural sciences, books, paintings, the lot, swept into a vast pile and burned. and that's it. No one ever heard of it.

Three codices survived the vandalism of Bishop Landa and these are burned around the edges.

No way to know if we have here the sonnets, the Mona Lisa or the remnants of a Sears Roebuck catalogue after the old out-house burned down in a brush fire. A whole civilisation went up in smoke...

When the Spaniards arrived, they found the Mayan aristocrats lolling in hammocks. Well, time to show them what is what. Five captured workers bound and stripped, are castrated on a tree stump. the bleeding sobbing, screaming bodies bodies thrown into a pile...

“And now get this through your gook nuts. We want to see a pile of gold big and we want to see it pronto. The White God has spoken.”

Consider now the human voice as a weapon. To what extent can the unaided human voice duplicate effects that can be done with a tape recorder? Learning to speak with the mouth shut, thus displacing your speech, is fairly easy. You can also learn to speak backwards, which is fairly difficult. I have seen people who can repeat what you are saying after you and finish at the same time. This is a most disconcerting trick, particularly when practiced on a mass scale at a political rally. Is it possible to actually scramble speech? A far-reaching biologic weapon can be forged from a new language. In fact such a language already exists. It exists as Chinese, a total language closer to multilevel structure of experience, with a script derived from hieroglyphs, more closely related to the objects and areas described. The equanimity of the Chinese is undoubtedly derived from their language being structured for greater sanity. I notice the Chinese, wherever they are retain the written and spoken language, while other immigrant peoples will lose their language in two generations. The aim of this project is to build up a language in which certain falsifications inherit in all existing western languages will be made incapable of formulation. The follow-falsifications to be deleted from the proposed language.

This IS OF IDENTITY. You are an animal. You are a body. Now whatever you may be you are not an “animal”, you are not a “body”, because these are verbal labels. The IS of identity always carries the assignment of permanent condition. To stay that way. All name calling presupposes the IS of identity. This concept is unnecessary in a hieroglyphic language like ancient Egyptian and in fact frequently omitted. No need to say the sun IS in the sky, sun in sky suffices. The verb TO BE can easily be omitted from any languages and the followers of Count Korybski have done this, eliminating the verb TO BE in English. However, it is difficult to tidy up the English language by arbitrary exclusion of concepts which remain in force so long as the unchanged language is spoken.

THE DEFINITE ARTICLE THE. THE contains the implication of one and

only: THE God, THE universe, THE way, THE right, The wrong, If there is another, then THAT universe, THAT way is no longer THE universe, The way. The definite article THE will be deleted and the indefinite article A will take it's place.

THE WHOLE CONCEPT OF EITHER/OR. Right or wrong, physical or mental, true or false, the whole concept of OR will be deleted from the language and replaced by juxtaposition, by AND This is done to some extent in any pictorial language where two concepts stand literally side by side. These falsifications inherent in the English and other western alphabetical languages give the reactive mind commands their overwhelming force in these languages. Consider the IS of identity. When I say to be me, to be you, to be myself, to be others- whatever I may be called upon to be or to say that I am- I am not the verbal label "myself." The word BE in the English language contains, as a virus contains, its precoded message of damage, the categorical imperative of permanent condition. To be a body, to be an animal. If you see the relation of a pilot to his ship, you see crippling force of the reactive mind command to be a body. Telling the pilot to be the plane, then who will pilot the plane?

The IS of identity, assigning a rigid and permanent status, was greatly reinforced by the customs and passport control the came in after World War I. Whatever you may be, you are not the verbal labels in your passport. any more than you are the word "self." So you must be prepared to prove at all times that you are what you are not. Much of the falsification inherent in the categorical definite THE. THE now, THE past, THE time, THE space, THE energy, THE matter, THE universe. Definite article THE contains the implications of no other. THE universe locks you in THE, and denies the possibility of any other. If other universes are possible, then the universe is no longer THE it becomes A. The definite article THE is deleted and replaced by A. many of the RM commands are in point of fact contradictory commands and a contradictory command gains its force from the Aristotelian concept of either/or. To do everything, to do nothing, to have everything, to have nothing, to do it all, to do not any, to stay up, to stay down, to stay in, to stay out, to stay present, to stay absent. These are in point of fact either/or propositions. To do nothing OR everything, to have it all, OR not any, to stay present OR to stay absent. Either/or is more difficult to formulate in a written language

where both alternatives are pictorially represented and can be deleted entirely from the spoken language. The whole reactive mind can be in fact reduced to three little words - to be "THE". That is to be what you are not, verbal formulations.

I have frequently spoken of word and image as viruses or as acting as viruses, and this is not an allegorical comparison. It will be seen that the falsifications of syllabic western languages are in point of fact actual virus mechanisms. The IS of identity the purpose of a virus is to SURVIVE. To survive at any expense to the host invaded. To be an animal, to be a body. To be an animal body that the virus can invade. To be animals, to be bodies. To be more animal bodies, so that the virus can move from one body to another. To stay present as an animal body, to stay absent as antibody or resistance to the body invasion.

The categorical THE is also a virus mechanism, locking you in THE virus universe. EITHER/OR is another virus formula. It is always you OR the virus. EITHER/OR. This is in point of fact the conflict formula which is seen to be archetypal virus mechanism. The proposed language will delete these virus mechanisms and make them impossible of formulation in the language. This language will be a tonal language like Chinese, it will also have a hieroglyphic script as pictorial as possible without being to cumbersome or difficult to write. This language will give one option of silence. When not talking, the user of this language can take in the silent images of the written, pictorial and symbol languages.

I have described here a number of weapons and tactics in the war game. Weapons that change consciousness could call the war game in question. All games are hostile. Basically there is only one game from here to eternity. Mr Hubbard says that Scientology is a game where everybody wins. There are no games where everybody wins. That's what games are all about, winning and losing ... The Versailles Treaty ... Hitler dances the Occupation Jig ... War criminals hang at Nuremberg ... It is a rule of this game that there can be no final victory since this mean the end of the war game. Yet every player must believe in final victory and strive for it with all his power. Faced by the nightmare of final defeat he has no alternative. So all technologies with escalating efficiency produce more and more total weapons until we have the atom bomb which could end the game by destroying all players. Now mock up a miracle. The so stupid players decide to save the game. They sit down around a big table and draw up a plan for the immediate deactivation and eventual destruc-

tion of all atomic weapons. Why stop there? Conventional bombs are unnecessarily destructive if nobody has them hein? Let's turn back the war clock back to 1917:

Keep the home fires burning Through the hearts are yearning

There's a long, long trail winding...

Back to the American Civil War...

"He has loosed the fatal lightning of this terrible swift sword." His fatal lightning didn't cost as much in those days. Save a lot on the defence budget this way on back to flintlocks, matchlocks, swords, armour, lances, bows and arrows, spears, stone axes and clubs. Why stop there? Why not grow teeth and claws, poison fangs, stingers, spines, quills, beaks and suckers and stink glands and fight in out in the muck hein?

That is what this revolution is about. End of game. New games? There are no new games from here to eternity.

END OF THE WAR GAME.
